

## Army 102

### Chapter 102 Electric-powered mech

“City Lord, please think of a way.”

xu li was a little panicked. he had never seen such a formation. they had entered the enemy camp and were surrounded by enemies from all directions. ” only the troops of long snake city have arrived. if this drags on, it won’t be long before the troops of the other demon cities arrive. they even say that the red dragon county has dispatched their demon troops. by then, we really won’t be able to escape. ”

“let those demons in.”

Jiang Li glanced at Xu Li indifferently and didn’t say anything. Then, he sent a message to xx02 through xx01 and gave an order, ” all soldiers, gather in the city and annihilate the monster army.

“Yes.”

At the city wall.

let’s go! xx02 gave Jiang Li’s order. JJ01, SH01, and the other meches started to retreat. They left the battlefield and retreated into the city.

these humans have started to retreat.

“Hahahahaha!”

“it’s simply too weak.”

“Charge!”

“Kill them all, don’t leave a single one.”

The ten thousand monster soldiers of the long snake City charged into the city at full speed and gave chase. Their morale was greatly boosted.

A few minutes later.

At xx02, JJ01, and sh01, hundreds of meches guarding the gate met up with Jiang Li in the city.

at the same time.

behind them.

More than ten thousand monster soldiers charged in.

“It’s the monster army from long snake City.”

“They’re charging in.”

“Hahahahaha!”

“We’re saved, we’re saved!”

“.....”

the monsters in the green scale city were extremely excited. their hearts were filled with joy after surviving the disaster.

“Human!”

In the demon Army.

the commander of this army was the vice city lord of long snake city, fan luò yún.

He was two meters tall and had a burly body. He was wearing a pitch-black full-body armor and had a powerful aura. He had reached the perfected stage of Tier 2.

A black bloodline mist enveloped his entire body.

how dare you step into the red Dragon County territory of the red eyebrow demon Kingdom. You don't know what's good for you and even want to take over the green scale city. How dare you!

Fan luoyun held a black broadsword in his right hand and pointed the tip at Jiang Li. "Today, I, Fan Luo Yun, will lead the long snake city's Army and kill all of you here."

all the humans, kill them all!

"leave no one alive?"

Jiang Li sneered. you're not good enough.

"Prepare the anti-aircraft guns, fire!"

stop! Jiang Li shouted.

BOOM! BOOM! BOOM!

as soon as he finished speaking.

The cannon Gunners loaded the meches with shells. There were 100 large military transport trucks. Each of them was equipped with an 88mm anti-aircraft gun. After adjusting the angle of the gun barrel, they aimed at the demon Army.

He directly fired the cannon.

The sound of explosions reverberated in the surroundings. The cannonballs flew everywhere and landed among the demon Army. They exploded, filling the sky with flames and setting off waves of air.

“Ah!”

Bang Bang Bang Bang!

The ground exploded, sending rocks and soil flying. Shrill screams rang out as the monster soldiers were blasted into pieces, blood splattering everywhere.

Heavy casualties!

Although anti-aircraft guns were used to deal with flying units in the air, their power was extraordinary. They could also cause great damage to the troops on the ground.

In just a single round of explosions, over a thousand monster soldiers had been killed, causing the formation of the long snake City Army to be thrown into chaos and their morale to be crushed.

Kachaa! Kachaa!

“Kill!”

After SH01 had used up all the bullets in the rocket launcher and the Gatling gun, he immediately removed the weapons on his arms.

Buzzzzzz!

His arms transformed into flesh Sickles, and his biochemical physique was activated. The blood-black mist that enveloped his body made him look like a god of death who had just walked out of hell.

He unleashed his full combat strength and charged into the demon Army.

...

Pfft! Pfft! Pfft!

The blood-red Saber Light danced in the air, bringing with it a trail of blood. It was like a tiger entering a flock of sheep, reaping the lives on the battlefield. One after another, the demon soldiers were killed.

“Grand completion of Tier 2!”

Fan luoyun’s pupils shrank as he exclaimed.

Bang! Bang!

JJ01 opened fire. The sniper bullet broke through the air and shot towards fan luoyun. Fan luoyun did his best to slash out with his blade. The blade light streaked across the void, and the sniper bullet was deflected.

Bang Bang Bang Bang!

JJ01 fired continuously, sealing off fan luoyun’s position.

thump!

Wang Gang rushed forward and charged towards fan luoyun.

The giant hammer mech stayed beside Jiang Li and didn’t join the battle.

...

Da da da da

In the surroundings.

Hundreds of firearm meches fired crazily. Their guns roared and countless bullets flew across the battlefield, killing the demon soldiers.

Whoosh! whoosh! Whoosh!

At the back of the monster army.

Some archers shot arrows at the firearm mech, increasing its damage.

It might even be scrapped.

“Roar!”

the biochemical meches also started to show their power. the biochemical toxins spread and corroded the demon soldiers, turning them into walking puppets. then, they controlled the walking puppets to attack the demon soldiers.

At the same time.

The bio-mech itself had strong combat power.

The cold weapon meches and combat meches also entered the battlefield. Each of them was a perfected-stage level one mech. They were much stronger than the demon soldiers.

fifty electric meches have been completed!

a notification appeared in front of jiang li.

Soon after.

” let’s go. ” jiang li immediately had fifty electric meches appear in an alley not far away to avoid the sight of xu li and the monsters.

Shua!

troop Type: Electric-powered mech

[rank: early stage of rank two]

[no. dn01]

skill: level two low-grade electric energy control ”

[machinery: Jian Jia (omitted)]

advancement requirement: 2000 energy points ”

Jiang Li checked the information of the electric mech.

obviously.

A level 2 troop class that was directly created did not require the consumption of a level 2 soul Tinder, but it would only have one skill after being created.

If he used the Tier 2 soul Tinder to upgrade from Tier 1 to Tier 2, he would have two skills.

so,

Relatively speaking.

The meches that upgraded from level one to level two were stronger than the level two meches.

“Do it.”

let's go. Jiang Li ordered the fifty electric meches to join the battle and end the battle as soon as possible.

“Yes!”

Shua! Shua! Shua!

50 electric-powered meches rushed out of the alley and activated their electric hands. Thin snake-like electric arcs appeared all over their bodies.

Electric energy Mastery.

It meant that the electric-powered meches had the ability to control lightning, or they were like martial artists who had cultivated lightning-based internal cultivation techniques.

“ah!”

BOOM!

The electric-powered mech struck out with lightning and thunder-like palm prints. A demon general was killed with one palm. His heart was shattered and his internal organs were carbonized.

“Rank two!”

Fan luoyun's expression was filled with fear, ” these people are actually all Tier 2!

“How did this happen?”

“where did they come from?”

“This Suan ni, this Suan ni”

Fear!

A deep fear seeped into the demons 'souls.

with the addition of 50 electric meches at the early stage of level two, the demon army of long snake city had no power to fight back. they were defeated and suffered heavy casualties.

Plus ...

Hundreds of transport meches fired their anti-aircraft guns.

Ten minutes later.

The war was over.

The Army of long snake City was annihilated. All the level-two monsters, including fan luoyun, were killed by Jiang Li's mech Army, leaving behind corpses all over the ground. The smell of blood was pungent.

“.....”

The monster civilians in the green scale city were dumbfounded. Some of the monster race's mental strength was not strong enough to withstand such a blow. They screamed and sat on the ground.
