

ARMIPOTENT Chapter 66

Tang Shaoyang left the cafeteria, he headed toward the elevator. It was a private elevator exclusive to him, Zhang Mengyao, and Lu An.

Once he pressed the arrow down button, the door immediately opened. Zhang Mengyao was in the lobby and Lu An was still in his room.

No one used the elevator hence he did not need to wait. He got inside and pressed the L button.

Ding!

"Huhuhu, they still have the nerve to come back after leaving the base? Teaching them some lessons may not be enough, what should I do about them?"

Tang Shaoyang rubbed his chin as he walked out of the elevator.

His eyes glanced toward the entrance. Indeed, he saw a big group outside the door. There was a little commotion as well.

'I should wait for Lu An to bring my Destroyer. With my weapon, I look more intimidating.'

Tang Shaoyang walked toward the counter, where two beauties stood up behind. The two beauties did not notice his arrival as they kept glancing outside worriedly.

The battle against the zombie horde just finished. Now there was a group coming to create some trouble.

"Do you know them?" Tang Shaoyang asked the ladies.

The two receptionists were startled by Tang Shaoyang's voice. They almost jumped out but they immediately bowed their heads as soon as they noticed Tang Shaoyang.

"Boss!"

"Mnnn," Tang Shaoyang nodded and pointed at the crowd, "Do you recognize any of them?"

The two ladies looked toward the outside. As this was their Boss's question, they took that seriously. They scanned the crowd one by one but they recognized no one.

"I don't know!"

"I can't see all of them but there may be someone I recognize there,"

Both ladies gave a different reply to Tang Shaoyang. Then, they waited for Tang Shaoyang's response intensely. However, he merely nodded his head as he rested his hand on the counter as he watched the outside's situation.

The question was just to spend his time while waiting for Lu An. He had no other intention with his question.

Meanwhile, Li Na who did not know what happened outside was currently on the underground floor. She was about to get her class after getting Zhang Mengyao's consent to choose a class.

There were only limited Unique classes, Li Na was chosen as someone who deserved to choose a Unique Class after the battle against the zombie horde.

Now, she was standing in the room of class advancement. She was unsure and nervous. The girl did not know what to choose.

"Should I choose a basic class instead?" She began doubting herself despite knowing how important the class was.

She was afraid of wasting a Unique Class. Choosing a Unique Class meant she would hold a bigger responsibility in the future. It was natural if she chose a Unique Class.

[Stupid girl! If you want Master to notice you, you should have chosen a Unique Class instead of a basic class! Do you think Master will look at you if you choose a basic class? Do you forget the reason why did you quit the useless receptionist job?]

Origin's loud voice rang inside the girl's head. It startled her. Indeed, Tang Shaoyang was the reason why she decided to join the frontline. If she chose a basic class, she would be an ordinary female like the others. If that were the case, Tang Shaoyang would not be looking at her, and all her efforts were in vain.

Li Na gritted her and looked at the translucent screen in front of her once again. Choosing a Unique Class cost her 0 GC, it was the empire sponsored her

Unique Class:

1. Summoner [Advance Class] (1,000,000 GC)
2. Assassin [Advance Class] (Not Available)
3. Swordsman [Advance Class] (1,000,000 GC)
4. Ranger [Advance Class] (1,000,000 GC)
5. Knight [Advance Class] (Not Available)
6. Berserker [Advance Class] (1,000,000 GC)
7. Cleric [Advance Class] (1,000,000 GC)

8. Flame Mage [Advance Class] (1,000,000 GC)

9. Blacksmith [Advance Class] (1,000,000 GC)

10. Spirit Contractor [???] (Not Available)

Li Na's lips moved as she read all Unique Classes one by one. After reading that, she looked at the bow in her hand.

"Should I choose [Ranger]?" Li Na questioned herself. Her thoughts were simple, based on the name of the Unique Class, [Ranger] was the class that related with a bow.

[Do you want to hear my suggestion?] Origin's voice rang again inside her head.

Li Na did not immediately answer Origin. She felt that she had to choose by herself without Origin's help. If the cycle continued where she always listened to order when a situation like this occurred to her. She would never be standing out and the chance of Tang Shaoyang looking at her was small.

'But then again, I have no choice but to trust Origin at this time. I have no clues about the class, listening to his suggestion may be the best choice in this situation,'

"I would like to hear your suggestion, Origin!"

After struggling with her inner heart for a while, Li Na chose to listen to Origin's suggestion.

"What's the best Unique Class for me?"

[I have two suggestions for you, but listen to me until the end, okay?]

Li Na nodded her head.

[Good, the first choice is [Ranger] as you most excelled with a bow than the other weapons. Just like you guessed, [Ranger] is a class that relates to a weapon like a bow, However...]

Li Na did listen to every Origin's words.

[However, if you look from the group's perspective, the Empire's perspective, [Ranger] should be given to someone good with a bow, someone that much better than you so that person could utilize the class well, right?]

Li Na did not get Origin's intention at first. But then, she understood it after she listened to the next words.

[Are you the best archer in the group?]

The girl came into a sudden realization as scene after scene flashed in her head. She recalled the battle that was still fresh in her mind.

She figured out that there was someone that much better than her using the bow. No, not only better than her, but the figure in her mind was the best in the group.

"I see..." Li Na nodded her head. If she looked for the group's interest then she should give up picking up [Ranger]. She should leave the class for the person in her mind.

"Then what about the second suggestion?"

[Just a reminder, I am not preventing you from choosing [Ranger]. You are given the privilege as the fourth person to choose a Unique Class. It means the Empire trusts you, we will not blame you if you choose [Ranger] to be your class]

"I know! But I want to listen to your second suggestion before I decide on my class," Li Na did not think so. Indeed, from the Empire's interest, she had to give [Ranger] to that person.

[Good! My second suggestion is [Summoner]. I can't tell much except about the class but you can guess it based on the class name, right?]

Origin gave her an unexpected choice. [Summoner] was the last choice in her mind but Origin recommended the class to her.

'Does this class is the best one for me?'

Li Na fell silent after hearing the suggestion. She was thinking of taking [Swordsman] class. She could learn to use a sword, but Origin's suggestion caused a hesitation.

[If you want to hear my third suggestion, then [Cleric] is also a good option. But if you want to achieve your goal, [Summoner] is the best one in my opinion]

[But of course, you can choose the other classes as well. The choice is in your hand, girl!]

For some reason, Origin's suggestion sounded convincing to her. After she struggled for a moment, then she decided to take Origin's suggestion.

"Alright, I will trust you once more! I will choose [Summoner],"

Li Na then pressed [Summoner] with her finger.
