

Apocalypse 321

Chapter 321: Soldier vs soldier

Demon Gold's eyes flashed. For some reason, his heart jumped when he saw this loser.

Bai Feng was standing there like a giant mountain.

"Bai Feng!"

Demon Gold lowered his head slightly, and his body tensed up.

"You didn't expect me to be alive, right?" Bai Feng wore white clothing. He said while removing the buttons to reveal his chest.

The three saints opened their eyes wide.

There was a giant wound on the chest.

It wasn't the wound from a blade or holes from guns; the entire patch was a scar!

It occupied the entire chest!

If one didn't look at Bai Feng's head and limbs, just his chest, he would be a barbecued piece of meat.

"Very terrifying, right?" Bai Feng touched his chest and looked at Demon Gold, "I thought I would die. Even with the three-star evolved's body, an open stomach meant death."

"Your Spirit Feeder Job is strong. That white bone fork skill was too much for me, and I didn't even force out your transformation."

Bai Feng talked about this like he mentioned something that had nothing to do with himself. His skin turned golden as he spoke, and those wounds became small golden snakes.

"I want to thank you for giving me a chance to revive. I broke free from the chains of being the top in Ying City... I became stronger."

Bai Feng's aura climbed. That decently handsome face turned to gold, and he looked like a giant copper man.

"Today, I am your opponent. Let me see if you can kill the stronger me!" Bai Feng screamed, "If you kill me, you can deal with Ye Zhongming."

Demon Gold took in a deep breath. Several black mists appeared around him. Although he didn't know how Bai Feng lived, he knew things were getting out of his control.

"A three-star evolved dares to be so arrogant? They underestimate us." Green Flower sighed. Her snow-white hands moved. She didn't mind helping Demon Gold to kill this fellow.

“Fighting without equipment is so foolish.” Abyss Mountain’s face was cold. He walked towards Bei Feng. He didn’t want people to affect the plan.

“A group fight is not good; let’s train instead.”

A devilish voice spread out, and a beautifully dressed woman appeared.

“This concerns Cloud Peak, but we had to bother Boss Bai Feng; really sorry.” This beautiful woman used her big, watery eyes to glance at the Soul Merchant soldiers, “Bai Feng is so strong but was badly defeated by you guys. I was also terrified. I wanted to see what the Soul Merchant lords that made Ye Zhongming afraid looked like. Now that I have seen you, I am a little disappointed.”

Abyss Mountain stopped as he sensed a strong aura from this woman.

“Your looks are far worse than our Cloud Peak.”

This beautiful woman revealed her white but scary teeth and held Moon Edge, “Ying City was so exciting, but it is time for Cloud Peak to join in!”

When Xia Lei said that, many cold warriors appeared behind her. Those familiar faces appeared.

Liang Chuyin, Park Xiuying, Little Tiger, Young Master Yun, Shengyuan, Tang Tian...

Ye Zhongming fought alone in Ying City for many days and finally gathered his men to face the nightmarish Soul Merchant!

“King versus king. Apart from your guild leader, you don’t have the skill to bother our boss.” Little Tiger licked his lips, and he was excited about the upcoming battle.

Soul Merchant went silent. Then, Green Flower laughed out loud.

“People who don’t know what is happening might be terrified by you. Come, let me see if the people who keep shouting for the kings to fight the kings can fight our Saints!”

Demon Gold and Abyss Mountain’s mouth twitched. They nearly forgot the reputation of Green Flower. This woman was someone that even the guild leader feared when she went mad.

“Since you are a woman, then let’s fight.”

In the building on the side was a beige jacket woman. The wind caused her jacket to rustle.

Apart from that lonely feeling she gave off, one paid attention to the green arrow on her back.

Demon Gold’s pupils constricted. He recognized the bow that should belong to Ye Zhongming.

At this point, Demon Gold would be a fool if he didn’t realize that Ye Zhongming had seen through his plan and found a way to counter it. He used interests to tie the two factions of Ying City to him. Along with his own Cloud Peak, they found them and sniped them.

Renxing Battle Squad and Star Beauty Company warriors surrounded Soul Merchant with the help of Cloud Peak.

.....

Bei Zi stopped. His hoodie covered his face in the darkness. He slowly turned around and faced his side.

A woman with half an ugly face squatted at the corner and looked at him like a venomous snake.

“Seems like Demon Gold’s operation was predicted.” Bei Zi smiled and looked at the ugly woman he handed Lou’s Family. His gaze was still filled with admiration, even more than before.

“Just you alone?” Bei Zi looked around in disbelief, “Do they think you can kill me alone? Are you too confident? Or am I wrong, and I haven’t noticed your ambush.”

“Only me.” Xia Bai stood up. She didn’t walk out of the shadows as she didn’t like the light now.

“We could ambush you, but I didn’t let them.” Xia Bai touched her hands and then her face. Her expression was replaced with determination.

“I told you that I would feed your hand to the dogs!”

Chapter 322: Life and death in an instance

When mutated lifeforms were lower leveled, they relied more on their bodies when fighting.

Although there were some high-level lifeforms like that, that was because they had strong attack methods.

At level five, evolution lifeforms went from low-level to mid-level. Mutated lifeforms learned how to coordinate their skills and their bodies.

Like these two fellows, they bit and clawed and used their skills. This was similar to the battle styles that Ye Zhongming was familiar with in his last life.

Sometimes, Ye Zhongming didn’t know if his rebirth had changed some things. Whether humans, monsters, mutated animals, or mutated plants, their overall strength was high.

This problem hadn’t been solved. Ye Zhongming was not god and couldn’t turn back time to see if Soul Merchant and Glory Army were as strong in his last life. Could God Hall nurture a level-five being, too?

But he felt like many things had changed compared to his last life, but the change wouldn’t be that intense. After all, he only dared to leave his home and force himself to adapt to this new world.

He couldn’t come into contact with the high-level world at all.

Yellow Ball stopped barking as its teeth were either ripping off flesh or chewing flesh that it bit off.

The meat of the Giant Lightning Beast was very thick and had a stench. It was disgusting compared to the meat of other mutated lifeforms. Especially the sour taste in the meat; it was as disgusting as decomposing meat in the cemetery.

But Yellow Ball enjoyed it.

To eat the flesh of a strong opponent gave one a great feeling of conquest.

Shadow Forest Spike stabbed many deep wounds into the body of the Giant Lightning Beast. The lightning cloud would also leave wounds on Yellow Ball, and both sides bled, forming a pool on the ground. As the battle proceeded, the blood would seep into the ground and get evaporated by the lightning. Either that or that would step onto the dirt and kick it far away when fighting.

Be it relying on the body or more focused on skills, mutated lifeforms had a more gory battle than humans, and it was more visually stimulating.

Ye Zhongming looked. He felt that it wasn't reasonable at the start, but as he looked, he was impressed by this risky fighting style. Maybe the reason why survivors were at a disadvantage was because they lacked the courage.

Ye Zhongming wanted to attack. Although Yellow Ball was injured, it wasn't fatal, so he didn't move.

The crazy person in the air continued to video. Ye Zhongming had to admit that his job was strong. A small plane was used like a drone. It made impossible movements at every second. This fellow should be a powerful person in God Hall.

There were some abnormal fluctuations from the distance. Ye Zhongming knew that his trading with the various factions should have worked if things were as expected. His men would also join the humans to fight.

Although he didn't think anything surprising would happen, he knew this was tough. He needed everyone to step across it together. Only then could he confidently face the revenge of Soul Merchant and Glory Army.

On the side, Yellow Ball and Giant Lightning Beast's battle ended.

What shocked Ye Zhongming was that both fellows left an ultimate move.

The first to move was the Giant Lightning Beast.

It was strong and had the rare ability to control lightning. Its attacks were strong, and each would cause a numbing effect that affected movement.

But its defense was weaker than Yellow Ball's.

Yellow Ball's golden fur had a high defense, like a thick metal armor layer. Each time the lightning hit, it would spread throughout the body. Although the place that was hit would have a wound, it wasn't as serious as it looked.

At the same time, the Giant Lightning Beast had a huge body while Yellow Ball was smaller. This meant that it was more nimble. It was easier to dodge attacks and had a larger variety of attacks.

Along with its ability to jump, Yellow Ball had an advantage.

If this continued, the Giant Lightning Beast would be kited to death.

Thus, this beast used its ultimate move.

It used a space, allowing Yellow Ball to rip off a piece of meat from its leg to smack the dog aside. It roared toward the sky, and the cloud scattered, turning into specks of light. They gathered and formed a giant ball of light.

Lightning swept within the ball, and it looked like a ball of flesh with numerous veins.

Ball-shaped Lightning!

The Giant Lightning Beast held up the lightning ball with one hand and charged forward. Tossing it towards Yellow Ball.

Ye Zhongming instinctively moved forward.

Yellow Ball was in pain. This fellow was very powerful. After it saw the ball lightning, Yellow Ball became much more serious.

It jumped to the side to try to dodge. At the same time, the spikes started to appear quickly to try to slow the Giant Lightning Beast down. But the enemy was insane, allowing those metal spikes to pierce through its body, but it didn't change its path.

The Ball-shaped Lightning flew. Yellow Ball realized it would change directions based on its movement and couldn't dodge it.

The dog was furious. It barked. Shadow Forest Spike disappeared, and what replaced it was a metal wall.

This wall was covered in fist-sized metal balls. As Yellow Ball roared, these balls fired from the wall toward the Giant Lightning Beast.

Yellow Ball got a new skill when it reached level five!

Hong!

The giant explosion gave off an eye-piercing light. The huge shockwave swept the battlefield, and even Ye Zhongming was blown back.

After the shockwave, Ye Zhongming glanced at the majestic Yellow Ball without fur. Its body was scorched, and a barbecued scent was spreading.

But it was still standing.

The giant body of the Giant Lightning Beast had fallen to the ground. On its body were many of the black metal balls from Yellow Ball. One of that was in its face!

Two level-five lifeforms fought to the death, and Yellow Ball won!

Chapter 323: Smoke rises

"It is quite exciting there."

Bai Feng said, but his eyes only had Demon Gold.

Demon Gold turned back to see his partners Abyss Mountain and Green Flower nodding at him.

Everyone knew that they had to fight. Only one side would win, and the side that loses would die.

The three saints knew that the 4th saint that should have appeared was probably intercepted.

This meant that Soul Merchant's plan today was seen through, and they were in a passive state. If they couldn't show off their strength in the battle, then Soul Merchant would lose four saints today. Their ability would be significantly reduced.

They were arrogant a minute ago, but that was all gone. They realized things hadn't gone smoothly since Ye Zhongming appeared before them. They were even in many dangerous situations.

“Since that is the case, then let's fight.”

Demon Gold sucked a deep breath, covering his hands in dense bone scales. When these bone scales appeared, they started to spin, making his hands look like an electric saw.

This saint was in a bad situation and immediately used this meat shredder skill. The wolf souls around him roared toward the person who had lost to them before.

A glow flashed in Bai Feng's eyes, “You are not using Human Spirit Transformation?”

“You are not worthy!” Demon Gold roared and stepped forward. The ground cracked, and the black energy spread through the gaps.

Demon Gold started to fight, launching the battle between the factions Ye Zhongming and Soul Merchant led!

Of course, no one would expect that the battle, or rather the war, between the two sides would last for a long time.

Bai Feng's body turned into copper. Copper Fighter along with Metal Body. Bai Feng used his ultimate move right at the start of the fight.

Fist shadows turned into a veil of fists. The punching speed proved that Bai Feng was much stronger. This person had put in a lot of effort.

Some things couldn't be made up for with potions or scrolls. They needed the evolved to put in hard work.

Demon Gold shouted, and the wolf souls surged forward. Along with the black mist on the ground, they attacked simultaneously.

They clashed in the air, and both sides scoffed and took a few steps back. They looked at each other solemnly.

Demon Gold understood that Bai Feng was much stronger. This move ripped his chest open previously. This time, it only managed to scatter his fist shadows and break his job skill. But his skill did not have any effect either.

“Use Human Spirit Transformation. If not, you can't win today.”

“Don't be so confident, you loser!” Demon Gold charged forward once more.

.....

“Cold-faced fellow, let's start too.”

Xia Lei laughed. But when Abyss Mountain was about to say something, she slashed.

“Despicable!”

Abyss Mountain wouldn't get hurt by that blade, but the feeling of having to swallow his words annoyed him. This woman looked beautiful, but he didn't expect her to be so cunning.

Abyss Mountain adjusted his breathing, and the ground beneath his feet started to move.

Be it dirt or bricks, they turned into a brown liquid that spread from below him. They covered his body apart from his eyes and nose!

“Mother of Earth!” Abyss Mountain’s voice was muffled, and he pointed at Xia Lei, “You will become the earth’s food!”

Xia Lei laughed, “Mother of Earth? Is there milk?”

Moon Edge didn’t stop, and she sliced toward his knees.

She didn’t aim for the crucial areas but his joint. Her choices were always different from others.

“Stupid.”

Abyss Mountain’s body became thicker. When Moon Edge sliced it, it felt like it was hitting glue. It was easy to slice in but hard to push forward.

“Yi?”

Xia Lei was shocked, and she jumped backward. Abyss Mountain’s hand spread and the sticky liquid lengthened. It turned into a sharp dirt spike that stabbed toward her face.

Moon Edge dragged across the ground, allowing Xia Lei to borrow this strength to move to the side. The dirt spike brushed her tender face and left a blood bead.

Xia Lei rolled her eyes.

“Damn, you dare to hurt my face!”

She cursed, and a light flashed on Moon Edge that she was holding.

If Ye Zhongming were here, he would be familiar with these scenes. That was the symbolic light of the Blademaster.

Young Master Yun brought back the evolution blood and the other things Ye Zhongming obtained. Cloud Peak’s strength had jumped tremendously.

For example, Xia Lei got the three-star potion and the Blade master’s job scroll.

A blade grandmaster taught her, and now, with the job, Moon Edge was terrifying in her hands!

A disfigured woman was terrifying. She waved to Little Tiger, who tossed his weapon to her. She waved two blades and charged at Abyss Mountain.

.....

Cloud Peak had changed since Ye Zhongming left.

The giant stone gate was lifted again but will never be used as a trap. That was because it was secured and became an actual gate.

The walls on the sides had a small scale. Due to defense requirements, the first layer was five meters tall. Dozens of meters of it were done, and it was two meters wide. The second layer of the wall was built relying on it. At certain distances, there would be a giant metal board. Ye Zhongming told them to do it, but no one knew why.

At this moment, hundreds of people were busy on the walls. This small bit of wall was not enough to protect the entire mountain. They needed at least two months to complete this first layer.

“Little Ye!”

Lu Yi’s voice interrupted Mo Ye, who was thinking. She glanced and showed her heroic face.

“They are here!”

Mo Ye nodded. She glanced towards Ying City. She knew Ye Zhongming and her allies were battling a strong opponent. But she was here. Not because she was afraid but because this was Ye Zhongming’s foundation. She had to protect this place.

Mo Ye jumped from the tall wall and landed elegantly. Lu Yi, Sister Rong, Liu Zhenghong, and even Candy appeared. Over a hundred evolved warriors were also left in Cloud Peak.

The hundred working ordinary people also placed their tools down and picked up the weapons beside them. They walked to the gate.

This was all the soldiers in Cloud Peak that could fight, everyone in Cloud Peak!

On the nearby road, a guy biting a beast’s leg appeared. Behind him was a group of vicious-looking criminals.

Chapter 324: Oriole appears again

Everyone had a past; some were worth reminiscing, while some weren’t.

Sun Wanhu was the same.

He was a flying instructor during peacetime. It was a high-paying job that many people envied. He was the youngest speaker in university, which was the best time of his life.

Unfortunately, a woman destroyed his life.

You can say that love caused him to fall into a deep hole. He used all his savings to pay for her expenditure. To be able to do so, he quit his job and went to become a private instructor that paid more.

Love was not eternal.

Flying was a dangerous job. Sun Wanhu worked overtime to earn more money, and there was an incident. He then lost his credentials to fly.

That led to him losing that woman.

There was no revenge like in novels, no situation where he met a new person worth his time. He accepted that fact. However, he was affected by it and became a little crazy.

Then, the apocalypse arrived.

He was found and made to do his old job. He was able to do so without any credentials.

In the next few months, he evolved, got a job, and felt he had a perfect life.

But he became more and more crazy and even started to play with women.

Glasses once said that if Sun Wanhu could live a more normal life, he would be three-star now.

But he spent a lot of his crystals on women.

But at this moment, Sun Wanhu wasn't excited at all. He only felt the coldness that would only appear under huge flying stress.

The guy on the ground and his battle pet killed the Giant Lightning Beast!

That was the hard work of God Hall. It was the high level of strength that they promised their clients. However, it died just like that.

Level five!

How many level-five are there in the world now? How many were there in Ying City? They could be counted on one hand!

It was actually... Killed.

Sun Wanhu could imagine how furious the chief would be.

What terrified him was that the guy with a level-five pet didn't even help. How strong was such a person? His impression of God Hall wouldn't be good after this battle. With how badly his pet was injured, they would probably be enemies.

Sun Wanhu regretted telling him about God Hall.

He kept the camera. He knew that he had to send this back. He provided first-hand information even if they couldn't brag to their clients about this.

Sun Wanhu pulled the yoke, and the plane started to turn. He admitted that the human and his pet were strong but couldn't threaten him when he was flying high.

"Not bad, but I will bring you a level-six beast next time. Wait for your death!" Sun Wanhu felt more confident when he said that.

He looked below but saw the human who had dismembered the giant beast running with his pet in another direction.

En? Was he terrified? Sun Wanhu entertained himself by saying that. But he knew that it was impossible.

"Forget it, goodbye!" Sun Wanhu didn't understand and planned to fly away. But he suddenly felt something. He raised his head, and his eyes opened wide. In the next second, red flames covered his plane and him.

There was an explosion in the skies of Ying City.

.....

Zhao Xingmei pulled an arrow out and placed it on the green bowstring.

Zhao Xingmei and her Star Beauty Company paid nearly everything for this bow.

No, not nearly. They did pay everything they had.

To be able to gather the items that Ye Zhongming requested, they traded with other factions. Each battle squad went out for days to hunt to get the crystals to trade.

In the end, after taking up some debt and having losses while hunting that would cause them to drop out of the top five of Ying City, she used three three-star evolution potions, ten two-star potions, three hundred one-star potions, and mutated animal materials to trade for this green weapon called Flying Star.

Star Beauty Company only had three three-star evolved now!

In other words, if they didn't trade, they could use these items to become the strongest faction in Ying City.

But Zhao Xingmei felt like it was worth it, and so did her subordinates.

On the first day she had the bow, she killed a level-three mutated fly behaving arrogantly to her.

She only used a basic metal arrow.

She hadn't even used the grey arrows that Ye Zhongming, that vampire, sold for a level-two crystal a piece.

With this bow, those things they paid would be earned back quickly.

Of course, this was also because of her job-- Light Spirit Archer.

With this Flying Star, it was a perfect combination.

Sniping Soul Merchant, handling one Saint was one of the added conditions of the trade.

Although it was only a condition, Zhao Xingmei wanted to fight.

The moment the giant wheel descended to the ground, she decided to be trading partners with Cloud Peak. This was the start of close cooperation.

That person called Ye Zhongming was a vampire and measured everything in demon crystals. Zhao Xingmei knew that the materials she traded him would instantly turn into grey arrows and then be sold to her for one level-two crystal.

But so what? She could use it to kill a level three!

This was the benefit of cooperation. Win-win. It wasn't them ripping off each other.

So today, not only did she have to hold back a saint, but she also wanted to... Kill her.

Saint?

Her beautiful eyes were filled with disdain.

All sorts of weird things appeared in the apocalypse. Was this the world of legends? Or a fantasy novel?

So when she placed the arrow on, killing intent spread from her body. She wanted to kill her opponent.

"Keke, interesting. It has been a few months since someone wanted to kill me. You are the first." Green Flower smiled and took out two daggers from her back.

Her body started to disappear in the sunlight. She went from a living person into a pale shadow.

"Your job might be good against other saints, but you are unlucky to face me."

Green Flower's body floated towards Zhao Xingmei.

The arrow shot out, and it was covered in starlight. She wasn't affected and aimed at Green Flower.

The battle of the three saints rang out.

Chapter 325: Darkness Spectre vs Tempo Warrior

"You became so confident after becoming three-star evolved."

Bei Zi sighed, "En, I smell the scent of someone that just evolved. Your boss is not bad; he will spend money on you."

"Has he slept with you?" His tone changed, and he laughed, "With your looks, your boss is probably not interested. There is a lack of many things in the apocalypse, but there is no lack of beautiful women."

The area was wide and empty. Those zombies and mutated lifeforms that could be seen all the time were all gone. It was as if they knew that a huge battle would happen here.

Bei Zi's hands moved like she was stretching.

"Since you two haven't slept, why are you so loyal to him? Maybe he would give potions or other good things to his other women. Would you be jealous?"

His legs tapped on the ground with a tempo.

"You are afraid."

Xia Bai suddenly said three words. She lowered her head. She had no more hair. One side of her face was smooth, and the other was covered in scars. She looked terrifying when she was in the shadows.

"If not, why say all these to provoke me?" Xia Bai was speaking more than usual. Maybe it was because she was previously badly defeated by Bei Zi.

"Let me correct you; he is not my boss; he is someone I am loyal to for the rest of my life. He pulled me up from hell. A person like you won't understand, but I do."

Xia Bai raised her head. A thick blood vessel appeared on her face, squirming under her skin. Her body became slightly smaller, and things looked weird.

Her white skin changed and turned purple. Purple hair started to grow from her bald head and only stopped when it reached her feet.

The closed eyes opened. Her eyes didn't look human; it was as if two storms inside were sweeping worlds.

Xia Bai disappeared from the room.

Bei Zi's calmness disappeared. Although one couldn't see his face clearly, one could imagine how shocked he was.

"Bloodline?!" Bei Zi was shocked, "Ye Zhongming gave you a bloodline!"

Soul Merchant used the Enlightening Video to see what Ye Zhongming got from the wheel. They naturally knew that he had two bloodline crystals.

Ye Zhongming would use one, and that was shown in the battle. But Soul Merchant's few saints analyzed and felt like the other would be given to a core Cloud Peak member. The most possible would be Xia Lei or Mo Ye. Shengyuan and Liang Chuyin were possible, too.

But they didn't think about Xia Bai. Apart from this ugly woman having a similar evolution level, she had no other advantage. She could do lesser things than others, and she wouldn't be as much help.

Normally, she wouldn't get such a precious item as a bloodline.

But Ye Zhongming gave her the only remaining crystal.

Xia Bai also got one of the three-star potions from trading Flying Star. As well as a job scroll.

Ye Zhongming saw her loyalty.

Strictly speaking, it was her mental illness. But it was the apocalypse, so who would care? Ye Zhongming just needed to know that she wouldn't betray him.

There was also one point. He knew that she was vicious when she fought. She was vicious to both her enemy and herself. Such a battle style would increase her battle strength.

All these things would be very effective on her body.

Of course, this bloodline was also very suitable for her.

"Bloodline: Low-Grade Darkness Spectre!"

A strong bloodline for someone who walked in the shadows.

Bei Zi's arms and legs moved quickly. A sharp aura rose from his body.

"Tempo Warrior!"

Bei Zi's hoodie revealed half of his face. His lips had a neat black beard on it.

"I can give you another chance, be loyal to me!"

"Coward!"

The two of them replied quickly before Xia Bai attacked.

No matter who it was, whether they were strong or weak, Xia Bai replied with one word.

She didn't charge. She just moved in the shadows. As she moved, she disappeared. Bei Zi couldn't find her with his naked eye.

Bei Zi moved to the right, where there was more sunlight.

In the next second, she charged from behind him and punched his head.

Bei Zi moved forwards, and he rolled on the ground. His legs kicked her fist.

Xia Bai retreated, and Bei Zi returned to normal.

He turned around and laughed.

"I found your weakness!" Bei Zi looked at Xia Bai, who disappeared into the shadows again, "If it was night, I have to admit that you are invincible. Your bloodline is too strong and can catch one off guard. If you sneak attack, I can't ensure I can dodge it every time."

"But it is daytime. You won't be hidden when there is sunlight. If you come out of the shadows, I will find you! Your bloodline ability would be useless, so how can you fight me?!"

A toy that he could play with could challenge him. This difference didn't feel good.

Xia Bai appeared again, and she was in another direction. She was still behind Bei Zi's line of sight.

Bei Zi turned around and punched!

But this time, that first was different from before.

Bei Zi used normal punches to defeat her last time; that was enough to defeat her previously.

This punch seemed weak, but Xia Bai still dodged it.

Their two fists brushed in the sky.

Crack.

Xia Bai's pinky broke.

"You are still not my match."

Bei Zi recovered, and the advantage made him calm down.

Xia Bai stopped talking once they started to fight. After her pinky broke, she didn't return to the darkness and stood under the sunlight.

"You are not dodging?" Bei Zi's job gave him strong combat strength. Seeing that Bei Zi wouldn't hide in the darkness, he smiled.

Xia Bai touched her pinky and slowly pulled it back into position. That slow motion made Bei Zi twitch.

How vicious did one have to be to do that to themselves?

"Darkness... Calamity!"

After Xia Bai's hoarse voice, the sky turned dark!

Xia Bai used her job skills at the crucial moment.

Job: Soul Reaper.

Chapter 326: Red crystal: level-six

"Is Worker Le away?"

Mo Ye saw the enemy take a few losses before they started to clear the traps carefully. He asked Sister Rong and Lu Yi.

“Yes. They went with Young Master Yun’s father and uncle to Hungry Tiger Cavalry’s base and are waiting for our main squad there.”

Lu Yi was worried; he was not confident about the upcoming fight.

The main force was in Ying City, so few remained. Half were newbies. Although they all had one-star evolution potions, they weren’t too strong.

Lu Yi didn’t oppose Ye Zhongming’s decision as he knew Cloud Peak had to interfere in Ying City. After all, it was the apocalypse, and trust was a huge problem. Although Ye Zhongming convinced the two factions to work together, they had to be strong to prevent problems from happening.

That concerned Cloud Peak’s future.

Ye Zhongming only suspected that people would attack the base. They hoped it wouldn’t, but now his suspicion was real. The one that came was the strong Ying City Jail.

The higher-ups left knew that this would be a tough battle.

If they didn’t do well, they might...

Lu Yi frowned and stopped thinking about it. There was no point. They couldn’t lose the base.

He glanced at Liu Zhenghong, who was playing with her blade. Sister Rong opened her mouth; she hesitated before saying, “Ye Zhongming told you to leave with Worker Le.”

She laughed, “I am not such a coward. I fought and survived until now. I am a fighting scientist.”

Mo Ye smiled. A battle was about to occur, so having such a partner was good.

“Jinghong, are you not going?”

Liu Zhenghong tapped the shoulder of a guy beside her. This was one of the first groups of people that came after Ye Zhongming occupied Cloud Peak. He was a doctor. He also joined in to help Jia Yi and the others clear the Fake Ghost Tree in their bodies.

He relied on his medical skills and basics to become Liu Zhenghong’s assistant. She didn’t leave, but he could. Any technical talents could leave the place first.

“I am afraid you won’t want me if I leave. There aren’t many places to eat to my fill and look at beautiful women.”

Everyone laughed. The nervous atmosphere was turned much better.

Ying City Jail was 50 meters away. Although they paid some price, it wasn’t a big issue.

“Finish the bullets! Then it is time for us to risk our lives!”

Mo Ye pulled the trigger. Cloud Peak attacked first.

.....

Ye Zhongming carried Yellow Ball and ran on the road.

Although he considered it, because he didn’t find any of its tracks, he felt like it wouldn’t be a huge problem. He didn’t expect it to appear at this moment.

He paid the price for that guess.

Yangos were here!

Along with it was the red crystal on its head!

Ye Zhongming cursed it several times, but it couldn't change the fact that it was level-six.

A few days had passed, and Yangos, who was high level-five, had evolved. It was here to take revenge.

It came out from the clouds and cleared Sun Wanhu and his plane. It flapped its wings and smiled at Ye Zhongming.

“Where is your... Battle pet!”

Ye Zhongming felt his head hurt. He fell to the ground and let go of the badly injured Yellow Ball.

Blood flowed from his nose. That teasing mental signal appeared in his head.

Dragons were strong mental energy users. Yangos was already at the top of the intermediate evolution. Although it couldn't speak like Talking Lady and Red Hair, its mental energy wasn't weaker. It could transmit its thoughts clearly to a target.

“Fight your sister!” Ye Zhongming scolded. He carried Yellow Ball, who bared its fangs at the dragon and wanted to fight.

Yellow Ball was injured. Even if it were not, Ye Zhongming would choose to flee.

Dragon Race was different from other races. It was impossible to defeat it when you were lower level, even if Ye Zhongming was here too.

To challenge the level-six Yangos, Ye Zhongming had to work with Yellow Ball, Talking Lady, and Red Hair.

So Ye Zhongming didn't run to his men and Cloud Peak. That would be him bringing calamity to them. He ran towards the core Ying City area. He contacted Red Hair for her to find Talking Lady. It was best if they could find the Rat King. If they all worked together, they could battle this dragon.

After all, no one wanted to see a level-six presence behaving arrogantly in their living space.

A level-six dragon and a level-five dragon were two different concepts. If the level-six dragon did what it wanted, the high-level lifeforms in Ying City would be eaten individually and help it turn into level-seven.

Ye Zhongming knew that this fellow washed surrounding cities in blood. It was more than one. Who knew how many lifeforms it swallowed to evolve in just half a month?

Dragons were like that. Especially the evil Western dragons that often wiped out cities.

Ye Zhongming's speed while carrying Yellow Ball was fast. Blood Stepping Boots buffed one's speed based on your stats. As he got stronger, he would become quicker.

But he was not as fast as the flying dragon. Dragon race might not be the quickest in flying, but they were one of the fastest.

The gap went from a few thousand meters to a few hundred.

“Kneel and I will let you die honorably.”

Ye Zhongming gave him a middle finger.

Being able to act cool was one of the annoying dragons' personalities.

Heat spread from behind him, and Ye Zhongming activated quickness to speed up. Not only did he dodge, but he also opened up some distance.

But it only lasted for three seconds.

Yangos was 200 meters away. At this distance, other dragon skills were in range.

As expected, Yangos slashed with its short but sharp claws. A giant meteor whistled down. Its ten-meter diameter slammed down at Lightning speed, so Ye Zhongming could not dodge.

Ye Zhongming stopped. He tossed Yellow Ball behind him, and his eyes were bloodshot.

Chapter 327: Both using ultimate skills

The copper and white scale fists clashed in midair. They then clashed again. In a short instance, they clashed many times.

Bai Feng retreated. He couldn't control the weird force that was spreading from his hand. His intestines were rolling. Those thick hands that represented his job had turned from copper to blood red.

It was covered in fresh blood.

Demon Gold retreated, too. He flicked his hands. Half of those sharp bone scales dropped so he couldn't maintain his job skills.

But he laughed. The guy who lost previously was still not his match.

Both sides were equal in fist fighting, but his soul wolves took the chance to bite Bai Feng's body. Not only did they damage it, but they also helped Demon Gold heal up.

Demon Gold had a weird job, which gave him an advantage.

“Very strong.” Bai Feng praised and then took in a deep breath. Another pair of hands appeared on his back.

“Four-armed Emperor!”

Bei Feng hollered in rage and attacked with his four arms. The first shadows were two times more dense than before.

After he was on the verge of dying, he rose from the ashes. He used a three-star potion to trade for a job advancement scroll from Zhao Xingmei. He was an Intermediate Copper Fighter with a new job skill-- Four-armed Emperor!

Although this job didn't have a prefix, it was really strong. At the Basic Grade, Bai Feng's job skill was Two-armed Monk.

Monk, Emperor, Saravaka, Luohan, Bodhisattva, and Buddha were Buddhist terms. Copper Fighter's job skills came from these rankings. If he continued to evolve, he would get Six-arm

Saravaka, Eight-armed Luohan, Ten-armed Bodhisattva, and the final skill: Ten Thousand-arm Buddha.

Now that he reached Intermediate Grade and learned Four-armed Emperor, this allowed him to deal double his hits compared to moments ago.

Demon Gold was caught off guard and took a loss. His body was hit several times, and several wolf souls were scattered.

Seeing an enemy that nearly killed him days ago being beaten by him, he shouted in joy. He charged with his four arms and wanted to smash this saint into pieces!

Rage surged in Demon Gold's eyes, and he wiped off the blood on his face. He looked at the charging copper-colored guy and decided to use his ultimate skill.

The wolf souls appeared again, which caused his face to turn white. But he didn't stop. Those wolf souls climbed above his head and formed a giant wolf head. Its eyes were red, and it looked down coldly at everything.

The wolf opened its mouth and swallowed Demon Gold. Thick black mist wrapped Demon Gold inside.

Bai Feng's attack arrived at that moment, and when it was about to touch the black mist, they rolled. A small piece consolidated to dodge the attack, and then it exploded.

A giant figure appeared. Wolf head, a human body. It was three-meters tall, and it looked terrifying.

Human Spirit Transformation!

Demon Gold was forced to use his ultimate move.

The Precise Trading Wheel appeared when Demon Gold used the transformation previously. Everyone left before he could fight with them.

So, nobody knew how strong the skill was.

But today, everyone was shocked when this skill appeared.

Those fists hit the transformation as if they were sinking into an ocean.

"No... use..., I... Am... Spirit... Body, your... attacks... are... Useless."

After Demon Gold transformed, he spoke like he was one with the air. He paused after each word, and even his voice changed. Along with the slow words, that wolf's head opened and closed, sending a chill down one's spine.

Bai Feng was stunned as he had never faced such a situation before.

In the past, there were people with strong defense and high speed. They could block or dodge his attacks, but none could ignore his fists.

He was stunned. If this was the case, then how could he continue the fight?

Demon Gold's wolf head gave out a weird smile. He raised a hand which shone, and a red line shot out. It stopped when it was two meters long. It looked as if he was holding a laser blade.

His other hand repeated the same action. The black wolf spirit body had two more eye-catching weapons.

It waved its arms and slashed these two light swords at Bai Feng.

The wolf head spirit body was three meters tall. Its hands were the same length as its body. Along with the two-meter-long swords, Bai Feng was slow because of his job, and the Metal Body couldn't dodge. He could only passively defend. He tried to move aside and used his arms to block his head.

Xiu!

Bai Feng failed to dodge, and a large piece of meat was slashed off his shoulder. From the wound, one could see white bones. Moreover, as he held his hand up to block, it brushed his ribs after the light sword slashed his shoulder. A thick part of the bone was also sliced.

Bai Feng cried out in pain, and he retreated.

He had an advantage, but the situation was reversed. He was confident to face Demon Gold but was now badly injured in one move. Bai Feng cried out, and one could hear his unwillingness to accept defeat.

Ren Xing Battle Squad saw their boss was not in a good situation, so they charged forward. Soul Merchant's warriors didn't hold back, too. They passed their leaders and clashed. The first chaotic battle began.

Bai Feng stopped shouting. He lowered his head, but his eyes were staring at Demon Gold.

"I don't believe I can't kill you today!"

The strongest person in Ying City was furious. He roared for them to move aside and charged towards Demon Gold's wolf head spirit body.

The four-armed Emperor was used to the extreme, and the fist images filled the sky.

Demon Gold waves his swords and wants to split Bai Feng, but his speed has been slower since he transformed. He was even slower than Bai Feng with the Metal Body. In front of an opponent that was prepared, both swords missed.

The fist landed on the spirit body.

"No... Use..."

Demon Gold mocked, allowing the fists to hit the spirit body without effect.

But Bai Feng continued to hit. He just needed to dodge Demon Gold's swords using his job skills. But the Four-armed Emperor became the Two-armed Monk.

He felt that something wasn't right. No one was a fool, much less the top person in Ying City!

Finally, Demon Gold knew what the guy was about to do.

He heard a loud explosion. His body shook, and Demon Gold was knocked out of the Human Spirit Transformation form!

Chapter 328: Battle of two women

The arrow with starlight shot through Green Flower's illusion.

"I told you that your job is useless to me."

She smiled and floated towards Zhao Xingmei. Her two daggers touched and gave out a clanging sound. There seemed to be something in the air that caused the sky to freeze.

Zhao Xingmei was a ranked job. She paid attention to the distance between the enemy and herself. She was far from Green Flower but used some skill to cause her to enter a trance. Her movement slowed down.

Her face was filled with shock.

"Pressure Death Tunnel!"

Green Flower spat out those words. She turned into an afterimage in the tunnel between Zhao Xingmei and herself and charged toward Star Beauty Company's boss, whose movement was restricted.

Many Green Flower subordinates smiled. The explosion in the distance didn't affect them. Their saint used this move to kill many opponents and mutated lifeforms. There won't be more than three saints who could survive this move.

She used her killing move right away. This told them that although Green Flower looked casual, she respected this opponent. It also meant that she didn't think today would go too well.

Cloud Peak and Star Beauty Company people were shocked. They didn't expect Zhao Xingmei, who was only ranked below Bai Feng, to be controlled just like that. She looked like she was going to die in the next second.

This was a three-star evolved with a green piece of equipment. This bow was the highest level apart from Ye Zhongming, who had a purple weapon. How did this happen?

Was this going to be the turning point of the battle? If Zhao Xingmei loses, then Green Flower will be released. A strong saint would directly affect the other two battlefields. One could say that the Ying City alliance would lose!

Looking at the situation, Bai Feng's side wasn't good either.

Star Beauty Company's other experts couldn't hold back. They knew that Star Beauty Company wouldn't be able to remain in Ying City if their boss died. They might not even be able to survive today.

They attacked for their bosses and also for themselves.

Cloud Peak had clashed with Abyss Mountain's men on the other side. Life seemed to be worthless at this moment.

.

Green Flower's laughter stopped.

Her two daggers were about to hit Zhao Xingmei, but this experienced female saint felt a huge danger. She didn't hesitate to dodge to the side. The Pressure Death Tunnel that she formed was broken because of that.

She wouldn't sacrifice her life to kill another person.

Green Flower dodged. Where she was originally, a few specks of starlight shining bright even in the day drew close and brushed past her body.

"Flying Star's skill, Meteor Spin."

Zhao Xingmei felt her body recover quickly. She flicked the green blow and mocked Green Flower.

The survivors started to pay attention to dissing their enemies. Sometimes, that would make it easier to win.

Just like how one provoked an enemy when one played games.

"Also, your body turning into a shadow shouldn't be your job skill. It should be a normal skill that uses mental energy. My attacks aren't useless; you just use mental energy to fight against them. Am I right?"

Zhao Xingmei raised her bow. This time, three arrows appeared on the string—three grey enchanted arrows.

"Since you used your killing move immediately to try to end the battle, I will fulfill you."

This Star Beauty Company's boss sounded nice. But this voice was filled with killing energy.

"Shooting Star Arrow!"

Three streaks of light flew. After Green Flower dodged the starlight attack previously, this new attack appeared before her.

Zhao Xingmei was in the same position. After Green Flower charged, the two women were close to each other. This arrow was fast and was fired at nearly the same time, hitting Green Flower.

Three grey arrows fired past the space. While others sighed that even such a strong skill had no use, Green Flower's body recovered. Her left shoulder and stomach had two blood holes.

Green Flying Star and the grey feather arrows with the Light Spirit Archer's job skill. This broke Green Flower's Illusionary Shadow skill. Although she tried to dodge, she only dodged one. Moreover, the two arrows hit her and broke down her skill. Everything happened so quickly that one's eyes couldn't keep up.

Green Flower had to do that. Her mental energy would be used up if she maintained the shadow form. Not to mention fighting; she wouldn't even be able to move then.

Thus, she had to tank the damage from the two arrows.

Zhao Xingmei smiled. She won this battle, and she won it without any injuries.

But... After seeing Green Flower's eyes, she felt a venomous snake staring at her. It was just an instance, but her body couldn't move.

Unlike being controlled by the Pressure Death Tunnel when she could move, her movement was slower. But she couldn't move at all now.

At the same time, she felt pressure on her mind.

She knew that a mental skill hit her.

Green Flower's face turned ashen white, and there was no blood color.

The short dagger crossed in front of her body. She charged at Zhao Xingmei for the last time after being badly injured.

It was still so quick that there were afterimages. She didn't slow down this time even if starlight appeared behind her.

Ah!

Zhao Xingmei tried her best to break free from mental energy control. At the last moment, she screamed, and she got back control. Unfortunately, it was too late to dodge.

She tried to place the green Flying Star in front of her body to block, but that needed time. The dagger had stabbed her.

Starlight shone, then blood splattered!

Chapter 329: I am stronger than rabbits

Ye Zhongming faced many dangerous situations in his last life. He brushed past the god of death so many times that it was enough for the god of death to remember his face.

But he had never faced such a situation before.

He had to face a dragon alone.

In his last life, living beings of legends would appear. Although there were differences to legends, humans related them to the lifeforms we had in mythology. That might make humans think that the Earth was still the Earth, just that some ancient beings had revived and were back to the era of legends.

For example, Yangos. This evil dragon was slightly different from western dragons, but its giant body was similar. These big lizards also happily admitted that they were dragons.

Ye Zhongming faced level-six beings before and even participated in a hunt for a level-eight being.

But he was a ranged damage dealer and even helped to clear the area of the weaker mutated lifeforms. He didn't even enter the main battlefield.

He had never faced a level-six lifeform alone, much less the dragon race, which was invincible in the same level.

But he had to face it today; he couldn't escape anymore.

Ye Zhongming was not as fast as Yangos, who had wings and could fly.

The dragon flapped its wings and was 50 meters ahead of Ye Zhongming. It looked at the human, and its eyes had two burning flames.

Yangos would never forget the humiliation he faced that day!

It was cursed at by the weak human, threatened, educated. The Twin-winged Boa suppressed it, mocked it. It chose to run... In front of the entire Ying City.

Yangos didn't even need to think and knew how the other lifeforms treated it after that.

Especially after it found out that the battle pet was a lie!

This humiliation would stay with the noble giant dragon for the rest of its life!

This humiliation could only be washed away with blood!

The blood of this human before it!

"Kneel, and I will give you an honorable death!"

A mental message was passed to Ye Zhongming. Yangos was pretty much roaring into Ye Zhongming's mind.

Ye Zhongming smiled in disdain. The dragon race was too fake.

What honorable death? If it were someone else with weak mental energy, they wouldn't be able to handle the mental attack. They would either go mad or turn into an idiot straight away.

He had already used a strong move, but it made it sound very noble. Ye Zhongming looked down on such a lifeform.

But Ye Zhongming waved and smiled.

"Respected dragon race expert, can I use some precious things to trade for my life?"

Yangos was stunned. This was the first time it met someone who wanted to trade with it. He was trading with his own life. So many people died in that city he visited, but none did the same.

"For example, crystals!" Ye Zhongming took out many shining crystals. Legend had it that dragons liked shining things, so he didn't know if it was real.

Yangos roared at Ye Zhongming. It was furious because it had the same thing on its head.

wread.com .

"Okay, okay, don't be angry." Ye Zhongming kept it and took out a red gem.

This was the fire element crystal that he got from the trading event.

"What about this? The stats match you. You can absorb the energy inside, making you stronger."

Yangos focused and stared at the gem.

It was a fire element dragon, so naturally, it knew the gem was useful. For some special reason, it passed the chaos barrier to get to this world. Apart from getting evolved lifeforms to feed on, it lost the chance to get nature stones. Although this was a basic stone, the energy was very pure.

"Do you like it?" Ye Zhongming was delighted, "Okay, I will keep it for you. What about this?"

A ghost metal appeared in Ye Zhongming's hands. Yangos, who wanted that gemstone, was stunned, and joy appeared in its eyes.

Yangos didn't know what this was, but it didn't stop it from sensing the tempting feeling the metal gave off.

This thing was useful for it, very useful!

Its body floated up excitedly. It pointed and told Ye Zhongming to toss it over.

"Don't rush; I have other things. Is this useful for you?" Ye Zhongming took another gem. But this gem had the opposite stats of the firestone.

This was an ice stone. One of the few he had left.

"It probably isn't useful for you, so I shall keep it myself."

Ye Zhongming's smile disappeared as Yangos charged.

"Do you think that I don't know what you are doing, that you are delaying time? Stupid human, if you die, all that is mine!"

The giant dragon's shadow covered Ye Zhongming, and so did the stench. Ye Zhongming could see the patterns on its smallest scales as it moved.

The roar caused Ye Zhongming's mind to buzz. Fresh blood seeped from his nose, ears, mouth, and eyes.

Dragon race was strong, much less the dragon that was two levels above him!

Everything signaled that Ye Zhongming would get killed today. His life would end today for the second time.

He was still calm and didn't feel any despair. All that was left was his determination and will to fight.

"So what if you saw through it? Rabbits will bite when they are pushed. Moreover, I am stronger than rabbits!" Ye Zhongming roared in his heart. The staff of Nature was in front of him, and the water gem was on it. Water Bottle Protection covered Ye Zhongming. The thin but beautiful woman blocked Yangos.

Two balls of flame light appeared in Yangos's hands. It raised the two flames and smashed into the water bottle protection.

Yellow Ball roared in the distance. This fellow decided to go against his master's orders and fight!

"Scram! I don't need you!"

Ye Zhongming shouted, and his body changed. The mysterious black patterns appeared on his face. His red eyes disappeared, and what replaced it was total darkness.

Hell Envoy bloodline, activate!

Chapter 330: Whose head is flying

Abyss Mountain didn't care much about this beautiful woman at all.

As Soul Merchant was conducting business, their intel job was done well. Although they didn't understand much about Cloud Peak, because Glory Army knew about it, Soul Merchant came into contact with them.

When Demon Gold was forced back, they knew Bei Zi's news wasn't reliable. When Ye Zhongming gained all the benefits of the giant wheel, they realized this Cloud Peak leader was strong. He was so strong that they needed four saints to work together to kill him.

But simultaneously, they missed out on the others of Cloud Peak.

This was a mistake other factions would make when a faction had a strong boss. The glow of this strong boss would cover the glow of his other members.

Soul Merchant didn't even remember the names of many Cloud Peak members.

But after the battle began, Abyss Mountain realized how wrong he was.

This lady called Xia Lei was too fierce.

She danced with the blades, and each slash was unbearable. One look and one knew that she was trained. Along with her job skill and white blade, he was under pressure even if Abyss Mountain was in the transformation state.

Xia Lei saw the flames in the sky.

w?ead.com .

Different from other survivors that evolved, Xia Lei was a cop and was sensitive to the whole battlefield. The plane with the box appeared, and these flames caused that plane to explode. Along with the fact that Ye Zhongming was not here yet, she knew that something had changed.

The truth was that everyone here could lose and die, but nothing could happen to Ye Zhongming.

If anything happened to their boss, Cloud Peak would get wiped.

Those factions that Ye Zhongming offended, those that were jealous of his strength, and those that wanted his equipment would swallow this newly formed base.

So her only thought was to deal with this battle and rush over to see what was happening.

So her face was ice cold. The small cuts on her face had drips of blood. It didn't make her look tired but instead added a bit of charm.

People familiar with her knew she was serious when she didn't smile.

Both blades sliced at a weird angle toward Abyss Mountain's arms. They looked like they wouldn't hit the target but two dirt spikes spreading out of his fingers appeared on the blades' path and were sliced off. She kicked his chest and forced him back.

Xia Lei followed up, and blades covered the cold-faced Saint.

No one expected a woman from Cloud Peak to suppress one saint. After all, be it Bai Feng or Zhao Xingmei, these two Ying City bosses were in a tough battle. No one thought that Xia Lei could compare with the two of them.

This was not them looking down on the beautiful lady with a good body. The entire Ying City was like that. The other subordinates wouldn't be as strong if a faction had an outstanding leader.

Due to the nature of the wheel, one had to challenge lifeforms at higher levels than you to reach higher levels. Humans were forced to work together while stealing from others. They learned how to make use of resources and learn how to deal with higher-level lifeforms.

To hunt stronger lifeforms, humans had to gather resources on certain people so that they could quickly evolve and then lead others to hunt.

If resources were focused, there would be a gap between one and the others. Time was needed to wipe this gap. Under normal circumstances, if one added in human nature, the human that was first to get stronger would want to maintain this advantage. That would mean he would enjoy the best resources and benefit from what others would get!

The current Ying City, even the entire country, was in such a stage--- The faction's boss was strong, but his subordinates were far weaker.

This was not absolute, but many huge factions had such a situation.

Cloud Peak's boss Ye Zhongming had strength that was recognized. If one said that he was stronger than Soul Merchant's saints, everyone would believe it. Some even felt like they could face two saints alone.

But people didn't believe that his subordinate was stronger than a saint. They felt that Ye Zhongming was strong because he focused the resources on himself.

When Xia Lei was suppressing Abyss Mountain, one could imagine how shocked everybody was.

"Full Form!"

Abyss Mountain felt danger, and he shouted. The brown dirt wrapped around him started to bubble.

A blade hit his shoulder. Besides slowing down like before, Xia Lei sensed a metal-like toughness below.

The part that was sliced turned into two tentacles that grabbed Moon Edge. It wanted to pull the blade back. Abyss Mountain also raised his arm and a sharp dirt spike stabbed towards Xia Lei.

Xia Lei abandoned this Moon Edge. The other blade dodged the dirt spike while flicking at Abyss Mountain's chin.

The dirt changed and formed a dirt shield to block that blade.

She was afraid the blade would be controlled again, so she pulled it back. She slid towards the original Moon Edge, taking the chance to slice one tentacle and then grabbing the previous blade.

"Die!" Abyss Mountain hollered, and a thick and long dirt spike shot out of his chest.

The attack was very sudden. The dirt spikes previously spread from his fingers, but this was from his chest. Everyone understood that his previous weakness was covering up for this new attack form!

This time, this Cloud Peak woman couldn't dodge it. Those paying attention to the fight sighed.

Xia Lei continued to squint. She was not surprised and even moved her body towards the spike.

"Double Fold Blade!"

Xia Lei's blade shone ever so brightly.

A translucent shield appeared in front of Xia Lei. It clashed with the giant dirt spike. The shield blocked for a moment before it shattered. The remaining spike momentum stabbed into her chest.

The blade light also landed on Abyss Mountain's head! At the same time, a light landed on Xia Lei's body.

If one slowed down and replayed what happened, one could see the dirt blocking the two blades. Each time, although small bits of dirt would be sliced, the dirt protecting the head was being opened up like a cocoon after numerous slashes.

Abyss Mountain shouted in terror. He didn't expect this woman to be so crazy. She didn't even dodge his attack and used a new job skill!

Also, what were that shield and white light?!

All the dirt moved towards his head to block her while she was still in her skill duration.

She took the hit to her chest but continued to follow him. She maintained the attack range. The blade light didn't reduce at all, and the dirt was being sliced aside.

At the crucial moment, Abyss Mountain was vicious. He used all his mental energy. The dirt didn't surge towards his head and went towards all parts of his body. They turned into dense dirt spikes that stabbed toward the crazy opponent.

Who will die first? This was the best plan that he could think of!

The battle froze. And then people were in an uproar.

Dozens of wounds were left on Xia Lei's body. Apart from her head, her whole body was injured. Blood flowed like it was free and seeped into her clothing.

Several meters in the air in front of her, Abyss Mountain's head was flying.

Xia Lei vs Abyss Mountain, the woman won.
