

Arceus 901

Chapter 901 Inverse Scale

Shortly after the mysterious meeting between Kaido and Red Hair, Tezolo naturally became the subject of the conversation again, in addition to the Navy's key security.

It was also at this time that they discovered that Baishou Fruit has become a special enterprise that cannot be dismissed. If this company is forcibly sanctioned, what will happen to Baishou Fruit? big.

The reduction of taxes, a large number of unemployed employees, and even the influence of public opinion caused by Tezolo's own star status will be a big trouble.

This is not just the impact of an ordinary pirate group. For the world government, a pirate is never a threat, even the so-called emperor of the sea.

In their view, only those who shake the foundation of the world government can be considered a crisis, and the current beasts have already shown signs of touching the bottom line in this regard.

Tezolo's words made them not know what to say.

【I'm just a money bag, have you ever seen a money bag that can hold a gun? Not to mention that this purse is not mine. 】

The mainstream policy of the world government is to allow these pirates to divert the conflicts of the people and pursue the so-called "balance". If the beasts can be more obedient and do less work, they are not even willing to intervene in the affairs of the beasts.

However, there will be big disturbances every three days and two ends of the beasts. Since Kaido raided the G1 branch, the disturbances have become bigger and bigger.

As long as the benefits are sufficient, the tolerance of the world government is still very high. Morgans violated orders twice a day, exposing the scandal of the world government is still alive and well.

On the one hand, he will indeed hide, and on the other hand, the world government has not made up its mind to deal with him. The advantages brought by the World Economic News Agency still outweigh the disadvantages.

The world government has no intention of going to war now, but wants to weaken the beasts, so a new plan has been proposed-instigating against Tezolo.

Tezolo behaves differently from the pirates of Beasts. Since his debut, he has either performed on stage as a star or engaged in various businesses, and he has no wanted arrests.

If you can instigate him, you will get not only huge profits, but also many benefits such as secret information about beasts.

A secret operation against Tezolo was gradually launched. While they were still preparing, the two fast dragons sent by Guidao had already arrived at the new headquarters of Beast Fruit.

Arceus is very clear about what Tezolo cares about, money, fame and fortune, these are all foreign things to him, the only thing he cares about is Stella, as long as Stella has no problems, Tezolo will keep this A state of loyalty.

He is a person who has experienced the power of Arceus, and he knows that there is a true **** hidden in the beasts, so it is an act to make the best use of Kuailong's part-time bodyguard when acting as a courier.

Kailong is not the only Pokémon that can be a courier. The reason why Kuailong is chosen is because Kuailong's own powerful power can handle more situations.

Originally, the cat boss Stella raised was a special bodyguard, but as time went by, this cat boss's force has been slightly insufficient. It is good at dealing with ordinary thieves, but it is still not good at dealing with professional CP agents. Makes sense.

Tezolo's home, there are two new guests on the table - Kuailong.

It is not a strange thing for Pokémon to be served on the table. For those who have enough fetters, they are part of the family, can understand human language, and have human emotions. For such people, Pokémon is just an appearance Just different humans.

In a sense, Xanadu and the like even have a more special side.

"Is this the new bodyguard Mr. Arceus said? This is too cute."

Looking at Kuailong's appearance, Tezolo couldn't help being a little dazed. Arceus said that he was naturally happy that he had added two new Pokémon to him, but Kuailong's appearance was really not deterrent.

"This is not very good, how cute is the roundness."

"It's fine if you like it. Sir Arceus' words will definitely not lie, but you should reduce your travel recently. The guys from the world government don't know what they are thinking, and their behavior is a bit strange."

"It's the same for you, be careful yourself, if you have to push something, just push it."

"Don't worry, I have a measure, those people won't do anything openly, and I'm not afraid of them in private."

If it is Tezolo's home court, as long as it is not a general-level enemy, he will not be afraid, even a general can touch it.

Although losing his home court will make him weak, not everyone can deal with him.

If you observe carefully, you will find that Tezolo has recently changed his style of dressing, and the number of gold accessories on his body has increased significantly.

The action of the world government was still very fast. When Tezolo returned to his work place again, he noticed that there was an extra person in the room.

"Sneaking in sneakily, is this your style?"

Tezolo closed the door behind him, and looked at the masked man in white.

"CP0, I don't think I have anything worthy of your dispatch."

"Gilder Tezzolo, you are a smart man, I will not talk nonsense, this is the opportunity given to you by the higher authorities.

Pirates are pirates after all, and there is no future in working for them. "

"You are not a way to attract people, how can this be attractive?"

"ah?"

"You have to give me some visible benefits. Painting cakes is useless. What do you think you can give me? But before you draw conclusions, you'd better think carefully about whether you can afford the price. "

“ ”

Tezolo's words made this CP0 fall into silence. Recruiters have to give enough benefits, which they naturally know. The problem is, as Tezolo said, his status is a bit high, and they may not be able to afford it. price.

But it doesn't matter, CP0 organizations have always been unscrupulous in doing things. In addition to sweet dates, they still have a big stick in their hands.

"Tezolo, you'd better not forget your identity in Chambord. We can let you lose some things at any time. It's a good thing to make money, but you have to spend your life. Don't forget, you also have Someone you cherish."**noVelUsB.cOM**

Using relatives to threaten others is also a common method of CP0. In order to make some people serve the Tianlong people honestly, CP0 often uses their family members as bargaining chips.

"If you cooperate, you will get more benefits, and your family can maintain their current bright status"

Before he finished speaking, he suddenly felt a murderous aura. Tezolo was staring at him at this moment, and that aura was definitely not what a star or businessman should have.

"I hate it when people use this kind of thing to... threaten me."

Chapter 902 You will experience a brand new way of dying

Tezolo, who has experienced despair, knows how to cherish the present. Stella is his reverse scale, which is his weakness. Anyone who wants to start from this aspect will usher in his crazy revenge.

He worked hard for Beast Fruit because Yamato helped him when he was most helpless, and gave him a ladder to climb up, and continued to give corresponding rewards in the following time.

While giving and receiving rewards at the same time, he can also see his own future. Of course, he will not be a 25-year-old boy, especially in the face of this threat, he will not choose to compromise.

There are only zero or countless compromises. He loves Stella, but once he compromises with other forces because of this kind of thing, he puts his weakness on the table.

Not only will this not make Stella safer, but it will put her in a more dangerous situation.

No matter what he was coerced to do, it was a very bad start. Under the expansion of desire, those people will continue to coerce him to do more dangerous things.

"You bastard. You are really brave."

The gold ornaments on Tezolo's body began to melt gradually, and he was already thinking about how to deal with the CP0 in front of him. This is a signal, and his attitude is likely to affect the follow-up world government's course of action.

Since the world government has not ushered in by force, it means that they have not planned to turn the table yet.

Tezolo believes that the CP0 in front of him is just a temptation. If he acts weak, the world government will inevitably intensify his efforts in the next step and make policies that are even more unfavorable to him.

Only if they are strong enough, can they adjust their policies while taking into account the situation in the sea and the attitude of the Tianlong people.

After thinking for a while, those gradually melting gold ornaments returned to their original appearance. Tezolo didn't intend to expose this trump card, so he decided to change the method.

Bass!

Tezolo's fingertips shone coldly, and there was also a cross-shaped dent on the ground.

"The reaction was good, I actually avoided it."

"Tezolo, do you know what you're doing?"

"What stupid things are you talking about? Of course I know what I'm doing. I'm very interested in your life now."

"Asshole, you are declaring war on the World Government!"

"No, no, no, don't think too highly of yourself, unless I kill you directly in the live broadcast in public, otherwise that won't happen."

Listening to CP0, Tezolo was very comfortable. The World Government's attitude towards CP0 has always been to use it as a tool. If this tool doesn't work as expected, the World Government won't mind switching to a new set of tools.

Relying on the relationship with the Tianlong people, he can be sure that even for the world government, his value is much higher than that of a CP0, and they will never turn their faces directly because of this incident.**nOVELuSB.COM**

After all, this is only a private occasion, and it will not have too bad an impact at all.

"People like you don't know what CP0 stands for?"

"I think you have been brainwashed too much, so you can't understand your status. You might as well guess, if I agree to join the world government, and the condition is your life, will they agree?"

To put it bluntly, in the eyes of Tianlong people, whether it is you or me, they are just their dogs. When two dogs bite each other hard and only one can be saved, they will of course choose the one they like more. one.

To put it mildly, you and I are both pawns, but my value is far greater than yours. "

The blue compound eyes replaced the original pupils, and his arms turned into huge needles. Tezolo waved the bee needles in his hand and attacked CP0 in front of him.

This CP0 originally thought that Tezolo had a little ability to protect himself, but after the fight, he realized how wrong his cognition was. This guy is not like a businessman at all.

Two bee stings dance like tigers and tigers, and his powerful domineering is not comparable to him who has been trained by the world government since he was a child and has performed many tasks. After he narrowly escaped Tezolo's fatal blow, But he found that a gold ring was put on his neck.

"Although I have never liked you agents, you are definitely the one I hate the most. Since you want to please your master, then you have to pay the price."

Under the influence of Tezolo's ability, the gold ring began to shrink, and the CP0 was enveloped by a strong sense of suffocation in an instant. When he was struggling to break the hard golden ring, Tezolo The side kick sent him into the wall.

"The physical fitness is quite strong, I hope your luck is as good."

Tezolo did not kill him directly, but found Bacara after confirming that he had lost consciousness, and he did not intend to kill him himself.

"Bacara, your ability should be fine, right?"

"Yes, but this is the first time it will be used on a living person."

"It doesn't matter, just try your best. I will arrange for a backup. If this doesn't work, I have to change the method."

"Yes, I will try my best."

Bacara squatted down and put her palm on the forehead of that CP0, and it took more than ten minutes before she took it away.

As an ability user of Lucky Fruit, her fruit has little intuitive increase in combat, but this kind of fruit that is biased towards rules is often more unsolvable.

Except for a few powerhouses who can be immune to the ability of this kind of fruit with their own arrogance, everyone else has nothing to do with it.

Bakala's ability can deprive others of their luck, and there is a unique way of dying called - unlucky death.

Being crushed to death by a coconut while traveling on the beach, sitting in the room but encountering a dump truck crashing into the house, and the top general who was shot down by his own anti-aircraft gun while inspecting the battlefield, the deaths of these unlucky ghosts are amazing and unexpected. .

Some people can't die if they fall from the empty island, some people can't die when they fall on the stairs, some people can't die while grabbing a bomb, and some strong people will die from the explosion for no reason. These people's luck is hard to use. To describe it, it can only be said that it lacks camp buffs.

This is also Baccarat's in-depth development of Lucky Fruit. As long as the degree of extraction is increased, she can affect a person's next encounter. This is a terrifying ability that even Usopp will fall into.

After that, Tezolo put the CP0 in a sack and threw it out. After he woke up, he thought that Tezolo was finally persuaded and didn't dare to kill him.

Just when he was going to report to his boss, he found that the phone bug was broken for some reason, and his teammates also lost contact.

Because it was a phone bug from the CP organization, ordinary phone bugs couldn't get in at all, so he had to go to a nearby safe house, but as soon as he entered, the safe house caught fire and almost burned him to death inside.

Intending to take a boat back to the Red Earth Continent, the ship hit a rock and sank on the way. He managed to **** a pirate ship, but when he was about to reach his destination, a magma fist that gradually grew in size appeared in his vision.

Chapter 903 Top "Assassination" and "Drek Balance"

Martial law is in place near Mary Joa, and any unidentified ships approaching will be directly sunk. This CP0 snatched a pirate ship. Although he wisely changed the flag, he was still attacked.

He didn't know why, the phone bugs near him would break down somehow, and even one phone bug died in his hands.

The flagpole would inexplicably break when he was playing the semaphore, and he would encounter sea fog inexplicably when using sign language. When he wanted to abandon the ship and land quickly, he was attacked by Akainu.

The order he received was to destroy any suspicious ships and protect the absolute safety of Marie Gioia, so in the face of this CP0, his actions completely complied with the order.

"Mr. Tezolo, that guy is dead. I don't know the cause of death."

The luck of the lucky fruit is borrowed, although it can be consumed, but before the luck is exhausted, if the original owner of the luck dies, then the luck borrowed by Baccarat will also disappear.

She did not use the luck looted from the body of that CP0, but the stored luck suddenly disappeared. There is only one result, that is, the lucky provider is dead.

Lucky fruit is a strange fruit that abides by the principle of conservation at a certain level. Some people are lucky, and others will be unlucky. Now that the unlucky people are gone, luck will naturally leave.

She has made similar attempts before, but this is the first time that such a large range has occurred. This kind of death-level bad luck cannot be achieved by a simple touch. She needs a long time of contact to complete this matter.

The application value in actual combat is not high, but in assassination, this ability is first-class and easy to use.

The death of that CP0 confused the follow-up investigations of the world government. You said that this matter had nothing to do with Tezolo, they didn't believe it, but it was Akainu who finally caused his death, and the follow-up investigators did not find any clues .

If you have to give a reason, it is unlucky. They can't imagine that a person can be so unlucky.

If Tezolo really did this, they all want to invite Tezolo to guide them. This is simply the most perfect assassination.

Even senior CP0 dare not say that he can do this without loopholes.

No one knows what happened to Tezolo. The CP0 who was also performing the mission beside Stella also disappeared abruptly, and it was the two fast dragons who did it.

According to the follow-up reaction, Tezolo was very angry, which made the world government slightly adjust the follow-up policy to prepare for future changes.

Recently, the sea is very uneasy, and many new pirates have emerged in the four seas, and the situation in the new world has become more and more strange.

According to the information of naval intelligence personnel, shortly after the meeting between Kaido and Red Hair, Red Hair seemed to try to contact Whitebeard, and they suspected that those sea emperors were planning some huge conspiracy.

In fact, not only the navy, but even Charlotte Lingling was a little confused. What these three men did seemed to exclude her completely.

The changes in the outside world did not affect the headquarters of the Four Emperors.

Whitebeard's hometown is still peaceful, Charlotte Lingling has not suffered from food cravings recently, and there have been no riots on Cake Island. Redhead holds banquets every day and protects a lot of old, weak, sick and disabled Pirates.

And the changes in Hezhi are not small. For example, Jhin and Drake are gradually taking over other tasks.

With the change of Kozuki Hi and mentality, the positions of Drake and Jin have gradually become a little redundant. Today's Flower City Palace is enough for a Koga ninja frog.

Jhin hasn't appeared here for a while, which is a good thing for Kozuki Hiyori. Back then, Jhin had terrified Kozuki Hiyori a lot, and that mask was synonymous with horror for her.

Derek didn't go out much, but was still waiting for his courier.

"Thank you, I will treat you to something when you are free."

After receiving the courier box sent by Kuailong, Derek instinctively made a promise of a treat, and added an extra entry to his account book.

Her account book is very special. Most people's account books only record their past debts, but she is different. Drake usually directly writes the person who intends to borrow, which can be called an alternative advance payment method.

Since Kuailong Post was popularized in Beasts, Drake's package has been called the best among Beasts. The exclusive black card with unlimited credit has helped her a lot, at least it has nourished her life a lot.

And this time the package contains a lot of camping supplies, and she plans to go out for a vacation recently.

As a senior debtor, Derek rarely asks for leave, because she consumes every time she is free. If she takes too much time off, it may cause her balance of borrowing and repaying in turn to be broken. This situation was found last time. The slate was only relieved after a huge bonus was awarded.

Although she is not a person who can save money, she is relatively rich recently, so she just plans to grab Xiaojun and go out to have fun.

"Master Hiyori, I will leave Wano Country for a while, please take care of your health."novELu&b.coM

In the palace of the Flower City, Kikunojo is saying goodbye to Kozuki Hiyori. This is the original agreement. Drake will take care of Kozuki Hiyori who climbed the holy mountain for him, and he also paid some conditions, but Derek Grams have not been cashed out and are intended to be used where appropriate.

Recently, she planned to take a good vacation and take a rest while she didn't have a new task arrangement, which just happened to use up the favor that Kikunojo owed her. For her, this was also an opportunity to enhance her relationship.

When two people go out to play alone, they can always meet something interesting.

"Go, there is no need to report this kind of trivial matter to me."

Kozuki Rihe, who was in a "bad" state, didn't care about this, but just enjoyed the convenience brought by his status as a general.

"Oh, by the way, here are some things I've sorted out. If you want to go out and play, just take a look for me."

After thinking about it, Kozuki Hiyori handed Kikunojo a book similar to a travel guide. With the change of her mentality, Baishou gradually released her authority, and she also learned more about the outside world. Including some famous tourist islands.

These are the places she wants to go in her plan, but she is the general of Wano country after all. Even if the beasts are not imprisoning her, it is not so easy to want to travel freely. When I heard that Kikunojo is going out, I just let him experience it .

"Yes! Thank you for your concern, I will pay attention to these places."

He still has loyalty to Guangyue in his bones. In his opinion, this special travel guide can already be regarded as a "gift from the lord".

After packing his bags, he was dragged away from Wano Country by Derek, and started a special trip for the two of them.

Chapter 904 The source of funds, the darkness from erosion

From an individual point of view, the trip between Drake and Kikunojo is quite convenient. Drake is just a carefree personality, more masculine than a man, but there is no problem with gender recognition, and he wears ordinary women's clothes.

Kikunojo has a different cognition. He has always felt that he is a woman, wears the same women's clothes, and his living habits are also close to women's. This makes them only need to visit women's clothing stores when they go out.

It is also a problem caused by psychological cognition. In Denjiro's view, even if Kikunojo compromises, he is taking advantage of himself, but from Kikunojo's cognition, it is a girlfriend who has a problematic orientation and is not a girlfriend. Difficult to accept.

Kozuki Oden has been dead for 18 years. During the long time of getting along, Kikunojo's perception of Drake has also changed to a certain extent, but he only regards him as a friend who can talk, and there is still a long way to go. .

"Hey, you guys better give me your hands and be honest."

"Ah, it's broken, it's going to be broken, let go!"

Drake and Kikunojo were on a cruise ship at this time. Originally, Kikunojo was watching the sunset on the deck, but suddenly there was a loud voice behind him.

At this moment Drake is stepping on a man and twisting his arm into a strange shape.

"Correct you, it's not about breaking it, but it's already broken. If you can't control your hand, you have to pay the price."

With a squeak, the man's arm completely went limp, and it looked like it had become a comminuted fracture, and he also passed out directly due to the severe pain.

The woman in front of her was so violent that she completely frightened the people nearby.

"Miss Derek, shouldn't it.. let him go?"

"Huh? Aju, you are always so soft-hearted. This guy deserves his own fault. Who made him want to make a fool of himself."

"But he has passed out"

It was also at this time that the guards on the boat ran over, looking at the unconscious man on the ground, a little at a loss.

"Sir Will Will! What did you two women do to Sir Will?!"

A man who looked like a butler also appeared in the crowd, and when he saw the fallen man, he immediately exclaimed.

"Sir? This guy is actually a Sir? Then your kingdom really sucks."

"What are you talking about? Guards! Where are the guards? Quickly arrest the man who hurt Sir Will!"

There are many different people on this cruise ship, and some people also bring a large number of guards during the cruise. This Sir named Will is one of them.

Looking at the surrounding soldiers, Kikunojo pulled Radrek's arm. He was not worried about Drake's safety, but was afraid that Drake would kill all the people around him if he got angry.

Just now, Drake's behavior reminded him that although she has a generous side, her profession is a pirate.

But Kikunojo didn't understand Drake's behavior. Not only did she not do anything, she also made a gesture of surrender and asked the other party what to do.

"Miss Drake, what do you want to do."

"What to do? Of course it's for fun. It's rare to come out for a trip. Of course, you have to enjoy life."

Under the care of the doctor on board, Sir Will slowly woke up. When his steward whispered something to him, he also made his own answer.

"Losing money! How dare you hurt me so badly, medical expenses, mental damage expenses, don't think about it without 10 million Baileys! If you can't afford it, you and your friends will be honest."

As a person who was playing tricks on the boat, his purpose was very clear. The so-called loss of money was just an excuse, but he didn't expect that Drake had already pulled out a wad of banknotes and threw it in front of him.

In order to have a good time, she brought enough Bailey, and 10 million is not difficult for her.

"Ten million is only a part, these are not enough!"

He seemed to think that Derek was afraid of his guards, so he started raising prices on the spot, asking for higher and higher amounts, and Derek never refuted.

More and more people gathered to watch the excitement, and some even helped Sir Will to boo there. Seeing the smile on Will's face became more and more rampant, Drake also made plans to close the net.

bump!

A gunshot made the deck fall silent. Looking at the smoking barrel in Drake's hand, some people had a bad premonition in their hearts.

"Will's subordinates stand on the right, those who just made a fuss stand on the left, and those who watched the excitement quickly get out, start now, robbery!"

Originally, Drake was worried that the funds for the trip were not enough, and Will was just a cash machine delivered to her door, and it was just an entertainment for her to play with the mouse.

"Are you kidding, does a woman still want to learn from those pirates?"

The guards and soldiers around did not compromise, but surrounded Drake, but in the next moment, they flew back at a faster speed.

"I'm not learning, I'm a pirate, or should I change my clothes?"

Derek removed the wig on top of her head, and then lost the coat she was wearing, revealing the pattern of the pirate flag on her back. Only then did the people on the boat recognize who she was.

Beast Pirates - Thunder Lion - Francis Drake

Bounty - 500 million Belly

Will was so arrogant just now, and now he was so scared. After his belongings were swept away, Drake broke his other arm, and then took Kikunojo to leave the cruise ship in a lifeboat.

If it wasn't for her not wanting to be too vicious, it wouldn't be just a simple matter of two arms.

With Will's "friendly funding", Drake received a large sum of money, and then continued to embark on his own journey.

Through Kozuki Hiyori's reference, they soon came to the first half of the great route, and met a special person on a summer island.

"Come out, follow all the way, what do you want to do?"

"Thieves hahahaha, did you find out? She is really a sharp woman. I am recruiting now, and I think you are not bad, and you look good. Do you have any idea of joining Lao Tzu's pirate group? The woman next to you You can also go with me." *nOveluSb.cOm*

A middle-aged man with a rough appearance, thick hair, and a burly figure appeared on the street.

Three pistols and rum bottles are stuffed around his waist, and he wears all kinds of accessories. This man is no stranger to Derek, or the pirates in the New World are familiar with him.

Blackbeard-Marshall D. Teach, the man who betrayed Whitebeard, the previous bounty offered by the Whitebeard Pirates made him famous in the New World.

Since Roger's death, he is the first pirate to violate the iron law of Whitebeard.

Chapter 905 Blackbeard's Solicitation

Facing Whitebeard's pursuit, Blackbeard successfully escaped from the new world, and began to recruit soldiers to form his own pirate group.

As an ambitious man, he has been lurking in the Whitebeard Pirates for decades, and bet his youth on this ship. It was not until the appearance of the Dark Fruit that he revealed his ambition.

In order to achieve his goals, a team of his own is essential, so when he fled, he was looking for subordinates worth recruiting.

Lafitte, Van Oka, Gizas Badgers, and Poison Q were the initial team he recruited along the way.

Although his ambition was evident at this time, his goal was not Qiwuhai.

Now that the Straw Hat has just arrived at the Whiskey Peak, Qiwuhai has a full staff, and he has no chance to add it.

Without special circumstances, the world government will not easily replace the candidate of Qibuhai, otherwise it is slapping itself in the face. It is not easy to win the seat of Qibuhai by defeating another Qibukai.

So Blackbeard has not raised the idea of capturing a qualified bounty criminal and handing it over to the world government in exchange for Shichibukai's position. He is really recruiting Drake.

As an ambitious man, he needs a lot of manpower if he wants to achieve his goals. High-quality cadres are what he urgently needs, and he is even similar to Lockes in this regard.

It doesn't matter what purpose his subordinates have, as long as he is willing to join him, he dares to take it. Although such a pirate group has no cohesive force, it can gather a large amount of combat power in a short period of time.

As for Whitebeard's shocking fruit, he can endure for decades to obtain the dark fruit, and he doesn't care about waiting for a few more years to find a more suitable opportunity. At this time, he has no intention of confronting Whitebeard head-on, otherwise he wouldn't Choose to escape from the new world.

Recruiting Drake was a whim, and he didn't expect to meet the cadres of the Great Pirates of the New World here.

The well-known cadres under the Four Emperors are all strong men, so they naturally belong to the target range of Blackbeard's recruiting. Although the overall appearance of the Blackbeard Pirates is extremely low, Blackbeard's own aesthetics is still normal.

Whether it is Drake or Kikunojo, for him, they are above the aesthetic line.
novELu8b.coM

The scar on Derek's face did not destroy his own beauty, and Kikunojo himself did not say it, no one would have thought that this was a man, even if they saw it, they might not be able to accept this fact.

"Recruit me? You are really brave enough. No wonder you dare to kill your companions on Whitebeard's boat. It seems that you don't think this flag is scary either."

Drake didn't mean to threaten the opponent with the banner of beasts. Since this guy dared to kill another Whitebeard captain on Whitebeard's main ship, it showed that this guy didn't have the respect of ordinary pirates for the emperor of the sea.

Just provoking different sea emperors one after another, reminding Derek of the warrior a few years ago. Although no one remembers his name, the feat has been passed down to this day.

"The times are advancing, this is a new era, this sea needs new blood, those old guys should have ended!"

"It sounds like you're looking for death. I'm not interested at all, and you're so ugly. I refuse to work with a guy like you."

If someone talked to her like this before she joined Beasts, it could still arouse Drake's interest. If the captain was more handsome, she wouldn't mind fighting with him.

She doesn't mind joining others, and she doesn't mind whether the new captain is a good guy or a villain. As long as she sees the past and has something worth following, she will make her own choice.

The end of prosperity will eventually be lonely, but Drake can enjoy the pleasure of enjoying this kind of loneliness.

Forge ahead, overcome, loot, and prosper.

Loves money but doesn't take it, and spends the money in her hands. This is her way of life and the reason for her eternal moonlight family.

Powerful enemies are terrifying, but defeating them is also a pleasure. You may die if you fail, but such a death is also a perfect ending.

Of course, apart from the wrong time, appearance is also a big problem.

She is a face control, and the black beard's face blocked the possibility of a relationship between the two.

"Hahaha, Captain, she said you were ugly."

"If you think about it carefully, there seems to be no problem?"

Badgers and Lafitte did not refute Drake for Blackbeard, and seemed to agree with this, which also made Blackbeard reprimand them loudly:

"Enough of you guys! Forgot who is your captain?!"

After shutting up his men, he looked at Drake again.

"It's a pity, I don't like this character, it seems that we have no fate."

"Not necessarily. I remember that Whitebeard's reward price for you is quite high. It just so happens that I owe a lot of money recently. It would be a good choice to exchange money with you."

"You woman is really irritable. I came to recruit you with sincerity and good intentions, but you actually want my life?"

"Does your solicitation mean pointing a gun at someone's head in the dark?"

While speaking, a ball made of lightning appeared in Drake's hand, and then he threw it towards the house beside him. At the same time, a gunshot was heard from a distance.

The moment she found Blackbeard, she used her ability. Under the effect of the clairvoyant eyes, she could see everything around her clearly, including Fan Oka who was lurking in the distance.

She didn't despise this guy who dared to do something on the Whitebeard's boat, and never felt that the guy was just out to chat.

Boom!

A house was blown up to the sky under Drake's attack, and a figure jumped out of it. After rolling around in embarrassment a few times, he raised his gun and aimed at Drake again.

"It's quite accurate, I feel your sincerity."

Although he dodged, the hair rope at the back of Drake's head was still cut by the bullet, his long pink hair was scattered behind him, and his lion-like appearance had already taken over his original face.

"Thief hahaha, it really is a keen reaction. Since you refuse to recruit, then I have no choice but to accept other things. I will accept the ability of the Phantom Beast!"

From the moment he found Drake, he didn't want her to leave, either to let her join him, or to plunder the other party's abilities, so he let Van Oka hide in the distance.

He has always done things unscrupulously, and it is not unusual to be prepared with both hands, but Van Oka in the distance was directly discovered by Drake, which was something he did not expect.

It is right that people with ordinary knowledge and knowledge can't perceive it. He also attributed all this to Drake's own ability, and at the same time he became more interested in the other party's ability.

Chapter 906 The power of darkness, the conceit of Blackbeard

As the times change, or the version is updated, different strong people have completely different views on being strong.

Kaido loves the powerful abilities of animals, but also values domineering power, while Blackbeard is obsessed with powerful fruit abilities.

Before the birth of the strange abilities attributed to the "blood factor" of the beasts, the phantom beasts have always been known as devil fruits that are rarer than the natural ones. Also extremely powerful.

The pursuit of various powerful abilities is also one of the reasons why Blackbeard is eager to obtain the dark fruit. With the ability of the dark fruit, he can plunder the abilities of other capable people. After the person who breaks the ability dies, the fruit will be reborn in a random place rule.

If the recruitment fails, he will attack Drake's ability, which is what he planned.

"There are five in total, Xiaoju! Ready to fight!"

Kikunojo looks like a woman, but his own combat power is still strong enough. After all, he is an NPC in the later stage dungeon. He is proficient in two-color domineering and swordsmanship, and is more than enough to deal with ordinary enemies.

Drake didn't worry about him dragging himself down when he brought him out. Kikunojo's combat power is enough to become a cadre even if it is the pirate group of the new world.

"I know."

These people are not his former partners, so Kikunojo will naturally not be reluctant. For him, Drake can still be called a friend, while Blackbeard and his party are the purest enemies.

"For disturbing my trip, you guys pay me the price, let me teach you how to greet politely!"

Zila Zila

Drake's fingertips were surrounded by electricity, and the bright electric light blinded other people's eyes even in the daytime. With five fingers slightly opened, Drake waved his palm at the black beard in front of him.

Click! Click!

Thunderstorm in the daytime, several dark clouds gathered in the sky, with the wave of Derek's palm, the thunder and lightning also roared, several electric currents fell from the sky, and struck towards the members of the Blackbeard Pirates.

"Get out of the way!"

The thunder that fell from the sky forced them to scatter into the distance. Badgers, Van Oka and others were alright. There were not many thunder and lightning attacking them. Although they were embarrassed, they could still dodge.

Blackbeard, who was the main target, was not so lucky. A dense lightning network usually surrounded him. After he dodged the first two lightning bolts, the subsequent lightning bolts hit him directly.

"Ah! It hurts, **** it, it hurts!"

Boom!

"Pain! Pain!"

The black beard who was struck by lightning wailed in pain, without a trace of the dignity of a strong man, just rolled on the ground in such a state of embarrassment, and yelled in pain crazily, it seemed that this would reduce the pain in his body.

His reaction was that he was dumbfounded by Drake. Few of the pirates who fought in the new world dared to say that they had never been injured. exception.

In the process of growing up, her arms were broken several times. Although it was Kaido who hurt her the most from the beginning to the end, this does not change the fact that she has suffered a lot of injuries.

Derek is sure that even if the kids from Onijima were injured during training, they wouldn't behave in such a mess.

How did such a guy have the courage to challenge Whitebeard's bottom line?

"I have a very low impression of you, but now it's directly negative. Why is a guy like you talking nonsense?"

"You all go away, you can't deal with this woman now!"

Pushing away the subordinates around him, Blackbeard gasped and climbed up again. He screamed terribly just now, but he didn't look injured, except that there were some scorched black marks.

Just now, Badgers and others tried to help him up, but the power of Drake's lightning was still there. When these people who had also been struck by lightning approached, it caused strong static electricity, causing secondary damage to Blackbeard.

"Aha. Ha. No way, this is the price. Although the dark fruit is a natural type, it is different from other natural types. Not only can it not elementalize to evade attacks, but it will absorb all attacks. *NovelUsb.com*

Whether it's a sword, a bullet, or your lightning, the damage they cause will be absorbed by me. Correspondingly, the pain I suffer is twice as much as others. "

"That's it, no wonder you don't seem to be hurt, but your habit is to talk nonsense with the enemy?"

"Thief hahaha, this is my sincerity.

The No.4 of Beast Pirates is really strong enough, your ability is very good, do you really want to join Lao Tzu? You can reserve one position as a senior cadre of the Blackbeard Pirates. "

Until this time, Blackbeard still had the idea of recruiting Drake, but Drake still had no interest in it.

"I've said it all, I don't call you at all, it's more practical to exchange money with Whitebeard.

Double the pain, and only a lunatic like you has this kind of masochistic tendency, right?"

"Unfortunately, you can't kill me, and this strange fruit is the most brutal ability in history!"

Darkness gushes out from Blackbeard's body. Under the action of the darkness, the attack caused by Drake's attack is disappearing at a speed visible to the naked eye, and the darkness is still spreading around.

"Run! The captain is going to mess up!"

Watching the darkness in Blackbeard begin to spread, Badgers and others began to flee to the distance, and they had to carry away the poisonous Q and his horse who looked like he was about to die of illness.

"Xiaoju, you also stay away, this guy is a bit dangerous."

The roentgen cat gave Derek a powerful sense of intuition. At this moment, the hairs on her back stood up, and her body was sending out an early warning.

"Be careful."

Kikunojo knew very well that Drake was much stronger than himself, so in order not to hinder Drake, he set his target on other members of the Blackbeard Pirates to prevent them from making trouble behind their backs.

As for the residents who originally lived here, they have already fled since the beginning of the battle, and they are watching the situation here from a distance.

Blackbeard didn't care about other people, he had full confidence in his ability, and he was showing off his ability at this time.

"Thief hahaha, the so-called darkness is gravity, the power that attracts and devours everything, the infinite gravity that does not let go of a ray of light! Your thunder and lightning can't escape the engulfment of darkness either! Dark cave!"

The darkness shrouded everything around like a river, and the boundless darkness formed a swamp of greed. Trees, rocks, houses, metal, everything was twisted and broken, and then disappeared into the darkness of Blackbeard, leaving only A piece of bare land.

"This is the dark gravity, a powerful ability in exchange for pain."

The darkness spread to the sky, and the things absorbed by Blackbeard also formed a big ball, suspended above Drake, looking like it would fall down at any time.

Chapter 907 Your abilities are useless to me!

"Do you like explaining your abilities to others so much?"

Drake felt a strong sense of superiority from Blackbeard's tone. This feeling made her feel familiar. The same was true of Quinn in the past. When he had a new invention and showed it off in front of everyone, it was like this kind of tone.

"No, no, this is of course a special case. I said that you are worthy of my recruitment. Come and become my partner. Isn't the status of a major cadre much better than a No. 4? If you want to, the deputy captain is not impossible ."

Blackbeard does not know how to popularize his abilities with everyone. He is showing off his capital to attract others to join him. As for the last sentence of the vice-captain, Blackbeard already means something else.

He also knows that attracting others cannot be done with a single sentence, so he will show his ability and prove that he has the potential to stand at the top of the world.

"Don't look at me with that disgusting look, no matter how much nonsense you talk, I have no interest in you."

Drake didn't care about the sphere of ruins above his head, but used his own speed to start approaching Blackbeard, and the ruins in the sky also smashed towards Drake under the control of Blackbeard, but that slow attack could not even hit Drake. I can't even touch the sides.

The ruins of the house and rocks and other objects hit the ground and stirred up a lot of smoke and dust, but Drake's clairvoyance made her completely ignore the obstruction of the smoke and dust, and the deadly cold light flashed on the sharp claws and grabbed Blackbeard.

This claw firmly grasped Blackbeard's abdomen, but the touch felt very strange, neither as hard as the defense provided by the armed color, nor as soft as an ordinary abdomen.

This is enough to disembowel a person like a mud cow into the sea, but it did not achieve the desired effect of Drake.

Seeing that Blackbeard began to roll on the ground in pain again, Drake didn't stop like before, but waved his tail and released countless star-like energy blocks to hit Blackbeard.

"Dark Water!"

Under the attack of the high-speed stars, Blackbeard endured the pain and stretched out his right hand. The darkness condensed in his palm, absorbing all the high-speed stars released by Drake.

"It's useless, the other thing my dark gravity can absorb is the ability of the devil fruit! Natural, superhuman, animal, no matter what kind of fruit the ability user will be restrained by me! You should also feel it?"

Blackbeard increased the strength of the dark water in his hand, trying to **** Drake in front of him, but although Drake's body shook a few times, he was not sucked in at all as Blackbeard expected.

"Strange, how could this happen."

Gravity is part of the expressive power of the dark fruit, whether it is capable or not, it will be affected by the gravitational force produced by the dark fruit, the previous houses and stones are evidence. *NovelUsb.com*

But because of the devil fruit in the body, the capable person will feel powerless when facing Blackbeard, and it is easier to be sucked by him.

But Drake is a pure Pokémon capable user, and there is no such thing as a devil fruit in his body.

The dark fruit can absorb her attacks, but it can't have other effects on her body. What she faces is pure gravity, which can be completely resisted by relying on her body.

"Thief hahaha, you are really strong, you can actually compete with an ability that I am not familiar with."

Blackbeard thinks all of this is because his ability is not proficient enough. He is not willing to believe that what he has pursued for many years will be ineffective for those with abilities, so either he is not proficient in the use of abilities, or it is Derek's. Physically too strong.

Afterwards, Blackbeard still maintained the release of the dark water, and came to Drake at a completely different speed from before, and directly grabbed her shoulder.

"Caught by me, right? This time is the real power of the dark fruit. As long as it is touched by me, no matter what ability user it is, it will lose its ability.

No matter how powerful the fruit ability is, it is useless to me!

You should feel it this time, your ability is no longer available..."

Blackbeard seemed to sense something was wrong, and Drake, who was caught by him, was still in the transformation state of the animal system.

You must know that the dark fruit has the same effect as sea water and sea stone on other capable users. The natural system cannot be elementalized, and the superhuman system cannot use its own abilities. This is the special feature of the dark fruit.

Theoretically, when he catches Drake, she should be untransformed.

"I underestimated your skill, but if I return that sentence to you just now, your ability is useless to me!"

Blackbeard's reaction speed was beyond Derek's expectations. There is no weak hand-to-hand combat among the cadres of beasts. Being able to successfully capture Drake already shows that he and Blackbeard have a certain foundation in physical skills. The body is not as bad as she imagined.

It was just his purpose, but it was completely shattered by the "power of God".

Facing a non-devil fruit capable user, his fruit nemesis ability would naturally fail, and the next moment, he was forced to let go of Drake.

"Let me loose your dirty hands!"

Because of being close to the body, Drake directly activated the Crazy Volt, and the powerful electric current wrapped his whole body.

The double painful side effect of the dark fruit brought Blackbeard greater pain, and the powerful electric current gave Blackbeard a pair of "black wrists".

Moreover, Drake also took advantage of the opportunity to transform into a beast form. The change of form and the attack of the electric current forced Blackbeard to let go of his hand, and then a raging fire burned on Drake's sharp teeth, and the fiery flaming teeth bit directly at him. Blackbeard's neck.

Although biting with her teeth is a bit indecent, if she can kill the enemy, she doesn't care about it.

"Liberation!"

Blackbeard raised his other arm, and a large number of stones and trees flew out from the darkness in his palm. This is what he sucked in with the dark acupuncture point before. Since he didn't discard all of it, he can release it again through this method. .

After forcing Derek back, Blackbeard's face has lost its original calmness.

"Impossible! The dark fruit is the most ferocious ability in history, and it is the nemesis of all ability users! How could you ignore the power of the dark fruit?! This is impossible!"

"Oh, this kind of problem, when you go to hell, someone will tell you."

Conceit and recklessness, this is Blackbeard's huge weakness. When he thinks he has an advantage, he will appear extremely arrogant. For example, he just showed off his ability to Drake because he thinks he can directly manipulate Drake. .

Derek is different. She is not interested in being a battlefield commentator. If you want to know what she is capable of, you can only slowly explore it in battle.

Chapter 908 Heterogeneous

After accidentally seeing the Devil Fruit Illustration, Blackbeard developed a special plan in his heart. For this reason, he gave up his dignity and begged Whitebeard to let him board the ship.

Because in his opinion at the time, only by boarding Whitebeard's boat can he increase the possibility of obtaining the dark fruit.

Hiding his ambition for decades, he finally achieved his goal, but at this moment, an ability user ignored his dark gravity, and ignored the dark fruit's ability to suppress other fruits.

Before Drake was able to resist gravity, Blackbeard could still attribute it to his lack of proficiency in abilities, but it is wrong that she can still use her abilities after contact.

To use an analogy, the previous situation is equivalent to that he ate the rubber fruit, but he has not yet turned into Nika, which is not surprising.*nOveLuSb.com*

But now he couldn't even obtain the most basic rubber body, which was something Blackbeard couldn't accept.

If he hadn't tested his abilities on other capable users during the previous escape, he would have suspected that his decades of lurking would have been in vain.

"Is there something different about Phantom Beasts or is it not an ability at all. Thief hahaha, I am more interested in your ability, and it is still too late to join me now."

Even with this appearance, Blackbeard still did not give up on recruiting Drake.

The same is true in the battle between him and Ace in the original timeline. Before Ace was defeated, he still sent out his own solicitation to Ace, wanting to make Ace, a powerful combat force, his partner.

At this point, Blackbeard also has his own self-confidence, thinking that no matter what kind of person he is, he can eventually convince him.

"Thunder teeth protruding!"

Drake no longer wanted to continue communicating with the egomaniac in front of her. The thunderbolt formed her new claw blade. After the violent thunderbolt condensed into a solid body, it also became extremely sharp. The sharp thunder spear pierced Blackbeard's chest. .

Puff!

The thunder spear pierced Blackbeard's fat body, and with the roar of thunder, Blackbeard screamed again, but while screaming, he also punched Drake.

嘭!

Derek's figure flew upside down, and took several steps back after landing to stabilize his figure.

"This guy's fist is a bit troublesome."

Kneaded the position of the ribs, even the animal-like body made her feel pain under this blow, and there seemed to be quite terrifying power hidden in the seemingly funny body.

"Dark Water!"

Blackbeard reached out to hold the lightning that pierced his body. Under the influence of the darkness, Drake's attack was gradually absorbed by the darkness. Except for the sweat on his forehead, Blackbeard didn't leave any trace of injury.

This is also the ability of the dark fruit. It doubles the pain felt by the user, but it does not double the effect of the attack. Instead, it can absorb the damage so that it will not affect the user's body.

"It's useless, even if your ability is so special, your attack will still be swallowed by the darkness in the end, Lao Tzu's ability is invincible!"

Blackbeard would rather believe that Drake is special because of the Phantom Beast, or that this is the product of other forces, and he is unwilling to accept that there is a problem with his ability.

"Heh, the prejudice of the frog in the bottom of the well is always funny. If you can continue, just show me everything!"

The light began to gather around Drake's mouth, and the destruction of the death light was rapidly forming. Like holding, this is a standard skill for most cadres, and the stronger the person, the faster the speed of condensing and destroying the death light, and the stiffness afterwards shorter.

At this time, Kaido and Yamato's use of destructive death light is instantaneous, and they will not be frozen. Drake is almost there, but it only takes a few seconds to prepare for the attack.

"No matter how many times it is used, it is useless, whether it is light or thunder, darkness is the final destination!"

Blackbeard confidently stretched out his right hand. His ability to devour darkness is so strong that it can almost absorb most of the attacks.

Boom!

Boom!

Lightning alternates with darkness, and the battle between Blackbeard and Drake gradually intensifies, which is also accompanied by Blackbeard's screams, but although he has been deflated, his body has not suffered fatal injuries.

Most of the attacks were resolved by the ability of the dark fruit, and the game of physical skills did not let Drake take advantage. Blackbeard's body is very special. It is reported that this guy never sleeps, and he has more than twice the size of other people. time to do other things.

Many old people in the Whitebeard Pirates know that he is such a different kind, and the outsider who first discovered this characteristic should be Bucky.

At the beginning, he swore to Shanks that Blackbeard hadn't closed his eyes for three days and three nights, which made people wonder whether Bucky had been staring at him for three days and three nights.

"The cadres of Beasts are really difficult to deal with. This is the first time the captain has made such a big noise."

"Yeah, it's hard to deal with."

On the edge of the battlefield between Drake and Blackbeard, the members of the Blackbeard Pirates looked at the thunder in shock. According to their understanding, NO.4 is not a big cadre, and such a cadre can make Such a big movement has far exceeded their expectations.

"Stop talking nonsense! Hurry up and help! This woman is too difficult to deal with!"

Van Orka and Lafitte were chatting aside, Poison Q was still lying on his horse as if he was going to die, only Badgers was really fighting Kikunojo.

The people selected by Blackbeard are more interested in their potential. At this time, they have only joined the Blackbeard Pirates not long ago, and their own strength is limited.

Although Kikunojo is a "prisoner of war" status, he has fought for all beasts in recent years, and his strength has been growing continuously in countless battles.

Badgers looked down on this weak woman at first, so he proposed to fight Kikunojo one-on-one, but within a few minutes, he regretted it.

Bass!

The dense sword light forced Badgers back. Although he had a lot of brute force, his brute force was useless in the face of Kikunojo, who had mastered the high-level armed color.

Several blood holes on his arm are proof, just when he was about to kill him with a knife, a walking stick blocked him.

Lafitte came to Badgers with a slightly comical footstep, and used his cane as a weapon to block Kikunojo's sharp blade.

"Miss, it's not good to be so fierce, why can't we wait for the battle over there to be over?"

"Can Xue cassock!"

Kikunojo continued to attack Lafitte with a backhand. Among these people, Lafitte gave him a very special feeling. From Lafitte, Kikunojo felt a different sense of crisis.

Chapter 909 Blackbeard's Despicableness, Inheritance of the Firstborn Son of God

In the eyes of Kikunojo, Badgers is just a fool. Simple brute force attacks are easy to evade, and he can completely suppress him in a few strokes. He doesn't feel anything about the poisonous Q. His sick look makes people feel that he may attack at any time. sudden death.

And it doesn't seem to have any meaning of fighting, nor is it threatening. Van Oka's sniper rifle is good, and the manufacturing level of the gun is far beyond ordinary weapons.

But the upper and lower limits of the sniper profession are very high, or in this sea, there are very few strong people who rely entirely on guns to become famous.

Beckman can threaten Kizaru with a gun and raise his hand not because of how strong his gun is, but because of his arrogance. Before Van Oka's arrogance practice was put on the agenda by Blackbeard, he was also unable to threaten Kikunojo.

Only Lafitte, a weird man, made Kikunojo feel different. Unlike the smirk on his face, this guy was really a bit dangerous.

"Remnant Snow Scythe!"

Seeing that his cassock fell through the air, Kikunojo reversed the blade again and swung at Lafitte several times. A large number of circular slashes slashed towards Lafitte and Badgers on the ground with the sound of piercing the air.

In the original timeline, the battle between Kikunojo and Kanjuro seemed very indecisive. Even if Kanjuro blew himself up as an undercover agent, Kikunojo still couldn't bear to kill him.

But that was because Kanjuro was his friend since he was a child. At this time, Lafitte and Badgers had no such relationship.

Drake's battle made him a little worried. At this time, Kikunojo just wanted to solve the enemy in front of him as soon as possible so that he could help Drake.

Lafitte flipped the cane in his hand, and used the curved part to pull up Badgers on the ground, then popped out a pair of wings from behind, and flew into the air to avoid Kikunojo's slash.

At the same time, several bullets were shot at Kikunojo, and the continuous shooting blocked Kikunojo's retreat, but Kikunojo just bounced those bullets away with the tip of a knife, and even hit a few with the bullets that were thrown away. apples.

At the moment when the apple was pierced, several explosions sounded, temporarily separating him from several members of the Blackbeard Pirates.

Van Orka's sniper and Poison Q's apple bomb continued to hit, but was broken by his slash again.

Can Xue sickle is his unique move, and it is also the origin of his nickname Can Xue.

Through the special way of swinging the sword, his sword moves can cause greater damage to the wound, making it more difficult to heal. Of course, he has a more deterrent rhetoric to the outside world.

"First of all, I am a man. Secondly, the damage caused by my sword will not be eliminated even in hell. It will be like the white snow left in the early spring. It will torture your soul forever. If you can avoid it all, you can try it. alright."

"Huh? Sounds good, I kind of like you."

Listening to Kikunojo's words, Lafitte was not only not afraid, but became excited instead.

Kikunojo's intuition is not wrong. Lafitte is a special one among these people. His strength is different from them, and his personality is also abnormal.

He himself was a sheriff in Xihai, but he became notorious there because of excessive use of violence, and was even called the devil sheriff in the end. He was eventually expelled from the country due to his brutal methods. After coming to the great route, he met Blackbeard , and was recruited by him.

In addition to the ability to fly, Lafitte also has good courage and hypnotic ability. He dared to enter the position where Marie Gioia solicited Shichibukai for Blackbeard alone, and he was not timid even in front of Sengoku.

Scars that can last to **** are just in line with Lafitte's preferences.

Lafitte met Kikunojo. Unlike the way Badgers was hanged and beaten before, Lafitte and Kikunojo fought back and forth, and even had a slight advantage because of being able to fly.

Poison Q is treating the wound of Badgers. He always looks like he is about to die, but he just can't swallow this breath. His medical skills are not bad. Help people collect the corpse directly.

"How can that guy's knife be so fast"

"This is the power of the new world."

Van Oka came over from the side, and he didn't continue to snipe the opponent.

From the beginning of lurking according to Blackbeard's request, he felt that he could hit the target with every shot, but in the end he was either struck by lightning or almost split in half by Flying Slash. At this time, he, like Badgers, was Stages of doubt in life.

"I really underestimated you, it seems that you are not a villain who only knows how to attack."

Derek didn't know what happened on the Whitebeard Pirates' ship, but according to her deduction, Blackbeard should have attacked Sachs in a sneak attack, and he didn't give Sachs any chance to resist.

As long as Van Thatch can make a cry for help, it is impossible for Blackbeard to escape from the Moby Dick in front of Whitebeard.

Originally, she thought that it would not be difficult to do this if she relied on the trust of her companions to make a surprise attack. As long as the difference in strength from Sachs was not too big, she could accomplish this.

But as the battle progressed, she felt more and more difficult to deal with Blackbeard. In addition to the ability of Dark Fruit, this guy's physical skills are not simple.

Blackbeard left scars on red hair. The exact time is unknown, but Ace once asked why Blackbeard didn't become the captain. From this, it can be inferred that the fruitless Blackbeard is also enough to be the captain on Whitebeard's ship by virtue of physical skills .noVeLus&.com

After all, if you want to be the captain, qualifications are not enough, you also need a certain amount of strength.

Thief hahaha, actually I didn't intend to kill him at first, after all, I've been a companion for a long time, it's just an accident, but you're right, I'm really despicable, Dark Water! "

A huge gravitational force was released from Blackbeard's palm, but this time his target was not Drake, but Kikunojo.

"You seem to care about that guy, what are you going to do now?!"

Blackbeard doesn't mind being called mean, and he doesn't mind taking tricks to end the battle quickly. Whether it's recruiting or taking abilities, he has to defeat Drake. For this reason, he does not hesitate to target Kikunojo.

If it was just a frontal battle, Blackbeard would not be afraid of the opponent, but he was worried that there were still people of beasts around, so he wanted to end the battle as soon as possible.

During the battle between Kikunojo and Lafitte, the distance between the two gradually entered the influence range of Blackbeard's ability.

The sudden gravitational force disrupted Kikunojo's body balance, Lafitte also seized the opportunity, and briefly poked Kikunojo's chest with his cane. Even without the tip of the gun, the force from the cane also penetrated into Kikunojo's body, causing his body to appear stiff.

"Damn you bastard!"

Looking at Lafitte who was planning to continue attacking Kikunojo, a strong electric current surged from Drake's body surface, connecting her and Kikunojo together in an instant.

Born in the world of pirates, Zeraora originally developed a variant usage of volt replacement, which changed the order of volt replacement.

The original way of using it is that he will turn back immediately after attacking, and the next Pokémon will take over his battle, but under the change of Zeraora, it can quickly come to the friendly army to support teammates.

Over the years, Zeraora has further perfected this skill, and she didn't hide it. When Drake asked her for advice, she gave her how to use this skill.

When using this volt replacement, Drake's speed is comparable to that of Thunderbolt, and he came here almost at the speed of teleportation, but this also gave Blackbeard a chance

Chapter 910 You don't have to use your hands to dance awkwardly, Blackbeard's painful price

The lion tail behind Drake curled up Kikunojo, and then caught Lafitte's follow-up attack with one hand, his free arm swung out with lightning, and a large number of white feathers also fell down.

Seeing the ferocious scratches on his chest and the nearly broken wings, Lafitte's already pale face showed a bit of panic. Derek's casual blow blocked his retreat, and almost everything about him was destroyed. Within Derek's expectations.

This is not the effect of knowledge, but muscle memory. She is Jhin's deputy, and she often fights Jhin in daily training. Drake is very clear about the fighting habits of "Wingman".

And for Drake, Blackbeard is the biggest trouble. She achieved special teleportation with the help of Volt Exchange, but Blackbeard followed without much delay.

When he found out that Drake really cared about Kikunojo, a lot of attacks went to Kikunojo instead.

Due to Blackbeard's own impressive strength, Drake didn't fight him head-to-head, but used his long-distance attack to continuously attack Blackbeard.

The damage absorbed by the dark water released by Blackbeard's hand does not make him feel pain, but the attack at other positions is different. After the continuous damage of lightning and the double damage increase of the dark fruit are superimposed, Blackbeard can feel the pain. It's the same pain as Ling Chi.

Boom!

The raised protective barrier blocked Blackbeard's attack, and Kikunojo also slowed down, but Blackbeard also took the opportunity to grab Derek's neck and push her down to the ground.

The darkness was released from the palm, and a large piece of darkness spread to all parts of the ground. The gravity contained in it bound Kikunojo like a ghost hand, and even Drake felt a sense of tearing from outside his body.

"Thief hahaha, you can't move now! Last chance, join me and become Lao Tzu's partner! Otherwise, you and your companion will have to die here!"

Blackbeard once again felt that he had the chance to win, and with hostages in hand, he once again issued his solicitation to Drake.

"Heh, has anyone told you that you are ugly and talk a lot, and it makes people hate you?"

"You woman really don't know good from bad."

Seeing Derek who was caught by him still taunting him, Blackbeard's patience was almost exhausted, his eyes looked up and down at Derek, as if he was thinking about something, and the strength in his palm gradually increased little by little. big.

"Does it look good? Then you'd better open your eyes and see clearly. There is a price to pay for arrogance!"

"Huh? Ah! Eyes, my eyes!"

When he was about to make a move, a blinding glare erupted from Drake's body, and even the people around him were blinded by the stabbing, and the black beard who had been staring at Drake just now screamed in pain. There was a sound.

That is the flash technique used for lighting. It was originally a skill for lighting in the cave environment, but this skill can also be used as a powerful flash bomb.

Blackbeard's hand was still on Derek's neck, and the violent flash made him want to snap off the other's neck, but before he could do it, his body suffered a fatal blow.

While he was talking nonsense, he didn't notice that Drake was doing some strange things with his feet crossed. When the flash technique erupted, the Z pure crystal on Drake's body also lit up at the same time.

The release of the Z move requires a dance process, but this process is just to let the power of the Z pure crystal be guided in the body.

Gazing dance is a prerequisite, but certain changes can be made.

Just now, Drake used his feet instead of hands to complete the awkward dance, and completed the preconditions for the release of the Z move, but Blackbeard didn't understand all of this, and regarded it as Drake's weak struggle.

Before, Blackbeard half-kneeled and pushed Derek to the ground, but at this angle, Derek could just kick him in the crotch.

"Die to my old lady! The ultimate Volt Thunderbolt!"

Instead of using a blow, he poured the power of thunder and lightning into his legs, and then kicked towards Blackbeard's crotch.

Even with the dark fruit, a sound of egg breaking was heard in everyone's ears. Drake was wearing a pair of Martin boots before, and the thicker soles were harder than iron blocks under the blessing of domineering.

With the increase of the Z move, Drake's attack is much more violent than the previous attack, and in the case of Blackbeard's carelessness, Drake's kick hit the bull's-eye.

This is a pain that humans cannot bear, let alone a man, even a woman is unbearable to be kicked like this, not to mention that Blackbeard has a debuff that doubles the pain.

"Excellent" to ascend to heaven, this is the only feeling Blackbeard feels at this moment, he can't help but let go of the hand holding Derek, his mouth is opened wide, but he can't make any cry, the indescribable pain can no longer be expressed with sound Express. *NoVebus.com*

Eyes and kicks, this is a very useful set of combos, suitable for all kinds of street fights.

The almost crippling blow completely aroused the ferociousness of Blackbeard. After struggling to condense the strength in his body, Blackbeard clenched his fingers and grabbed in the direction of Derek and Xiaojun. He had already forgotten what he said before, only He wanted to kill the two people in front of him.

After using the Z move, Drake entered a short power-off period, but she still pushed away Kikunojo behind her, and a smear of blood also flew into the air.

But Blackbeard no longer had the strength to continue attacking. This blow was his last insistence. After that, he hugged his hands to his crotch, twisted and fell to the ground, and his body began to twitch uncontrollably.

"Miss Redeker! Your eyes"

"Don't talk nonsense, let's go, I just don't have much strength, and I can't die. Let this guy slow down and it will happen"

Clutching his right eye, looking at Blackbeard's subordinates who hadn't recovered from the flash technique, Derek immediately planned to leave here, and the Z move consumed a lot.

And she consumed a lot of physical strength in the previous battle, and with the current injury, she has no follow-up combat power.

Blackbeard's life force made her feel difficult. If he slowed down, they would be in big trouble.

"Yes, I understand."

Kikunojo supported Drake and ran towards the distant pier, intending to temporarily leave this troublesome place.

When Drake's flash effect disappeared, the two of them had long since disappeared, and Lafitte and the others only saw the black beard who fell to the ground.

Poison Q touched the part covered by Black Beard with a disgusted gaze. Although his movements were light, Black Beard still twitched a few times.

"What happened to the captain?"

"Isn't this obvious? If it weren't for the dark fruit, even the giants would have to be smashed to pieces, but the pain can only be relieved by himself."

Spreading his hands, Poison Q made his own diagnosis, and at the same time expressed that he was powerless to deal with the current situation.
