

Armipotent 1591

Chapter 1591 Outside Interference 6

"Don't worry, you will get compensation as well. Along with the original reward for the trial, you will get one additional Primal Bloodline and one more random God Rank Artifacts."

"I understand the compensation might not be enough for what they have done to you, but that's the best we can give," Cloud could see the gaze in Tang Shaoyang's eyes, the desire to kill the Administrators was not subsided despite his interference and also the compensation.

"Ah, yeah. I forgot to mention the penalty for these people who violated the rules in the System's event. First, all the involved Administrators will lose their Administrator Class and one random class they have. Second, for the factions who meddled in the trial. They will lose their power just like now once they step out of their territory. Third, in addition to the first and second, they will not be able to gain level, class, or anything that could get them stronger for ten years."

Cloud turned around and met with Tang Shaoyang's eyes, "I am not supposed to tell you this, but consider this as the fourth compensation for you." If Cloud had eyes, he might blink one of his eyes at Tang Shaoyang.

After the announcement, Cloud flicked his finger and everyone in the hall disappeared. Everyone but Tang Shaoyang and the twins.

"I have held you long enough from your celebration for coming out as a champion in this trial. Let's meet again on a better occasion... Oh no, I don't think you can meet me on a better occasion. I can only come out when the situation is critical. Let's not meet again, Tang Shaoyang!" With that, Cloud disappeared as well.

The pressure on Tang Shaoyang disappeared, and he could feel the energy inside him again. He stood up and picked up the sleeping twins. They frowned in their sleep, looking like they were in pain. They had gone through a lot during the trial.

Then a portal formed in front of him. The notification told him the portal destination was his home. After what just happened, he was not excited at all to return. He shook his head and entered the portal.

Tang Shaoyang returned to the same meeting room. He left Earth from this meeting room, and he returned to the same place. He summoned Zara and Avyn, and then he handed the twins to them.

Zara and Avyn left the meeting room. They knew Tang Shaoyang wanted to be alone. The two women left with the twins, and Tang Shaoyang got into his seat.

Origin, the Smart Ai knew Tang Shaoyang was not in the mood to talk. It was smart enough to keep silent. It informed Tang Shaoyang's wives and close subordinates about his returns, but it added not to disturb Tang Shaoyang for now.

Tang Shaoyang was dazed, thinking about what just happened. He knew it would not end just like that. He did not want to end it like that, he believed they also did not want to end it just like this. This was not the end.

He recalled the names involved in the scheme: The Nirvana Alliance, The God Alliance, and The Nebula Alliances. While the punishment was harsh, that would not stop them from killing him. And he would not stop either until he got rid of the threats to his empire.

His index fingers tapped the table, thinking what he should do next. The tapping sound was getting louder and louder, and a hole started to form as well on the table.

"Bring the truce agreement and Dinael to this room!" He ordered Origin.

He wanted to see if the truce was still active or broken. The only way to check it was by looking at the scroll. Why did he want to see Dinael? He did not have a plan for Dinael yet, but he had two ideas for her. For the hostage from the Divine Church.

[I have bad news regarding the truce, Your Majesty! The scroll indicates The Nirvana Alliance has broken the truce!]

Tang Shaoyang knew the Nirvana Alliance sent their people who were no longer in their factions to cover their movement. But it seemed like it was still considered as breaking the truce.

After a few minutes, Elinova knocked on the door and entered the meeting room. She brought the black scroll in her hand and was not alone. Dinael was with her, following from closely behind.

Elinova was informed by Origin that Tang Shaoyang was in a "terrible mood", telling her not to do unnecessary things. She placed the scroll in front of Tang Shaoyang, and Dinael remained standing behind her. The scroll had turned black on the outside.

Tang Shaoyang opened the pitch-black scrolls. Everything turned black, all the agreements written on the scrolls were covered in black except for a name. There was a name, written in the deep red, The Nirvana Alliance. That meant the Nirvana Alliance broke the truce. He placed the scroll on the table, "Do you know what it means, Dinael?"

Dinael's heart sank when she saw the scroll. She had a bad feeling when she was informed that Tang Shaoyang wanted to meet her as soon as he returned. She just did not expect that in less than two months the man was gone, then the truce was broken. She was curious about what happened, but she was smart enough not to ask.

When she heard the question, it meant one thing. Her life was over here. She would be executed because her life no longer had any value. Just as she adjusted to life in this world and enjoyed life here. She faced a dire situation where she would lose all her comfort.

Executing her might not be the worst, but what if she was given to the soldiers? That would be her nightmare, and she would rather die or get executed in public than face such humiliation.

"Sit!" Tang Shaoyang motioned Dinael to sit to his left, and Elinova to his right.

"You still can communicate with your family, right?"

Looking at Tang Shaoyang's expressionless face just made her jump. It was better when Tang Shaoyang was cold toward her than having no expression like this. She swallowed a mouthful of saliva and nodded.

"Good. Listen to me if you want to keep your life!"

Chapter 1592 The Divine Church and The Nirvana Alliance 1

Dinael returned to her room with a pale complexion. When she was first captured, she was ready to die or get executed. That was what happened to the war prisoner based on what she had learned from history. But it ended up with a truce with her life at the stake.

At first, she thought the truce would be hell for her. Not only was it hell, but she got to know a new culture and also experienced something she never experienced before. Life here was better than the life in her home. She began accepting her new life, especially with how kind Elinova, one of the consorts, treated her so well with the good food and other stuff.

Everything was good until a few minutes ago when she was summoned to meet The Emperor. The one person who single-handedly bested her legion and defended this world.

Dinael sat next to the window, looking down at the bustling street. She recalled what The Emperor told her about how The Nirvana Alliance broke the truce. That was how she found where The Emperor went for almost two months.

The Emperor went to the Trial of God, and there The Nirvana Alliance tried to kill Tang Shaoyang despite the truce. That was not the worst part, the worst part was the involvement of System Avatar as well as the punishment for the violation.

She looked at the mark on her left wrist. There was supposed to be a bracelet on her left wrist, the bracelet that suppressed her energy. But it was no longer needed because of the punishment. Her attributes temporarily went down to one hundred, all of them because she was not in the Divine Church's territory. She was no different than ordinary people right now even without the bracelet. That was the proof that Tang Shaoyang did not lie to her.

Not only that, she could not level up, obtain a new class, or even learn a new skill for ten years as well. Not only was The Nirvana Alliance locked down in their territory, but they also could not grow stronger as an alliance. Their progress would be stuck for ten years.

The Emperor presented her with two choices. He would kill her, and execute her, and it would not be a painless execution where he would chop her head in public. Recalling how he told her how she would die, his eyes, his tone, as well as his aura. It would be the worst way to die, she was sure of it even though The Emperor did not go into details on how she would be executed.

The other way was to betray the Nirvana Alliance. That was the sole reason she was not in a shackle or dungeon. The Emperor wanted her to help the Tang Empire to rout The Nirvana Alliance.

From what she knew, The Tang Empire was preparing for The Nirvana Alliance's attack which would happen twenty years after the truce expired. They were growing their force to defend the Nirvana Alliance, but the objective was now changed. It was to rout The Nirvana Alliance.

If it was when she was first captured, she would not hesitate to choose to die. But it was different now when she just discovered how good life was. How it was to be alive, that made her wavered. On top of that, The Nirvana Alliance seemed not to care about her life as well. If they cared about her a little bit, they would not break the truce.

Dinael leaned back on her comfy chair and closed her eyes. The chair was no longer comfy because of how anxious she was. Opening her eyes, she looked to the right where she saw seventeen messages. She was allowed to communicate with The Divine Church, her parents specifically. It was the Divine Church that Tang Shaoyang wanted, not her. She was the bridge between The Tang Empire and The Divine Church.

Out of the seventeen messages, sixteen of them were from her father and mother. There was one from The Nirvana Alliance's envoy. She opened the sixteen messages, and her parents were worried for her. They told her to reply to the messages because they wanted an affirmation of whether she was fine or not.

'But why? Why did you agree with them if you are so worried about me?' She could not help but ask the question in her head. If they were worried, they should do what the Nirvana Alliance tried to do. It was useless worrying about her now.

Then lastly she opened the message from the Nirvana Alliance's envoy. She smiled when she read the message.

[It's time for you to pay for what the Nirvana Alliance has done for you! Kill yourself! Don't ever give a little bit of information about us to the Tang Empire!]

The short message was clear enough that she did not need to read it for the second time. They were worried that she would leak the information about them and told her to end her life. She smiled because of how funny the message was. She never felt like she received anything from them, and they dared to say that she owed her life to them.

She could understand if they asked her to keep her mouth shut or anything, but telling her to kill herself. That was a trigger that removed her hesitation. She was still hesitating, but she no longer hesitated.

The first Dinael did was to ask her father and the Divine Church's involvement in the incident.

*** **

Meanwhile, back in the meeting room, Tang Shaoyang stayed there because she gave Dinael time to think about it. He was good enough to give her time to consider her options, three hours. He leaned back on his chair and closed his eyes.

"Are you okay?" Elinova asked in concern.

"I am not. It just reminded me of my pathetic past..." He opened his eyes and glanced at Elin, "Do you want to know about me before The Game?"

Tang Shaoyang never told her anything about his past or anything. This was the first time he offered his story, "If it makes you feel better, then you can tell. But if it makes you feel worse, then save it for later." She smiled understandingly. Without a doubt, she wanted to know more about her man, but she would not push him for it.

Chapter 1593 The Divine Church And The Nirvana Alliance 2

Dinael took all the time she was given, three hours. She was having a discussion with her parents, telling them what would happen to her and persuading them to take her side as well. Convincing her mother was easy because her mother saw her as more important than The Nirvana Alliance. However, it was a different matter for her father, but she managed to convince her father after she told him about how fast The Tang Empire grew.

The Nirvana Alliance would not be able to step out of their territories for ten years also not being able to grow their force in ten years. That meant the truce's time was shortened to ten years. She convinced her father that ten years would be enough time not just for the Tang Empire, but for The

Emperor to get stronger. The biggest chip was on The Emperor, the Spirit Contractor. In ten years, she could not imagine how strong he would be.

That was how she managed to convince her father, but her father still wanted to hear the concrete plan. She also wanted to know The Emperor's plan. Since the Nirvana Alliance wanted her to die, she might as well take her chance with the Tang Empire even though she knew it was almost impossible for the Tang Empire could overcome The Nirvana Alliance.

Dinael walked back to the meeting room which was in another building than her quarter. She stood in front of the meeting room's door and was about to open it, but Origin's words stopped her hand from reaching the door handle.

[Your Majesty is busy right now. I will tell you to come back later.]

Dinael's forehead creased into confusion. He was the one who gave her time, and he was suddenly busy. She nodded instead of asking what he was busy with. She did not want to be looked at as a busybody.

Meanwhile, inside the meeting room was filled with a woman's moan, and it was, of course, Elin's moan. It started from his past story, and it ended with her on top of Tang Shaoyang.

Elin's violet dress was folded around her waist, revealing her breast and nether region. Tang Shaoyang remained in his seat, and she circled her hand on Tang Shaoyang's neck. She moves her butt up and down, releasing unrestrained moans. His mouth was on her breast, as she pulled her to her chest.

This was not the first round, but it was their third round. The white fluid overflowed her nether region, dripping onto Little Shaoyang. After she heard what happened with his past story about his past girlfriends, the horrible thing happened to them. This was the way she cheered Tang Shaoyang up. The two things she was bet at, it was her food and on the bed. She was not that good with her words.

Tang Shaoyang lifted her up and put her on the table for the second time. This time he turned her body around and pistoned her from behind. Her moan was getting louder and louder.

Ahn~ Ahn~ Ahn~

Maybe this was a way for her to cheer him up, but she knew herself that this was also her desire. The desire that she had been keeping for almost two months. She held the table tightly, immersed in pleasure. For some reason, she felt it was much better than before. It was up on another level than she remembered.

A few minutes passed, and she felt the hot liquid poured inside her. She checked her time and found they had been doing it for three hours. She never could pass an hour before, but she could do it for three hours straight now, by herself.

'I guess this is the result of climbing the dimensional tower.' She had reached Ancient Rank a few days ago, and she could feel the difference immediately. Her stamina and endurance were much better.

Tang Shaoyang pulled out and returned to his seat, and she stood up. She sat on her lap, "That's the past. What happened in the past, remained in the past. What's the most important thing is now! The current you. That's what I see right now. I trust you! I know you will not let it happen to me just like

in the past. For those people who reminded you of your past, just as usual, we just need to punch them in the face." She smiled brilliantly.

"Of course, you will do the punch. I don't think I can help you with my current rank. But I have another way to help you so you can punch them hard. I have discovered a new recipe, and you will be the first one to taste it and find out the surprise I have for you. Let's punch them, shall we?"

Tang Shaoyang smiled as he was not expecting this side of Elinova. She was one of the oldest humans, more mature than most of his women. He did not expect to see her adorable side like this.

He held her cheek and kissed her in the mouth. They exchanged kisses, and he was about to start the next round. However, she pushed him, "I do really want to continue, but we have more important things right now." She then came closer to his ear and whispered, "It's been three hours, and I think Dinael is waiting outside. Let's continue later. I think Ava and Li Shuang want to join the group, the others are still in the tower. The more the merrier, no?"

Tang Shaoyang checked the time, and it had been more than three hours since Dinael left the room. Elin dressed up and winked her right eye at him, "I will make the preparation for the new recipe. Tell me when you are done, and I will start cooking. I will be waiting for you in the kitchen."

Elinova went to another exit, avoiding Dinael.

"Is Dinael waiting outside?" Tang Shaoyang asked Origin.

[Yes. She arrived around sixteen minutes ago.]

He nodded his head. The woman was really sharp. Elin knew Dinael had been waiting outside for a while.

"Let her in."

Chapter 1594 The Divine Church And The Nirvana Alliance 3

Dinael stood in front of the door after Origin told her to enter the room. She took a deep breath, preparing herself to meet The Emperor. It was a lie if she was not nervous. She pushed the door and found Elin was not inside anymore, just The Emperor.

Dinael bowed toward Tang Shaoyang and took a seat when he motioned her to.

"What's your decision?" His deep voice exuded pressure on her, but she could tell it was much better than before. She did not feel the killing intent in his words anymore.

"First, I want to inform you that the decision to assassinate you in the trial is not my father's idea nor does my father agree to the idea. The Divine Church's involvement in this assassination was nothing. The ones after your life are from The Metarnian Dragon Clan and The Celestial."

"They proposed the idea to assassinate you! The other three factions agreed to the idea because they tried to use the loophole from the truce, but my father never agreed to your assassination. The Celestial and The Metarnian Dragon Clan also sent their own people."

"Does it really matter?" Tang Shaoyang asked, "I don't care if they are involved or not. What I want to know is your decision."

Dinael was confused for a moment. She tried to tell him that The Divine Church was not involved with the assassination. She was telling him that they could work together, and she wanted to know

his plan to convince her father to work together. That was the original scenario that crossed her head. She thought he wanted The Divine Church, and she tried to live up to her expectation to be the bridge between The Tang Empire and the Divine Church.

"My decision? What do you mean by my decision?" She was confused.

"Are you good in the head? How could you not answer such an easy question? Will you join my side and help me to destroy the Nirvana Alliance? Or would you rather die a horrible death? You haven't answered me, and you start to ramble random things."

That was what he asked when she arrived in this room. The two choices were to betray the Nirvana Alliance and live or die.

"Of course, I don't want to die. I will join you to fight them. But you know, I am useless if I am outside the Divine Church's territory. The only way for me to help you is to connect you with my father, to the Divine Church. Don't you want them to destroy the Nirvana Alliance?"

"I see, so you took three hours not just to come up with a decision, but you also made a plan for me. Let's listen to your plan first."

Elin truly helped him to lighten his mood. If it did not happen, he might just cut her and force her to follow the plan in his head.

"My father agrees to help you fight The Nirvana Alliance, but he wants to listen to what you have in mind first. He wants to know if you have a solid plan or if it's just your spontaneous decision to fight the Nirvana Alliance. Don't you want me to convince my father and use The Divine Church against The Nirvana Alliance?"

"No! I never said that" Tang Shaoyang was never planning to work together with the Divine Church. Not even a little bit, he indeed needed the Divine Church for his plan.

"Then why do you ask me? You know I am that useless, especially with the additional punishment," Dinael was even more confused. If The Emperor did not want her to convince her father, then what he wanted from her?

"My plan is simple. If you agree to join me, then I will help you to take over the Divine Church. I will plant you as their leader and use the Divine Church to fight the Nirvana Alliance. I never ask for cooperation, and why should I trust your father's words at face value? How do I know he is not lying? How do you know he is not lying?"

Tang Shaoyang would never trust anyone with just their words anymore. It was his short experience that told him during the trial. It happened with Oby, and it was repeated with Ira from The Nebula Alliance.

"Can't you..." Dinael was about to say "Can't you tell how my father loves me that he is willing to betray the Nirvana Alliance?" She did not finish her words because after she looked at it from The Emperor's perspective, she realized how stupid the argument was.

They broke the truce, and why should he trust her father who led the negotiation for the truce. And he was right that her father could not be trusted from his perspective. She trusted her father unconditionally because she knew how much her father loved her.

"Are you going to argue I should trust your father because he loves you? But how do I know, how do you know that he loves you?" Tang Shaoyang asked.

"Don't you know? He is willing to negotiate a truce for me. Do you think he did not love me for what he had done?"

Tang Shaoyang nodded his head, "But will your father put you above The Nirvana Alliance? An alliance that has existed for I don't know how long, a thousand years?"

He knew the Nirvana Alliance had existed from the time of Avyn's ancestor. These people were the ones who wasted Avyn's homeland. But when he thought about it, he found something interesting about the Divine Church. The Nirvana Alliance, or a group who wanted to eradicate the Spirit Contractor had existed for so long, but why did the Divine Church only conquer a few worlds. He did not remember the exact number, but they had conquered less than five worlds.

If the Divine Church had existed that long, they should have more than just three worlds. He did not know how long it was, but it was long enough for them to conquer more than ten worlds. He finally discovered key information: The Divine Church might be a new faction that just joined the Nirvana Alliance recently.

But why Eol, the Divine Dragon was with the Nirvana Church. Eol was the dragon who betrayed Avyn's ancestor. If the Divine Church was a new faction that just joined the Nirvana Alliance, but why was Eol with them?

Dinael was left speechless when he questioned her like that. It was a weird question, how did she know her father loved her? Because she felt his love, she received that love. But that was not a valid argument to convince Tang Shaoyang, not when it was compared to the Nirvana Alliance. When the Nirvana Alliance was compared to her father's love for her. She could not answer it because she was not confident as her father might put the alliance above. She was afraid of that, hence she remained silent.

Chapter 1595 The Divine Church And The Nirvana Alliance 4

Working together with the current Divine Church never crossed his mind. The plan was to use Dinael to obtain the location for her worlds, her three worlds. Then he would start from there, taking them one by one and putting Dinael as the new leader of the Divine Church. There was no working together, he would never ever believe them again.

They broke the truce so easily. An oath that he believed was unbreakable also could not be trusted. The oath was way worse than the contract. He could find out when they broke the oath, but that was not the case for written agreement or contract.

"Are you your father's only child?" Tang Shaoyang asked again. And yes, he was trying to make Dinael turn on her father. He needed her as the head of the Divine Church.

As for the Divine Church's details, he could ask them again once Dinael decided to join his side. He wanted to know more about Nirvana historically, and whether it was true that the Divine Church was a new addition to the Nirvana Alliance.

"I guess you are not," He smiled as he found the answer by reading her expression. She started to believe that her father would choose the Nirvana Alliance over her. That was a good start.

What he did might be evil for Dinael, but again, he did not care if he became evil. He was willing to be evil for his family, getting rid of the enemy that threatened his family's safety. He would go on beyond evil if it was needed.

"Do you think your father will side with you instead of clinging to the Nirvana Alliance? I think it's easier to have more children than joining a big alliance such as The Nirvana Alliance."

Tang Shaoyang found one of the answers by reading Dinael's expression. The big change in her expression told him that he guessed right that the Divine Church was a new faction, and might be the youngest faction in the alliance. That was the reason why they only had three worlds.

"What do you want from me!?" Dinael's tone became cold. Even though she could get the gist of what Tang Shaoyang tried to do, she could not deny what he said about her father.

"Haven't you heard me already? I want to put you as the head of the Divine Church, and you will help me to take down the Nirvana Alliance."

Dinael let out a mocking chuckle, "You make it sound so easy as if you can make it happen just like how you turn your palm. My father might be the head of the Divine Church, but there's an Elder Council and Bishop Assembly below him. Their influence is just one level lower than my father's, and you need them to agree if you want to put me in my father's position."

"It's easy. We can just get rid of them and recruit the new Elders and Bishops to replace them. Do you think we still need them when they are dead?" That was the easy way.

"Can you kill them? The only God Rank in your faction is you. Do you think you can take them on by yourself?" Dinael shook her head, sneering at The Emperor. She was no longer trying to be respectful after what Tang Shaoyang tried to do to her.

Tang Shaoyang raised his right eyebrow, "That's the plan. I will take them by myself."

He was stating the obvious. The plan was never to involve his people in fighting the Nirvana Alliance. From the current progress, he did not think his people and army would be ready even in five years. Ten years might be possible, but there would be too many casualties. He did not like heavy casualties.

"Also, I think I have a few God Ranks in my empire. It seems like you are quite slacking," The two adventurers and a Goddess from Aqura World. That made it three, and he had not checked on his Kirin, Kalliyan. A year ago Kalliyan was a Demi-God Rank. If she was not slacking, then she would be a God Rank too.

"And of course, I am not going to fight them right now. We have ten years for the preparation, and I plan to attack them in three or maybe four years, taking them by surprise."

Earth still had two more Dimensional Tower events, and he hoped to finish them all. The Hell and Heaven Level Dimensional Tower and the God Level Dimensional Tower. At this point, he preferred to skip the Hell and Heaven level, but that was too selfish of him. His people needed the tower to catch up to him as well.

The earliest time he would make his move, was when he finished all dimensional towers.

"Then why don't you just destroy the Divine Church as a whole instead of putting you as the head of the Divine Church? Why don't you just take over the Divine Church's world for yourself!? You can kill them all, anyway."

Dinael did not really understand why he needed her if that was what he wanted. If he could take on the Divine Church by himself, why did he need her?

"The answer is obvious, no? I need an army that could fight for me. My army is not ready yet, and even if I take over the Divine Church myself, they will not listen to me. They will not answer my call, but they will answer your call. You are the Divine Church's leader's daughter!"

"I think we have discussed enough. You can have more time to think about it. You have it until tomorrow noon, twelve o'clock on the dot."

Dinael stood up and turned around in a hurry. She was angry deep inside, and she could not get rid of the thoughts of her father choosing The Nirvana Alliance over her. As he opened the door, she heard The Emperor's voice once more, directed at her.

"Your decision will decide your future, Dinael. Think about it carefully. Ah, your connection with your parents, the Divine Church, and The Nirvana Alliance will be cut off. I can't let you leak anything about my faction."

That just made her feel worse. She was about to slam the door, but she did not have the guts to push her luck. She did not know what might come after her if she did so.

After Dinael left, Origin could not hold its curiosity, [But I am really curious why do you need Dinael, Your Majesty? As she said, if you can destroy them why don't you just destroy them?]

"Information. I want all the information about the Nirvana Alliance and the Divine Church in her head. I don't think she would voluntarily divulge them unless I make sure she is in the same boat as us. We need to make sure she jumps into our boat, and we have to make sure that she can no longer jump back."

"That's when she will tell us everything about the Nirvana Alliance and The Divine church. When she knew she could no longer return to the Divine Church. And of course, we need the Divine Church's army too. We have too few God Ranks to fight them all."

"However, we need to act fast. This was the only time when they could not help each other. This ten years is our chance to rout out The Nirvana Alliance!"

The seven factions could not lend help to each other because of the penalty. They would lose their power once they stepped out of their territory, so the other six factions could not help the Divine Church if he launched an attack. His chance to rout them was higher for sure when the seven factions could not rely on each other.

"But we need to do a little research first. If they kicked out their members from the faction, will the punishment still apply to them or not? There is a lot we need to find out before we can really attack them."

Tang Shaoyang opened his eyes when he heard a cry. He looked at the familiar ceiling, his bedroom ceiling. His mood became much better than yesterday for sure. Especially after last night, it has been a while since he went crazy with it.

Li Shuang, Ava, and Elin were lying next to him, stark naked. They were clinging to him. Li Shuang was to his left, Ava was to his right, and Elin was sleeping on top of him. In fact, Little Shaoyang was still inside Elinova, and Little Shaoyang got harder as he woke up.

If not for the cry, he would start his breakfast with them. Slowly pushing Li Shuang and Ava to the side, then he lifted up Elin, pulling out Little Shaoyang from the paradise. Then he put Elin in the middle as he made his way off the bed. He made sure that he was floating in the air, not to wake up the three women.

He headed out and went to the room where the cry was. It was his daughter, Tang Xiulan. She stood on her crib, crying. The only time she was crying was when she wanted the adult's attention.

His daughter was smart enough to tell her mother when she wanted to pee, poo, or eat. She did not cry for that, but she would cry for her parents' attention. Not seeing her mother on the bed might be the reason why she cried.

"I am here, my baby."

Her violet eyes shone in the dark, and she stopped crying after seeing who came for her. She stared at him, but there were barely any tears in her eyes. It looked like her daughter faked her cry, maybe.

He was about to pick up his daughter who stood at the crib, but he realized he was shirtless. He did not smell any weird scent on his body, but for what he did all night. His daughter must not like his smell.

Tang Shaoyang thought of taking a bath first, washing the sweat. However, he could not resist it when his daughter raised her hand, asking to be picked up. If not for almost two months that he missed his daughter, he might bear it and take a bath first. However, he could not resist her charm, especially after almost two months of not meeting her.

He picked up her daughter, leaning him onto his right shoulder. She placed her cheek on her shoulder, patting her back gently. Gently rocking his body while patting her back, he went out. He went to his usual spot where he would see the city near the window. It was his and her favorite spot, at least before he left for the trial.

"Hah..."

Tang Shaoyang chuckled, shaking his head as he saw his daughter's reflection in the mirror. Tang Xiulan was already back to sleep on his chest. It just made him sure that she just faked her cry to get her father or her mother's attention.

Standing near the window, looking down at the empty street below. It was so calming, and he felt much better than all those fighting he had. He was excited to fight against a strong opponent, and he enjoyed the fight. But now he realized he enjoyed spending more time with his daughter. This was much better than the fight.

Within overnight, his frustration over The Nirvana Alliance, The God Alliance, and The Nebula Alliance was gone. But of course, he did not forget about them. He would still need to get rid of them if he wanted to have more moments like this.

'This is more like she calms me down than me soothing her.'

That was what it felt like. Tang Xiulan helped him to get over those frustrations, and it was like she was helping him here, not the other way.

[I have told everyone you have returned, Your Majesty. Kang Zian and Kang Jiayi requested a meeting with you. They want to make a report to you about TEIS' progress and problems.]

Origin whispered in his head.

Tang Shaoyang shook his head, "Tell them not now. Also, tell everyone to continue whatever they are doing right now instead of trying to return to meet me. I have to leave again soon. I need to check the God Realm as well as this Administrator Class first."

He had been ignoring his reward, also the God Realm. His mind was occupied with the issue of the three alliances. He must be prepared for their next move. The Nebula Alliance might not have the next move if they truly wanted to be on his good side. In fact, they should come to him and apologize for scheming behind his back. He would overlook them if they apologized, or else, he would just cut off his connection with them. If he could not trust them, then it was not necessary to enter an alliance with them.

Tang Shaoyang did not know how long he would be away this time. It might be a week or a month. It could also be one day or even a few hours.

"Delay the meeting until my next return. I will go through one by one after that."

Between the three women, Elinova was the first one to wake up. She woke up at six-thirty. It was a lot more late than usual for sure.

When she came out of the room, she spotted Tang Shaoyang and Xiulan. She smiled at him and spoke without making a noise, telling him that she would prepare the breakfast.

Elinova made a big progress with her recipe and cooking. Her recipe had a big effect just from the food she made. He tried her new recipes yesterday. There was a cuisine that increased the experience by two times. That was the best cuisine to help everyone to level up and reach the highest rank as soon as possible.

Not just EXP, there was also food that increased energy, damage, or even food that could heal. She made sixteen new recipes with sixteen different effects. What delighted him even further was that it was the local cuisine. All of them were the food he would never get bored with.

Her passion for her cooking was just another factor that pushed him to keep the peace he had right now. He would not allow others to take all these joys from him. He must get rid of all the threats, even if it was the System itself.

Tang Shaoyang started his routine the same as before he left for the trial. He started the day by having breakfast with his daughters and sister-in-law. Li Na's sister was his sister-in-law, but he was treated the same just like his daughter. Just like Li Shuang's daughter with her late husband, Li Jiaying.

After the breakfast, he sent them to their school. The same routine, but this time, Tang Xiulan insisted on following him outside which he did not mind bringing her with him.

After finishing his routine, he needed a private space to check on his reward, and he also needed to find out how to get into the God Realm. The private area he liked the most was the rooftop of his building. No one could enter the rooftop unless they were close to Tang Shaoyang.

"Let's check the compensation from the System first..."

Chapter 1597 Administrator 2

Tang Shaoyang got a Primal Bloodline and a random God Rank Artifact. The first thing he wanted to see was the God Rank Artifact. The item appeared in front of him when he asked for it, and he got a mask. It was a wooden mask, nothing special from the appearance. But he knew it was still a God Rank Artifact even if it was just a mask. He reached for the mask and the information about it appeared.

[Infinite Visage]

Rank: God

Bonus attribute:

- Increase 10% for all attributes.

Skill:

- [Thousand Faces]

- [Absolute Protection (3/3)]

- [Random Teleportation (10/10)]

- [Unbreakable]

- [Absolute Camouflage]

Durability: -

He was not sure about the item. Good item for undercover, to escape from your enemy, assassination, sneaking around, and acquiring new faces. This item was not for him, but he was not sure if this item was a God Rank item.

He was quite disappointed with what he got, but he saved it. The first thought coming into his mind was Lu An. It was a perfect item for Lu An. He saved the mask for him later.

Most of his people were inside the dimensional tower. They were competing to climb the tower to the twenty-fifth floor.

"I should have finished the dimensional tower first before taking the trial..." Tang Shaoyang just remembered that he had not climbed up to the twenty-fifth floor. It was just the last floor, and he remembered Arion told him to get to the twenty-fifth floor. Now he could no longer enter the Sky Level Dimensional Tower with his current rank.

That was the reason he still had the gifts in his inventory. The gifts he bought from Duvrag Smithy and Cladeos Emporium still rested in his inventory. He kept them by himself so he could surprise them.

Shaking his head in regret for not being able to finish the Sky Level Dimensional Tower by himself, he then proceeded to receive the second compensation, the Primal Bloodline. A scroll appeared in front of him, floating to be picked up. He took the scroll, and it was for the surprise bloodline.

[Teleportation Scroll]

Bloodline: Devil (Miragul)

Information: Tear the scroll to proceed with the bloodline inheritance ritual

It was not a demon or undead, but a Devil. He heard the name, and in fact, his talent, Wrath was one of the talents that came from the devil. There was zero information about the Devil, and he did not do what Miragul indicated. That just made him unsure of who to give the bloodline to.

Tang Shaoyang was not going to change his bloodline. Since it was a bloodline inheritance ritual, that meant he could not use it to upgrade his bloodline.

[You are an Administrator, you can look into it later.]

His eyes widened in realization when Vandır reminded him. That was right, he got a new class, and the class granted him the authority to check all kinds of classes, skills, talents, and bloodlines. That was what he knew about the Administrators. He kept the Primal Bloodline in his inventory.

He had received the reward for the Administration Class. His fifth class was now Administrator. It appeared on his window status. The notification for them also had gone since he was not in the mood to check them all before. The last step was to receive another new class, another talent, and also a Primal Bloodline or he could choose to upgrade his current bloodline.

Another thing was that he had a land in the God Realm. He did not know how to check his land, he wanted to figure out his Administrator Class. He tried to figure out how to use his class because he needed his new class to choose the three rewards.

For the bloodline, he could get the Primal Bloodline for his wives maybe. He could figure out who had the weakest bloodline and gave it to them. But his decision was firm to upgrade his own bloodline. It was the best way for him to get stronger aside from relying on spirit summoning or advancing his spirits to the next rank.

Then he needed to choose a new class, a new talent, and also a God Artifact. The Administrator Class could help him to choose them, but he needed to figure out how to use the class. He checked his skill lists, trying to find a new skill. It did not take long for him to find out the new skill, the only new skill he got from the Administrator Class, [Administrator Authority].

Tang Shaoyang was excited to check out the skill, but he received a notification when he tried the new skill.

[You can only use [Administrator Authority] in the Administrator Space!]

[Do you want to enter the Administrator Space?]

He was annoyed when the first notification appeared, but then he was relieved after seeing the second one. He made sure to leave a message to Origin and tell his butler where he was going.

Tang Shaoyang said yes, and he was immediately teleported. The teleportation was much better than the other teleportation he had experienced so far. It was a smooth experience for teleportation. He was teleported into a room, a small, 5x5 meter room.

There was a bed, a small wardrobe, a table with a pair of chairs, and a small bathroom. It was empty and looked like it had just been cleaned recently.

[Welcome to the Administrator Space, Junior Administrator Tang Shaoyang!]

[Congratulations! You are one of a few who obtained The Administrator Class in the Trial of God for this season!]

[For more information about Administrator Class, you can join Administrator Orientation!]

[You have limited authority as a Junior Administrator! Please rank up to have more authority!]

[If you have questions or need help, the Smart AI in the Administrator Space, Adam could help you!]

"Can you guide me to the place for me to join the orientation, Adam?" Tang Shaoyang asked the Smart Ai. If it was the same with the Origin, then Adam must be monitoring him right now.

[Welcome to the Administrator Space, Junior Administrator Tang Shaoyang!]

[You don't have to join the Administrator Orientation because you are a special case, Junior Administrator Tang Shaoyang. I will explain everything to you, but you need to re-register first. I will be your guide to help you understand everything about the Administrator.]

Chapter 1598 Administrator 3

Tang Shaoyang followed the guide, coming out of his room. He was greeted with a long hallway with many doors. It felt like he was in a hotel. Following the direction in his head, he turned to the right. There were so many rooms, but there was only him in the hallway.

He picked his pace a little bit based on how long the hallway was. Then he saw the end of the hallway, leading to a big hall. For some reason, this reminded him of the airport, but not that many people. There were around two hundred people of mixed races. He even found a small goblin, not just a normal goblin because of his black skin. It was a black goblin, and he knew it was rude to use Detection without their consent. He refrained from using the skill and followed Adam's voice.

He arrived in front of a counter with a beautiful elf behind it, greeting him with a smile, "Hello, how may I help you, Sir?"

"I want to do a re-registration."

"Alright, give me a moment, Sir." She opened something on her menu, something that could not be seen by Tang Shaoyang. It took her less than twenty seconds, "Are you perhaps, Sir Tang Shaoyang?"

"Yes, I am."

The female elf took out a scroll from her inventory. She showed the content of the scroll, and it was a contract. He read the contract, and it was similar to the employment contract. It emphasized not to break the System's rule and ethic work which was stated in the Administrator Guidelines.

The female took another scroll, and it was written as Administrator Guidelines, "You can read the guidelines first if you want."

Tang Shaoyang nodded and took the second scroll from her. He expected long guidelines, all the rules, something he could and could not tell the outsider. It also told him the privilege for a Senior Administrator.

'Wait...' He read the privilege section again, and he was not misreading or wrong. It said Senior Administrator.

"I think you give me the wrong guidelines, Miss. It says this is for Senior Administrator, and I am Junior Administrator." He thought this might be that kind of test, or maybe it was just an honest mistake from her.

The female elf smiled and shook her head, "No, Sir. I don't give you the wrong guideline. Sir Adam will explain everything to you after you sign the contract."

Tang Shaoyang nodded and dropped his blood on the contract. It was different from the normal contract because his real name appeared below his blood. That was more convenient than the usual contract.

"Congratulations, Sir Tang Shaoyang. You have been promoted to Senior Administrator. You can keep the guidelines."

[Do you want me to start now? Or do you want to find a private space or return your room first?]

"Do you know where I can find a place to eat?" Elin prepared a lot of food for him to save in his Inventory. He had like a ration for a month in his inventory.

He was guided into an open area with a table and chair. He sat there and listened to Adam.

[You get promoted to the Senior Administrator because of your performance. It's also compensation for you for what the Administrator did during the trial. We are very sorry that it happened to you.]

He expected the first two sentences, but he did not expect an apology from The System. He regarded the System as a non-living being, but he felt like the System might be a living being.

[As you know, the privilege is what distinguishes Senior Administrators and Junior Administrators. Do you have a question before we continue?]

"Can you start with the rules, what I can do and can't do, and also the privilege of the Senior Administrator?"

There was silence for a moment as Adam did not respond to Tang Shaoyang. Adam thought Tang Shaoyang was joking around, but soon Adam realized the new Administrator was serious.

[Don't you have the guidelines? All the basics are written in the guidelines, including the non-closure agreement and your privilege.]

"That's right! If you are that lazy to read your guidelines, then you should quit! This is not a job for a lazy bum like you!"

Tang Shaoyang looked up, and a man with short brown hair stood up in front of his table. The man wore some kind of gym-like attire. He did not bother to respond to the man as he continued preparing his food.

It angered the man that he was being ignored like that. Then he noticed the container of food and smiled, "Heh, you really don't fit to be an Administrator. Who will think of bringing food into Administrator Space? This is not a picnic area, newbie. You don't deserve to be here. I can see you will fail all your missions. Spare your future team from troubles and quit!"

Tang Shaoyang straight ignored the man, not willing to cause a scene. Clearly, this uninvited guest tried to cause trouble for him. He did not respond to the provocation and started to open the containers.

The man was getting angrier and was about to grab one of the food containers. But Tang Shaoyang was faster as he grabbed the man's first. He did not know why the thought of killing the man crossed in his head. He could kill the man in one second if he wanted to.

[One of the rules is, that a fight is not allowed inside the Administrator Space. A fight between Administrators will be given a warning. If you accumulate three warnings, you will be put on probation. If you are on probation, The Executive Administrators will decide whether you will be reinstated or not!]

Along with Adam's explanation, Tang Shaoyang's killing intent was suppressed as it immediately disappeared not long after.

"Then what should I do if someone like him tried to take my thing? Should I just let him take my things?"

[You can prevent him from taking your things, and you did it. You don't have to kill him. Of course, you are at fault, Sir Pasma. Please stop provoking Sir Tang Shaoyang. Unless you want to get your first warning!]

Chapter 1599 Administrator 4

Tang Shaoyang thought the man would back down when Adam gave him the warning. He thought Adam was representing The System in this space, but he was wrong. Not only did the man not stop, he pointed his finger at Tang Shaoyang and yelled at the ceiling. The hall was similar to a dome, and his voice echoed to the whole area.

"What!? Are you going to give me my first warning? Do you think I will act like this if you treat all of us equally? How could you promote a newbie to the Senior Administrators when the others are working their ass off to complete ten thousand missions!? This is unfair to us all!"

Hearing the man pour all his feelings into it, Tang Shaoyang found out why the man targeted him. Pasma had a problem with The System itself, not with him. He thought he was just a magnet for trouble hence the man came for him. That was not the case this time.

However, the man vented his frustration on him. Tang Shaoyang could understand the man's feelings, but it did not mean he would let the man called Pasma do whatever to him.

Sure enough, his voice made people come to them and more than fifty people came over to watch. It was the nature of people to be interested in a drama like this. But mostly humans, elves, and a few beastmen were interested. The Undead, Demon, and others just gave them a glance before continuing whatever they worked on.

[If you are dissatisfied with the decision, you can send your complaint to the Executive Administrator. You can directly say it yourself, or it can be in the form of a letter as well.]

"Isn't this funny? You tried to give a warning previously, and you now threaten me with the Executive? I want my justice!" Pasma raised his voice further, trying to win over the people around him.

Tang Shaoyang shook his head, "If you have a bone with The System, can you do it somewhere else?"

"Do you think you can escape from me? NO! You must be here! People must know you don't deserve your direct promotion!"

"Cut it out, Pasma!" Someone came over and intervened, "The decision is absolute, and you know that no matter what you do, it will change nothing. You will end up losing your life if you stick your nose into the place you should not!"

A man wearing a blue suit came over to Pasma. He had a thick beard and blue eyes. He did not even give a glance at Tang Shaoyang as he went directly to Pasma.

"The Executive also did not agree with the decision, but his promotion is absolute. If they can't change it, then you can't do anything either. Also, maybe try not to piss him off. He killed many of us, and maybe that's one of the considerations why he directly gets promoted to Senior Administrator."

Adam failed to calm Pasma down, but this man in a suit easily did it. The man with the thick beard pulled Pasma away from Tang Shaoyang.

Tang Shaoyang furrowed his brows, looking at the back of Pasma and this new man. He felt something fishy as if this was what they tried to achieve.

[Or maybe they are trying to provoke you into attacking them, then you will get the first warning. Or maybe they just want to announce that you are the Administrator killer. Maybe they are from the White Mystery or the Vigamaur Dgaror.] Avyn felt the same with Tang Shaoyang. As if everything was orchestrated.

"So, is there a specific punishment for killing the fellow administrators?" That was his first question when the two left, but they were not that far away yet. He made sure that his voice was loud enough for the two to hear him as well.

[You can't kill your fellow administrator during the mission, or you will be punished for that. But if it's a conflict outside your job, then there's no punishment!]

If they thought that was enough to intimidate him, they made a big mistake. The more intimidation he got, they just created a reason for him to kill them.

[However, as an Administrator, we hope you do not rely on violence to solve all your problems. Sometimes conversation will yield a better result.]

"Yes, some time. How I am solving my problem has no relation to my work. Let's continue with the explanation."

The people who gathered to watch the drama also dispersed, and Tang Shaoyang finally had a peaceful time, enjoying his food while listening to Adam.

First, Adam started with the ranks for the Administrator Ranks. There were five ranks and started from the lowest rank, Admin Helper, Junior Administrator, Senior Administrator, Chief, and Executive.

Admin Helper was a candidate for Administrator, and they were chosen by Senior Administrator and above. Senior Administrators could appoint ten Admin Helpers maximum, but could only appoint three Admin Helpers into Junior Administrators. Admin Helpers did not have any privilege until they were appointed as Junior Administrators.

The Chief Administrator could appoint ten Administrators, and The Executive could appoint up to thirty Administrators. That was a lifetime quota. And of course, the higher the rank was, the better the privilege was.

However, it was not that easy to rank up. From Junior to Senior, one had to complete ten thousand missions for the System. From Senior to Chief, Tang Shaoyang needed to complete one hundred thousand missions. That was right, it was one hundred thousand, not twenty or fifty thousand. It would take a long time for him to reach that rank, and he was unsure if he could get to Chief Administrator in five years or even ten years. From Chief to Executive, one had to complete a million missions and ten special missions.

However, at the Chief Rank, he could buy stuff from the System directly, anything. He could buy anything directly from the System instead of just more complete information. He could buy Primal Bloodline, God Rank Artifact, or even a Talent.

Each time an Administrator completed a mission, they would be rewarded with credits, and the Administrator could use the credit to buy anything. Anything that was available in the shop as there was a certain thing that could not be bought. His Spirit Class was one of the classes that could not be bought.

Chapter 1600 Administrator 5

Aside from accessing the shop, Junior Administrators and Senior Administrators had a quota for missions. Junior must complete at least five missions in one month, and Senior must take and complete three missions a month. If they failed to take the quota, they might get demoted one rank.

The difference between the Senior and Junior Administrators in taking the mission was that the Junior must join a team. Junior Administrator could not take a mission as an individual. Senior Administrators could take the mission independently even though they were advised to form a team.

The Senior Administrator had more freedom. Meanwhile, the Chief and Executive did not have a quota, but the only way for them to obtain credit was through the mission. There were a lot that differentiated between each rank. He listened to all of them while finishing the food.

There was one thing that surprised Tang Shaoyang. The number of Chief Administrators and Executive Administrators. There were 217 Chief Administrators, and there were only 11 Executive Administrators.

He could imagine those eleven executives were the people who had lived more than a thousand years. One million missions were just too much even if the mission accumulated from the Junior Administrator.

Finishing his food, packing the containers, "So how do I use the [Administrator Authority]?"

Adam had explained a lot about Administrators, but Adam had not told him anything about the authority. He needed to check the God Rank Artifact as well as the talent and class.

[You can use the skill normally just like how you used the other skills.]

Tang Shaoyang used the skill immediately, and a menu popped out in front of him. It was divided into five sections.

[Bloodline]

[Class]

[Talent]

[Artifact]

[Treasure]

He tapped Talent and a long list appeared before him. It was sorted alphabetically which was good, and the best thing was that he could find the search bar. That meant he could look for a specific talent with this authority.

The best thing was that he could sort it out by rank. He immediately sorted the talent based on the rank. He wanted the best one for his third talent for sure. It was immediately sorted out based on rank, but there was an issue. For complete information, he needed to be on Executive Administrators.

Then he sorted out the Rank SS Talent, and it was the same. There was no information about them as well. It was the same with the Rank S Talent as well. When he tried to look for Rank A Talent, it provided him with an explanation. The first thing he checked was Zhang Mengyao's talent, Insight.

[Insight]

Information: It allows the user to see two seconds to the future.

Caution: Refrain from using Insight too often as it might cause permanent blindness.

Details: A high Vitality and Magic Power could lengthen Insight!

There were a lot of Rank A Talents with the information, the side effects, and how to improve them. He was interested in Zhang Mengyao's talent before, but he had [Absolute Sense]. While Insight provided vision, Absolute Sense gave him a sharp instinct. Both worked in a similar way, and he did not feel like wasting his reward on Rank A Talent when he could get Rank SSS Talent.

[What about taking another Devil's talent? You have Wrath, and you can take another from the six talents you don't have yet. Pride, Greed, Lust, Envy, Gluttony, and Sloth.] Zara made a suggestion.

[Or maybe you can take something related to your sword technique. I see there's a talent called One With Sword in Rank S Talent. Try to browse all Rank SSS Talent, and choose several that you are interested in.] Vandir added a suggestion.

Tang Shaoyang stood up and headed back to his room. Thanks to what happened earlier, people were observing him more. He did not want them to hear his discussion with his spirits.

[We have assigned a new room for you because you are Senior Administrator.] Adam guided Tang Shaoyang to his new room which was much better than his first room.

At least the new room had a living room, a bedroom, and a kitchen. The room did not really matter that much because he would not sleep, but it was just nice to have a nicer room.

He sat on the sofa and looked for the six devil's talents. Greed, Envy, and Sloth were Rank S Talent. Lust was Rank SS Talent. Pride and Gluttony were Rank SSS Talents. If he wanted to choose one of Devil's talents then it would be Pride and Gluttony.

Following Vandir's advice, he browsed Rank SSS Talents. There were more than one thousand Rank SSS Talents. It took him so long to find an interesting talent based on the name only.

Aside from the six Devil's talents, he managed to sort it out into ten talents that he was interested in the most.

[Sword Saint] [Sword Supreme] [Swordstorm] [Martial Supreme] [Martial Progenitor] [Energy Harmony] [Void Zone] [Berserker Heart] [Solar Heart] [One-Man-Army]

Those ten talents in Pride and Gluttony were the ones that caught his interest. At least, based on the name, those were the things he was interested in the most. He used Heavenly Sword often and his fist technique hence the reason behind choosing: [Sword Supreme], [Sword Saint], [Swordstorm], [Martial Supreme], and [Martial Progenitor].

He could borrow the Heavenly Energy from the Heavenly Beast, hence he put [Energy Harmony] in the list. Mixing Chaos Energy and Heavenly Energy naturally might get him stronger to another level. As for the remaining four talents, their names were interesting enough for him to put into the list.

Especially for [One-Man-Army]. He felt a connection with the talent, and he favored this one over others. It weighed on his mind what if the talent was disappointing. The sword and martial talent would make his Nine Heavenly Gate stronger. He was worried about [One-Man-Army], [Void Zone], [Berserker Heart], and [Solar Heart]. There were also [Gluttony] and [Pride]. He was just getting dizzy thinking about it.

[No matter how bad the talent you choose, it's still Rank SSS Talent. It will be a better talent than the Rank SS or Rank S. Follow your heart!] Avyn encouraged Tang Shaoyang to follow his heart.
