

Apocalypse 821

Chapter 821: Light Bridge

How did this happen?

Why did this happen?

Ye Zhongming didn't understand.

Within the special wheel space, apart from those with special space equipment, if not it was impossible to get out. If not, this sealed space would be meaningless.

Be it in his last life or this, Ye Zhongming only met one situation which was when the God Hall professor got out of the competition death wheel space.

But now, a new example appeared.

Was it because the demon monster fed Tail the three-colored fertile soil that it had digested? Did it have a way to merge the fertile soil and place it into Tail's body?

Tail then obtained some special ability to teleport out of the space?

Ye Zhongming thought about it. This was the only and most likely outcome he could think of, but he didn't know if it was true.

He returned to the hall and took the third piece of the puzzle. He was missing one more.

His body wasn't in a good state. He looked at the time and knew that he didn't have much time left. He had to deal with the remaining four people.

He walked in front of the screen and raised his hand. His face was filled with disbelief.

.....

Outside the wheel, the Death King Tree headed back underground. Before it turned human, it still liked the underground environment as it was what it was familiar with.

It wanted to sleep to wait for Ye Zhongming to head out but it suddenly felt a very thick energy spreading.

As a level eight lifeform, it was sensitive to energy. It came out and tried to sense. Very quickly, it saw many short demon monsters gathering together and shouting something at each other.

The Death King Tree could sense that this energy was between these demon monsters that were on average level three.

These demon monsters noticed the Death King Tree and were shocked.

Although the energy was thick, it had something that the Death King Tree didn't like... It was like the red and yellow soil. So it just watched as they left.

It was not interested in these low-level dirty things. Even if it were to eat them, it would eat those above level six.

Seeing the Death King Tree get far, one of the demon monsters carried the naked demon monster baby. Its body had three colors that were spinning and circulating within. If someone who entered

the mysterious wheel were here, they would notice that they were the same as the changes on the wheel.

The demon monsters looked on in shock. When they saw the three tails, many of them screeched.

At this time, the demon monster baby opened its eyes, which were green and red. It opened its mouth to reveal the sharp teeth inside!

The three tails were hanging softly. They then shot up and stabbed into the body of a demon monster.

That demon monster screamed, and it was as if its neck was being strangled. Its body started to wither and turned into a dry piece of skin.

The other demon monsters retreated in fear and left the little baby there. But shocking things didn't stop. This monster stood up and screamed sharply at the demon monsters around. This aura was stronger than any demon monster present.

Those demon monsters stammered over. Two of the taller ones held it up and led the others to leave into the distance.

.....

Ye Zhongming noticed that the four of them had disappeared.

Why was he facing weird things today?

Ye Zhongming thought about it while searching in hopes of finding some clues. But he was disappointed as he couldn't find the four of them.

Very quickly, he placed down his arm and turned around. He saw the four of them behind him. Beneath their feet was a patch of green stone that disappeared.

"Are you looking for us?"

An Man smiled. He was annoyed about this arrogant kid that always behaved like he was always right.

Now, seeing him in a bad state, he was delighted.

"Are you looking for us? Or for this?"

Jayce waved the quarter of the puzzle piece and gave a vicious smile.

He wanted to beat this kid up. When they went out, he would also beat that seven star Cloud Peak lady.

This time, Zuo Jinxuan didn't say anything.,

Ji Ruiguang looked at the screens showing the entire space behind Ye Zhongming and understood what was happening.

When they entered the hall, they received a notification. Along with these scenes, they understood why Ye Zhongming could enter the monster's space.

But, everything was broken because of their appearance.

“Toss your puzzles over and take off your equipment. Open your space equipment and release everything. Do all that, and I will allow you to leave.”

Ji Ruiguang sucked in a deep breath and knew that things were over. His worries were unfounded because of this equipment. He was still the final winner.

No wonder he was so calm. Ye Zhongming wasn't in a good state. He was badly injured from the fight with the level-eight demon monster. Anyone could see that he was weak. Much less fight, he couldn't even walk.

Even if Ye Zhongming had a healing potion, it would take some time. That time was enough for the four of them to kill him multiple times.

No matter from which angle you looked at it, Ye Zhongming would die.

Ye Zhongming was calm and waved, “Can you tell me how you got out?”

An Man looked at Ji Ruiguang. Seeing that his subordinate didn't stop him, he said proudly, “Light Bridge. An equipment you have never heard of. It is to break such spaces.”

Ye Zhongming nodded and didn't continue asking. He looked at the four and said suddenly, “Are you so sure that I will die?”

Chapter 822: Causing trouble

An Man burst out laughing.

“Is this kid sick in the head? He is still trying to argue? He is so calm?”

This C Zone elder was very arrogant.

You couldn't blame him. The few of them were in the sealed space and could only leave if they got the final reward. Which meant that they were the only ones here and no one else would enter. Without anyone else, Ye Zhongming wouldn't have reinforcements, and he was alone.

They would treat him seriously if he were in a good state, even if the four of them had the numbers advantage. The guy who could single-handedly start Cloud Peak wouldn't be weak.

But now, everyone could tell that Ye Zhongming wasn't in a good state. It was too much to say that he was on the verge of death, but he had clearly lost his ability to fight.

A person who had lost his ability to fight actually provoked two seven-star and two six-star evolved; wasn't he asking for death?

“Your recovery might be strong, but the time that you have bought isn't enough to give you the ability to fight.”

Ji Ruiguang shook his head, “Why not follow what I said? Hand out everything and give up. At least you can stay alive. If you want, you can take revenge once you head out. Of course, we can still work together. Although we are standing on opposite sides now, I must admit that Cloud Peak has the right to work with the Resistance Zone.”

Compared to An Man's mockery, Ji Ruiguang's words were deeper and made one feel that one should give up on resisting. One might even feel grateful.

But Ye Zhongming had seen so many of such fake smiles. They might seem nice and might treat you better than how you treat your parents, but behind that was ugly killing intent and cruelty.

“Do you think I am delaying time?” Ye Zhongming smiled, “Hand over my stuff? Wishful thinking.”

“Honestly,” Ye Zhongming stopped smiling suddenly, pointed at the four of them, and said word by word, “You aren’t worthy.”

The four of them were stunned. Apart from Ji Ruiguang, the others didn’t hide their killing intent. They were prepared to attack and kill this arrogant fellow.

Ji Ruiguang wasn’t a nice person to allow Ye Zhongming to leave. He wouldn’t allow this person to survive in this world. He wanted Ye Zhongming’s things. He knew that a smith who could turn the Exquisite Crystal Ball gold in a few days had many good things.

Just what he had on him, the green blade and pants and the necklace and pendant, were all good items. After such an intense battle, his cape didn’t break. It dimmed, but it could only say that they were all above gold.

These were all he could see; what about those that he couldn’t?

Ji Ruiguang was tempted.

But such a person, who they all treated as a dead person, actually said such arrogant stuff!

He knew that the other three were waiting for his order. Ji Ruiguang saw Ye Zhongming’s firm attitude and found it a waste. He could only kill him and see if he could open his space equipment.

But before he gave the order, he saw Ye Zhongming pull out a small bottle. In it were beautiful sand-shaped items. He raised his head and poured them into his mouth.

What was that?

The four of them were wary. They weren’t to blame, as the apocalypse had too many items. Even experienced people couldn’t recognize them all.

This was Stardust Sand.

West Asia’s country product. One of its abilities was to revive people from the dead!

Ye Zhongming felt heat spreading through his limbs when the Stardust Sand entered his body. He could sense his injuries getting better quickly if he didn’t look.

As expected! As expected!

With his injuries, even if Park Xiuying were here and used Cleansing Dew or Gentle Chain, it would take a few hours to heal him. But after a few seconds, Ye Zhongming felt his body was filled with energy. Not to mention injuries, his body quality even increased.

“You!?”

Everything happened too quickly. Only two breaths had passed since Ye Zhongming poured the Stardust Sand into his mouth and until his injuries fully healed. This was too sudden for the four from the Resistance Zone.

The more sudden thing was that Ye Zhongming attacked.

Blade light rose, and he was before the weakest An Man.

An Man retreated suddenly, and rage appeared in his heart.

Was he bullying the weakest? Was he so weak in his heart?

An Man roared angrily, took something from his waist, and placed it on his hand.

The other three were shocked by Ye Zhongming's recovery and sudden attack. They only reacted when he sliced at An Man. Ji Ruiguang held a dagger, and Jayce held a thin sword and thrust it towards Ye Zhongming. Zuo Jinxuan's weapon was a soft sword.

"The thing is decent; it is mine."

Ye Zhongming retreated. He saw that An Man's weapon was a pair of silver gloves.

"You have no chance!"

An Man roared and attacked alongside the others.

What happened shocked everyone, but after the shock, the four calmed down.

Indeed, the injured Ye Zhongming was the best and he could be killed easily. But were they afraid of a healed Ye Zhongming?

No, they weren't. Moreover, everyone couldn't use energy jobs and equipment, so with two seven-star evolved, why would they be afraid of a six-star evolved?

It would just take a bit more effort.

Under such a situation, Ye Zhongming still said he wanted An Man's weapon.

The five of them battled. They were elites of human society and the highest-level evolved. Each of them was Superman. In the hall, you could only see their afterimage and hear the sound of wind and weapons clashing.

In just a minute, the four of them suppressed Ye Zhongming. Maybe in a few dozen seconds, they could slice him into pieces.

An Man charged at the front and swore that he would be the first to stab his weapon into Ye Zhongming's body.

But at a certain moment, he saw that there was no panic in Ye Zhongming's eyes! An Man was shocked and wanted to remind the others.

But Ye Zhongming moved!

He sped up and was much quicker than before. He was like a spectre. He used An Man's body to block the vision of the three behind. In just a while, he was beside An Man. Sand Dance sliced from the side of this bald guy.

Ah!

An Man could hear the surprise. Was that Jayce? But that was a seven-star evolved. Before he could turn his head to see, Ye Zhongming moved and elbowed his body. This 100kilogram guy flew and spat out blood.

While flying, he saw that Jayce was holding his right arm and crying. His right hand was gone!

Chapter 823: Tarsal Domain

Ye Zhongming's strategy wasn't smart; it was just one word- Acting.

He faked that he was a normal six-star evolved and acted like he was just slightly stronger than six-star evolved. He faked that he didn't have job or skills and his body was at a disadvantage.

Because he seemed too normal, so the four of them thought that he was indeed strong and that he could last for so long against the four of them.

If he acted too weak, those few would be suspicious. But because this seemed normal, the four of them felt it made sense.

Under such a situation, Ye Zhongming's explosion and suddenly showing his sick stats won him the battle.

He didn't choose to kill An Man because a six-star evolved didn't have a big effect on the battle. He didn't choose Zuo Jinxuan because this woman might not help his case, and she might even help him win. Thus, he chose Ye Zhongming.

He had been waiting for his chance, and he finally got it. He didn't hesitate to slice Jayce's right hand off!

If he wanted to choose, he would choose the strongest person!

When he only had one chance, hurting the strongest opponent would be the most beneficial!

As for hurting An Man, he did so along the way.

The situation changed at that moment. Jayce was badly injured, and An Man spat blood.

Ye Zhongming didn't stop, as the battle was far from over.

His target was naturally Jayce.

Kill him when he was sick. A seven-star evolved who lost his right hand was badly injured, but he was still a seven-star evolved. He had one hand. That hand could still kill.

Now, this was the best chance to kill Jayce when he was injured.

A bright light stopped between them. Zuo Jinxuan's soft sword blocked Ye Zhongming's Sand Dance.

Green and blue equipment clashed, and the former was at a disadvantage. After Zuo Jinxuan blocked that strike, her body spun. The sword light protected her and she actually retreated safely.

Ye Zhongming could tell that she had some technique that she merged into her fighting to cause her strength to double.

This woman who had no EQ was actually a skilled expert.

With this pause, Jayce came to his senses from the physical and mental blow of losing his arm and retreated. He pulled out a potion from his pocket and drank it.

He didn't expect the kid to be so crafty to slice his right hand when he wasn't paying attention. He also hated this space for prohibiting job and skills. If not, with his four winged evil devil job, even if Ye Zhongming sliced, he wouldn't be able to break it without a few hits!

"Kill him!"

Ji Ruiguang finally showed his true thoughts. He hated Ye Zhongming more than Jayce.

Only he knew how much he had to pay to get these two seven-star evolved to get on his side and for this operation. If he failed, he wouldn't be able to get back up.

But he had been suffering setbacks since the start and things hadn't gone smoothly ever since he met Ye Zhongming. Now, Jayce's hand was sliced off, so how would he answer to the other zones? If Jayce was fine, Ji Ruiguang didn't mind openly recruiting him. Although the resistance zone had rules, but strength mattered. He wouldn't be afraid of anything if a seven-star evolved stood on his side.

But once Jayce was useless, he not only had to take responsibility for losing a seven-star evolved, he would be blamed by the other zones. That wouldn't be solved easily.

If the operation failed... he was stressed just thinking about it.

A pair of daggers followed Zuo Jinxuan's attack up and faced Ye Zhongming.

They felt that if they weren't careless, they could deal with Ye Zhongming.

But as they fought, they were shocked.

Ye Zhongming was fighting one against three, and he wasn't falling behind. The few of them nearly got hit.

Now, they couldn't even protect themselves!

This was a seven-star evolved leading two six-star. They had to stand back to face a six-star evolved's attacks.

They finally experienced how terrifying he was.

They wouldn't be so confident if they knew that Ye Zhongming could battle a level-eight demon monster.

Demon monsters were famous for their strong bodies. Although the pregnant demon monster was slightly from level eight, but its body was stronger than most level eight mutated lifeforms. One could know how strong his body was from that.

The few of them realized that if this continued, Ye Zhongming would break them!

In this space, their numbers advantage was no use.

"Commander..." An Man was afraid. He knew that Ye Zhongming was a monster. How did he have such a strong body? He was much stronger than seven-star evolved, was he eight-star?

Ji Ruiguang's face was dark. Although Jayce joined in, but his left hand wasn't his main hand, and his strength was restricted. He wasn't in the right frame of mind so he might make mistakes.

It seemed like he had no choice.

He flicked his wrist, and something appeared. He had a piece of space equipment too.

“Ye Zhongming, we admit that you can defeat the four of us in terms of body. This is your natural battlefield. Unfortunately, there are many magical things in this world.”

As he said that, something similar to an apple smashed on the ground. It happened so quickly that Ye Zhongming couldn’t dodge it. The light covered him.

When he looked around, he saw that the four of them were within a yellow air bubble.

This familiar feeling returned to his body. He clenched his fist and realized that his job and energy could be used!

“Tarsal Domain!”

Ji Ruiguang frowned. From the Dimension Veil to the Light Bridge and now this... These were part of what he got in the trade and they were the deposit. But he used them now. He had to succeed, if not he couldn’t afford to pay these equipment.

“Since our bodies aren’t as good as you, then let’s watch overall strength!”

Ji Ruiguang activated his job.

Ye Zhongming was slightly stunned before he laughed, “You will regret.”

Chapter 824: Killing

Soldier Assassinator!

This was Ji Ruiguang’s job—a job that required a sharp attack, and it was highly credited with helping keep him in his position as C Zone commander.

The two daggers floated to his shoulders. At the same time, two similar daggers appeared from his body, and the four daggers protected him in the middle.

An Man took out everything he had. His body shook and sharp bone spikes appeared from parts of his body. The tips were sharp, and the sides had many blade-like cuts.

Two horns appeared from his head.

“White Bone Demon Bloodline!”

Ye Zhongming recognized this rare but problematic close-combat bloodline.

Jayce, who had lost an arm, had activated his bloodline. But of the four wings, one of them didn’t have a hand, and thus, he had one less sword.

As for Zuo Jinxuan, although she didn’t show anything apparent, Ye Zhongming could sense the surging energy. It should be an innate job.

Ye Zhongming had activated his Hell Envoy bloodline and was prepared.

He could say he didn’t care but was very careful. This was a habit.

He didn’t underestimate anyone, especially the resistance zone humans that kept surprising him.

That Light Bridge that could break the space and avoid the test was close to a god weapon in some instances. That could save a life. In such a situation, if they didn't meet Ye Zhongming, or if he didn't have Stardust Sand, they could change the situation and help them to win.

Tarsal Domain was similar. In special circumstances, it could turn the tides of the battle.

This was when Ye Zhongming had the most respect for Ji Ruiguang. A person with so much magical equipment might have more killing moves waiting for him.

But Ye Zhongming didn't fear. He knew how terrifying he was when he went all out.

If he faced these four people, Jayce, with a broken arm, before entering this space, he might just run because he wasn't their match.

Two seven-stars and two six-stars weren't so simple to deal with. Moreover, the six-star evolved was strong.

But now, after the series of tests and with many bad injuries, his strength had increased greatly. He had the confidence that he could kill the four of them!

An Man was the one who started to final battle.

When he could only rely on his body, An Man didn't dare to fight with Ye Zhongming. Just one shoulder barge and he flew. Anyone with a brain could know the gap.

But things were different now. He activated his bloodline, White Bone Demon, a close combat explosive bloodline. He believed that he had the advantage in close combat.

He lowered his shoulder and knocked. He wanted Ye Zhongming to taste the feeling of being knocked aside.

As An Man attacked, the three others started their own attacks. Ji Ruiguang's four daggers started to fly towards Ye Zhongming with weird paths. Behind each dagger was an energy line that connected to his shoulder. Was it because of the job or something else?

Jayce jumped and flapped the four wings. He then closed his wings, and those thin swords stretched out. He dove down from above.

Zuo Jinxuan was the most silent, but what she did wasn't. She had been waving her soft sword, causing the sword light to flash. The sword light didn't disappear and remained around her. They started to move, and as she picked up speed, the number of lights increased. In a short while, at least a few hundred streaks of light appeared and wrapped her within.

"Thousand Sword Return!"

Ye Zhongming glanced, and his heart jumped. This woman had the Cloud Peak Swordmaster job!

She should be the heir of some sort of technique that made Ye Zhongming have a higher view of her.

At this time, An Man got close. The sharp bone spikes and horn on his shoulder and head were about to pierce into his body.

White Bone Demon, after activating, his body would get much stronger. You could use your strength and speed advantage to pierce your bone spikes and horns into the enemy's body.

The bone spikes that appeared because of the bloodline weren't weaker than green equipment. One could tell how much damage they could do.

Moreover, four daggers protected An Man. They came from very hard-to-deal-with angles. They followed his neck, ribs, and legs. Once An Man got close, they would launch a sharp attack.

Jayce had dove. His body spun into a golden ball of light, and the thin sword rang sharply.

Ye Zhongming held his blade, and his head lowered slightly. He locked onto An Man.

Their eyes clashed, and they saw the killing intent in each other's eyes.

They knew that life or death was decided at this moment.

Ye Zhongming suddenly took a step forward. The two of them drew close.

An Man felt his body sink like he had hit a forcefield, slowly, instantly.

He couldn't see anything as Ye Zhongming's blade disappeared. What replaced it was a green sniper.

What was going on? Using a rifle at close range? Was he stupid? But why did his body become heavy?

Many questions rose in his heart, and a bad feeling appeared.

He wanted to retreat. The scene of Ye Zhongming knocking into him appeared again. He felt like this guy had many moves he was saving.

But it was too late. He heard a gunshot and felt his body shake. Shortly after, the strength disappeared.

He had killed to get where he did and knew what had happened. But he didn't understand why.

He didn't see the young guy's attacks and didn't see where he was hit. But everything ended after that shot.

Fortunately, even if he died, his body would hit him. Ye Zhongming, let's die together!

An Man closed his eyes and his body fell towards the guy that killed him.

But he couldn't see that the moment the guy fired, his body suddenly went against the laws of gravity and retreated.

Chapter 825: Thousand Sword Return

An Man's body fell to the ground. The bone spikes and horns that were supposed to pierce into the enemy's body poked into the ground instead.

He was frustrated as he died, but it made sense that he died.

His battle method was too direct. He also died because the opponent's strength and skills suppressed him.

When Ye Zhongming took a step, he activated the Spirit Qilin Pendant's third ability, Earth Charge.

This ability could allow him to have ability 1, Gravity Field, to cause the targets that enter a range to suffer from two times gravity.

An Man did charge quickly, but he was hit with double gravity and slowed down.

The Earth Set fed Ye Zhongming, and the gravity he faced was reduced by half.

In comparison, Ye Zhongming was much quicker than An Man.

Remember, the accessories also had the Earth Light, which could increase the effects of accessories by 10%.

Ye Zhongming calmly fired a shot under such circumstances. The green sniper rifle and silver bullet hit his heart. Even if An Man was a six-star evolved, even if he activated his bloodline, but with the Earth equipment buffing, An Man was too weak.

Just one shot, and he was dead. This was something that nobody expected.

Before realizing the problem, the other attacks arrived.

The first was Ji Ruiguang's four daggers. He was behind An Man, and when he got close, he thrust like a poisonous snake. He aimed at Ye Zhongming's stomach, heart, and lower body.

He was so quick that Ye Zhongming couldn't dodge.

But with Gravity Field, the daggers were affected. They suddenly slowed like An Man.

Ye Zhongming retreated. He used quickness to go backward.

Ye Zhongming left after killing An Man.

He then activated the Earth Strong Wind Pant's ability- Repulsion.

After retreating, his body rose from the ground.

Two figures intersected, and Ye Zhongming flew into the sky. Jayce charged down and instantly arrived at where he was.

The battle lasted for a few seconds, but things changed.

In an instance, An Man charged, An Ma

Chapter 826: Suppressing the field

Jayce touched the blood flowing from his head and was terrified.

He didn't expect Ye Zhongming to block Zuo Jinxuan's Thousand Sword Return so easily. He didn't expect Ye Zhongming to attack him again and, moreover, to use his gun.

At the same time, he understood why An Man was killed.

This shot was too powerful.

At Jayce's level, the danger that guns could pose to them was lowering. He had tested it before, when he had just reached seven stars. Even if normal guns were fired at him, he wouldn't be turned into a beehive. He could even counter-attack without using his skills and bloodline.

Only silver bullets were of threat to him when he couldn't dodge. If these bullets were fired from at least a white-grade gun, he would treat them seriously.

He thought that Ye Zhongming couldn't fire since he was so close. But Ye Zhongming was too quick. Jayce didn't have time to react and was hit.

Fortunately, he had a defensive equipment-- Substitute Mirror that could block ranged attacks. That equipment came into effect and blocked that bullet.

But it was a piece of white grade equipment and was destroyed after one hit. The bullet even brushed his head and left a wound.

If that hit, even if Jayce relied on his seven-star evolved's strong body to survive, he would suffer from a serious concussion or even fall into a coma.

That fellow could easily follow up and kill him.

This was the first time this seven-star evolved felt that he was so close to death.

He had to use another defensive equipment, Spiral Barrier. A giant shield that was made up of numerous small wind combinations protected him inside to defend against Ye Zhongming's second attack.

That green sniper rifle, along with bullets as well as that unknown skill. This was something a seven-star evolved was afraid of.

Everything happened too quickly. Ye Zhongming took one look and changed his target. The barrel spun, and a bullet left the barrel, heading towards Zuo Jinxuan, who was panting.

It was still Space Stack. Along with the speed of the sniper rifle, the bullet pretty much appeared in front of this low-eq seven-star evolved.

Zuo Jinxuan had seen Jayce fall and knew what had happened. When she saw the barrel pointing at her, she moved. At the same time, the soft sword spun around her and more sword light appeared. The difference was that the light was really quick and protected her. When the bullet fired, it hit the sword light and caused sparks.

Shock appeared in Zuo Jinxuan's eyes. She knew that the bullets were powerful since they could kill An Man and hurt Jayce, but she didn't expect them to be so powerful.

The sword light that protected her was a job skill called-- Defending the Enemy. This was a decent protection ability, but it would consume mental energy. If it defended against the attacks, the amount of mental energy spent would depend on the amount of attack blocked.

In just that short while, she felt warmth in her nose as something flowered down. Her mental energy was consumed swiftly in a short period while hurting her and causing her to bleed!

Without protection... She couldn't imagine what would happen if that shot had hit an important part of her.

Two shots injured two seven-stars. Ye Zhongming's body started to fall, and this was when Ji Ruiguang's attacks arrived.

This C Zone commander's eyes were red. Ye Zhongming had prevented his plan, and he had to kill him.

Under such a mentality, even if Jayce was nearly killed, he didn't care. If he could kill Ye Zhongming with this gap, he felt that it was worth it.

Unfortunately, Jayce chose to defend.

But it didn't matter as he attacked.

The energy lines that connected to the eight daggers started to rattle. The white lines turned the size of fingers and this caused the speed of the daggers to increase. The buff caused the daggers to disappear and appear instantly beside Ye Zhongming.

Ye Zhongming's surroundings were covered by the Gravity Field, and anything that entered would be affected. These daggers were no exception.

But once the daggers reached a certain speed, they could reduce the effect of gravity and still launch a sharp attack.

This was similar to Ye Zhongming's shots. When the speed reached a certain level, the evolved's body couldn't keep up. So Jayce and Zuo Jinxuan couldn't dodge his bullets.

Ye Zhongming felt a light shine and these daggers stabbed into his body.

Ji Ruiguang and Zuo Jinxuan were delighted.

Ye Zhongming was too strong today such that the four of them started to question life. Why was an evolved whose level wasn't higher than them suppress them? He had all sorts of jobs, equipment, and skills and could even kill one of them.

They felt like they would die if the battle continued.

Thus, when the daggers were about to stab into his body, they were excited.

They were confident in Ji Ruiguang's job. After all, they knew about his job and had seen him use it many times.

People whom he locked on at this distance couldn't dodge.

Indeed, Ye Zhongming couldn't dodge. But they started to deviate when they were about to enter his body.

Ji Ruigaung, Zuo Jinxuan, and even Jayce, who was watching through the barrier, were shocked.

Their first thought was that this was impossible.

Right, no one would believe that these daggers that were about to enter the body would start to fly about randomly.

Energy lines controlled these daggers. This showed how strong this job skill was!

They were shocked but Ye Zhongming felt like this was normal. The moment he landed, he raised the barrel and aimed at Ji Ruiguang.

The reason those daggers would miss him was, of course, because of the passive of the Spirit Rhino Pendant. It would cause metal-ranged attacks to deviate. Although the daggers had a high grade they were still metals. Naturally, they would be deviated.

The ascendancy was firmly in Ye Zhongming's hands!

Chapter 827: Three trump cards

Ji Ruiguang spat out blood and pressed his chest, which was about to collapse. He felt an intense pain.

He didn't dodge that short.

But he could tank it because he was wearing the Holy Army Coat. Of course, when the Magnetic Field knocked aside those daggers, he called them back to block in front of him.

He felt heartpained as one of the daggers was destroyed.

These eight daggers were set weapons, and they were very powerful. However, one of them was destroyed to block Ye Zhongming's shot.

Although he knew how to make up for it, it would take a lot of effort. It would also cost a huge sum, so his heart hurt.

But as compared to his life, it was worth it.

Ye Zhongming was a little regretful. Now that the three of them used their defensive skills. Jayce used the Whirlpool Barrier and Holy Army Coat, Zuo Jinxuan used Defending the Enemy, and Ji Ruiguang used the set blades and the Holy Army Coat.

Each one of them was prepared against Ye Zhongming's shots. It became difficult to use that method to kill them.

After all, Ye Zhongming didn't craft too many silver bullets. He used some in the battle against the demon monsters and not many remained.

He wasn't sure if he could gain the results he wanted after finishing these bullets.

"His Gravity Field disappeared!"

Ji Ruiguang shouted. He somehow sensed that Ye Zhongming's Gravity Field disappeared.

Ye Zhongming felt a little helpless. Spirit Qilin Pendant's Earth Charge had a cooldown time, and he had only charged it once previously. As the time it lasted depended on the number of charges, he knew it couldn't last for long, but he didn't expect it to be so short.

Although this equipment was good, it was still very restrictive.

Hearing that Ye Zhongming didn't have the Gravity Field up, they relaxed. This ability was too annoying, as if he had additional attack and defense equipment.

But did they dare to remove their defenses?

No, because the bullets from his gun had nothing to do with the Gravity Field.

But to last like this?

Others didn't know but at least Ji Ruiguang was not willing.

“Only one side will survive, we... Should try our best.”

His words were for the two seven-star evolved. His meaning was obvious, which was for them to take out their trump cards.

Jayce bit his teeth. He looked at his lost right hand and was the first to move.

He took out a... Figurine.

No one could tell which manga or game it was from, but a giant beast appeared when he tossed it onto the ground.

It wasn't accurate to call it a beast as it still had a human body. It had a clear body and four limbs but it had a cow/horse-like face!

Moreover, it was holding a three meter long giant crescent blade. The crescent shape surrounded this beast in the middle.

There was another attention-drawing point, which was the red light circles around its legs; no one knew what they did.

Zuo Jinxuan saw Jayce toss the monster out, so she did something, too. A magical light seeped out from her body. Although she didn't wear Holy Army Coat, she also had a set equipment. The light and the equipment touched, and the equipment started to change. It turned into a fantasy-like colorful dress.

Ji Ruiguang saw that the two seven-star evolved used their trump cards. He took something from his space and scattered it into space.

There were hundreds of green seeds.

As they scattered, they sprouted in seconds, and very quickly, they had thick stems. These then turned into colorful flowers.

Each flower had long and thin beards which danced around the flowers.

Ye Zhongming saw that they each used their killing move and knew that they were going all out. He became really careful.

He recognized all the moves that they used.

Jayce's figurine was famous in his last life, and Ye Zhongming had seen it before.

These were called Mourning Artifacts, summoning-type figurines that knew strong attack skills. The strength of it depended on how long the Master raised it for.

This was a summoning item that the master needed to nurture with blood and effort. The longer you nurtured it, the stronger it would get. Based on the person's stats, it would have different battle methods and stats.

It was called Mourning-type figurines and was as popular as battle pets. They were often a market without supply.

When Ye Zhongming saw the glow beneath the figurine that Jayce tossed, Ye Zhongming felt like this fellow had been nurtured for over half a year and was similar in strength to a six-star evolved.

Zuo Jinxuan's trump card looked like a skill but it was actually a bloodline-- Cloud Feather Cloak Bloodline.

A nice name whose ability wasn't complicated, but it was something female evolved love.

After activating the bloodline, it would be a long-lasting skill. Its ability turned your equipment into Cloud equipment and it would have decent defense. When this bloodline reached a high level, the defense of such equipment would be overpowered.

This was an outcome that focused on one extreme.

Zuo Jinxuan used the bloodline to increase her defense and ignore her opponent's attacks. She planned to tank Ye Zhongming's hits while focusing on her attacks.

As for the flowers that Ji Ruiguang scattered, Ye Zhongming recognized them to be Sailor's Beautiful Flower Garden.

An equipment that could cause various debuffs for a survivor.

It was a piece of equipment and not a one-time-use item. It was very special; you could collect them after the battle ended.

Sailor's beautiful Flower Garden was similar to Gravity Field. It could buff yourself while giving negative buffs to the enemy. Although it was a support equipment, it affected the battle as it caused the effects through smell. One would get caught off guard. These stats meant that the flower garden could be planted in an unassuming corner so the enemy wouldn't know where it was. The enemy would be forced to fight and end up losing his life.

Although they were enemies, Ye Zhongming was impressed. These people were truly elites and had many good things on them.

After the preparations were over, the three of them started their first all-out attack of the day.

Chapter 828: Decisive moment

The figurine's body flashed, and it disappeared. When it reappeared, it was beside Ye Zhongming. The giant crescent blade sliced at his body.

As the weapon was too huge and was like a hula-hoop around its body, just looks alone was very threatening. Ye Zhongming had to treat it seriously. He dodged to the side to avoid the giant weapon.

But the figurine disappeared again in the next second, and it was on the other side when it appeared. The giant blade sliced once more.

This was this summoning-type figurine's specialty: flashing attacks.

Although this wasn't strictly a flash, as there was a time gap and you could even track it if you were familiar with it, but to evolved that were used to ordinary fights, this was still shocking.

A second ago, the opponent before you now stands behind you. This didn't feel good for anyone.

The reason why this figurine was famous in his last life was because of this different battle style.

During the third attack, Ye Zhongming used Sand Dance to test the strength of its weapon. Both sides clashed. Sand Dance was fine, but a small chip appeared on the giant blade, but it didn't affect much.

Ye Zhongming looked at the outcome and knew that it was impossible to slice this weapon using Sand Dance.

Zuo Jinxuan also took the chance to attack. Her soft sword turned into sword shadows that thrust towards him. Her defense was not a problem with the Cloud set, so her attacks were more frenzied. She didn't defend at all and each move was to trade damage.

Ye Zhongming was actually interested in the Cloud Feather Cloak bloodline. He felt like this job was different. Although it was too one-dimensional, but it was a good job. At the same time, he wondered whether or not his Thousand Seal Slasher was stronger than this bloodline.

If possible, he wanted to test it out.

The gravity field's disappearance had given these people confidence. Zuo Jinxuan and the figurine started to attack. Jayce lost his right hand, so he didn't enter the battle center. He just maintained his bloodline transformation, held his sword, and watched on.

Ji Ruiguang saw that Ye Zhongming was being held down. The daggers came back alive. He walked to Ye Zhongming's side and waited for his chance.

Ye Zhongming placed the gun on his back and maintained the Earth set's stats. He held Sand Dance and fought with the enemies. He wasn't anxious; he was searching for a chance to fight back.

Ye Zhongming knocked aside the figurine's blade and stepped on Zuo Jinxuan's body. The seven-star evolved's huge strength caused her to fly backward. She stumbled several steps before balancing herself.

But before Ye Zhongming could chase the win, those daggers appeared like poisonous snakes and attacked him from all angles. Apart from the two from the front, the other five used the figurine as cover. Ye Zhongming couldn't dodge them all. Two of them brushed him and left two wounds.

This was the first time Ye Zhongming was injured which pumped up the three of them.

Ye Zhongming counterattacked. Sand Dance flicked the figurine's shoulder, but it only left a clang. The summoned being's body wasn't made of flesh, so only slashing was effective. It wasn't afraid of stabs and flicks.

Zuo Jinxuan attacked again. Her skills were apparent, and two more wounds appeared on Ye Zhongming's body.

That soft sword was not an ordinary weapon.

"You didn't expect this when you killed one of us, right?"

"Don't you think your words were just amusing?"

"Have you thought of your last words?"

Jayce waited on the side. He didn't want to affect the figurine and Zuo Jinxuan's fight but continued dissing Ye Zhongming to try to affect him.

He could tell that if he swapped for the figurine, they might not be able to defeat Ye Zhongming. This fellow's body and recovery were too sick. Just those wounds were forming scabs at a visible speed and didn't look like they would be much of a problem.

They were in a fight. Each part of his body was exercising, so how could his wound heal so quickly?

Jayce and Zuo Jinxuan didn't have such an ability, so they couldn't trade wounds with him.

The figurine was tanking mosts of Ye Zhongming's damage. Zuo Jinxuan took some light hits, but you couldn't see much because of the Cloud equipment. If it were Jayce, he wouldn't be able to take it even with his bloodline.

After all, Sand Dance was a blue-grade blade!

Ye Zhongming wasn't affected by Jayce's words. He was just waiting.

Finally, he felt his body sink. Jayce and Ji Ruiguang moved at the same time. One flew into the sky and prepared to dive, while one made the thick white lines connected to the daggers. The strength and speed of the dagger had increased by much more.

At the same time, each of their weapons was covered with a pink light.

Ye Zhongming knew that Sailor's Beautiful Flower Garden was working.

This equipment might not have many abilities, but it could make Ye Zhongming's body sink and feel slightly dizzy. Moreover, it buffed their attacks. This pink glow showed its effect.

"I have waited for a long time!"

Ye Zhongming's attacks began.

He was waiting for the Sailor's Beautiful Flower Garden to be activated. He had been holding back because he didn't know what debuff it would bring him. He was afraid that his counter attack would be affected and he would have to return without any gains. That would be fatal.

Although he was confident that he could defeat the three of them, but if he made a mistake, he might die.

Now that the equipment was activated, Ye Zhongming only felt slight weakness, so he didn't worry so much.

"You must have felt good!"

Ye Zhongming slashed at the figurine, but it disappeared. This meant that Ye Zhongming made a mistake.

The three others were delighted, and they attacked. But Ye Zhongming gave a cold smile and an exquisite robot appeared beside him.

Explosive Mechanic!

The moment it appeared, it fired two sharp lasers toward the empty space to the side. Everyone didn't understand, but the figurine suddenly appeared. It was as if it knocked into the lasers.

The summoned being that Sand Dance only left a few marks was hit, and the laser shot through, causing it to shatter.

Ye Zhongming didn't even look. He used his momentum to roll forward to dodge Zuo Jinxuan's soft sword and a few doggers. He tanked the three other daggers. He kept Sand Dance, and the Demon Energy Crystal Gun appeared. He aimed at Jayce, who was diving from the sky.

His first target was Jayce!

Chapter 829: For victory (1)

People would forget about the true strength of the Demon Energy Crystal Gun.

Ye Zhongming used it often. But because it was a piece of purple equipment, he mainly used it against strong bosses or evolved lifeforms. So, sometimes, it didn't feel like it could change the tides of battle.

But what was the true situation? Before Ye Zhongming had the combination of the green sniper rifle and silver bullets, this gun had been his main ranged attack. One could say that it was worthy of being his symbolic weapon.

Even now, if you compared the green sniper rifle and silver bullets, along with the Earth set's buffs, with this demon energy crystal gun, it was still weaker. Their only advantage would be their range.

For example, if you had a level eight or nine mutated lifeforms opposite you, Sand Dance, the sniper rifle, even the Explosive Mechanic couldn't directly damage it.

Only the Demon Energy Crystal Gun could.

He didn't use it previously because he had only used it against the strongest enemies.

But today, when he took the weapon out and fired at an injured seven-star evolved from close range, this meant that they would finally witness how terrifying it was.

Sizzle!

Many small lightning covered Jayce who was falling. The sound of metal being ripped could be heard.

At the same time, Jayce cried out for the umpteenth time today.

The huge strength sent Jayce flying. He was like the tennis ball that the strongest tennis player hit. He was aggressive but then faced an even more powerful counterattack. The ball not only didn't win him the point, it was being smacked back.

Jayce's golden body was sent flying, and then he smashed into the Tarsal Domain's barrier.

As Ye Zhongming used the lightning energy to enchant the Demon Energy Crystal Gun, that strike caused Jayce to twitch. His body had marks left from the lightning. Those wings were twisted and bleeding. He didn't look like a Four-winged Devil but a dove whose wings were broken...

That shot shocked Zuo Jinxuan and Ji Ruiguang.

They didn't expect Ye Zhongming to have such a strong weapon still. His equipment was too good and too powerful.

Jayce was indeed very strong after activating his bloodline. Even the Chain Prisoner's attacks didn't leave him with much of a wound.

Logically speaking, a purple weapon should be similar to the attacks of a level eight mutated lifeform.

Remember that the Chain Prisoner didn't use any strong skills; it just whipped and stepped on him.

If his attack skills hit Jayce, he would probably be destroyed.

This time, he didn't have the big size of some lifeforms or the high defense from some skills. How could he be okay when he took the attack head-on? Ye Zhongming was even slightly surprised that he wasn't killed with one hit.

If Jayce was eight-star, maybe he could tank the hit with his bloodline. But unfortunately, he was only a seven-star evolved.

Zuo Jinxuan gave up on attacking Ye Zhongming and jumped beside Jayce to prevent Ye Zhongming from attacking the badly injured ally.

Ji Ruiguang also moved over and defended against Ye Zhongming.

Ye Zhongming regretfully kept his purple weapon. This gun was good in all areas except range. Moreover, as the distance increased, the speed of the shot would become a problem. At their level, if they had a reaction time, they could easily dodge.

Ye Zhongming picked up the green sniper rifle again.

The few of them wanted to curse.

From the start of the battle, the few of them had been through ups and downs, joy to fear, from confidence to doubt, from hope to despair. After all these emotions, they had understood what was torture.

They thought that they would still win after taking out their trump cards. But the truth proved that this young man didn't have fewer trump cards than them. His trump cards were also of high quality.

The figurine was strong, but the little machine destroyed it as if it had met its natural enemy. The Cloud Feather Cloak bloodline was strong, but Ye Zhongming ignored her and injured her ally. Sailor's Beautiful Flower Garden was decent and if it were someone else, they would have died. But so what if Ye Zhongming was weakened? He didn't fight up close and took out a gun that could threaten their lives!

The frustration of being restricted caused the three of them to start to think about life.

They knew that Ye Zhongming wasn't feeling good either. He was hit by the daggers many times and was stabbed by Zuo Jinxuan. He was also affected by the Sailor's Beautiful Flower Garden, and his body was weak. That terrifying recovery was reduced slightly.

If they could continue to attack, they might have a chance to win. But in truth, the attacker was now Ye Zhongming.

That familiar gunshot rang out, and it was consecutive.

Ji Ruiguang and Zuo Jinxuan smiled bitterly. They couldn't dodge such quick gun skills in such a small space. They could only defend.

The daggers and Zuo Jinxuan's Facing the Enemy appeared again. They could only use such a method to block those bullets now. They knew that the bullets would run out. Even the richest evolved would find silver bullets extravagant.

Indeed, he didn't have that many silver bullets left. Such sniper rifle bullets were rare. Although he had ghost metal he couldn't use them all on consumables. Along with those that he had used previously, he didn't have many left.

So what? Those on hand could kill the three of them! Ye Zhongming didn't believe that they could block his shots.

That was the case. After six shots, Ji Ruiguang's face was white as ash. His daggers were destroyed. He was missing one and he had a chance to replace that. But Ye Zhongming fired three of the six shots at him. Those three shots destroyed three more daggers. Moreover, his Holy Army Coat was breaking down!

Zuo Jinxuan didn't feel good either. Her defense involved her mental energy. The stronger the attacks, the more mental energy was consumed. She was bleeding from all holes and could only block one more shot. After that, she would have to deactivate that skill and use the Cloud Feather Cloak to block.

The battle entered its final stages, and it seemed like those from the resistance zone would be killed in the next moment.

But people who could reach seven star evolved and get to becoming a commander wouldn't be so easily killed. Just as Ye Zhongming was firing like the god of death, they were thinking of a way to break free... And even turn the tides.

Chapter 830: Ran

That seven-star evolved Zuo Jinxuan, who lacked eq and had been used by people, had suddenly pulled out a set of fireworks and tossed it into the sky.

Right, fireworks. But this was more exquisite than ordinary fireworks. They were made of jade and there were exquisite patterns.

To be honest, Ye Zhongming felt nervous when it appeared. His muscles tensed, and he was prepared to dodge.

Everyone was risking their lives. Although it looked like he had the advantage it was conditional. He was in a weak state, and if those two got close, it would be a problem. Especially Zuo Jinxuan. She was good with swords and mixed it with her fighting style, giving her one more job. Ye Zhongming had to be wary of her.

But when it exploded, Ye Zhongming was shocked.

It didn't charge at Ye Zhongming, but it exploded the Tarsal Domain!

Ji Ruiguang had spent so much money to get this but his own teammate broke it.

"What are you doing?"

No wonder Ji Ruiguang would get furious. Being betrayed by your teammate was such a damning act.

Zuo Jinxuan's reply filled him with disbelief. Ye Zhongming also had a different opinion of this woman.

"If you want to fight, then continue; I won't accompany you."

Zuo Jinxuan gave a winner's smile and said, "I give up."

Her body disappeared from the space, and she was moved out of this special wheel space. Leaving the two people looking at each other.

Ji Ruiguang was filled with rage. How much did he pay for the current situation and for the final victory? From the level eight crystal to the Light Bridge to Tarsal Domain and Sailor's Beautiful Flower Garden. From the silver daggers to the Holy Army Coat. From sacrificing An Man to using Jayce as a shield...

Everything was for the final victory. But when they were about to see the light, Zuo Jinxuan who he paid a huge price for decided to flee.

This destroyed Ji Ruiguang's chances of victory. Without his weapons, without Holy Army Coat's protection, how could he kill Ye Zhongming? Even if he was in a weakened state, he was still not someone he could go up against.

Ji Ruiguang had never hated someone so much. Even Ye Zhongming didn't give him such a feeling. But now, if he could, he wanted to chop her into many pieces and mince her meat.

Ye Zhongming looked at his empty bullet case and was confused. He didn't understand why Zuo Jinxuan would run!

If she lasted for a minute, she would realize that Ye Zhongming was out of bullets. The ranged attacks that were the most threatening to them were gone, and they could have found a chance to kill him.

But Zuo Jinxuan ran.

If Ye Zhongming had considered it from his perspective, this woman wouldn't have done that. Things were far from irreversible. Even if Ye Zhongming had more bullets, Ji Ruiguang was before her! Why did she run?

The two remaining people looked at each other, but they didn't fight.

They were people with power. Although skills and tactics were shattered by power in the apocalypse, sometimes, tactics couldn't even decide the outcome of the battle. But that didn't mean that people didn't know about such things.

At the end of the day, power in the apocalypse or tactics in the past all revolved around one thing. Interests!

Only with that could you talk about other things.

When Zuo Jinxuan left, be it Ji Ruiguang or Ye Zhongming, they didn't understand what was happening. But once they calmed down, they understood.

They thought differently about this woman. Actually, this was the best choice for her.

What would the outcome be if she didn't leave and stayed with Ji Ruiguang? Two. One would be that Ye Zhongming won, and both of them would get killed. The second would be that they won, but who benefitted the most? Ji Ruiguang! He could get many things, but what would Zuo Jinxuan get? It was just double of the payment she agreed to.

Nothing changed.

But, what if she left?

Jayce had died, meaning she was the only seven-star evolved in the resistance zone. The entire zone would rely on her as long as she lived. In the long run, the benefits she got would be more than what Ji Ruiguang gave her—even double!

Definitely!

Moreover, don't forget that if she left, Ji Ruiguang might be unable to escape. C Zone would be gone, S Zone was split, and a part of T Zone was disheartened. If Zuo Jinxuan returned alive, how much support would she get?

The top person in the resistance zone!

If that was the case, just think about it and you would know what Zuo Jinxuan could get.

It would be great if Ji Ruiguang died. She could even give many reasons to explain this operation. No one could do anything to her, even if she didn't say anything.

On one side, she would get Ji Ruiguang's double payment. On the other, she would be at the top of the resistance zone. She also didn't need to be responsible for Ji Ruiguang and C Zone's losses. Even a fool would know how to choose.

After thinking about all that, be it Ye Zhongming and Ji Ruiguang were both shocked. Was she still that low-EQ fellow? She was so decisive this time!

Ji Ruiguang shuddered. He looked at Jayce's body and bit his teeth, "I... Give up."

Ye Zhongming was the only one left.

Everything ended in such a theatrical way.

Did Ji Ruiguang make the wrong choice?

No, after Zuo Jinxuan left, he wasn't Ye Zhongming's match. The fact that he chose to escape wasn't a show of weakness. It just meant that he was decisive. If he was a few seconds later, he might remain in this space forever.

Ye Zhongming shrugged and felt like the win occurred too suddenly. Of course, this was a good thing.

He walked over slowly and picked up the puzzle that was left on the ground. This was the final piece.
