

## ARMIPOTENT Chapter 548

The fire and the poison clashed in the air.

Pssshh! Pssshh! Pssshh!

The poison evaporated as the fire continued toward Roni. The Chief of the Venomous Gator Tribe was not expecting that Tang Shaoyang would be that fast and countered his poison. He was at his wit's end at the unexpected situation.

As the fire was two meters away from him, the ground was shaking as an earth wall formed right ahead of Roni. The earth wall blocked the fire, causing the fire to spread out to the swamp. It was a Dragon Fire. The water in the swamp could not extinguish the fire as it burned the trees and the aquatic plants. Not only that, the green water was boiling as the fire spread out above the water.

"What are you doing, Roni? Get out of there! My Earth Wall will not last long to protect you!" The dark brown-colored gator yelled at the green-colored gator. Only then Roni snapped out of his shock. He then leaped backward hastily and gathered with the other five leaders who had escaped from the fierce fire.

The Earth Wall melted and turned into lava before it fell into the boiling water. The green steam came up from the water and the fog started to fill the swamp.

"We have to work together. Let's focus on Tyrant. Those guys appeared because of him, and if we kill him maybe it will send them back to wherever they come from," Goldier thought about it. The demon, the Undead, and the Beast like Black wyvern and Chimera should not exist on the Ortis Continent. As someone who had grown up in the Gigante Forest, he was so familiar with the forest.

"Let's not underestimate him no more. We will be going all out from the start!" At his words, the Obsidian Gator Clan's chief and the Silver Steel Gator Clan's chief took the vanguard followed by Goldier and his brother, and Roni with Earthern Gator Clan's chief at the last line.

The Obsidian Gator and the Silver Steel Gator were the first ones to make a move. The boiling water and fog did nothing to them as they rushed toward Tang Shaoyang. The Silver Steel Gator was holding the spears in his two hands and two obsidian round shields formed at the back of his palm. The round shield had thirty centimeters spikes on it on the surface. Getting hit by it might leave holes in the body.

Since Tang Shaoyang was floating in the air, they had to jump into the air to reach him. The first one to jump was the Obsidian Gator. Tang Shaoyang was just three meters above the ground so the Chief of the Obsidian Gator Clan easily reached him. The Obsidian Gator Clan swung the spike-shield toward Tang Shaoyang.

Of course, Tang Shaoyang did not stay still. He had his battle-ax, swinging toward the shield.

Bang!

The clash produced a loud noise, Tang Shaoyang felt like he was hitting an immovable wall. Yes, The Master Protector did not budge from the as he shoved another spike-shield toward him. He was forced to float upward to dodge the scary spike shield.

"This is the first time that someone managed to block my strike without budging," He was genuinely surprised there. With his almost a hundred thousand Strength, he thought was proud of his raw strength

yet this one managed to negate his battle-ax perfectly. Of course, Tang Shaoyang was not aware that the spike-shield had the ability to negate the attack by forty up to sixty percent of his force.

"You should not get impressed by your opponent and leave your back unguarded, Human," The Silver Steel Gator appeared on his back with his dual silver spears. The Silver Steel Gator struck the spear on his head and also his back.

Of course, Tang Shaoyang was aware that he was facing six enemies at the same time. He would keep the [Spirit Eyes] open. He was aware that the Spearmaster was coming from the back. He made a hundred and eighty degrees turn and swung the Dragon Destroyer horizontally, blocking the two spears that aimed at him.

Clank! Clank!

The Silver Steel Gator was getting pushed back by his strong wind. After that, he used his long tail to grab the Silver Steel Gator. The tail coiled around the Silver Steel Gator's right ankle. He brought the Silver Steel Gator higher in the air and slammed him down to the ground.

Boom!

The water splashed as a pit formed on the ground. Tang Shaoyang did not stay still. He made a strong flap and pushed himself higher. The two Golden Gators appeared next to his previous spot as they sent their punches into the empty spot where he just stood. Of course, the attack did not stop there as Roni and the Earthern Gator also did launch their share of attacks.

Roni spat another lump of poison toward him as the Earthern Gator shot javelin made of earth toward him. Tang Shaoyang gathered the dragon fire in his hand and shot the fire toward the incoming poison. The poison instantly evaporated. As for the javelin, he made a wide swing and destroyed the six javelins.

He managed to dodge the first wave of attack and managed to counter one of them. However, slamming the Silver Steel Gator to the ground did not do any damage to it. The Silver Gator came out of the pit with no injuries. But then he furrowed his brows as he felt something amiss.

He heard that they were going all out but he was unsure if they were going all out with this. All their attacks were predictable and easy to dodge as if they were doing something basic.

'They are not that weak, right?' He could not help but question the Ancient Rank and the Myth Rank's power. This was too weak for someone in their rank. He felt that Derekh Malone and Duran Ambrose were stronger than six of them.

As the fight went on, he felt even weirder as they just repeated what they did in the first wave of attack. None of them used their skills yet, and this was repeated four times. They tried to gang up on him but all of them failed to land a single hit on him.

At this moment, the six Leaders of the Gator Tribe looked toward the Obsidian Gator Tribe, "How is it, Obbie?" Goldier asked.

The voice was slow but with his sharp sense, he could hear what they were talking about on the ground.

"He is exceptionally strong but I think we can still defeat him if we work together like usual," The Obsidian Gator replied calmly.

"I doubt that for a second but I will trust in your judgment as always," Goldier looked toward the air. The reason he said that was because the Silver Steel Gator kept getting pushed back by The Tyrant.

Tang Shaoyang felt that the six gators were planning something but he did not know what it was. Then he noticed that Goldier glanced toward Roni and the Earthern Gator. The green-colored and the deep brown-colored gator nodded their heads before they made a distance from the group.

"Let's have a real fight, shall we?" As Goldier said with a smile, his palm came together at the level of his chest, "[Anti-Mana Domain]!"
