Chapter 112 Ten million gold

“hehe.”

Jiang Li smiled calmly, waved his hand, and said, ” Wang Gang, show the elder of the half-monster Alliance what’s on the first truck.

“Yes.”

Wang Gang nodded respectfully and walked to the back.

“Rumble!”

In less than half a minute.

The military transport truck YS01 slowly drove in from the outside of Qingshan Valley. There was a burst of engine roar and a faint white light on the body of the vehicle.

It was obvious that he had activated the [treading on flat ground] skill.

“What kind of carriage is this?”

“it doesn’t seem like we need animal power to pull the carriage.”

“Could it be the mechanism technique? Or the puppet technique?”

“.....”

In the surroundings.

The members of the half-monster Alliance looked at the military transport truck with curiosity in their eyes. They were talking in low voices.

Wang Gang stood behind the truck, grabbed a corner of the black canvas covering the truck, and pulled it off.

Shua!

Instantly.

Under the moonlight.

The whole truck was filled with gold. The ten million taels of gold from the green scale city were all loaded into this truck.

One had to know.

One tael of gold was equivalent to one hundred taels of silver.

Ten million gold was equivalent to one billion silver.

“f \* ck!”

“So much gold!”

“This light is too dazzling.”

“He’s so rich.”

“Gulp!”

the half-monsters of the half-monster alliance were dumbfounded. they felt as if their eyes were going to be blinded by the golden light. they all widened their eyes and swallowed.

“Do you still doubt my purchasing power?”

Jiang Li smiled.

“Ahem.”

E kui coughed softly to hide the embarrassed expression on his face. He then revealed a kind smile and said, “City Lord Jiang is indeed a straightforward person. I knew it, how could City Lord Jiang not have enough money? Hahaha, I’m thinking too much. I hope City Lord Jiang can forgive me, forgive me.”

“Hehe.”

Okay. Jiang Li smiled but didn’t say anything. Alright, stop talking. Take out your herbs. I’ve checked the goods. I’ll buy as many as you have.

“Well said, well said.”

E kui waved his hand, turned around and shouted to his subordinates, “Did you all hear that? Hurry up and remove these rags and let our respected City Lord Jiang have a look at our medicinal herbs.”

“Move faster!”

“Yes, Elder E kui.”

“Hurry up!”

Immediately.

The canvases on the large carriages had been lifted, revealing wooden boxes filled with medicinal herbs. There were so many that it was difficult to count them.

It could be said that ...

When he saw Jiang Li take out ten million taels of gold, e kui's attitude changed completely. His tone and expression were full of kindness and flattery.

one had to know.

E kui was an elder of the half-monster Alliance branch in the wuzu plain. He was in charge of the sales of spirit herbs and other matters.

It was easier to find sales channels for graded spirit herbs.

but ...

Ordinary medicinal herbs were different.

Although there were a lot of ordinary herbs, they were equivalent to graded spirit herbs. The difference was not small. This caused e kui to hoard a large number of ordinary herbs and could not sell them.

Of course.

This was also because e kui had stocked up too much at once.

now.

It wasn't easy to find someone who was willing to buy ordinary herbs, and he didn't have a limited amount. He was even a super rich man. Naturally, e kui had to treat Jiang Li like his ancestor.

...

In the end.

The rich are the Masters.

” city lord jiang, we have a total of 100000 10-year-old medicinal herbs, 20-year-old medicinal herbs, 30-year-old medicinal herbs, 60000 30-year-old medicinal herbs, 40000 50-year-old medicinal herbs, 30000 60-year-old medicinal herbs, 20000 70-year-old medicinal herbs, 10000 80-year-old medicinal herbs, and 5000 90-year-old medicinal herbs. ”

e kui explained to jiang li in detail, ” of course, if city Lord Jiang doesn’t believe me, you can send someone to check it carefully. However, there are too many herbs, so it might take a lot of time.

I, e kui, have always been honest in my business. I will never go back on my word. I will do whatever I say. These herbs will only be more and not less.

“City Lord Jiang, you can rest assured and trade.”

“there’s no rush. let me take a look first.”

I’m fine. Jiang Li waved his hand and walked to the big carriage of the half-monster Alliance. He put his hand on the box with the herbs and a notification appeared.

obviously.

According to the notification on the Dominator panel, Jiang Li could figure out how many energy points he could convert and how many herbs there were in the carriage.

“Yes, no problem.”

...

Jiang Li touched each carriage and confirmed that the number of herbs was correct, and it was more than what e kui said.

“These herbs are a little too little.”

I'm sorry. Jiang Li smiled and said in a teasing tone, "I thought the half-monster Alliance had a lot of herbs.

"That's why I specially brought ten million taels of gold, but I didn't expect that there would only be a hundred and twenty million taels of silver for these medicinal herbs. I've only spent one-tenth of the ten million taels of gold."

"what a disappointment."

"no." Jiang Li shook his head and glanced at E Kui provocatively.

"This is an ..."

E Kui was stunned for a moment, and his face turned red.

one had to know.

E Kui said that Jiang Li didn't have enough money, but Jiang Li drove a truck of gold over and stuffed it into his mouth. Now it was Jiang Li's turn to mock E Kui for not having enough herbs.

E Kui could not refute.

This was because he had only brought so many medicinal herbs.

At this moment, Hong Ling laughed and said, "City Lord Jiang, we only brought a portion of the medicinal herbs. If City Lord Jiang still wishes to trade, how about we decide on a time and place next time?"

In reality,

Hong Luan suggested that E Kui bring out all the common herbs, but E Kui didn't believe it. He thought Jiang Li couldn't eat so many herbs.

so,

E kui had only brought about a quarter of the herbs.

In the end, he had been slapped in the face.

Jiang Li pouted and said in disbelief, ” “This is just your excuse, right? if you don’t have medicinal herbs, just say you don’t have medicinal herbs. This city Lord won’t say anything.”

“There’s really no need to pretend to be strong.”

take me for example. I’ve never done such a thing. I’ll just say what I have. It’s only ten million taels of gold. It’s just a worldly possession.

“You!”

E kui glared at Jiang Li and turned to Hong Ling. Hong Ling shrugged. it’s none of my business. You dug a hole for yourself.

“City Lord Jiang.”

e kui couldn’t take it anymore. Besides, if he could sell all the common herbs in the warehouse, it would be a credit to e kui.

I can get my men to send all the medicinal herbs here as soon as possible. If you’re willing to wait, they’ll be here by this morning.

when the time comes, you’ll know whether our half-monster Alliance is pretending to be strong or not.

“Sure,”

I’ll wait. Jiang Li smiled. I’ll be waiting.

At this moment.

“Stop!”

Wang Gang’s figure flickered and disappeared on the spot. He blocked the way of a middle-aged man.

“what’s going on?”

jiang li frowned.

“Rollin, what are you doing?”

E kui and Hong Luan also chided.

Rollin’s clothes and hair were messy. He had a pair of bat ears, touched the back of his head, and said with a smile, “City Lord Jiang, I’m just curious about these ‘carriages’ and want to take a closer look.”

“.....”

Jiang Li’s eyes were indifferent.

“City Lord Jiang, please forgive me. Elder Rollin has studied the mechanical and puppetry techniques, but he only has a superficial understanding and hasn’t received the true inheritance.”

“That’s why he couldn’t help but want to study these mechanical carriages after seeing them,” e kui explained.

mechanical techniques, puppet techniques.

Jiang Li murmured to himself and smiled. “It’s just a small matter. Besides, elder Rolin didn’t touch my carriage.”

“City Lord Jiang, can you allow me to observe closely?”

Luo Lin walked to Jiang Li with anticipation. The giant hammer mech immediately stepped forward and stared at Luo Lin in case he attacked.

“hehe.”

I can't. Jiang Li smiled and said, ” No.

“Eh?!”

Rollin's expression of anticipation froze on his face.

“If you dare to come any closer, I guarantee you won't live to see the sun tomorrow.”

Jiang Li added.

“.....”

Rollin shut his mouth and backed off unwillingly. However, his eyes were fixed on the transport truck and could not move away.

such a work, such mechanical skills. It's too perfect. It's simply too perfect, ”

Rollin muttered in a low voice that only he could hear.

while waiting.

Time always passed very slowly.

city Lord Jiang, there's still a long time before the next batch of medicinal herbs will arrive. Why don't we complete this transaction first? ”

E kui asked.

“That’s good.”

okay. Jiang Li nodded.

Finally.

Jiang Li paid 126.5 million taels of silver, which was 1.265 million taels of gold in total.

One hand for the money, one hand for the goods.

“Put it on the truck.”

let’s go. Jiang Li waved his hand and asked the electric mech to move the herbs from the half-monster Alliance’s carriage to the large military transport truck.

At the same time.

E kui also sent his men to carry the gold.

One million two hundred and sixty-five thousand gold taels filled a large carriage of the half-monster Alliance.

However, the medicinal herbs took up even more space.

Jiang Li had to call another ten transport trucks and they drove in from outside the valley. They were filled with ten large military transport trucks before they could load all the herbs.

Time passed.

Around dawn.

The sun had just risen, and a wisp of morning sunlight scattered down from the horizon. E kui's men were in a hurry and finally transported all the medicinal herbs they had hoarded.

The long line of large carriages almost filled the entire Qingshan Valley.

“City Lord Jiang, take a look. How is it? are these herbs enough?”

E kui patted the goods on the carriage at the front of the team and raised his eyebrows. He said with a slightly proud tone, “We’re not lying, are we?”

“It’s alright.”

Jiang Li shrugged. I can’t spend the rest of my gold anyway.

“you’re so silly!”

E kui couldn’t help but roll his eyes. He thought to himself, “can’t you have a good chat? so what if you have money? if you have the guts, don’t just buy ordinary medicinal herbs. If you buy high-grade spirit herbs, your ten million taels of gold might not be enough for you to spend.
