

Army 105

Chapter 105 Spiritual crystals

Currently.

jiang li had 1420 meches.

The number of stage two troops.

100 transport meches, 50 electric meches, one combat mech Wang Gang, biochemical mech SH01, sniper mech JJ01, and hammer mech JC01.

Among them.

The giant hammer mech JC01 was upgraded from a level-one elite troop and had three skills. It was the strongest among all the level-two troops Jiang Li had.

The number of Level 1 troops.

190 combat meches, 190 cold weapon meches, 680 firearm meches, 200 biochemical meches, and six information meches.

There were 1100 walking corpse puppets.

one had to know.

This time, Jiang Li sent out all his troops. There were 2801 meches in total, but only 1420 returned.

Other than the level two troops that were created.

Jiang Li lost 1531 meches in total.

In terms of energy points.

jiang li lost nearly 100000 points.

Fortunately ...

The gains outweighed the losses.

not only did jiang li activate the level-two troop class, but he also seized a lot of resources and wealth. as long as he exchanged these resources and wealth for herbs through trading channels, jiang li would be able to get a lot of energy points and start another large-scale attack.

In reality.

Jiang Li was going to attack the red eyebrow Empire.

He wanted to develop and expand his mech Army.

It required a large-scale war.

Jiang Li wasn't afraid of the danger and war that might happen.

He was even eager to try.

The next day.

in the morning.

hua tian had returned from pingding city.

Of course.

He had also completed the last transaction with the trade associations of Pingding city. He had sold all the remaining spiritual herbs and also purchased a portion of the ordinary herbs.

In the city Lord's mansion.

"City Lord,"

Jiang Li. Hua Tian rushed back to the great Xia city without stopping. He went straight to the castellan mansion to see Jiang Li. He was travel-worn and his clothes were covered in dust.

"Alright, thank you for your hard work."

Jiang Li smiled.

"City Lord, this is the list of transactions, please take a look."

yes. Hua Tian took out the list and handed it to Jiang Li respectfully. the carriages are waiting at the gate of the city Lord Mansion.

Wang Gang walked over, took the list from Hua Tian, and handed it to Jiang Li.

"Yes."

okay. Jiang Li nodded, opened the list and read it carefully.

He sold 2000 lower-grade first-grade spiritual herbs. The price of each herb was lowered to 7500 taels of silver, which was 15 million taels of silver. He sold one thousand and two hundred medium-grade first-grade spiritual herbs. The price of each herb was lowered to seventeen thousand taels of silver, and he sold them for twenty million and forty thousand taels of silver. He sold 750 superior-class first-grade spiritual herbs. The price of each was lowered to 35000 taels of silver, and he sold them for 26250000.

In the end, the 350 superior grade tier one spiritual herbs were sold for 24.5 million taels of silver. Each of them was only sold for 70000 taels of silver, which was 10000 taels lower than the normal price.

In total, it was 85.79 million taels of silver.

Finally.

Hua Tian had purchased 45.79 million taels of silver worth of ordinary medicinal herbs, but the Chamber of Commerce in Pingding city had nearly doubled the price of ordinary medicinal herbs.

In other words ...

In fact, 40 million taels of silver had only bought medicinal herbs worth 20 million taels of silver.

“City Lord, this subordinate was unable to obtain a higher profit, and instead spent a higher price to buy these herbs. I have let down city Lord’s expectations.”

hua tian knelt on the ground, “please punish me, city lord.”

“you may rise.”

Jiang Li waved his hand and said, “I can’t blame you for this. You’re a businessman. Of course, you’ll put your interests first. They know you have a lot of spiritual herbs for sale and need ordinary herbs, so they’ll lower the price of spiritual herbs and raise the price of ordinary herbs.

“It’s already very good that you were able to purchase these herbs.”

“Go to the contribution Pavilion to get your reward.”

“Thank you, city Lord. This subordinate is extremely grateful for your magnanimity.”

...

Hua Tian saluted respectfully.

“Go on.”

Jiang Li waved his hand.

“This subordinate will take his leave.”

Hua Tian Qi retreated.

“Oh right, send people to move the things into the warehouse.”

Jiang Li said.

“Yes.”

Hua Tian nodded. I will do it immediately.

at noon.

Jiang Li went to the warehouse of the city Lord’s mansion.

...

All the common herbs that Hua Tian had purchased from Pingding city were neatly placed here.

the door closed.

The meches were guarding the door.

convert all the herbs into energy points.

Jiang Li confirmed.

Buzzzzzz!

Immediately after.

There was a large flash of white light in the warehouse, which was somewhat dazzling.

Shua!

conversion successful. You've received 256645 energy points!

The white light disappeared.

All the medicinal ingredients had been transformed.

Jiang Li also got a notification.

He had obtained more than 200000 energy points.

The Dominator panel opened.

The number of energy points increased from 53355 points to 310000 points.

" three hundred and ten thousand energy points. "

" i can make three hundred and ten meches if i make all the level-two meches, " jiang li said to himself. " i can make more than two thousand perfected-stage meches. "

"That's too little,"

Jiang Li shook his head and murmured, "Red Dragon County can gather 100000 troops and the county Prince of Red Dragon County, Red Dragon, whose strength is unknown.

the military strength I have at the moment is not enough.

Soon after.

Jiang Li walked out of the warehouse of the castellan mansion.

In the afternoon.

Xu Ya came.

She had already organized the spoils of war that Jiang Li brought back from the green scale city and recorded them.

"city lord,"

Xu Ya gave the list to Jiang Li.

"Yes."

Jiang Li took the list and read it.

When he was in the green scale city, Jiang Li had forced the monster race to divide the spirit herbs into different types.

Among them.

130 million taels of silver, 10 million taels of gold, 100 lower spiritual crystals, 300 million taels of silver, weapons, equipment, and various materials.

Jiang Li was dazzled.

“Lower spiritual crystals.”

” what’s this? ” jiang li’s attention was attracted by the lower spiritual crystal. ” what’s this? ”

city Lord, don’t you know about lower spiritual crystals? ”

Xu Ya was stunned and explained, ” spirit crystals are treasures that contain pure heaven and earth energy. They are also a type of currency that is circulated in the upper levels of the continent.

and it’s a valuable item that’s circulated among the six clans.

compared to silver and gold, the value of spiritual crystals is much, much higher.

generally speaking, only those whose cultivation has reached level three can use spirit crystals and use them as currency for transactions. Silver and gold are difficult to catch the eyes of those above level three.

one lower spiritual crystal can be exchanged for one million taels of gold, but one million taels of gold may not necessarily be able to be exchanged for one lower spiritual crystal.

because no one would be stupid enough to exchange spiritual crystals for silver and gold.

“Oh.”

” huh? ” jiang li was surprised. ” now that you mention it, my biggest gain in the green scale city isn’t the gold, silver, jewelry, or spirit herbs, but these 100 lower spiritual crystals. ”

“Yes, I am.”

Xu Ya nodded and said in a serious tone, ” ” also, city lord, it’s best not to leak the news about the spiritual crystals. otherwise, i’m afraid that it will attract the greed of stage three experts. ”

fortunately, the gang members who are transporting the goods don't know about the spiritual crystals. The news of the spiritual crystals shouldn't be leaked.
