

Army 134

Chapter 134 robbery

It was already late at night when the war ended.

It was close to midnight.

“let’s go.”

stop! Jiang Li shouted.

BOOM! BOOM!

The roar of the engine was extremely clear in the quiet night. There were 1900 large military transport trucks and 2000 mechanical cross-country artillery vehicles.

They drove along the main road.

They gradually disappeared into the night.

“.....”

everyone looked up until they could no longer see them. then they began to clean up the battlefield, burn the bodies, collect the spoils, and record the battle achievements.

Ten minutes later.

Under the organization of Hong Tianqi, Hu Dong, and Xu Ya, the residents of the great Xia city came out of the city one after another. When they saw the demon corpses on the ground, many of them turned pale. Some of them couldn’t take it and vomited.

fortunately ...

After gradually adapting, the residents also joined in. The clearing of the battlefield was obviously accelerated. Tens of thousands of demon corpses were piled up and began to burn. Pitch-black smoke rose into the sky and did not dissipate for a long time.

“so this is the demon race. they look like animals, but they don’t look much. i thought they would be very powerful.”

“Yes, yes.”

“How can they compare to our city Lord’s army? that’s more awe-inspiring.”

“I’ll kill as many as they come.”

“.....”

Gradually.

the residents also became more courageous. they discussed animatedly and joked with each other. their fear of the demon race had unknowingly disappeared.

if he encountered the demon race again, he would have the courage to run away.

Half an hour later.

“Hegemon, we’ve discovered traces of monsters up ahead,”

Ynsh01’s vision was extremely strong. It was the first to discover the demon soldiers of yehuang County, led by ye Zhihe. Their numbers had been greatly reduced and were now about 15000.

” mechanical artilleries, prepare for long-range firing. ”

Jiang Li said immediately.

“Yes!”

The mechanical artillery responded.

Immediately.

The mech cannon extended its head from the co-pilot seat and used the ‘detection lock technique’ to confirm the enemy’s target and calculate the trajectory of the bullet.

Kachaa! Kachaa!

The angle of the gun barrel was adjusted.

“Fire!”

BOOM! BOOM! BOOM!

the bombardment began. the cannonballs flew across the sky and shot straight into the sky, bringing with them a trail of flames. it was extremely obvious under the night sky as they bombarded ye zhihe’s demon soldiers.

In the distance.

The demon troops of yehuang County.

“Lord Commander, we’ve been on the run for so long, it should be about time.”

Xiong de said, looking behind with some lingering fear. He could no longer see the trace of the great Xia city, and his heart was faintly relieved.

“Don’t let your guard down.”

“we’re not safe until we get back to red dragon county,” ye zhihe said. “not to mention that we’re still in black dragon county.”

who knows if Jiang Li will come out of the city to kill us? ”

“The Lord Commander is right.”

“Increase the speed of the March.”

“It’s a pity that we didn’t manage to control the marching formation. Otherwise, we would definitely be able to escape back to red Dragon County before dawn. We would be safe then.”

The other demon soldiers and generals said.

“not good!”

“The humans are coming!”

Suddenly.

The Birdmen demon soldiers in the air saw the cannonballs coming through the air. Their eyes widened, and their faces were filled with horror as they shouted in horror.

“what?”

Xiong de and the others raised their heads, and their faces instantly turned pale.

...

Jiang Li is really here. He’s really going to kill us.

what? ” ye Zhihe’s eyes widened. has Jiang Li killed all the demon soldiers in Red Dragon County?
” How could he be so fast? That’s 70000 demon soldiers!”

“Intercept! intercept!”

BOOM! BOOM! BOOM!

The cannonballs exploded. Nearly one-third of them were intercepted and exploded in the air. The remaining ones fell into the demon troops and exploded.

“Pfft!”

“Ah!”

Screams rang out as the demon soldiers were blasted into the air, causing a large number of casualties.

However ...

This was just the beginning.

The mech artilleries continued to bombard them from a distance. Ye Zhihe and the others didn't even see Jiang Li's mech Army before they started to bombard them.

...

heavy casualties.

Half an hour later.

Jiang Li's mech Army caught up with ye Zhihe's demon Army. At this time, ye Zhihe's demon Army lost another 5000 demon soldiers.

He was already struggling on his last breath.

“Jiang Li!”

“jiang li!” ye zhihe’s eyes were red. he stared at jiang li in the passenger seat and roared, “you killed so many demon soldiers and the red dragon, and now you want to kill us all?”

yehuang County will not let you go. The red eyebrows Yao Kingdom will not let you go either. You will be killed by the red eyebrows Yao Kingdom. You will be killed. You will be killed.

“pfft!”

A black figure flashed in front of ye Zhihe’s eyes. Ye Zhihe’s vision turned black, and then the world turned upside down. His head flew up, and blood gushed high into the air.

Bang!

His head fell to the ground and rolled a few meters away.

“Lord Commander!”

Xiong de and the others screamed in horror.

A black figure appeared in the demon Army. The demon soldiers saw it clearly. The one who killed ye Zhihe was ynsh01, who had killed the Red Dragon.

“A connate warrior at the late stage of level three.”

“he actually slipped away.”

The demon soldiers were terrified.

“Kill!”

kill them all! Jiang Li waved his hand. kill all these demon soldiers!

“kill!”

“Roar!”

The next moment.

Tens of thousands of meches rushed out of the trucks and 20000 walking corpses rushed into the battlefield. The bloody slaughter began.

The whole process took less than ten minutes.

All the demon soldiers in yehuang city were annihilated, leaving the ground full of dead bodies. Jiang Li harvested more soul Tinders.

Soon after.

let's go. Jiang Li asked the meches to clean up the battlefield and collect the loot. He gave up the ones that weren't valuable and put the rest on the trucks.

“Let's go.”

Jiang Li waved his hand.

after the demon soldiers were killed, all the meches and walking corpse puppets got on the truck. the transportation meches used the skill 'walk on flat ground' and headed to the red dragon county territory at full speed.

The next day.

early in the morning.

Jiang Li arrived at the Red Dragon County. He passed by the green scale city that had been turned into ruins. From afar, he could see some monsters digging up valuable things.

I'm here. Jiang Li just looked around and ignored him. He took out the map he prepared and went to long snake City, which was the closest.

“they are humans.”

why did the human race appear in the territory of our Yao nation? ”

“I feel like something big is going to happen.”

after jiang li entered the red dragon county, he didn't even try to hide his tracks. instead, he marched forward, causing many monsters in the villages to notice his tracks.

An hour later.

with the speed of a transport truck, they arrived outside long snake city.

artillery, get ready.

Jiang Li looked at the huge city in front of him. It was even more magnificent than the green scale city.

at the city gate.

Many demons were coming and going.

The city walls were ten meters tall and extremely thick.

On the city wall.

There were demon soldiers patrolling the area.

“Yes.”

The 2,000 mechanical artilleries were arranged in a line and then divided into four teams, each team having 500 soldiers. They were separated into front and back, and began to fire step by step, seamlessly connecting.

“Target locked!”

.....

“target locked!”

.....

The scouts all spoke.

“Fire!”

stop! Jiang Li shouted.

BOOM! BOOM! BOOM!

The cannon soldiers fired, and the cannonballs flew across the sky, aiming at the gate of long snake City. The trajectory of the cannonballs was parabolic.

“What’s that?”

“There’s something falling from the sky.”

“Be careful!”

“They might be enemies!”

on the city wall.

The demon soldiers on guard noticed the cannonballs in the air and became alert.

“Rumble!”

The Cannonball landed on the city wall and hit its target. It exploded, sending flames and shrapnel flying everywhere. The terrifying explosive power blew the city wall apart.

Not only that.

The city gate collapsed.

“Ah!”

a large number of demons were killed by the shockwaves of the explosion. the demon soldiers guarding the city walls could not dodge in time and countless of them were killed or injured. their corpses flew everywhere and it was a tragic scene.

“Enemy attack! Enemy attack!”

“where is the enemy?”

“The attack came from the air.”

“What’s going on?”

The generals and commanders of the demon soldiers who were left behind in long snake City were alarmed. They rushed up the city walls at the first moment and saw the tragedy.

“The enemy is there!”

At this moment.

A level-two demon soldier commander discovered Jiang Li's mech troop. They were 20 kilometers away from long snake City, which meant that the enemy was attacking them from 20 kilometers away.

how is this possible?!

“Even a siege crossbow can't have such a long range!”

“Who are these people?”

“Where did this terrifying Army come from?”

The demon commanders and generals were terrified.

“continue.”

what's wrong? “Jiang Li looked at him coldly.

BOOM! BOOM! BOOM!

The artillery continued to bombard the city, not giving long snake City any chance at all. One by one, the artillery shells rose into the air and exploded within the city.

Finally ...

under the constant bombardment, the walls of long snake city had collapsed, and less than 10% of the demon soldiers were left. the remaining soldiers in long snake city were almost completely wiped out.

“Attack!”

attack! Jiang Li waved his hand and gave the order to attack the city. The mechanical artillery stopped firing and the transport truck moved forward at full speed and stopped a thousand meters away from long snake City.

roar!

Immediately after.

The first to rush out were 23000 walking corpse puppets. The number of walking corpse puppets increased by 3000 after the destruction of ye Zhihe's demon soldiers.

23,000 walking corpse puppets charged into long snake City and began a massacre. All resistance forces were torn apart.

Then, almost 10000 perfected-stage meches joined the battle. The rebellion demon soldiers of long snake City were all killed, and the level-two demon generals and commanders were all killed by the electric-powered meches.

In this siege battle.

From start to finish, it took less than an hour.

it could be said to be swift.

let's go. Jiang Li first blew up the city wall with the mechanical artilleries and destroyed nearly 90% of the resistance forces in long snake City. Then, he charged into the city and completely occupied it.

Half an hour later.

All the monsters that survived in long snake City were gathered. Jiang Li picked some of them and ordered them to move and loot the city.

Of course.

Some of the monsters resisted, but they were all suppressed by Jiang Li.
