

Army 128

Chapter 128-lock

On the city wall.

Ynsh01, JC01, GD01, Wang Gang, and CQ01 were standing on both sides of Jiang Li.

“City Lord Jiang, the trenches that the constables are in charge of have been completed.”

At this moment.

thank you, Jiang Li. han Liqi walked over quickly and stopped in front of Jiang Li. He bowed to Jiang Li and reported respectfully, “I believe that the trenches will be able to stop the monster cavalry.

“city lord, do you want to make a round of inspection in case you miss something?”

“No need.”

No. Jiang Li waved his hand. I don’t think you’d joke around with your life.

“.....”

han liqi wiped the cold sweat off his forehead. “of course, of course.”

“City Lord, the trap Construction is also completed.”

hong tianqi and the others came.

“The city gate should also be reinforced.”

Hu Dong said.

“Yes.”

“okay.” jiang li nodded.

Currently.

The number of city guards had been expanded over this period of time. They had even recruited young and strong men from the surrounding villages, and the Army had already expanded to 5000.

of course.

most of them were reserve recruits who had not undergone much training. there were only about 2000 people who could be considered ‘soldiers’.

The members of the Sirius gang.

There were also quite a few of them, about four thousand.

Finally, there were about a thousand constables from the county government.

There were nearly ten thousand people in total.

In other words ...

including the human soldiers in the great xia city and his mech army, jiang li had more than 40000 soldiers.

Half an hour later.

Jiang Li is preparing to defend the city!

“There are almost 40000 soldiers. This is definitely not a weak force. Does this mean that the demon Army of Red Dragon County is coming?”

“Has the news been sent out?”

“We have to think of a way to get out of the city. If the demonic Army of Red Dragon County is really here, I’m afraid we’ll be buried with the great Xia city.”

“Hurry up and escape!”

Within the city.

The scouts from the Black Dragon County, five lakes city, Tianshui city, Hope City, and other forces had long discovered the strange situation around the city wall.

They clearly saw that Jiang Li was arranging his troops and preparing to defend the city.

so,

They deduced that Jiang Li had made all these preparations to defend against the demon Army. He might have even known that the demon Army was coming.

No matter which possibility it was.

This meant that the great Xia city was in danger, and they couldn’t stay here any longer.

The night had come.

Shua! Shua!

In the alley and the corner.

Several figures were approaching the city gate stealthily, preparing to climb over the city gate and the city walls to slip out of the great Xia city. They didn't want to be buried with the great Xia city.

“Whoosh, whoosh, whoosh. The Jiao is out.”

a few minutes later.

A thin figure climbed over the city wall.

“Haha!”

Immediately.

The man laughed proudly and glanced at the city wall behind him in disdain. He looked at the soldiers in the distance and said in disdain, “tsk tsk, what kind of soldiers are these? they're even patrolling at night, but I managed to sneak out so easily. With city guards of this level, the great Xia city will be destroyed without a doubt.

“as expected, we have to escape quickly.”

“That guy succeeded.”

“Let's go, let's hurry up and catch up.”

“hurry, hurry, hurry.”

...

Very quickly.

a few more figures climbed up the city walls and jumped down. they had successfully left the great xia city, and their faces were filled with joy.

“Let’s go.”

They quickened their pace and prepared to escape.

“it’s almost time.”

At this moment.

Under the cold moonlight.

let’s go. Jiang Li quietly appeared on the city wall and looked down at the people who escaped from the city with a cold look.

In reality.

jiang li had noticed them a long time ago, but he didn’t show up. instead, he waited for all the spies hiding in the city to show up and then catch them all.

“Kill him.”

...

you’re right, “Jiang Li said coldly.

Whoosh! Whoosh! whoosh!

GJS01 immediately drew its bow and shot an arrow. It was pulled into the shape of a full moon. Five ordinary arrows were loaded on the longbow. Under the night sky, the arrows drew a cold and sharp light and cut through the sky.

pfft! Pfft! Pfft!

Blood splattered everywhere.

5 of the scouts at the forefront were shot in the head by the arrows, and their corpses fell to the ground, fresh blood flowing out.

“Ah!”

A miserable scream rang out.

“We’ve been discovered!”

“It’s Jiang Li!”

Instantly.

what? ” the few survivors were shocked. They looked back and saw Jiang Li standing on the city wall and looking at them indifferently.

There was more.

Several meches were standing next to Jiang Li.

Whoosh! Whoosh! Whoosh!

GSJ01 attacked one after another. Sharp arrows pierced through the night sky like the god of death. The people under the city wall could not Dodge or escape.

They were all killed one after another!

A total of nine people.

They were all dead.

the targets have all been dealt with.

GJS01 said.

“Yes.”

okay. Jiang Li nodded.

One had to know.

the spies in the city were very cunning. it wouldn't be easy for jiang li to find them.

If these people didn't want to escape from the great Xia city, it would take Jiang Li a lot of effort to kill them all.

if these spies had been hiding in the great xia city all this time, then every major event that happened in the great xia city would have been exposed by these spies.

The great Xia city wouldn't have any secrets to speak of.

this was not a good thing.

so,

These spies in the great Xia city had to be dealt with. Tonight, everything would be settled once and for all.

“hegemon, there's movement.”

Suddenly.

Ynsh01 said.

“there are demon soldiers!”

“There are a lot of them!”

“The demon Army is here!”

immediately after.

in the surroundings.

The scouts from the mech cannons spoke one after another. Their eyes were shining as they activated the ‘detection lock’ skill.

Cannon scouting.

It was mainly responsible for determining the distance, position, environment, wind direction, altitude, and a series of other situations of the target with the ‘detection and locking spell’.

After the trajectory was determined, the cannoneers would fire and destroy the target.

so,

The mech cannon could use the ‘detection lock technique’ to confirm and see targets far away. It was similar to having a super telescope.

the main body was a cannon.

The Cannonball’s maximum range could reach up to 30 kilometers.

In other words ...

Without any cover, the cannon could at least see the target 30 kilometers away. Only then could the full power of the cannon be displayed.

This was a very long distance and shooting range.

“Is it because the distance is too far? I didn’t see anything.”

hmm? “Jiang Li frowned and looked around, but he could only see darkness.

He didn’t have the detection skills of the cannon, nor did he have ynsh01’s terrifying vision. After all, Jiang Li was only at the early stage of level one while ynsh01 was at the late stage of level three.

The difference was huge.

my Lord, I can close the distance between us and the target by shooting from a distance. I can project images to help my Lord observe the enemy from a distance.

At this moment.

xx01 said to jiang li.

“Execute it immediately.”

Jiang Lishen said with joy.

“Yes.”

Xx01 nodded.

Immediately.

Xx01 began to use its skill. Its eyes lit up like two beams of light, passing through the obstacles of space and traveling into the distance.

After that.

He raised his right wrist and a projection light appeared, projecting a slightly blurry image in front of Jiang Li.

Obviously.

This was because it was night time and the distance was too far. Xx01 could only barely project the enemy's image, so it was a little blurry.

However ...

That was more than enough.

“It's indeed a demon Army.”

Jiang Li looked at the projection.

In the image.

Only a portion of the demon Army was captured. There were many demon soldiers, and they were densely packed together. Their military killing intent was extremely strong, and it made people feel extremely pressured when they attacked.

artillery, at the current distance, can you lock on to the target and launch a long-range bombardment? ”

” what's going on? ” jiang li asked the mech cannon beside him.

“yes, i can!”

The mech cannon responded.

“Alright!”

“great!” jiang li was excited. “very good. prepare the long-range artillery immediately. i’ll let the demon army of red dragon county have a taste of being bombarded before they arrive at the city.”

“Yes, chief sovereign.”

The two thousand mech cannons responded in unison.

Buzzzzzz! wuwuwuwuwu!

Immediately after.

The two thousand mech artilleries all activated their scouting skills. Their eyes shone as they scouted and locked onto the demon Army, sending information to the cannon operators.

Kachaa! Kachaa!

Behind the city wall.

The rows of cannon vehicles started to move, and the cannoneers controlled them to adjust the angle and position of the cannons based on the information they received.

one had to know.

the cannoneers could see the enemy from behind the wall and couldn’t determine where the enemy was. they could only rely on the information sent by the cannoneers.

it could be said that ...

The detection of the mech cannon was like the eyes of the mech artilleries.

NB01 has locked onto the target, awaiting further instructions!

“.....”

” nb09 has locked onto the target, awaiting further instructions! ”

“.....”

target locked on by number bb050, awaiting further instructions!

.....

in less than half a minute.

The two thousand Scouts asked for Jiang Li’s orders one after another. Because they were too far away, it took them half a minute.

“Fire immediately!”

Jiang Li took a deep breath and shouted.

“Fire!”

“Fire!”

“!!!”

boom! BOOM! BOOM!

In that instant.

Behind the city wall.

the mechanical cannons fired one after another, and the muzzle of the cannons emitted a dazzling flame. the pungent smell of gunpowder smoke gradually spread.

The Cannonball was fired, shaking the ground.

in the silent night, the sound of the explosion was extremely clear. it spread throughout the entire great xia city, alarming many residents.

What is this?!

look, they're flying into the sky. Those Balls of Fire are all flying into the sky.

“Si si si ...”

“What kind of weapons are these?”

In the surroundings.

The city guards, the constables, and the members of the Sirius gang all looked up. They could clearly see the unknown fireballs flying into the sky.

Shocking!

Such a scene shocked everyone!

In reality.

This was only the first round of cannon fire.

The 500 artillerymen fired at the same time, and the artillerymen quickly drove the cannon vehicles to the back. The artillerymen reloaded the shells, and the 500 artillerymen behind quickly followed.

On the city wall.

Jiang Li stared at the image xx01 projected. He wanted to know what kind of damage the long-range bombardment of 500 mechanical artilleries could do to the 100000 demon soldiers.
