

ARMIPOTENT Chapter 768

Best novel online free at NovelTeam.Net

Zhang Mengyao kept looking at her man since they arrived at the main base. There was a look of disbelief on her face as she could not believe what she had just heard about the vassal, Gigante Forest, the three kingdoms, and the continent. It was just hard to believe that her man managed to conquer a continent within less than two months.

"So, you are going to migrate the people from the three kingdoms to Earth?" Zhang Mengyao could not hold back her curiosity and ask. Even though Tang Shaoyang had told her about all the vassals, he had not told her which vassals would transmigrate to Earth.

"Of course not. Why would I move those people to Earth?" Tang Shaoyang shook his head. "I have confirmed three vassals that will transmigrate to Earth. The Moon Tribe, the Elven Kingdom, and the Dwarf are the three vassals that will follow me to Earth. We will allocate them territory to manage."

They were walking to the elevator, and when they arrived at the elevator, Sylvia hesitated to enter the lift. "What is this?" The Moonlight Maiden asked. Ever since she entered the main base, she became the primary attention of the other people, but no one dared to stop them because Zhang Mengyao was with them.

"Ah, this is a device that will bring us to the upper floor, so you don't have to climb up the stairs." Tang Shaoyang explained as he had an amused smile on his face. "Get in." After a moment of hesitation, Sylvia entered the elevator. As it was about to go up, Sylvia was startled and immediately held Tang Shaoyang's hand. She thought they were about to fall, but everyone had an amused smile on their faces while looking at her.

The meeting room was on the twelfth floor. Arriving on the twelfth floor, Tang Shaoyang turned toward Selena and Sylvia. "Do you want to join the meeting, or do you want to walk around the main base? You can try the food of our world too if you want." Those words were directed to Sylvia.

"I will accompany you to tour the base if you want." Li Na immediately volunteered as there were many things she wanted to ask the flurry beastmen. Sylvia hesitated as she kept looking at him and Zhang Mengyao, back and forth. She was conflicted inside as on one side, she wanted to stroll around to find anything new about the Earth. On another side, she wanted to be a capable woman who would help her husband manage the Empire, even if it was just a small thing.

"That's fine if you want to stroll around. You need to familiarize yourself with the new place if you want to help me." Tang Shaoyang smiled in response. He could sense the inner conflict Sylvia had.

"Yes, you can have fun for now, because you will not have the same chance when we start to work. We will be busy in the following month, so use this time to familiarize yourself with the main base and also our civilization." Zhang Mengyao followed with a smile. She did not know where the rabbit girl would be placed, but she was glad that she had more manpower to manage the Empire.

Zhang Mengyao found out that Sylvia and her tribe was the main reason Tang Shaoyang could return faster. If not for the help of the Moon Tribe, it would take longer for Tang Shaoyang to unite Gigante Forest and take over the continent. If not for her tribe, Tang Shaoyang might not return in time for the Fighting Tournament.

After getting Zhang Mengyao's consent, the three girls left together while Zhang Mengyao led Tang Shaoyang to the meeting room. It was a smaller meeting room where the higher-ups would hold a meeting. There was a meeting hall where all divisions came together to discuss everything everyone was up to.

Tang Shaoyang pushed the door into the meeting room. The room was not that big, with a long table and nine chairs in the middle of the room. He was surprised there was someone inside the meeting room, a woman with long black hair, wearing a cream blazer with a white shirt inside.

Hearing the door open, Li Shuang got up and turned around. When she saw Tang Shaoyang enter the room, she approached him with a big smile. As soon as she arrived in front of him, she put her hands around his neck and kissed him.

"Hey, I am here too, you know." Zhang Mengyao complained as the kiss took longer than she expected. "Please be careful with your actions, Division Head Li Shuang. If I don't close the door quickly, the others may see you doing inappropriate things."

Their lips parted as Li Shuang rolled her eyes at Zhang Mengyao. "First, I can see there are no people outside. Second, it's not inappropriate to kiss your lover." She retorted while walking side by side with Tang Shaoyang to the chair.

"I have called Li Shuang, and she is responsible for stuff that is unrelated to the military like the treasury, the city development, and more. If you want to talk about migration, you speak to her. She will take care of that for you." Zhang Mengyao told Tang Shaoyang about what Li Shuang had done for the Tang Empire.

"I see," Tang Shaoyang was impressed that the helpless turned into a capable woman. A while ago, she was helpless and running around in the street, starving with her daughter. With a suitable position, she changed completely. He then explained to Li Shuang the Elven Kingdom, the Dwarf, and the Moon Tribe.

The Moon Tribe and The Elven Kingdom were part of the military faction, but the Dwarf would have a big role in the Empire's development. He did not forget to tell that to Li Shuang. He wanted her to treat them properly.

"We have captured two provinces since your departure, and we have twenty cities with a smart base. We can give them a city, or even a province if you want. However, we need to know their preference for what kind of region they want to live in.." Li Shuang nodded her head and told him the available territory for the newcomers.
