

ARMIPOTENT Chapter 628

When the atmosphere in the room turned weird, Tang Shaoyang immediately changed the topic. "What about the war? Did The Beast Coven surrender? Or did you guys destroy..."

Ashley let out a sigh at the obvious attempt of changing the topic, but she was uncomfortable talking it out, so she followed the rhythm. "We won the war, and the Beast Coven surrendered. We have everything under control now."

"I see..." Tang Shaoyang expected the result as soon as he noticed Zara, who was still here even though he passed out. As long as the spirit armies were out there, the Beast Coven had no chance to win against his force.

"What about Alton? What happened to him? I thought I was dead for sure since I passed in front of him." Tang Shaoyang recalled the last moment before he passed out. He saw Alton's silhouette in front of him.

"Kalliyen came at the right moment... She saved your life..." Zara explained what happened after he passed. How the Kirin saved his life, and how Kirin took care of the war afterward. She did single out a detail about the war.

"I see..." Tang Shaoyang nodded his head once again. He thought he was alive because of the new skill he gained from The Green Sky Serpent. It was a relief and also a disappointment. It was a relief because Kalliyen saved him, and it was a disappointment as he could not figure out if [Seven Souls] was the right skill for the resurrection.

He tried to get up, but Zara held him down. "You should take more rest. We will take care of the rest to make sure there's nothing for you to be worried about."

"I am fine." Despite the force being applied to pin him down, he easily pushed her hand as he got up. He was not in his transformation. It was a surprise that he could easily push her hand away like that. "Don't exaggerate things. I am fine. I told you this is a good thing for me. There will be no problem with me."

Tang Shaoyang did want to stay in bed all day when he had a lot of things that needed to be done. The first thing he needed to do was how to face The Elven and The Moonlight Tribe. These two forces' strengths were unknown, totally different from the Dark Tribe and the Beast Coven that were very active in Gigante Forest.

"What about the representative from The Elven and The Moonlight Tribe?" Tang Shaoyang looked at Selena. They should be alive with Selena's healing ability. He told Zaneos and Bronson not to kill them because he had a use for them.

"They are fine for now. Selena healed them per your order." Ashley reported the current situation. "We imprison them in the dungeon for now."

"Good. Lead me to meet them. It's time to use those two tribes to bait the Moonlight Tribe and the Elven out from their hideout. We don't have much time since Allan betrayed the Warmir Kingdom." Tang Shaoyang got up from the bed and stretched his body. He felt his body was lighter than usual, and he could feel that his senses became sharper as well.

"Do you feel any different with your eyes?" Ashley came over and asked him. The noticeable change in his eye was the main concern to her.

Tang Shaoyang squinted his eyes and looked around. He realized that he saw something he had not seen before. With the Dragon Eyes, he could see the mana that flowed in the atmosphere. However, after the evolution, he could see the different energy that flowed along with the mana. He saw faint dark energy with the mana.

—That's the Demonic Energy we demons use. It's a demon's mana, and you can use it as well since you have Demon Heart, My Lord.

Zaneos' voice rang in his head. After he passed out, the integration was canceled. Aside from the three women, he was the fourth that was anxious with Tang Shaoyang's predicament. It could be said that it was him who put Tang Shaoyang in danger. If Tang Shaoyang did not integrate with him, that would not happen.

—I am glad you are returning even stronger, My Lord. However, that's my fault for putting your life in danger. If not for me, you will not pass out. I apologize for my carelessness, and this servant deserves the punishment.

'What are you talking about, Zaneos? You are not in the wrong here. In fact, this is a blessing in disguise. Do you know what I get from evolution?' Tang Shaoyang shook his head.

—Regardless of what you got from evolution, I am the reason why you are in danger. If I had been more careful with the situation, you would not pass out in the middle of the fight like that. If I don't transfer my ability and also my experiences to you-

The Demon Swordsman could not finish his words as Tang Shaoyang cut him midway. 'The System rewarded me with 200 levels. On top of that, I got a lot of Attribute Points from the evolution as well. This is an enormous fortune for me. Even if Alton killed me back then, don't forget that I have [Seven Souls]. In fact, I should be thankful to you; if not for you, this evolution would never happen, though I agree that we have to be careful in the future.'

He tried to comfort the Demon Swordsman not to feel guilty. Zaneos was not at fault since Zaneos was trying to help him. If not for Zaneos, he might lose against Alton.

As Tang Shaoyang had a conversation with Zaneos, he headed toward the dungeon. The eight prisoners would be a pawn for his next big step. Zaneos did not respond to him again since the demon could sense what he felt right now. The Demon Swordsman sensed the sincerity in his words that comforted him slightly.

As Tang Shaoyang headed toward the dungeon, the spirit armies followed him closely. They were afraid that something would happen, so they followed him closely.
