

Army 116

Chapter 116 Crushing

“Whoosh!!!”

After the aftershock dissipated.

The blue flame was safe and sound.

He had blocked JJ01’s snipe without any injuries.

one had to know.

They were both at the perfected stage of Tier 2.

back then.

When it was hit by JJ01’s energy bomb, even the Black Dragon was unable to block it without being injured, but the blue flames did.

It could be seen from this.

The strength of the blue flames was indeed extraordinary.

Even if they were on the same level.

The different grades of the internal martial arts that one cultivated and the different realms of the martial arts that one mastered would all affect the strength of one’s combat power.

At the same cultivation level.

The combat power of those who had mastered the realm of perfection would obviously be stronger than those who had mastered the realm of great completion.

“I’ve found you,”

shua!

Lan Yan raised his head. His eyes were as sharp as an Eagle’s eyes. They flickered with blue flames and were extremely cold. He stared at JJ01, who was standing on the high ground.

“Die!”

“Whoosh!!!”

Lan Yan raised his hand.

The blue flames gathered and formed a flame spear. Then, it was thrown out and cut through the void, drawing a Blue stream of light in the air.

It was extremely gorgeous.

Bang! Bang!

JJ01 raised his gun and fired. The energy bullet pierced through the air.

BOOM!

The two sides collided in the air and exploded at the same time.

kill!!!

In the air.

Thousands of demon soldiers in the air charged at Jiang Li's troops. They were holding longbows and carrying a large number of arrows on their backs.

Not only that.

He drew his bow and shot an arrow. The arrow that he shot out burned with green flames and possessed extremely strong destructive power.

Pfft! pfft! pfft!

a large number of walking puppets at the front were shot and killed.

"Fire the cannons!"

BOOM! BOOM! BOOM!

let's go. Jiang Li stared at the Birdmen and monsters in the air coldly. He waved his hand and ordered the transport meches to adjust the angle of the anti-aircraft guns.

the shells were loaded.

In an instant.

Thousands of anti-aircraft guns fired at the same time.

Thousands of cannonballs shot into the sky, enveloping thousands of demon soldiers in the air. They exploded in the air like fireworks, dazzling and dazzling, but containing the danger of death.

Blood and flesh flew everywhere, and there were countless deaths and injuries.

"ah!"

A shrill scream rang out.

The power of the anti-aircraft cannon was comparable to the attack of an early stage Tier 2 martial artist. It covered the sky, and most of the Birdmen and monsters were unable to resist it. They were directly blown into pieces.

Countless broken limbs fell from the sky.

A round of bombarding.

At least a thousand Birdmen and monster race members had died.

Nearly one-third of them were dead or injured.

if they had not dispersed in time, more would have died.

“Damn it!”

The two adjutants of the blue flames were furious. Their cultivation was at the late-stage of the second step.

BOOM! BOOM!

Immediately.

...

They made their move, throwing out huge Spears burning with green flames from the air. They tore through the air and drew a dazzling trajectory.

“Rumble!”

2 of the transport trucks were pierced by the spears, as the green flames engulfed the trucks, causing them to suffer even more damage.

Two transport meches were destroyed.

kill!!!

On the ground.

Combat meches, cold weapon meches, biochemical meches, and electric meches. More than 10000 meches fought with the ground troops of the demon Vanguard Army.

“Kill!”

BOOM! BOOM! boom!

An intense battle broke out.

The two sides clashed.

...

“Ah!”

A miserable scream rang out.

After the exchange.

The demon soldiers finally realized the true strength of Jiang Li’s meches.

All of them were at the perfected stage of the first level. They were strong and unafraid of death.

furthermore ...

There were also 1900 who had reached the early stage of level two.

Crushing!

Jiang Li's mech Army crushed red snake's vanguards, even though red snake's vanguards were twice as many as Jiang Li's.

It was still useless.

The suppression in terms of quality caused the vanguard troops of the demon race to retreat in defeat. They were killed one after another.

"How could this be?"

what? " red snake's pupils constricted. He shivered and his body turned cold. how can Jiang Li have such a powerful Army? they're all soldiers at the perfected stage of level one.

"This is too terrifying."

even the entire Red Dragon County can't take Jiang Li down, let alone 30000 demon soldiers. We only have 5000 level-one demon soldiers in our Vanguard!

"Whoosh!!!"

The three thousand biochemical mechs used biochemical poison. The poisonous mist spread and corroded the demon soldiers, turning them into walking corpse puppets. It strengthened Jiang Li's Army and weakened the enemy's strength.

Da da da da

Behind them.

The three thousand firearm mechs also got into position. They fired their machine guns and submachine guns at the same time, forming a storm of bullets.

Blood splattered everywhere.

The demon soldiers below level 1 were turned into sieves, and blood bloomed like flowers.

“Set up the formation! Quickly set up the formation!”

The nightmare beast roared loudly.

He was also shocked and no longer had the arrogance from before. His hands and feet were cold, his eyes showed a trace of fear, and his whole body trembled.

After the real battle.

The nightmare beast finally understood.

Why was the snake Army annihilated? why was the snake Hunter killed by Jiang Li? because Jiang Li's troops were too terrifying. They were not on the same level.

To have such a strong Army.

Jiang Li was already in an invincible position.

“Roar!”

The Army of the city of fierce beasts formed a battle formation, and the roar of a Tiger could be heard. The murderous military Qi and the Qi of blood merged into one, transforming into a winged Tiger with wings on its back.

The ferocious Tiger circled in the air. It was a hundred meters long and had an aggressive aura.

Buzzzzzz!

The power of the battle formation spread out and blocked the firearm mech's bullets. The bullets couldn't break through the defense of the battle formation and stopped the firearm mech from killing.

“a mere military formation.”

Jiang Li sneered. He waved his right hand and a hundred large transport trucks slowly drove over from the transport meches behind him.

He took a closer look.

These 100 large transport trucks were obviously different from the others. The anti-aircraft guns on the front of the trucks were 130mm in caliber, much larger than the 88mm anti-aircraft guns.

A transport mech at the perfected stage of level two.

“Blast through the Army formation.”

stop! Jiang Li shouted.

“yes!”

Kachaa! Kachaa!

the cannoneers adjusted the angle of the cannons and aimed at the army.

“Fire the cannons!”

Jiang Li waved his hand.

BOOM! BOOM! BOOM!

Hundreds of 130mm anti-aircraft guns fired at the same time, and the shells flew across the sky, leaving behind a trail of fireworks.

It was like the fire of death.

“rumble!”

One hundred cannonballs fell into the demon Army and exploded. The sound of the cannonballs exploding rang in their ears. It shook the earth, the air waves rolled, and the flames rushed into the sky.

The smell of smoke spread across the entire battlefield.

“Ah!”

Bang!

The Army formation was destroyed immediately. Before the Winged Tiger could even unleash its might, it exploded and turned into Starlight that filled the sky. One by one, the demon soldiers were blasted into pieces.

Heavy casualties.

Hundreds of 130mm anti-aircraft cannons destroyed the formation of the city of beasts and killed thousands of demon soldiers. It also completely destroyed the morale of the demon Vanguard.

Da da da da

The firearm mech fired crazily.

Tens of thousands of meches charged into the enemy. The level two electric meches were like butchers, taking the lives of the demon soldiers. They were covered in blood.

Not only that.

The demon soldiers saw that their original companions “corpses were controlled after their death and turned into walking corpse puppets. They even attacked them.

It was simply terrifying, and he was extremely terrified.

“What the hell is this?”

“The ghost clan’s possession technique?”

“Damn it!”

the demon generals “eyes were gloomy and horrified. they quickly killed the walking corpse puppets that were attacking them. only after the heads were cut off would the walking corpse puppets lose control and fall.

Otherwise ...

Even if its limbs were cut off and it was split into two, The Walking corpse could still move.

at this moment.

On the other side of the battlefield.

JJ01 and sh01 cooperated with each other, using sniper bullets, rocket missiles, and Gatling guns to form a suppressive fire against the blue flames.

lan yan was extremely powerful. he was the deputy commander of the red dragon county’s air force. he was at the peak of rank two and was just one step away from awakening his bloodline and entering rank three.

so,

He was extremely powerful.

“Roar!”

The blue Luan let out a long cry, and blue flames shot into the sky, forming a huge pillar of fire. It fused with the blue flames, like a flaming God of War.

“secret technique!”

lan yan shouted, ” lan xiao dharma power! ”

“Whoosh!!!”

In an instant.

the aura of the blue flame rose sharply, and its strength increased explosively. the powerful aura surged out and suppressed the surroundings, producing waves of air that shocked everyone.

“kill!”

BOOM! BOOM! BOOM!

the blue flame spear swept across, knocking away all the incoming sniper bullets and rockets. they exploded in the air, creating a loud boom.

“Jiang Li!”

Shua!

die! the blue flame roared. His figure was like a ray of light, crossing thousands of meters in an instant and charging at Jiang Li.

“Whoosh!”

The spear burning with blue flames pierced through the air and went for Jiang Li's head.

Buzzzzzz! Buzzzzzz!

Instantly.

Jiang Li felt a terrifying pressure. The power of the perfected stage of tier two was pressing down on him. It was like a mountain.

“Si si si ...”

Jiang Li took a deep breath and ran his internal force with all his might.

“Meteor strike!”

“Thump!”

The giant hammer mech roared and jumped ten meters into the air. He gathered all his power and launched his strongest attack.

kachaa!

the handles of the two giant hammers were embedded together, forming two giant iron hammers with hammerheads. he waved his arms and smashed down with all his strength.

Bang!

A terrifying air explosion sounded, and the air collapsed. This was a terrifying scene caused by pure power. It was extremely powerful.

“!!!”

Lan Yan's pupils contracted.

“Rumble!”

The iron hammer and the spear collided in the air with a loud bang. The flames exploded and the air waves rolled like a missile explosion.

BOOM!

There was an explosion.

The giant hammer mech’s huge body flew back, and his damage increased rapidly to 10%. Blue flames danced on his body, and his damage was still increasing.

“He actually slipped away.”

Lan Yan was shocked.

He was knocked away by the hammer mech’s powerful force. Blood came out of his mouth and he was injured. He looked at the hammer mech and then at Jiang Li. I didn’t expect Jiang Li to have such a powerful master protecting him. He blocked my full-force attack.

“All troops, retreat!”

The blue flame quickly rose into the air, pulling away from him as he shouted.

“Retreat!”

“let’s go!”

instantly.

the two adjutants of the blue flame mercenaries shouted.
