

ARMIPOTENT Chapter 608

Tang Shaoyang saw a funny expression on the Green Sky Serpent. Its green eyes widened in fear as its jaw dropped, staring blankly at Tang Shaoyang. Just as he predicted, he could summon the Green Sky Serpent, who had a deep hatred before he died.

'He haunts me even in the afterlife...' Suvan shook his head, thinking he might see things because of his fear of this man. He tried to get rid of his fear and closed his eyes for a few moments. After a while, he opened his eyes again only to see the same man who killed him, grinning ear to ear at him.

Tang Shaoyang caressed his chin and thought about it. "Grade SS+ Spirit, a level higher compared to Zaneos and Bronson, but you are not The Grade SSS Spirit I am looking for. What should I do now?"

He considered sacrificing Suvan because of the skill it had. He knew that the chance to get the skill was small, but it was worth a try. Aside from the skill, he would get levels and Spirit Power... He needed Spiritual Energy to use a specific skill from his primary class. It was just another dilemma for him.

The Green Sky Serpent did not know what the man was talking about. He was in a panic and looked around anxiously, only to find out he was in a familiar place. It was the same place where he died, but he did not see his dead bodies, and he saw the remnant of the Dark Tribe's elite force as well.

"Where is this?" Suvan blurted out as fear and confusion mixed within his tone. He was panicking as if he was in a nightmare.

While the Legend Rank Beast was panicking, Tang Shaoyang had come up with a decision. "I don't think I can work with someone who has a deep hatred toward me, and it's better to sacrifice this big guy." He did not want to take the risk that his spirit would backstab him in the future.

Tang Shaoyang was about to call Bronson and Zaneos, and those two spirits might want to fight the spirit of a Legend Rank Beast. However, he noticed the magic circle appeared above Suvan's head, which meant Suvan had submitted to him.

In order to sacrifice the spirit, he needed to beat the spirit first, and he could not just use the [Spirit Sacrifice] to the spirit of his will. The spirit needed to be subdued to use the skill, which was the skill's condition.

In this case, the spirit submitted on its own, meaning he could use the skill directly on the spirit. He did not think that the Legend Rank Beast's spirit would be easily broken down like his. "Thanks for making it easy."

Tang Shaoyang extended his right toward the gigantic spirit and cast [Spirit Sacrifice].

[Do you want to sacrifice the Grade SS+ Spirit, Suvan the Guardian Beast?]

[You have sacrificed the Grade SS+ Spirit!]

"No, please don't! Please don't kill me again!" The Green Sky Serpent seemed to realize something and begged Tang Shaoyang. "I will do anything for you. I am willing to be your slave, anything, but please don't kill me. Give me a second chance!"

He realized that he was about to be killed again. The gigantic serpent begged for his life, but the man did not budge even with his pleading. His firm and cold eyes were telling him that he was done for.

"I CAN'T ACCEPT THIS! WHY IS THE WORLD UNFAIR TO ME!? I HAVE BEEN WAITING FOR THIS MOMENT..." The words cut off as the Green Sky Serpent's existence faded away. A profound silence followed after that as everyone just witnessed the legend of the forest disappeared from the world.

[You gained 212 levels and a random skill of Suvan the Guardian Beast!]

[You gained 1212 Spirit Power!]

[You have obtained a skill, [Seven Souls (Passive)]!]

"[Seven Souls (Passive)]?" Tang Shaoyang muttered in a low voice. From the name of the skill, there was a chance it was a skill he wanted. However, he was not sure as he had to die if he wanted to test the skill. If he did not come back alive, then it was not the skill. He ignored the fact that he just got another 212 levels from the sacrifice as he rushed toward Kalliyen.

"Do you know the skill's name Suvan's seven lives?" He asked The Kirin, who might know the name of the skill. At the same time, he also asked the Angel of Death. Zara, who had vast experience, might know the skill as well.

—I don't know. I never encountered someone with seven lives. Even a God only has one life.

That was Zara's answer. His only hope was Kalliyen, and he looked at the Legend Rank Beast in the eyes.

Kalliyen did not know why her Master asked that all of a sudden, but she indeed knew about the skill a little bit. Suvan was not the first beast to have that skill. "The skill's name is [Seven Souls]? Or [Seven Lives]? Something like that." The Kirin nodded her head.

Tang Shaoyang grinned ear to ear when he heard that. He was not expecting to get the skill, for sure. He was ready to be disappointed, but the lady luck was on his side, and he got the jackpot.

Kalliyen did not know about her Master's sudden mood change, but as long he was happy, that was good. She did not want to piss her new Master after what she witnessed just now. She could not even achieve the same thing as this man in order to kill Suvan. However, this human easily killed one of the strongest existences in the forest. Getting on his good side was the best decision she had ever made in her life.

"Alright, get your kids with you. We will be leaving after I finish cleaning the mess." Tang Shaoyang glanced at the corpse of the Dark Tribe's elite force. Those corpses were worth a lot for the sacrifice since they were an elite force. He might summon a Grade S Spirit or even Grade S+ Spirit.
