

Apocalypse 641

Chapter 641: Chance to flee

Mei Na and Gan Lan stopped arguing on the side of the river.

They saw Ye Zhongming jump in. They were shocked but knew that this person wasn't a Lan Ba. He was just a solo hunter.

But those people shook their heads after they recovered from the shock.

It was okay if he wasn't a Lan Ba, but was he not afraid of meeting one? If the crystals and materials that he risked his life to get were stolen and he was killed because of that, wasn't he just stupid?

Even if he didn't meet one of those, could he hunt fish alone? They lived in schools, and those who were alone were very strong. Moreover, the Star Sunflower Fishes were getting more cunning, and one person couldn't succeed. There was a high chance of them dying and becoming their food.

Haiz, another overconfident one. How unfortunate, he looked good and clean.

Mei Na and Gan Lan were closest to the shore, and their men were dozens of meters behind them.

You don't look like someone who cares about the lives of others. Mei Na smiled mockingly and didn't hesitate to diss her enemy.

Gan Lan didn't care, Beautiful, I don't care about others, but I care about you. There is such a good chance. As long as you become Lin Xing's woman, you can live well in Linhai. Even I would have to call you little miss in the future.

She was just smiling as she infuriated her.

If you like it that much, then why don't you become that old man's woman? Mei Na was furious. Lightning flashed across her squinting eyes.

He doesn't like me! She waved, exposing the body part she had been covering while crossing her arms. She even purposely shook them, which caused Mei Na to roll her eyes.

You are just unwilling. Don't think I don't know how your Colorful Smell Battle Squad is being suppressed at the third bomb shelter!

Gan Lan was stunned as she hadn't expected this woman to pay such close attention to her faction. She guessed what was happening between Lin Xing and herself from the traces.

She remembered how they were being suppressed and how the battle squads situation was worsening; her smile disappeared. She lowered her head and looked solemnly at the river.

Maybe we can work together.

Seeing Gan Lan not reply, Mei Na tossed out her second reason for coming here today.

Ke! Gan Lan burst out laughing, Work together? Work together, and we can escape Lin Xing and his Nine Advancement Pavilions control? We can fight the only six-star evolved in Lin Hai? Lin Xing can wipe out both of our squads! You better wake up! Lin Xing doesn't lack beautiful women, so he isn't anxious to get women like us. He wants to play with us slowly.

But if you want to resist him, he can kill us in minutes! Gan Lan looked at Mei Na like she was looking at an idiot. She wondered why she would even suggest that when she knew the situation that she was in.

Mei Na didn't mind and squinted her eyes. After a short while, she said, We were best friends in university and even after graduating. We only became enemies for that guy.

Gan Lan frowned and spat two words, Shut up!

Mei Na shook her head, With our relationship, we could have protected one another. But we went our separate ways. I made a battle squad, and you wanted to build your own. You came here to hunt, so I came here too. We can compete in any area and try to decide a victor.

Are you done? If you are done, then you can go to hell!

Pink flames appeared on Gan Lan's body. Her red hair danced in the wind. Both their squads were prepared to fight, and the battle was about to begin in a blink.

Don't you want to ask why that guy abandoned you?

Mei Na's words caused Gan Lan's attack to stop.

I also want to ask that. He abandoned me here, too.

Gan Lan stared at Mei Na's face; her body shook slightly.

Mei Na waved and told her subordinates to relax.

I found a chance to head out. Her words were shocking and caused the flames around Gan Lan's body to be extinguished.

Let's get together; we will head out to ask that guy, and then we can choose whether to be friends or enemies.

The two of them were in silence again. A few seconds later, Gan Lan said solemnly, Why did you choose me?

We are good friends, at least we were. Mei Na scoffed, but she smiled, Why are you still hesitating? Do you want to wake up daily and see that old face?

Okay!

Someone knows when the next Feasting Day is. Moreover, the Life-Taking Carrot will evolve and is at its weakest!

Her voice was soft such that only Gan Lan could hear it. But it was as if a bolt of lightning had shocked her heart.

Someone in Linhai City knew the accurate timing of the Feasting Day and the carrots' evolution. If that was the case, they might be able to charge out if they were well prepared.

The two of them looked at each other, and all their intentions were communicated with that gaze.

Splash!

When they both agreed, the water started to bubble like something was rumbling below. The two of them felt a strong life source under the water!

A few seconds later, the water started to surge, and much blood flowed up!

The two women were shocked. Gan La exclaimed before looking at Mei Na, exclaiming, How long did that guy spend down there?

Ye Zhongming had heard of those skills from Yang Yixi.

Forward Thrust would turn the fish's body firm. They used their speed, momentum, and the spikes on their heads to deal stabbing damage.

Star Ice Lightning was more vicious. Those balls would float around the target. If they didn't touch them, they would just float. But if you touch them, they will explode. The ball would turn into poisonous needles that hurt things around. The strength was no weaker than the Forward Thrust.

The Star Sunflower Fishes were using this skill to lock the river to cause survivors to suffer. Some even saw the fish using this skill to protect their young.

Ye Zhongming could release the Demon Nurturing Bee Hive on land to fight them with numbers, but the Needle Birds couldn't fight underwater. Ye Zhongming could only rely on his ability to solve the attacks.

He waved his hand, and a test tube appeared. Ye Zhongming pulled the stopper, and a black figure appeared, expanding underwater!

Chapter 642: Sealing Light

The moment the black shadow appeared, numerous light sources appeared around Ye Zhongming and it. Although those specks of light weren't that bright themselves, they were very eye-catching in the dark river water.

They were like a wall standing behind the black figure. The Star Sunflower Fishes hit the wall and were stuck there like glue. No matter how they struggled, they were unable to break free.

Star Ice Lightning spread out on the walls, too. The light restricted those poisonous ice-element needles, and they didn't seem as strong as before.

However, due to the black figure enlarging all of a sudden, some skills still hit the black figure. However, the black figure, which was the size of a three- to four-story building, wasn't affected. Numerous tentacles shot out from its body, wrapping up those fishes that used Forward Thrust and hit its body. It then used its hand to crush these fish that were at least level four into meat paste.

The two red crystals hidden under its body gave off a threatening light. That black figure shook its body, and its ice needles fell, not affecting it at all.

The appearance of the black figure broke the attacks against Ye Zhongming.

The black figure was the level six ocean beast Copper Ink Ocean Sunflower Ye Zhongming had tamed on the beach outside the city.

Three hundred hours of taming time had passed, and it had become one of his many killing moves.

The Copper Ink Ocean Sunflower that had mutated twice was previously a double level seven beast, and its true strength was close to level eight. Ye Zhongming and Mo Ye worked together but were still nearly killed. If not for the item, they would have died.

Although its level was reduced and became a level six lifeform, it still mutated twice. Its true strength was close to level seven. Such a presence was too strong for the Star Sunflower Fishes.

Moreover, although the river wasn't an ocean, it was still water. It had an additive effect on the Copper Ink Ocean Sunflower's strength, so the moment it appeared, it settled the situation easily.

The fish around didn't expect a strong lifeform to appear, and they didn't understand. The encirclement started to shake. Ye Zhongming gave it the order to lead him toward the exit.

The Star Sunflower Fishes were momentarily in chaos before they noticed that their target was fleeing. They definitely wouldn't let him. Although the Copper Ink Ocean Sunflower was level six and its level was above them, there were 12 level five fishes here, along with thousands of other subordinates. They weren't afraid of this fellow that they didn't know appeared from where.

Also, this river was their home ground. They had natural enemies, but there were too few, and they couldn't threaten them. There were many fish in the underground river. These level-five school heads could even find ways to summon other allies if possible.

In such a situation, those heads didn't fear anything. They treated this human and the beast that appeared suddenly as their ladders to evolution.

Ye Zhongming looked at the school of fishes following him and finally relaxed. He continued to let the Copper Ink Ocean Sunflower swim toward the exit.

After being tamed, this fellow was much smaller and could swim in this river. The tentacles could send it far away with just one push, which was also extremely quick. The Star Sunflower Fishes were barely keeping up, even with how fast they were.

Looking at the situation, Ye Zhongming wondered if it was the gap between river and ocean fish.

Ye Zhongming saw the giant entrance to the river from far away and ordered it to stop. He wanted to deal with these fishes from here.

He had two reasons for doing that. The first was that he was worried that they would call helpers. Now that he was close to the exit, he could leave if he faced any dangers.

The second reason was that he would get many corpses when he won. It would be hard to bring them all out as his space didn't have much extra space. Letting these fellows swim here and send themselves into his mouth was a good choice.

Although the Copper Ink Ocean Sunflower was tamed, it was still naturally vicious. It was the ruler of the huge ocean and could win the battle for the Ocean King Wheel to get a second mutation. It was prideful and vicious. It didn't care about these beings that lived in the river. It would have killed these fish if not for Ye Zhongming's orders.

Now that it had a chance, it wouldn't hold back. The moment its body stopped, the light that could make everything stop was fired again.

Ye Zhongming had experienced how strong it was. If the light wrapped you, breaking free wouldn't be easy.

With the level gap, if the Star Sunflower Fishes got hit, they couldn't escape.

The truth proved him right. The Copper Ink Ocean Sunflower was eager to perform and used much mental energy. The specks of light that were slow didnt move when they defended and had to be protected by the tentacles, which sped up and pounced at the fishes.

Ye Zhongming started to work with the Copper Ink Ocean Sunflower. He sawm between them and his pet, using himself as the bait to attract them.

The Star Sunflower Fishes were used to being at an advantage and made a mistake. They started to rely on their numbers advantage to attack Ye Zhongming and the Copper Ink Ocean Sunflower. Maybe to them, there was nothing they couldnt take down.

Thus, a crazy scene occurred. Those fishes didnt care about the light or Ye Zhongmings ability. They pounced at them and tossed their talent skills. Some level four and five fishes even joined in.

After the matter, Ye Zhongming felt this was a group creature habit. But at this moment, he was still shocked by their crazy actions.

Unfortunately, the fish overestimated themselves and underestimated the Copper Ink Ocean Sunflower. This fellows light wrapped the school of fishes, and thousands were trapped in the light.

Its body shook. It was reaching its limit by trapping so many of them, but it continued to hold on. Those tentacles rose and became firm and tough. Each of them was covered in a metallic color and became sharp spears.

Those spears thrust toward the fishes!

After the first thrust, the Copper Ink Ocean Sunflowers body stopped shaking. After the second thrust, the fishes were wiped out!

Chapter 643: Come over

The rumbling water under the surface slowly stopped. The people by the shore were shocked, and they continued to watch warily.

Although it was as if everything had returned to normal, no matter if it was Mei Na or Gan Lan, they didnt think everything had ended. That was because the blood in the river didnt reduce and was increasing instead!

Many people had a similar thought. How many mutated lifeforms did you have to kill to be able to dye the river water red?

Mei Na and Gan Lan looked at each other and saw the shock in each others eyes.

This was one of the main sources of demon crystals and materials for the entire Linhai. Its position was only behind the mutated rats. As for other sources, they were only barely on this level if you added them all together.

If anything happened to this place, it would be a massive blow to Linhai's entire group of barely surviving humans.

The two of them even imagined how this would affect the whole Linhai. Mei Na even started to connect this with her escape plan.

A beast suddenly appeared? The water changed? A mutated algae suddenly evolved?

Many illogical thoughts appeared in their minds, and terror appeared on their faces.

Look, look, something is coming!

A survivor who was fully focused on the water's surface shouted. Everyone looked where he pointed and saw many dead fishes floating on the surface. These were what everyone was here for: Star Sunflower Fish.

There was a terrifying wound in the head of the fish that smashed its brain. A green crystal was beside the wound, which showed its evolution level.

A level four Star Sunflower Fish!

Greed appeared on many of their faces.

A level four crystal represented a two-star evolution potion or living comfortably in the underground city for two months. They could also use it to trade for a piece of grey equipment. Of course, if you wanted, you could purchase at least five beautiful women Or men.

The level four crystal wasn't as attractive for Mei Na and Gan Lan. But with their strength, they would have to avoid a school of fish with level four fish. With their four-star evolved strength, they could only attack schools that were fewer than 50 and comprised of level two or three fishes.

Although they mocked each other in truth, they had gone down once. Mei Na didn't get anything, and Gan Lan only gained ten levels one and two crystals. Getting a four-star crystal was considered a huge gain for them.

When the two considered sending someone to pull up the corpse, a second fish body appeared.

Before anyone could see its level, a second, third, fourth Star Sunflower Fish bodies covered the entire river surface a few moments later. On a rough count, there were a few thousand!

This

The few survivors beside the river were stunned and didn't believe their eyes. They couldn't imagine what had caused such a situation.

Many people gulped, and the greed in their eyes became thicker.

Not only were these a few thousand Star Sunflower Fish bodies, but there were also a few thousand demon crystals.

This was a fortune that survivors would risk their lives to fight for!

Many people looked at the two female bosses and were tempted to battle.

You

Mei Na and Gan Lan wanted to say something, but the situation in the water interrupted them again.

A human popped up among the corpses.

Was it that solo hunter, he, was alive?

Such a thought rose in their heads, and they didn't understand how he could survive from all these fishes.

Oi, kid, what happened below?

Did a strong monster appear?

Those people didn't even consider that Ye Zhongming was the one who killed the fish. To them, Ye Zhongming was just a member of an unknown faction that was unafraid of dying. He probably relied on some special equipment or ability to survive.

But no one thought that he was strong. Even Mei Na and Gan Lan didn't think so. After all, Linhai only had one six-star evolved. There weren't many five-star evolved, too, and people recognized all of them.

Lin Xing was probably the only one who could kill so many fish at once. It was obvious that he wasn't Lin Xing.

Ye Zhongming ignored them and swam from among the corpses. He had to deal with them; if not, the blood might draw things from the river.

A few survivors looked at each other and started approaching the shore. One acted like a nice guy and said to Ye Zhongming, Come, brother, let me help you.

Ye Zhongming, who was at the shore, saw these people. Although they tried to hide it well, he saw the greed and killing intent in their eyes.

When that person's smile turned vicious, Ye Zhongming touched his palm. His face changed, and his smile froze. His body shook twice before he fell to the ground.

The person beside exclaimed. The one closest squatted and touched his friend's neck. He stared and pointed at Ye Zhongming, You killed him!

Ye Zhongming laughed coldly and came out of the water on his own.

Seeing Ye Zhongming kill immediately, many wanted to charge. This was a good reason to kill this person and steal the fish.

Stop!

Don't move!

Mei Na and Gan Lan realized something, and their expressions changed. They tried to stop their subordinates.

When those people stood in confusion, they saw the young man dragging something from the water.

A Star Sunflower corpse Level five.

Then a second, third Until the 12th.

12 level five Star Sunflower Fish! 12 corpses lined up together!

People who saw those scenes all looked instinctively at the thousands of fish corpses. They then turned to the young man, who was so calm and felt numb.

He actually killed so many? If that is true, if their bosses didn't stop them

Many people broke out in cold sweat.

Oi you two, come!

Ye Zhongming hooked his finger toward the two of them.

Chapter 644: Team pulling the school of fish

People in the apocalypse were very sharp when not blinded by greed.

The others only saw Ye Zhongming insta kill a three-star evolved, but didnt know what that meant. They felt like he used some vicious skill or equipment that could achieve that effect.

But Mei Na and Gan Lan were different. They were four-star evolved and knew how tough it was to insta kill a three-star evolved. Things were like that; it might seem easy when you saw others do it, but when it was your turn, you would know how tough it was.

So they knew how tough it was to kill someone with a simple touch to the palm. They didn't know how this person did it, but it didnt stop them from understanding something.

This young man was much stronger than a three-star evolved.

They couldnt do it, but this person could, so this person was far stronger than them.

Five star evolved was what the two of them thought immediately. So, they stopped their subordinates.

But they didnt understand why this person looked so unfamiliar. Logically speaking, the five-star evolved in Linhai were as eye-catching as superstars, and they knew them.

The two didnt dare to reply slowly to such an expert. They rushed to him, and even the arrogant Gan Lan did the same.

After all, this was the apocalypse where killing was simple.

Tell your men to bring these corpses up and then follow me with some of them.

One person couldnt carry thousands of Star Sunflower Fishes. These people were just free labor.

The two wanted to reject, but when they saw the simple piercing wound connecting the level five fishes, they realized that this man wasnt five-star evolved but six!

How could a five-star evolved deal with so many mutated lifeforms of the same level?

They agreed immediately.

Understanding your position was one of the ways of survival in the apocalypse.

Ye Zhongming squatted beside the river while survivors jumped in to get the fish. He smiled. In the distance was that corpse.

Quickly, the blood might attract some monster in the river. Moreover, the other schools of fish might be on their way. Be a little slower, and you might die.

Ye Zhongming looked at the terrified survivors speed up, and he added.

Those who are greedy will die.

As if he feared they didnt understand his words, he released the Demon Nurturing Bee Hive. Thousands of Needle Birds that were level-four on average started to circle the area around to threaten the survivors that were lower level than them.

At this point, everyone understood that he was a real expert. Just look at his pet; some were level six, and there were also a bunch of level four and five. Even if he didnt fight, these flying pets were enough to kill all of them.

With the Needle Birds observing, they were much more efficient. Getting the fish wasn't a technical job and was simple for the evolved.

The thousands of fish were quickly pulled to shore and piled into a mountain.

The blood scent attracted another school. It wasn't a large one, and their levels weren't high. The leader was level four.

These fishes definitely shouldn't jump out of the water to sneak attack the evolved. The moment they lifted their heads out of the water, they were drowned by the prepared Needle Birds. In a few seconds, a few hundred of them died here and added to Ye Zhongming's spoils.

These monsters from the Secret Realm shocked the people here. When fighting, they were fierce and army-like, which sent a chill down one's spine.

Get some blood. Ye Zhongming looked at the shivering survivors and told them to get some blood from the fish to drink. This was a way to keep warm, and it was also helpful for evolved.

Seeing everyone recover, he gave the order for them to follow him.

No one dared to go against him. Even Gan Lan and Mei Na carried a few large fish and followed him.

When this team passed the tunnel to get to Surging Motions camp, the places they passed were in an uproar.

Everyone was dragging at least 20-30 Star Sunflower Fishes.

Usually, when a battle squad went to the river to hunt, they would spend several days there. After dozens of dives, they would, at most, get 10-20 fish. Now that there were a few thousand, people were shocked.

All of them still had their crystals on them.

Rational people started to discover what was happening and if they had a new hunting method. Those who knew Mei Na and Gan Lan ran to scout for news.

Irrational people started to have bad thoughts. Some hesitated slightly before attacking.

The outcome was obvious. Ye Zhongming didn't hold back and killed those who attacked. When the party was 2/3rd back to Surging Motion, two digits worth of people had died to him.

Riches made one greedy, and this was normal in the apocalypse. But many forgot that people died for money.

When Ye Zhongming led the few dozen back to the camp, Yang Yixi and the others were speechless. They didn't expect this person who had caused Surging Motion to change leaders would return after a few days with such a huge surprise.

Everyone was sure they hadn't seen as many Star Sunflower Fish in their life as now.

Payment.

Ye Zhongming gave two three-star potions to Mei Na and Gan Lan, which surprised them.

Honestly, this job wasn't tough. Getting fish and carrying them for a day was tiring, but it was so simple that they didn't need to use their brains.

The problems they bumped into were all solved by Ye Zhongming, and they just needed to watch.

The two of them were worried that this expert who suddenly popped out would have bad thoughts after using them; they didn't think they would get paid.

Moreover, this was a three-star potion; it could let the party have one more core three-star evolved.

If you have time, you can wait. You can leave with some meat once the fishes are dealt with.

Meat? The two factions were delighted. Apart from fear in their eyes, they were also grateful to Ye Zhongming.

Ye Zhongming told Yang Yixi to dig the crystals and pass them to him. He then told Mei Na, Gan Lan, and the others to deal with the fish, and split the materials and meat. He then took his leave.

It was time to look at the twin sisters.

Chapter 645: Crazy girl

Zhang Ya had been through such darkness before and was familiar with this feeling.

But it was different this time.

There was a thick smell of blood in his nose. He had a sensitive smell, and he even picked up the stench of bodily excrement and the sourness from someone not bathing for a long time.

Zhang Ya wasn't unfamiliar with the latter, as he had that smell, too. Being in a poor region, this was very common. Zhang Ya was smelly, too, and even now, his pants were dripping wet.

He thought he had adapted to this inhumane world after a year in the apocalypse. But today, he knew that it wasn't enough. He hoped for most was to sleep well so that he wouldn't get killed in his dreams.

He didn't want to be tortured like this anymore.

The nightmare started two hours ago. People didn't notice it initially; it was just some soft moaning and exclamations. This was the apocalypse, and every day, such things would happen. It was probably some people being robbed, and those who resisted had their legs broken and necks twisted. Or someone taking advantage of women and not willing to pay, which resulted in both sides fighting and someone losing their organs.

Occasionally, these fights would be intense, but they would be short, probably because there were many people when the fights occurred.

Zhang Ya thought about it.

He didn't think this was different from the lives in other underground cities.

Until A guy ran out of his tent in terror.

Zhang Ya wouldn't forget those scenes.

That guy was a one-star evolved, and he knew a strong skill. He was in charge of the poor region, and it was said that he was related to the higher-ups in Surging Motion, which was why he got that skill. He was here to defend the poor region.

Naturally, after spending so long in Lin Hai, Zhang Ya knew those rumors were exaggerated. If this person had that relationship, he wouldn't be here. He was probably bragging to hide his weakness because he didn't dare to head out to hunt.

He was afraid of death.

He rather resist the stench of this place and eats decomposing food, drinks dirty water, and plays with women on the verge of death!

But, no matter how much Zhang Ya looked down on this person, it couldn't change the fact that this person suppressed him.

Two fingers on his left hand were broken because of a demon crystal. As he wasn't treated, they had turned black. To prevent it from worsening, Zhang Ya had to slice it off.

Maybe because the nerves were already dead, he felt no pain. But he still remembers the feeling of losing a part of his body.

It was pain that came from his soul.

So even if that guy was screaming so much that it didn't sound like him, Zhang Ya could still recognize it.

He ran out quickly to see who was teaching him a lesson. But what he saw was that familiar face that was different now.

It was the younger sister of that pair of slightly famous twins.

Zhang Ya recognized her and had even tasted her sister before. He paid a mutated rat meat and 200ml of water. Of course, this was before the elder sister became one-star evolved. After that, ordinary people like Zhang Ya couldn't touch her anymore.

When Zhang Ya saw the hatred and killing intent on that face, although it was covered in fresh blood, he could tell that it was washed and clean. Her clothes were even changed. The white dress with flower petals was soaked in blood.

Zhang Ya didn't have the energy to focus on the body the dress was now wrapped around because of the blood. His attention was on her ashen white face with a small mole at the corner of her brow and her red eyes.

As well as her white hair.

The younger sister smiled like a maniac, stabbing her hand into that guy's body and pulling his heart out. Only then did Zhang Ya notice that the younger sister, who was used to hiding behind her sister, had become a devil.

The boss of this place was dead, and his voice shocked everyone. They walked out and noticed that there were corpses all around. This place was turned into hell.

People started to flee, but unfortunately, they were too weak, so many of their legs went soft and fell in a few seconds.

After which, this younger sister started to slaughter everyone with a sick smile hanging on her face.

Zhang Ya finally felt better. This was an abandoned tunnel that someone had dug. It was several meters long and was covered in bones from mutated lifeforms and humans.

He felt like he could escape as no one came here usually.

But when the sick face appeared, he couldn't help but scream. But that sharp white dagger slashed his neck and his artery. Blood spurted out, which added more color to her dress.

Don't kill me, I am innocent.

Those words weren't completed when he fell to the ground, and he started to lose consciousness. At the last moment, he had a question in his mind.

Was he really innocent? Was anyone truly innocent during the apocalypse?

The killing was near the end when Ye Zhongming arrived. The young girl, who was around 14-15, was covered in blood.

It wasn't hers. With her evolution level, no one could harm her.

When Ye Zhongming stood before her, she instinctively waved her dagger at him, but her wrist was held.

Ye Zhongming looked at her killing-intent-filled eyes and pushed her to the ground.

She spat blood out, and the pain brought her to her senses.

My Sister is dead.

After seeing Ye Zhongming's face, tears flowed from this young girl's eyes. She tossed the dagger and grabbed his arm while repeating those words.

Dead? Which was why she went mad?

Ye Zhongming tossed her aside and ran to where they had been staying before. The elder sister lay on the bed. Apart from those fatal wounds, she looked no different from an ordinary person.

He reached for her nose, and there was no breathing. He touched her neck, and his expression changed.

It was weak, but her pulse was still there!

There was movement behind him as the younger sister came over.

If you don't want your elder sister to die completely, follow my instructions!

Chapter 646: Silver Zombie

The younger sister tried squeezing the fish's body to get more blood out. Only then would her sister be able to be saved.

Even if she was living in another way.

She couldn't forget how this elder sister, born a few minutes earlier than her, took care of her.

She handled all the bad things and gave all the good things to her.

The younger sister would remember when she was hungry and on the verge of death, her sister would take off her clothes in front of an ugly old man. She would use a night of inhumane treatment to get a rotting biscuit so that she wouldn't die of hunger. She would remember the fresh blood that flowed down her elder sister's leg the next day.

She thought that they would die, but the elder sister held on so that she was able to live.

The only thing that wasn't left for her was that one-star potion. But she was willing to let her elder sister use it. She didn't want her sister to live by selling her body. Or rather, she was not ready to take care of her sister.

In front of the apocalypse, she was terrified. She didn't want to take responsibility and feared what her sister had gone through.

She knew she was selfish, but she didn't have the courage.

Until Her elder sister was about to die.

She regretted. She went mad, changing her cowardly personality to kill those guys who stole the last things they had.

But she was too weak such that a single slap from them sent her lying on the ground. She could only watch as her sister was badly injured and about to die.

She was prepared to die.

But she met this guy who said he could let her elder sister live another way, which was the only thing she hoped for.

But today, when she saw that her sister stopped breathing, she felt like it was over. There was no more meaning in the world, so she went mad and started killing.

This was her venting her anger out of despair.

But the guy suddenly appeared and said that her sister could be saved. She swore that as long as the elder sister was alive, even if it was in that weird way, she would agree to any request from that person.

Any!

The blood in the pool continued to add up, and Ye Zhongming came to help.

He had no choice. The elder sister wasn't in a good state and might die at any moment. Ye Zhongming had to speed up.

The two evolved rushed, and the pool was done quickly. Ye Zhongming placed the elder sister in.

The blood of the fishes covered her. Ye Zhongming followed the recipe and placed the required items in.

Ye Zhongming injected a huge amount of mental energy when releasing the technique.

He felt like it might bring good benefits. His Soul Refining Technique also gave him the ability to do so.

Find someone.

Who?

Someone you hate or anyone you want.

The younger sister was slightly stunned before leaving reluctantly. Ye Zhongming continued to look at the changes in the blood pool.

Apart from different requirements, it was no different from making an iron zombie. However, the energy released during this process was more intense.

For example, white gas started to bubble from the pool, which didn't happen previously. The gas had no gory smell; on the contrary, it was fragrant. The blood reduced, and it would bubble occasionally. Some violent but cold energy currents would surge in the pool, different from the gentle pool when the iron zombie was being crafted.

All of this occurred in the blood pool. He wouldn't have sensed all that without his sharp senses.

The most obvious was the new source of mental energy in his consciousness.

Red Hair also had such an energy source when she was formed. This was the mental energy connection between his puppets and him.

His connection with Red Hair was the tightest before but sliced off afterward. Although it recovered now, it was in another form.

Ye Zhongming didn't bother to use Red Hair's standards to judge this silver zombie; after all, Red Hair was a special presence. But as compared to other iron zombies, this connection was much clearer.

He could even sense some warmth!

He didn't know if it was the special situation of the silver zombie or because of the Soul Refining technique. He probably had to make another silver zombie without using the technique if he wanted to know the answer.

But this was undoubtedly good news and meant that his control of the silver zombie would be much simpler.

Very quickly, the elder sister's body was revealed. That lethal wound had disappeared. She opened her eyes and looked a little numb. Her eyes were bloodstained.

Blood merged with her body, and the white gas rose out from above.

The younger sister dragged a guy with a broken leg into the room. Blood flowed from his mouth, and it was apparent that all his teeth were broken.

Sister!

The younger sister wanted to pounce at her older sister, but Ye Zhongming stopped her.

The silver zombie was about to form, and he didn't want anything to spoil it.

When Ye Zhongming used the last bit of the technique, the blood disappeared, and all that was left was the elder sister, whose skin was terrifyingly white.

She looked around and gazed at her younger sister for several seconds before looking at Ye Zhongming.

Ye Zhongming observed. As compared to the iron zombie, she was closer to humans. She was no different if not for that skin and her silver hair. Even her red eyes had recovered.

The silver zombie stood up and jumped out of the pool. It was very nimble and didn't feel rusty at all.

Ye Zhongming tried to give orders, and she could complete them easily. When Ye Zhongming didn't give her orders, she didn't stand there like an iron zombie and would do some things on her own.

For example, she would show two emotions. One is her feelings towards her younger sister, who wants to walk to her side. The other was a craving for blood. She seemed hungry and wanted to grab the guy her sister had caught.

But no matter which it was, she would seek approval from Ye Zhongming, and only after being allowed did she go beside her sister. She sniffed the little girl who was crying, and then she smiled.

Her expression changed immediately after, and she pounced at that guy. Before Ye Zhongming could even react, she bit his neck and started to suck his blood.

As blood entered her body, her energy stabilized. Her rash emotions also disappeared after just being built.

Ye Zhongming confirmed that this silver zombie was around five-star to six-star evolved. Moreover, it was a body cultivator, so her body's defense and attack were shocking.

Seeing the elder sister standing again, the twin sister cried. Although the elder sister was different, she still recognized her, and that was enough!

The younger sister was sure that even though her sister had become a zombie, she still recognized her.

My sister is Ya Ni, and I am Ya Tian.

The younger sister looked at the guy, raising her head and saying officially.

Chapter 647: He came from outside

Surging Motion found out what happened in the poor people's region.

Yang Yixi, the new boss, led people over, and he was still exhausted from dealing with matters over these few days.

He was stunned when he saw Ye Zhongming, and then he looked at the twins.

Yang Yixi learned that the twins had caused the killings, so he came to ask them to take responsibility. But looking at the situation, Ye Zhongming might be the mastermind.

Although Surging Motion didn't care much about this place, at least it belonged to them in name. The people would provide information to them for basic resources, and they were a good source of information for the battle squad.

Moreover, when the squad lost many people, they would select new members from this place.

For example, this time, after they went through a failed operation, the battle members and non-battle members were reduced. Yang Yixi planned to select some people from here to add to his squad but didn't expect most of them to be killed.

But he couldn't say something as Ye Zhongming pushed him to his position. Both sides were also going to work together to leave this place. He didn't feel that these poor people were more important to him than Ye Zhongming.

He was quite interested in the twins behind him.

They were young, cute, and looked the same, so they were quite famous here. Of course, it was because of guys who teased them.

Yang Yixi couldn't help but have other thoughts. Was this mysterious Ye Zhongming such a person?

But when he saw the elder sister, he guessed something.

Are the fishes finished? Ye Zhongming looked at Yang Yixi and asked.

Done, waiting for you to head back.

Ye Zhongming nodded. After saying that, he returned to Surging Motion with everyone, and the twins followed behind him.

Naturally, some people were in charge of cleaning up the slums.

Such things weren't rare.

Ye Zhongming looked around when he was back at the Surging Motion camp. He was quite satisfied with what the three factions did. The materials and meat were separated, and the blood was poured into a giant pool. Although not much blood was left in their bodies, they won in numbers. The fish were huge, too, so they still collected a significant amount.

1/10th for everyone.

Ye Zhongming pointed at the fish and told Mei Na and Gan Lan to pick some.

The two factions knew Ye Zhongming would give them some, but they didn't expect so much. 1/10 was a few hundred fish, enough for the small faction for half a month. Moreover, they were mutated meat and fish meat. Not only did they taste well, but they could also improve one's body.

Linhai was closed, and they lacked not only evolution potions and weapons but also. They also lacked fish and water. Even evolved would worry about that. These Star Sunflower Fishes could solve a huge problem.

The two women and her subordinates started to take some meat. Ye Zhongming looked and nodded. They knew their place and chose the smaller ones. Moreover, they stopped after taking some. Each faction took less than a tenth.

No matter the time, such people who followed the rules were worthy of respect.

The two women took the things and saw that Ye Zhongming and Yang Yixi didn't say anything. They said goodbye and left.

Beautiful, don't you think this matter is so weird?

On the way back, the red-haired Gan Lan crossed her arms and said.

Since agreeing to work together and going through matters with Ye Zhongming and Surging Motion, the two who hated each other became much closer.

Weird? Of course. Mei Na mumbled.

Eh, didn't you say you could read things well in school? Analyze it. Gan Lan giggled and pushed her. She also had her thoughts on the matter.

Even if the two stopped hating each other, they were no longer students. They tried to survive in the apocalypse and kept things close to their chests.

Mei Na looked at Gan Lan casually and shrugged, Surging Motions leader has changed, and it is now Yang Yixi. Moreover, the numbers are much reduced and similar to us.

They should have gone through a coup, and Peng Liang should be dead.

Gan Lan nodded. She thought so, too. There was only one way to change leaders: to replace him. It was either passive when the leader died on a hunt or for other reasons or active, which was a coup.

But no matter what, the old boss was probably dead.

Even if Ye Zhongming was a six-star evolved, how could he kill so many level-five fishes at once? Moreover, he was underwater. If he was not six-star, could he be seven?

Hearing Mei Na say that, Gan Lan opened her mouth in disbelief. After all, there weren't many six-star. Seven stars exceeded what they imagined. But if this person wasn't seven-star, how could all of this be explained?

Maybe he has a strong job skill or ability that can do unimaginable things. That is the only logical explanation. But even then, there is still a problem.

Mei Na took a deep breath and said slowly, How could such a person be unknown in Linhai? The underground city is so small, and camps are connected. How would such a person be uncovered only now? Or he evolved recently? If it was the latter, do you believe it?

Evolved to this level recently? Gan Lan rejected that thought immediately. It was impossible to achieve such huge growth in Linhai as there weren't many resources.

Then there is only one answer. Mei Na turned to Gan Lan and pointed up, He came from above. Oh, no, more accurately, from outside!

The two of them were shocked. From outside? Someone could enter before Feasting Day?

Numerous thoughts flashed in their heads, and they had the same idea.

Doesn't this person mean that there was another way out?

Chapter 648: Gan Lan wants to get carried

In the apocalypse, for a woman to become a leader, no matter how bright her smile was, her hands were definitely covered in blood.

The two women were solemn as they walked. Such a silence would spread in the dark tunnels. The battle squad members behind them didn't make a single sound. The joy from collecting so many Star Sunflower Fishes was chased away by the weird seriousness of the two bosses.

They were afraid of their two leaders.

There were sounds from up ahead, and both women stopped at the same time and asked everyone to get ready.

A person from each team popped up. They were in charge of scouting.

In a while, they returned with the same piece of information.

In front of them were the Black Cloud Team and Stabbing Wing Battle Squad. They were fully mobilized, and their target was Surging Motion Battle Squad!

They decided to change their strategy and not clash with these two first-rate factions.

If their target was Surging Motion, it was obvious that they were there for the fish. These two battle squads had a few hundred fish in their hands, and it was worth the two factions fighting for them.

Then lets split up here. Good luck, beautiful.

Gan Lan squinted her eyes and said goodbye to Mei Na. The latter nodded and led her group through another tunnel.

The battle squad walked for a while before Gan Lan told them to stop.

Start a fire, slice the fish, and barbecue them. Rest here. Send the sentries out and pay attention to the Surging Motion. Little Zhan, lead two people back to camp and tell everyone to bring their weapons and gather here.

Sister Lan, what do you want to do?

The bosss orders seemed like she wanted to help Surging Motion. Her two right-hand men didnt deny that Surging Motion would be much stronger with Ye Zhongings help, but the underground city, or rather the apocalypse, was not a place where one person could decide everything. Black Cloud Team and Stabbing Wing Battle Squad were very strong. Surging Motion wasnt a match against the two of them.

Even if they survived today, would other factions not get tempted by the few thousand Star Sunflower Fish? What if Lin Xing came? Should she help or not?

Gan Lan smiled, and a bright glow appeared on her face. Her two subordinates lowered their heads.

There are some things you dont understand, or rather, you dont crave as much.

The two of them were confused but didnt dare to retort.

I didnt say many things to Mei Na, but I can tell them to all of you.

Gan Lan sat down and took a piece of meat from her subordinate. She bit off a part and chewed.

Why did that person tell us to deal with the fish by the river? Why did he want to pass through the tunnels that crossed many camps?

Her voice was calm, but it was filled with confidence.

Sister Lan, you are saying that Ye Zhongming did it on purpose?

Gan Lan didnt reply and continued speaking.

He killed many people along the way, but they were the ones who attacked. He didnt touch those who watched on the side. With his strength, it would be easy for him to lock down the news, right?

The two subordinates nodded.

Also, why did he ask everyone to gather the blood together? The biggest use was to drink and make ones body feel warm. It is much weaker than meat, which can improve your bodys quality. It is also

hard to preserve, so why did he keep it and pay so much attention to it compared to the other materials?

Gan Lan shoved the fish into her mouth while looking at the lost expressions of her subordinates.

I didn't know the answer until he brought a pair of twins back.

He did so on purpose to tell everyone that he got the fish. The blood of the fish was for those who went to find trouble with him- for example, the Black Cloud Team and Stabbing Wing Battle Squad.

He should have a necromancer-like job where he can control Corpses!

The two subordinates were about to faint. They didn't suspect her words as they knew she had a support job called Rhythm Observation. She had sharp senses about evolved or mutated lifeform strength and state. Since she said that, she was most probably correct.

No one would ask for death, and this person is the same. We are here to wait for this show to happen and see if we can benefit.

She waved and told them to get busy. Gan Lan went silent for a while. Naturally, she didn't tell them everything, even if she trusted them.

Gan Lan cared about the parts of the story that she didn't announce.

If her guesses were correct, Ye Zhongming had been planning from the start. They were rings that were connected for him to get what he wanted.

But what was his goal? To turn these people into zombies that he could control?

No, she didn't believe that. She thought about it. Along with her guesses, his final goal was to get as much strength as possible to walk out of this place Or, control the entire Linhai, including the Death King Tree and Life-Taking Carrot!

Gan Lan's blood surged due to her guesses. She couldn't imagine how crazy a plan it was. She might be wrong, but what if she wasn't?

The dangers of life meant that she wasn't as immature as before. Although she wouldn't accept Lin Xing, that was just her bottom line. It didn't mean that she wouldn't do other things to benefit.

She stayed here to help Ye Zhongming. She was facing more pressure from Lin Xing and wanted to gamble to see if she could get Ye Zhongming's help. If she succeeded, at least she could get out of this place. The best situation was if she could become one of the owners of Linhai.

She stood up after making her decision. She decided not to wait for her subordinates. She wanted to see Ye Zhongming and express her intentions.

Although they were just using each other, it sounded nicer that way and could also satisfy a guy's pride and will to conquer, right?

Chapter 650: Straightforward Ya Ni

Lone heroes were rare in the apocalypse.

Before one reached nine-star, even eight-star evolved weren't willing to face an entire battle squad alone.

A battle squad had many people. Even if their levels were lower than yours, they might have special jobs or skills that could affect you and weaken you. If you weren't careful, you might die.

Only a year passed in the apocalypse, and survivors couldn't look down on the world. Job skills, weapons, equipment, experience, and inexperience in these areas meant that one couldn't face an entire faction.

So when the Black Cloud Team and Stabbing Wing Battle Squad looked at the two in front of them, although they stopped, they didn't think much about it. Maybe Surging Motion sent them here to negotiate.

Of course, they might be welcoming them.

Where is Peng Liang?

Two muscular guys walked out. They were the bosses of the two battle squads, and they frowned when they saw the guy and girl before them.

Individually, the two had a much higher status than Peng Liang in the underground city. Black Cloud Team was raised by Lin Xing single-handedly, and they were his trusted battle squad.

He was unhappy because Peng Liang wasn't here to welcome them.

Dead.

Ye Zhongming squinted his eyes and looked around.

Dead?

This answer shocked the two bosses. On the way here, they didn't pay much attention to news in this direction.

That doesn't matter; where is the Star Sunflower Fish you took back?

You can find them in hell.

Ye Zhongming didn't sense any threat from them and decisively attacked.

Black Cloud Team and Stabbing Wing Battle Squad sent all their members this time; the warriors in charge of fighting were all here. This didn't mean they overestimated them, but they wanted to pressure and threaten them. Although the tunnel wasn't narrow, it was squeezey for many people to stand together. Hundreds of people lined up far back like this.

Linhai didn't have many survivors, so seeing so many people gathered at one stop was rare.

Who knew that someone would attack in such a situation? Moreover, there were only two of them!

Were these two crazy? Or stupid?

This thought appeared in everyone's mind, but they all disappeared a few dozen seconds later.

Because these two were too strong.

Ye Zhongming told her to handle the two faction bosses while he dealt with the others to test the silver zombie's strength.

He tested its strength, which was around five to six-star evolved. But that was just an estimate. He wanted to see its true strength.

The moment it attacked, even Ye Zhongming was shocked.

Not because she was strong but because of her battle style.

She was too direct.

Two people wanted to stop the silver zombie so she didn't attack their bosses, so she knocked into them. Due to her height, she reached their neck. But when she headbutted one of them, that person's ribs caved in and spat out mouthfuls of blood. Bone spikes stabbed into his heart, and it seemed like that person was dead.

The silver zombie charged at the other person before he could react and was hit in the chest. But this time, she raised her head and hit his chin. There was the sound of bones breaking, and this silver zombie broke that person's neck.

This process was short and lasted only a few seconds. When the silver zombie stood before the two faction bosses, they still hadn't reacted.

The two subordinates were four-star evolved, and they were instantly killed.

While the two were stunned, the silver zombie turned into an afterimage and charged.

After all, the two bosses had been bathed in the sea of flames, and they could react. The Black Cloud Team boss's body was several times bigger and he became a big fatty. His arms turned into thick tree branches, and he smashed toward the silver zombie.

The eyes of the Stabbing Wing Battle Squad boss turned brown, and his body turned thin. His hands turned into claws, his legs merged, and it started twisting.

King Cobra Bloodline?

Ye Zhongming instantly recognized the Stabbing Wing Battle Squad boss's bloodline.

The King Cobra Bloodline was decent, and if it could reach a high level, the evolved's strength, agility, and defense would greatly increase. Moreover, his attacks would be poisonous and catch one off guard.

Ye Zhongming was a little worried. The silver zombie's body was strong, but could it defend against poison?

Ya Ni didn't care about all of this. It didn't hold back against the arm that had become a giant trunk. She waved her fist. The scene looked amusing. An immature girl's small arm and a giant piece of wood hit each other and gave off a large explosion.

The outcome was shocking. The Black Cloud Team's boss had to take a few dozen steps before he stopped. The silver zombie only shifted back slightly before she continued to charge.

The Black Cloud Team's boss was stunned. He knew how strong he was. That was a job skill, so how was it blocked so easily? It was even a little girl!

No! She isn't a human!

Stabbing Wing Boss's furious shout alerted him. He saw that his old friend had bit this lady's shoulder. The weird thing was that there wasn't any blood; instead, his friend's mouth was bleeding.

The sharp teeth from the bloodline were broken.

The shoulder of the silver zombie had many small holes. There was a disgusting sticky liquid, and that should be the venom.

After tasting the silver zombie, the boss realized she wasn't human but a corpse!

Impossible! The Black Cloud Boss roared and attacked again. He didn't believe that there was such an amazing corpse.

But this time, Ya Ni was even quicker. Her small body jumped up and made a fish leap. Her small head hit the Black Cloud boss's arm.

His two arms broke immediately.

Ya Ni pushed the ground with her arms and leaped back up. She appeared beside the Stabbing Wing Boss and hugged him before he could react. Her arms exerted strength, and after a cracking sound, his waist was broken!

Only then did a mouthful of fresh blood spit on the silver zombie's twisted head.
