

## Apocalypse 411

Chapter 411: Blood colored night

“Scram!”

Shengyuan raised his shield to knock aside Wen Hong, who had jumped on the wall. This War Female Officer slashed his white shield, and that caused sparks to fly. The warriors on both sides were stunned.

The Counter Cloud Peak Alliance launched a sneak attack at night. After a few days of intense attacks, the battle began at the time of day when humans didn't want to get out.

Cloud Peak had been defending, but the enemy still found a chance. This was the first time the Counter Cloud Peak Alliance set all four of their five-star evolved.

Shengyuan retreated and only stopped when he knocked into the wall behind him. Cracks appeared on the wall.

The enemies used a weird job skill to send them all up the wall. Their strength and sneak attack caused those defending to be caught off guard. After the four five-star evolved showed themselves, their siege weapons were placed onto the wall. Many people flew up. With their evolved bodies, they needed just a few dozen seconds to get onto the walls. That would be a huge problem.

The Cloud Peak members who were resting all rushed over. They took over the ordinary members who couldn't hold off for a short time. But as it was pretty rushed, it wasn't too effective. The members weren't distributed evenly and were battling what was ahead of them.

Xia Lei knew that Cloud Peak's overall evolution level wasn't weaker than the enemy, but their overall combat strength was. Now that they were sneak attacked, if they couldn't gain a footing, if the gate was opened, tonight would be the night that Cloud Peak was wiped out.

So Xia Lei took a gamble for Shengyuan to tank the strongest Wen Hong. The other core members surrounded the other three five-star evolved.

Sheng Yuan spat a mouthful of blood and roared at the woman who had become a small giant. He struck with his shield again and activated the job skill- Immovable Boulder.

The shield shadows wrapped up Shengyuan within.

“It is useless; the gap in strength is too huge.”

Wen Hong's voice spread far, and she smiled in disdain. She took in a deep breath, and her body rose!

“Step strike!”

There was a crisp sound of air currents. Wen Hong's body shot into the sky, and when she landed, her legs bent. She raised her swords and slashed.

She was so quick that Shengyuan didn't fully raise his shield before the two clashed.

The city wall shook!

A huge hole appeared in the ground. Shengyuan knelt in the hole, bleeding from all seven holes. He knelt on the floor, his left knee bent with many bones shattered. He was in a daze. That white shield was deformed like its master. The cracks were as thick as a finger. The white light disappeared, and the shield was dim.

Wen Hong's strike badly injured Shengyuan and destroyed a white piece of equipment.

Red flashed across her face, and she took deep breaths. She looked at the two swords, and there were thin cracks on them.

Rage surged into her heart, and she raised the sword once more.

.....

Sound Iron and Little Nine sat together. The two weren't friends, but after the battle started, they realized they could work together.

Little Nine's job was Turret Master, while Sound Iron's job was special. He was Sheet Music Iron Warrior. He could enchant notes with abilities on steel and iron.

The turrets would form iron arrows, which were already white-grade things. Sound Iron could enchant a note onto them and make these arrows more magical. That strike pinned Little Tiger to the ground. That arrow could have killed him without his quick reactions and the strong defensive equipment.

But these two people didn't feel the shock from the arrow. The Cloud Peak members continued to surround them. Apart from the famous Xia Lei and Liang Chuyin, the other core members attacked them.

Both sides were prepared. Cloud Peak's core members had trained to surround and attack five-star evolved. Mo Ye, Xia Bai, Tang Tian, Young Master Yun, Lu Yi, and Sister Rong were all surrounding them! They ignored the others who were climbing up the walls. The other Cloud Peak warriors didn't care about the five-star evolved. They just guarded the edge of the wall and tried to fight the enemies who climbed up.

Lu Yi cried out when a steel dart hit him. There were weird tunes flashing on it, and they hit his left stomach. There was an explosion. Although it wasn't very shocking, it left a hole in his stomach, and one could see his organs.

Lu Yi lay on the ground and held his stomach.

The second arrow from the turret fired at Lu Yi. They wanted to kill him! Tang Tian blocked in front of him at the crucial moment and sliced with Moon Edge—a semi-circular yellow shield formed around the blade.

They clashed, and Tang Tian's Moon Edge flew into the sky. The barrier broke, too, but the arrow deviated and brushed Tang Tian's shoulder. It removed a piece of his meat and exposed his shoulder bone.

Tang Tian cried out in pain and couldn't lift that arm.

At the same time that Tang Tian was injured, a wind blade slashed down right at Little Nine's chest. The leader of the Tenth Glory Army was caught off guard. He knocked into his turret, which

prevented him from falling to the ground. He ignored the blood on his lips and spun around to dodge a blade shadow and the next wind blade.

Little Nine lowered his head and saw that a pile of dirt was forming at the bottom of the arrow turret. The green stone turned into dirt, and the arrow turret started to tilt. The third arrow shot into the sky!

This was one of Young Master Yun's skills; the Swamp Witch attacked and countered Little Nine's job skill!

The battle was not very one-sided.

.....

Xia Lei and Liang Chuyin's opponent was the giant fatty, Pang Cheng.

"Kekeke, beauty."

Pang Cheng moved his body and squinted as he looked at the two beauties. The lust in his gaze was not hidden at all.

This giant fatty looked at the other two battles and scoffed. He lay on the ground, and his head expanded after giving out to roars. It became the size of the table and turned translucent.

"Taste my kiss."

He opened his mouth, and a ball of black liquid spat towards the two of them.

Chapter 412: Brother Ye wants to do something big

Ye Zhongming sat quietly in the room and heard Tong Hu and his team speak.

The contents of the conversation were simple. Tong Hu told them to choose whether or not to follow him to Cloud Peak to fight or to leave.

They had to make the choice.

Tong Hu and Little Li understood what Cloud Peak had been through for half a year. They knew the choices those factions that had benefited from Cloud Peak made at the crucial moment.

So they understood that Boss Ye needed absolute loyalty. Even if that loyalty was through Tong Hu, he needed it.

Little Li was more intelligent than her husband; naturally, her mind worked faster. She sensed that both of them were very lucky. Boss Ye wouldn't do something for no reason. He had his reasons for telling Tong Hu to do that.

When Ye Zhongming walked out of the room, the group of people looked at him like they were looking at ghosts.

Around 20 people remained. Honestly, Ye Zhongming's view of the world was shaken.

He didn't expect so many people to stay even though they knew they were about to die. Maybe, compared to those who left, the ratio of those who remained was low. But this number was enough to touch him, maybe because of Tong Hu, birds of the same feather flocked together. In the apocalypse, this was precious.

“Boss Ye!”

A guy close to Tong Hu woke up from shock and shouted emotionally.

Half a year had passed in the apocalypse, and it was enough for people to forget many faces. But Ye Zhongming was too special. His stories spread around Ying City circles, and no one could forget him.

He smiled and nodded. He looked at the emotional group and said softly but firmly, “Tong Hu and I won’t let all of you down.”

.....

Mingdong Battle Squad’s boss, Han Mingdong, bit on a dry biscuit. The more he ate, the more he felt it was tasteless, so he tossed it to the ground.

Although Mingdong Battle Squad wasn’t a big faction, he had over a hundred people following him. Usually, he didn’t lack food.

Of course, he wouldn’t be eating too well either.

He returned from Tong Hu’s meeting, and he felt anxious. He received Cloud Peak’s help, but he also did work for them. For example, he noticed resource points in Ying City, positions of wheels, and organizational changes. He even allowed Cloud Peak’s forces to restock in his camp.

Mingdong didn’t think that he owed Cloud Peak. Since that was the case, it wasn’t worth dying for them. Tong Hu was a fool, but he wasn’t.

But why... Did he feel so uneasy?

He shouted and decided to find a woman to vent it. When he walked out, he turned to get a water bottle. It wasn’t to drink but for the woman to clean up. The bad scent affected his mood. He guarded two wheels, one one-star and one four-star, and they brought him many benefits.

But when he headed out, there were sentries scolding someone. It seemed like someone was there.

Mingdong frowned. It was so late, so who was it?

He headed down from this old building and saw Tong Hu and Little Li when he got to the door. One tall and one short, it looked very amusing.

“Tong Hu, are you done? I told you clearly that I am not going to Cloud Peak!”

Mingdong was annoyed. Although he didn’t think he owed them anything, rejecting people didn’t feel good. Once was okay, but now they chased him to his home? Was he sick in the head?

Tong Hu and Little Li said nothing and just looked at him.

“Pu, why? You can’t convince me, so you want to force me? Just you, 30 people. Where are the rest? They all ran, right? Seems like even your brothers think you are a fool!”

Tong Hu Battle Squad was a decent small faction, but Mingdong wasn’t afraid of him as they had more three-star evolved than them. Even if they didn’t have four-star experts, he wasn’t scared of

Tong Hu. Moreover, Mingdong had the Renxing Battle Squad backing him. Not including Cloud Peak, Renxing Battle Squad were the leaders now.

“He is not a fool.”

There was a sudden voice. As the guy spoke, Tong Hu and the others made way to show a young man standing there, giving off a majestic aura.

“Ye, Ye Zhongming?” Ming Tong shouted and realized that he had a slip of the tongue. He smiled, “Ye, Boss Ye, it is great that you are fine.”

“Where is the four-star wheel?”

Ye Zhongming didn't want to say any nonsense to this person. He was here as Tong Hu mentioned this was the closest four-star wheel.

“Upstairs.”

Ye Zhongming didn't even look at Mingdong. He said, “Tell them to wait here; whoever dares to leave, I will kill them.”

Ye Zhongming was four-star when he left and was stronger than the current Mingdong. Now that he was back, Mingdong didn't dare to do anything. He stood there and wiped his sweat. He was very nervous and didn't know what Boss Ye would do to him.

Seeing Ye Zhongming lead Tong Hu and a few people up, he hurriedly glanced at the 20 here. He said towards one of his trusted men, and he nodded. He strolled to the side, saying, “I am going to the toilet.”

This person was also a three-star like Mingdong. Mingdong saw Tong Hu Battle Squad's core members rise, so those below weren't a threat. No one dared to stop his men.

“Ah!”

A short scream made Ming Dong turn his head. One of Tong Hu's men grabbed his man's throat and just stared at Ming Dong before crushing it.

“Boss Ye said that whoever leaves will die.”

Ming Dong was stunned. He looked at the corpse on the ground and those around. He suddenly realized that they... They were all three stars!

Ye Zhongming said that he wouldn't disappoint them. The first thing he did was to turn them all into three-star evolved!

Ming Dong's hand started to shake. He knew that, like many other people, he was wrong. This Boss Ye wouldn't let things end like this.

Ying City was going to end up in chaos...

Ye Zhongming started to spin. There were tens of thousands of level-four crystals at his feet.

Tong Hu and the others shook emotionally. They were so excited that they wanted to shout. Boss Ye was just Boss Ye. Level four, level-four crystals. He had tens of thousands of them.

Looking at the mountain of crystals, everyone here knew that Boss Ye would do something big. Something that would shock the entire Ying City!

Chapter 413: What is it?

To Mingdong, each second was torture. He was unsure what Boss Ye was going to do to him. Because of that, he felt very uneasy.

The corpse with the shattered throat reminded him that he might end up like that in the next second.

But when Ye Zhongming and the others got down, even if Mingdong was petrified with fear, he was still stunned by the four-star potions that Tong Hu and the others had in their hands.

He had never seen so many potions together. Not one star, two stars, or even three stars; they were all four stars.

100s of them!

“Come over; each one gets one. It is from Boss Ye.”

Tong Hu told his men. Those expressionless people smiled and came to grab the four-star evolution potion. They were so excited that they injected it.

These people were just two-star evolved a few hours ago; some were even one-star. But a few hours later, all of them were four-star.

Mingdong Battle Squad looked on from the side... It was hard to describe what they were feeling. They would hug Tong Hu’s leg and be his dog if they had another chance.

When they injected the potion, Ye Zhongming kept the rest and said to Mingdong, “Bring your warriors and follow me. I won’t kill you if you listen, but whether or not you can live in the end depends on you.”

No one would be willing to listen in another environment. But Mingdong was like a student being praised. He happily ordered the entire squad to follow Ye Zhongming.

.....

The highest level in Ying City was five-star, so the five-star wheels people didn’t care about in the past were a hot topic now. Compared to the many low-level wheels, there were fewer higher-level wheels. Those who could occupy the high-level wheels were strong factions.

Like Jill Warrior Squad.

The current Jill Warrior Squad was different from half a year ago; even their boss was different. But they weren’t weaker. They were now in the top five in Ying City.

This had to do with them choosing to stand on the side of the Glory Army.

Although it seemed like they had lost, who knew the victor would suddenly disappear? Even if there was news that the victor had given Glory Army a heavy blow before he left, he still disappeared. The loser stood up and got stronger. At the same time, there was no news from the victor.

Jill Warrior Squad's base was lit up. They occupied a sports stadium. After closing the dome, it was a closed space. Even if they lit fires, they didn't have to be afraid of drawing zombies or mutated lifeforms.

With light, human nature was stimulated. Releasing their demons under the pressure of the apocalypse was normal.

The stadium chairs were removed, and many tents were laid all around. To the Jill Warrior Squad members, who numbered in the thousands, this was their resting place. One could hear laughter from the tents, and there were other sounds, too.

When one lacked entertainment, the bodily activity of man and woman became one of the few choices.

But the entertainment tonight was going to be broken.

The gate of the stadium was knocked open, and it shocked them. These evolved might be venting their last bit of energy of the day, but since they could live until now, they were very alert. They would react to any movement. So when they saw Ye Zhongming lead a group into their base, a bunch of Jill Warrior Squad warriors surrounded the area.

"I was wondering who it was. Han Mingdong? Tong Hu? Damn, are you two crazy?"

A guy in a coat walked out, biting a cigarette that could be considered a luxury. He looked at the two and scolded them.

He was the deputy of the current boss, Wen Gang. Everyone called him Brother Rong.

Jill Warrior Squad had always stood on Glory Army's side, so they had nothing to say to Tong Hu, who was on Cloud Peak's side. Now that Jill Warrior Squad's boss led some people to attack Cloud Peak, they were enemies with Tong Hu. It was good that they didn't find trouble with him; he tried to find them.

Although Tong Hu was four-star, so what? Boss Wen Gang could evolve to a five-star when he got back. Jill Warrior Squad would also become the third biggest faction behind Star Beauty and Renxing Battle Squad. Would they fear Tong Hu and Mingdong Battle Squads, who weren't even in the top ten?

"Where is the five-star wheel?"

Brother Rong was stunned and laughed, "Who are you?"

With the cigarette, he pointed at Tong Hu and the others, "Leave two three-star potions, and I will let things pass. Scram, if not, I will kill you."

"Rong... Brother."

As the light at the entrance was dark, many people couldn't see who the guy beside Tong Hu was. But Brother Rong and his men were close, and one person confirmed before trembling and pulling Brother Rong.

"What are you doing?" Brother Rong scolded his men impatiently but saw that his face was ashen white. The guy's chin was shaking.

This was someone who had been in Jill Warrior Squad for a long time since they were just built. Naturally, he joined the Poppy Wheel Battle. Brother Rong was new, so he might not recognize this young man, but he did. He didn't retreat when facing those zombies and mutated lifeforms; he didn't hide from the evil dragon. He obtained all the benefits and teleported into the Secret Realm. That guy was standing in front of them.

"Boss Ye said that those who listen can live; those who don't can all die." Tong Hu's voice rang out like thunder, which angered Brother Rong. He didn't have time to ask his men. His finger moved, and a grey dagger appeared in his hands, slicing toward Tong Hu's throat.

But before his dagger touched the target, a person flashed before him. A red and white steel claw stabbed into his chest!

"Remember not to be so careless!" Ah Yang's useful face had the excitement one had when killing in the apocalypse. He had become a four-star evolved and had used the Scorching Flame Technique. The moment he attacked, he shocked everyone.

Brother Rong opened his mouth and wanted to ask how he was so quick, but he couldn't make a sound. Even in death, he couldn't understand why this bunch dared to come here and how... They dared to kill him.

"If you listen, you live; if not, you will die."

Ah Yang's attack was a signal. Ye Zhongming's men pounced towards the other survivors. They shouted the same. Anyone who tried to fight back was killed without hesitation.

Even if Wen Gang were here, he couldn't block a few dozen four-star evolved. After the initial killing, the other Jill Warrior Squad members knelt on the ground and gathered at the center of the stadium.

When accompanying Ye Zhongming to spin the five-star wheel, Tong Hu couldn't hold it in anymore and asked his question.

"Boss Ye, you aren't doing this just to find wheels to spin, right? Also, not to take these people in as your men? Then what is the reason? Shouldn't we rush back to Cloud Peak?"

Ye Zhongming smiled. He said while walking, "Don't they want to play? I will play a game with them, a real... Game of death."

#### Chapter 415: Sunset Saint Light

Compared to the Counter Cloud Peak Alliance, Cloud Peak had one disadvantage: one was in the light, and one was in the dark.

The Counter Cloud Peak Alliance had observed Cloud Peak in the dark. They could easily find information from Cloud Peak.

For example, Liu Zhenghong and Le Dayuan each ran the two core divisions of Cloud Peak, like how Cloud Peak arranged hunts and personnel, like their defenses and strength.

For example, how strong the core members were and what skills they had.

So before they fought, they knew about Xia Lei and the others.

But on the contrary, Cloud Peak didn't know much about the enemy. They only knew where they were from and what they were called. This was a show of Xia Lei's ability. If it was another faction, they might not even know all this, much less find a chance from all this intel to take the opportunity to kill a five-star evolved.

However, due to the difference in information, it had a considerable effect the moment the battle started.

The most obvious example was that Cloud Peak only knew that Pang Cheng was the boss of Unicorn King Freedom Army and was a five-star evolved, but they didn't know his skill and faction. Thus, when this fatty used his job skills, Liang Chuyin and Xia Lei could only rely on their skill and experience to react.

This was a disadvantage. Much less the fact that Pang Cheng was at a higher level than them.

Xia Lei had blades in her hand and slashed forward. The influencer used a silver whip and Ice Dragon Storm to form a white crystal whirlpool before her.

It wasn't that they couldn't dodge but that the wall didn't have much space. The black liquid covered too much space.

The black liquid was smelly, and it clashed with their defenses. After it hit, the scenes became weird.

This liquid stuck onto Xia Lei's Moon Edge. Although they didn't touch her body, it stuck to the blade. Moreover, there was a sizzling sound as green smoke rose from the blade's body.

Xia Lei's expression didn't change, but her heart hurt. If anything happened to that guy, these two blades were their final connection. This corrosive liquid had damaged it, and the white light became unstable. If she didn't do anything about it, it would spoil.

Liang Chuyin's situation wasn't good either. Although the Ice Dragon Storm blocked the liquid, and they would even freeze when they touched the storm to become pearls wrapped in ice, when they landed, they rolled far away.

But as the weather was hot, the intense fights caused the temperature to be higher than other places. They would melt and start to erode the walls. If someone were unlucky and stepped on the pearls, they would cry and fall.

Their expressions changed. They didn't expect to face such a tough job.

Xia Lei and Liang Chuyin looked at the toad on the ground and knew they couldn't let him continue. After blocking the first round of attacks, they charged and got close.

But Pang Cheng expected that. He used his right hand to slap the ground, and two black dirt men appeared. Each was a mini Pang Cheng. Although they were 1.5 meters tall, they were as huge as him.

They gave out a menacing laughter the moment they appeared. They moved their bodies to face their attacks. Each time they moved, they would swing aside some black liquid, which the two women dodged in terror.

“Kekeke, there is more; prepare to decompose.” Pang Cheng smiled with a weird tone. His swelling head roared into the sky. He opened his mouth, sucking in a deep breath before vomiting.

He spat out the black, smelly liquid into the sky. But as compared to before, it turned into a black rain.

The fight caused a huge commotion such that others paid attention. Their expressions changed when they saw the storm. Even if they didn’t experience the strength of the black liquid, the smell alone told them that the move was strong.

Xia Lei and Liang Chuyin’s face was dark as ash.

The two corrosive dirt men blocked their path, and above them was the rain. They had no way out. They looked at each other and saw the determination in their eyes. They stopped dodging and went all out.

Liang Chuyin’s Wind Dancer job made her agility higher. She stood in front of Xia Lei and used Dancing Shadows. The silver whip made one attack into three. With the job skill, she surrounded them in whips. At this time, she didn’t care if the weapon would get corroded and didn’t care about the danger she was in. She had to dodge the attacks so Xia Lei could get close and kill the fatty!

It was time for them to go all out!

“Sister Xia, follow up!”

Liang Chuyin called. She ignored the liquid that scattered when her job skill hit the dirt. She ignored the clashing of the black raindrops and whip shadows and moved forward.

Job skills landed, and it was about to end. Without the whip shadows, the two women would be drowned by the black rain. Liang Chuyin used Dancing Shadows again, and the weakening whip shadows got much denser.

Without any worries, the two dirt men were turned into two puddles of water. Liang Chuyin stepped on it, and her legs started to give off green smoke. She started to sweat due to the pain from the corrosive liquid. Killing energy caused her face to twitch. She resisted the pain and didn’t stop.

Pang Cheng looked at the women close to him and had a gaze of disdain.

His weird head started to lower. It went from looking up to looking straight at them. The black rain began to weaken.

Before the two girls became happy, a black water pillar surged from his mouth. Like a high-pressure water gun, it hit Liang Chuyin’s skill.

Instantly, Dancing Shadows was broken.

Chapter 416: Sunset Saint Light (2)

Pang Cheng’s job skill was not strong because of its strength or speed but because of its corrosive nature. Even the white Moon Edge couldn’t do anything against its damage.

So when the black water pillar broke Dancing Shadows and hit Liang Chuyin’s body, she stumbled and wasn’t knocked aside.

But the area where it hit felt painful, like she was about to die. Even though she was tough, she couldn't help but cry out.

But right away, there was another shout, which shocked Pang Cheng.

Ice Hail Rain!

Liang Chuyin suppressed the pain and used the silver whip's active skill, which covered Pang Cheng, who was close to her.

"Sister Xia, now!"

Liang Chuyin shouted with her last bit of energy, and at the same time, an eye-piercing light appeared behind her.

"Triple Blade!"

As compared to the double blade that Xia Lei used to kill Abyss Mountain, the upgraded job skill, along with the badly damaged Moon Edge's Full Strength Light, showed Cloud Peak's sharpest fangs today.

The light brushed across Liang Chuyin's head, slicing towards Pang Cheng. Even if the black liquid, this blade light was still unstoppable. It didn't care about the corrosive liquid. It only cared about whether it could slice into his body!

Triple blade not only increased the number of strikes at once, but the more terrifying thing was that it increased the damage.

Blademaster was not a rare job; it was widespread. In China, at least ten thousand evolved had this job.

But each Blademaster job had differences. Her ability was one of the better ones.

Using the modified potion increased Xia Lei's overall strength; the gap between her and a five-star evolved wasn't huge. Pang Cheng was also not a close combat job, so when she used Liang Chuyin's cover to hit his body, blood splattered. It was a sharp comparison to the black liquid.

Pang Cheng hollered in rage, and his huge body took a few steps back.

But in that short moment, at least a hundred wounds were on his body! The first few that hit his body were so deep that you could see the bones!

For a super fatty, one could imagine how deep those cuts were.

Pang Cheng even suspected that if he didn't have so much fat, just a few blades could have sliced his body apart.

Pang Cheng, who didn't respect Cloud Peak and its members, realized why someone like Glory Army feared them. He was a five-star evolved and suffered huge injuries against these two four-star evolved.

He also understood that the CEO Wang of Royal Guild might not have been very weak; it was the fact that these four-star evolved was very strong.

But fortunately, one of them was close to death. The other had lost her partner's cover and got hit by some black liquid. She would be lucky if she had half of her combat strength.

Although it was risky, he won.

Cloud Peak was destined to get broken through today!

.....

When Xia Lei used triple blade, Little Nine and Sound Iron's battle reached a crucial moment.

Little Tiger was severely injured. Tang Tian and Lu Yi lost their combat strength to cover Lu Yi. The others used their job skills but could only force Little Nine to build another turret and force Sound Iron to defend.

Especially when the black rain covered Xia Lei, the people here knew they had to break through. They planned to win here. If not, be it Shengyuan, who was fighting Wen Hong, or the two who fought Pang Cheng, they would die because of the gap in strength.

But the battle didn't proceed as you planned, especially... The two were, the top five-star evolved even in their super factions.

Also, as more and more Counter Cloud Peak Warriors surged onto the walls, many four-star evolved among them.

The more anxious they got, the easier it was to make mistakes. When they were at a disadvantage, a small error was something that the enemy could take advantage of.

Little Nine and Sound Iron were experienced. They noticed that Cloud Peak's core members were anxious and grasped that point.

Everyone knew how to be vicious.

When they noticed the chance, Sound Iron and Little Nine attacked. They risked their injuries to get the outcome that they wanted.

Thus, Mo Ye was injured, Xia Bai was injured, Young Master Yun was injured, and Sister Rong was injured. The four core members were instantly injured. Even if they left wounds on the two five-star evolved, their attacks were stopped, and they paid a considerable price.

The two five-star experts wouldn't give up such a chance. They moved forward and resisted the pain to try to kill these Cloud Peak members.

At that moment, the sky lit up. It was as if the sun had risen from the horizon to chase the darkness from the sky.

A person stood on the side of the wall holding a silver staff.

When this person rose to a certain height, the light gathered on the silver staff and was released.

But it wasn't light that was released; it became fist-sized pink balls like condensed suns.

These balls of light shot through the night sky and appeared above the head of every injured Cloud Peak member. It then burnt. It turned into specks of light that entered their bodies.

The two wounds that pierced through Shengyuan's body, Little Nine and Sound Iron's attacks, caused Mo Ye and the others to spit out blood; Pang Cheng managed to climb back up and was about to spit out the black liquid to end the life of the woman who was about to lose the white glow of the Moon Edge.

The light entered their bodies.

Cloud Peak's only five-star evolved appeared!

At this crucial moment, she appeared with her saint-like face!

Silver staff's passive skill-- Peace Buff, the new AOE heal job skill-- Sunset Saint Light.

Activate!

Chapter 417: Helper in the darkness

Even after a long time, this night lasted in the memories of those who survived the incident known as Blood Wave. The most profound memory wasn't the numbing massacre but that shining light on the wall.

Many people wondered if that light could chase away the cold apocalypse. Then, when they opened their eyes, they would lie on their beds and just in a dream.

After a short imagination, everyone on the wall and off it so that those injured had miraculously recovered.

Shengyuan was on the verge of death; Liang Chuyin was severely injured; Little Tiger, whose bones were hit; Tang Tian and Lu Yi, who were covered in blood; the injured Xia Lei, Mo Ye, Xia Bai, etc. Cloud Peak Warriors.

Under such a circumstance, it was undoubtedly a huge morale booster for people on the same side. The core members all stood up. Even the most badly injured Shengyuan and Liang Chuyin could fight. The others with lighter injuries all recovered.

As an enemy, this was the biggest blow.

How much effort did they put in? They used a super long cooldown teleport to send the five-star evolved onto the walls. Four of them had to tank over ten digits of core member attacks. That was a huge risk. If they weren't sneak attacking and Cloud Peak was prepared, some of them would have died.

Don't think you were amazing just because you were a five-star evolved. Cloud Peak's three members killed a five-star evolved before!

Counter Cloud Peak Alliance started to siege. They placed long ladders, wooden sticks, or hooks to climb the stone. How many died when they reached and occupied parts of the wall?

In a short while, they suffered more losses than in the past few days of fighting.

But they saw hope. The core members of Cloud Peak were badly injured, and the ordinary soldiers were pushed into regions. When their resistance was being wiped out, such an AOE heal appeared.

Was there anything more dispiriting than this?

Not to mention how it would affect the ordinary soldiers, just the battle between the five-star experts and Cloud Peak's core members. The four who were about to win were all injured, while their opponents... Recovered...

Fight once more?

The four could win if they went all out, but some would die! It might be more than one. Then the problem was, who was to die? Who will live?

Also, what if that woman with the silver staff used such a spell again?

Would they all die?

Of course, there was another solution, which was to send someone to kill the healer. But she was floating in mid-air, and translucent shields were defending her. She was also far from the most crucial area of the fight. Cloud Peak wasn't foolish. Would they even allow you to charge over? Below the healer was a ten-person team that all had huge shields. They were prepared!

Cloud Peak had regained control of this sneak attack.

Counter Cloud Peak Alliance did have their trump cards. If they used it, it would be really useful. But they didn't forget that Cloud Peak had their cards, too.

For example, those terrifying crystal weapons...

Park Xiuying's following move finally made Counter Cloud Peak Alliance decide to retreat.

"Humidity Wave!"

The skill of the staff, Park Xiuying's only attack skill.

With her feet as the origin, giant waves started to surge. They were 20 meters wide and 10 meters high.

Just visually, these waves had a considerable impact. No one on the walls could dodge it.

"Retreat, there is no need to continue like this."

Little Nine and Sound Iron were the most alert. They knew they couldn't continue fighting when they saw the wave. Even if they won, they would pay a huge price. Moreover, the attack was a test of Cloud Peak. This was a much-needed probe. They wanted to force their trump cards out!

At least they knew what Cloud Peak's five-star evolved's skill was.

The battle started suddenly and ended suddenly. The attack order switched. Cloud Peak fought back furiously while the Counter Cloud Peak alliance retreated.

Cloud Peak survived the first real danger in the war.

.....

Many green eyes focused on the battle in a corner no one noticed. They were prepared to attack but stopped because of Park Xiuying's appearance.

"Seems strong."

A child's voice broke the silence. Those green eyes landed on the body of this two to three-year-old kid.

Under the weak moonlight, there was a blue crystal on this boy's forehead.

This was a zombie, a... One that could speak.

Red Hair looked at Cloud Peak and scoffed.

“Sister, why not we charge? I am hungry; these people look delicious.”

The kid raised his head, and his black eyes were covered with a desire for blood.

“Shut up, talk more, and I will eat you, Brain Bug!”

The kid called Brain Bug didn’t say anything; it spat out its red tongue and licked its green lips.

“I don’t know. You occupied this body, what changes happened, but you, I didn’t it you, because you can help me block that annoying woman, damn cat. But today, Ye told me to do something. If you don’t listen, I will eat you.”

His body shook. He saw a dangerous glow in Red Hair’s eyes. He knelt on the ground and poked a stone. In a short while, it was covered in holes.

“Sister, that Ye, why are you still listening to him? You are level-six, the same as that Zombie King Talking Lady. I will also evolve in a few days. We won’t have to be afraid of her black cat and her. We can return to Ying City. Why are we working for Ye? He is not your Master anymore.”

Red Hair didn’t move, but a vine flower exploded below the kid. It was like a giant mouth that tried to swallow the kid.

The two thousand zombies behind Red Hair retreated and looked at their boss in terror.

The kid bled green blood from all the spikes but closed his mouth and didn’t dare to make a sound.

He knew that if people noticed them because of the sound he made, Red Hair would kill him and eat his brain.

“My birth, evolution, Ye gave it to me. If you dare to say anything, you will die.”

Red Hair lifted the kid, whose body was covered in holes from the spikes. She warned him before tossing him towards the stone, which was also covered in holes.

It was as if she turned into a statue, like the weird zombie horde behind her; they merged into the darkness.

Chapter 418: More like human

When the sun rose, the temperature also increased.

If someone were in the skies, they would notice movement in the entire Ying City.

There was a visual effect because there was too much movement.

Both humans and mutated lifeforms.

The person who caused it was naturally Ye Zhongming, who had obtained the first thing he needed. After he left the six-star wheel, he led these people through a set path. The survivor camps were all occupied and forced to follow him.

With three five-star evolved and many four-star evolved, no one in Ying City dared to resist. Those who tried were mercilessly slaughtered.

No one knew what Ye Zhongming wanted to do; even Tong Hu and his wife didn't. They only knew that Ye Zhongming's calm appearance had deep hatred and rage hidden beneath...

Maybe the simple Tong Hu didn't understand, but Little Li realized that Boss Ye's rage wasn't towards the enemies that attacked Cloud Peak. In truth, revenge in the apocalypse was as normal as drinking water. What Boss Ye was angry about was how people were standing aside.

Especially after he found out what Cloud Peak did for some of these factions.

Little Li might look foolish, but her thinking process differed from that of other girls. She was very detailed. She felt he wouldn't care about these things if Boss Ye hadn't left. But now, this 20-year-old boss used his way to vent his anger for his men.

She was also very sure about one thing. This method was destined to be covered in blood.

Ye Zhongming raised his head and squinted his eyes. The demon crystal in his hands turned to dust.

Soul Refining Technique gave Ye Zhongming purer and more mental energy, but even so, he found it hard to contact Red Hair, and he had to maintain mental energy.

He heard footsteps. Ah Yang, who had gone from one-star to five-star in a day, came over excitedly.

"Brother Ye, we are nearby; if nothing is surprising, we will bump into them in half an hour."

Ye Zhongming nodded. He looked at the seven thousand people behind him and said solemnly, "Watch them, kill those causing problems, and toss their corpses into the square."

Ah Yang and Tong Hu nodded. Ye Zhongming looked in a direction and disappeared into a building.

Ye Zhongming held many factions hostage for a night and a morning, which had a huge effect. He couldn't keep an eye on everybody. He even let some of them go so that more people would find out and come here. That was a part of his plan, too.

.....

As the Zombie King of Ying City, Talking Lady had full control.

She was a special mutation. She used evolution blood and ate the Brain Bug. Her existence couldn't be replicated.

But this didn't stop her from becoming the Master of Ying City.

As for the king of the underground, it was that dirty Rat King.

Since last night, the alert Talking Lady felt that there was something weird. She brought her men and headed towards that weird spot.

She became picky with food since she became a level-six mutated life form. Red Hair was ranked first on her list, which had many similarities with her.

Eat her, and she felt like she would be able to form the base of a higher evolution.

Apart from that, only the fresh and tender organs of four-star evolved met her lowest requirements.

She knew that Ying City had five-star evolved. With her strength and intelligence on the level of humans, it was difficult if she wanted to hunt these humans, but she could do it.

But she didn't. She was raising these humans, allowing them to evolve so that she could enjoy a good meal and then evolve.

But what happened at night was abnormal. After losing news of Red Hair, she became really sensitive, so she brought her men to look.

The Zombie King went out with ten thousand zombies at least level three and above. This army was one that any lifeform had to avoid.

Until one person stood in front of Talking Lady.

Two hundred meters away, the man and zombie looked at one another. Ye Zhongming started to walk forward.

Many high-level zombies wanted to stop him, but the Talking Lady scolded them.

"Long time no see."

Talking Lady heard this young human speak and instinctively licked her lips. Actually, on her menu, this guy was number one.

But deep in her heart, she suddenly felt a human emotion called terror. Her head couldn't help but shake to force herself to forget that feeling.

"You, appeared."

Ye Zhongming smiled, "Find you for help."

"I, we, not..."

"I am just informing you, not asking you." Ye Zhongming squinted his eyes, and his tone was much colder.

Talking Lady didn't show her anger or disdain. She looked at him carefully, and her head moved forward to sniff his body.

The Zombie King with the beautiful red crystal on her forehead laughed.

It was hard to describe the feeling of a zombie laughing in front of you, but it was weird.

"You, not, my, match."

Don't be tricked by the smile that could tempt guys. At this current stage, instincts still took the upper hand. When she suppressed her fear of this guy and confirmed that he was only four-star evolved, she attacked. The small but level-six black cat attacked without hesitation.

"I haven't taught you a lesson in some time, and you become arrogant."

Ye Zhongming moved. He first dodged Talking Lady's fast hand blade and then casually pointed at the black that turned into an afterimage.

He activated the Soul Refining Technique and an ability similar to what Ah Tao used, shot forwards. It wasn't as strong, but it was faster, much faster.

"Miao!"

The black cat's hair stood on its ends, and it gave out a tragic cry.

"Yi? Not dead?"

Ye Zhongming ignored Talking Lady, who retreated in terror. He grabbed the Black Cat, whose body was numb and whose eyes were opened wide.

The soul Refining Technique was a mental energy skill. Ye Zhongming improved quickly and learned so much in just a few months. He could use an attack move that evolved on Earth, which was foreign, too. Especially Talking Lady and the Black Cat, who focused on mental energy; this ability was their natural enemy.

Both the zombie and the cat were level-six. After confirming that Ye Zhongming was four-star, they were careless. Ye Zhongming's sneak attack worked. The Black Cat was hit, and it lost its ability to fight.

But Talking Lady was not sure what was going on. She only had one thought. The guy that disappeared for a long time was not only not weak, but he was so strong that it couldn't see through him.

"You, no, what do you want me to do? Can you, release, Pearl?"

Seeing her struggle to speak, Ye Zhongming casually tossed the black cat over, "Not bad, you are more like a human."

Ye Zhongming paused and told Talking Lady what he needed it to do.

Chapter 419: Only stop when I shout

After evolving, it had been a long time since Bai Feng felt hot.

But today, facing the sun, he started to sweat.

He glanced at Zhao Xingmei and saw some crystals in her hair.

So, the top person in Ying City would also feel nervous.

They looked at this army ahead. Even when they found out the truth, it didn't feel real. They also felt terrified.

At first, when he had to face Demon Gold alone, he didn't fear. When he was severely injured and got back up, he managed to deal massive injuries to that person. At that time, he didn't know what fear was, even if he had lost an eye and an arm.

But now, when Zhao Xingmei and the other factions caught up to the target when he saw Tong Hu with his arms crossed, Bai Feng was sure that the man was back.

Zhao Xingmei couldn't make Tong Hu listen; Bai Feng couldn't either. Even Sister Ye couldn't; only that guy could.

He wasn't dead. He was back alive.

His being alive meant that more people were going to die.

This was his first thought. After which, he wondered if he would be one of those that would die.

It was not surprising that he thought that way. After Zhao Xingmei and he arrived here, although they didn't see the guy, they saw three five-star evolved here.

Bai Feng knew that these people weren't under that guy. But he just came back and made three five-star and also... Bai Feng tried to count, but he gave up. Anyways, there were over ten four-star evolved. When he returned to Cloud Peak, what would his core members get?

Bai Feng suddenly felt like the mechanical arm was very uncomfortable.

Both of them looked at each other, and none of them moved. But when those held hostage saw Bai Feng appear, many felt like they had hope and ran over.

But they ended up being slaughtered.

Be it Bai Feng, Zhao Xingmei, or the others, they just watched and didn't move.

The situation quietened down. One could only hear some small team shunting zombies nearby.

Zhao Xingmei and Bai Feng looked at each other and finally walked toward the team—only two.

“Tong Hu, is, is Boss Ye back?”

Bai Feng noticed that his voice was a little hoarse. He was afraid of getting a definite reply.

“Does it have anything to do with you?”

Tong Hu's face was filled with disdain. He glanced at these people and said.

Tong Hu didn't feel much towards Zhao Xingmei. Although Star Beauty Company worked with Cloud Peak, it was mostly when Boss Ye was around. It was okay that they didn't do anything in the face of danger.

But what about Bai Feng? Cloud Peak and Boss Ye saved his life and helped him to rebuild. Was that something he could replace by saying he put in effort for them? Even if he didn't help, why did you reject him? What was going on with your mechanical arm? Did you think others didn't know?

“Can we meet Boss Ye?”

Zhao Xingmei saw that Tong Hu did not like Bai Feng at all. If he spoke to them, they would get increasingly angry, and they might fight. She could only step out to see if she could meet the guy who disappeared half a year ago.

She also hoped. She wanted to know how strong that guy got after so long.

The gap between them... Was it much bigger?

“Wait, he went to do something.”

Both of them looked at each other and could only back off helplessly. They stood under the sun.

In just a while, more noise spread from a building, and that caused their expressions to change.

It was the sound of zombies gathering and moving.

Many survivors started to feel uneasy. Even if humans were, on average, two-star, when facing mutated lifeforms, they weren't confident. Once their numbers reached a certain number, even Star Beauty Company would avoid them.

So many of them were gathered together, so it was normal that they attracted the zombies' attention. As expected, in just a few minutes, there were footsteps around.

"Boss, there are many zombies in the south."

"Sister, the Bank Street is covered with zombies, and they are coming over. They will enter this street in ten minutes."

"Boss Tong Hu, there is a horde of tens of thousands."

"Ah Yang, zombies are coming, the number... I can't count."

Those voices spread far in the silent square. What they meant was that they were being surrounded in all directions. There were tens of thousands in each direction, and there were over 150 thousand in total!

This time, not only Bai Feng and Zhao Xingmei were anxious, but even Tong Hu and Ah Yang discussed.

"Very squeezey."

A person walked out of the alley. When they heard that voice, many people shuddered, but when they looked at him, what they had guessed or imagined was finally proved.

Ye Zhongming was back.

He walked beside Bai Feng and Zhao Xingmei and looked at these 'old friends.' Ye Zhongming nodded, "Seems like you all have been doing well. All five-star and your equipment is white. White equipment that didn't come from me."

At least 30 thousand survivors were here, and they all glanced at Ye Zhongming's face. No one dared to speak. Even those who had never seen him had heard of his legendary past. Even Bai Feng and Zhao Xingmei had to lower their heads to him, much less others.

"I know what you are worried about. Honestly, I am angry." Ye Zhongming walked to a wide space and looked at the crowd.

"But this is the apocalypse, so choices made here might seem infuriating during peacetime. I can understand." Ye Zhongming raised his voice, "But it doesn't mean I can forgive. So, I will give all of you a chance to clear the debts."

He raised his hand and pointed at this square, "This place will be the battlefield. You will fight the zombies. Only stop when I shout stop. When I shout stop, those who are still alive..."

"Will continue living."
