

Apocalypse 531

Chapter 531: Mysterious wheel on the mysterious island

In the distance ocean, a giant island was covered in a thick mist. At the center was a giant wheel that was empty and pitch black.

A giant wind blew across and caused some of the mist to scatter. Moonlight shone from above and shone onto this weird wheel.

A shocking thing occurred. That black wheel changed, and a blue color appeared.

It was the color of the ocean.

Next, in the ocean color, was a beautiful golden crown that rose onto the ocean surface. Many ocean beasts showed bits of their bodies and looked towards the crown. The greed in their eyes couldn't be controlled.

The wheel was like a video that lit up the area around. One could see images of mountains in the mist. There would also be some occasional purple and orange light.

The crown moved, and a light shone from its body. The light shone through the wheel surface and down onto the ground.

When they saw the golden light, the future at the front of the mist charged forward to occupy the light. But other figures appeared. It roared and threatened them.

But the few figures didn't fear anything. They roared, and both sides clashed.

If a human were here, he would shiver. The few people fighting were all level seven!

Talent abilities and their bodies clashed. The area in front of the wheel was quickly covered in blood. Each beast went all out. All of them were kings, fighting as if their bodies did not belong to themselves.

Finally, a weaker beast failed and was killed. Its eyes dimmed. At the same time, the demon crystal on its head turned grey as if its energy was absorbed. A purple line from its body flowed towards the wheel and was sucked in.

The wheel became more majestic.

Along with this level seven beast dying, a group of ocean beasts on one side became impulsive. Some turned and fled into the ocean, while others fought each other and joined the other ocean beast's factions.

Their choice didn't matter, and the ocean surface calmed down quickly.

More ocean beasts failed, but they didn't die. They knelt, and one didn't know what they were doing.

These beasts were later left with injuries and returned to their camps. After they had eaten some of their allies, they gave the order, and these groups headed towards a direction.

That direction was Cloud Port!

The beast that won roared happily and charged to the golden light. It had a look of enjoyment.

The wounds that were so deep that one could see its bones and broken limbs started to heal and grow from the light. In just a dozen seconds, it was back to normal. As time continued, its aura was climbing. Its strength was increasing at a terrifying speed.

Unfortunately, the wind blew once more, and the mist got thicker. The moonlight was covered, and no more light shone onto the wheel. The mysterious ocean water and golden crown and the golden light disappeared.

That beast gave an unwilling roar and wanted to charge at the wheel to vent its anger. But the figures in the mist that hadn't shown themselves moved forward and warned it. This beast panted and turned its body. It walked towards the outer island and back to its men.

It looked back unwillingly. Like that beast that failed, it led its men toward Cloud Port.

This ocean beast had a second purple crystal on the rippling ocean surface!

The mysterious island calmed down as if waiting for the next ocean breeze.

.....

The ocean giants were just a few dozen meters from the gate. Its giant body made their footsteps heavy and slow, but at this distance, their shadows covered the hearts of all the survivors who could see them.

Ye Zhongming was anxious because of the ocean giants.

He wanted to kill them and get their treasures, but before successfully defending his part of the wall, he dared not move aside. He was afraid that something surprising would happen when he left.

Some auras terrified him from all around were looking at the center of the city. Ye Zhongming didn't know the reason for the beast wave, but the kings of the mutated ocean beasts were not here yet.

The ocean giants were just one of them!

Ye Zhongming had a bad feeling about this defense.

The only problem was how to earn some money before leaving. He also wanted to see if the news from his last life was real.

But until now, he hadn't seen the source of the news-- Little Peng.

Did the brother from his last life fail to enter the center of the city? Based on the timing, he should be inside.

Ye Zhongming tossed the negative thoughts to the back of his head.

He looked at the situation and made his mind up.

"Shengyuan, Xiuying, Zhao Xingmei, Liang Chuyin, the four of you follow me." Ye Zhongming kept his sniper rifle and adjusted the team. "Also, Xiao Min and Ah Yang's teams follow me."

The people who were called rushed to Ye Zhongming's side. Even Zhao Xingmei didn't hesitate.

"Mo Ye, take over; Xia Bai will help you!"

Mo Ye didn't know what Ye Zhongming would do, but she nodded. She felt the situation was controlled, and it would be okay without Ye Zhongming and the rest.

"Leave!"

After informing everyone, Ye Zhongming led the group down the walls towards the opposite side. He also told them what they were going to do.

"Do you see those fellows with three eyes and four horns? Our mission is to kill them!"

Chapter 532: Contribution weapon

Cloud Peak had a record of killing a level seven lifeform, but that was in the competition death space.

No matter what, it didn't feel real to the Cloud Peak members.

In more simple terms, like what Little Tiger said, it wasn't fun.

So after Ye Zhongming said the target, these people didn't show any fear at all; they were even excited.

Of course, Little Tiger was left on the wall unhappily.

"Xiao Min."

Ye Zhongming looked at the ocean giant already close to the wall. Survivors on that side had started to stop it.

Xiao Min bent her waist and looked at Ye Zhongming's back.

Like the other Xia Bai squad members, her eyes were ice cold and numb unless she saw Xia Bai or this guy. Only then would it warm up.

"Your men and Shengyuan attack together, protect Xiuying and Zhao Xingmei."

"Right!" Xiao Min agreed. She led 40 people from Xia Bai Squad's first team, and they protected their target in the middle.

"Chuyin, Ah Yang, follow me. I will tell you where to attack."

Ye Zhongming's voice continued. Liang Chuyin and Ah Yang's eyes lit up when they heard it.

Liang Chuyin's reason was simple. She hadn't fought alongside Ye Zhongming in a long time, and she missed this feeling.

Ah Yang and his team were excited. These teens weren't happy with the slow cultivation and wanted to get potions like Ah Yang. Ye Zhongming thought about it and agreed. So, the only people in the group that cultivated the secret realm techniques were Ah Yang's sister, Big Milk, and the youngest little girl.

But Ye Zhongming didn't stop his experiment. He found ten 10-15 year old teens to continue. These kids were descendants of Cloud Peak members, so they were talented and loyal. It even helped to increase their family's sense of belonging to Cloud Peak.

As for fear of the outcome, Ye Zhongming told them he was also cultivating it, increasing their trust.

To their parents and families, this wasn't an experiment but a reward.

Under such circumstances, the people from Peace Town mostly turned into four-star evolved. They were stronger than ordinary four-star evolved as they cultivated the technique and used modified potions.

Ye Zhongming allocated them some jobs and skills, so Ah Yang's team was very strong and was kept by Ye Zhongming's side to oversee policing. A portion of the resources Ye Zhongming earned during the month were spent on them.

Ye Zhongming was preparing for the fight. Conversely, Meng Xiangjiang and Meng Yao were fighting for their lives.

They didn't want to, but they had no choice.

If they did, they could survive; if they didn't, they would die.

Guang Yao now knew that even though the resistance zone predicted what would happen, it was still a prediction. They underestimated the strength of the beast wave. Even if his Sky Elephant Division and himself were confident, they had to admit they couldn't handle the wave.

They couldn't handle it even with help from Cloud Port Alliance.

Just these two giant ocean giants were tough for them.

"Focus fire and kill the one on the left!"

At this time, Guang Yao could only choose this method. He was not confident in splitting the firepower that he could stop two level-seven lifeforms at once."

Sky Elephant Division had a third of their force here, and the others were forced to help defend other areas. Guang Yao regretted clearing people out. If he attacked a little later, the few factions wouldn't be badly injured, and the battle wouldn't be this tough.

But he wasn't a reflective person. Such regret appeared for only a second before disappearing. It then turned into hatred on Cloud Port.

"Captain Meng, stop the one on the right."

Guang Yao's term for Meng Xiangjiang went from uncle to Captain Meng.

"But..."

Meng Xiangjiang was in a tough position. He was the only six-star evolved in his Elegant Cavalry Squad. He didn't have a strong trump card, so dealing with a level-seven lifeform protected by many ocean beasts was tough.

Moreover, the ocean giant was close but still outside the city. He had to head out to deal with it. Ocean beasts were already attacking the city now, so if they headed out, it was no different from suicide.

Seeing his hesitation, Guang Yao frowned, "Bunch of trash, go no matter what!"

He didn't care about Meng Xiangjiang's rage and ordered his men to attack the ocean giant on the left.

Sky Elephant Division was shockingly stronger. When they focused on one, their combat strength was shocking.

Killing shouts were now drowned by the sound of gunfire. Cloud Peak members were shocked. They saw the trajectories of bullets dragging through the dark sky towards the giant that looked like the lord of the night.

Cloud Peak had fought a team from Sky Elephant Division yesterday, and now that they saw such a strong attack, their bodies shuddered.

If they didn't face a small group but the entire division, then...

Even if they were confident, when they saw the metal storm, they weren't sure they could block it.

Only Ye Zhongming squinted. No one knew what he was thinking.

The few hundred that stopped Ying City Alliance were very strong, but this group, comprised of a third of the Sky Elephant Division, couldn't be described by the word strong.

The moment their weapons exploded, the ocean giant's body was covered in bullets and shivered. The giant body retreated, and sparks flew as the drill ocean metal in its hands was hit.

Seeing the Sky Elephant Division's effectiveness, the survivors on the wall were pumped up. Meng Xiangjiang bit his teeth and clenched his sword tightly. He decided to follow instructions and face the ocean giant on the right.

But before he moved, his men pulled his clothes.

"Boss, someone is here!"

Chapter 533: Contribution weapon (2)

Meng Xiangjiang turned and saw that Ye Zhongming and his group were there.

They weren't stopped as various reinforcements also charged up the walls.

"You..." Meng Xiangjiang was wary. After all, although they didn't clash with Ying City head-on, everyone knew that Guang Yao and he were on the same side. Ying City's performance previously meant that he had to respect them.

"Help you."

Ye Zhongming smiled. He looked across Meng Xiangjiang at the ocean giant who stumbled because his partner was knocked back. The ocean giant then continued to charge at the wall.

Ye Zhongming looked towards Sky Elephant Division. His impression of this mysterious faction became more direct as he was close.

They were really strong, especially in their use of guns.

He thought about the Lazy Man Case and the Holy Army Coat they wore. He had a new understanding of their crafting ability.

At least on this level, their ability was no lower than that of Cloud Peak.

The ocean giant on the left was knocked back from such strong attacks but didn't show signs of being badly injured. On the contrary, it stood tall. Its three cold eyes, protected by the Drill Ocean Metal, looked coldly at the human evolved on the wall that attacked it.

“Peng!”

A weird voice that one could hear even with all the shooting that was going on. Ye Zhongming picked up the source of the voice.

A human holding a weird gun raised his head at a corner of the wall to confirm the outcome.

The ocean giant let out its loudest roar since the start of the fight.

The entire city shook because of it. Many people on the walls couldn't stand, and even the ocean beasts were affected. Those beasts near the ocean giant even died from the shout.

After a short while, everyone noticed that the ocean giant had been injured by that shot.

Ye Zhongming was familiar with that job. He was one of them in his last life. He held a strong rifle and fired coldly from afar.

Ye Zhongming didn't recognize that weird gun, but that green light couldn't be hidden. The bullets were probably the same grade. The two of them and the gunner job created that strong shot.

It was obvious that the person's target was the three eyes of the ocean giant, but it felt the danger and dodged. It only hit the area beside the eyes. A blue liquid flowed from under its thick skin.

“Well done, Big Iron, continue and blind it!”

His subordinate's attack was effective, so Guang Yao was pumped up and told the sniper to continue.

“Boss!”

A shout broke the excitement before Guang Yao could react, and a blue laser smashed into the Sky Elephant Division team on the wall.

“Deep Cold Laser!”

Ye Zhongming glanced and recognized the ice element attack from the Four Elephant Horn.

The laser was too quick, so Ye Zhongming, Meng Xiangjiang, and Guang Yao, six-star evolved, could only catch a glimpse. The other evolved couldn't even react.

At least a few dozen of them were hit.

Their bodies didn't split into pieces or turn to dust; they all froze into blue statues!

Moreover, they were still in motion. If one removed other elements, they were like the most exquisite statues. But on the battlefield, it sent a chill down one's spine.

You might be next...

“Kill it, kill it!”

That sudden attack caused the Sky Elephant Division's attacks to freeze. After which, Guang Yao hollered.

He didn't have a solution for this overbearing laser. He could only kill the Ocean Giant in the shortest amount of time to reduce the number of times it attacked.

Sky Elephant Division attacked once again.

Although Ye Zhongming knew about the ocean giant, he hadn't seen one. He knew the Four Elephant Horn but didn't know its effects.

Now that he had an impression, he frowned.

When he saw the Deep Cold Laser, he changed his plan.

He noticed that, like Guang Yao, he didn't have a way to deal with the laser. Nature staff could block it, but he still had to kill the ocean giant. He couldn't carry the staff to the battlefield. The other methods were not enough to block this strong and quick attack.

He might survive if this thing stuck to him, but his subordinates would die in one hit.

How?

Ye Zhongming thought about it and decided to use the most direct method.

He chose the battle contribution exchange interface.

One had to say that although the ocean beast wave was huge, killing them felt good. After that short battle, they earned more contribution points than what they had gotten from the previous month.

Ye Zhongming planned to upgrade the box with it. The level one box would turn level two, and he would get three more badges. It would increase efficiency, but he could also use the ability to increase his stats.

But the situation forced him to change his plan, and he had to trade for a weapon.

"V1 Rocket Launcher!"

Due to the nature of the box, as the wearer of the badge, apart from using the points of the other wearers with their permission, he didn't have other special privileges.

Which meant that every one of them had their exchange list. Although they were the same, they had their independent permissions.

Ye Zhongming changed his plan, and he had a new idea. He told the other three badge wearers. Apart from himself, Shengyuan, Park Xiuying, and Liang Chuyin all traded for this V1 Rocket Launcher that took 1000 points.

Although their points differed slightly as they commanded the turret, the three gained many points and had enough to get the weapon.

Four silver rocket launchers appeared in their hands.

Although it followed the level structure of the wheel, this weapon didn't have any description. They only got two rockets. If they wanted to get another rocket, they would have to spend 200 points.

"Change weapons!"

Ye Zhongming ordered and prepared to attack.

Chapter 534: Body broke

The two core Cloud Peak teams that came with Ye Zhongming each had two weapons.

One was a weapon they usually used, and the other was the demon crystal gun.

To satisfy this request, Le Dayuan and his helpers and Ye Zhongming were busy for an extended period. Cloud Peak's finished goods were all here.

The strength of the beast wave on the north wall was not strong enough to force them to take this trump card out.

Ye Zhongming could come here because his subordinates hadn't used crystal weapons.

One must know they had crystal guns and the Sky Breaking series's crystal cannon!

Ye Zhongming didn't want to reveal this weapon if he could, but he couldn't care so much now.

"Ye, Boss Ye, what are you doing?"

Meng Xiangjiang looked at this group of 50 take out never-before-seen guns, and his first instinct was that this was dangerous. He asked right away.

There were too many crazy people in the apocalypse. He wasn't sure if Cloud Peak was here to help or take revenge. After all, they were killing each other in the banquet hall.

"Helping you deal with the big fellow."

Ye Zhongming smiled, but Meng Xiangjiang saw the coldness in his eyes.

"This... It is dangerous if you head out."

After confirming Cloud Peak's intentions, Meng Xiangjiang reminded him.

Numerous ocean beasts were sieging, and humans were under pressure. They would have to risk their lives to get the city gates and walls under control. But based on what Ye Zhongming said, he would charge out of the walls to fight the ocean giant. The Elegant Cavalry Squad, with more than ten thousand members, dared not go out. What could that 60-person team do?

They would probably get drowned.

Ye Zhongming waved, "Who said that we are heading out?"

He ignored Meng Xiangjiang as if his words were for himself.

"We just have to wait for it to get close."

Meng Xiangjiang's legs went soft.

Why did a team as strong as the Sky Elephant Division have to attack from range? They feared that once the ocean giant got close, it would just use its body and the weapon to destroy the defense line. Let it get close. Even if their attacks were strong, they couldn't kill it instantly. The ocean giant just needed a few seconds to crush the wall.

If the ocean beasts charged into the city, would everyone have a chance to live?

Was this young guy's brain empty?

Meng Xiangjiang wanted to scold him but recalled that this person was unafraid of him. But the outcome wouldn't be good if he allowed Ye Zhongming to do that.

"Then what plan do you have?" Ye Zhongming's question shocked Meng Xiangjiang, who didn't know what to say.

In that instance, Meng Xiangjiang did think about leading people down to battle the ocean giant. If he didn't do that, they would still end up dead.

Since Ye Zhongming was here and wanted to use such a foolish way to solve the problem, even if Meng Xiangjiang felt like he was bragging, his fear and will to live made him brainwash himself to believe.

In truth, Ye Zhongming's expression and Cloud Peak's actions gave him some hope.

But the hope was so small that one couldn't see it.

He hesitated. Even if the hope was small, it was better than nothing. With such hope, who would want to suicide?

"Then shut up!"

Ye Zhongming replied coldly. He handed the rocket launcher to Ah Yang, and another gun appeared in his hands.

Demon Energy Gun.

Ye Zhongming hid its glow so no one could tell it was a purple weapon.

The giant on the right was only ten meters from the wall.

"Remember to use my ability!" Ye Zhongming's voice increased, and he reminded the three of them.

"Target, waist!"

Ye Zhongming stared at the ocean giant. Ten meters was very close. They could both reach the wall, be it its long legs or the drill ocean metal.

When the giant raised the metal and wanted to smash the wall, Ye Zhongming ordered to attack.

"Fire!"

The special sound of the Demon Crystal Weapon reverberated along the wall. Dozens of small lights brought surging energy balls that shot through the ocean breeze toward the titan-like giant.

At the same time, Liang Chuyin, Shengyuan, Park Xiuying, and Ah Yang fired the grenade launchers. Four rockets flew. Similar to the crystal gun, they attacked its waist.

Ye Zhongming had a reason for aiming the waist. From the height, its waist was on the level of the wall. Cloud Peak warriors aiming for it would be shooting straight forward. It was also the shortest distance. Along with the ocean giant's huge body, they could ensure a high accuracy.

This was the best spot to hit if they couldn't choose the most lethal head because of the upward angle!

At the same time, Ye Zhongming charged to the side of the wall and fired the gun.

Four people, including Ye Zhongming, used: Space Stack.

This was Ye Zhongming's Lethal Gun Artist's job skill. He could use it. Shengyuan, Park Xiuying, and Liang Chuyin were wearing the badge, so they used one of its abilities- Borrow Skill!

Their attacks were the first to hit the giant.

To others, only one of the four rocket launchers was normal. It fired from the barrel towards the target. The other three appeared midway and hit the waist immediately.

"Hong Hong hong!"

The explosion attracted everyone's attention. Even Sky Elephant Division looked over in shock.

This was the first time many of them spotted this group.

The weapons were loud, and the crystal weapon attacks arrived after attracting their attention. Many people saw an unbelievable sight.

The thick skin that didn't break after the Sky Elephant Division bathed it in bullets was being sliced apart.

This team launched a second attack. Then, the third wave, where dozens of black things were tossed forward.

And then... The giant's body broke...

Chapter 535: Killing again

Many Sky Elephant Division members' guns aimed into the sky, and some Cloud Port Alliance members' skills missed.

Some people had seen level-seven lifeforms before. The ocean was filled with limitless possibilities and rumors that people had seen higher-level beasts.

But no matter what, this was the first time Cloud Port faced such a mutated lifeform. To see that face, one had to tilt one's neck up so badly. It was enough to fill the evolved with fear.

The effectiveness of Sky Elephant Division's attacks was quite shocking, but who knew that in just a short while, someone would slice the body of this fellow that was the trauma of many in the city by the waist?

But that was the truth. The ocean giant on the right roared in terror and fell to the ground.

Numerous ocean beasts were squashed when they fell.

"Head, fire!"

Ye Zhongming was not excited. Instead, he gave the order carefully to end the beast.

The Cloud Peak warriors, who were slightly anxious, calmed down and fired at the chin that the ocean giant revealed.

They didn't have the rockets, only the crystal guns and Ye Zhongming's demon energy crystal gun. Cloud Peak also didn't use the crystal grenades.

But it was enough. The head wasn't like the waist, and the defense wasn't on the same level.

Honestly, Ye Zhongming was shocked by the combined strength of the rocket launcher and the crystal weapons. At least in what he imagined, they would need at least five waves to crush the giant. But they only took three.

Ye Zhongming's battle plan wasn't complicated. Since he couldn't block the Deep Cold Laser, he tried to insta kill the beast.

The most effective method is to kill the ocean giant in the shortest time. He used the absolute attack to replace defense.

Fortunately, he succeeded, and this showed the strength of crystal weapons.

Of course, Ye Zhongming saw the destructiveness of the battle contribution weapons towards beast defense, which showed him that the Competition Death Wheel was worth it.

Guang Yao noticed Ye Zhongming, who had battled him in the banquet hall. But what happened next shocked him. This was the first time he realized that Cloud Peak might be stronger than his division.

His pride meant he didn't want to admit that, but the truth was right before him.

His two thousand elite men couldn't do something that sixty from Cloud Peak could achieve.

This gap made Guang Yao feel humiliated and powerless.

He knew Sky Elephant Division and himself were strong because of the resistance zone. What was the resistance zone? Why was it called that? Guang Yao felt they had occupied many resources and good situations but weren't stronger than a random team. The rage and embarrassment blanked his mind.

When he recovered, he saw that the squad had jumped off the walls!

What were they doing?

Guang Yao rushed to the side of the wall to take a look, but he took two steps before pouncing to the side.

Peng!

A hot red laser landed near where he was. A light shone in the city.

A streak of light shone on the Holy Army Coat to block the heat waves. Guang Yao turned his head and saw another piece of his squad missing!

"Melting Flame Laser!"

The 2nd of the four lasers smashed onto the wall and caused more than a hundred deaths!

Guang Yao was furious.

The ocean giant was furious as it saw its partner die.

But if you were angry, find the culprit; why vent it on us?

“Scatter, scatter!”

Guang Yao shouted as that ocean giant went mad. Its huge body trampled towards the city wall, and the four horns on its head shone.

Humans were too tiny to it, so it couldn't differentiate between Cloud Peak and Sky Elephant Division. To him, they were all enemies.

Sky Elephant Division split to the sides of the wall.

“Lightning Laser!”

“Wind Laser!”

The ocean giant's attacks arrived after Guang Yao shouted.

Each attack would kill dozens of elite Sky Elephant Division forces, which made Guang Yao very frustrated and heartpained.

Cloud Peak, who had caused all this, had relied on the bug ladder to get down, and they moved towards the ocean giant.

Insta-killing the first ocean giant gave Ye Zhongming confidence to kill the second.

The ocean giant fired numerous lasers on the wall. It vented its frustration before it recovered. It quickly found the real culprit.

It tossed the Drill Ocean Metal.

“Damn!”

Shengyuan raised the shield in his hands. The ocean giant's attack was very fierce, and they couldn't dodge.

Ye Zhongming placed Nature Staff into the ground simultaneously.

Water Bottle Protection and Drill Ocean Metal clashed. The basic water gem was instantly shattered, and the metal pillar hit Shengyuan's defense.

“Gate of Governance!”

A giant silver gate appeared above their heads. The metal hit this stone gate, and after a crisp sound, it was knocked aside.

Shengyuan's legs sunk into the ground, and blood surged from his nose.

Many cracks appeared on his body, and his shirt was dyed in blood. The diamond shield around him had already shattered.

Park Xiuying used Cleansing Dew on his body.

Shengyuan's Giant Shieldman job had upgraded, and he became a Basic Gaint Shieldman. Apart from Immovable Boulder, he had another skill, Gate of Governance.

It was a smaller-scale defensive ability but with stronger defense.

Water Bottle Protection and Gate of Governance barely blocked the Drill Ocean Metal. But as a result, Shengyuan was badly injured.

A rocket landed on the ocean giant's body, and it caused his charging body to shake.

Liang Chuyin traded for many rockets. She had just killed one ocean giant and gained many contribution points.

She used the Borrow Skill ability from the badge, and the rocket appeared behind the drill metal.

This attack gave Cloud Peak a chance to attack further.

When the Drill Ocean Metal was knocked aside, crystal weapons, battle contribution weapons, and the purple weapon attacked. Two rounds broke its leg, and it knelt on the ground. Deep Cold Laser missed and turned the ground dozens of meters away from them into an ice field.

After the laser, its giant body's weak areas were exposed before their eyes. The outcome was the same as its ally.

Cloud Peak killed the ocean giant once more.

Chapter 536: Greed

The battlefield was silent.

It was silent.

Be it humans or the ocean beasts, both sides stopped. Those vicious ocean lifeforms came like a wave and retreated like a wave.

Even the few parts of the wall that were about to be broken into retreated.

The death of the two ocean beasts was like a signal for the ocean beast wave to retreat.

It was only temporary. They were a thousand meters away before they stopped.

Ocean beasts still surrounded Cloud Port.

Ye Zhongming's beating heart finally calmed down.

When the ocean giant fired a Deep Cold Laser before it died, Ye Zhongming was sweating profusely.

If it hit Cloud Peak's team, the outcome... It was something that Ye Zhongming didn't dare to imagine.

Fortunately, it missed.

"Ah Yang, protect those two pillars. Xiao Min, bring people to collect their blood."

Since he killed the ocean giant, he wouldn't give up on the rewards. He gave them the order to clean up the battlefield. At the same time, he used the badge's communication ability to call Little Tiger to bring people over.

Ye Zhongming came to the first ocean giant killed and started dealing with its four horns.

As he had never dealt with such a thing before, he was careful not to destroy it. At the same time, he used his collecting and refining skills to get the most perfect horns.

Conversely, Ah Yang led people to tie the two Drill Ocean Metals together. It was so heavy that Ah Yang and the others were shocked.

If not for Brother Ye and Brother Shengyuan blocking it and it hitting one of them, even the defense of white equipment would not have been enough. One would be dead if not badly injured.

Xiao Min and her group used materials they found or items they carried to collect the ocean giant's blood.

"Zhongming, someone is coming."

Park Xiuying healed Shengyuan while looking out for Ye Zhongming. She heard the footsteps and reminded Ye Zhongming.

Ye Zhongming lifted his head and continued to dig the four horns around his height. He had already dealt with three of them.

"That, Boss Ye."

Hearing that term, many Cloud Peak members maintained their wariness. They aimed their crystal weapons at those who came. They knew this weapon was a massive threat to everyone after that battle.

"Is there a problem?"

Ye Zhongming smiled coldly. He didn't need to think and knew what these people wanted to do.

Meng Xiangjiang cursed Guang Yao. He told him to say such offensive things.

"It is like this, although these two big fellows died to Cloud Peak, but after all, other people played a part, look..."

Ye Zhongming was expressionless, but he sighed. People were just greedy. Although they didn't know what the ocean giant was, they knew each part of an evolved lifeform was valuable. Especially since these two should be the highest level that humans could get. Just the two level-seven crystals were enough for people to fight.

Under such a temptation, they were still greedy even after Cloud Peak showed they could kill the two ocean beasts. They relied on their numbers advantage to try to get something.

After dealing with the last horn, Ye Zhongming carefully pulled the bone base. As its head was too big, Ye Zhongming needed two hands to pull the base.

This thing didn't have a level, but it could be used. Each horn represented an element. Wind, Fire, Water, and Lightning energy circled it. Ye Zhongming sensed they were absorbing the four elements from the air around them.

Seeing Ye Zhongming pull out something the size of a room, many survivors gathered below the walls and moved forward.

Guang Yao's greed couldn't be hidden, but he hesitated and stopped his men from shooting.

It was not a good time to have an internal war. Although he didn't have a good impression of Ye Zhongming, he wasn't stupid and knew what was the right thing to do. He could pressure Cloud

Peak but wouldn't fight them. That would be pushing the humans to hell. The ocean beasts didn't retreat.

But many Cloud Port people didn't think that way. They thought about stealing such a thing. They looked at one another and got ready.

Ye Zhongming looked at Little Tiger that appeared in his sight. He pressed on one of the horns, and it fired a laser much shorter than the one the ocean giant fired.

A most obvious faction was hit, and many turned into ice statues.

The Cloud Port evolved that wanted to charge forwards retreated, and their eyes were filled with disbelief.

Ye Zhongming smiled in disdain. People were like that; they used their own goals to measure the actions of others. If others did something they didn't expect, they would think that others were wrong.

If one switched sides, they would be more vicious than him.

"What are you looking at? Waiting for me to shoot another one?" Ye Zhongming rubbed the horns and looked down on them. He wouldn't mind killing them if not for his fear of the ocean wave like Guang Yao.

Greed could only be stopped by blood and life. Moreover, humans have bad habits. They didn't fear humans like they feared mutated lifeforms.

"You..."

Someone wanted to say something, but people beside them stopped him. They turned their heads, and a team of thousands held the weapons used to kill the ocean giant and looked at them coldly.

Guang Yao sucked in a deep breath and took two steps forward.

"Mr Ye." Guang Yao bit his teeth and was not used to this situation where they were enemies before but had to negotiate now.

"When you are free, can we find a place to talk?"

Ye Zhongming squinted his eyes and nodded.

Guang Yao got a reply. He reluctantly looked at the ocean giant bodies and brought his men back into the city.

Although the others were unwilling, they had to go when they saw the main person leave. There were other spoils of war that they had to collect.

Ye Zhongming looked at them leave, and he placed the horns aside. He started to collect the three eyes. But when he was about to slice, he stopped. He looked at the giant's head and exclaimed.

Chapter 537: Mysterious Pearl

Four various colored pearls appeared in the tofu-like brain of the ocean giant.

The four pearls were very small if one judged it based on the ocean giant's size. If one shrunk the ocean giant's body to the size of a human, these pearls were the size of rice grains.

But Ye Zhongming sensed an aura similar to the Four Elephant Horns.

He took a look at these few things and also at the horns beside Little Tiger. Ye Zhongming roughly guessed what they were for.

Simply put, they were the energy source of the horns.

When Ye Zhongming used the Deep Cold Laser to kill people, Ye Zhongming sensed that much of the element energy was used up. But because the four horns were absorbing elemental energy from the surroundings, Ye Zhongming thought it was how they replenished energy, so he didn't think much about it.

Although he thought this was the case, he still had questions. These four pearls didn't absorb outside energy like the horns, so how did they provide the horns with energy? Was it...

Ye Zhongming looked at the ocean giant's body. Did this fellow provide it himself? This thing shouldn't be the essential source for the horns, but since they exist, what was their purpose?

Ye Zhongming felt this pearl wasn't simple, so he kept it carefully. He planned to study it with the horns when he was free.

He moved aside, and he allowed Yellow Ball to eat the brain. Ye Zhongming started to deal with the three giant eyes.

They were called Blue Magic Eyes; they were natural silver-grade equipment. If one took them off a level nine ocean giant, they would be purple grade.

But with Ye Zhongming's identity in his last life, he hadn't personally seen one. When he took the first one, the giant crystalline body that gave off a gentle and silver light caused their eyes to light up.

Under the moonlight, the blue eyes were like beautiful blue gemstones.

"Blue Magic Eyes (Visualization): Show visuals of the marked location within ten miles, with a maximum time of ten minutes. Cooldown ten times the time of the visualization."

Ye Zhongming shuddered when he saw ten thousand times. His first thought was that it was very long. But thinking about it, if he used the magic eyes for ten minutes, the cooldown would be 100 thousand minutes. In terms of days, it would be close to 70 days. It wasn't short, but it wasn't too long.

Ye Zhongming felt like this time wasn't much compared to the eyes' ability. This one ability had a decisive effect during certain situations.

This was an omnipotent monitoring device. As long as you were within range, everything could be seen. Ye Zhongming could see what any faction was doing if he wanted.

This was a high-accuracy spy satellite.

No matter what happens in the future, he can get the most accurate intel. Moreover, if one took a minute to understand the rough situation, the cooldown would be a week.

With his first-eye experience, Ye Zhongming could take the other two out more smoothly.

The two abilities of this eye were illusion and x-ray. The latter could allow one to see through any environment; the former was a disguise skill. It allowed the eye to cause illusions that caused problems for lifeforms.

He kept the eyes and dug out the corals on its body. He left the rest for the others to deal with. He didn't need to use the smith's ability to deal with the organs.

At this point, Xia Bai led a group over and personally observed the two drill ocean metals being moved away. At the same time, she brought many bottles to bring some ocean giant blood.

The other giant was dealt with smoothly. Ye Zhongming gave Ying City members some rewards. Those with battle pets could come to eat meat and then return to the north wall.

When he left, the ocean giants were snatched by people from Cloud Port. Although the valuable things were taken, some pieces of meat still existed. Many evolved didn't care that battle pets had eaten them; they fought for it. Some even sliced pieces and tossed them into their mouths.

No one laughed at them. Although these pieces of meat weren't as helpful as organs and brains, they were still from a level seven mutated lifeform. For humans that were level three on average, they were still quite helpful.

Guang Yao and Meng Xiangjiang stood on the city walls and looked at the chaos with complicated expressions.

"That was the first time I hoped the ocean wave would attack."

Meng Xiangjiang smiled bitterly. He saw Ye Zhongming take the limbs of the two level-seven lifeforms; even a fool knew those were good things.

Guang Yao didn't speak. He retracted his gaze and turned towards the north wall.

He was from the resistance zone and knew information that Meng Xiangjiang didn't. He had a feeling when he saw Ye Zhongming deal with the bodies.

Was this guy one of those who knew about the apocalypse and was prepared?

But he didn't get any news.

Or was he not?

But why did his actions feel like he could read the future?

"Little Xiu?"

Wearing the Holy Army Coat, the woman beside Guang Yao stepped forward.

"Send the news back to headquarters, be more detailed about Cloud Peak, moreover..." Guang Yao hesitated, "Ask for reinforcements."

Little Xiu was stunned. She nodded and left.

Ye Zhongming, who returned to the north wall, received envy and respect.

When news of the first batch of people killing the two level seven lifeforms while unscathed spread back, Flying Sky Ship Squad and Ying City Alliance were shocked.

Level seven, two of them. They were killed just like that? Zero losses?

When the materials were moved back, their last bit of doubt disappeared.

They were really killed!

All negative emotions turned into hope.

This news not only represented Ye Zhongming and Cloud Peak's strength. It also meant that the situation here was broken.

The first thing Ye Zhongming did was call Zhao Xingmei, who witnessed everything, over.

Chapter 538: This person is too arrogant

"Zhongming."

Zhao Xingmei was the only person in Ying City, besides some Cloud Peak core members, who could greet Ye Zhongming like that.

One has to say that beautiful girls have some advantages.

Liang Chuyin frowned when she heard Zhao Xingmei call him that.

Everyone in Cloud Peak knew what Liang Chuyin thought of Ye Zhongming. When free, she would be his little tail and follow him wherever he goes. There was nothing Xia Lei could do about it. Moreover, her position was one that Xia Lei allowed.

So Liang Chuyin didn't need to compete for anything in Cloud Peak; she was also not interested in competing. She was happy to see others wanting to become a sister.

But for people outside of Cloud Peak, Liang Chuyin didn't treat them as well. She came here with a mission from Xia Lei so that Ye Zhongming didn't get captured by other girls on the outside. To this influencer, Zhao Xingmei was undoubtedly the biggest vixen.

She actually called him Zhongming, wasn't she challenging the other women in Cloud Peak?

Zhao Xingmei was in charge of a Ying City company during peacetime, and her judgment was really good. When she saw Liang Chuyin's reaction, she knew that the beautiful girl was jealous. She smiled and didn't react. She waited for Ye Zhongming to speak up.

"Take some of the ocean giant blood and bathe in it; it can increase the skin's defense, and your wound healing ability will also increase a little."

Zhao Xingmei knew that this was her payment for joining in just now.

"Actually, I didn't help much; I just fired a few arrows."

Zhao Xingmei knew that the ones who did the most were Cloud Peak themselves. Those crystal weapons and unknown rockets appeared, and they were the key to killing the ocean giant. The few arrows she fired were just the icing on the cake.

"Take it, Cloud Peak never mistreats people who have helped them."

Hearing his words, she understood that she was a role model. She represented that if one worked together and had a good relationship with Cloud Peak, Ye Zhongming would continue to support them.

Zhao Xingmei was not unhappy at all at being used. Instead, she was very happy to be used like that. She was very smart. After several incidents, she knew Ye Zhongming's personality, which was also Cloud Peak's personality.

So, she got rid of all impractical thoughts and focused on working with Cloud Peak. Since that was the case, being used and rewarded for it was a good thing.

After thanking him and letting some of her men carry the blood, she was naturally envied by many in Ying City. After the news spread for a few minutes, some rumours started to spread that she was his secret lover.

What was weird was that Zhao Xingmei's Star Beauty Company didn't dispel the rumors. Zhao Xingmei didn't say anything, and neither did her subordinates. It made Liang Chuyin very unhappy.

Bai Feng looked at those scenes and sighed. Sometimes, one wrong step was all it took. If he hadn't been blinded by interests, he might be a role model now.

Ying City's few faction leaders knew what Ye Zhongming was doing. They were doing it for them to see. Bai Feng naturally knew it, but he was unhappy about it.

But the benefits they got from the defense battle were also huge. When clearing up the battlefield, they gained many demon crystals and materials. For fairness, Cloud Peak collected them before splitting them up. But even the weakest faction got more in one day than what they got in half a month or even longer. The more important thing was that the losses were minimal. Only the slightly unlucky people were injured or lost their lives in the ocean beast attack.

They had almost no losses and also gained many benefits. Moreover, looking at Boss Ye, he was confident about getting out safely. So, even if some of them joked about Ye Zhongming and Zhao Xingmei, it was done with good intentions.

After all, there weren't many bosses who knew how to balance pros and cons. If he was calculative, most of the beasts were killed by Cloud Peak, and even if they chose to give you nothing, there was nothing you could do.

With money, Ying City Alliance members started to think. They found Cloud Peak to express that they wanted Boss Ye to craft equipment or upgrade their equipment.

The retreat of the beast wave was temporary, and no one knew when they would come next. Only by having good equipment could they have a higher chance of being alive.

But considering mental energy, Ye Zhongming rejected this request and told them he would have to recover some mental energy first.

Ye Zhongming's mental energy naturally didn't run out. Since learning the Soul Refining Technique, his recovery speed has been really quick. Along with the necklace, he could go from zero to full in just one full day.

He didn't use many job skills today. Apart from some used to deal with the materials, he still had some mental energy left. He needed just a few hours to recover.

Ye Zhongming had other plans.

Just earning demon crystals from the Ying City Alliance army was not enough for him. He cleared most of their pockets. The remaining few factions kept crystals to spin the wheel. Unless he stole it from them, they wouldn't trade them.

Under such a situation, Ye Zhongming looked at the number of deaths and turned to the Cloud Port Alliance.

Those people had a large amount of demon crystals.

He told people to bring the collected materials over. Looking at the mountain of materials, Ye Zhongming planned to earn a big one.

But before he could start, someone informed him that Guang Yao was there.

"Let me reintroduce myself; I am Guang Yao, the highest commander of the T1 resistance zone's Sky Elephant Division." Guang Yao stretched his hand out, "We sent two observers to Cloud Peak before, but they died there."

Ye Zhongming immediately thought about the two six-star evolved who weren't good at fighting.

"Guang Yao... Sir, are you here to find trouble?" Ye Zhongming squinted his eyes and shook hands.

Hearing sir, Guang Yao knew that this person knew the previous identity of his faction, and he relaxed. He shook his head, "On the contrary, I am here to talk about cooperation."

Ye Zhongming thought about those materials and suddenly felt like Guang Yao was a little arrogant.

Chapter 539: I want her's then

Was Sky Elephant Division and Guang Yao really arrogant?

Definitely not. They were very smart. Be it during peacetime or the apocalypse, there were still many societal elites.

It didn't matter if they knew about the apocalypse before it started, but one thing couldn't be denied. They did a very good job. One Sky Elephant Division was actually just slightly weaker than Cloud Peak.

They might not have a solution for the ocean giants, but one mustn't forget that they only used a third of their strength. What if they used it all? They could kill the ocean giant if they had more time.

Cloud Peak's crystal weapons were strong, but what if they fought the Sky Elephant Division? Cloud Peak might win, but they would also suffer huge losses.

So, although Ye Zhongming thought this was a chance to get rich, he didn't treat him as a fool.

But there was a serious difference in opinion.

"Mr. Ye, do you think this is appropriate?" Guang Yao's eyes twitched, and he was in a bad mood.

The situation they were facing was still very serious. The retreat of the ocean beast wave was only temporary, and they might attack at any moment. What could they do then?

Guang Yao and Ye Zhongming both sensed a few strong auras. If these mutated lifeforms attacked together, would they be able to hold on?

If the city had only Sky Elephant Division, Guang Yao's answer would definitely be a no.

But Ye Zhongming and Cloud Peak's performance gave him hope as this faction could split the pressure with him.

Ye Zhongming's appearance increased their chance of survival by at least half.

This was why he didn't fight Ye Zhongming for the ocean beast's body. Guang Yao also suppressed the other factions to avoid offending the Ying City Alliance.

He came here because he wanted both sides to work together to get stronger in the short term to fend off the ocean beast wave.

Naturally, when Ye Zhongming saw that Guang Yao was a little arrogant, Guang Yao thought the same. This mysterious new faction had many things that Guang Yao wanted.

Those guns had crystal weapons chiseled on them.

He used his gender to promise that it was a weapon that crossed eras!

He was tempted. He felt like this was a perfect chance to get the weapons. He could sense the pressure of death when facing these ocean beasts, and he believed Ye Zhongming could feel it, too. Under such a situation, negotiations would be much easier than peacetime.

But before he could say anything, the Cloud Peak head, who was young, actually asked for the Holy Army Coat. He suppressed the rage in his heart and asked with a bad attitude.

Ye Zhongming didn't mind and waved, "Quite good."

Before Guang Yao, who was so furious that his face turned white, could say anything, Ye Zhongming continued, "Both of us understand that the wave can attack at any moment. Our chance of stopping it isn't high; even if we work together, it isn't high."

Guang Yao calmed down and continued to listen.

"Our only chance of surviving is like before."

"What do you mean?"

Guang Yao asked Ye Zhongming, who seemed very calm.

"Kill their leader."

Ye Zhongming waited and allowed Guang Yao to digest his words. He had a bit of a teasing expression in his eyes.

"As long as we kill the high-level lifeforms, the ocean beast wave will retreat like today."

Guang Yao thought about the ocean beast wave retreating after the two ocean giants died and believed what he said. But he felt like something wasn't right. He thought for half a day but couldn't identify the problem.

"That is our only chance." Ye Zhongming was trying to brainwash him, "In the entire Cloud Port, apart from the two of us, maybe Meng Xiangjiang can kill some of the leaders, then... No one else. But you can sense that there are definitely more than three of such leaders."

"In other words, we both have to kill two at least and maybe even more."

Ye Zhongming smiled, "Commander Guang Yao, do you think you can do it?"

Even if Guang Yao was confident, he wasn't so confident that he could kill two or more level seven lifeforms. Moreover, they might be above level seven.

Guang Yao could only lower his head.

"But if we work together, we might be able to."

Guang Yao looked at the young face. Shouldn't he be the one saying those words?

"We can raise each other's strength, kill the leaders, and then leave. As for whether or not we are friends or enemies in the future, that is a problem for next time. What do you think?"

Ye Zhongming looked at the ocean beasts in the distance that were getting a little restless; his mind continued to run.

"So you think I should give you my equipment?" He pointed at the coat on his body and looked disdainful, "Do you know what this is? Do you know how strong it is?"

This was a negotiation tactic. Guang Yao wanted to use Ye Zhongming's interest to get what he wanted.

"Why not you stand there, and I hit you with a few shots to test it?"

Ye Zhongming touched his chin like he was considering if the crystal weapon or the coat would win.

But Guang Yao was furious. Did this fellow not know how to negotiate? Was that something someone should say when they were negotiating? Wasn't he afraid the talks would fail?

"If you can give me a thousand of these weapons and the relevant skills, I can give you a thousand bullet cases and a batch of grey guns."

Ye Zhongming laughed coldly, "Do you think I am a fool?"

"Then do you think I am a fool?"

Guang Yao replied. Both sides stared, and no one took a step back.

After half a minute, Ye Zhongming laughed, making Guang Yao slightly uncomfortable.

“How about we each take a step back.” Ye Zhongming took out an evolution potion and passed it to him.

“Two-star potion? What would I want this for... Yi?” Guang Yao wanted to toss it back but realized something and observed the potion.

“You want my crystal weapon, and I want the equipment. This is our best item. Since we can’t agree, let’s go for the second best. I will take out my second-best equipment, and you take out your second-best. Although it might not get the effect we wanted, it is what we can both accept, right?”

“What do you want?” Guang Yao asked excitedly.

“Since you won’t give yours, then I want... Hers.”

Ye Zhongming pointed to someone behind Guang Yao.

Chapter 540: Neighbour's surname

The woman who had been listening quietly beside Guang Yao stared.

What did he mean? He wanted her set?

Although Little Xiu knew that Ye Zhongming was only negotiating, but the moment he said that, she felt like this guy wanted to strip her.

No one in the T1 Resistance Zone dared to speak to her like that; even Guang Yao didn’t.

Her mainly red with black stripes Holy Army Coat lit up, and a red spear appeared in her hands.

This action caused a chain reaction.

The north wall was Ying City Alliance’s defense zone. Although no one followed Ye Zhongming, Cloud Peak members were all around. Did they actually want to fight?

Cloud Peak members who were proud saw that their boss got threatened, and they couldn’t accept it. The weapons that were aimed outside all turned. The core members stepped forward. Two digits of five star evolved formed a strong aura that filled this space.

The other Ying City members were nearby, and they didn’t react at first. But Little Xiu’s coat gave off a bright glow. These people moved towards this direction along with Cloud Peak’s killing energy.

Although Ye Zhongming couldn’t be said to be the father of Ying City, he was a great benefactor. That thought became more apparent after they came to Cloud Port. In this city, there were mainly ocean lifeforms. Where they had double the amount of smiths than Ying City, their equipment was not weaker than Ying City, and their levels weren’t too. What was the reason? That was because of Ye Zhongming. Ying City used a cheap price to buy high-level equipment from this Cloud Peak boss.

They gained good equipment like that and could even save crystals to spin the wheel and level up.

At the start, those without brains would think that Ye Zhongming was a vampire and was using various methods to rip them off. But people who came here saw clearly that he wasn't a vampire but an angel.

How much did the weapons here cost? How much did Cloud Peak charge? When they compared it, everything became clear.

Apart from that, there were also close to nil losses in the previous defense.

Seeing someone wanting to hurt Boss Ye when they were surrounded in the center city. Wasn't that the same as killing them?

Things happened quickly. Guang Yao was furious when he heard what Ye Zhongming said. He didn't stop Little Xiu but didn't expect such a reaction. He knew that he had to clarify the situation. If not, there might not be a negotiation; they would even lose their lives here.

But before he could say anything, Little Xiu exclaimed. Guang Yao turned his head, and he started sweating.

A black scythe was on her shoulder. If the person used some strength, her head would be sliced off.

Thinking about Little Xiu's identity, if anything happened here... Guang Yao felt a chill down his spine.

"Mr Ye, she is my sister; she was just emotional!"

Ye Zhongming looked at Guang Yao and also at the unhappy Little Xiu. He waved to ask Xia Bai to let her go. He muttered something that made Guang Yao angry from embarrassment. Little Xiu was also angry.

"Blood sister? Don't look like it. What is your neighbor's surname?"

Guang Yao forced himself to calm down. He took a deep breath before saying, "Mr Ye, I need some sincerity and not a threat."

"I am giving you sincerity." Ye Zhongming took the modified potion back and waved, "We modified the recipe; it has 20-30% more effect than an ordinary one. We have the recipe for the first three potions. Commander Guang Yao, do you know what it means?"

Hearing his words, Guang Yao forgot the shock from seeing the level seven Xia Bai. He looked in disbelief, "Each could increase by 20-30%?"

If that was true, then he naturally knew what it meant.

Two people, one who used a normal potion and one who used the modified one. If both were three-star evolved, the person who used the modified one would be much stronger. That was only on the body quality; he might be close to a four-star evolved.

If this modified potion was real, it was as valuable as the Holy Army Coat.

"Trade!"

Guang Yao didn't say anything, and Little Xiu was the first to speak up. Cloud Peak gave her a weird expression.

In Cloud Peak, no one dared to make decisions for Ye Zhongming. Not even Xia Lei.

Surprisingly, Guang Yao didn't mind and agreed.

All that remained was to agree on the numbers.

"What do you mean? We agree with your conditions, and you are telling us we must provide the potions?"

The few who found a place to sit and discuss heard that Ye Zhongming needed them to provide the potions. Cloud Peak was only in charge of modifying it. That infuriated Little Xiu.

"Is there anything weird?" Ye Zhongming looked at this feisty girl, "Should we give the technique to you? Then it wouldn't be just these few sets. You should also tell us the crafting technique."

When she heard Ye Zhongming say that, Little Xiu sat down. She glanced at Guang Yao and didn't say anything else.

Both sides discussed. Ye Zhongming would modify 500 one-star potions, 300 two-star, and 100 three-star. Guang Yao paid three sets of Holy Army Coats. One was white, which was the set that Little Xiu wore, and two grey sets.

At the same time, Ye Zhongming agreed to sell a batch of crystal grenades. Of course, it was costly, so Cloud Peak core members' eyes lit up.

Although they weren't sure of the exact cost, they had a rough understanding. They were now selling it at 100 times profit!

As for the crystal guns, Guang Yao gave an unbelievable price, but Ye Zhongming didn't budge.

He was worried that Guang Yao's resistance zone was the previous government organization. Their skills were top-grade, so they could create something like the Holy Army Coat.

He was worried that the guns would be studied. Although the chance of it happening was low, no one apart from Le Dayuan could create it in his last life, but he had to be afraid. So he only sold the grenades. This one-time-use item would probably be finished before the wave ends.

Both sides discussed the trading plan and also about working together. A night passed. When dawn came, and the sun rose above the horizon, the scenes outside made all the humans silent.
