

## Arceus 981

### Chapter 981 Questions about Sun Keye and Aokiji

Boom!

Whitebeard clenched his fist and blasted in Luffy's direction, the air cracked under his fist like a spider's web, and the powerful shock wave rushed towards Luffy's direction with overwhelming momentum, all the marines on the road were killed under the influence of this punch. Boom.

Even with the rank of lieutenant general, facing this blow, he has to choose to avoid the edge temporarily. This is the most terrifying part of Whitebeard in his prime. Incalculable devastation.

Correspondingly, when Whitebeard swung the punch, Akainu and Kizaru also made their own responses.

"Tianyu Yatagaraku!"

"The dog gnaws the red lotus!"

The dog biting the red lotus was dodged by the white beard, but the yellow ape whose whole body turned into light slammed into the white beard's chest firmly. In a battle of this level, distraction is a big taboo, even for the white beard. , There is also a price to pay for intervening in other battlefields when one is against two.

In the face of the yellow ape's surprise attack, it is basically impossible to avoid it without sufficient preparation.

White Beard took two steps back, the blood flowed down the muscle lines on his body, staining the cloth belt around his waist red.

"Dad!"

"Don't worry about me, I'll take care of this, everyone! Cover the straw hat boy! Help him rush over!"

Kaido is idle and bored to find Sengoku to fight, Yamato is pulling Kuzan to fight a fake match, White Beard shares the pressure of Akainu and Kizaru, but this is the limit of what they can do. *noveUSB.com*

Whitebeard didn't expect Kaido to do anything for him. This kind of thing is already a surprise. The Shichibukai have no intention of fighting. The captain can match up with the lieutenant general. He needs someone who can break through Garp's defense in this situation. .

Want to break through Karp in terms of hard power, but he can't find it, so he can only find another way.

When Whitebeard was on the boat, Ace talked about his younger brother every day, and Whitebeard also had a certain understanding of Luffy's kinship. If anyone among the remaining people can rescue Ace in front of Garp, then It can only be Luffy.

Whitebeard's voice spread across most of the square, and the pirates under his command also responded. The captain's order was absolute for the pirates under his command, and the pirates who had the ability to get rid of their opponents began to move closer to Luffy.

Before Luffy realized what happened, a large number of pirates from the new world had gathered around him. These pirates were also famous people in the past, and many of them were even stronger than Luffy.

But under Whitebeard's order, they were willing to cover for him.

"This is not okay, if I let you all pass by, the old man will be very troubled, Hachi"

"Glitter kid! Where are you looking!"

Yellow Ape's attack was interrupted by White Beard before it could be released, and the result of White Beard's distraction just now was almost repeated on him.

"Porusalino! Leave it to others, and deal with Whitebeard first! As long as he is dealt with, the Whitebeard Pirates will be vulnerable!"

"You really dare to talk big, if you want to take Lao Tzu's head, then try it! Navy!"

Cong Yun cut on the ground, and a huge crack extended to the execution platform, helping the charging pirates to open up a new path.

Whitebeard even at the cost of taking several attacks from Akainu, he firmly restricted the yellow monkey within his own ability, preventing him from intervening in other battlefields.

Someone is falling down every moment, with Ace as the center point, both the pirates and the navy have paid huge casualties.

As Kaido left the frontal battlefield, Yamato also relaxed a lot, and the intensity of the battle with Kuzan plummeted.

"Did you see it?"

"What?"

"This battlefield, because of your arrival, the casualties have become more serious. Without you pirates, such a thing would not have happened at all."

Also an admiral, Kuzan's fighting spirit is not weak at all. Yamato's moves look powerful, but they are full of weirdness.

He is Garp's chief disciple, and frozen fruit is his main combat power, but this does not mean that he does not know physical skills, but facing Yamato under the blessing of thunder and lightning, he is at a disadvantage in the game of physical skills.

But sometimes Yamato would stop suddenly, giving people a feeling of deliberately releasing water, which made Kuzan even more confused about what she wanted to do.

After all, normal people cannot understand Kaido's family environment.

"What are you talking about? This is a war. Isn't it common for people to die in wars? Besides, you started this war, right?"

"Ah la la, there seems to be nothing wrong. It seems that you are not as naive as I thought."

"Don't talk to me in that elder tone! Who do you think you are!"

"Don't get me wrong, if my younger generation becomes a pirate, I will have a headache.

I'm just curious, you don't like war, even the battle is full of perfunctory, why did you come to this battlefield? "

"Of course I was forced to help, but is my battle perfunctory? This is not okay."

Actually let her opponent notice the perfunctory, this is simply the biggest failure of her match-fixing career, if Kaido notices

Reminiscent of that terrifying scene, Yamato shook his head violently, and then rushed to the other side in front of Kuzan. With the blessing of Zekrom's lightning power, Kuzan could not restrain Yamato's footsteps.

When she reappeared in the safe zone, she already had an extra Heracross in her hand.

"I said you, why did you come to this kind of place? This place is not suitable for you."

"Hello."

"Then he really has a big heart, and he actually agreed with you to come over, don't go there anymore, your strength can't help you in the past."

Ever since the lucky egg blocked her shot, Yamato didn't want to bring Pokémon to the dangerous battlefield. Except for tourist-level missions, she will not bring Pokémon, even if her Pokémon are special types such as Diancie and Genesect.

Heracross is not good at flying at high speeds. In a top-level war with a large number of senior generals, that kind of flying speed can easily become a target.

Recognizing the truth in Yamato's words, Heracross set his sights on Bucky and his party. There seemed to be a good locksmith there.

"Hello."

Seeing that Luffy went to save people without a key, Hero reluctantly flew to the direction of Mr. 3, intending to help get a key.

Baki is almost the safest area in the entire battlefield, Yamato did not stop it, but found Kuzan again, intending to correct her perfunctory thoughts in Kuzan's heart.

At the same time, at the rear of the battlefield, another group of forces was approaching Marin Fando.

"Captain Tiki, do you really want to do this? It's very dangerous there."

"Thief hahaha, of course, isn't that why Ace was handed over to the navy? The power to destroy the world is destined to belong to me!"

## Chapter 982 The Wrath of Kaido

The prisoners in the sixth layer of infinite \*\*\*\* are all real monsters. Even Ivankov only dared to release Crocodile, because he has Crocodile's handle in his hands.

But Blackbeard is different. He needs to quickly recruit combat power, so he focused on the combat power of the sixth floor from the beginning. After his special selection method, he also found his subordinates on the sixth floor, and led them to the sixth floor. They came to Marlin Vandro, intending to start their new plan.

In the Triangle Current, he didn't know anything about what happened to Marin Fando. If he knew what happened here in advance, he probably wouldn't have come here at all.

He didn't come to the frontal battlefield. Blackbeard's goal at the beginning was to pick up leaks, so he landed quietly from behind Marin Vandro, intending to observe the result of Whitebeard's battle.

"That old guy is really brave, he is still so old, and he can still fight such a fierce battle."

"Meow hahaha, Tiki, are you scared? It's better to leave the captain to me."

Abalo Pizarro let out a burst of laughter, and asked Blackbeard for the position of the captain directly. This is one of the prisoners he brought out from the city of advancement, an ambitious man nicknamed the Evil King.

Almost all the subordinates selected by Blackbeard are like this, and they all have unique ideas. Before the selection, Blackbeard also made a plan. He didn't want those who were too weak, and he didn't dare to have those who were too strong. In the end, he chose this Several people.

"Are you kidding, this is the Blackbeard Pirates, why did the captain give it to you? Come with me, especially you wolf, be careful, don't let others notice you!"

Blackbeard stayed in Marlin Vandro for a few days on the grounds of preparing for battle, and he had a certain understanding of the environment of the town here. At this moment, a shock wave rushed from the side.  
~~No USB Comm~~

The figure of the Golden Light Buddha appeared in the sight of the Blackbeard Pirates.

"Sengoku? How could he fight his opponent Kaido in this place?!"

Blackbeard feels that his brain cells are not enough. It is obviously a top war against Whitebeard, but Kaido, who has nothing to do with it, is actually fighting the Admiral of the Navy.

"Not only that, but also that old guy Zefa, the navy has spent a lot of money now, and even Zefa has gone to the battlefield."

"Captain Teach, there may be even worse news."

Lafitte looked at the screen beside him. Because of Bucky, the live broadcast signal of the battlefield was restored, and now he could just see the picture of Whitebeard.

Looking at White Beard's face that was the same as decades ago, Black Beard rubbed his only remaining eye, his face full of disbelief.

"What exactly is going on?!"

With so much combat power in the navy, Whitebeard will definitely not let go. When they fight to the point of losing both sides, he will pick up the leak, kill Whitebeard and seize his ability. This is a perfect plan in Blackbeard's view.

But now, Kaido, the spoiler, the young and vigorous white beard, and black beard feel that their brain cells are not enough.

"Captain Teach, what should we do next?"

"Wait, let me think about it, it looks like something needs to be changed."

Whitebeard's vivacious look won't die for a while, and Blackbeard doesn't want to face Whitebeard in his prime at all.

At the beginning, he abandoned his dignity to get on Whitebeard's boat, and he knew how terrifying the young Whitebeard was.

Violating the iron law of the Whitebeard Pirates, if he appeared in front of Whitebeard, he would definitely die a miserable death. Watching Kaido and Sengoku fighting, coupled with the unmanned environment, Blackbeard had a new idea .

"Hey! Come on, can't this work?! I just finished warming up!"

While Blackbeard was making a new plan, Kaido became more and more excited. During the high-intensity battle, the blood in his body began to boil, which gave him a long-lost sense of joy.

With the blessing of Dragon Dance, Kaido became more and more courageous in the battle. The speed and strength after the blessing brought great pressure to Sengoku and Zefa. If Zefa was in good health, their battle would be much easier.

Ke Zefa's body is no longer as good as before, and the attack of asthma has become the biggest drawback.

And with the increase of fighting intensity, the pressure on Zefa became more and more serious, and even the frequency of attacks increased a lot.

When Zefa took out the spray again, Kaido also launched a new round of attacks. This is not a simple duel, but a deathmatch.

In the battle between Roger and Whitebeard, Whitebeard would still consider Roger's physical illness and give him time to rest, but Kaido would not. In his opinion, since he joined the battle with illness, he has already made up his mind. If you keep your hand because of this kind of thing, it is a kind of disrespect.

"Agni Dragon Dance Gossip!"

Dragon flames enveloped the whole body, Kaido was like a dragon from hell, the power of the dragon dance emerged again, and it took effect simultaneously with Kaido's attack.

Kaido has already mastered those skills, and developed new skills based on the characteristics of the skills. The dragon dance is a great blessing to him, and it is also the skill he is most familiar with. In order not to be interrupted by the enemy, he has integrated the dragon dance. Among the many moves.

Agni Dragon Dance Gossip is the most powerful move. Zefa's movements are stiff, and Sengoku is the same as before, planning to use his ability to block Kaido's attack and let Zefa look for opportunities to attack.

With the blessing of the pulverizer, Zefa's damage to capable users is no less than that of Sengoku.

The golden light greeted Kaido, but unexpectedly, the moment Kaido swung his mace, the golden light on Sengoku's body suddenly disappeared, and he himself returned from the Buddha form to normal.

Although he still has arrogance, his sudden disappearance also disrupted the rhythm of the Warring States Period. After losing the Great Buddha Gold, his defensive power has also dropped by more than one level.

Facing Kaido who was blessed by the dragon dance twice, Sengoku's body flew upside down, blood spewed out of his mouth uncontrollably, and a line of blood was drawn in the sky.

Looking at Sengoku who was being knocked into the air, Kaido didn't choose to pursue, nor did he continue to attack Zefa. There was no trace of joy on his face, but frost.

"How dare you intervene in Lao Tzu's battle?!"

The extremely powerful overlord color poured out to the surroundings, even more terrifying than in the previous battle, and the ground in front of Kaido also turned into a swamp-like object under the impact of the overlord color, and a big hand protruded from the ground.

This is Pizarro's ability. He is an ability user who ate the island fruit. He can integrate himself into the island and manipulate the island, which is very similar to Pika's stone fruit.

And Blackbeard also jumped out from the palm of this big hand.

The reason why Sengoku lost his ability was nothing else, it was Blackbeard who came from the ground using Pizarro's ability and grabbed his ankle with dark water.

Sengoku just focused on Kaido, and didn't notice Blackbeard's sneak attack at all

Chapter 983 People's dreams will not disappear, but your life is over!

The dark fruit is the nemesis of ordinary ability users. Even strong men like Sengoku and Whitebeard cannot use their abilities under the influence of the dark fruit.

It is not easy for him to intervene in Whitebeard's frontal battlefield. Seeing Kaido and Sengoku fighting here, Blackbeard had two thoughts in his heart.

Help Sengoku attack Kaido, or help Kaido attack Sengoku.

Both the Buddha fruit and the Qinglong fruit are very powerful, and the abilities of these two phantom beasts make him envious.

The reason why he chose to attack the Warring States period was also the result of Blackbeard's thinking.

He had fought with these people when he was selecting his companions in Advance City. None of the prisoners on the sixth floor was a worry-free type, and in them, Blackbeard confirmed one thing, his dark fruit was useful of *n0VluSb.coM*

So it's not that I have a problem, but the group of Beasts has a problem.

Drake and Jhin are almost casting shadows on him, he doesn't know what kind of beasts and other people are, if the ability is ineffective on Kaido, then he will have fun.

Besides, he was the leader of the Prison Escape Incident in Jincheng City, so he turned his back on the Navy. Looking at Kaido, who was one against two, he finally chose to attack Sengoku.

He and Jhin had quite a conflict, but in Blackbeard's view, it was nothing at all.

It has always been him who is unlucky, even if there is a problem with Derek's eyes, he also lost one eye, so it should be considered even.

In Blackbeard's heart, profit is the most important thing. In Blackbeard's heart, trust has never existed, even if it is his own subordinates, he has not given much trust.

The reason why he dares to use these people is because they have the same purpose, as long as the interests are the same, they can form an alliance, which is the so-called pirate.

So Kaido is not an object that cannot be united.

Sengoku is Kaido's enemy, if he attacks Sengoku, Kaido won't hit him, right?

Kaido will not join forces with Whitebeard. After he takes away the ability of the Warring States period, Whitebeard will probably be able to fight almost, so we can decide what to do according to the situation.

Arrogance, arrogance, and self-righteousness, these are the characteristics of Blackbeard.

The fundamental interests of the Whitebeard Pirates and the Beasts Pirates are contradictory. In Blackbeard's view, it is impossible for these two behemoths to unite. Kaido must have other purposes here, so he made a this decision.

He admits that he is a gambler, but he is a crazy gambler. He has been a gambler since he stepped on Whitebeard's pirate ship decades ago.

The battle between the top fighters seems ordinary, but every blow is actually a life-and-death fight. In the original timeline, Oden was directly knocked down by Kaido when he was distracted.

For Sengoku, who is a capable user, that moment was actually even more fatal.

Blackbeard thinks this is a risk-free gamble. Since he broke into the city of advance, he has established an irresolvable conflict with the navy, so whether he attacks the Warring States will not affect anything.

It's just that he lacks understanding of Kaido, and he doesn't know at all how much Kaido cares about the process of fighting.

"You two bastards... dare to intervene in Lao Tzu's battle?!"

Looking at the black beard in front of him and Pizarro who melted into the ground, Kaido was surprisingly angry, even more angry than seeing Yamato shouting that he didn't want to fight, and then lying flat on the spot.

The khaki-yellow energy melted into the soles of his feet, and Kaido stomped hard to the ground with one foot.

Boom!

The ground began to shake, and the neat road turned upwards, becoming dilapidated in the blink of an eye. Pizarro, who had merged into the island, felt his blood surging, and was directly forced out by Kaido's kick.

"Shock?!"

Blackbeard's only remaining eye widened, Kaido actually used that coveted ability

"It's just an earthquake. I don't like to use this ability, but I'm very angry now."

"Thief hahaha, Kaido, join forces with me! If we join forces, we will definitely rule the world! The combined abilities of you and me are enough to turn the world upside down!"

Looking at the furious Kaido, Blackbeard not only didn't fear or shrink back, but instead proposed to him to join forces.

"At that time, you will have as many opponents as you want, enough for you to have a good fight!"

"Hey, you are really brave, ruling the world? How dare you say it."

Looking at the rampant black beard, Kaido laughed angrily at him.

"What's the matter? Don't you even have this bit of courage? Ambition breeds dreams, and people's dreams will never end. As long as people are still alive, they must work hard towards their dreams!"

Man's dream never ends! "

"That's right, people's dreams don't end, but your life ends here."

Kaido agrees with what Blackbeard said, but his killing intent towards him has not diminished in the slightest. Interfering with his battle is an unforgivable thing. Even if it is Yamato who does this, don't even think about turning over the chapter if you don't fight for a few days .

It was at this time that Jhin, who noticed Kaido's domineering look, had returned to the vicinity again, and saw the disgusting face of Blackbeard.

"Brother Kaito."

"Jin, I'll give you another chance, get rid of this guy, don't let me down."

Kaido is very clear that the biggest target of Jinlai Dingshang war is Blackbeard, and he has been waiting for Jin without making a move.

Kaido also has his own care for the subordinates he values. Jhin can be called his right-hand man, and he deserves to be patient for a while.

But if Jhin doesn't come again, he can't bear it anymore.

"Please rest assured, Brother Kaidou, I will not let him escape again, and I will take his head back at the stake of our clan's honor."

"I leave it to you, my interest has been ruined by this guy."

Kaido withdrew his weapon, looked at Sengoku who was blown away and Zefa next to him, and even lost interest in continuing to fight, just looked at Blackbeard.

Even if he has any backup, Kaido will not give him this chance again.

"You lunatic, have the conflicts between us reached the point of endless death?! I also lost an eye! As for other things, I can apologize."

Bass!

The blue flaming blade slashed past Blackbeard, and Jhin entered the blue flame mode directly.

"Your nonsense is too much. I will cut off your head this time to see if you, an outlier, can still survive."

"Asshole. This guy is hard to deal with! Hurry up, you guys."

Blackbeard called out to his companions to ask them to help, and then found an opportunity to slip away, but before he finished speaking, there was a scream in his ears.

The crimson flames formed a terrifying cage, which had enveloped all his subordinates, but the releaser of the flames was not Jhin, but Shaina.

"Do it, I will deal with the guy who gets in the way for you."

Chapter 984 My dear brother has sworn, can't you cooperate?

With the building of the Navy Headquarters as the dividing line, Marin Fando has become two distinct battlefields. On the square, there is a deadly battle between the Whitebeard Pirates and the elite navy. The fish monster.

Behind the building, there is an even more top-notch hunting ground. Kaido leaned against the ruins with a look of displeasure. He was very displeased that the battle was interrupted.

Warring States was hit in the chest by the powerful Agni Dragon Dance Gossip in that situation. Originally, he would not have been injured so badly. The golden body of the Buddha is the hardest shield for Warring States.

As his combat power reached its peak, there were only a handful of cases where his own shield was broken. The last time it was more than ten years ago, Arceus' attack broke his defense.

But Blackbeard's ability is extremely disturbing. Originally, he held up his shield to meet Kaido, but his shield suddenly evaporated.

His body responded, but the difference was still too much. Such a warring state has made Kaido lose his fighting spirit.

Kaido pays attention to the process of the battle, but it is not rigid. If this battle will determine the future, Kaido will still choose to defeat the opponent in front of him first, but he will kill those who intervene in his battle afterwards.

It's just different this time, the Warring States Period is not his main goal, but a prop for him to relieve boredom.

The process of wanting to enjoy has been destroyed, and Kaido will naturally not continue. Whether it is curing the Sengoku or giving himself a stick to force the two to the same level, it does not conform to Kaido's logic.

So he just silently watched Zefa take Sengoku away from the battlefield temporarily, and observed the direction of Jhin and Blackbeard.

He wants to see if there is any other way for this alien to survive this time.

At this moment, Jhin's battlefield has also been divided into two parts, Pizarro and Blackbeard are in front of Jhin, and the other members of the Blackbeard Pirates are stopped by Shaina on the other side.

"Pissaro! Get me out of here, plans change, can't mess with this guy now!"

Blackbeard's plan has gone bankrupt. He originally wanted to plan something new with Kaido. In the Four Emperors, he had an old enmity with Redhead, and violated Whitebeard's iron law. As early as the day he killed Sage, he had Half of the four emperors have been offended.

There is no eternal enemy, only eternal interests. This is the creed he believes in. Killing the Warring States is obviously beneficial to both of them, so Blackbeard will do that.

Blackbeard knows that Jhin wants to kill him, but as long as Kaido agrees to join forces, he should be able to stop Jhin. After all, Kaido is Jhin's captain.

As a result, he didn't expect Kaido's brain circuit to be so unique, and there was no meaning of unity at all.

His dark acupoints can also transfer the target, but the speed is too slow. Judging from Jhin's previous performance, his dark acupoints are too late.

Pizarro's island fruit is different. For Pizarro who has eaten the island fruit, the island is an extension of his body, and it is easy to transfer within the island.

"You really are a weak Tiki, are you scared? Why don't you let me be the captain, meow."

Although Kaido suffered an earthquake, most of the power of the earthquake was absorbed by the island itself, and Pizarro escaped from the island he was attached to in time. not overly affected.

"Stop talking nonsense! Hurry up! You rusty guys in the prison have no idea how scary these monsters are outside! Watch out for his knife handle, that madman's knife handle has Hailoushi bullets in it!"

These pirates have been in prison for a long time, and Dai Peng, who was sent in by Olga, was the latest. Many people don't know what kind of monsters the Four Emperors are today.

Whitebeard and Charlotte Lingling became famous earlier, and they still know how to be afraid, but facing Red Hair and Kaido, they have less fear. After all, they were also big pirates before, and they have a little confidence in their own strength.

"Got it, meow."

The fundamental reason why these people joined Blackbeard was to leave Imperton, and after that, they temporarily formed a combination of interests. As ability users, they were restrained from facing Blackbeard, so they were willing to give Black Beard saves face and temporarily listens to his command.

Pizarro's body began to blend into the ground, and he planned to sneak into the ground with his black beard and leave.

After he dives into the ground, the entire island will turn into his body, but attacking the island has no effect. Only by finding his body in the entire island can he cause effective damage. Originally, this is a good escape ability.

But just after he integrated into the island, there was a sound of breaking through the air behind him. It wasn't Jhin's slash, but a crimson chain.

The other end of the chain was held by Shaina, with a sarcastic smile on the exposed corner of her mouth.

"Don't get in the way, that guy belongs to Jin, and your opponent is me."

"Meow ha ha ha! This is useless, your tiny chains can't hit me. How, how is it possible?"

Pissaro was very familiar with his own ability. Just now, only his rocky face was left on the ground, but an extremely painful expression suddenly appeared on that face.

"Small chains? You don't even know that this is the creation given to me by the supreme power."

Shaina clenched the chain in her hand and pulled it upwards, almost setting off half of the street. It looked like an ordinary chain, but the moment the gun tip pierced the ground, the shape of the red chain changed.

The underground part scattered in all directions, and dozens of spikes almost covered most of the street. Pizarro thought he had avoided Shaina's attack, but he didn't know that it was just a precursor to the attack. [NovelUSB.COM](http://NovelUSB.COM)

As the red chain pierced into the body, Arceus' power left in the chain also played a role. The ability of the fruit of Pizarro Island was invalidated, and it was directly pulled out by Shaina like a dead fish.

The sharp barb pierced Pizarro's body, causing him to scream in pain, and he was also dragged to his own battlefield by Shaina, and fell directly in front of the other members of the Blackbeard Pirates.

"Since you have joined that guy's command, then be ready to die with him. My lovely brother swears with honor. If you let him run away, then I will really feel ashamed."

The two of them are the currently known Lunaria people who are still alive, and there may be survivors among others, but Shaina has never found a trace of them for so many years.

Even though Jhin has changed from that weak child to a resounding monster, she is still the younger brother in her heart.

Originally, she didn't pay much attention to the matter of Blackbeard, and Jhin also said that she would solve this problem by herself, but just now Jhin made an oath, and she used racial honor. In this case, Shaina will never allow any problems .

Strictly speaking, Shaina's red chain is no longer the original red chain, but the 2.0 version.

Yamato's Ajan finally entered the 7.0 era because of damage

But Shaina's Red Lock is different.

It was originally born to restrain Pokémon capable people, that is, to target possible traitors, but so far, no such traitors have appeared among the benefactors. This is a good thing, but it also leads to the basic No chance to play.

Combined with Shaina's character, this chain acts more as a hole card in the bottom of the box, and its symbolic meaning is far greater than its actual meaning.

This is a little different from the Arceus religion that focuses on practicality, so in the update of weapons, Arceus also upgraded the red chain so that it can target ordinary fruit-capable users.

Although Shaina's armed skills are good, facing some strange abilities, she may not be able to touch the opponent even if she is proficient in domineering. With a targeted weapon, Shaina's combat effectiveness will be improved to a higher level.

The red chain will not make ordinary ability users enter a weak state, but it can accurately capture their entities, Pizarro is an example.

After he was thrown to the ground, Shaina's Red Lock entered the chain gun state again, and the sharp cross gun pointed at the members of the Blackbeard Pirates.

"Who do you plan to come first?"

Although Kaido is still on the sidelines, Blackbeard can't escape no matter what, but if the matter develops to the point where Kaido needs to take action, Shaina and Jhin will lose face.

She won't interfere with Jhin's battle, but she won't let others interfere with him either.

"Don't try to run, the two of them won't let it go, they both have the ability to fly, and there's Kaido, that lunatic behind him, they can't run away.

If you want to survive, grab this woman and help the captain solve the fire disaster! "

Lafitte glanced at the pirates around him, and already noticed the small thoughts of some people.

This improvised group of Blackbeard pirates doesn't have any friendship at all, especially those who just came out of the city.

If Blackbeard really wants to fall, they will only take advantage of the opportunity to escape when Blackbeard attracts the enemy's attention, and they will never desperately hold back the opponent.  
noVELusB.COM

It is useless to talk about loyalty with this kind of people, only interests can tie them.

These people are penniless now, and the only thing that can make them nervous is their own life.

"Meow, that woman's weapon is weird. It feels like that freak of Tiqi, who can seal other people's abilities. Damn it, how come there are so many weapons for restraining ability users?"

"Hey, no matter what you do, since she doesn't want us to go, then catch her.

I already hated the pirates of beasts, and I want her clothes and weapons."

De Peng's eyes were full of greed.

She was already good at using whips, but she couldn't find a weapon in her hand when advancing into the city, so she picked up a long gun that she snatched.

The strength of the red lock in Shaina's hand aroused the greed in her heart.

At the same time, De Peng also likes beautiful clothes, and has long complained about the prison uniform she is wearing. Looking at Shaina in front of her, she just wants to take everything away from her.

And the reason she was imprisoned was that she ran into Olga's hands. She has not forgotten this hatred these years.

Shaina's attitude and Lafitte's words made them understand that they couldn't do anything else without dealing with the woman in front of them, so De Peng was the first to move, and Shiliu acted with her.

He used to be the chief warden of the advancing city, but his personality was extremely cruel and bloodthirsty, and he often killed prisoners for no reason for fun.

This violated the regulations of the advancing city. Magellan had to imprison Shiliu after repeated persuasion to no avail. When the advancing city was invaded, Magellan released him because of the lack of combat power.

He hoped to use his ability, but Shiliu turned his back on the spot and brought the antidote to Blackbeard and others, otherwise they would be wiped out by the Magellan regiment.

The addition of Shiliu was more active than the other pirates who were incorporated, and he also chose to make a move at this time.

Although it was the first time they cooperated, the two cooperated very well, aiming at the roots of Shaina's wings from left to right.

Facing the attacking two, the color of the flame behind Shaina changed, turning into the same blue as Jhin.

The two focus on training differently, but after all, they come from the same clan, and some fundamental things are still the same, such as controlling the abilities of the Lunaria clan, Jin will know it, and Shaina will too.

Blue flame mode plus red chain, in addition to the Mega boost, Shaina has also entered the full-fire mode.

If Jhin hadn't brought racial honor with her when she swore, Shaina wouldn't have entered this state from the beginning, but after Jhin said that, everything would be different.

Clang! Clang!

The attack of the two hit Shaina, but it had no effect. The defense of the Lunaria in the blue flame mode is very terrifying. With their abilities, it is very difficult to break through the defense.

"Very well, let's start with the two of you."

The red chains turned into two fists and appeared under Shaina's hands, and the blue flames drew a graceful arc in midair, harvesting the two people in front of them like the scythe of death.

Shaina got rid of everyone who was in the way, leaving ample space for Jhin and Blackbeard, and Jhin did not disappoint the fighting space Shaina created for him, and slashed at Blackbeard one after another, intending to Take its head directly.

"Dark Water!"

The dark power condensed in the palm of his hand, Blackbeard barely grasped Jhin's blade, and absorbed the flame released by Jhin.

"Wait, wait, I think we can talk, there is no need to make this endless situation!"

In order to survive, Blackbeard will do whatever it takes, even if he kneels down and calls him father. As long as he can survive, he will have a chance to get back.

He thinks he is not Jhin's opponent, and when Kaido refuses to cooperate, he wants to use his tongue to persuade Jhin to change his target, especially after seeing the same blue flame burning on Shaina, he seems to want to Understand some things.

"There are no two abilities with the same ability in this world, and your identities are siblings!"

Jhin didn't listen to Blackbeard's nonsense, and kicked him in the chest directly. While kicking him flying, he flew forward again, raised his knife and slashed at Blackbeard's neck, but he barely avoided it by rolling.

"I've heard people say that in the past on the Red Earth Continent, there was a legendary clan of gods. They have white hair and black wings, and their blazing flames allow them to survive in any environment. They are a worthy clan of gods!"

Jin Erming Ming Si (Didn't explain 4 in the first two times, so it's not a coo [sophistry])

Blackbeard endured the pain and spoke out the information he had analyzed. Now he doesn't even have a chance to cry out, and has to seize every second.

"I have a plan! A plan that is enough to overturn the entire world! It will definitely satisfy your need for revenge! Killing me is meaningless to you, only living me has greater value!"

Begging for mercy is also a technical job. Facing different enemies, the way of begging for mercy will also change.

Facing Whitebeard in the original timeline, Blackbeard would shout 【I am your son too! 】 Such shameless words.

Although he has already violated the iron law of the Whitebeard Pirates, Whitebeard will not let him go, but he understands Whitebeard's character, and the moment of hesitation can be regarded as saving his life.

It's just that he and Jhin don't have this kind of friendship. If recognizing him as his father can make Jhin stop, Blackbeard can't think about it, but Jhin's crazy gesture obviously doesn't intend to talk to him.

At this time, Blackbeard urgently needs a reason for the opponent to stop.

If his guess is correct, then Jhin has an irresolvable feud with the World Government, and this is Blackbeard's last chance.

The outside world doesn't know much about the Lunaria people, but they are not ignorant. Whitebeard himself has heard about the Kingdom of God, and he has also mentioned it to some of his sons.

When the ability was only half effective on Jhin before, Blackbeard hadn't thought about it. After all, there was an example of Drake in the front, but with the appearance of Shaina, the power of the two people was too similar to make Blackbeard produce doubt.

The dark fruit does not always fail, but sometimes does not work.

It is certain that the beasts have some kind of power that can ignore the dark fruit, such as Quinn's mysterious technology that has been circulated outside.

What is sealed on Jhin's body is obviously the power of the Devil Fruit, and what remains is naturally his own power.

The powerful fire defense, the wings soaring in the sky, and the unwillingness to show his true colors, all these made Blackbeard firmly believe in his own judgment.

Jhin's attack paused for a moment, which made Blackbeard feel that his words had worked.

"It's just a subordinate's eye, isn't that nothing? That woman is not your kind at all, why do you have to do this?"

Bass!

The sword flashed, and the houses behind Blackbeard were neatly divided into two by Jin's sword energy, and Blackbeard's chest was also wrapped in darkness, and he began to absorb the damage left by Jin.

"Ah! It hurts! You crazy!"

Just now Jhin didn't listen to him at all, but was just accumulating power for moves, and Blackbeard suddenly noticed that Jhin's expression seemed more ferocious than before.

"There is one more reason why you must die."

"I'm not threatening you, I also hate the people of the world government, don't you want to live in the sun?

Your captain is not very good. After so many years, he has not actually solved the problem. If you join me, you will be able to solve this problem for you soon! "

The darkness extinguished the flame attached to his body, and Blackbeard's tone became more flustered, but at this moment, Jhin put down the weapon in his hand.

"Thief hahaha, are you excited?"

"What I hate the most is a self-righteous guy like you. You don't know anything, but dare to speak nonsense in that kind of place!"

Jin touched his back and took out a new weapon.

"After I left last time, I was thinking about how I should completely kill the alien like you.

The vitality of your body is very tenacious. Few people I have met can compare with you, but I want to see if your soul is equally tenacious. "

Jhin's black-purple blade was full of strangeness, and there was even a strange eye on the handle.

Before he set off, he went to Kozuki Hiyori to borrow a sword - Yan Mo, who had already been transformed into a single scabbard.

In order to completely kill the black beard, Jhin included his soul in his killing range.

Borrowing the sword, Guangguang Yuerihe didn't have any objections, and even planned to give the Tianyu Yuzhan to Jhin, but Jhin didn't want it. He was not a two-sword style, and a Yan Mo was enough for him.

Jhin's domineering power is concentrated on the right hand holding Yan Mo. The racial talent has given the Lunaria people extremely high defense power, so they can safely use all their domineering power in battle.  
*novelusb.com*

Yan Mo is originally a knife that can release the user's arrogance without authorization. The user can rely on this ability to exert a very powerful force, but if he cannot tame Yan Mo, he will be sucked up by it and die.

After transforming into a single scabbard, Yan Mo with new consciousness can control this ability, and will not drain the user at will, but the user can increase the input of domineering by himself, so that Yan Mo can exert greater power.

"The rock lock is sealed!"

Four huge rocks fell from the sky, blocking the direction of Blackbeard's movement. At the same time, the ground under Blackbeard's feet seemed to have life, and several stone dragons made of rocks opened their mouths and bit Blackbeard in front of him.

The rock blockade restricts the movement space, and the power of the earth manipulates the ground below to control the movement of Blackbeard.

The dark fruit can restrain the fruit's ability, but it can't do anything to the objects that have already been formed, let alone this is a move that Jhin uses the power of the fossil pterosaur. It takes time for Blackbeard to \*\*\*\* all those things into the dark space.

This period of time is also fatal.

"The final blade flame kills the emperor!"

The blue flame is attached to Yan Mo's blade, and a strange radiance also emerges from Jhin's body, which is the precursor of the ultimate impact. Like destroying the death light, it is a powerful and widely used skill.

is a powerful move that Pokémon can use its body, but for Jhin at this time, it is just a booster.

The power of the ultimate impact did not explode, but entered his own hands under the control of Jhin, and Jhin also held Yan Mo's handle with both hands at the same time.

"Asshole! Stop it!"

Looking at Jhin who was ready to go, Blackbeard's heart was filled with fear, and the haze of death enveloped his heart.

The process seemed slow, but it was actually a matter of an instant, and when Blackbeard shouted these words, Yan Mo's blade had pierced his chest, nailing him to the rock wall behind him.

Until this moment, Jhin, who seemed to be accumulating power in place, slowly disappeared. It was not a stand-in, but an afterimage left by Jhin's speed.

Boom!

poof.

A large amount of blood spewed out from Blackbeard's mouth, which was also mixed with many pieces of flesh and blood. The energy of the entire ultimate impact was compressed in the blade by Jhin just now, and completely exploded in Blackbeard's body.

Even if he is a different kind, his chest has become blurred.

"No matter what kind of alien you are, no matter what purpose you have, you have to die here for me today!"

Chapter 987 The Blackbeard Pirates are disbanded!

At this moment, the rock wall behind Blackbeard was pierced by the aftermath of the ultimate impact, and through the hole in the rock, one could even see Jhin's ferocious eyes, because there was already a hideous blood hole in Blackbeard's chest.

The area around the wound of the blood hole was scorched black, and it had been carbonized under the influence of the ember flames. Blackbeard's body was also terrible and couldn't be worse.

The organs in the body were severely damaged, and all the blood vessels near the wound were ruptured. No matter how good a surgeon is, he would feel helpless in the face of the current Blackbeard. Every wound on his body is enough to be included in the medical classics.

Ordinary people would die long ago with such a big hole in their chest, for example, Ace is an example, the temperature of Ember Blue Flame is not inferior to that of Akainu's ordinary magma, but Blackbeard is very special.

The physique of the alien is still maintaining Blackbeard's life, and the darkness is also surrounding his body, trying to save the life of the host, even though Blackbeard's appearance is always accompanied by being deflated, this is his worst time.

"It hurts a lot..Asshole"

"You should be thankful that you are a freak. I have countless ways to make people painful without threatening their lives, but I don't want to use them on you. You'd better die obediently."

As a master torturer, Jhin is very familiar with the structure of the human body, knowing how to avoid vital organs, stabbing dozens of knives without endangering his life is just an entry-level thing for him.

It's just that Blackbeard's vitality is so tenacious that Jhin finds it outrageous, so he doesn't plan to use those methods.

"You crazy man..."

Blackbeard raised his arm to grab Jhin, but he couldn't touch Jhin at all. Jhin is 6.13m tall, half taller than Blackbeard who is less than 3.5m.

Although the body structure of many people in this world is heterogeneous, there are many uncoordinated limbs. For example, Jack's lower body is slightly short.

But this does not include Jhin. Jhin's figure is relatively well-proportioned, which makes his wingspan far exceed that of Blackbeard. In addition to Yan Mo's own length, the only thing Blackbeard can touch is air.

"My dream. How can it end here? You can't kill me! Dark tide!"

A powerful dark gravitational force suddenly appeared on Blackbeard's hand, wanting to grab Jhin in front of him into his own hand.

Although the gravitational force is powerful, its duration is very short. Before the ability has any effect, the darkness in Blackbeard's hand has dissipated.

Jin's blade had left Blackbeard's body at this time, Jhin did not pull out the blade, but slashed diagonally downward, directly cutting off most of Blackbeard's body.

Then flipped the blade and slashed upwards again, dividing Blackbeard into four equal parts, but the division was not even.

But even so, Blackbeard's head can still scream.

"Shocking vitality, but no one is invincible, and neither are you."

Whoosh!

Yan Mo pierced through Blackbeard's eyebrows, and just when Jhin pulled out Yan Mo and divided Blackbeard into several pieces, Blackbeard's body was already scattered on the ground.

Following Jhin's stabbing, Blackbeard's brain was pierced again, and the domineering armed color pierced through Blackbeard's skull, smashing the inside to pieces, which also completely silenced Blackbeard.

"Yan Mo, it's up to you next."

There was a strange blade sound from Yan Mo's blade, as if responding to Jhin's request, dark purple energy scattered from Yan Mo's blade, dancing up and down around Blackbeard's scattered corpses.

People nearby felt a chill in their bodies, and heard several shrill screams.

"Hell Fire Dragon Emperor!"

Then Jhin's flames turned into two blue dragons, spitting flames at Blackbeard's scattered corpses, and was blown away by the sea breeze along with a scorched smell, leaving only a few scorched black marks on the ground.

Destroy his soul, destroy his body, and eliminate his traces, Jhin doesn't believe that Blackbeard is still alive like this. *nOvEluSb.CoM*

His body was hit by the combination of his ultimate impact and slash, and then his body was torn apart. After the brain was pierced, there was no residue left. Even the so-called soul was swallowed by Yan Mo after being slashed. It can be said that he could not die anymore up.

If it still can't be killed, Jhin can only go back to ask the gods, which is beyond the scope of human beings.

Yan Mo's sword blade hasn't stopped yet, Jhin even sensed a little joy from it, and it seems that he has eaten very delicious nourishment.

"It's finally resolved, but this guy... knows a lot."

Jhin looked at the remnants of the Blackbeard Pirates. He didn't respond to Blackbeard's words just now, but it is undeniable that Blackbeard does have a certain understanding of the Lunaria people.

There are not many people who know about the Lunaria people. After all, they are special bounty criminals who can get huge rewards for providing information. However, not many people know that Jhin and Shaina are Lunaria people.

Kaido, Arceus, Quinn, and Zeraora, these are the people among the beasts whose siblings have personally admitted their identities. Even Yamato only knows that they are rare races.

Others may have some guesses, but there is no stone hammer after all. Charlotte Lingling is an example. She has certain speculations about the identities of Jhin and Shaina, but Charlotte Lingling will not report to the world government. I would rather have a Lunaria child.

This is a semi-friendly unit anyway, so it's okay to leave it alone for the time being, but the people of the Blackbeard Pirates are different.

Who knows if Blackbeard said anything that shouldn't be said before his death? To be on the safe side, it's safer to kill them all.

At the same time, other members of the Blackbeard Pirates also saw the tragedy of Blackbeard, but none of them felt sad about it.

"Meow ha ha ha ha, that guy Tiki is dead, the Blackbeard Pirates will be renamed the Pizarro Pirates from now on, I will be your captain!"

As soon as Blackbeard died, Pizarro made plans to succeed him as captain, but no one agreed to his request at all.

"Dopo, dopo, don't be kidding Pizarro, who wants you to be the captain of a cat called a bastard, you were the most enthusiastic about that \*\*\*\* Tiqi before, did you betray so soon?"

Basque Choate responded to Pizarro's words with disdain, but his eyes kept looking around, planning his next move.

"Stop talking nonsense, the Blackbeard Pirates are now disbanded, and where you want to go is up to you.

But before that, let's get rid of the immediate troubles! "

Shiliu rebuked these pirates angrily. Although he was imprisoned by Magellan, his status and treatment have not changed. He can get newspapers from the outside world and read information from the outside world every day.

Different from those people who have not seen the sun all year round, he is more aware of what terrible monsters Shaina and Jhin are in front of him

Chapter 988 Overlord!

Even if Shiliu didn't speak, they still knew how terrifying Jhin was.

For the team formed first by Blackbeard, when they traded with the navy, Jhin beheaded Van Oka in front of all of them, and by the way killed Si in front of Blackbeard, Peach Rabbit and Huoshaoshan. Toloberry.

If Kuzan hadn't arrived in time at the end, the voyage of the Blackbeard Pirates might have ended at that time.

Shaina's record is not that brilliant, but she has dealt with Yellow Ape many years ago, not to mention that Shaina also showed a crushing attitude towards them when Jhin beheaded Blackbeard just now.

Now everyone here knows that these two monsters are not easy to deal with, but it is not easy to get them to join forces.

The nature of the Blackbeard Pirates and the Rocks Pirates is very similar. Most of the members have no friendship and are only brought together because of the captain.

When the captain is alive, they will fight together, but when the captain is dead, these people will turn into birds and beasts, and at most others will choose to join forces with a certain companion.

Ordinary battles are okay, but in this kind of life-and-death battle, no one in the Blackbeard Pirates will give their backs to their so-called companions. If giving up their companions can allow them to escape smoothly, they would have done so long ago .

Ke Jin and Shaina are both good fighters in air combat, and with the unpredictable chains in Shaina's hands, running away rashly is death.

"I've also heard from Blackbeard that we joined him more to leave Propel City, and we don't have a deep relationship with him.

Now that he is dead, there is no conflict between us, why don't we leave each other? "

Looking at Shaina in the sky and Jhin approaching, Shiliu made his own suggestion. He didn't want to engage in this kind of meaningless battle here.

It was Blackbeard's plan to come here. According to Blackbeard's plan, the shock that destroys everything and the darkness that swallows everything will form his spear and shield. But now that Blackbeard is dead, Shiliu and the others will not have any stay. meaning.

Shiliu likes to kill, but he doesn't like courting death. When advancing into the city, his target of killing is also the defenseless prisoners. He doesn't dare to provoke the real monsters in the sixth city.

That kind of person can pose a considerable threat to Shiliu even if he wears the sea tower stone chain.

When Shileu spoke, neither Basque Choate nor Pizarro spoke, and even Depen, who had an old conflict with beasts, also chose to shut up.

After finally regaining their freedom, leaving smoothly is the best solution for them.

"This is the headquarters of the Navy. I don't know what you are here for, but if you want to kill Blackbeard, you have already succeeded. No one can survive in that situation. There is no need for meaningless battles."

"Emperor Yan!"

Jin threw a ball of fire towards Shiliu. The bursting flame made Shiliu take a few steps back, and his expression became tense.

Although when he and Blackbeard met for the first time, Blackbeard was also deflated, and Magellan's poisonous dragon almost wiped them out smoothly, but Xiliu still recognized Blackbeard's strength, and his performance on the sixth floor of the submarine prison was amazing It is not something ordinary people can do.

Now that the stronger Blackbeards have been killed by Jhin, they are no match for these two, let alone Kaido, who is eyeing him behind him.

"Shouldn't it be resolved this time?"

"Of course, but these guys may know something they shouldn't know. To be safe, let them disappear."

"Then let's do it, you or me?"

"Let's just get together. The tricks taught by Kaidou are sometimes very useful. After all, there is a big guy here."

In a few words, Jhin and Shaina had arranged for the remnants of the Blackbeard Pirates in front of them, and they didn't hide it at all, they were plotting loudly in front of everyone.

This is no different from an insult to Shiliu and the others. They were also famous characters in the sea at the beginning, but now they are treated like ants, arbitrarily arranging life and death.

"I just don't want to fight with you guys, don't go too far!"

"Duo Pu, Duo Pu, Duo Pu, we have already talked about this, so we can only fight?"

Basque Choate took the wine gourd on his back into his hands, and started drinking in front of everyone.

Basque Choate, titled Dajiu, is a superman with the ability to drink wine fruit, and usually looks drunk.

Due to long-term drinking, his nose is always red, and with the clown-style hat, Basque Choate looks very close to the clown, and then he made a behavior that is even closer to the clown.

His wine gourd was like a bottomless pit, no matter how much he drank it, he couldn't drink it clean. After a large amount of spirits entered his body, he spit out a series of alcohol bubbles in the direction of Jin and Shaina.

"Purgatory wine sea!"

Bang bang bang, all the alcohol bubbles shattered, and the moment they shattered, Shaina and Jhin turned into a sea of flames. *novelusB.Com*

"Fool! What's the use of setting fire to them both?!"

Basque Choate's attack made Shiliu on the side couldn't help cursing, how could two people who have been bathed in flames be afraid of fire? This sea of flames has no meaning at all except to keep them from approaching.

"Duopuduopu, haven't you read the information in the city of advancement? Lao Tzu's ability releases a large amount of ethanol. As long as the amount is large enough, the two of them will also make me drunk! Evil wolf! Don't read it anymore, you bastard. Hurry up and do it!"

Bad wolf has a special ability, which always marginalizes himself. People around him often forget this person for no reason, and they can't remember it until the critical moment.

The size of the wolf is his most powerful weapon. Under the shout of Basque Choate, he also raised his fist and smashed down. The other members of the Blackbeard Pirates also made their own attacks.

It's just that in the sea of flames released by Choate, Jhin and Shaina were not affected in any way. Not only were the flames unable to harm them, but the drunkenness that Choate imagined did not appear.

With unknown intelligence, he underestimated the physical resistance of the Lunaria people, and being able to survive in any environment is no joke.

At this moment, the two stood together, their weapons had already crossed together, and their domineering energy was continuously poured into their weapons. While the wolf was attacking, they also swung their blades.

"Hey hehehe, the two of them have really mastered it? They are indeed my valued subordinates and Arceus' right-hand men."

Kaido on the side smiled as he watched Jhin and Shaina's joint attack. This attack was nothing but the giant's move he learned from Charlotte Lingling.

"Ba Hai!"

Chapter 989 Looking at their Bahai, that is my lost youth, Zefa's choice

Ba Hai's shout reached Kaido's ears, and at that moment, Kaido seemed to see himself when he was young.

Charlotte Lingling taught him a lot while on board the Rocks, which was an integral part of his upbringing.

With a teacher and without a teacher, the speed of growth is completely different.

The people on the Lockes ship are not loyal. With the permission of Lockes, fights among the crew members occur from time to time. This is also an opportunity to improve their own strength. Survive the battle, and then repeat the process. As long as you don't die, you will always change. strong.

But Charlotte Lingling is different, she really teaches.

From the day she boarded the ship, she told Kaido that Lockes was untrustworthy, so she could ask her anything, and then taught Kaido a lot of secret things, including the Elbaf gun of the giants.

Elbaf is recognized as the number one power in the world. They have a strong background, and this move of the giant family is one of them.

This move was originally derived from the size of the giants. There are only a handful of people who have the opportunity and talent to learn it. Thanks to Charlotte Lingling, Kaido is one of them.

It's just that with the passage of time, Kaido and Charlotte Lingling have parted ways, and that experience is destined to only be reproduced in memory.

After the establishment of the Hundred Beasts Pirates, Kaido didn't hide his secrets. As long as he liked people, he didn't keep any skills or moves.

Kaido is definitely the number one instructor of Beasts.

There are not many people who can learn this trick, and only Jhin and Shaina have successfully learned it, and they have practiced Ba Hai's combo skills by themselves.

Yes, Kaido just told them about his ideas and guided them from the sidelines, and Shaina and Jhin did the rest.

Exercising this trick requires tacit understanding. Kaido can't find other suitable partners, and he doesn't want to find Charlotte Lingling, so he can only use this method.

In fact, he wanted to teach Yamato. With Yamato's talent, using this combination skill with him in the future will definitely be more powerful than Charlotte Lingling.

It's just that Yamato didn't refuse when he practiced alone. When he heard that he was going to practice combined attack with Kaido, he ran faster than the wind speed dog. She resisted this strange thing from the bottom of her heart.

Practicing joint strikes with Kaido, Yamato felt shuddering just thinking about it, and finally let it go.

The magnificent wave roared out in an instant, and the wave swept everything in front of it in an instant, blasting towards the pirates of the Blackbeard Pirates, and the wolf was the first to suffer.

His size is big enough, but Elbaf's gun is aimed at large targets, especially Ba Hai who is attacking together.

The hegemony of Dongli and Broki can easily destroy the island eater that is bigger than the island, and the size of the wolf is really nothing.

The wave swept everything in front of it, and rushed to the distance in a mighty way.

The air was stirred up and made a loud roar, forming a gust of wind. San Juan Wolf, who was hit by the Tyrannical Sea in the front, flew upside down, crashed into the building of the Navy Headquarters, and appeared in the square of Marin Vanduo.

"Then what is that? It's bigger than Oz!"

"I haven't heard of it, but what knocked him down? What's behind that?!"

"He's wearing a prison uniform? What kind of monster ran out of the city!"

Whether it is a navy or a pirate, they are all shocked by the figure of the wolf. He is too big. With his terrifying size, even if he does nothing, just stepping on the ground is enough to cause huge casualties.

However, such a giant was missing an arm out of thin air, and he had lost consciousness and passed out on the ground, which made people even more curious about the guy who defeated him.

Jin and Shaina put away their weapons, and there was nothing in front of them, only dust falling on the ground.

The fire released by Choate has long been extinguished, and the members of the Blackbeard Pirates have also been buried in the ruins.

Bahai is not so easy to pick up. Even with the blessing of halo and faction buffs, Zoro's body's bones shattered and he entered a near-death state one second after he hard-blocked the Bahai from the joint attack of Kaido and Charlotte Lingling.

The red lion was directly wiped out by the overlords of Dongli and Broki.

Badgers and Poison Q, who were weaker in themselves, died directly under the combined attack of Jhin and Shaina, and the others were seriously injured even if they were not dead. If it wasn't for the huge size of San Juan Wolf that caused him to eat Under the edge of Ba Hai, others will only become more miserable.

After all, the human body is the strongest defense in this world. From Bahai and Akainu's Minggou, to ordinary bullets and slashes, the human body can always block him.

"Hey, he's really decent. I feel like I'm getting younger. That \*\*\*\* actually interfered with my battle."

Thinking of this, Kaido suddenly hated Blackbeard. If this guy hadn't interfered with his fight, he should be able to play happily now.

As for Sengoku and Zefa, the two of them didn't go offline. This period of time was enough for Sengoku to breathe a sigh of relief. He stood up again and looked in Kaido's direction.

"Kaido of Beasts. This guy's threat has surpassed that of Whitebeard"

Younger than Whitebeard, able to fly freely, and do things with almost no taboos, such Kaido is so threatening in the eyes of Sengoku.

Originally, Kaido gave outsiders the illusion that they could talk to each other, and the trade of beasts made the upper echelons feel that this group of forces is relatively stable.

But Kaido told Sengoku with his own behavior that those were all fake.[nove.usb.com](http://nove.usb.com)

"I have to find a way to keep him. If I let this lunatic go back to the sea, I'm afraid I won't have another chance in the future.

Old man, can you still fight? "

"I'm fine, but your body. That impact is not small. I may not be able to take care of you in the future. Damn Blackbeard, it's all caused by this guy."

Thinking of Blackbeard, Warring States couldn't help scolding. On the one hand, it was a sneak attack on him. On the other hand, according to Magellan's report, if it weren't for Blackbeard, these prisoners would have no way to escape on a large scale.

And there is no such thing as Blackbeard arresting Ace, and Stolberg may not die, and there is no point in war on top. The World Government is simply played by Blackbeard.

"Don't underestimate me, I'm also a former admiral."

Looking at the broken Marlin Vanduo, Zefa's inner fighting spirit seemed to be rekindled, and he didn't notice it in the Warring States Period. Zefa took out a sealed jar and put it in the shredder on his right arm.

The jar was filled with an unknown liquid, and a rock with a strange color was soaked in it. Under its light, a strange purple light loomed.

This is not an ordinary stone, but one of the contraband controlled by the world government-dynamite rock.

Chapter 990 Death Will, Last Justice

Dynamite rock, also known as power rock, contains terrifying energy in seemingly ordinary rocks, and is an absolute control product in the sea.

This kind of rock will explode when it comes into contact with oxygen, or if it is directly subjected to a huge impact. The power of the explosion is said to be comparable to ancient weapons. Just a fist-sized dynamite rock, the power generated after the explosion can flatten an island. .

Because its power is too terrifying, only the high-level navy has the right to decide the use of these things. Zefa is one of them. He did not retire, but transferred to an instructor after retaining his military rank. He can still touch this thing with his own authority. .

At this time, Warring States also saw the explosive rock in Zefa's hands.

"Zefa? Are you crazy? What are you going to do with this thing?"

"What are you doing? Of course it's dealing with pirates." [novelUsb.com](http://novelUsb.com)

"The power of this thing. Do you want to blow up the entire Marlin Vandro?!"

Warring Kingdom is very clear about the power of Dynamite Rock. If this thing explodes, the entire Marlin Fando will probably be destroyed. Not to mention the ordinary soldiers on the island, even if there is no one on the island, he doesn't want to use this thing.

Otherwise, after the war, the entire Marlin Vandro was destroyed. If this matter spreads out, it may not be known what will happen.

If it was that easy, he would just bury the dynamite rock in Marlin Fando and wait for Whitebeard to come to his door.

It is not certain whether this thing can kill high-level fighters, but ordinary soldiers will certainly not be able to bear the aftermath.

"Isn't Whitebeard's damage to Marlin Fando big enough? With or without this, Marlin Fando is almost destroyed, and this piece is not that big, so it won't destroy the entire island."

"No, I don't agree."

This thing is of no use. The three of them have the ability to fly. It is unrealistic to use explosive rocks to defeat them, let alone the ability of the suspected barrier fruit. "

As the admiral of the navy, Warring States is also very familiar with the affairs of the scientific army. In the report, the word blood factor is what he sees most.

According to the current intelligence, a certain Quinn used Kaido's body as a model and used his blood factors to develop a large number of Phantom Beast abilities. However, in the eyes of the Navy, the most troublesome thing is not the flame or lightning, but the power from the "Lineage factors in barrier fruit".

This skill is too buggy, and its extremely strong defense can have a miraculous effect at critical moments. The only good news is that this technology seems to be not perfect, and it will be easier to break if it is used continuously.

This is a lesson that the navy has paid for with blood. There is a heavy price behind every piece of information. Kaido used that kind of move in the battle just now.

According to past intelligence, the stronger the user, the stronger the defense of that barrier. Sengoku doesn't know where the upper limit of Kaido's barrier is, and whether the explosive rock can be blown up. If this is not done well, it will hurt badly It's my own.

"So I need your assistance, first find a way to cheat out of that barrier once, and don't you have a restricted move? Use that to restrict me and them to the same area."

I will directly detonate the explosive rock inside, and in that space, the explosive rock should have a stronger effect."

"Are you trying to die with others?! Things haven't reached that point yet, Zefa, calm down, there's no need to do this with these guys!"

Warring States has long discovered a more weird problem. The purpose of the Beasts and the Whitebeards is fundamentally different. The Whitebeard Pirates are fighting the navy to the death, but the Beasts are more like playing.

These people could obviously cause more damage if they were serious, but they didn't do that.

Jhin and Shaina only used their real strength when fighting the Blackbeard Pirates. It can even be said that they helped the Navy clean up some hidden dangers.

Although Kaido is fighting with him, it doesn't have much influence. With Karp there, it's hard for him to get serious.

Quinn is fighting with Shichibukai, but Shichibukai is more for show, and it is expected now. It is better to say that Sengoku should thank Quinn for not using those weird weapons of mass destruction.

Warring States didn't know how hard Quinn was trying to keep from attracting attention.

Taking a closer look, Yamato held back Kuzan, occupying a place for high-end combat power.

Behind Beasts, there are many transactions with the world government, and the Warring States Period does not want to be like this under such circumstances.

"Sengoku, have you become like those guys?"

"What did you say?"

"Trading with pirates and expecting them, what could be more stupid than this!"

The former black-armed Zefa was an admiral known as the Unkillable. At that time, he never killed pirates, but only captured them.

But in the days that followed, his family was killed by pirates, and he was disheartened and devoted himself to the cause of education, but his students were also doomed. When he led the team at the end, the whole ship was only Two survivors.

Easy-going people tend to become more extreme after the collapse. The former general who did not kill has long since disappeared. After Zefa's pirate guerrilla team was established, there is only one attitude left towards pirates-destroy.

In the original timeline, after the war on the top, in order to fill the vacancy of Qi Wuhai, the world government actually recruited the pirate who cut off his arm and killed his disciple. This made Zefa completely disheartened and planned to eliminate all sea Thief's ultimate plan.

Zefa has not reached that point yet, but his hatred for pirates is not bad.

"cough cough.. cough."

Speaking of the excitement, Zefa took out the potion again and took a deep breath before recovering.

"Warring States, you have also seen that I am different from you and Karp. My physical condition has been declining. In another year or two, I am afraid that I will not be able to maintain my current level."

"You can go to recuperate."

"Don't talk stupidly, I know my own body well, and I won't last for a few years."

Although I don't like those guys from the world government, the old man is also a navy.

Rather than dying of illness in bed, it is better to fight vigorously and fight again for the Navy.

Kuzan, Sakalski, and Polusalino, who I don't like very much, these young people have also grown up, and an old guy like me can't do anything else.

This is the Navy Headquarters, the symbol of justice, and the place where I have struggled all my life to practice my own justice. Let this be my ending. "

Both Kaido and Whitebeard are the most threatening pirates in the new world. On the frontal battlefield, the fierce battle between Whitebeard and Akainu and Kizaru is still going on. If these two guys can be kept in Marlin Vandon, it will be a great deal for the navy. big win.

The death of the two sea emperors will definitely deal a heavy blow to the arrogance of the pirates. As long as this goal can be achieved, it is acceptable to pay huge casualties.

It can be said that from the moment he set foot on this battlefield, Zefa had the will to die.
