

ARMIPOTENT Chapter 525

"Not bad..." Tang Shaoyang commented as he looked at his status window. Who would expect that the tribes could give him a lot of levels? That was a lot of gain for three days, 31 levels in total. He closed the status screen and finished his meal.

After he finished his meal, Aki was waiting for him. The rat beastmen became more tamed after three days of journeying with him. Tang Shaoyang found that the rat beastmen had a concerned look on his face, "What's wrong? Are you troubled with something?"

??

"It's regarding the next tribe, My Lord. We will be entering the swamp that is ruled by the Gator Tribe. The tribe is composed of five gator clans, Silver Steel Gator Clan, Obsidian Gator Clan, Golden Gator Clan, Venomous Gator Clan, and Earthern Gator Clan. They are one of the Major Tribes located in the center layer of the Gigante Forest. The problem is that they have known about our group and are prepared to fight us. The Gator Tribe had gathered the armies of the five clans, this will be tough for us," Aki told him the concerns regarding their journey to enter the Beast Coven's territory.

Tang Shaoyang and his group's name had spread within the Gigante Forest. Especially, after he slaughtered the four tribes. It alarmed the resident of the forest and their group name spread. The resident of the forest called the group The Tyrant. Of course, it was something only Aki knew about. He did not bother to tell his Lord that they had been named The Tyrant, such a trivial thing.

"I see, then wouldn't it the best if they can gather all the five clans so we don't need to visit each of the clans? What's the problem, Aki?" Tang Shaoyang found no problem with the issue. Instead, this would benefit him, shortening their time to take care of the Gator Tribe.

"The problem is that they have a big army. They have ten thousand gator armies ready to fight. On top of that, the Chief of the Gator Tribe has reached Myth Rank and their five elders are in Ancient Rank. I think we have an insufficient force to fight them, My Lord," Aki informed Tang Shaoyang the strength of the Gator Tribe.

"Myth Rank..." Tang Shaoyang muttered in a low voice. He had fought the Epic Rank, but not the Ancient Rank or even the Myth Rank. This was concerning even for him. He did not want that his arrogance blinded his judgment. If that happened, he would lose the force he had gathered so far.

Tak! Tak! Tak! Tak!

Tang Shaoyang tapped his index finger against the table as he thought of something, "Why are you hesitating? You should be able to win against the Myth Rank, right?" Ashley asked Tang Shaoyang. She felt that nothing could stop her man even the Epic Rank was nothing in front of him. Even without the Dragon Transformation, the man could kill the Epic Rank beast. So she thought the Myth Rank beast should be not a problem for him.

"I don't know, I haven't fought one yet," Tang Shaoyang shrugged casually. It was as if his answer was not a big problem while in fact, his answer was giving a huge scare for Aki. This was a do or die, he had made the decision and wholeheartedly followed Tang Shaoyang. If his Lord fell, it was the same for him. He had betrayed the Dark Tribe, no one would receive a traitor like him again.

Tang Shaoyang needed more assurance to win against the Myth Rank. He had that assurance factor but they were not here yet the spirits, "You said the knights will arrive in Biaska Town in a week, right?" He asked Ashley.

"Mnn, if they don't encounter trouble then it will take a week for them to arrive at Biaska Town," Ashley answered even though she was not sure why he asked about that instead of sharing his plan to take down the Gator Tribe. Besides from Selena, no one knew the use of the spirit yet, after all. None of them had seen the spirits fight for Tang Shaoyang let alone witnessing him cast the integration skill.

Tang Shaoyang activated [Spirit Link]. The skill allowed him to activate long-distance communication with the spirit and allowed him to share their visions as well.

*** **

"Yes, Master? Do you need something from me?" On the other side, Zaneos received the call from Tang Shaoyang. He listened to Tang Shaoyang's question.

—How long until you arrive at Biaska Town?

"I don't know, but let me ask the knight," Zaneos approached one of the knights and asked how long it was for them to reach Biaska Town. He got the answer quickly, "We should be able to reach Biaska Town tonight, Master."

—That's faster than I thought...

Zaneos listened to his Master's voice in his head. His Master had not told him yet the purpose of calling him, but he did not ask either. He waited for the other side to say something.

—Alright then, if you arrive at Biaska Town inform with the [Spirit Link]!

That was the last message Zaneos heard before the call was cut off from the other side. Just like Tang Shaoyang was able to use [Spirit Link], the spirits could use the same skill. As soon as the call was cut off, Orleans the Demon Prince approached him, "What's wrong? Did Master tell you something?"

"Nope, he asked us when would we arrive in Biaska Town. Master told me to inform him when we arrive at the town," Zaneos shook his head. The Spirits had gathered and journeyed together to the town.

"I see, maybe he needs our help..." Orleans muttered and looked toward Zaneos, "Let's pick up our pace."

Zaneos was about to agree with the proposal until they heard Aerelion's voice entered their ears, "We have guests, guys! There are hundreds of knights a thousand meters ahead of us!" The big Aerelion landed next to Zaneos and Orleans.

"Finally! We have something to entertain me. My Body is quite stiff walking for days," Bronson who had been idle on the side shouted in excitement. Kairu was quite excited as well for the battle.

Zaneos and Orleans exchanged glances and they nodded, "Then I will scout the enemy first. Get the knight ready to fight as well!" After saying that, Zaneos' figure vanished.
