Tang Shaoyang nodded his head understandingly. He did not consider the environment for the Elven Kingdom and the Moon Tribe to live in, but that was not a big issue. "Can you list the environment for the available region? We can just send the list to them and let them choose which region they want."

"It will take sometime, but should not be an issue." Li Shuang nodded her head. "Is there anything else I need to know about our new allies?"

"You can meet their leaders soon enough, so you can ask them directly what you want to know." Tang Shaoyang did not know much about the Moon Tribe, the Elven Kingdom, and the dwarf. However, one thing he was sure about, there was no need for him to worry about the dwarf. They were used to living underground, so they could live anywhere.

Li Shuang got up from the chair and nodded her head. "I will start the work right now, so our allies can have a comfortable place to live in." She then headed toward the door while winking her eyes at Zhang Mengyao. As she was about to open the door, she remembered something. "What about the language? Do we need a translator to converse with them?"

Tang Shaoyang waved his hand. "We have the mighty System. Even though their voice sounds strange in your ear, you will understand what they are saying. You don't need a translator."

Li Shuang nodded and glanced at Zhang Mengyao. "Enjoy your time with him now, because it will be my turn at night." After saying that, she left the room, leaving Tang Shaoyang and Zhang Mengyao alone.

"So, is there anything I need to know about what happened here?" Tang Shaoyang glanced at Zhang Mengyao. He ignored the obvious hint from Li Shuang and went for the official topic. He wanted to know about the Earth Dimensional Tower and stuff.

It was Zhang Mengyao's turn to tell Tang Shaoyang about the Empire's progress. The first thing she reported to him was the number of survivors that joined the Tang Empire. He opened the faction menu and was surprised by the number of people who had joined the Empire. A hundred and fifty-seven thousand people had joined their faction, and as of now, they still focused on developing the main territory, and all people were in this city.

Then Zhang Mengyao told him about the World Congress, something he missed while he was away. She told everything about the World Congress, including the other seven-two factions, and the content of the World Congress. The content of the World Congress was not that important as he was more interested in the factions that banded together to create a Central Government.

"The Fighting Tournament is tomorrow and the Earth Dimensional Tower will appear after the tournament." Tang Shaoyang nodded his head as he was relieved. "That means I am not late for that event. But why is everyone voting for Sky Level Tower? Are they weak? They don't have the guts to take the Hell and Heaven Level Tower? The precious thing should exist in this tower instead of Sky Level Tower."

Zhang Mengyao expected Tang Shaoyang would complain after knowing the vote, but she did not expect he wanted the Hell and Heaven Level Tower instead of Ancient Level Tower.

"What about us? What did we vote for?" Tang Shaoyang was curious and asked. "We voted for the Ancient Level Tower, but the other factions chose the safer choice which was the Sky Level Tower. If the tower is too strong, we will gain no benefit from the tower. I think choosing the low-level is a wise choice." Zhang Mengyao explained her reasoning for choosing the Ancient Level Tower.

"By choosing that tower, we also cut the chance for us to get treasure and precious resources from the tower. Can we increase the level tower then?" Tang Shaoyang asked Zhang Mengyao. The latter paused for a moment before shaking her head. She did not know if they could increase the level or not.

"Even if we can't get the benefit from the tower now, we can get it later. It's not like our growth will be stuck even if the tower is too strong for us." Tang Shaoyang had a different idea for choosing the high-level tower. "Don't forget the Survival Game and the mini game. We can also trigger a certain event from the System to gain more rewards. Did you forget the horde event?"

"So, if we can no longer grow stronger from the available events here, we can go to the tower. However, that option is no longer there as we don't know if he could summon another tower or not." Tang Shaoyang had reached the point where he could not get stronger with the available events, so he could think far ahead of everyone else. "Didn't you tell me that once we reach level 1500, the Survival only helped a little to our growth?"

The Survival Game was not something they could rely on to grow rapidly like before once they reached level 1500. Zhang Mengyao and Lu An felt that after clearing six Survival Games consecutively. They barely got stronger and leveled up after the third Survival Games, but they had no other way but Survival Game to get stronger.

[Don't worry about that, Master. After stage two, Earth will advance to stage three, and the stage four or the last stage of the Game. The System will hold another World Congress each time the Earth advances to the next stage, and you will be able to choose a new Dimensional Tower to summon too. So yeah, you don't need to worry about the tower as long as you could trigger the condition for the next step.]

Origin's voice rang in the room. The Smart AI that managed all Tang Empire's smart bases gave valuable information.

"Then I am relieved to hear that." Tang Shaoyang tapped his finger and glanced at Zhang Mengyao while grinning ear to ear. Zhang Mengyao knew that Tang Shaoyang cooked a bloody plan in his head.. "Then we have to 'convince' the other factions to vote with us."
