

ARMIPOTENT Chapter 584

Tang Shaoyang looked at his total attribute points. He had 1,763,962 million Attribute Points. That was massive, and he realized that now all specific attributes became attribute points. It did not directly allocate to strength, agility, and others. He had to do it manually now. That was a big difference when before he reached Epic Rank except for Sense. He noticed that his Sense had become 5-Star.

"Now let's plan it out carefully." If it was him beforehand, he would smash all the Attribute Points into Strength. However, he realized he needed a lot of manas to sustain [Spirit Manifestation].

"Let's try raising my strength into 2-Star." Tang Shaoyang spent twenty thousand attribute points on Strength.

Strength: Epic (2-Star) [0/20,000 AP 3-Star]

He was surprised when he saw the result. He thought it needed over twenty thousand attribute points to reach 3-Star, but it was the same attribute points. "I can reach 10-Star Strength if I spend two hundred thousand attribute points."

Tang Shaoyang then raised his Strength to 10-Star. He spent two hundred thousand attribute points for that. He did this for a reason. It was to find the maximum star he could get. He thought 10-Star might be the maximum. Unfortunately, 10-Star was not the maximum. However, he got good news after raising his strength to 10-Star. It was the number of attribute points needed to reach 11-Star was still the same. Twenty thousand attribute points to reach 11-Star.

"I assume it's the same for the other attributes." He assumed that the other attributes needed the same AP. He contemplated how to allocate his million attribute points. Of course, a minute was not enough for that. Before he could think of how to allocate his attribute points, a portal formed next to the stone pillar.

Even though he did not jump into the portal, it sucked him. This time, he felt nothing from the teleportation. The moment he opened his eyes, he was back in Roan's office. He did not feel the difference before because there was no one but him in that separate dimension. Now he could feel the difference when there was someone around him.

He could feel the presence of three people in this room. To his surprise, he could even feel what these three people felt. Two of them were worried, and another was stiff and nervous.

Tang Shaoyang glanced at the two people who were close to each other. He saw Selena and Ashley. Both girls were looking at him as well. He was about to greet them, but the girls rushed and jumped into him. Yes, Ashley also jumped onto him. The two girls were clinging to him like a monkey clinging to a tree.

"Why didn't you tell us you were going to take the Trial of The Epic?" Selena said with her soft voice. There was a little resentment in her tone.

Tang Shaoyang wanted to say that he did not want to disturb Ashley, who just lost her father. He was the one who killed her father, after all. Even though her father was a jerk, it was still bad if he appeared before while she was still recovering.

"My bad." Maybe because he could feel their feelings, so he did not say it out loud. He became a little sensible with his words. Tang Shaoyang then glanced at Roan, who had a change of feeling. Roan was nervous before, but the old man was shocked for an unknown reason.

"Have we finished evacuating the knight's families?" Tang Shaoyang broke the ice with another topic. The Malone Family and the Ambrose Family's knights submitted toward him, so Carl and Tristan were getting their families to Biaska Town before the Revolution Army noticed.

"We have taken care of that, My Lord..." Roan's words trailed off. There was something the old man wanted to ask, but he was hesitating to ask.

"What's wrong? Do you have something in mind?" Tang Shaoyang walked to the couch and put the two girls on that. "Sit down properly, Roan is here." Only then the two girls released their hands from him.

He was about to sit, and Selena pointed at the flying lizard above his head. The three were too excited and shocked with his return, so they did not notice there was a flying golden lizard with him.

"What's that? Golden flying Lizard?" Of course, no one would think that the small thing was a dragon, especially with Wrath's current size. The Golden Dragon was angry at being called a flying lizard. Wrath was about to lash out at Selena, but the little guy held back when he met Tang Shaoyang's gaze.

"He is not a flying lizard, but a Golden Dragon." When Tang Shaoyang said the little thing was a dragon, the two girls smiled at him. They thought Tang Shaoyang was joking with them. However, soon the smile disappeared when they saw a serious face on his face. He was not joking.

"You will not believe me if I don't show this to you guys." Tang Shaoyang shared Wrath's window status. "His name is Wrath, and I don't think you should call him lizard again."

Selena and Ashley looked at the window status and looked up at the flying little dragon. They kept looking back and forth between the window status and the actual dragon. They had a disbelieving expression on their face.

Roan came over to see as well, and then his eyes widened in shock. The old man was about to fall backward, but he managed to balance his footing in time. "Did you get the Dragon as a reward, My Lord?"

That was the only possibility for Tang Shaoyang to have a dragon pet. Even though it was still in the Adolescent Stage, a dragon is a dragon.

"Nope, I clear all thirty waves of the Trial of The Epic and face this guy at the special wave of the trial. I beat this little guy until he submitted to me." Tang Shaoyang summarized how he had Wrath with him. That was what actually happened.

"Wait, what?" Roan failed to comprehend what His Lord said. Thirty waves? Special wave? It was unheard. No one in the history book had even reached the twenty-fifth wave, yet His Lord was talking about the thirtieth wave and a special wave.

"Wait, did you finish the Trial of The Epic within three days?" The shock just never stopped until Roan felt numb from the shock. He just could not comprehend how all of this happened.

Ashley looked at Tang Shaoyang as if he was an alien. As someone who knew how hard the Trial of The Epic was, Ashley was in a state of disbelief like Roan. In their minds, no way that could happen.

"Let me tell you what happened if you guys want to know." Tang Shaoyang sat next to Ashley. His butt just touched the soft couch until a black shadow jumped into his shoulder. Greed, who was in the other room, noticed his Master's return.

"Hello, buddy. How's your day?" Tang Shaoyang rubbed Greed's fur. The cat enjoyed the treatment. It closed its eyes and napped on his lap.

"Who is this furred creature?" Looking at Greed who napped on his Master's lap, only then Wrath dared to stop on his shoulder. After the fight between them, the Golden Dragon did not dare to act brazenly in front of his Master lest His Master would dislike him.

Greed merely opened his eyes and glanced at the Golden Dragon before it closed its eyes again. There was a spark between the two creatures. However, Tang Shaoyang paid no attention to them as he recounted what happened during the trial to the three people who were eager to know what he experienced there.

After Tang Shaoyang told them everything, Roan was standing still in a daze. When he heard the monsters' rank his Lord had to face in a wave and their number. It was unbelievable, and if those words were not coming from his Lord, then he might not believe it.

Ashley's reaction was not far from Roan. She was shocked as well. Not only the man had to face a harder trial, but he finished the trial in just three days. Yes, it had been three days since Tang Shaoyang took the Trial of The Epic. They did not expect him to return today even though they had been waiting in Roan's office since morning.

Only Selena had a different reaction. It was as if she expected her man would do something amazing like this. It was something normal to her. She was not surprised at all.

"I see, so it's been three days. There are still three days until the Dark Tribe and the Green Sky Serpent will attack Kirin." Tang Shaoyang muttered in a low voice, "There's still the Gator Tribe as well. It seems we have to skip the Beast Coven."

"Alright, girls. Can I have some time alone to get used to my strength?" Tang Shaoyang then held the wooden table. He just touched it, but it cracked with his touch. "I don't think I can hold anything until I get used to my current strength."

He looked at the two girls. "Get some sleep. We will depart into the Gigante Forest next morning." He noticed it was night already. So he had an entire night to sort things out before departing to Gigante Forest. He had to allocate his Attribute Points, and he had a lot of discussion with the spirits that buzzed in his head. The new spirits met with the old spirits... There were a lot of things that needed to be sorted out before he could continue his conquest into Gigante Forest.
