

ARMIPOTENT Chapter 1009

"I am glad you apologized and admitted to your mistake instead of making an excuse," Zhang Mengyao was the first one to break the silence. Along with her words, everyone broke into a smile, including Aleesa.

Tang Shaoyang was stupefied by the women's reaction. He expected an outburst, especially for Aleesa. It was like a betrayal that he slept with her sister after marrying her. He made a silly face as he did not know to react.

"We decided to punish you a little bit if you don't apologize and admit to your mistake," Zhang Mengyao continued. It seemed her voice represented the other women.

Tang Shaoyang made a silly surprised face as he observed all the women; none of them looked upset, including Aleesa. He prepared for the worst, but he did not expect the girls to forgive him easily. His relationship with Ava could be categorized as taboo.

"We will let it slide since you confess. However, I did not mishear that you say women instead of a woman? Does that mean you have other women aside from Ava?" Zhang Mengyao's eyes turned sharp as she asked the last part.

Tang Shaoyang smiled, a relieved smile as everything went smoothly. As for the question, he prepared to tell them everything, including the other women, since he confessed to Ava.

Viona, the former noble lady who joined the intelligence division; Jasmine, the current Queen of Malecia Kingdom; Zara, the Angel of Death; Rosalie, the Flame Empress; and Liliana, the Grand Guardian.

The girls made weird expressions when he started to introduce Zara, then Rosalie, then Liliana. The girls could not hide their feelings anymore, weirded by Tang Shaoyang's taste. The girls knew the concept of the spirits. Because they knew about the spirit, it weirded them when he introduced the spirit girls. The common word to call Spirit on Earth was Ghost; in other words, their men had a weird taste for choosing a ghost as his partner.

Tang Shaoyang coughed up a few times, pretending to clear his throat as soon as he noticed the weird expression, "Obviously, I can't do anything to them yet since they are spirits, but I have a skill that can revive them. Zaneos is a spirit too, but I revived him."

Zaneos, the Infernal Sword, was a famous figure in TEIS. Everyone who joined TEIS wanted to learn his sword technique. The demon slowly gained fame among the TEIS officers and Warriors. Only Zhang Mengyao and Kang Xue knew about Zaneos being his spirit, so he explained that the spirit could come back alive.

The next moment the girls started asking the question of why he chose the spirit as his partner. The talk went smoothly until cold air invaded the room. The sudden drop in temperature alerted everyone in the room. Then a figure suddenly appeared next to Tang Shaoyang; Avyn forcefully summoned herself and threw a bomb.

"I am also part of his harem. My name is Avyn, the last Kankara'Xeo."

While the girls threw a suspicious glare at him, Tang Shaoyang himself was shocked by the statement. The girl was for sure a stunning beauty, but the thought of making her his partner had not yet crossed his mind. When he thought about Avyn, he thought about someone who was far stronger than himself. Her bold statement shocked him as they never talked about this.

The worst part, after that, Avyn returned to her world. She did not give any further explanation either to Tang Shaoyang or the other girls. She left after making a mess, and all the girl's eyes were on him.

Tang Shaoyang shrugged his shoulders, "Don't look at me like that. I also don't know...." Clearly, the girls did not trust him. Avyn's words could be trusted more than his. Especially when he just confessed his secrets. Thanks to Avyn that he had to explain her existence to the girls, from a to z.

"You surely have a special taste, Honey," Jasmine, The Queen of the Malecia Kingdom, teased him in a playful tone, "Beastmen, elves, an angel, spirit, now a dragon."

Tang Shaoyang did not get mad that she teased him. In fact, he was grateful to her because she helped to break the tense atmosphere.

"If you are telling the truth, then I can't be angry anymore. What can I do against a God Rank?" Kang Xue shrugged her shoulders. Of course, she was joking about that; she did not mean it. In her eyes, it does not matter if Tang Shaoyang had one more girl. She just hoped that Tang Shaoyang would stay with her, and that was enough.

"If that's the case, you can have a conversation with her privately and tell us the result later," Zhang Mengyao shook his head. She chose to trust Tang Shaoyang's words, "The most important thing is about Revalor. We can't keep your relationship forever, especially since she is pregnant. We need to think of a way to solve the problem peacefully."

Even though Revalor was bound with a slave contract, the former Elven King was still a Legendary Rank. If a fight broke out, it would cause massive damage for sure. Not just that, The Elven Kingdom might break their vassalage with the Tang Empire. The best outcome was to avoid that, as the Elven Kingdom had a big army.

Zhang Mengyao and Kang Xue had told the girls about Tang Shaoyang's relationship with Ava before the meeting. They had reached an agreement that the relationship did not matter to them. One more girl to the harem brought no harm; even Aleesa was fine with it. The main issue was Ava's husband was the former Elven King who had a deep influence on the Elven Kingdom.

Li Shuang was the first one to raise her hand, "I think it will be best for Shaoyang to meet Sir Revalor and apologize. I know an apology may not be enough, but that's still the best course of action, in my opinion. Hiding Ava from him does not solve the problem, and we will take action based on Revalor's reaction."

Jasmine was the first one to oppose Li Shuang's idea, "I don't think that's the best course of action. First, an Emperor or a leader of a nation should not bow his head to his subject. That will damage his dignity as the emperor. Second, people will lose their trust in the emperor once this issue is known to others. I am talking about the people in Tarrion and the emperor's direct subordinates, not the civilians. We can't afford to do so, especially after the rebellion."
