

ARMIPOTENT Chapter 463

The information she got through the [Basic Detection] only confused her even more. Commander Ashley frowned behind her helmet, 'I have to act cautiously whether they are a native or otherworlder.

'Level 392 Beast, Level 453 Shadow Knight, Level 32 with no class?' No matter how Commander Ashley looked at it, these people were the native of this world with that low level.

'I can't be careless, what about the Demon and the Undead? Was that related to the Emperor's first-class, Spirit Sovereign?' The man was shrouded with mystery. For some reason, she felt that she might not be able to win even though she was seventeen levels higher than the man.

As a fourth advancement, the level difference mattered since the attributes from each level would affect their strength. Her level was higher, but she was not necessarily winning if she fought him. That was the feeling she got from the man.

Tang Shaoyang was aware that the uncomfortableness was because of his high Sense and also his skill, [Dragon Sense]. Even Zhang Mengyao seemed to not notice that the knights used [Basic Detection] on her. So the root problem was his skill and also maximum Sense.

"We are Ashtera Legion of the Lionax Kingdom, and I am the Commander of Ashtera Legion, Commander Ashley," with the same posture, she introduced herself.

If she could, Commander Ashley wanted to avoid the battle and rescue the prince. The others did not matter. Prince's life was the priority.

"Good, let's make things simple! If you want you to assure your prince's life, surrender and hand over the cities you have conquered to me!" Tang Shaoyang did not bother with the pleasantries and directly got to the main issue.

Captain Knight Lucas stepped forward, "I am Captain Knight of Ashtera Legion. Before we start the negotiation, we want you to show us, Prince Kaiden, that he is still alive. If not, we refuse to continue the negotiation!"

Commander Ashley frowned underneath the helmet with the sudden interruption. But she did not stop Captain Knight Lucas since she wanted to know Prince Kaiden's condition.

However, Tang Shaoyang did not heed Captain Knight Lucas. He just straight ignored the man who suddenly interrupted his talk with Commander Ashley. It was momentarily silent between the two sides.

Li Shuang could feel the tension between her man and the opposite party. She subconsciously gripped her palm into a fist. She was nervous that the talk would break out into a fight.

"Are you de-" Captain Knight Lucas was furious at being ignored, but then Tang Shaoyang's figure blurred and appeared right in front of him with a battle-ax. The battle-ax was in the air and descended toward him.

The movement was just too fast that Captain Knight Lucas could not react in time. However, Commander Ashley came in time. She raised the shield and blocked the incoming attack.

Dang!

The frost aura burst out from the shield when the battle-ax hit it, "Urgh..." Commander Ashley was surprised by the man's strength. She was pretty sure that it was just pure brute force. However, even though it was just brute force, she barely negated the attack.

"You are too slow, Commander Ashley!" When she heard the voice, it was followed by a scream. The scream was familiar sounding to her ears. The blood curling scream was coming from behind. She turned her head but she saw nothing.

She looked forward only to find Captain Knight Lucas with missing legs. Yes, Captain Knight Lucas lost his legs, laying down on the ground with the back of his head stepped by the man. She could still hear the muffled scream from her Captain Knight. But the scream was suppressed because his mouth was stuck to the ground.

Badump! Badump! Badump! Badump!

Her heartbeat accelerated as she could not believe this. The man was lower in level than her yet he was much faster than her. On top of that, the man was not in the Agility type class as he used the heavy weapon.

Spirit Sovereign and Primordial Slayer, those two classes were foreign to her, 'High in Agility and higher in Strength,' everything jumbled in her mind but she could not get any useful information.

"You are decent enough to be able to stop my attack," Tang Shaoyang commented and cast [Basic Detection] on her. He felt that the Commander was much stronger than the Captain Knight.

Name: Commander Ashley

Race: Human

Affiliation: Lionax Kingdom

Rank: Commander Knight of Ashtera Legion

Class: Frost Knight

Level: 717

Skill:???

'Frost Knight? She has the same class as yours, Crystal!' Tang Shaoyang spoke to his newly contracted spirit. Crystal, Grade B female spirit also called Frost Knight, 'Don't tell me you are related to this Lionax Kingdom?'

It was possible just like Malki the Fire Ant Emperor. He summoned Malki with the ant sacrifices and Malki was related with the Ant Kingdom in the sixth portal of the Survival Game.

He sacrificed the knights of the Lionax Kingdom and it was actually possible if Crystal related to the kingdom.

—I don't know, Master. I never served a kingdom called the Lionax Kingdom. The Kingdom that betrayed me is the Pyrolis Kingdom. I don't know about this Lionax Kingdom, Master.

"Release him!" Commander Ashley drew her sword and pointed it toward Tang Shaoyang. The other knights immediately followed in tow. They readied their weapons to fight.

"What's wrong, Commander Ashley? I am just giving a hand to help you to discipline an insolent subordinate of yours. It's inappropriate for a subordinate to interrupt when the superior is talking, right?" Tang Shaoyang grinned at the woman.

Bwoosh!

The cold aura burst out from Commander Ashley and started to affect the surroundings. Li Shuang instantly felt the chill. She hugged herself to warm her body from the freezing temperature.

"You are hurting my people, Commander Ashley!" Tang Shaoyang's voice deepened as he directed the battle-ax toward Captain Knight Lucas' neck, "It seems you don't care about your Captain Knight's life," Tang Shaoyang grinned widely.

At the same time, Slayer Energy discharged from his body, sweeping away the freezing aura. He easily repelled the freezing aura with his Slayer Energy.
