

Arceus 791

Chapter 791 Special Exercise, God of Ninja

Wano Country's overall domestic strength is not low, but when the original daimyo and generals are dead, their strongest are the leaders of several gangsters.

Those people are all restricted by Heigoro. Judging from the recent situation of Heigoro, he has not participated in this kind of thing.

The force value of these rebel forces is not very outstanding, and the local forces of Wano Country are enough to deal with them. The establishment of the Shinsengumi is not to serve as a guard of honor, but to maintain internal stability.

"Wait, you have to pretend you don't know about it."

"My lord, what do you mean"

"You don't need to talk to Budai and the others, just use it as a drill to check their ability to deal with emergencies.

Just let Jhin and Drake know about it, so as not to make any big noise and end badly. "

"As ordered."

During the period when Kozuki Oden just died, although Heitan Orochi became a scapegoat, many people still didn't believe it, such as the bandits in Kuri.

In the beginning, there were indeed some people who resisted with force, but now, they have all become important members of the mining farm and made their own contributions to the output of minerals in Wano Country.

In the past few years, there has been no incident in Hezhi, and everything is developing for the better. Although the Shinsengumi is an internal security force, it has gradually evolved into a nursing home. At most, it usually helps people find dogs and cats, catches Catch the thief.

Just use the actions of these people to test what level they are.

"As ordered."

Koga Ninja took a few steps back, and then disappeared into the shadows. Arceus didn't take this kind of thing seriously at all. It's not so easy to make trouble in Wano Country.

No matter how meticulous the plan is, even if everything they plan can be implemented smoothly, and they can't cross the mountain of beasts, then everything is useless.

Even Kaido, who is keen on fighting, has no interest in this kind of fighting. He is too weak. The attacks of these people may not even be able to sober him up.

The next day, in the capital of flowers.

Koga Ninja returned here last night, but he didn't bother Jhin and Drake, and it wasn't an important matter, just talk about it the next day.

With the abilities of those people, it is impossible to rush into the Flower City. Although Kozuki Hiyori is just a puppet, there are enough generals here, and Bu Dai is leading people to patrol outside the palace at this time.

This is the job of their general guards. It sounds solemn, but it is actually very easy, at least it has been the case for the past few years that Budai has been in office.

But he is very strict with the people below, worried that because of their slack, the beasts will be dissatisfied, so he will be dismissed. He is used to the benefits brought by his status, and he can't accept the return to his previous wanderer life.

"My lord, you are back."

Seeing Koga Ninja come back, Hotei respectfully stepped forward to say hello. As the current team leader of the Shinsengumi, he is theoretically on the same level as Koga Ninwa, the current leader of the Hiwa Goniwa.

It's just that he is very clear that the status of the two parties is as different as the gap.

"Beastmen" are very common in the Hundred Beasts Pirates, be it giant beasts, fur tribes or murlocs. The closed Wano country has gotten used to it, and even Kawamatsu has become an indirect beneficiary. Ordinary residents no longer regard him as a weird Kappa.

Rare amphibians and reptiles such as Koga Ninja Frog and Elizabeth have long been accepted here.

And the power of the Koga Ninja is not limited to that. The population of Wano is also a place where all beasts train soldiers. In addition to a large number of high-quality weapons, there are also many high-quality troops sent here.

In addition to those royal family members, Koga Ninja has an additional ninja troop under Koga Ninja, commonly known as Koga Ninja, who has become the mainstream ninja in Wano Country, and he himself is regarded as the **** of ninja by those ninjas.

"The New Year's Eve is coming, so cheer up."

"yes!"

Arceus said that there was no need to mention this matter to them, so he would not say it, but just made a side note. Whether he can understand anything depends on Budai's own understanding.

Just judging from his reaction, he didn't understand the deep meaning of Koga Ninja's words.

Then Koga Ninja Frog found Jhin and Drake, and began to convey the meaning of Arceus. Although the New Year Festival is a large-scale celebration, it is not particularly important to the people of beasts.

They will have a banquet from time to time, and the New Year Festival is just a slightly larger banquet. Ordinary pirates will relax, but these people in key positions will remain the same.

The enemy will not give up their action plan because of the festival. Jhin and Drake belong to the people who attended the banquet in the first half and went back to duty in the second half. Under

normal circumstances, they will be responsible for the first half of the night and the second half of the night respectively.

And Derek prefers the first half of the night on duty. According to her, it's okay to stay up all the time, but waking up after sleeping in the middle of the night is too tortured.

"Brother Jin, it's time to have fun."

"Boring, can this miscellaneous fish also give you fighting spirit?"

"That's not true, but Brother Jin, don't you think that the other party thinks we don't know anything, and we pretend that we don't know anything, but in fact we know everything, and their expressions will be very interesting then?"

Seems to have thought of something very interesting, and a very weird smile appeared on the corner of Drake's mouth.

"I don't think so, but remember to control your mouth and don't go out and talk nonsense."

"Don't worry, don't worry, my mouth is the strictest, don't you know that?" *nOvelusb.com*

She knew what Jhin was referring to, and the people involved in this exercise also included Kikunojo and others. If she revealed the news in advance, the effect would not be good.

The biggest difference between them and those outside is that they still have loyalty to the blood of the Guangyue family.

"In the past, it was either fireworks or drinking. This time it's interesting. I hope they can come up with more tricks."

"You better hope that the people in Wano Country are not so useless. If this kind of rebellion can force you and me to take action, then they are too incompetent."

"That's right, but brother Jin, how do you pretend you don't know anything?"

"You don't have to pretend, it's enough to be restrained, go to duty if you have nothing to do, I still have things to do."

Jin still trusts Drake very much. This woman looks carefree, but she actually knows how to measure herself. Apart from the endless reincarnation on the road of borrowing and repaying money, she is very trustworthy.

If you think she is naive and try to get some words out of her mouth, you will definitely trap yourself in the end. So he just told Derek to hold back a little bit.

After that, he drew his own knife. This was his special order to evict guests. He no longer planned to listen to Drake's nonsense anymore.

Drake wisely left here, and Jhin also sharpened his blade.

"Waste, there is no value in existence."

Chapter 792 If Mita is still alive, the beginning of the assassination

If those rebels can force Jhin and Drake to take action, it means that the Xinxuan group is just a waste of food. They have consumed so much supplies but are useless at all, and Jhin will use his own methods to clean them up. Redundancy problem.

In the battle, it should be quite reasonable to accidentally cut crookedly. Unknown AOE hits the friendly army, which is also unavoidable.

Derek still flirts with Xiaojun every day as before, and pays off all his debts before the New Year comes. There is only one day left before the New Year season.

In the capital of flowers, many workers are busy, the eaves are hung with festive decorations, and the vendors are also confirming their own stalls. In the palace of the capital of flowers, Kozuki Hiyori is also preparing for the New Year festival. She's not interested in it herself.

"Master Hiyori, this is your itinerary for tomorrow, please confirm again."

A minister is kneeling in front of her. This is the minister in charge of etiquette in Wano. He has lived from the era of Kozuki Sukiyaki to the era of Kozuki Hiyori. It can be said that he is the elder of the three dynasties and has a very long life.

The content on the itinerary is very complicated. From early in the morning, there will be sacrificial activities, including the generals of the past dynasties and the legendary gods of the Wano country.

On the first day of the new year, these are even repeated again. The biggest difference is that the year-end greetings become new year greetings.

"No need, just look at the arrangement."

"Yes, the old minister has stepped back, take care of yourself."

While he was leaving, several maids also brought in new clothes, but in less than ten seconds, Hiyori's angry voice sounded inside.

"Didn't I say it! I hate this pattern! Why is there still this pattern!"

It seemed that he saw something disgusting, Kozuki Hiyori directly knocked over the tray with clothes on it, and at the same time came the

There is also the sound of broken porcelain.

Seeing her getting angry, no one below dared to answer, they just knelt on the ground and waited for her to finish.

Because they are used to it, in these years of life, Kozuki Hiyori has become a little irritable. One second was fine, and the next moment may become very irritable.

But she's not losing her mind, she's just breaking things.

If refuting will make her even more angry, silence is the best way to deal with it.

"Master Hiyori, calm down, she is new here, I will teach her a lesson later."

Kikunojo on the side made a smooth game, turning the matter around.

As the three retainers staying here, Kikunojo, Denjiro and Kawamatsu have slightly different ideas, but they are all obedient to Kozuki Hiyori.

Denjiro is because the other party is the daughter of Kozuki Oden. Just because of his status, he will choose to protect the safety of the other party, and Denjiro will do his best to do her orders.

This point is also common to Kikunojo and Kawamatsu, but they think more.

Due to the problem of inner cognition, Kikunojo thinks that he is a woman. From the perspective of women, he can understand Kozuki Hiyori better. The life of a puppet seems to be beautiful, but in fact it is not easy.

Even if she can travel abroad, she still has freedom in the Flower Capital, and she still has to go through Jhin's approval for major and minor matters. This kind of restriction and restraint makes people very uncomfortable.

As for He Song, apart from his obedience to the Kozuki family, he also has a sense of guilt.

"He Song, what's wrong?"

Looking at the slightly sad Kawamatsu, Denjiro couldn't help asking.

"Xiaosheng was thinking, if I had worked harder back then, and Mr. Hiyori hadn't been caught, would everything be different now?"

At the beginning, he was in charge of taking Kozuki Hiyori away, but he was caught by Elizabeth after being caught. Since then, every time he sees Hiyori unhappy, he will feel a sense of guilt in his heart, so it is also true for Kozuki Hiyori. most submissive.

Even if one thing goes against his wishes, he will not complain at all.[novelupdates.com](http://www.novelupdates.com)

"It's not your fault. It's actually the big snake's fault that things have come to this point."

"Um?"

"Although I don't admit that guy's lies, I think that even if Oda-sama is still alive, he might not be angry when he sees Wano Country today.

If it wasn't for the lies of Orochi, maybe Oden-sama and Beast would get along very well."

Oden's goal is to change Wano country and establish a country. Today's Wano country has achieved all of these. It has its own foreign trade and residents' lives are constantly improving. Although it is still far away from the complete founding of the country, it does not contradict with Oden's goal. .

Denjiro's mind is the most flexible. He sees these things and understands them in his heart, but he can't accept them, and he doesn't want to admit them.

“.”

"Forget it, it's been less than six years, let's believe in Master Shi's prophecy, He Song, and pretend I didn't say these things."

"Xiaosheng knows."

Years of life have given them a tacit understanding, selectively ignoring the topic just now, and they have also devoted themselves to the preparations for the New Year Festival, but this year's festival is destined to make them unforgettable.

Everything went well at the beginning, prayers, speeches, and parades, but when everyone started to revel, Kozuki Hiyori did not participate in the ceremony, but came to several graves.

Everything was blamed on Kuritan Orochi, and Kaido also recognized Kozuki Oden as a capable opponent, so he was buried here.

Fourteen years ago at the New Year's Festival, Kaido and Oden fought, so the New Year's Festival is also the anniversary of Kozuki Oden's death. Hiyori came here to pay homage to Kozuki Oden.

In the past, only a few of Oden's retainers and Shinobu would follow her here, but this year, there are a little more people here.

Those who planned the assassination finally chose to be here.

This is the result they obtained based on the analysis of Guangyue Rihe's action habits in the past few years. Here, Guangyue Rihe has the least number of people around him, and it is also the best time for them to do it.

The fireworks exploded in the sky, but Denjiro and the others had already pulled out their samurai swords, because at the same time as the fireworks exploded, several flames appeared in the city of flowers, and there were also noisy footsteps nearby.

"What are you going to do?!"

Denjiro and Kawamatsu kept Kozuki Hiyori behind them, and looked around vigilantly.

When they came, they found that there were a lot of people around here, but no one took it to heart, only as if they were also here to pay homage to Kozuki Oden, but when these people surrounded them with weapons and torches, even fools understood that something was wrong.

"We must awaken Wano's will to resist."

"Then what are you guys doing here?"

"If even the general obeys the beasts, how can outsiders continue to resist? We will use blood to reawaken the Wano country and start the reform of the Wano country again! Let the arrows go!"

Chapter 793 "Oden's Undead"

Guns are still under control in Wano Country. This thing is much more dangerous than bows and arrows. It doesn't require much training. With simple teaching, one person can use a gun to cause serious harm to others.

Moreover, these people are not good at using guns, so they simply chose bows and arrows. There are hundreds of scattered people here, and almost everyone carries a pair of bows and arrows.

"Protection Day and Your Excellency!"

Looking at the flying bow and arrow, Denjiro's eyes split open. When Kozuki was out, he was assassinated by Kurotan Orochi, and his thigh was pierced by the bow and arrow.

Denjiro has always been brooding about this incident, seeing a similar situation happen again, a wave of anger emerged from his heart.

The light of the sword swung towards the sky, Denjiro, Kawamatsu, and Kikunojo formed an impenetrable line of defense, knocking down all the arrows aimed at Hiyori.

"Are you guys crazy?! This is Hiyori-sama! It's Oden-sama's daughter, do you know what you're doing?!"

The few people present couldn't understand the thinking of these people. The Kozuki family's status in Wano Country is very special. The last time the Kozuki family was attacked by the locals, it had to be traced back to the rebellion of Kurotan Orochi's grandfather.

And it was for the position of the general. Denjiro has no idea what these people think about the current situation in Wano country.

In the crowd, he also saw a few acquaintances. In the past few years, these people were the seeds of resistance in his heart. He never thought that they would attack Kozuki Hiyori.

"Denjiro-sama, let's go and see the current Wano country. Except for us old people, teenagers don't even know who the general is! They don't know the meaning of the general!"

They go to the school run by Kaido, and they call Lord Ming. If this goes on, will anyone still be willing to resist? !

You guarding her is not protecting Guangyue at all! Instead, he is destroying Kozuki's hope. If this continues, when Momonosuke-sama comes back, will anyone still be willing to help him? !

We are getting old, and our descendants are unwilling to continue this path, so while we still have strength, we have to do something! "

Although this action has been planned for a long time, there is nothing of value. It is nothing more than taking advantage of the celebration of the New Year's Festival to make some noise in the capital of flowers to attract the attention of the Shinsengumi, and then they take the opportunity to deal with Kozuki Rihe started.

In addition, their target of action is Kojiro, the biggest "traitor" in their eyes.

The enemy is too strong, so you can only start with the traitors among your own people.

As for why he talked so much with Denjiro, it was because of the force of Denjiro and others. Although they had hundreds of times the number advantage, they were still a little apprehensive in the face of Kozuki Oden's retainers.

I thought that Guangyue Rihe would come here alone, but I didn't expect that none of the retainers would be here, and all of them were here. **NOVELUS8.COM**

"So you want to assassinate Hiyori-sama? Xiaosheng thinks that you might as well go to the gate of Onigashima and cut seppuku together. This will be more deterrent. I can come to be your intermediary."

Listening to what they said, Kawamatsu was even angrier than Denjiro, after all, he had been blaming himself all the time, and listening to these people's words, he only felt disgusted.

Actually, what He Song said is also reasonable, doing so can definitely achieve their goal, but judging by the appearance of these people, they don't have such courage.

Denjiro wanted to say something, but Hiyo pulled him away.

"Hiyo-sama, it's dangerous."

"It's okay, I want to ask you, if it was Momonosuke standing here instead of me, would you still do this?"

You guys are saying I don't have the spirit of resistance, so it's all my fault? ! Am I the one who brought the Beast Pirates to Wano Country? ! You want to resist so much, what were you doing back then? ! "

At that time she was still a child, when she understood what happened, Wano had already become a foregone conclusion, she had no ability to change these things.

Originally, she and Momonosuke's brother and sister had a good relationship, but these years, under the life of a puppet, this concept has also undergone certain changes.

Why is Momonosuke the one who left, and why is she the one who stayed.

Why do these people want to kill themselves, and the reason is that more people are willing to help Momonosuke.

She is the daughter of Kozuki Oden, and it stands to reason that she should have lived a life of rich clothes and good food, but Kozuki Oden's brain is not very good, and anyone can fool her. When the Beard Pirates.

The daimyo's daughter lives like a poor family. Except for Kozuki Oden, probably no one can do this. Apart from the lack of freedom, everything is top-notch in her current life. Sometimes she gets angry, just because of the "injustice" depressed.

Only those who belong to the puppet family can understand her feeling.

Now these people who want to assassinate her are even more unacceptable to her.

I didn't do anything, and it turned out to be a mistake to live.

"Being born in the general's family and experiencing these things again, there is no way to do it, but for Wano to return to its previous rule, your death is necessary. This is all for the future of Wano! Mingzhi!"

Faced with Guangyue Rihe's questioning, they did not give a strong excuse, but stubbornly believed that what they did was right. In a cry of giving up their names and wisdom, these people raised their weapons and rushed towards Guangyue Rihe .

"Xin Shinobu! Take Hiri and adults away!"

They are all from the Wano country, and they know very well that when a person shouts Sanametomo, any verbal persuasion will no longer work, and they can only be dealt with by force.

No matter what the purpose of these people is, as long as they want to hurt Hiyori, they are enemies. It's just that Kozuki Hiyori didn't want to just run away, but drew a short knife.

She is not powerless now, the person who sells and sings in Huajie every day is after all the blood of Yutian. After studying hard, she herself has some strength.

Just at the next moment, something that no one expected happened.

Bass! bass!

Two slashes came from behind Guangyue Rihe out of thin air, and flew straight into the crowd. The flying slash was so powerful that a large group of people who were charging just now fell down in an instant.

"Then that's Yan Mo! And Tian Yu Yu Zhan! It's the saber of Oden-sama!"

A person who participated in the assassination shouted in horror. At this time behind Guangyue Rihe, Yan Mo and Tian Yuyu, who had been transformed into single scabbards, had already come out of their sheaths, and the blades were shining coldly. out of them.

When Guangyue Rihe paid homage to Oden, he would always bring Yan Mo and Tian Yuyu Zhan with him, without exception, and they, which had been transformed into single scabbards long ago, also had their own consciousness.

This is on this occasion, they deal a serious mental blow to the enemy

"Miss Mita, is the soul of Mita-sama!"

Chapter 794 Killing and blackening

Gods and ghosts are legendary existences. Under the influence of the Arceus religion and the original national conditions of Wano, they firmly believe in the existence of gods.

Since they believe in gods, they also believe in ghosts.

The ghost slate has not yet returned to its place. Wano Country has not produced a large number of ghost-type Pokémon. Although Rotom itself also has ghost attributes, they were born based on the power of the lightning slate.

Those high-tech flying around are more similar to artificial intelligence, and no one would think of it in this regard.

And ghost-type Pokémon are severely polarized, some can't stand loneliness, and think of pranks every day. Rotom is an example, while others are very deep, and the lone scabbard is a representative.

For so many years, the two of them have been lying on the knife rack almost all the time, seldom moving, and only in the dead of night will they carry out their own "foraging", to eat the berries and Baofen that have been prepared, or from Wan Guo Purchasing soul.

Therefore, there have always been some haunted rumors in the capital of flowers.

It's just that not many people see this kind of thing, and it is usually regarded as a hallucination, but it is different now.

Here is Kozuki Oden's grave. Kozuki Oden's sword flies in the sky and cuts people. Leaving aside its power, its spiritual deterrent power is already full.

As a brand-new regional form of Pokémon, the two single scabbards retain the appearance of Yan Mo and Tian Yu Yu Zan, and even inherit part of the swordsmanship from the previous master Kozuki Oden. The flying slash just now is an example.

They can't exert the strength of Mitian when he was alive, but for these stronger ordinary people, it is still a massacre.

Pokémon has a gentle side, but it also has its own fierce side. Every year, a large number of people in the Alola area break their spines because of bear-wearing bears, and there are not a few people who are stung by agate jellyfish.

It's just that compared to them, Pokémon with ghost attributes tend to have a greater impact.

While everyone was in a daze, a ribbon suddenly extended from the end of Yan Mo's knife and wrapped around a person's wrist. Then the person became thinner and withered at a speed visible to the naked eye, almost turning into a skeleton.

Yan Mo is originally a demon sword, even if the user is not careful, he will be sucked up by it and die. Except for Kozuki Oden, Yan Mo once couldn't find a suitable user.

Incarnation of a single scabbard, it seems to have inherited Yan Mo's nature, much more ferocious than Tian Yu Yu Zhan.

After being transformed into a single scabbard, their master becomes Arceus. As the creator, Arceus' order is their vocation, and the order given to them by Arceus also includes the protection of the light, the moon, the sun and the sun. Safety this one.

So when they attacked Kozuki Hiyori, they were locked into the enemy by the single scabbard.

Yan Mo's one eye opened on the hilt of the knife, showing a satisfied look on it, it seems that it prefers the food of fear to the soul purchased from Wan Guo.

After the man was sucked dry, Yan Mo didn't let go of it, a strange energy overflowed from his body, manipulating the corpse to stand up, and rushed into the crowd like a zombie.

Compared to Yan Mo, Tian Yu Yu Zhan is much gentler, and the things he does are not so scary, but hovering around Guangyue Rihe, slashing twice from time to time, cleaning up the miscellaneous soldiers gathered together.

It is fulfilling its own mission, and Yan Mo has already started playing, without releasing any large-scale skills, just slashing.

Since the appearance of Yan Mo and Tian Yu Yu Zhan, these people who chanted their names and wisdom lost their organization, not because of how strong Yan Mo and Tian Yu Yu Zhan were, but Denjiro and others also crushed them in terms of force, but they dared to call She Mingzhi to rush up and fight each other.

Yan Mo and Tian Yu Yu Zhan directly broke their inner persistence. Even if they were assassinating Kozuki Hiyori, they firmly believed that they were for Wano Country and hoped that Wano Country could return to orthodoxy.

But the "Undead of Kozuki Oden" beat them to pieces. They didn't know what a single scabbard was. In their eyes, this was the expression of Oden's unwillingness to die, and he approved of his daughter's behavior.

The collapse of faith is often in an instant, and many people simply gave up resistance and stood there blankly, until Yan Mo cut their bodies, and then fell into the snow with confused eyes.

"Why! Why! Why the **** is this?!"

Distorted beliefs collided with cruel reality, and the leaders roared unwillingly, cheered up and rushed forward again.

"Go to hell! Go to hell, you woman!"

But that's only part of it.

"Sorry, we were wrong, we were wrong! We shouldn't be questioning this.."

"I don't want me to die here like this!"

People who run away in a hurry, people who kneel down and beg for forgiveness, all kinds of life are displayed in this group of people. novelupdates.com

In fact, let alone them, even Denjiro and Kozuki Hi and them couldn't figure out what was going on.

Especially Yan Mo and Tian Yu Yu Zhan were combined together, using the more powerful Mi Tian Er Dao Style.

As former Oden's retainers, they all learned swordsmanship from Kozuki Oden, and they can tell at a glance that it is Oden's skill, but the person who wields the sword is missing.

Those who are still fighting are constantly being harvested by Yan Mo and Tian Yuyu. He Song and others don't have to do it, because no one can cross the line of defense of the two swords.

Those who fought fell one by one, and after those who escaped ran a certain distance, Yan Mo and Tian Yu Yu Zhan did not continue to chase, but stopped in place.

"Ha ha ha ha."

Denjiro and the others were still hesitating how to deal with the next thing, but Kozuki Hiyori, who was protected by them, suddenly laughed, with a bit of desolation in the laughter, and gradually transformed into madness.

"Hey, if you are willing to listen to me, can you kill all those people? Except those kneeling ones, kill all of them."

"Master Rihe, they might just be bewitched, before."

"Denjiro, I'm not talking to you, I'm talking to Yan Mo and Tian Yu Yuzhan, let's call them that for now, I'm talking to these two."

Those people were also Oden's loyalists in the past. If they attacked Hiyori, Denjiro would of course regard them as enemies, and killed a few leaders without mercy, but he was a bit reluctant to kill them all. He felt that these people There is also the possibility of rescue.

He originally wanted to give these people a chance. According to the practice of beasts, these people will be thrown into the mining field to work for more than ten years at least, and the rest will be said when the prophecy is made.

But Kozuki Hiyori's tone made him feel very strange, she seemed to be a different person, no longer the Kozuki Hiyori he knew.

Chapter 795 The assassination of counter-effect

Yan Mo and Tian Yu Yu Zhan are using unique wave bands to communicate, and the orders they accept do not include obeying Kozuki Hiyori's instructions. Arceus just asks them to properly protect the safety of the target, and also allows others to use their bodies.

Theoretically, Kozuki Hiyori is now safe, but it is not too much to completely eliminate the danger. Yan Mo seems to have not played enough, leaving behind the corpse that was sucked dry by it, cutting through the night sky and slashing at the fleeing crowd. Yu Zhan stayed where he was, and lay back on the knife stand again.

People may do many unreasonable things when they are extremely angry, such as running thirty kilometers in one breath, strangling a black bear with a cross, and punching through a steel plate.

Of course, these things are not impossible in this world.

The assassination of these people also made Kozuki Hiyori into a state of extreme anger. She didn't believe that it was Kozuki Oden's undead. If there was such a thing, he should have appeared long ago instead of waiting until today.

She believed that this was some kind of method by the beasts. Her own people wanted to kill her, but the enemy wanted her to live. This ridiculous logic made her not know what to say.

Especially those people mentioned Momonosuke frequently. If it was at the beginning, she really wouldn't react so much.

At that time, she felt that it was a good thing for her brother to leave, it was better than staying here together, but after a long time, a kind of inequality would appear in her heart.

Especially those rebels who seem to think they want it, and in this case, using Momonosuke as an analogy just makes her more unbalanced.

In a sense, they succeeded. They killed a Kozuki Hiyori, but what they killed was a "good" Hiyori. On this basis, a brand new Kozuki Hiyori was born, a completely new Out of the selection of the sun and moon.

Yan Mo's massacre is still going on. As a demon sword, bathing in blood makes her stronger, while Kozuki Hiyori came in front of a person who was kneeling on the ground and begging for forgiveness.

Whether it's running or fighting, her choice is to kill, but she is merciful to these crying people, because in her opinion, the collapse of their inner beliefs is the most serious.

They can't forget what happened today, and the words they spread can further disintegrate the hearts of those who want to resist.

"You guys forced me."

As a puppet regime, it seems to have no worries about food and clothing, but in fact it also has a huge pressure.

Under such high pressure, her mental state was already tense, and now these people pushed her again at the last moment, acting as the last straw that broke the camel's back.

"Should we. Shall I take Mr. Rihe to see a doctor? I think she is not well."

Kikunojo whispered next to several people, anyone who looked at her like that would think it was abnormal.

Kikunojo expressed worry, Denjiro expressed worry, and Kawamatsu expressed pure anger, anger caused by inner self-blame. *NovElsb.com*

"I leave it to you, Xiaosheng has to do something."

He couldn't tolerate these rebels, so he turned his head and followed Yan Mo's pace.

"Oh, boring, is this the end?"

On the treetop not far away, Derek was watching a show with a telescope. He thought he could see some sideshows during the New Year Festival, but he didn't expect these rebels to be so weak, and they didn't stir up any waves. Completely destroyed here.

"This year is considered a successful end, who is better to start borrowing money next year?"

Taking out her little book, Drake began to look for new targets. Roentgen Cat's ability made her the most suitable for this environment. The clairvoyant eyes had already looked around, and there were no hidden enemies at all.

Relying on the abilities of Denjiro and Kikunojo, it is enough to deal with the next situation, not to mention that Amaba Hazaru is still staying with Kozuki Hiyori.

While on Ghost Island, Quinn is monitoring his own results.

At the New Year's Festival, he played the leading role without hesitation, and after the carnival on the island had completely started, he began to check Wano Country's defense mechanism and began to score the Shinsengumi team.

The rebels in the cemetery are only a part, and many others have caused turmoil in Wano.

"Well, the speed of the fifth team is very fast. The captain of the seventeenth team should be dismissed. It took 10 minutes to arrive at the scene. What's the use of them? It's not as effective as the dog raised by Kojiro."

It's also a small book, but Quinn's simple strokes determine whether these people are promoted or dismissed.

"Mhahaha, CP0, if you have the ability, let me see how you can escape my surveillance! Little ones! Are you ready to enjoy my graceful dance!"

Watching that all parts of the Wano Kingdom returned to stability, Quinn returned to the big stage of Onishima again. Today, there is no Tezoro, no Uta, and no An.

Although it was the New Year, they were busy with outside celebrations, so they really couldn't come here separately. Under such circumstances, Quinn completely controlled the stage and became the only protagonist.

Different from the carnival on Ghost Island, the festivities in the Capital of Flowers have been disrupted. A group of people were imprisoned in a temporary prison, and many were sent to the hospital for treatment.

Those people didn't kill people indiscriminately, but they set fire to cause commotion and also ignited a lot of gunpowder, but the resulting stampede also caused many people to be injured. Now the place has just settled down under the maintenance of the Shinsengumi, and many people still Didn't figure out exactly what was going on.

The Squirrels are busy putting out the fire, and Heigoro is leading people to help clean up the mess, but no matter who it is, they are full of resentment towards these people who set the fire, and the good New Year festival has been severely damaged because of these people.

Some relatives and friends were also injured because of this. On the other hand, the main target, Kozuki Hiyori was almost blackened, while the other target, Kojiro, was unscathed.

Several Commanders of Chop and Slash were wiping the blood on their arms with handkerchiefs. After Kojiro got their approval, he became the general they guarded. Small card.

The combination of Wind Speed Dog and Slash Commander solved all this without Kojiro's action.

The turmoil caused by these people lasted for less than an hour. Apart from destroying the atmosphere of the New Year Festival, it had almost no effect. On the contrary, it led to the blackening of Guangyue Rihe.

Originally, she was forced to act as a puppet regime, and she was still a little reluctant in her heart, but now, she has completely entered a state of failure.

The first government decree that needs a seal in the new year is about the turmoil last night. Kozuki Hiiori not only cooperated very well, but even gave some suggestions of his own.

Chapter 796 You can't afford to mess with a blackened woman

"Bastards, these bastards, do you have to make something happen today?"

Last night was destined to be a sleepless night. As the leader of the Shinsengumi, Hotei faced the biggest crisis since he took office.

The turmoil last night caused several stampede incidents in some blocks of the Flower City. Due to the timely rescue and the generally strong physical fitness of the people here, there were no victims, but there were countless injured.

In addition to the consequences of fire and gunpowder explosion, a series of problems made Bu Dai very overwhelmed.

"Where are the people, are they all arrested?"

"Should.. catch them all, Budai team leader, there are many people involved this time, and we don't know how many participants there were at that time."

Actually, not only Budai complained about this, but also the people in the Shinsengumi. From yesterday to now, these people have not been able to rest and have been dealing with these things.

Reminiscent of Koga Ninja's words earlier, Hotei suddenly felt that the other party was hinting at himself at that time, but he didn't understand the true meaning of it.

"Then pry their mouths open! Let them hand over all their accomplices!"

After getting angry with his subordinates, Budai came to Jin, and made a posture of being reprimanded.

"Good news, your position as the leader of the newly elected team has been preserved, and the higher-ups are quite satisfied with your work."

Jin's words made him heave a sigh of relief. As long as the current position is not lost, other questions can be accepted. It seems that it is meaningful for him to be strict with his subordinates.

But after changing hands, Jhin threw the list compiled by Quinn in front of him.

"How to deal with it, don't I need to teach you?"

"Yes, please leave it to me!"

Glancing at it, he saw that the few people who are usually idle are all on the list. He already understood that this is a promotion list, and the specifics of what to do had already been decided.

It's just that after Budai left, what happened didn't even occur to Jhin.

"Brother Jin, Kozuki Hiyori wants to see you, and seems to have something to discuss with you."

Dreck's head poked in from the door, reporting what just happened.

Nominally, the general's imperial appointment is a special position for the general, but in fact, the situation here is just the opposite, and Jhin is the one who actually holds power.

"Kozuki Hiyori?"

"Well, she seems to have some opinions on what happened last night, do you want to see her?"

In fact, the handling of this matter has long been settled. It is an old practice to kill the leader and drag the accomplice to mine. Guangyue Rihe wanted to raise his opinion, which really aroused Jin's curiosity.

"Let her wait, I'll go find her in a while."

This is her rare face that belongs to the general. When something happens, at least Jhin goes to her instead of her.

"Do you think this treatment is too light?"

"Yes, Your Excellency Jhin, this treatment won't have much effect. I have a better suggestion, and the citizens also need an explanation. This is a new notice I wrote. What do you think?"

After taking the document in Guangyue Rihe's hand, Jhin's expression under the mask became a little complicated.

The originally drafted notice was that mobs tried to assassinate the general, which caused turmoil, but Kozuki Rihe was more ruthless in this respect.

She repositioned those thugs, not just ordinary thugs and treason, but linked them with the rebellion of Heitan's family, and turned the simple opposition to her into opposition to Guangyue.

She is now the only Kozuki's bloodline in Wano Country, so naturally she has the final say, and her change like this will completely obliterate those people on the spiritual level. The country can no longer lift its head.

She is the first female general, opposing her will not cause too much disturbance, but when the level rises to the Guangyue clan, the result will be completely different.

"And I think this time is too short. Since these people have the strength to start a rebellion, they should dig mines for a lifetime, lest they still have the strength to make trouble."

She has no sympathy for those accomplices who want to kill her own people. As long as this announcement is sent out, it means that she has completely broken with this part of the group, but she has not cared about it since last night.

Jhin has no reason to veto this kind of suggestion, he just let Kozuki and himself figure it out, and he brought the situation here back to Onigashima.

They have the ability to kill those rebels in advance, but Arceus made the decision to exercise. It seems that the exercise has achieved good results, and even triggered some hidden conditions.

At this time, Kozuki Hiyori was making a public statement on last night's turmoil. While condolences to the wounded, he also strongly condemned those people's behavior, and nailed them to the pillar of shame in Wano Country just like Kurotan Orochi.

"Murder is cruel, and women are really ruthless when they are ruthless."

Simple death can't completely scare those who gave up their minds because of their names and wisdom, but Kozuki Hiyori's actions have strangled the hope in their hearts, and let them live in condemnation and infamy.

For this kind of people, this kind of life is even more painful than death, and they have successfully attracted the hatred of the people. People who experienced the turmoil last night are full of curses on them.

Even if it was Jhin, she sighed a little that she was ruthless enough. *NOVELUSB.COM*

"That's really true, those women are all lunatics when they are ruthless."

Reminiscent of his own experience, Quinn agreed with Jhin's words. After all, women such as Shaina and Setsuna have often caused him harm, and sometimes they are comparable to Kaido.

"But there are still exceptions, at least Ms. Yamato doesn't have this tendency."

"Then you'd better pray, you won't see that day by yourself, she is the daughter of Brother Kaido, she is really ruthless, hehe."

Patted Quinn on the shoulder, Jhin left here directly and returned to the palace of the Flower Capital.

"That's not right! Even if she is really ruthless, why does she want to practice with me!"

The belated Quinn roared towards the sky, and then returned to his laboratory. His flowers have already sprouted, which is a very good start.

The direct impact of this assassination is basically over, but the indirect impact is still continuing. The remaining people were imprisoned in the Rabbit Bowl mining field, including those who saw the killing scene of Yan Mo and Tian Yuyu.

Because the spirit was stimulated to a certain extent, their descriptions of that incident were also slightly different, but in the end they were all similar, and the word "Oden's undead" could not be avoided.

After going back and forth, some people's hearts are really shaken. If even Oden agrees with these things, it means that all of this is the best result. In addition, the domestic environment is getting better

and better, and this assassination has accelerated. The speed at which some stubborn people break down inside.

Chapter 797 Wano's Weird Regime, the Spade Pirates

"The Ghost of Oden" has gradually become a well-known supernatural event in Wano Country. Except for Kozuki Hiyori, the more people who are familiar with Oden, the more reasonable it is.

After Kozuki Oden ended his wonderful way of playing, the goal is to make Wano country better. Except that the country has not yet been completely established, everything in Wano country is countless times better than it was ten years ago.

Rational industrialization will not damage the environment, but can greatly improve people's livelihood, not to mention unscientific creatures like Pokémon, Wano Country has truly embarked on the path of green development.

After the New Year Festival, the time has come to 1517, and this can be said to be a critical time for Wano Country, because their general has changed since this year.

It is no longer the puppet who is only responsible for stamping, and will even offer some constructive opinions, but this opinion is not so friendly to those who still believe in prophecy.

Denjiro had hinted at Hiyori about this, but he got an answer that left him speechless.

【I don't want to be beaten into a criminal for no reason, and I don't want to be killed by someone for no reason】

At the same time, the traditions of Wano country have also changed. Unique customs have been formed in the closed environment, including the gods they believe in. The original religious development of Wano country has not become uniform.

Although those local gods are not as good as the emerging Pokémon, they are still "orthodox". It's just that this year, Kozuki Hiyori made a big change, and even the temple behind the general's palace was replaced with the statue of Arceus.

The assassination made her completely stand on the opposite side of the old-fashioned forces, and her rotten heart began to take revenge. Since they didn't want her to live, she didn't want them to feel at ease.

"Lord Holy Beast, look, there are more and more pilgrims."

At the top of the sky island above Wano Country, Arceus and Shaina are looking down at the top of Fujiyama here, and they can also see many people from Wano Country who are climbing the mountain.

Arceus came here just to observe the living environment of the Tanabata blue bird, but unexpectedly found some different changes.

"Your decision is indeed correct. Since the end of the New Year Festival, Kozuki Hiyori has changed from passive cooperation to active cooperation. Abel also said that he has saved a lot of worry recently."

There is no one's land around, and the only ones who can hear them talking are the Tanabata blue bird and the blue cotton bird, and Shaina doesn't care about those things.

"right."

Arceus had no comment on this. He originally wanted to do exercises, but the results were exaggerated. Originally, most of the pilgrims were young people, but following the general's words, some hesitant elderly people also began to change.

They were already entangled between reality and tradition. Now that the general has spoken, everything has a reasonable explanation. This is also the reason for maintaining a puppet regime. The general has too much influence on Wano.

Arceus is not some kind of devil, as long as he does not touch the bottom line, he is also a kind person who does not want to carry out that kind of **** cleanup.

Originally, Arceus thought it would take some time to complete this transformation, but he didn't expect it to be so much earlier. According to the information gathered by Jin, Kozuki Hiyori suggested redefining Wano's kingship system and creating a set of monarchy. God-given system.

It's just that it's too early to do this. The changes are already big enough, and many things have to be done little by little.

At this time, the Wano Kingdom has a very special regime. It is similar to a religious country, but religion is not the actual power holder.

"Shaina, tell Misu not to make such a big move. It doesn't make sense to make such a big noise in Wano country."

Misu must be involved in matters related to religion. Although she is a nun, what she does is almost the same as the Pope.

"Yes, I see."

In the past, Arceus didn't have any opinion on this matter. The suggestion he gave at this time made Shaina stunned for a while, but then she figured it out.

The significance of the existence of the Arceus religion is not to collect beliefs, but to allow more people to collect slates. After coming to Wano for so many years, it has long been determined that there are no other slates here.

Therefore, the benefits brought by major actions in Wano are not high. We should speed up the speed of missionary work in the outside world, and let believers search for more information on the slate, so that it is valuable to Arceus.

Misu also told her before that Tiger was also carrying out missionary activities during his travels, but it had no effect. Few people are willing to listen to the murlocs. She just had the idea of leaving Wano to go abroad. It seems that This can also be done in advance.

Pokémon are gradually breeding offspring, and the Millennium Dragon group also has some new cubs. In the sky, you can also see green onion ducks exercising. The huge green onion leaves are fixed behind them with ropes, and then they carry weight. flight. *NovEUSb.com*

If you hold a scallion in your hand, the weight will make them lose their balance, making them unable to fly. It looks like an ordinary scallion, but the scallion is so heavy that Xiao Zhi has to hold it with both hands, which shows its weight.

The giant blacksmith is fighting wits and courage with Commander Chop and Slash every day, good and bad stars are gnawing on the surrounding corals, carp kings are bumping in the sea, and cadres are also going to various sea areas to perform tasks. , will also do different things according to your preferences.

Time has not changed the nature of the sea, and it is still that turbulent era. A new year means a new beginning, and it also means encountering more pirates.

Time flies like a fleeting horse, and a few months pass by. Both the navy and the pirates have absorbed a lot of fresh blood.

In the Chambord Islands, another group of newcomers arrived in this sea area.

The brand-new pirate flag is flying on the flagpole. On the background of spades, there is a skull painted on it. The skull has two patterns with diametrically opposite expressions and the emblem of flames.

This year's supernova, Firefist Ace has completed the first half of his voyage, arriving at the outpost of the New World.

"Hey, Ace! It's almost time for Chambord!"

"Really? It's finally here, let's rush into the new world!"

Standing on the bow of the ship, Ace is full of confidence and full of endless expectations for the future, but before he can further shout out his goal, the crew has already poured cold water on him.

"Don't even think about it. Entering the new world requires coating and passing through the Murloc Island. We will have to delay it for at least three days."

It was Skaar who spoke, a pirate enthusiast and skeleton peripheral collector who claimed to be a collector. Skaar has made great contributions to the fact that the Spades Pirates have been able to reach here on various ships.

During the day, a child moved the background of my computer. If I see weird replies or some comments disappear, it's not me

A man wearing a skull mask is telling Ace and others what to pay attention to before entering the new world. A dozen people plus a lynx form the current Spade Pirates. Small pirate group, but also brought together all kinds of interesting people.

Scale is such a strange creature, wearing a skull mask and various skull patterns on his body.

He is a collector of skeleton peripherals, and he was not originally a pirate.

It's just that in this era of great pirates, he is so obsessed with the group of pirates that he always sneaks into various pirate ships.

The pirates are not fools in those words. Skaar is often found, but luck has always been good. Not all pirates have persecution delusions like Quinn, and they are investigating unknown people every day.

They often catch some people to do odd jobs on the ship, and sometimes they directly absorb them into their subordinates. It is also his ability to survive smoothly. Through this way, he has reached one port after another, and has a rich understanding of the world. understanding.

Most of the pirates seem to think that he is just a good-for-nothing, useless except for miscellaneous work, only Ace doesn't think so, and finally he joins the Spades Pirates, aiming at the world's number one intelligence officer, Officially became a pirate.

"Are you going to be delayed for three days? I don't know if the food here is good or not."

Ace, who was still sad one second, said a slightly strange remark the next moment, but the Spades Pirates didn't find it strange, but got used to it.

There is a regular port on the Chambord Islands, but it has nothing to do with the Spades Pirates. They are pirates after all. At this time, Skaar is telling the crew to pay attention.

After all, there are mixed fish and dragons here. If the navy, bounty hunters, or colleagues with unscrupulous intentions target them, they may not care about the coating.

"Navy and bounty hunters, world nobles and human traffickers... There are too many things that can cause trouble here. Before the coating is completed, please don't cause trouble for me, especially you, please, Ace boss."

Finally, Skaar's eyes stayed on Ace, and he solemnly ordered that although Ace looked dignified, the focus was not on him at all. Now he is more concerned about whether the great bun is good or not.

"Teacher, I will leave the boat to you."

The crew members are preparing to leave the ship one after another. The teacher is called Michal. He doesn't like to go out and stays on the ship most of the time. He was originally a teacher, but gradually there are no children in the teaching place. Only he has been standing there.

Dreaming to go across the ocean, to be with the children in the world who cannot receive education, because only Ace has supported his dream for so many years, so he stepped out of his original comfort zone and joined the Spade Pirates.

Scarl is still worried about Ace, but he has no chance.

"The voyage is hard, and it is also the captain's duty to comfort the crew. Leave the work of finding food to me!"

As he spoke, Ace jumped off the side of the boat and headed straight for the Chambord Islands without stopping.

Looking at Ace going away, only the remaining crew members looked at each other in blank dismay. In the blink of an eye, he had disappeared into the mangrove forest.

The captain went to collect food for the crew, and as the deputy captain, Deuss started a serious job. This is his pseudonym. He was originally a second-generation nobleman and a medical student in a country. own new life.

While looking for a coating craftsman, they found an old man with white hair.

"Are you the captain?"

"No, I'm not, I'm just an agent. The captain was hooked by the scent as soon as he landed." *NovE1USB.cOm*

"Hahaha, no matter what era, captains are casual people."

"Yeah, some people will talk about fate and force people to become pirates. Uncle, are you also a pirate?"

"It happened a long time ago. I got on the boat for some insignificant reasons, and it took such a long journey. I think I will get along well with you in the future. Do you need coating? I can give you a discount."

"Really, thank you so much. What's your name, uncle? I can't keep calling you that."

"Just call me Rayleigh."

Duss was on the sidelines finalizing the issue of the ship's coating. At this time, he didn't realize who this seemingly ordinary uncle in front of him was. He was never good at intelligence work.

On the other side, not surprisingly, Ace encountered some troubles.

"Eat a king's meal! Stop!"

"Stop him! That kid is running over there!"

The staff of several shops are united and are chasing down some people who don't pay for meals, and in front, the figure of Ace is running away.

It's not that he didn't want to give money, but that he didn't bring a wallet when he went out, and he ended up like this, and the people who followed him the most were a few people with fruit patterns on their clothes.

"Hey, I'll give you the money! Just wait until I find the wallet!"

"Come on! This is the Chambord Islands! Where can we find you if you run away!"

The escaping Ace and the chasing waiter became a unique landscape and attracted many people's attention.

"Sister Iska, it looks like our people are in front, do you want to help them?"

At the entrance of the senbei shop, Iska was purchasing a large number of great senbei as souvenirs. Every cadre who passed by Chambord had this habit of buying whatever he wanted to go home.

As NO.7 today, Iska also has her own ship and exclusive team. This time she came to Chambord to perform some religious missions. The person who asked her was Lamy.

Due to the recent series of adjustments of the Arceus religion, some religious personnel have also begun to go out. Lamy is an example.

The overall strength is average, but few people can hurt her. Alola Smelly Mud's body is an alternative natural system, and ordinary physical attacks can't hurt her at all.

Those with fruit patterns on their chests are naturally employees of Beast Fruit, and only they can be among the top "debt collectors".

"Go and see, wait, that guy fell asleep?!"

At this time, Ace was blocked in a dead corner surrounded by layers, but the next situation was unbelievable. After he was surrounded on a park bench, he fell asleep directly.

This sleep made the debt collection employees confused. They had seen many people of all kinds on the Shampoo ground, and it was the first time that they were so weird.

Finally, the crew who rushed over rescued him. His crew found Ace's wallet on the deck and guessed what was going to happen.

Amidst the apologies from the crew, the clerks took the money and left there, and Iska led his people to the slums of Chambord

Chapter 799 Inheritance of the tradition of beasts, the true **** in the field of microorganisms

The Chambord Islands are the only way for the pirates to go to the new world. Even legal groups must come here first if they want to pass through the Red Earth Continent, because the offices of the world government are also located here.

Seven air routes intersect. It stands to reason that this is a very prosperous place. In fact, it is indeed the case. The economy here is highly developed, and a large number of tourists come here every year.

But such places also have slums. As the darkness at the foot of the bustling, everything here seems out of place, but it conforms to the characteristics of the Chambord Islands.

World government offices, naval bases, illegal areas, human trafficking, it is hard to believe that these institutions can be on the same island.

Sometimes it is just a wall, but they are two completely different worlds.

The reason why they come to the slums is also very simple, to attract manpower and expand believers.

Compared with people living in affluence, people in slums are more likely to have hope. Although they have experienced despair, they have more vigilance against the world, but as long as they can have faith, their faith is also the most loyal.

"Move everything here, move faster!"

The composition of the Beasts Pirates is very complicated. Under the rules of Arceus, it is much more difficult to join the pirates. Those who can accept the rules of the group are assigned to different units according to their personalities after joining.

And when a person is promoted to a single-digit cadre, he is eligible to select manpower according to his own preferences and form his own direct fleet. These are the manpower selected by Iska.

The cadres have different preferences. Jack only cares about strength, Mandelfish pays more attention to family status and prefers to recruit people with families, Drake purely looks at the edge, and Iska only looks at the bottom line of this person.

The pirates under her are the most orderly and kindest group of people. In other words, these people are more like explorers.

At this time, they are like a relief organization, bringing supplies to the slums here, and the first step when they come here is to fight first.

Even if it is a slum, it is full of oppression. Local snakes rely on their fists to deter weaker people, exploit them, and live a good life in this bottom society.

"Get out of the way, out of the way!"

"What are you doing? Is it rewarding to hit an old man? Let's try?"

The kindness of these people is relative. There are not many who can't fight when sailing on this sea, and the people who originally ruled this block were driven out in two or three strokes.

They were always bullying and fearing the tough. Facing someone stronger than themselves, they simply chose to run away to find the backer behind them. If they want to gain a foothold in Chambord, they must either have extremely strong influence or be able to gain a relationship with other people.

Of course, backed by the banner of beasts, Iska and the others are not afraid of retaliation afterwards.

"Ramy, I leave it to you to organize. You are better at this than me."

"Okay, leave it to me."

Lamy is also 18 years old this year. Apart from the color of her hair, her face has also grown. She looks almost like the girlish Luo. As a religious person of Arceus, her mission is to spread religion, and Iska gathers school-age children.

This is also the consistent style of Beasts. At first their core members came from all over the world, but in recent years, the grassroots cadres are almost orphans raised by themselves. They may not be strong enough, but they are loyal enough and more trustworthy.

Olga was doing this before, and she didn't mind doing this kind of thing on the way, but she didn't want to make a special trip every once in a while, so she had already handed it over to Iska. I like children.

"Grandpa, can you show me your leg? Your wound should be quite serious." *NovE1USB.cOm*

Lami walked up to the person who had just been beaten, but he did not show a relaxed expression, and still looked at Lamy vigilantly. The composition of the slums here is very complicated.

Encountered a shipwreck and drifted here, was abducted and escaped successfully, and then was trapped here, or during the trip, their relatives were unfortunately killed by Tianlong people or pirates, and finally stayed here.

Many people have closed their hearts. Even if they are given food and medicine, they will not easily trust each other.

Because it is a slum, no one cares about their life and death, and those slave traders often visit here.

"Look, I'm just an ordinary girl, I just want to help you deal with the wound."

As he spoke, he opened the medicine box that he carried with him, revealing the scalpel and gauze inside, but the strange thing was that there were no other medicines in it.

Because of his appearance, the old man relaxed his vigilance, and lifted off the broken clothes little by little, revealing the pus-flowing wound underneath.

"A doctor showed me a few days ago, and he said that the only way to save my life is amputation."

Some well-meaning people still pass by here occasionally, but he didn't accept this treatment method. Here, losing a leg is no different from death.

"Don't be afraid, grandpa, it can be handled."

As he said that, Lamy put his hand on it, and it turned into colored poisonous mud to cover the wound.

She is an ability user of Alola Smelly Mud, but her application of ability is not only poisonous, there are countless viruses and bacteria in Alola Stinky Mud, these viruses and bacteria can be combined into deadly toxins, and they can also Can kill other viruses and bacteria.

Through continuous training of his own abilities and the intake of external knowledge, Lamy gradually learned to control different microorganisms in his body.

And this ability is still under development. Even Quinn has not studied clearly how many permutations and combinations of microorganisms in Alola's smelly mud can be.

Before she used her abilities to clean up the monastery, but now she is cleaning up the harmful substances in the wounded body.

In the field of microorganisms, she is the "god".

All this is based on her understanding of medicine. Misu has taught her many things, but she is most interested in medicine. She doesn't understand why, but she has a sense of intimacy when learning similar knowledge.

Under her control, the microbes in the smelly mud turned into special nano-robots, and after combining, they successfully killed the germs. This is why she never brings medicines. She will make the special medicines she needs according to the situation.

In a few minutes, she had already accomplished her goal, and then used her ability to complete anesthesia, cut off the carrion and re-sutured the wound.

"It's alright, it'll be fine after a few days of recuperation, don't move this piece of gauze, I've treated it specially, it won't make the wound inflamed."

"Thank you"

"You are welcome, this is the Lord's will. The glory of the Lord is expanding. Believe in the Lord, and you will be able to stay away from pain and torment."

As a trainee nun, Lamy started her first foreign mission. Judging from the light in the old man's eyes, the effect should be very good.

With the help of the old man, a local, Lamy began to promote the ideas of Arceus, and helped other people heal their bodies, and at the same time attracted more people to listen to the teachings she preached.

Iska is looking for children who are not deeply involved in the world, and uses food to win their favor. Some adults even directly "sold" their children to her when they saw this.

And all this was seen by Ace and Deus who passed by here.

"Deuss, isn't that a human trafficker?"

Chapter 800 Ace and Deus

Not long ago, Diuss found the coating craftsman and brought it back to the Spatil. The coating took at least three days, but this does not mean that the coating craftsman has to work continuously for three days.

Just repeat a process several times within three days and wait for the processed resin to change.

Later, it was discovered that Ace lost his wallet and was being chased by merchants on the island. In order to avoid more troubles, everyone in the Spades Pirates asked Dius to be optimistic about Ace.

【Boss Dius, please don't let Boss Ace cause any trouble. 】

Scale's words are still echoing in Deus's mind, but it's not easy to be optimistic about Ace.

This is an unreliable captain who can fall asleep after eating, and is very free in his heart.

After the Overlord Meal incident, Ace came to Soap Bubble Paradise. This is a simple way to distinguish the nature of pirates. Pirates who are inclined to adventurer groups have a strong interest in Soap Bubble Paradise after arriving at Chambord Islands. .

The purer pirates usually hang out in lawless areas, and gradually intersect with the undercurrent here.

It's just that Ace came here because he saw his interest in the Ferris wheel from Deus's eyes. In the end, the two of them got on the pod of the Ferris wheel and reached the apex with the rotation of the mechanical gears. .

The pods made of soap bubbles reflect the colorful light, overlooking the Chambord Islands from a height, and you can see the special beauty.

"What a big unicorn."

"Oh, that's the one. My younger brother has one. Those unicorns are very smart."

Deuss also saw a Heracross that flashed by, which also gave Ace a new topic. Every time he talked about his younger brother, he could always talk for a long time.

Ace was talking about the past, while Deus was writing and drawing in his notebook, recording what he had seen and heard along the way, and writing his own articles.

【A big tree. super island

Floating soap bubbles. Can you take me, who can only speak super powerful words, to a distant place?

I, like duckweed without roots for thousands of years, can I live on the roots of that tree? Of course I can! YES Shampoo! 】

"Don't read it out!"

"What does it matter, you wrote it all anyway!"

Listening to Ace reading out what he had written, and suppressing his own smile, Deuss felt a little embarrassed and hurriedly closed his notebook.

After playing around for a while, Ace started his foraging journey again. During this process, he also met some bounty hunters and pirates. No one knew who he was in the new world at this time, but in the Chambord Islands, As a supernova, he still has a certain reputation.*NovE!USB.cOm*

Either they want to use him to make a name for themselves, or they want to exchange him for a bounty, but no matter what the purpose is, they are defeated by Ace.

"Really, aren't these guys annoying?"

"After all, you are also a celebrity, and the name of Fire Fist Ace can be considered. Hey! Brat, put this thing down!"

In the previous battle, they put down the packages on their bodies, and what Ace was carrying was naturally all kinds of food.

And now Deus saw a few children rummaging through the inside. After being discovered, they ignored Deus's shouts, but picked up the things and turned around and ran away. In the process of escaping, they even tore open the package Put it in your mouth.

They are members of the slums, and it is not easy to survive in the slums of Chambord.

It's okay to have parents or adults. People like them can only find ways to be self-reliant.

It is impossible to live on the charity of others. Helping others with work and acting as a tour guide are more reasonable means.

Some people choose to join local gangs, and under the ravages of life, they gradually change from being oppressed to oppressing others.

Participating in a gang means participating in a battle. Many people are unwilling to take that risk, but this does not mean that they will abide by the law that does not exist in this kind of place.

When survival becomes difficult, reason becomes irrelevant. Stealing, fishing in troubled waters, they will seize every opportunity to survive.

The conflicts on the Chambord Islands are happening all the time, and this is their best chance.

While Ace and Deus were fighting, they stole a lot of food. Deus is now also a member of the pirates, so naturally he would not watch the other party do this, but Ace stopped him.

"Deuce, forget it."

"Huh? Ace, those brats stole our stuff."

"The feeling of being hungry is very uncomfortable. It's just a little food. Let's go and follow up."

Ace didn't look unhappy, but picked up the food and followed him. Seeing his movements, Deus shook his head helplessly, and he had already guessed what he wanted to do.

Those children were very familiar with the terrain of Chambord, and quickly disappeared into the crowd under the cover of the mangroves, but this did not throw off Ace and the others, and the two still followed them leisurely until they reached the The location of the slums just stopped.

Different from the lively Center Street, there is a gloomy atmosphere here. Garbage was scattered everywhere, and as far as the eye could see were dilapidated buildings that looked like ruins.

Seeing outsiders coming here, people on the street hid one after another. Ace even saw the children who had just stolen his food, watching them secretly in the shadow of the house.

He didn't scold the other party, but distributed the bought food to them. After a while, the hungry people still couldn't hold back the temptation and came out one by one.

"Don't steal things next time, luck is not always so good."

Ace patted a child on the head, but he didn't respond, bowed to Ace and left here.

"He can't talk."

"ah?"

"He and I escaped together. Those people thought he was too noisy and cut off his tongue."

The people who were still here explained to Ace on behalf of the children who left, and then Ace asked curiously: "Are there not many people here?"

"No, it's just that a group of people came over the street today. They distributed food for free and even treated people."

"Isn't this great? Why don't you guys go?"

"Those people said that as long as they follow them, there will always be food in the future. They are taught to read, and only those fools and brats will believe it."

What he was talking about was naturally Iska's group. They didn't go because they doubted the other party's purpose. After getting closer, Ace realized that these people were already half-grown boys, and long-term malnutrition made him mistake them. Recognized as a child.

Ace also wanted to give them some money to improve their lives, but they were all rejected.

As for why they don't want money, that kind of thing is meaningless to them, taking money will only bring danger to themselves, and the food they eat is the most valuable thing.
