

APOCALYPSE: GOD-LEVEL ZOMBIE SYNTHESIS SYSTEM

Chapter 2

Ye Li thought to himself, "These are four zombies. How can an ordinary person like me subdue them?"

But there was no time to think much. The four male zombies had already arrived in front of him.

Ye Li rolled away, avoiding the zombies' attack.

He felt something hard on the ground

It was an iron rod.

Although he didn't know why there would be an iron rod in the ward, he could use it to fight these four zombies.

Ye Li stood up and struck one of the zombies' heads with the iron rod.

With his survival instincts in overdrive, Ye Li's full potential was unleashed.

His only thought now was to take down these four zombies.

Ye Li swung the iron rod at the other three zombies, and they fell to the ground instantly.

Phew...

Ye Li breathed a sigh of relief, knowing that zombies weren't that easy to kill.

Just as he was about to escape, the four zombies stood up from the ground and lunged at him again.

Ye Li had to use the iron rod to strike their heads again.

He didn't know where he got the strength, but he managed to knock down the four male zombies again.

Although the zombies were not dead, they had lost their ability to move for a short time.

"Host can synthesize these four male zombies."

As Ye Li was about to leave the hospital room, the system's voice sounded in his mind.

Four grids appeared in Ye Li's mind.

There was a zombie in each grid.

The zombie's level was displayed above its head, all of them at level 1.

During the hundred years after zombies appeared, zombies were classified into different levels.

Level 1-5 zombies were called ordinary zombies.

Level 6-10 were called advanced zombies.

And those above level 10 were called mutant zombies.

mutant zombies were vastly different from level-10 zombies.

The lowest-leveled mutant zombies were Tier 1 zombies, with green eyes.

"System, how do I synthesize them?"

"As long as the host drags a level 1 zombie onto another level 1 zombie, they can be synthesized."

Ye Li followed the instructions and dragged a level 1 zombie onto another one.

"Are you sure you want to synthesize them?"

"Yes!"

Ye Li clicked the confirm button.

The two level 1 zombies merged into a level 2 zombie.

Ye Li was excited and synthesized the other two level 1 zombies into level 2 zombies.

The original four level 1 zombies became two level 2 zombies.

"System, can these two level 2 zombies be synthesized into a level 3 zombie?"

"Yes, host."

Hearing this, Ye Li synthesized the two level 2 zombies into a level 3 zombie.

Although a level 3 zombie was just an ordinary zombie, not even an advanced zombie, it didn't matter. What mattered was that Ye Li could synthesize zombies.

This way, he could create an army of zombies.

“I never thought it would be this exciting. I thought it would be difficult to survive this post-apocalyptic world. But now, it’s just so much fun.”

Ye Li smiled and looked at the level 3 zombie in front of him, thinking that it was incredibly ugly and scary.

Ding...

“Congratulations to the host for synthesizing a zombie for the first time. Host, you have received a treasure box. Would you like to open it?”

“Open it.”

“Congratulations to the host for obtaining 10 gene points, 10 strength points, 10 speed points, and 10 defense points.”

Ye Li integrated the attributes he obtained into his body and felt a qualitative change in his physical abilities.
