

ARMIPOTENT Chapter 373

She was showing her dissatisfaction with these people. However, they responded with a chuckle, "This is not your home, girl. You better watch out with your words!"

Tang Shaoyang looked toward the voice. The one who responded just now was a man in his early twenties. He was wearing a military uniform and stood behind another man with a big body.

He quickly found the man because of his sharp hearing. Zhang Mengyao also looked in the same direction.

If it was before, Tang Shaoyang believed the girl would ignore these people. But it was now different.

She approached the man and stopped two meters away from the man. Their gazes met, Zhang Mengyao's intense and chilling gaze, the man immediately looked away from Zhang Mengyao.

"Why do you look away? Where's your boldness?" Zhang Mengyao questioned the man, "This is indeed not my house, but someone called Major General Shi Yan invited us to come over. Is this how you treat your guests?"

The man immediately paled when he heard the name of Major General Shi Yan.

Suddenly a hand touched her shoulder, "I am sorry for..." the voice could not finish the words as Zhang Mengyao pulled the hand and slammed the person who touched her to the ground.

"Arghhh!" The scream resounded as Zhang Mengyao twisted the hand and had his right foot stepped on the man's back.

The soldiers immediately raised their guns, there were over thirty people with rifles, and more with handguns. Tang Shaoyang pulled Elin toward him, holding his smile.

If there was any dared to pull the trigger, he would start his initial plan. He was waiting for them to pull the trigger.

"Stop! Stop! Lower your guns! Lower your f*cking damn guns!" Suddenly a man burst out from inside the building. Hearing the voice, everyone lowered the weapon, but Zhang Mengyao was still holding the man down.

"Please release him, we are inviting you to talk, not to fight," The man in a white shirt spoke to Zhang Mengyao.

"Oh, really?" She sneered at the man, "You are inviting us to talk and use these armed forces to greet us at your door?"

More than fifty armed soldiers were at the entrance. They were trying to intimidate Tang Shaoyang, telling him indirectly that they had guns. And of course, this was not Major General Shi Yan's order.

Major Lan Jianhong was trying to stop the incident from worsening. He was not expecting that the opposite party would boldly use violence like this. Of course, his action was not without reason.

Yan Kui told him how they were treated in SH City. Major Lan wanted to pay back, but it backfired. If not for Major General Shi Yan's order, he would order his people to arrest the four.

The order was clear, treat the guests well. He was not allowed to do anything that might provoke the guests too.

He did not understand why they had to lower themselves to these people. However, the command was absolute. It was not his place to question his superior.

"I am sorry, but since we are expecting the guests. We are tightening the security for your safety, just in case something dangerous will attack the base," that was nonsense, but a legitimate reason to deploy the armed force.

"If my subordinates are offending you, I apologize for their behalf," Major Lan bowed his head slightly and quickly raised his head again.

Zhang Mengyao glanced at the man who spoke to her earlier. The man did not dare to raise his head, he just looked down on the floor.

She released the grip as she clicked her tongue, "Tch."

After what happened, the group did not encounter any obstacles. They were guided to the waiting room, "I will inform Major General of your arrival, please wait for a moment."

"They seem to not like us," Delia muttered in a low voice.

*** **

Meanwhile, the Jiaying Subjugation team departed from the territory.

Wei Xi was the commander of the team until Zhang Mengyao joined them. A thousand forces, including the Warriors and Militia Force, and seventy-six Fogged Ape.

Wei Xi was walking next to Yu Shun. When it came to zombies, Yu Shun was more knowledgeable than anyone. He wanted to know more about the zombies so he could anticipate what kind of enemies they would face.

"This is a stage-6 zombie, Buckler!" Yu Shun pointed at the big guy next to him.

The zombie was about four meters tall. The arms were round shields, with scary spikes on the surface. If one got smashed by the shield-like hand, it would create many holes in the body.

"This one has a high defense and great strength. The body is also tough, you need at least a Tier-C weapon to pierce the body. The weakness is the speed, it is slower compared to other types of zombies," Yu Shun explained.

Wei Xi scanned the big guy from the top to bottom. The size of the zombie was enough to intimidate people. It was proved that no one dared to come near him and Yu Shun but a few people.

Li Na, Kang Xue, Liang Suyin, Zhao Zhong, Yan Sheng, Tian Donghai, and Qin Shoushan were listening to their conversation.

"These two are Stage-5 Zombies, Mace!" Yu Shun continued as he pointed at the two that had smaller frames compared to Buckler but had the same height.

"Have great strength, destructive power, and also fast reaction. However, its body is less tough than the Buckler, and the speed is about the same as Buckler's. Just be careful of their maces!" He warned the others, "Stage-6 Mace can easily crush your bone."

"As for the other nine, I don't think I need to explain their traits. They are zombies from another world, Keeper. In short, they are Mage Zombies, be careful of this type as well. We don't know what kind of zombies we will face, after all," Yu Shun pointed at the nine of two and a half meters tall zombies.

All the zombies were covered in a black cloak to hide the hideous visage of the zombie.

"I have another six zombies, but I send them away to scout the path ahead. There is another zombie that you have to be careful with, Shredder," the young man continued with his knowledge about the zombie.

"Shredder is a unique zombie, I can't recreate the zombie at my will, that's why it's unique. Shredder has blade arms, it has higher intelligence than a normal zombie too. If I have to describe Shredder in one sentence, the zombie is the weaker version of Lu An."

Wei Xi was surprised to hear this. Lu An was absurdly strong, especially after they finished the Survival Game. It could be said that he was the second strongest after Tang Shaoyang.

That meant Shredder was extremely fast if Yu Shun dared to use Lu An as a comparison.

"My Shredder is stage-7..." Yu Shun glanced at Wei Xi, "If you are not careful, you can die from the stage-7 Shredder," the young man made a playful smile.

"If only Lu An is with us, we can have the best scout to get all the information about the zombies ahead of us," Wei Xi muttered in a low voice.

"What about the Zombie Lord? Pride informed us that the zombies are extremely organized, which means a Zombie Lord is controlling the zombies. What kind of zombie lord can control millions of zombies?" Wei Xi was fearful of this zombie lord.

"I don't know much about the zombie lord. They are the most intelligent zombie, and the only zombie with a skill I know so far," Yu Shun spoke in an uncertain tone.

"The skill is [Tetrarch], it's a skill that makes the other zombies listen to the Zombie Lord. Of course, the zombie lord is quite skilled in battle too, but still worse than the specialized battle-zombie," he did not know much about the zombie lord.

He did not have a Zombie Lord to use as an experiment.

Swoosh!

Suddenly a black-cloaked figure appeared next to Yu Shun. Wei Xi's hand moved toward the sword, but Yu Shun stopped him, "It's okay, it's my zombie."

Wei Xi scanned the black-cloaked figure, he noticed the blade-like arms. He quickly realized that the black-cloaked zombie was the Stage-7 Shredder.

There was a silent communication between Shredder and Yu Shun. He could tell that even though he could not hear the conversation.

"Shredder found a village a thousand meters ahead, but the village is occupied by zombies," Yu Shun reported the discovery to Wei Xi, "There are more than a hundred zombies there, with most of them are Stage-2 Swiffer."
