Chapter 140 The thousand year spirit pith flower

“Let’s go. Let’s go and meet the two guests who have come from afar.”

Jiang Li said.

“Yes.”

okay. Hong Tianqi nodded and led the way.

in the yard of eagle claw hall of the sirius gang.

it’s already evening. Why isn’t Jiang Li here yet? ”

E kui was walking around the hall, frowning and looking impatient.

“There’s no point in you being anxious.”

Hong Ling indifferently said.

“?!”

E kui cursed.

“Elder E kui, what has made you so angry?”

Suddenly.

Jiang Li’s voice came from outside the hall.

“Jiang Li.”

Jiang Li. e kui looked up and saw Jiang Li pushing open the door of the hall. Behind Jiang Li were several meches, including ynsh01, Wang Gang, JC01, CQ01, and so on.

“Haha!”

E kui laughed awkwardly, “no, no. City Lord Jiang must have heard wrongly. I said that this pastry is especially delicious. That’s right, it’s the pastry that’s especially delicious.

he said.

E kui grabbed a piece of pastry and put it in his mouth to taste. He nodded his head repeatedly with a smile on his face, as if the taste was quite good.

“Hehe.”

Hong Luan gave e kui a disdainful look.

“If Elder E kui likes it, then eat more.”

Jiang Li smiled and didn’t expose him. He walked to the front of the hall and sat down in the main seat. The meches followed him closely and guarded him on both sides.

* Cough cough *

E kui coughed lightly to hide his embarrassment and found a seat.

“I heard from my subordinates that you want to discuss the next medicinal herb trade with this city Lord?”

what’s the matter? ” Jiang Li asked directly.

“.....”

Hong Luan and e kui looked at each other.

“Yes, I am.”

Hong Ling nodded.

” after the last deal, i think city lord jiang should be satisfied. our half-monster alliance has a good reputation, and city lord jiang is a big customer. ”

“I hope that this transaction will go smoothly for both parties,” said e kui.

” jiang li city’s main force turned the tide. under the attack of the 100000 demon soldiers led by the red dragon, not only did they protect the great xia city, but they also killed the red dragon and the 100000 demon soldiers. ”

“How can we bear to give up such a powerful and wealthy big client?” Hong Ling smiled.

“So, how many medicinal herbs do you plan to trade this time?”

Jiang Li asked.

“It’s at least ten million gold.”

of course, ” e kui said solemnly. if city Lord Jiang feels that it’s too much, we can discuss it again.

“This is only ten million gold taels, how can it be a lot? not much, not much.”

Jiang Li’s smile grew wider. I told you before that I’ll take as many herbs as you have. It’s only ten million taels of gold. You’re underestimating my wealth.

“I’ll try my best to prepare as much as possible for this Kasaya.”

E kui said.

“That’s the way.”

Jiang Li said.

city Lord Jiang, the location of the transaction will still be at Qingshan Valley. As for the time, it will be 12 o’clock tomorrow night. What do you think? ”

Hong Luan asked.

“sure.”

okay. Jiang Li thought about it and agreed.

“Alright,” he said.

Hong Luan immediately stood up and bowed to Jiang Li. since the business has been settled, I won’t disturb you any longer. Let’s wait for the official transaction tomorrow.

“Good.”

...

yes. Jiang Li also stood up. come see the two guests out.

“There’s no need to Trouble City Lord Jiang,”

“We’ll just leave the city ourselves.” Hong Luan waved her hand and refused.

“How can we do that?”

No. Jiang Li shook his head. I didn't treat you well when you came. Since you're leaving, I have to see you out.

"We'll just have to accept this Qianqian's request."

Hong Luan and e kui couldn't refuse and could only agree.

Soon after.

Jiang Li sent Hong Tianqi to see Hong Luan and e kui out of the city. After seeing them leave, Hong Tianqi returned to the city and reported to Jiang Li.

After making the deal with the half-monster Alliance, Jiang Li opened the record book that Xu Ya gave him. The number of spirit herbs was recorded in detail.

Among them.

...

There were 203700 ordinary spiritual herbs, 32800 inferior-grade tier one spiritual herbs, 21739 medium-grade tier one spiritual herbs, 15770 superior-grade tier one spiritual herbs, and 7030 superior-grade tier one spiritual herbs.

500 low-grade Tier 2 spiritual herbs, 150 medium-grade Tier 2 spiritual herbs, 53 high-grade Tier 2 spiritual herbs, and one top-grade Tier 2 spiritual herb.

There were no third-grade spirit herbs.

Speaking of this.

the only top-tier level two spirit herb was found in the secret room of the governor's mansion in hu city. jiang li couldn't recognize the name of the spirit herb.

The record book did introduce this one and only tier two Spirit herb.

Obviously, Xu Ya and the others had recognized him.

A thousand year spirit pith flower.

this was a rare second-grade spirit herb that had the effect of cleansing one's muscles and marrow. after a human martial artist consumed it, it could remove the impurities in his body and improve his martial arts aptitude.

After a monster consumed it, it could purify their bloodline and increase the grade of their bloodline.

if a barbarian consumed it, it would strengthen their affinity with totems.

increase aptitude.

jiang li's eyes lit up. "this is good. i'm not very talented in martial arts, so i need a lot of pills. pills have pill poison, and i'll be in danger of losing my mind if i take too many of them."

"i didn't dare to use the 10-year red fruit last time, but this thousand-year spirit pith flower should be fine."

At night.

Jiang Li first went to the warehouse of the city Lord's mansion.

In the warehouse.

There was a strong smell of herbs in the air. Jiang Li put his hand on the herbs.

[discovered item that can be converted into energy points. Do you want to convert it?!]

“Yes.”

yes. Jiang Li confirmed. convert all of them.

“Whoosh!!!”

A white light flashed.

When the white light dissipated, all the ordinary medicinal herbs that had enveloped the entire warehouse had disappeared and were all converted into energy points.

conversion successful. Received 520500 energy points!

A notification appeared.

” i’ve only managed to convert more than 500000 energy points. ”

Jiang Li murmured.

Only half of the common herbs were stored in the warehouse of the city Lord’s mansion. The other half was in the warehouse of the contribution Pavilion. After Jiang Li finished converting the herbs in the warehouse, he left quickly and went to the contribution Pavilion.

A few minutes later.

Jiang Li arrived.

“City Lord!”

There were members of the Sirius gang standing guard outside the warehouse.

“open the door.”

Jiang Li said.

“yes.”

The members of the Sirius gang nodded and immediately opened the warehouse door.

“You may leave.”

Jiang Li waved his hand.

“Yes.”

the two members of the sirius gang bowed respectfully and left quickly.

let's go. Jiang Li walked in, lit the torch, and closed the door. The meches stood guard outside, not letting anyone come close.

[discovered item that can be converted into energy points. Do you want to convert it?!]

“Yes.”

Jiang Li put his right hand on the herbs and confirmed it immediately. convert all of them.

Buzzzzzz!

A white light flashed.

All the herbs disappeared and were converted into energy points.

conversion successful. Received 501000 energy points!

A notification appeared.

another 500000 energy points.

Jiang Li was in a good mood.

After converting all 203700 ordinary herbs, Jiang Li got 1021500 energy points in total, which was more than a million.

It was not considered little.

After all, Jiang Li had robbed four demon cities. Ordinary herbs were only a fraction of what he had. Other than spiritual crystals, the real valuable things were the graded spiritual herbs.

There were also ranked medicinal pills and so on.

these were the main points.

Of course.

be it pills, weapons, equipment, gold, silver, or jewelry, none of them could be directly converted into energy points. it was not as convenient as spiritual crystals and ordinary herbs.

Jiang Li had to trade these things with others first to earn money. Then, he would use the money to buy a large number of ordinary herbs to maximize his profits and obtain a large number of energy points.

graded spiritual herbs could be directly converted, but relatively speaking, directly converting them to energy points would result in a huge loss. it would not be as much as converting them to ordinary herbs.

After the herbs were converted, Jiang Li walked out of the warehouse of the contribution Pavilion. He went back to the city Lord's mansion first and asked Wang Chao and ma han to ask Xu Ya to bring him the thousand-year spirit pith flower.

shua!

The Dominator panel opened.

Jiang Li finally had time to check his gains.

Soul Tinder.

there were 1539 level-one soul tinders and 22 level-two soul tinders.

in other words ...

Jiang Li killed more than 100000 demon soldiers and got 1535 level-one soul Tinders. He only got 11 level-two soul Tinders.

Such clear data comparison.

The number of stage-one soul Tinders captured was about 140 times that of stage-two soul Tinders.

the difference was huge.

Of course.

In addition to the fact that the drop rate of a level-two soul Tinder was much lower than that of a level-one soul Tinder, there was also a huge difference in the number of level-two demons and level-one demons.

After the battle with the demon Army of Red Dragon County ...

jiang li's meches had been reduced to 14300.

He had lost 4910 meches.

They had taken down four demon cities.

Jiang Li didn't lose a single soldier.

Among them.

there were no losses to the two thousand artillery soldiers, one hundred of the two thousand transport mechs were scrapped, and one hundred of the one thousand nine hundred and ninety electric mechs were scrapped.

Ten electric mechs started the self-destruct sequence.

Out of the three thousand biochemical mechs, one thousand and one hundred were lost. One hundred had activated the self-destruction sequence. Out of the three thousand combat mechs, one thousand and two hundred had been lost. One hundred and fifty had activated the self-destruction sequence.

Of the three thousand firearm mechs, nine hundred and ten were lost.

Out of the three thousand cold weapon mechs, one thousand and five hundred were lost. Three hundred of them had self-destructed.

They lost 4710 perfected-stage level one mechs and 200 early-stage level two mechs. No perfected-stage level two mechs were lost.

Recovered 412000 energy points.

In the energy points column.

The number of energy points had reached 5501000 points.

Among them.

Jiang Li used 210675 energy points to replenish the ammunition of the mechs and repair the damaged mechs.

“Activate Tinder fusion.”

jiang li had an idea.

Shua!

The fusion interface appeared.

Buzzzzzz!

Ten gray level-one soul Tinders were lined up in the interface, then slowly gathered together, gradually approaching the center.

The ten-second countdown began.

10?9?8?7.....

Within the interface.

A black light appeared in the center and spread at an extremely fast speed, covering the surroundings. Everything turned black, and a black spot of light appeared.
