

APOCALYPSE: GOD-LEVEL ZOMBIE SYNTHESIS SYSTEM

Chapter 3

“Congratulations host for becoming an Awakened Being.”

Upon hearing the system’s words, Ye Li’s face lit up with joy.

Awakened Beings could be very different from ordinary people. As long as one became an Awakened Being, he was a real warrior.

“Here is the host’s attribute panel.”

“Host: Ye Li.”

“Age: 21.”

“System: Super Synthetic System.”

“Realm: 1st Level Awakened Being.”

“Skills: None.”

“Gene: D-level.”

Ye Li smiled with satisfaction. Although he was only a 1st Level Awakened Being now, with the system, upgrading would be fast.

He thought that although he now had a Level 3 zombie, it was far from enough.

A Level 3 zombie was just an ordinary one, and more zombie synthesis was needed.

This city had already been occupied by zombies, and the number of zombies was probably in the tens of thousands.

Thinking of this, Ye Li was very excited.

But he still couldn’t face the massive tide of zombies now. First, he had to become stronger and synthesize more zombies.

“There should be more than four zombies in this hospital, right?” Ye Li said to himself.

With that, Ye Li took the Level 3 male zombie and left the ward.

The stronger the zombie, the fewer in number. Advanced zombies were extremely rare, let alone Tier 1 or higher-tiered mutant zombies.

Most zombies were just Level 1 zombies!

Ye Li's purpose in leaving the ward was to find more zombies.

"Ah!"

A terrifying scream came into Ye Li's ears.

Ye Li knew it was a human scream, so he quickly followed the sound with the Level 3 male zombie and arrived outside a room.

Pushing the door open, he found several zombies eating a doctor's corpse.

The scene was simply appalling!!!

There were both male and female zombies, and when they saw Ye Li, they rushed towards him crazily.

"Roar! Roar!"

Ye Li didn't run away, but let the Level 3 male zombie take down the male and female zombies in front of him.

The six zombies lost their fighting ability and fell to the ground, screaming in pain.

Four of the six zombies were male and two were female.

"System, can male and female zombies be synthesized?"

"No, only zombies of the same gender can be synthesized."

Ye Li nodded, and immediately these zombies appeared in the grids in his mind.

All six zombies were Level 1 zombies. Ye Li combined four Level 1 male zombies into two Level 2 zombies.

And he combined two Level 1 female zombies into one Level 2 female zombie.

He now had one Level 3 male zombie, two Level 2 male zombies, and one Level 2 female zombie.

Ye Li combined two Level 2 male zombies into a Level 3 zombie.

He now had two Level 3 male zombies.

Without any hesitation, Ye Li combined these two Level 3 male zombies into a Level 4 zombie.

Ye Li was excited. It wouldn't be long before he synthesized a mutant zombie.

Ding...

"Congratulations, host, for randomly obtaining a treasure chest. Would you like to open it?"

"Open it!"

Ye Li said without any hesitation.

"Congratulations, host, for obtaining a steel-cutting knife."

"Congratulations, host, for obtaining immunity to zombie poison."

"Congratulations, host, for acquiring a box of food."

Ye Li's eyes brightened as he thought that the treasure chest had yielded some really good stuff this time.

He received the "steel-cutting knife", and a sharp blade emitting a chilling radiance appeared in his hand.

"Immunity to zombie poison" was the ultimate cheat within cheats. With immunity to zombie poison, he no longer needed to fear turning into a zombie.

As for food!!!

Ye Li had been so excited just now that he had completely forgotten about how thirsty and hungry he was.

He quickly opened the box and found bread and milk inside.

Ye Li began to devour them ravenously. In this world, just being able to survive was already a blessing. Who cared about manners when it came to eating?

Before long, he had polished off an entire box of bread and milk.

Patting his stomach, Ye Li felt the satisfying feeling of being full.

Now that he was well-fed and hydrated, it was time to find some zombies to synthesize.

This hospital was so big, so there had to be more than just a few zombies here.

Ye Li started to search for more zombies with the level 4 male zombie and level 2 female zombie.
