

## ARMIPOTENT Chapter 427

[Do you want to sacrifice Grade B Spirit, Orlo the Undead Knight? Yes? No?]

[You have sacrificed Grade B Spirit, Orlo the Undead Knight!]

[You gained 1 level and a random skill of Orlo the Undead Knight!]

[You have learned a skill, [Heavy Strike]!]

[Friction Skill detected...]

[Fusion Skill failed...]

The words kept repeating in Tang Shaoyang. He started to get annoyed for some reason. It made him a little dizzy, listening it repeatedly for an hour.

Just like Zaneos said, he got only a few skills. Most of them would be a skill fusion and fail for being inferior in grade. After some time, he would be getting the same skill over and over again.

He was not going to complain since his purpose of summoning the spirits was to sacrifice them for levels. As for the spirits.

Most of the spirits he summoned were Undead Warrior, Dark Knight, sometimes Demon Soldier, and most of them were, of course, being Undead Knight.

[You have met the requirement for the main Class Advancement!]

[You have met the requirement for the Second Class Advancement!]

He had lost count of how many spirits he had beaten. But with the notification in his head, it indicated that the summoning should be stopped for a while.

The scorching sun was still hanging in the sky, but it barely affected him. If it was before the Game, he would complain about the sun being too hot or something else.

[Do you want to proceed with the Main Class advancement? Yes. No.]

Tang Shaoyang did not immediately choose yes as he wondered for a while, "It's not been long since I advanced to Spirit King, I wonder what is next?" He muttered to himself before he finally chose yes.

[Congratulations! You have advancement from [Spirit King] to [Spirit Sovereign]!]

[Your skill [Advance Spirit Integration] has been upgraded to [Epic Integration]!]

[Your skill [Spirit Summoning] has been upgraded to [Epic Summoning]!]

[Your skill [Spirit Contract] has been upgraded to [Sovereign Rule]!]

[You have learned a skill, [Spirit Link]!]

[You have learned a skill, [Sovereign Aura (Passive)]!]

[You have learned a skill, [Spirit Blessing]]!

[Exclusive Class Bonus Attribute: +20 Magic Power per level!]

[Class Advancement Bonus has been applied!]

[Congratulations! All existing skills have increased by one level!]

[Class Advancement has been achieved. You will now gain 32 free Attribute Points per level!]

[You have completed the Main Class Advancement!]

"Hmmm," Tang Shaoyang rubbed his chin with his index finger and thumb. Aura skill, this was his third aura skill. He had [Slayer Aura] and also [Monster Aura] when he integrated with Karan.

He did not know what the aura was for. He did not feel the benefit from this aura directly. Even until now, he did not understand that skill. Zaneos had no clue either, "Maybe Origin knows something about this auras? Should have asked him before we departed."

There were so many things he needed to attend when he returned to the base. He kept forgetting to ask because he was being occupied with other things, emotionally and responsibility as the Leader of the base. From all of that, paper works he disliked the most.

He had to do the thing he disliked the most, reading the reports for all the updates that happened in the best. It was not something he could skip.

"[Spirit Link], I can try the skill now," He activated the skill.

[There is no spirit available to get linked!]

That was the notification that rang in his head after he tried to cast the skill. There was a specific condition to use the skill, he had to summon his spirit.

"Let's try the skill later then. What about this [Spirit Blessing]?" Something weird with the skill. The skill had a limit to use.

[Spirit Blessing - Lvl 2 (Blessing 6/6 available)]

Tang Shaoyang was kinda worried to try the skill since it was limited to six times. He tapped the skill, trying to find how many Skill Points needed to upgrade the skill.

[Do you want to consume 2000 Skill Points to upgrade [Spirit Blessing] to level 3? Yes. No.]

He was surprised that the skill needed 2000 Skill Points to be upgraded. This was the most expensive skill so far to be upgraded.

Tang Shaoyang shook his head, "Nah, I need more information before I will use it. However, since it's a blessing, that should be something good for the spirit. A blessing for a spirit, huh!?"

This reminded him of how he got the second class. It was a blessing from the Gods of the Arkania Continent, "Maybe the blessing works the same way? The blessing will grant the spirit a second class or even bloodline or maybe a talent? Let's try it later."

[You have chosen [Divine Body (Stamina)], 1 Talent has been consumed!]

[You have learned a new skill, [Resistance (Passive)]!]

[You have learned a new skill, [Perseverance (Passive)]

[You have learned a new skill, [Rapid Recovery (Passive)]!]

[Talent Advancement bonus attribute has been applied! You will gain +48 Strength +22 Agility 36 Vitality +12 Stamina +30 Magic Power +1 Sense per level!]

[You have completed Talent Advancement!]

[Divine Body has been completed!]

The moment he heard the last notification, his vision blurred into darkness. He was about to pass out until he heard the next notification.

[You have resisted!]

The blur and dizziness were gone as his body suddenly became energetic and warm. He felt refreshed even though he almost passed out a moment ago. That was a weird experience for sure.

[You have now become a High Human!]

[Your skill [Profound Pleasure (Passive)] has been upgraded to [Divine Pleasure (Passive)]!]

"High Human? My race changed?" He opened the window status. Indeed, he was not just a human, but High Human. He did not know the difference but High Human should be superior to just Human. However, he was unsure of the benefit of being High Human.

"Mengyao changed her race into Half-Vampire after she awakened her bloodline while I changed my race because of my talent. Again, what's the benefit?" Zhang Mengyao told him the benefit of being a Half-Vampire.

She had innate abilities such as [Self-Healing], [Night Vision], [Blood Manipulation], and she could even grow wings now.
