

Army 114

Chapter 114 The initial confrontation

The next day.

In the morning.

Jiang Li had just finished practicing and his face was covered in sweat. He took the clean towel du Xiaohua gave him and wiped the sweat off his face.

Xx01 walked into the courtyard.

“chief sovereign, xx06, which is stationed in the qingshan mountains, has sent an important message.”

Xx01 said.

“Yes.”

okay. Jiang Li nodded.

“little flower, you can leave first.”

thank you. Jiang Li gave the towel to du Xiaohua.

“Yes, city Lord.”

du xiaohua nodded obediently. after taking the towel, she quickly walked away.

xx01, establish communication.

go! Jiang Li ordered.

“Yes.”

Xx01 nodded.

Buzzzzzz!

Very quickly.

The communication was connected.

A communication projection screen appeared before his eyes.

“chief sovereign.”

In the image.

Xx06 saluted Jiang Li.

“Yes.”

yes. Jiang Li nodded. what’s the situation? ”

“My Lord, a minute ago, more than thirty thousand monsters entered the Green Mountains, and their military flags were from the Red Dragon County.”

Xx06 replied.

“Thirty thousand demon soldiers.”

Jiang Li thought, didn't they say that there were 100000 demon soldiers in Red Dragon County? What did 30000 mean? The vanguards we sent?"

"Xx06, keep a close eye on the movements of this demon Army and report to me at all times. Since it's the Red Dragon County Army, whether it's the vanguard or some other purpose,"

"Let's deal with them first."

"yes."

Xx06 nodded.

BOOM!

Suddenly.

A sudden change occurred.

"Be careful!"

In the image.

Jiang Li clearly saw a figure covered in blue flames rise into the air and fly like a bird of fire. It threw out a blue spear.

"Whoosh!"

The blue spear was wrapped in blue flames like a fire snake. It was as fast as lightning and crossed a distance of nearly a thousand meters.

"Thump!"

Xx06 turned around but was unable to Dodge. The blue spear pierced through his chest and burned with blue flames, covering his entire body.

The damage level was rising rapidly.

BOOM!

Xx06 was scrapped.

The communication screen was cut off.

At the end of the scene.

it's coming. Jiang Li saw the flaming bird approaching. In the thick blue flames, he could only see a pair of cold blue eyes.

It made people shudder.

“Master, we’ve lost contact with xx06.”

Xx01 said.

“I know,”

...

Jiang Li took a deep breath and looked serious.

Obviously.

Jiang Li didn’t expect such a change.

He had not expected this.

Xx06 had actually been discovered by the Red Dragon County Army. Furthermore, the Red Dragon County clearly had aerial troops. That figure that was like a flaming bird was even more powerful.

He was definitely at the great circle of stage two!

“Aerial troops.”

Jiang Li calmed down. the anti-aircraft guns are used to transport meches. I guess I need to increase the number of meches.

“perhaps there are other troops that i don’t know of in the demon army of red dragon county.”

I must be more careful. The monster army in Red Dragon County can not be underestimated.

Green Mountain Range.

...

“Where’s the corpse?”

The blue flames flew over, but they could not find xx06’s body. even if it’s a puppet, there should be remains. Why is there nothing? ”

“General!”

Shua! Shua!

the two adjutants of blue flame were also birdmen with wings on their backs.

The feathers were green.

“Let’s go back. The enemy has been dealt with.”

lan yan waved his hand.

“Yes.”

The two adjutants nodded.

The vanguard of Red Dragon County.

“General LAN,”

The commander of the vanguard was the city Lord of long snake City, red long snake. He smiled and asked, “did you capture the enemy?”

“he’s already dead,”

but we didn’t find his body, “Lan Yan said. it’s strange. This Jiang Li is very strange. We should be careful. After all, even the Ouroboros died in his hands.

“What are you afraid of?”

Beast city’s city Lord bi Shou ye had a burly body. He had a tiger head and a human body. He was nearly three meters tall and was wearing full-body armor, revealing only his facial features. this time, we’ve gathered the elites of four cities. Taking down a mere great Xia city will be a piece of cake.

he’s just a human, Jiang Li. I can kill him with one slap.

“Hehe.”

The city Lord of Hu city, Hu Tianling, chuckled and said, ” Castellan Ji, Qing Wenling is just as blindly arrogant as you. Not only did he lose his life, but he also destroyed green scale city.

“I advise you to be more careful.”

The governor of Nightwish city, bat Yeming, nodded in agreement. besides, the Red Dragon Commandery Prince has ordered us to be the vanguard to find out the enemy’s actual situation. He also ordered us to surround the enemy and not attack.

“i’m afraid that things are not as simple as we think.”

Lan Yan said in a low voice.

The great Xia city.

The monsters of Red Dragon County were already marching towards the great Xia city. Jiang Li wouldn’t just sit there and wait for death. He already knew the number of enemies.

so,

let’s go! Jiang Li started to attack.

First, he started to create level 1 troops.

“produce 2320 firearm meches, 2810 combat meches, 2810 cold weapon meches, and 2800 biochemical meches.”

The Dominator panel opened.

Jiang Li used 107400 energy points to build 10740 level one meches.

Shua!

The virtual manufacturing interface appeared.

There were four illusionary human figures with numbers 'x2320' x2810 'x2810' x2800 'beside them.

Buzzzzzz!

Countless light spots filled the illusionary figure and gradually solidified.

one minute passed.

[creation complete!]

a notification appeared.

“Whoosh!”

After that.

Ten thousand seven hundred and forty level-one meches appeared in front of Jiang Li. The ten thousand meches occupied the empty space in front of them and divided into four teams.

They lined up neatly.

“Greetings, chief sovereign!”

the ten thousand meches saluted at the same time.

“Yes.”

jiang li looked up and nodded in satisfaction.

“Upgrade 10740 meches.”

Shua!

It took 140 energy points to upgrade an early-stage mech to perfected-stage level one. Jiang Li spent 1503600 energy points to upgrade all 10740 meches to perfected-stage level one.

more than 10000 meches were shining.

A few seconds later.

All of them had been promoted.

they were fully equipped.

They were all promoted to Sergeant.

As a result ...

Among the level-one troop classes that Jiang Li had.

There were 3000 combat meches, 3000 cold weapon meches, 3000 firearm meches, and 3000 biochemical meches. There were 12000 level-one meches in total.

All of them were at the perfected stage of level one.

make 1000 electric-powered meches, 1600 transport meches.

Jiang Li used 2600000 energy points to build 2600 level-two units.

Shua!

The virtual manufacturing interface popped up.

One minute passed.

[creation complete!]

A notification appeared.

Buzzzzzz!

1,000 electric-powered meches and 1600 transport meches appeared out of thin air and occupied a large area.

“greetings, chief sovereign!”

The level-two mech faced Jiang Li.

“Yes.”

okay. Jiang Li nodded.

” upgrade 100 electric-powered meches and 100 transport meches. ”

Finally.

Jiang Li needed 14000 points to upgrade two meches from early-stage to perfected-stage level two.

200,000 points.

Shua! Shua!

The electric-powered meches with serial numbers DN01 to DN0100 and the transport meches with serial numbers YS01 to YS0100.

the two hundred level two meches had several flashes of light.

All of them had been promoted.

troop type: transport mech

[rank: Grand completion of rank-two]

[No.: YS01]

skill: Tier 2 exquisite as if walking on flat ground ”

[machinery: Jian Jia (omitted)]

advancement requirements: one level-three soul Tinder, 10000 energy points ”

.....

“troop type: electric-powered mech

[rank: grand completion of rank-two]

[No. DN01]

skill: level-two ultimate electric energy control ”

“Equipment: Tier 2 lightning arc Gloves”

[machinery: Jian Jia (omitted)]

advancement requirements: one level-three soul Tinder, 10000 energy points ”

.....

jiang li checked the information after the upgrade.

Transport meches.

After the upgrade, the appearance did not change much. The original 88mm anti-aircraft gun had become a 130mm anti-aircraft gun. The truck was still camouflaged, and the size had not changed.

but ...

The transport truck had been equipped with simple ‘space-folding technology’.

On the surface.

The size of the transport truck did not change, but its capacity had increased by several times. Early-stage type 2 could only carry 40 people, mid-stage type 2 could carry 80, late-stage type 2 could carry 160, and peak-stage type 2 could carry 320.

With every increase in level, the truck’s space would double.

His rank was promoted from Sergeant to first lieutenant.

Electric-powered mech.

After the promotion.

His appearance had not changed much, but the electric light in his eyes had become more obvious. He was also equipped with a standard weapon that could increase the power of electric energy.

Like the combat mech, it was also a type of glove.

His rank was promoted from Sergeant to first lieutenant.

in reality.

The reason why Jiang Li used a lot of energy points to upgrade a hundred meches to the perfected stage of level two was to deal with the possibility of level three.

Jiang Li didn't have a level-three troop class yet.

so,

Jiang Li could only win with numbers.

If they encountered a stage three expert, they could mobilize hundreds of perfected stage-two meches to attack them. Even if they couldn't kill the opponent, they could at least stop them.

Of course.

It would be even better if there were no tier 3 experts.

He would not lose anything anyway.

Shua!

the dominator panel opened.

After the end of the rampage.

Jiang Li's energy points dropped from 10248800 to 3237875. Xx06 recovered 75 energy points after it was destroyed.

This time, the Army was in chaos.

Jiang Li used up 7011000 energy points.

Half an hour later.

let's go. Jiang Li gathered all the meches.

Two thousand electric meches, two thousand transport meches, three thousand combat meches, three thousand cold weapon meches, three thousand firearm meches, and three thousand biochemical meches.

Five Intel meches.

There were 1200 walking corpse puppets.

JC01, CQ01, GJS01, Wang Gang, SH01, JJ01, GD01.

The total number of soldiers was 17211.

“Rumble!”

at the entrance of the great xia city.

Two thousand transport trucks were lined up in a neat formation, and more than ten thousand meches formed an Army. They marched in unison with a murderous aura.

It was extremely powerful.

In the surroundings.

The citizens of the great Xia city looked on, their eyes filled with reverence.

“All troops, get on the car and get ready to set off!”

let's go! Jiang Li waved his hand and shouted.
