

ARMIPOTENT Chapter 574

Rogin, Togin, Bagin, Mugin, Bain, Dorin, and Hagin. Tang Shaoyang collected the septuplets Troll Warlords that he could barely differentiate. He completed the septuplets Troll Warlords in the nineteenth wave. Since then, the spiritual space had become a lot noisier as the Grade B Spirits remained silent.

They did not dare to converse with the higher grade spirit. But there was an exception, the Obsidian Golem Newborn was making a friend with Maldros the Black Storm Dragonewt and Vera the Adolescent Inferkost. He often listened to their conversation where they talked about their experiences during their lifetime.

Tang Shaoyang had to cut off his connection to his Spiritual Space in order to have a calm mind, "I need someone to manage the spiritual space so they will not disturb me,"

He had heard from his spirits that the Spiritual Space was a world within him. He was the core of the world. As long as he was alive the world would be maintained. If it was a different world then he needed someone to manage that new world, "I can ask Orlean and Zaneos to manage those spirits, Bronson might be the right spirit to keep them in check as well,"

Tang Shaoyang thought about it as he went back to the stone pillar. Bronson was the highest grade spirit so far, the only Grade SS Spirit he had. Even though the grade did not really matter but from his experiences fighting with his own spirits, Bronson was indeed the strongest, "I will take care of that once I finish this trial, maybe I can summon a new Grade SS Spirit,"

There was another frustration. Despite the Ancient Rank Monsters' sacrifices, he still failed to summon a Grade SS Spirit. Grade S+ Spirit was the highest grade he could summon so far.

"Don't tell me that Grade SS Spirit could not be summoned..." He paused as he thought about Rumru the Black Dragon. The Black Dragon was a Grade SSS Spirit, it should be possible to summon the Grade SS Spirit.

Tang Shaoyang arrived at the stone pillar and placed his hand on it. He then activated the next wave of the trial.

[The Trial of the Epic will continue to the Twentieth wave!]

[The twentieth wave will spawn in five minutes!]

[Twentieth Wave]

Composition: 450,000 Stage 5 Monsters, 210,000 Stage 6 Monsters, 95,000 Stage 7 Monsters, 38,000 Stage 8 Monsters, 15,000 Stage 9 Monsters, 210 Epic Rank Monsters, 12 Ancient Rank Monster

Countdown: 00:04:59

"Twelve Ancient Rank Monsters, maybe this is my chance to summon Grade SS Spirit?" He was being hopeful with the sacrifices, "Or maybe not," He then noticed that Stage-4 Monster was not included within the wave.

"No wonder I felt like there were fewer monsters before," He felt that the number of the monsters was reduced in the nineteenth wave. It was clear now that the stage-4 monster was removed from the wave. The number of the stage-4 monster was dominating the wave before though their number did not matter to Tang Shaoyang.

Five minutes later, the twentieth wave spawned and attacked him. He fought 210 Warbears and 12 Serpentos. Those were his real opponents. But again, Tang Shaoyang made sure to kill the Serpentos before they could use their poison before he killed the Warbear.

Tang Shaoyang finished the twentieth wave in twenty minutes thanks to the stage-4 monsters that were removed from the wave. He could finish the wave faster with fewer monsters needing to be killed. As usual, after he killed them he summoned the next spirit.

[You have summoned Grade S+ Spirit, Hargug the Helion Wolf!]

"The second Helion Wolf after Ronan..." Tang Shaoyang muttered in a low voice as he looked at the Helion Wolf that came out of the dark-red mist, "Don't tell me Hargug is your brother, Ronan?"

—No, My Lord. We, Helion Wolf, do not have siblings or parents. We live alone

"What? How is that possible? Then who gave birth to you if you don't have parents?" That was a ridiculous answer.

—Hell! Hell is the one who gives birth to us so we can't call it our parents!

That was an interesting answer for sure. Hell was supposed to be a world just like Earth, Arkania, and Lukan. However, the world called Hell could create a creature like Helion Wolf.

"Then it makes all Helion Wolf your siblings since you guys were born from the same place?" Tang Shaoyang was interested in this Hell. There's a possibility that this Hell is not a world too but a creature, a creature that became a world? He felt it was nothing possible with the system around.

—No. We were born in Hell but we have to fight to survive. We fought each other to fill our bellies. I don't think we are siblings if we want to kill each other.

"Hmmm..." Tang Shaoyang rubbed his chin as a crazy idea crossed his head. The idea was to conquer this Hell. If he conquered Hell then he could have an unlimited yet strong army. That was a crazy idea for sure but he still lacked the data about Hell, and before he thought of conquering Hell he needed to find a way to reach Hell first.

His thoughts were interrupted by Hargug who took the initiative to attack him. Alas, Hargug was not even a challenge for Tang Shaoyang who was still in his transformation. He defeated Hargug in less than a minute.

[You have established a contract with Grade S+ Spirit, Hargug the Helion Wolf!]

"Hah, another Grade S+ Spirit..." He let out a sigh before he flew back toward the stone pillar, "At this point, I can reach the thirtieth wave with my Dragon Transformation,"

Tang Shaoyang realized that each time he leveled up his mana would back full. At this point, a wave of monsters was the same as a level for him. Sometimes, he would level up twice after clearing the wave.

[The Trial of the Epic will continue to the Twentieth-one wave!]

[The twentieth-one wave will spawn in five minutes!]
