Chapter 127 City defense

“Yes!”

Xu Ya immediately nodded.

“Yes, city Lord!”

hu dong said.

they could only trust jiang li now, and they had to.

city Lord, with the current number of city guards, the number of members of the Sirius gang, and all the constables in the county government, we can definitely finish the fortifications before evening!

Hong Tianqi patted his chest and promised.

“Our county government will definitely do our best.”

han liqi gritted his teeth.

“Go on.”

go. Jiang Li waved his hand.

“this subordinate will take his leave.”

Hong Tianqi and the others saluted and left. They gathered all the members, city guards, and constables as Jiang Li ordered.

They moved as fast as they could.

Building fortifications.

The main purpose was to reduce casualties during the defensive battle, thus hindering the enemy's attack and at the same time causing damage to the enemy.

Among them.

Jiang Li also told Hong Tianqi and the others to build 'shooting fortifications' on the city wall to ensure the firearm mech's fire output and safety.

However, they didn't know much about the shooting fortifications of the firearm meches, so Jiang Li had to teach them personally.

Since it was a city defense Battle.

The city wall itself was the best cover.

Other than that.

hong tianqi and the others had dug many traps and pits around the city wall. inside the pits were iron spears.

If they fell in, they would be pierced into a sieve.

There was more.

They had also dug huge trenches outside the city walls to limit the demon cavalry.

In the afternoon.

The great Xia city's defensive works had not been completed yet.

Jiang Li received the news from xx06 that the demon Army led by Red Dragon had arrived at the outskirts of Qingshan mountain.

Furthermore ...

The reconnaissance Air Force of the demon race had already determined the route.

In the projection.

A hundred thousand demon soldiers.

they were well-equipped, organized, and well-disciplined. even through the screen, jiang li could feel the power of the army.

They were definitely elite soldiers who had gone through hundreds of battles.

Faintly.

Jiang Li felt the pressure too.

This time.

Red Dragon came prepared with 100000 demon soldiers. It was obvious that he was determined to take the great Xia city and kill Jiang Li.

After all ...

Jiang Li had massacred a Demon City in the red Dragon County and killed 30000 demon soldiers. There was an irreconcilable hatred between them.

If the Red Dragon didn't kill Jiang Li, he would lose all his face.

“Cavalry, Air Force, archers, and infantry.”

it's the Red Dragon. Jiang Li judged the demon troops led by xx06. long-range, close-range, and air.

“The types of troops are quite complete.”

in a city defense Battle, the archers and the Air Force are the biggest threats, so they need to be dealt with first. I hope the anti-aircraft guns and mechanical artilleries can be more powerful.

BOOM!

suddenly.

An explosion sounded.

Jiang Li! a fire appeared on the screen. Jiang Li heard a dragon roar and then the screen went out. Xx06 didn't even have a chance to react.

He was killed instantly!

“.....”

Jiang Li's face darkened.

...

although jiang li had been on guard for a long time, he still underestimated the strength of the monsters in red dragon county.

Xx06 was killed just like that.

Even if he had ten perfected-stage level two electric meches protecting him, it would be useless.

In reality.

The ten perfected-stage level-two electric meches that Jiang Li sent were quite useful. They blocked several enemy attacks and bought xx06 a lot of time to shoot.

Otherwise ...

Xx06 would be destroyed as soon as it was discovered, so Jiang Li wouldn't be able to know the situation of the demon Army through xx06.

Of course.

the ten perfected-stage level two electric meches were likely to be killed since they had been discovered.

Fortunately ...

Jiang Li had already received first-hand information about the demon Army in Red Dragon County. He knew the number and types of the Army.

...

It wasn't too much of a loss.

“However, Yingluo”

hmm. Jiang Li thought, ” in the picture that was just sent, the demon soldiers behind the demon Army seem to be different. Even their flags are different.

“Could it be the demon soldiers from the other counties of the red eyebrows demon Kingdom?”

“It should be,”

I killed 30000 demon soldiers last time, “Jiang Li said. it’s impossible for the Red Dragon to build another army of 100000. It can only borrow soldiers from other counties.

Green Mountain Range.

BOOM! BOOM! BOOM!

An explosion sounded.

The blazing electric light flashed like lightning. The trees exploded and the ground cracked. The ten electric mechs exerted their strongest power.

“ah!”

A miserable scream rang out.

Many of the demon soldiers were killed, and their bodies seemed to have been carbonized.

“Grand completion of Tier 2!”

it’s actually ten at the perfected stage of Tier 2!

The demon soldier was shocked.

“kill!”

The ten electric-powered mechs were not afraid of death, pain, or fear. They charged into the Army of 100000 demon soldiers.

“You’re looking for death!”

“Do you really think that you’re invincible just because you’re at the perfected stage of Tier 2? You actually dare to charge into the Army, you reckless thing.”

“Get into formation!”

The generals of the demon soldiers shouted.

“Roar!”

The next moment.

The Army formation was activated, and the murderous military Qi gathered. It condensed the bloodline power of the demon soldiers, causing a terrifying qualitative change. It formed a roaring flaming Lion.

The flaming Lion was a hundred meters tall and its entire body was blood-red in color. It looked as if it was burning with blood flames and its might was torrential.

BOOM!

The flaming Lion pounced.

Kachaa!

The electric mech used his skills, and electricity burst out, forming lightning and thunder. The palm print cut through the sky like thunder and collided with the flaming Lion.

An explosion sounded.

Lightning exploded.

kachaa! Kachaa!

The electric-powered mech was knocked back, and his arms were broken. The damage was greatly increased. The flaming Lion pounced again, and the electric-powered mech advanced instead of retreating.

“Whoosh!”

Suddenly.

A sharp arrow wrapped in purple lightning came from the sky. It tore through the air and pierced through the chest of an electric mech.

The electric mech was scrapped.

Buzzzzzz!

jiang li collected the body and it turned into starlight and disappeared.

“What?”

in the air.

it was a demon with a pair of wings on his back, wearing purple leather armor, and wisps of purple electric arcs around his body. he looked down with a slightly surprised expression, ” where’s the corpse? ”

He was the commander of the Red Dragon County Air Force, the ‘purple Thunderwing’.

an expert at the perfected stage of stage two.

He was half a step into the 3rd rank.

It was even more powerful than the blue flames.

a few minutes later.

The battle was over.

The ten perfected-stage electric meches were all destroyed. Only one perfected-stage electric mech activated the self-explosion procedure and killed a large number of demon soldiers.

In the end.

the demon soldiers of red dragon county had killed ten perfected-stage level two electric meches at the cost of more than 2000 demon soldiers. of course, most of the lost demon soldiers were below level one.

Obviously.

This was the power of the Army.

When there were enough soldiers and they were familiar with the military formation, they could gather the military Qi and exert a powerful force, which could threaten high-level powerhouses.

“My King, these humans are very strange. I suspect that they are not real humans.”

The purple lightning Wings came to the Red Dragon’s side and cupped his hands in greeting. He then said in a deep voice, he’s not afraid of death. He doesn’t feel pain. He doesn’t know what fear is.

“It should be a type of puppet that is being controlled.”

in other words, it’s true that Jiang Li has mastered the ‘ancient puppetry’. If Jiang Li can mass-produce these puppets at the peak of level two ...

“Then this person is too dangerous. We definitely can’t let him develop. Otherwise, he’ll be able to take on an entire country by himself. We have to kill him as soon as possible. It’ll be best if we can snatch his ‘ancient puppetry’.”

also, after these puppets were destroyed, not even a fragment of their bodies was left behind. They turned into Starlight and dissipated.

“Ancient puppetry.”

if the ‘ancient puppet technique’ that Jiang Li mastered is really as powerful as you said, it’ll be a great opportunity for me.

Obviously.

red dragon also wanted to get the rumored ‘ancient puppetry’. after all, jiang li’s strength was very strong with the ‘ancient puppetry’.

my Lord, since these puppets were sent by Jiang Li, I’m thinking that Jiang Li might have already known about the situation of our demon Army.

The commander of the infantry Division, the handsome Wolf, Cande, said.

“Indeed,”

these puppet soldiers must have been sent by Jiang Li to the Qingshan mountains.

” jiang li is quite smart. ”

In the surroundings.

The monster generals discussed.

“Don’t worry about it.”

Red Dragon waved his hand. so what if Jiang Li knows? ” This time, we’re going to crush the great Xia City head-on. Any schemes and intrigues are nothing in the face of absolute power.”

with 100000 demon soldiers, it’s possible for them to take down the entire Black Dragon County, let alone a mere great Xia city.

“Red Dragon Commandery Prince, I have a question.”

At this moment.

ye zhihe came over and asked, ” we have entered the territory of the great Qian dynasty with such great fanfare. Isn’t the Red Dragon Commandery Prince worried about the Army of the Imperial court? ”

“Don’t worry,”

“The Imperial court of da Qian has already sent a Messenger to contact me. For the sake of peace between the two countries, there will definitely not be a large-scale war,” the Red Dragon replied.

“I see.”

Ye Zhihe suddenly understood.

It turned out that Jiang Li and great Xia city were abandoned by the Imperial court to ease the relationship between the two countries.

However, it was a little awkward.

This abandoned child seemed to be more powerful than everyone had imagined.

Time passed.

Night gradually arrived.

In the air.

The bright moon hung high in the sky, and the stars twinkled.

The great Xia city.

jiang li went to the city wall and looked into the distance. he didn't see any traces of the demon army. the 'shooting fortifications' on the city wall had been completed.

It was made of stone bricks and only had a hole for shooting. The firearm mech stood behind the cover.

After the shooting fortifications were completed, the 3000 firearm meches were all on the city wall, standing behind the bunker, ready to fight at any time.

Below the city wall.

Trenches had already been dug, and the open space in front of them looked normal on the surface, but in fact, there were a lot of traps and potholes.

Under the control of the biochemical meches, 11000 walking corpse puppets stood outside the city wall, ready to fight with the demon Army.

behind the city wall.

In other words, within the city.

2,000 transport trucks and 2000 artillery vehicles were neatly arranged in several rows. The thick gun barrels had been raised and were facing the sky.

The machine gun Scout stood on the city wall and looked straight ahead.
