

Apocalypse 71

Chapter 71: Team gathering

Park Xiuying's appearance wouldn't make Mo Ye so excited. What it made her realise was that this woman was with Ye Zhongming when she left, the fact that she appeared here meant that Ye Zhongming was definitely here too!

After confirming that point, she didn't care about anything else and just jumped out. She fired at the zombie hoard in front of her and blew their heads off one after another.

"Are you crazy?!"

Cheng Ze didn't manage to pull her back. He was frightened when he saw his disciple jump out. He didn't expect her to do that suddenly.

Cheng Long and Little Tiger looked at one another. They really respected Mo Ye as she often treated these two as her little brothers which was why they were very close.

Seeing that their team leader suddenly left, they glanced at each other and understood what each other meant. They jumped down and chased her which stunned Cheng Ze and Xia Lei.

At this time, footsteps spread from outside. A few guys fully armed held their guns and ran in. The one who led the way was that secretary that had just left.

"Where is Mo Ye? She went against military law! She has to be responsible for it!"

Seeing that person who fled timidly now come back provocatively, Cheng Ze and Xia Lei were furious. What time was it now and he still wanted to abuse his power? Why not let these troops fight, why attack your own men now?

Cheng Ze who was annoyed with Mo Ye and the other two leaving now stared at him and said loudly, "What we need now is to fight! Not to ask for people to be responsible! I will go get Mo Ye back!"

He jumped out of the window and headed towards where the three of them ran towards.

Xia Lei held the gun in her hands and wanted to follow. But when she thought back to meeting her husband, she hesitated a little before giving up.

They and her... Were different.

.....

Park Xiuying had never hated a person so badly.

Qian Da, that nasal voice guy at the school actually sneak attacked her.

Things were going smoothly. She was observing the battlefield and providing Ye Zhongming with useful information, guiding Liang Chuyin over to meet up.

But as she was too focused, she didn't expect someone to sneak up to the rooftop. She was held down by him.

He forced her to tell him about Ye Zhongming, forcing her to answer all his questions about the apocalypse.

Park Xiuying could tell that he was strong and was trained. The way he held her down was by using the key joints and areas of the body.

But what he didn't expect was that she wasn't the weak teacher that they had met in the school but someone who had evolved.

When he was touching her all over, she exploded.

Qian Da was knocked off the building by her self-invented moves. If not for his fast movement, he would have fallen to his death.

But her advantage lasted for a limited time. Although Qian Da didn't evolve but he had spun the wheel before and had several weapons. After hitting him, Teacher Park was still not his match.

She could only flee in a direction that wasn't in her control.

The evolved physique and effects of the immunity potion meant that she could run around the battlefield. Qian Da didn't dare to chase her at all as she ran towards the place with the most intense fighting.

"Teacher Park!"

Hearing someone call her, she woke up from her fleeing mode. When she saw the person, she had a wide smile on her face.

"Mo Ye! Great, you are here!"

Park Xiuying hugged her emotionally and she felt much more at ease.

"Why are you here? Where are Ye Zhongming and Liang Chuyin?"

Mo Ye pulled her in a direction as this place wasn't one to catch up at.

Before she replied, a huge tremble and shadow appeared. They looked over and saw the scary face of the Chain Prisoner as well as its mountain-like body.

The two girls were stunned for a moment before they woke up from the shock.

"Oh no!" Park Xiuying shouted, "I saw Ye Zhongming running towards this monster!"

Mo Ye's expression changed. She had decided to follow Ye Zhongming and didn't want anything to happen to him. That monster looked terrifying.

"But we need to save Liang Chuyin, she is in danger. I saw her fighting with people." Teacher Park panted and wanted to pull Mo Ye away.

"But what about Ye Zhongming?"

Although Teacher Park was gentle but she was stubborn in some areas and she had a strong sense of justice. As a teacher, her analytical skills were good. From the situation she picked up before they lost contact, Ye Zhongming was searching for something and definitely wouldn't offend this huge monster. But Liang Chuyin was different and she was already fighting. She was even fighting a group of people. There were many zombies and mutated monsters around her too so she was in more danger.

“He is temporarily fine, let’s save Liang Chuyin first and then meet up with him. You know that many times we will be a burden if we follow him.”

She bit her teeth and knew that she was right, “lead the way, let’s find Liang Chuyin.”

“Captian Mo, wait for us!” Cheng Long and Little Tiger ran over. They shot down a few zombies before getting close.

They weren’t evolved so they weren’t as fast as Mo Ye. The fact that they could catch up showed their skills.

“Why did you all come?”

“If we didn’t then what can we do?” Cheng Long pouted, “I can tell that the world is in a mess, we have no reason to stay there.”

“Right captain, we want to follow you wherever you go.” Tiger laughed. Thinning wasn’t his strong suit.

“Each era has its own rules, maybe you are right now.”

The few of them turned around and saw Cheng Ze holding his gun. The old injuries in his leg were apparent but it didn’t affect his speed at all.

Mo Ye’s eyes lit up. Her two men and her teacher were all great warriors. With them, that brat would probably be happy.

“Good, let’s go and save a friend of mine!”

“Captain who?” Little Tiger laughed and followed. However, his gun accurately killed a mutated cat.

“Your idol.”

“Huh?”

.....

Liang Chuyin’s chest rose up and sank down and there was a hole in her jacket to reveal her pink bra. Beside it was a ten-centimeter wound that was bleeding. In contrast with her white skin, the red blood was a bright difference.

So killing someone was just like that.

She licked the blood off her lips and stared at those people. Beneath her feet were several dead bodies.

Hu Duohai covered his left arm and the wound there was so deep that he could see the bone. If not for his evolved reaction speed, that whip would have killed him.

“You are staying here today!”

He was furious. He had to grab this woman and find out the information that he wanted to know.

“I will hold her back, break her legs. I want her alive, she can be missing arms and legs.”

The others looked at one another and wanted to kill her. Their friends’ deaths made them realise that she was vicious. If they weren’t careful they might die here!

“Liang Chuyin!”

A voice spread over as numerous people appeared. They knocked the others over. Hu Duohai could hold on a little but when a beautiful girl appeared and knocked him out, he realised that he had met more evolved.

Chapter 72: Free meal

Ye Zhongming chased the Monster Baby got a long time and finally saw signs of it near the square of the lake. This fellow was now off the body of the Purple Cloud Ant and it was biting a chicken that it had got from some other place.

So greedy?

Ye Zhongming didn’t know what its personality was. He usually participated in the outer areas of missions so he had no chance to observe this Monster Baby up close.

He glanced at its injured shoulder and it was actually smooth, one couldn’t see any injuries at all.

The Monster Baby suddenly turned around and looked at Ye Zhongming. It let go of the chicken and started to shout.

This shout was much softer than that of the Chain Prisoner. It was like the difference between a horn and a mosquito.

The Purple Cloud Ant beside it charged at him when it heard it roar.

Yi?

Only then did he realise that this Purple Cloud Ant was an ant general!

Purple Cloud Ants were usually level one beasts. Be it Blade Ants, Mage Ants or Needle Ants, they were all level one. But there were high level ones out of the group like this General Ant, it was a level two beast. Based on what Ye Zhongming knew, there were King Ants which were level three. The Ant Queen was level four and might even be higher than that.

In the last life, no human had seen the Purple Cloud Ant Queen so their estimates of its level were just guesses.

Who knew that this Monster Baby could control a level two General Ant.

Ye Zhongming was tense and when the General Ant was a few meters away, he sidestepped to the side.

In the next second, a thin bone needle flew toward where he was standing.

“Bone Needle Flick!”

This was one of its talent skills!

This was a really obscure move. Although the needles weren't long but they were really powerful, able to pierce through centimeter-long metal boards.

The General Ant was stunned when it noticed that the human could dodge its skill. It charged fiercely just to hide its sneak attack.

But it didn't sense any high level evolution aura from his body, making it even angrier. On the sides of its body which were thicker than normal Purple Cloud Ants, two transparent wings appeared and it started to glide in the air. Its speed was many times that of when it was on the ground.

But the Purple Cloud Ant miscalculated once more. While Ye Zhongming dodged, he moved the Moon Edge from his left hand to his right which could only barely twitch. His left hand pulled the arm shield off which he tossed into the air. The ant just flew up but it was hit and fell back to the ground.

Although Ye Zhongming was a one star evolved, but he ate the modified evolution potion and also ate the Ape Turtle's meat. His body was seven times that of normal people and he was much stronger than normal level-one experts. That shield toss wasn't light and one of the general's wings twisted badly after being smashed. One of its legs was also broken which caused it to roll on the ground in pain.

The rule of the apocalypse was to kill someone when they were down. Ye Zhongming slid beside it, placing Moon Edge to his left hand and waving out, slicing all the legs on one side of the ant.

Dark green liquid flowed out of its broken limbs and the Purple Cloud Ant General's cries became softer.

Ye Zhongming's body flashed once more. This was his 4th movement. He dodged the large amounts of acid from its mouth before he waved Moon Edge once more. His 5th movement was the same as the last one, slicing off all the legs on the other side.

At this point, this Ant General lost all its mobility and was just there to be killed.

He pulled Moon Edge out from the general's head and dug out its demon crystal.

The half eaten chicken in the Monster Baby's hands fell to the ground. It was as if it had seen something unbelievable.

Suddenly, it started to shout. It didn't care if others could understand it at all, it looked like it was just trying to express something.

Ye Zhongming walked quickly towards it. What he needed to do was to slice its head off and then snatch the golden bag.

In the last life, that was what people did.

When Monster Baby saw Ye Zhongming speed up instead of stopping, it screamed before running backwards. But its small legs meant that its speed was even slower than primary school students. It ran a few steps and after realising that it was useless, it stopped.

It did something that shocked Ye Zhongming.

It grabbed its golden bag and dug into it. It took something out and smashed it at Ye Zhongming.

This shocked him. He thought that he didn't know much about the Monster Baby so he had some killing move.

But its strength was too small so that thing flew really slowly. Ye Zhongming saw that it was a scroll so he didn't dodge it. He grabbed it and held it in his hands.

“Basic Summoning Technique!”

Damn!

Ye Zhongming's eyes opened so wide that they were about to pop out of their sockets!

That scroll was a skill scroll! It was a really popular summoning skill!

That Monster Baby tossed out a skill!?

Ye Zhongming looked as the Monster Baby wanted to toss another thing out. He felt like this fellow should be called heaven as only heaven will give you a free meal...

He didn't hesitate at all and just learned it right away.

His mind felt a little dizzy and something appeared. Ye Zhongming learned his second skill after Basic Elimination Technique.

Ye Zhongming wasn't a fool so he continued to move forwards. It threw another thing that Ye Zhongming grabbed. It was a job advancement scroll.

In his last life how much did he spend on this? Now it was being tossed at him like it was trash! The comparison was so fresh.

“Is there more? I want more!”

Pa!

It threw something else. Ye Zhongming took it and it was a one star evolution potion. It was not as good as the last two but not bad.

“Again!”

The Monster Baby listened and threw something else. At the same time, a cunning look flashed in its eyes.

Ye Zhongming wanted to grab it but he felt that something wasn't right. His body pounced out and the moment he reached the ground, that thing the Monster Baby tossed exploded and left a giant hole!

As the dust settle, a figure flashing green stood up from the hole!

Chapter 73: Basic summoning technique

This was a monster that Ye Zhongming had never seen before.

More accurately, it was a summoned monster as it didn't have a monster crystal.

Ye Zhongming rolled after leaping to the ground and he stood up only after he was far from that monster. He held Moon Edge and maintained his aura.

It seemed like the information regarding the Monster Baby was not complete. Although it did not have combat skills, but apart from using the horn to summon zombies and monsters, it had other defensive skills. Its recovery was strong too.

Ye Zhongming's right finger moved a little and he felt that his right arm was much better. The Basic Summoning Technique filled his body with strength that slightly healed his injured arm. However, it was still a distance away from being perfectly fine.

Thinking about it, he moved the arm shield to his right hand.

The Monster Baby was delighted after summoning the two meter tall green monster. It picked up the chicken and twisted its body at Ye Zhongming, it was as if it was telling him that he could do nothing about it. It bit on the chicken and even tossed a bone at Ye Zhongming.

Ye Zhongming knocked the bone aside with Moon Edge and he retreated once more.

That green monster walked out of the hole and was charging at him.

As it did not have demon crystals, this monster's strength was not easy to judge. Its body wasn't physical too which made Ye Zhongming hesitate as he was afraid that Moon Edge would be destroyed.

This hesitation gave the monster a chance to charge forwards. It punched and as it was really close, Ye Zhongming could smell sulfur.

He retreated and was afraid that the monster would touch him.

The Monster Baby laughed and its body shook a little.

He didn't dare to slash and didn't dare to get close so he just retreated. While retreating, he took out the demon crystals that he had picked up. As they were crushed, he started to recover some mental energy.

It looked like he was being forced back without any ability to fight back.

Gunshots could be heard from afar as the battle there was ending. Ye Zhongming saw some light on the Chain Prisoner's body too.

That was caused by large guns and RPGs.

Pillars of fire surged into the sky and some buildings were set on fire from the modern weapons. Ye Zhongming realised that the sun had set and the second night of the apocalypse was here.

His mental energy was recovering. For this, he even used the level two demon crystal of the Terror Goat!

He paid such a huge price but it wasn't to flee. Ye Zhongming didn't back off and just stood beside a small fountain beside the square.

The green monster followed him. It lifted its foot and kicked Ye Zhongming.

This fellow left black marks on the ground, the green light actually had strong corrosive nature.

"Taste this!"

Ye Zhongming reached out towards the fountain and the water started to bubble. A second later a human-shaped water elemental stood up. It opened its mouth and spat a water pillar at the green monster.

A smoke rose up from its body and that made it scream out in pain.

The water elemental walked out from the water fountain. Its translucent body made it look soft and its movement was a little slow but it was strong. It wrapped the green monster and they were embroiled in a battle.

This was the Basic Summoning Technique that Ye Zhongming had learned.

This skill was a summoning skill but it was different from those mainstream ones.

Mainstream ones like undead summoning, star summoning, magic summoning etc consumed mental energy. Undead summoning would summon skeleton soldiers or magic summoning would summon mage beings.

These summoning techniques didn't need bodies and just needed mental energy.

But he was different, it needed a conduit and it was very important. The quality affected the strength and nature of the monster summoned.

If he used some steel, then the monster would be made of steel. If he used stone, then a golem would appear. Ye Zhongming chose water so he summoned a water elemental.

Apart from that, its strength depended on how much mental energy he spent. When summoning, the more you used, the stronger the monster would be.

‘Durability 30/30, last for a minute.’

This was the notification that he got after summoning the water elemental. It recorded the summoning time and summoning strength.

In just a while, Ye Zhongming had dozens of notifications and it was of durability dropping. In just a short moment, the durability dropped from 30 to 18.

The water elemental and the green monster were equal but due to the advantage in element, his water element had the upper hand. However, in truth, it was a little weaker as its durability was dropping quickly.

Seeing that the water elemental couldn't hold on for long, he paid more attention to the Monster Baby.

That fellow was filled with disbelief. After looking at Ye Zhongming, it started to flee. The two of them were far from each other so it felt like it could escape.

But it ran a little and that fellow was back. Behind it were a few people, they were the humans chasing it at the candy shop.

Li Shujun bit his teeth and looked at the situation. He laughed coldly, “What is mine is still mine! Kill them!”

.

His men and he started to fire. Some aimed at the Monster Baby, some aimed at Ye Zhongming. Some even shot at the green monster and the water elemental.

Ye Zhongming rolled and hid behind a foundation.

These people actually caught up because of the delay. He was not immune to bullets so before he got close, those people were a huge threat.

But he was going to watch them kill the Monster Baby and get that bag?

Then what was he risking his life for?

Ye Zhongming took out a gun he got from the candy shot. He pushed with his legs and he flew out. In a short moment, he fired twice.

Two people fell to the ground and the others went to find cover.

Ye Zhongming climbed up, shooting while charging toward the Monster Baby and grabbing it!

Chapter 74: Sudden group that appeared

What he couldn't deny was that the moment he grabbed the Monster Baby, Ye Zhongming felt the most emotions he had since he revived.

He knew that he had grabbed a huge treasure trove.

The Monster Baby was like a bug in the apocalypse. Only people who had been through it would know that one had to pay a huge price to get it.

In the last life, Ye Zhongming joined the operation to kill it. Each time it would cause a war between organisations, teams, zombies, monsters etc. All the things that were wrapped up in it will end up killing one another.

A war that had over 60% casualties!

Yes, each Monster Baby battle was a meat grinder.

Use some tempting rewards to attract living beings to kill one another. This Monster Baby was a bug? It was there to mock people and start wars?

Maybe the final winner would think that it is cute.

Would he be the winner today?

This was a thought that flashed across his mind after he decided on this plan. The moment he grabbed the Monster Baby, he finally had a feeling that he would be the winner.

But that lasted for just a short second before he was covered by a sense of danger!

He tried to shift his body to the side. His eyes lit up and his hand felt light.

The Monster Baby fell to the ground and it struggled while crying out in pain.

Ye Zhongming was knocked to the side by the struggling Monster Baby and he was in cold sweat.

He saw that one arm of the Monster Baby was sliced off and it was bleeding profusely. Where it bled was right where Ye Zhongming grabbed.

This meant that if he didn't dodge, the thing sliced wouldn't be the monster's hand but his!

What was that sharp light from the sky?

“Scram and I will let you live!”

A man with a thick and hoarse voice attracted Ye Zhongming’s gaze.

Three people got close. The leader was a muscular bear-like guy who was in a black vest. He had military pants and his black boots stepped on the ground.

Behind him was a guy and a girl. The guy was around the same age as the leader, around 27. He was holding a spear, its tip pointed at the ground as he stared at Ye Zhongming.

On the other side was a girl in a mechanic uniform. She wasn’t old and her hair was dyed red. It danced in the wind as she moved. The tight uniform wrapped her body. She held her right hand up and it was shining bright! The energy fluctuation was similar to the sharp light from before!

Ye Zhongming’s heart sank, he could sense that the three of them were evolved. The guy with the spear was a person with the job. That girl had a terrifying attack skill.

The leader was the strong guy and even his men were someone with a job and another with an attack skill. So could the boss be weak?

The three of them were vicious and it was obvious that they were well-adapted to the apocalypse.

Why did they suddenly pop up?

Ye Zhongming saw them get close. He didn’t bother about their warning and just grabbed, wanting to grab the golden bag.

But the three of them wouldn’t let Ye Zhongming get it. That girl waved and the light shone once more. It was really quick and it forced Ye Zhongming to retract his hand.

That delay meant that they got close. The guy with the spear shouted as he jumped, the spear turning into a silver dragon that stabbed Ye Zhongming. That move had a huge aura that sent fear into one’s heart.

The strong guy at the front, the spearman’s strike in the sky and the girl’s right hand storing up energy once more. Ye Zhongming had to retreat.

If his right hand was still okay, he might be able to deal with them but he only had one usable hand and his strength was greatly reduced. Apart from retreating, there was nothing he could do.

He retreated but he did something first.

He kicked the Monster Baby first before retreating!

The Monster Baby wasn’t tall and it was light. It had lost an arm so it flew far when Ye Zhongming kicked it.

The three of them were stunned and didn’t expect him to do such a thing even when he was under threat of getting badly injured or even killed.

But when they looked toward where the Monster Baby landed, they understood.

A bunch of soldiers were rushing over and the leading soldier had stepped into the square!

“Wang Ding, that is the monster, grab its bag!”

Li Shujun raised his head. He realised that three people had appeared from nowhere and the target they were chasing was flying towards Wang Ding so he just shouted.

.

“Your sister!” The leader of the three person group shouted at Ye Zhongming but all he saw in return was Ye Zhongming laughing.

Their goal was to snatch the treasure and not kill the strong Ye Zhongming. Although he hated Ye Zhongming for that kick but there was nothing he could do. He could only lead his men toward the Treasure Baby.

If they were slow then someone would snatch it.

Li Shujun raised his gun and wanted to stop them but he turned and looked at the square. He immediately told his men to put the gun down as he had an idea.

Wang Ding’s left hand was bleeding. Before heading here he didn’t know where the true treasure was so he chose the most eye catching Chain Prisoner. But right away his elite squad lost two evolved members.

This was a special team made specially by Captain Ye and they were in charge of the final hit for the treasure! For this, Captain Ye paid a huge price, risking lives to kill zombies and get the crystals. He focused all the gains on this team. When the Zombie Ape appeared, they thought that the treasure would be on it but then the Chain Prisoner made them shift their target.

Until he got Li Shujun’s report did they realise that the true treasure was on the back of a small monster?

Thus they gave up on the unstoppable Chain Prisoner. The price was that the 8-person team was left with four. That was four one star evolved, just thinking about it made Wang Ding’s heart bleed.

As he got a special card, Wang Ding reached level two in just a day. He thought that no one would be his match but his pride was smashed. He felt like he was a monkey being played. He was a fool that fought the strongest monster while others knew where the treasure was at.

Fortunately, he wasn’t late!

He shouted and sped up. He passed the Monster Baby and knocked the three-person team. He believed that his allies will get the treasure. He just had to create a chance for his allies.

Chapter 75: Sneaking around

The muscular man of the trio saw a guy in military uniform charge over and he scoffed coldly. He opened his arms and his body actually became larger. He bent his legs and arced his back and he became a big tank.

Ye Zhongming’s pupils constricted, Strongman?!

The spearman was a guy with a job and now this Strongman was another job. Moreover, it was a special and strong job!

It seemed like these three bumped into more than one level one gachapon. They even bumped into a three colored one.

Ye Zhongming recalled a rumor he had heard in his last life. The city he walked out of had a three person team but not long later they disappeared. Who knew if they died or not?

But what happened in the future didn't matter and had nothing to do with Ye Zhongming. It was just that these three were a huge threat to him now.

Fortunately, these soldiers appeared.

Level two evolved, Ye Zhongming was sure of that.

If he was told that someone had evolved and even had jobs, Ye Zhongming wouldn't be surprised by that. The number of gachapons wasn't clear and there might be one anywhere so the chance of a human bumping into one was really high. As long as you saw it, you would know how to use it. If you were bold you would be able to get strong quickly.

If you told him that a zombie or monster reached level three or even level four, he would be shocked but he would believe as these nonhumans evolved by storing energy. If they swallowed huge amounts of energy, it was possible. Moreover, some came from the dungeons and it was a mystery that people couldn't solve for ten years. Apart from a portion where the golden light attacked, humans knew nothing about the dungeons. Even if there were level nine monsters there, that was not surprising.

But a human getting to level two in just 30 hours, that was something that he didn't believe. He even felt jealous because of that.

He was someone that revived and he knew the locations of many gachapons. He knew that the color of the crystal represented level and he knew their strengths and weaknesses. He knew how to survive and get stronger...

But he was only one star. If not for his huge luck, he might not even get a job. So how did someone else get to level two, were there so many level two beings for him to kill? Even then, could he kill them?

Many questions that he couldn't solve appeared in his mind. Ten years of experience and knowledge did not help him at all.

When he was guessing, the level two soldier and the strong guy knocked into one another.

That strong guy was a level one evolved. If he didn't have a job and if he wasn't strongman, he wouldn't be able to deal with the level two evolved. One and two had a huge gap.

But the strongman was a special job and he could let the person have strength and a strong body. In terms of strength, it could challenge people above it.

That soldier was too confident and chose to fight head on which was what the strongman wanted too. He used the strongman's skill-- Bear hug.

The two of them hit one another and the thud made one grit their teeth. After which, the two of them lost control of their bodies and retreated. It took a few seconds for them to stabilise.

The strongman pressed his chest. That hit made him consume huge mental energy and his body also took a hit.

That soldier wiped off the blood on his mouth.

Actually, if Wang Ding chose any other method, he would have a slight advantage but he chose the only way the strongman could battle him thus both of them suffered injuries.

The strongman retreated but his allies didn't. The spearman once again did the same move he used towards Ye Zhongming. This time he had a better grasp on timing, his spear aimed at Wang Ding's legs the moment he tried to retreat.

That spear was accurate and vicious and didn't give him a chance to react.

But after all, he was level two. He suppressed the trembling of his body and sidestepped. But the moment he moved, a light slashed right where he dodged. That light would slice open his body in the next moment!

At the crucial moment, he used the super strong ability of a two star evolved to push and shift his body back.

Since he couldn't dodge both, he chose to take the spear's hit and not that numbing blade light.

The spear's head stabbed into his shoulder. That area was injured so it was bleeding even more now.

But between the spear and his shoulder was a hand-- Wang Ding's hand!

In an instant, he placed his left hand on the spear.

Although it hit his shoulder, but it wasn't deep so it didn't deal much damage.

"Die!"

Wang Ding closed his fingers and punched out with his right arm.

The spearman was knocked aside.

"Ah Li!"

The muscular fellow roared and rushed up to help. He saw half his ally's face collapse from that punch.

Wang Ding's face was cold and he wasn't nervous at all. He pulled out the spear and allowed the blood to flow.

"It is not yours so you shouldn't have come!"

Wang Ding tossed the spear. It looked weak but a two star evolved was definitely not weak. The spear shot through the air and headed toward the woman that used the terrifying blade light.

"Little Tong dodge!"

The strong man didn't have time to turn his head and could only remind his ally. He spread his arms as he knocked into him again.

"Do you think the same move would work twice?"

Wang Ding laughed coldly. When the two got close, the hand that was pierced through by the spear actually used gentle strength to press on the strong guy's chest. The strong guy charged forwards while he retreated. Their speeds were the same.

He actually used such a method to break his bear hug!

On the other side, the woman was not prepared. Although she tried to dodge, but the spear stuck into her left stomach and she was pinned to the ground.

Wang Ding had the absolute advantage so he started to punch the strongman. Before he did anything, his expression changed.

“You dare!”

Ye Zhongming had retreated behind the monster with the bag. At this time, the young man who had kicked the Treasure Baby to his side had gotten close and one hand was grabbing the golden bag!

Chapter 76: Guy you can't control

Ye Zhongming chose a great timing and that was due to his life and death experiences over ten years.

He started to move when the spearman attacked. He grabbed the bag when the others were fighting to win some time for himself. He even guessed that he would get attacked after he grabbed the bag.

A gun fired and Ye Zhongming dodged it like he could predict the future. After rolling several rounds, he appeared behind the green monster who had already dealt with the water elemental. Li Shujun's bullet was blocked by this monster.

Although the monster's fist forced Ye Zhongming back but he was able to dodge the only person that could threaten him on the field. Using its cover, he ran into a nearby street.

Wang Ding felt really frustrated. He was played to fight the strongest monster and now someone stole the Treasure Baby. Rage filled him up.

The strong guy actually looked like he was going to go all out at him. He headbutted him and used that to open up the space. He punched his chest and caused him to fly out too.

“Stop them!”

As the battle happened too quickly, other members of the special forces finally arrived. Wang Ding ordered them to hold back the three men team while he chased the direction that Ye Zhongming fled towards.

The strong guy fell on the square and only after spitting out many mouthfuls of blood did he feel better. He touched his chest and that area had collapsed slightly. Strongman gave him huge strength but not an absolute defence. The fist of a two star evolved was enough to deal huge injuries to him.

“Ah Li, Little Tong?” He tried to climb up and he stumbled to see his two allies. He suddenly heard footsteps. He tilted his head and saw the few who were shooting run over and they fired at his direction.

“Brother Deng lay low!”

The spearman stood up. He shouted upon seeing that the strong guy was in danger and he charged over without even thinking.

Although half his face collapsed and one eye was bleeding, but he was still one star evolved. That heavy injury didn't kill him and he actually still ran really quick. He pounced on the strong guy before Li Shujun and the others attacked.

Guns fired.

Those people didn't aim at the strong guy but the special forces members who were running at them.

"Li Shujun are you crazy?!"

One of them was hit in the head while the others dodged. One of them scolded Li Shujun.

"You are the crazy ones, I am thinking straight."

This company CEO was frenzied and he fired with his gun. Not only did he shoot those special forces members, he even shot at the three men team.

"Brother Deng!"

Little Tong saw that the strong guy was shot at and sent another light blade over to slice one of Li Shujun's men into two.

The light blade was too terrifying. Li Shujun looked at his man and his body shook. He retreated a little. This retreat meant that one of the special forces members was in front of him. These soldiers started to fight these traitors.

Brother Deng stood up and after cursing, he pounced forwards with the spearman. Although they were injured, but they had jobs and were much stronger than normal one star evolved. They used just ten seconds and after the spearman Ah Li was hit in the stomach once more, Li Shujun and the rest were killed.

Li Shujun wasn't willing to accept it, he was regretting his decision to offend these three...

As compared to the three person team, the special forces team paid a heavier price. Only one person survived. With Brother Deng's instructions, Little Tong used a light blade to slice off his head.

The chaotic square was now left with just three people.

The combination of evolved with jobs was a really strong one.

Suppressing his pain, Brother Deng and Ah Li saved Little Tong. They looked at one another and shook their heads.

"Now what Brother Deng?"

Ah Li held his stomach. He was lucky that the bullets didn't hit crucial areas. They passed through and once he bandaged them he wouldn't bleed much.

Little Tong had heavier injuries and could only rely on Ah Li to help her.

Brother Deng looked at where Ye Zhongming and Wang Ding disappeared and he bit his teeth, "Are you all willing to head back like this?"

They shook their heads. Indeed, the three of them felt that they were strong and they also found a time to attack. But now they were all injured. If they left now, it would be all for nothing.

Moreover, they offended the army! If they didn't get stronger they would die.

“Since others can killsteal, why can’t we? Go, let’s follow up and see if there is a chance!”

Like they were being welcomed, a gunshot was fired.

.....

Wang Ding charged into the street without even thinking.

He chased for a moment before a sense of danger made him hide in an open shop.

A gun fired.

He laughed coldly and wanted to mock the person who fled. But he realised that something wasn’t right. He turned his head and saw that the monster with a broken arm was dead.

Although they were far from the strength but he could still see.

He wasn’t the target of the shot!

The real target was the monster that was still alive. Now it was dead.

This was the first time Wang Ding felt a threat since he became two star evolved.

A threat, but not danger.

He used a mysterious card from Hu Dahai to get to two star. Although it left some problems but he was confident that he could solve them.

He knew how strong two star evolved and he knew that he was not invincible. Many people could endanger him like that three person team.

But no one made him feel a threat, a threat that he couldn’t control!

That young man did, he felt like he couldn’t see through what he was doing.

Wang Ding didn’t know how he knew that the true treasure was there. He also didn’t know how he could grab the opportunity to snatch the bag. It was as if everything was predicted by him. He also didn’t know how he trained his shooting such that he could kill that monster from such a distance!

He was also unsure why that young man had to kill the monster even after he got the bag.

Since there were so many areas he didn’t understand then would that person have a trap waiting for him?

He actually hesitated.

Ye Zhongming definitely didn’t know that his actions made a two star evolved feel a threat. He was running towards his target.

He knew that he couldn’t ditch the person as the gap between one star and two star was huge.

But that didn’t mean that he had no solution. Killing that Monster Baby was for two reasons. One was that the moment it died, the green monster would disappear, the second...

He continued to run and he made a weird whistle. He ran while he whistled hard.

He was running towards the Chain Prisoner!

Chapter 77: Black soul swallow

Captain Ye's eyes were red.

The Purple Cloud Ants had caused several losses to the team and when the zombies and two Red Condors came here, all he could do was to passively defend.

Right, he couldn't even flee.

No matter where they looked, they only saw zombies, mutated beings, and monsters. In just a short while, he lost half of his men. Many of the remaining were injured.

Without the immunity potions, injuries pretty much meant death.

Captain Ye didn't know which direction to head towards as they all seem to head to hell.

This was despair that made one crazy.

Some people started to break down. Captain Ye saw many people crying, pulling the trigger towards their own heads. Fresh blood and brain scattered across the green uniforms.

Some soldiers broke away from the team and charged into the zombies. They thought they were fleeing but they were actually just running to their deaths.

The zombies that Captain Ye felt weren't a threat now showed their viciousness. When they reached a number, not only humans but monsters weren't able to stop them. They were all made to fill up their stomachs.

Two of the four teams that they placed in four directions had lost contact. Chief Liu informed Captain Ye that he was going to retreat. They couldn't stop that giant mutated zombie. Only two units were moving over but could they break through the hoard of zombies?

Captain Ye himself didn't believe that.

"Send my orders." Captain Ye's face was sunken and he clenched his fists. He removed his earpiece, "Charge from the left."

The advisor was stunned, "Captain, that..."

"I know! But it is our only way out."

The entire team started to move towards the direction of the Chain Prisoner. At this time, everyone wanted to live. Listening to orders was an instinctive thing. Captain Ye saw something that he didn't understand. He knew that even if they managed to survive this, many people wouldn't listen to his orders anymore.

But it didn't matter as that was expected. Everything was worth it. If Wang Ding succeeded then he would meet up with him no matter the sacrifice!

Captain Ye lowered his head and his eyes were dark.

.....

Ye Zhongming faced some problems on a three-way street. This place turned into the main battlefield. Zombies, mutated life and monsters could be seen by everyone. He had to kill them while moving forwards.

Wang Ding also faced the same problems. Without the immunity potion, he had to be more careful than Ye Zhongming. But with his two star evolved strength, there wasn't much that could hurt him.

But that young man's swiftness made him angrier and angrier.

Hong!

The tree trunk in the hands of the Chain Prisoner stretched out from a building. At the top was the body of a level two mutated being. One couldn't tell what it was as it was smashed and left with bone and meat. Only a white crystal told people what level it was when it was alive.

Seeing the giant body of the Chain Prisoner, Ye Zhongming took out his gun and fired.

In truth, until now, no being tried to offend it. This fellow's level four meant that it suppressed everyone else so many mutated lifeforms tried their best to stay far away.

But this place was a battlefield for humans, for zombies, it was their food. They were filling their stomachs to obtain energy to evolve.

Their fear of the Chain Prisoner didn't mean that they could give up on that chance.

So although they tried to stay away but they didn't leave the battlefield. They were searching for life forms that they could kill.

This formed a weird scene where all sorts of things were here. Only the small area around the Chain Prisoner was empty.

It walked really slowly so the effect on the battlefield wasn't as large as its body.

But everything changed after Ye Zhongming's shot.

Apart from Wang Ding, no one dared to challenge this fellow. Those who had the thought were turned into meat paste.

The Chain Prisoner had entered a wandering state so maybe this was how it unlocked itself.

But Ye Zhongming's shot was from his new gun and the bullet was strengthened and enchanted to break apart strong defences.

If it was a level nine monster then it wouldn't have an effect. It would probably feel like a mosquito bite.

But the Chain Prisoner was just level four and it was not so strong. Facing other level two and three monsters, it could easily kill them as they just levelled up and lacked many other areas.

But Ye Zhongming was different. Although he was one star evolved but he had a job and it was the top job with a prefix. He could raise his strength to a level far above his evolution level to deal damage to higher level lifeforms.

So that gun broke the skin of its chest.

It just broke the skin. It wasn't even a slight injury, it just broke its defence slightly.

But that was enough to enrage it. It roared and turned around to find Ye Zhongming. It used strength slightly which caused the building between them to collapse.

At this time, Captain Ye and his team were nearby. The Chain Prisoner's rage helped him/ The zombies and mutated life forms didn't chase them anymore and even the two Red Condors retreated and were unwilling to face the Chain Prisoner.

Wang Ding's eyes flashed as he charged into the mist. A moment later, Ye Zhongming and Wang Ding both backed out of the smoke and Ye Zhongming's mouth had some blood.

Even with the smoke as cover, Ye Zhongming saw how strong a two star evolved was. They clashed and he took a slight loss.

But the one that was more shocked was Wang Ding. He could tell that this young man was just a one star evolved but he caused him a problem. If he didn't dodge, he would have been injured by that silver blade.

He looked at his shirt that was sliced apart and he just tore it off to reveal his strong body. There was a black skeleton on his left chest.

Ye Zhongming saw the tattoo and recalled a nickname.

"Black Soul Swallow!"

Chapter 78: Treasures flying everywhere

Black Soul Swallow was a skill but it could only be used once.

Ye Zhongming didn't see such a skill before but he heard that there was a special black card. There wasn't a recorded method of use and only just the picture of a skull.

After using this card, there was only one ability which was to swallow a life form of a similar level and obtain an evolution level.

In other words, if a one star evolved swallowed a level one mutated being, then he would become two star. If two star swallowed a two star then he would become three star evolved.

But there was a huge negative effect that people confirmed would greatly reduce lifespan. After use one might have less than ten years to live. Apart from that, at some moments one would suffer from intense pain.

There were some rumors about this card like losing the ability to have children, and becoming cold and heartless. Strength fluctuated etc which made it hard for people to know if it was real or not.

Anyways, one thing was for sure. One had to pay a huge price that might not even be worth it.

Of course, there was a restriction. Three star and above if they used this card, their souls would be swallowed and they would die right away. This card could at most be used by two star evolved.

A black skull tattoo would appear on a certain part of their bodies which represented that they used it before. Moreover, it represented that they accept the negative side effects of Black Soul Swallow.

No wonder he could reach level two in just 30 hours, he used this card!

This helped Ye Zhongming recover some confidence.

"Put the bag down and I will let you go."

Wang Ding's wound didn't bleed anymore but there was some dried blood there that made him look scary. If normal people suffered from such injuries they wouldn't be able to stand back up. But for a two star evolved, it wasn't much.

Ye Zhongming looked at the Chain Prisoner that was still wanting to come over and smiled, "You are a surprise but that doesn't mean that I am giving up everything."

Wang Ding frowned. He saw Captain Ye rushing close. He hoped to delay some time so he didn't attack right away. Moreover, he was a little worried with Ye Zhongming and was afraid he had things up his sleeve.

But for some reason, after hearing Ye Zhongming's words, he felt like his trap was set and was just waiting for people to jump in.

A giant stone flew over which Wang Ding shattered and stone shrapnel fell all over the ground.

"No matter what, in front of absolute strength all plans are useless." That gave Wang Ding confidence. He believed that he was the highest evolved person now! No one could stop him!

Ye Zhongming shook his head and nodded in a direction. Wang Ding turned his head and saw groups of zombies running behind 20 people. That Zombie Ape was behind them.

"Chief Liu?"

Wang Ding knew the leading person but he didn't know why they were running over.

"And also there."

Ye Zhongming pointed at another side. Wang Ding looked over and saw that the trio was there too. Although they were injured but they were more terrifying like this.

"Seems like everyone alive is coming here." Ye Zhongming laughed but then his expression became serious, "Do you know, I heard your men call your name? You are Wang Ding, you were someone I respected. But now I hate you."

Wang Ding was stunned. He had some fame in the army but it didn't reach a level where outsiders knew him.

"Soldiers are deserving of respect even in the apocalypse they still insist on their honor but that doesn't include you. It doesn't include your Captain Ye. Your hearts changed when the apocalypse came. Everything you are doing today is for your personal greed."

"Nonsense!" Wang Ding shouted, he didn't allow this kid to insult his captain and himself.

"Did I say something wrong?" he laughed, "When the apocalypse started, as the only power here, what did you do? Did you save people? Did you clear out the zombies?"

“No, you didn’t do anything. You only killed zombies for the demon crystals and not to save people. You didn’t save normal people and even used the evolved to serve you and defend four areas. You chose them as cannon fodder!”

“Captain ye and you did so to get stronger.” Ye Zhongming shouted loudly and pointed at those blood covered normal soldiers, “They are the true soldiers who follow orders. They gave up on their worries of their families and fight valiantly. But you and also those with the ranks, your souls have been corrupted!”

“You want the treasure? Sure, come. Let me see how many treasures you can get!”

After saying that, Ye Zhongming ran towards the Chain Prisoner, stepping on the ruins of half the apartment.

The few groups of people that gathered here started to make a move.

Captain Ye, Chief Liu, Wang Ding, even the three men team all chased Ye Zhongming and even attacked.

“Come and snatch!”

Ye Zhongming shouted. He suddenly ripped the golden bag and the items flew into the sky. Each of them gave off an attractive light.

Everyone who saw that instinctively swallowed their saliva. Why were they fighting? Wasn’t it just because of these treasures? Seeing all these in front of their eyes, they all couldn’t resist!

Captain Ye who had been calmly commanding charged out. The strength he revealed was shocking. He was not a normal one star evolved.

Wang Ding moved too. He was closest to Ye Zhongming and was the fastest. He was a touch away from those treasures.

The injured trio moved too. They forgot about the pain of their bodies and were only looking at those shining treasures.

Chief Liu moved too, he couldn’t watch as others took these treasures.

Apart from them, a group of people charged out from a dark corner of the ruins that actually reached before everyone else!

Seeing those scenes, everyone’s expression changed!

Chapter 79: Battle for the treasure

Liang Chuyin’s long whip gave her an advantage as she wrapped up a treasure and caught it in her hands.

Those people who charged out from the shadows were Mo Ye, Liang Chuyin etc. After being saved by Mo Ye, Liang Chuyin contacted Ye Zhongming and got the order to hide there.

Their attack gave them an absolute advantage.

Mo Ye was the second to get a treasure. She had one star evolved body and was also professionally trained so she managed to get a ball of light.

After Mo Ye grabbed one, she used the hill to do a summersault. She kicked another ball of light to Park Xiuying which she hugged right away.

Everything happened in a blink of an eye such that no one was prepared. The moment the treasures started to fall, three were taken.

Wang Ding was the strongest and the closest but he couldn't stop them. When he saw that half were taken, he roared and sped up. He jumped and grabbed to finally catch one of them.

The stone he kicked hit the stomach of Chen Long who wanted to grab one treasure. His stomach curved and he spat out blood. His body flew backward without any control at all.

Cheng Ze reached out to block and huge strength spread into his body. Although he managed to hold him but he stumbled.

"Big Long how are you?!"

Cheng Ze saw how strong it was and went to ask Cheng Long about his situation.

"Damn, so strong." He wiped his mouth and replied. But his expression changed and he spat out another mouthful of blood.

Mo Ye and the others were slightly more careful as they were older and more mature. But Little Tiger was rash. He listened to Mo Ye and respected Cheng Ze but apart from them, he didn't care about anyone else. Cheng Long was his brother. Apart from sleep, they did everything together. Seeing his brother get injured, he wanted to kill him.

This kid didn't even think and aimed his gun at Wang Ding.

Wang Ding was frightened by the gun. He didn't expect that this young kid would be so vicious to fire at him without hesitation. At this distance, even as a two star evolved, he would die if he got hit.

But unfortunately, he focused and dodged to the side. The bullet brushed his ear and the area felt hot. It then felt cold as blood flowed down.

The bullet didn't hit, but it forced this two star evolved off the ruins. He had helped the team as none of them were his match.

Although Wang Ding backed off, the other people were near. Captain Ye pointed his gun at Mo Ye as this woman wanted to grab another treasure.

"Little Ye dodge!" Cheng Ze couldn't help the injured Cheng Long when he saw that Mo Ye was in danger. He shouted before firing at Captain Ye.

This was the best solution. Cheng Ze hoped he could disturb him and make him miss.

Although Mo Ye was not as strong as Wang Ding, but she was one star evolved. If she fought up close, even Ye Zhongming wasn't her match. She had sensed the situation and when she saw Captain Ye raise his gun, she gave up on getting another treasure and jumped to a side.

Captain Ye's gun missed.

Cheng Ze's gun fired but he missed. He was holding Cheng Long and was using the left hand that wasn't his dominant hand. Naturally, he wasn't as accurate and it flew past Captain Ye's body.

He was shocked and wanted to fire back but he saw a light landed in his direction. He grabbed out. The moment it touched his hand, a light struck. He instinctively pulled his hand back and the light landed on a broken wall which sliced it into two.

“Scram!”

What followed the numbing light was a furious roar and cold wind. Captain Ye saw a person with a white spear thrusting over.

Captain Ye could only give up on the treasure and kick the spear.

The ones who attack were the trio. Facing the one star evolved Ah Li with the spearman job, Captain Ye took a loss. Pain spread over and he was sent flying. He had to press the ground with his hands to stabilise his body.

“Mine!”

Strongman Brother Deng laughed and held the ball of light.

The trio finally got a treasure.

Captain Ye had the most people but their Captain and Wang Ding were fighting there so they didn't dare to shoot. They didn't have a chance to get close as the zombies were rushing over. If they didn't stop them then they would end up as food.

Apart from them, Chief Liu had many men too but none of them were evolved. There was the Zombie Ape and its zombies behind them too. Even if some of them were freed up, they didn't dare to join in the battle as they didn't have the strength

Captain Liu's face sank as he looked at the battle for the treasure. He suddenly gave an order.

“Fire!”

The people around were shocked, fire?

“Fire at who?”

The secretary who clashed with Mo Ye asked. Chief Liu was furious and slapped him. He shouted, saliva spitting out, “Fire at who? Is there anyone there who is on our side? Of course everyone!”

Xia Lei heard that and was filled with disbelief. The Chief actually told them to fire at humans? Mo Ye and Cheng Ze were all there!

But she was a well-trained cop. She held her gun and was first to fire.

That gun had missed so badly that no one knew where it hit. The beautiful lady could only say to herself, “Little Ye, this is all sister can help you.”

Along with that gunshot, there were more shots on the ruins. That gun was much louder and it attracted a lot of attention.

The young man who scattered the treasure was shooting at the Chain Prisoner who was getting closer and closer.

A thought rose up in all their minds.

Is he crazy?

.

Chapter 80: Goal: Ghost Metal

Naturally, Ye Zhongming didn't go mad.

He only wanted more.

From the beginning, apart from wanting the Monster Baby's treasures, he had his own thoughts toward this Chain Prisoner.

With his current strength, he couldn't kill this level-four monster.

Not to mention kill, he couldn't even badly injure it.

But he just wanted some things. Compared to the Monster Baby, he cared more about what he could get from it.

One could tell from the fact that he didn't fight for any treasures.

Under such a context, he attacked!

High risk high reward, he was going all out.

That shot wasn't aimed at its body, but... The chains of Ghost Metal around it!

The metal was really expensive and some would flow out to the world. But they were all sold in grams and each was really expensive.

Ye Zhongming didn't know what it was used for. He wasn't a top expert and couldn't get classified documents. He wasn't a key job like a Smith so he didn't come into contact with such precious materials.

But rumors said that if you added in a bit of ghost metal when crafting, it would greatly increase the quality of the weapon. It would even get magical abilities.

Naturally, Ye Zhongming didn't know the truth about those rumors but there would be a reason such things were spread. Ye Zhongming just needed to know why the metal was precious. As for the exact use, he could slowly study them after getting them.

The bullet hit the chains and gave out a resounding sound. Sparks flew and the target shook. Ye Zhongming saw that there wasn't much of an effect and it only left a small mark.

Many people didn't understand why he was doing that. They thought he wanted to attack it just that he missed.

But what Ye Zhongming did next made him realise that his goal was these black chains.

Peng peng peng!

Ye Zhongming used all the bullets in his gun. Each one hit the same spot. At such a distance, even if he wasn't a marksman, relying on his past experience, he would definitely not miss.

Small cracks finally appeared where the chains were connected.

It was an extremely small crack but a breach didn't appear yet. If not for his good eyesight, he might not have noticed it.

Not only were the people below shocked, but even the Chain Prisoner was confused and didn't know what the ant was doing.

"What are you doing? Snatch!"

Captain Ye who was forced out by the trio was stunned by Ye Zhongming's actions. But when he saw that Chief Liu's men used the chance to climb the ruins and were holding up their guns, Captain Ye shouted. His gun fired first.

Chief Liu cursed but his body dodged to the side.

Chief Liu wasn't on the ruins so he wasn't shocked by Ye Zhongming's actions. Although he ordered them to fire but apart from Xia Lei's miss, the others didn't overcome their mental barrier to fire at humans.

Thus, he changed the method. He ordered a portion of his men to follow him close to the ruins. After which, he told them to raise their guns.

He didn't tell them to fire, just to be wary. He was waiting for a chain reaction.

Captain Ye was the first to react and was the first to fire. Facing an attack, Chief Liu's men instinctively fought back.

Gunshots could be heard!

Bullets covered the entire ruins.

Most of them on it were evolved so their reactions were quick and they found a cover. As for the treasures that fell on the ground, no one had time to bother.

The bullets caused smoke to billow and one's vision to be obscured. Everyone was firing blind and whether or not one hit depended on luck.

Chief Liu hid behind cover and had a cunning smile on his face. His goal was reached and his men were shooting. Now what he had to do was to wait for a chance to pick up those treasures.

Many people had the same thought. Wang Ding and Captain Ye met up and observed the battlefield. They were looking for a chance.

Mo Ye and the others backed off to where they came from. They got three treasures and if they could get one more, that would be fantastic.

The trio hid at a side. They didn't have guns so they could only wait. To them, the longer the delay the better. That would reduce their injuries too.

Smoke covered the ruins and also those who were fighting for the treasure. But on the ruins, Ye Zhongming and the Chain Prisoner's battle was heating up.

It got annoyed by Ye Zhongming's harassment. It smashed the blood trunk down and that giant area was like a mountain that pressed down.

Ye Zhongming rolled to dodge it. As he only had one usable hand, he didn't care about the new gun and just tossed it to the side. He picked up Moon Edge and ran below the Chain Prisoner. He jumped onto its huge leg and started to climb. He slashed right on the ghost metal.

This metal was the lowest point of all its chains and it was 4-5 meters above the ground. Standing on its huge feet, this was the max that Ye Zhongming could hit.

After slicing down, he landed on the ground and rolled to avoid its feet. He raised his head. Moon Edge was much more useful than bullets. Although he didn't break it, it left a fresh mark.

But that wasn't enough. Ye Zhongming took out a rope. It was the one he got from the gachapon in the supermarket. He tied it on a huge stone and after making rounds around his arm, he tossed it onto the chain.

He tested the feeling and he started to run. He then used the strength of the rope and the speed from the movement of the Chain Prisoner to swing upwards.

He was mid air and found a chance to grab the chains.

Ye Zhongming had climbed onto the metal chains that wrapped around this level four monster.
