

ARMIPOTENT Chapter 739

Li Shuang had the expression 'I read them like a book' on her face after Hines Myers' last sentence. She guessed right on the spot about the World Union and the other five VIP factions' plans. "They don't want to centralize the command; they just want to absorb the smaller faction power into them."

"We hope to stop the meaningless fight between ourselves and work together to build a new world together. Of course, we can only achieve this if you guys work together with us. By helping each other, it is just a matter of time before we can build a brand new world together..." Hines Myers continued his speech by sharing his vision about his new ideal world. It was too ideal to be real, in fact.

The Central Government was built with a council in the highest command. The Council itself consisted of twenty members chosen from the factions. As for how they would select the member, Hines Myers kept the qualification hidden and said they would discuss it later after the Central Government formed.

"What do you guys think? Should we join them?" Cao Jingyi asked with a smile on her face, and her tone was full of sarcasm.

"Don't joke around like that, Cao Jingyi!" Wei Xi was alarmed and raised his voice when he heard his wife's words. He knew Tang Shaoyang too well that that man would never agree to join this kind of thing. If Tang Shaoyang knew his wife said that, it would not surprise if Tang Shaoyang executed her as it was not far from treason.

"Tang Empire's representative! Can you lower your voice while I am speaking here?" Being interrupted, Hines Myers squinted his eyes and gazed at Wei Xi.

The latter smiled and bowed to apologize before returning to his seat. His wife was laughing at him, the same for the others who picked her joke. Only Kang Jiayin rubbed the space between his eyes in distress. 'Maybe because I am too old right now. I don't have the same energy as these youngsters.'

They laughed and joked around even though the big powerhouse was about to be established. If the Central Government was successfully established, it could become a faction that ruled the world. Especially with the six VIP factions who agreed to join. It would be hard for a new VIP faction to emerge with the Central Government.

Hines Myers continued that the Central Government would also create a military system, meaning the faction had to send their fighters to join the military. Most of them were similar to what the Tang Empire had done in their territories.

Hines Myers took his time and spent thirty minutes on the platform to explain their plan. At the end of his speech, he revealed something to deter the VIP faction and the smaller faction. "The World Union has a discussion with five VIP factions, and we have discovered something that might interest you in joining us to form the Central Government. The highest-level player the System mentioned is one of us. We disclosed our level to each other, and I am that person."

"I know that you may not believe in me, so I will disclose my level right now." Hines Myers smiled and disclosed his level. "I am level 1289, and I am an Epic Rank. If you wonder what Epic Rank is, I can't disclose this information to you guys. This information is exclusive only to the faction that is part of the Central Government."

"Bullsh*t..." Everyone heard that voice from the Tang Empire's booth. But the voice was cut off midway, so they could not hear the following words. Zhang Mengyao was quick with her hand as she immediately turned off the canceling noise.

"You can't say that, Lu An." Zhang Mengyao immediately scolded the young guy.

"What do you mean I can't say that? They are clearly lying. Level 1289 is the highest level? I am level 1434 already. You should expose them so we can prevent them from forming this Central Government." Lu An felt that he was on the right.

"You can't say that. You can't reveal your level to these people! Let them think they have the highest-level player. Does it matter to us? No, right?" Zhang Mengyao questioned the young man. "That's it, don't reveal your level to anyone, not even your allies. Keep it your secret, including us. Don't you remember what Tang Shaoyang taught you?"

Lu An opened his mouth, and he realized that he had made a mistake. If Zhang Mengyao turned off the canceling noise in time, his level would be exposed to the other factions. "I am sorry."

"As long as you understand, that's fine." Zhang Mengyao shook his head. The others in the same booth as Lu An looked at the young man in shocked eyes. "You are level 1434?" Wei Xi blurted out. "How can you level up so fast? I am still level 1309."

"What about our Fire Witch?" Wei Xi could not help but look to Liang Suyin. She was a famous figure in the empire, after all. The red-haired woman shook her head. "I am lower in levels compared to you two. I am level 1278."

"I am level 1337." Kang Xue also shared her level without being asked, and the others followed. "I am the lowest, I think, level 1187." Cao Jingyi revealed her level as well.

"Don't worry, Sister Cao. I am the lowest of you guys. I am still level 1097." Yu Shun smiled.

"Yeah, indeed, you are the lowest, but I would rather fight anyone else that has a higher level than you." Wei Xi blurted out. As everyone revealed their levels, they looked toward their Supreme General as she was the only one yet to reveal her level. Under peer pressure, Zhang Mengyao told them her level. "I am level 1501."

That was a shocking revelation that she was at the highest level among them. "Don't forget about me. I am the lowest among you guys, measly level 312." Li Shuang interjected with a smile. She was aware that they shared their level for Lu An.

Kang Jiayi was the only person with no voice. Then he quickly realized why these young guys were so confident with their fighting capability... 'I am worried for nothing, I guess.'
