

Army 141

Chapter 141

[fusion successful!]

Within the interface.

Four big golden words jumped out.

my luck is not bad. The first fusion today was a success.

one thousand five hundred and thirty-nine level-one soul Tinders, “Jiang Li murmured,” I can fuse one hundred and fifty-three times. According to the one-third success rate, I should be able to get about fifty level-two soul Tinders.

“Continue!”

Buzzzzzz!

Jiang Li continued to merge the level-one soul Tinders. The interface of the Tinder merging interface glowed. Ten level-one soul Tinders gathered together, but it was covered in a gray light.

[fusion failed!]

.....

[fusion failed!]

.....

[fusion failed!]

.....

Ten consecutive kneels!

That's right!

jiang li tried ten times in a row and failed ten times. he only succeeded once in the beginning and wasted a hundred level-one soul tinders.

“This is a bit of a scam.”

what? ” Jiang Li's face darkened. did I use up all my luck because I got a level-three soul Tinder with one soul imprint last time and now I'm paying back my debt? ”

“It's really Yingluo.”

Jiang Li rolled his eyes and felt helpless.

There was not much significance in keeping the level-one soul Tinder because the other types of worlds had not been opened yet. There was only one use for it now, which was to fuse it into a level-two soul Tinder.

Even if it failed, it would still have to be fused.

” continue the fusion. i don't believe that my luck today will be so bad. ”

Jiang Li took a deep breath.

Buzzzzzz!

the fusion interface appeared.

The ten gray soul Tinders gathered together.

The ten-second countdown ended.

[fusion successful!]

A notification appeared.

“I’ve succeeded.”

I’ve failed ten times in a row. Finally, I succeeded once. Jiang Li was overjoyed.

Shua!

The fusion continued.

[fusion failed!]

.....

[fusion failed!]

.....

[fusion successful!]

.....

Each fusion required ten level-one soul Tinders. After ten consecutive kneels, the success rate of fusion returned to normal, about one-third.

time passed.

A few minutes later.

Jiang Li fused all 1530 level-one soul Tinders. He fused 153 times in total and succeeded 41 times. He got 41 level-two soul Tinders.

The success rate of the fusion was less than one-third, but it was not too ridiculous and within an acceptable range.

Soul Tinder.

There were nine level-one soul Fire Seeds left, and the number of level-two Soul Fire Seeds increased to 63.

sixty-three level-two soul Tinders.

Jiang Li looked at the Dominator panel and opened the level two mech interface. The tank mech needed 16 level two soul Tinders to be unlocked.

should I unlock the tank meches and the mechanical Rangers first, or should I fuse the level-two soul Tinder and take the risk to fuse the level-three soul Tinder? ”

Jiang Li muttered to himself.

why don't I unlock the tank mech first instead of the mechanical Rangers? I'll still have 47 level-two soul Tinders left, which can be fused four times.

...

Jiang Li thought, but I succeeded in One Fusion last time. In terms of probability, I might not succeed in the next four fusions.

“City Lord, Pavilion Lady Xu Ya has brought the thousand year spirit pith flower.”

Outside the door.

Ma Han's voice was heard.

"Come in."

Jiang Li closed all the interfaces and stopped thinking about this problem.

Squeak!

The door was pushed open. Ma han deliberately walked one step behind Xu Ya and let her enter the room first. Then, he followed behind and stood respectfully at the side.

"City Lord, the thousand year spirit pith flower you wanted."

"jiang li." xu ya handed a delicate jade box to jiang li with both hands.

"Yes."

...

Jiang Li took it and opened the box. There was a thousand-year spirit pith flower inside. It was snow-white and looked like a lotus, but it was glowing with a strong spiritual Qi.

He took a closer look.

There was a crystal-like liquid flowing within the flower's stem and petals.

it was quite strange.

[discovered item that can be converted into energy points. Do you want to convert it?!]

When Jiang Li's finger touched the thousand-year spirit pith flower, a notification appeared.

"No,"

Jiang Li didn't agree.

The prompt interface disappeared.

"You guys can leave first."

Jiang Li said.

"yes."

xu ya nodded and left respectfully.

"This subordinate will take his leave."

Ma han also left quickly.

"I've only seen two kinds of top-tier second-grade spirit herbs. the blood spirit ginseng, which dugu huangcheng had to rely on the demon clan to get, and the thousand-year-old spirit pith flower."
"

today, let me test your effects. Is it really as magical as they say? can it improve a martial artist's aptitude and cleanse their internal organs? "

it's not that I don't know, "Jiang Li murmured. He closed the jade box and put it in his pocket. He left and went to the room in the mansion that was specially used for practicing.

In the training room of the city Lord's mansion.

Buzzzzzz!

Jiang Li used the Thunder Qi art to adjust his state. He calmed down and his spirit reached its peak.

it could be seen.

His internal force circulated and a faint internal force luster appeared on his hands.

On the table in front of him, there were porcelain bottles filled with medicinal pills in case of emergency.

“It’s starting.”

Jiang Li took a deep breath and looked calm. He took out the jade box, opened the lid, took out the thousand-year spirit pith flower, and put it all in his mouth.

Immediately after.

Jiang Li chewed it and the thousand-year spirit essence flower melted like snowflakes. It turned into a stream of liquid and flowed down Jiang Li’s throat into his stomach.

“Whoosh!!!”

The next moment.

Jiang Li clearly felt a wave of extremely hot energy. With his abdomen as the center, it gradually spread to the rest of his body and penetrated deep into his body.

BOOM! BOOM!

The qi and blood in his body began to shake.

“Si si si ...”

Jiang Li took a deep breath and felt the pain. It was like being cut by a knife. Jiang Li used the Thunder Qi skill to ease the pain.

“It hurts!”

Jiang Li gritted his teeth and immediately took a porcelain bottle from the wooden table in front of him. He poured out a pill and swallowed it. The medicinal power of the pill started to spread.

A warm energy emerged.

It reduced the pain.

The pill was a Tier 1 high-grade nourishment pill. When used with the thousand-year spirit essence flower, it could relieve pain and even increase the effects of the thousand-year spirit essence flower.

Of course.

even though the pills were good, they were extremely expensive.

in reality.

Jiang Li got these nourishment pills from the secret room in the governor’s mansion in Hu city. They were placed next to the ‘thousand-year spirit pith flower’. Apparently, they had been made in advance to match the thousand-year spirit pith flower.

but now, jiang li had all of them.

Time passed.

An hour had passed.

the effect of the thousand-year spirit pith flower and the nourishment pill reached its peak. jiang li absorbed all of it. the medicinal power cleansed his body and removed the impurities in his body. even the pill poison left by the pills he had taken before was removed.

The pores all over his body.

Dark blood flowed out, staining his clothes.

“Hu ~~ Hu ~ Hu ~”

Jiang Li took a deep breath and felt much more relaxed. It was as if he had broken some invisible shackles.

furthermore ...

His internal strength circulated more nimbly, and the purity of his internal strength also increased.

Not only that.

Jiang Li also opened the second Meridian, the hand Yang Ming large intestine meridian.

His internal strength had increased by quite a bit.

“After consuming the thousand year spirit pith flower, what kind of aptitude have I reached?”

Jiang Li felt the obvious changes in himself, but he wasn't sure, mainly because he didn't know what the grades were and didn't have any knowledge about them.

“Why don't you ask someone else, like han Liqi?”

maybe he knows something. after all, han liqi used to work for the imperial court of da qian. he's quite knowledgeable.

“The smell is a little unpleasant.”

Jiang Li looked down at the bloodstains on his body and frowned. He immediately went out of the practice room and called du Xiaohua to prepare the bath water.

Half an hour later.

Jiang Li came out of the bathroom feeling refreshed. He washed the blood off his body and changed into clean clothes. Du Xiaohua took Jiang Li's dirty clothes and left the bedroom.

“There's no need to wash this set of clothes, just throw it away.”

Jiang Li said.

“Yes, young master.”

Du Xiaohua was stunned for a moment and then nodded.

he returned to the bedroom.

It was because he had slept the entire day.

At night.

Jiang Li wasn't sleepy anymore.

Furthermore ...

Jiang Li was in high spirits after the internal cleansing.

hence.

jiang li went outside the city and found an open space.

He was preparing to make up for the losses from the last battle.

there are more than five million energy points. It's not too much or too little. It's enough to make up for all the meches lost in the last war.

jiang li opened the dominator panel and started to make meches.

build meches immediately. One hundred transport meches, one hundred and ten electric meches, one thousand one hundred biochemical meches, one thousand two hundred combat meches, nine hundred and ten firearm meches, and one thousand and five hundred cold weapon meches.

Jiang Li used 257100 energy points to build 4710 level-one units and 210 level-two units.

shua!

The manufacturing interface appeared.

There were a total of six virtual figures, and there was a number next to each virtual figure, representing the number to be created. Countless light spots filled the figures.

A minute later.

[creation complete!]

The virtual figures all condensed and then appeared out of thin air.

Shua! Shua! Shua!

In the open space ahead.

meches appeared one after another. one hundred large military transport trucks took up most of the space, and more than four thousand meches stood in an orderly line.

“Greetings, chief sovereign!”

The meches shouted in unison.

“yes.”

okay. Jiang Li looked around and nodded.

“upgrade 4710 level-one soldiers to the perfected level.”

Jiang Li used 659400 energy points to upgrade all 4710 meches by several levels. There were lights flashing.

A few seconds later.

the promotion was complete.

All 4,710 meches had been promoted to the perfected stage of level one. They were well-equipped, and their ranks were all promoted from private to Sergeant.

upgrade ten electric-powered meches.

Jiang Li used 140000 energy points to upgrade ten electric meches.

Shua!

Right in front.

Several lights flashed on the ten electric meches, and their levels were upgraded to the perfected stage of level two. The electric light in their eyes became brighter.

They were equipped with exclusive weapon gloves.

his military rank was promoted to first lieutenant.

This way ...

The number of perfected-stage level two electric meches was restored to 100.

He was at the same level as the transport meches.

” unlock tank mech. ”

After that.

” let’s go. ” jiang li used his level-two meches and made a decision. he used 16 level-two soul tinders to unlock the ‘tank mech’, which had the title of ‘ king of land battle’.
