

## Army 142

### Chapter 142

Shua!

Within his line of sight.

A notification window popped up.

[tank mech has been successfully unlocked!]

there was no surprise.

It was successfully unlocked.

sixteen stage-two soul tinders were consumed, and the number of stage-two soul tinders was reduced to forty-seven.

as the tank mech was unlocked, the information of the last stage two mech appeared.

Level 2 troops: electric mech (unlocked), transport mech (unlocked), cannon (unlocked), tank mech (unlocked), mechanical Ranger (47/32 locked)

I was right. Unlocking the Robocop requires 32 Level 2 soul Tinders. I have 47 of them now, which is enough to unlock the last level 2 troop.

Jiang Li thought to himself.

However ...

Jiang Li still wanted to fuse a level-three soul Tinder. If he unlocked the mechanical Ranger, he would only have fifteen level-two soul Tinders left.

It could only be fused once.

It was almost certain to be a failure.

“Let’s make two thousand tank meches first.”

Jiang Li confirmed.

He had spent a total of 2000000 energy points.

Shua!

An illusionary manufacturing interface appeared, and an illusionary figure appeared. The main body was a large main battle tank, and two figures stood beside the tank.

“Whoosh!!!”

Countless light spots filled it.

The illusionary figure gradually solidified.

One minute passed.

[ creation complete! ]

A notification appeared.

Shua! shua! “Whoosh!”

The next moment.

On the virtual interface, a figure appeared out of thin air. In the open space in front of them, there were many main battle tanks. There were two meches standing next to each tank.

“Greetings, chief sovereign!”

all the meches saluted jiang li.

“Alright,” he said.

okay. Jiang Li nodded with satisfaction and looked at the tanks in front of him carefully. They had a powerful aura and the black muzzles seemed to be able to swallow lives.

On the whole.

The tank mech looked similar to the M10 tank destroyer, but there were some slight differences. The outside color was camouflaged.

It had sharp edges, was tall and mighty, and the shape of the armor was made of alloy steel. It was like an indestructible mobile fortress, equipped with heavy machine guns and thick muzzles. It was full of firepower and powerful.

It was enough to crush all the enemies in front of him.

It had an invincible and indomitable aura.

Shua!

unit Type: Tank mech

[ rank: early stage of rank two ]

[ No. TK01 ]

skill: level two low-grade destruction ”

[ machinery: Jian Jia (omitted) ]

advancement requirement: 2000 energy points ”

.....

sub-troop type: mech tank driver

[ rank: early stage of rank two ]

[ no. tkjs01 ]

skill: level two low-grade as if walking on flat ground ”

[ machinery: Jian Jia (omitted) ]

.....

[ sub-troop type: mech tank Operator ]

...

[ rank: early stage of rank two ]

[ No. Tkcz01 ]

skill: stage two inferior-grade tank control ”

[ machinery: Jian Jia (omitted) ]

.....

Tank mech.

In addition to the main mech, there were two sub-meches to drive and control the tanks to unleash the powerful firepower of the tank mech.

Generally speaking.

To power a tank, 4 tank soldiers are required, including: Vehicle Captain, cannon Captain, driver, and loader.

Among them.

The conductor was the conductor of a train. He was mainly responsible for giving verbal orders to the passengers in the train, issuing shooting orders, conveying various information, determining the target of attack, mission orders, and so on.

...

The cannon Captain was also the tank gunner.

it was mainly responsible for the weapon system and firing.

Loading hand.

As the name suggested.

They were mainly responsible for loading the shells.

The driver was in charge of driving the tank.

The division of labor was clear.

as for the tank mech.

The mech Captain, gunner, and loader were combined to become the tank operator of the mech, but the tank driver was retained and the driver was given the skill 'walk on flat ground'.

This way ...

It could ensure the speed of the tank in any terrain.

unlocking mechanical Ranger.

Jiang Li pondered for a moment and made a decision after thinking about various situations. He would use thirty-two level-two soul Tinders to unlock the mechanical Rangers.

First of all ...

Jiang Li had ynsh01 and he had reached the peak of level three.

Ynsh01 had the 'biochemical poison' skill, which could transform into a perfected stage three zombie puppet. This way, he could rely on this skill to turn the stage three enemy into his own power.

Furthermore ...

The mechanical Rangers were a troop type with high flexibility, mobility, and attack power. Among the Stage 2 troops, they were the perfect type.

It was similar to the status of the biochemical meches among level one troops.

so,

Jiang Li decided to unlock the mechanical Ranger.

Shua!

Thirty-two level-two soul Tinders were consumed.

[ mechanical Ranger has been successfully unlocked! ]

A notification appeared.

Shua!

[ prompt: congratulations, Lord, you have unlocked all the stage two mech army units and successfully obtained the authority to activate stage three mech army units. Please collect ‘nine stage three soul Tinders’ and ‘1000000 energy points’ as soon as possible to open the stage three mech army unit interface. ]

Very quickly.

when jiang li unlocked the last level-two troop type, ‘mechanical ranger,’ he received a notification and got the right to unlock the level-three troop type.

However ...

In order to activate the level 3 troop class, he would need nine Level 3 soul Tinders and 1000000 energy points.

of course.

It was easy to gather 1000000 energy points, but the main difficulty was the Tier 3 soul Tinder. The drop rate of the Tier 3 soul Tinder was too low, so it was not easy to gather nine Tier 3 soul Tinders.

“dominator interface.”

Jiang Li opened the Dominator panel.

In the energy points column.

Jiang Li had used up 3056500 energy points, which was close to three million. He had 2444500 energy points left.

More than two million.

” there’s still 244500 points left. ”

I’ll make 2000 mechanical Rangers, “Jiang Li murmured.

Jiang Li didn’t hesitate for too long. He used another 2000000 energy points to create 2000 mechanical Rangers. An illusionary manufacturing interface appeared in front of him.

In the interface.

an illusionary figure appeared. it was a mech soldier riding on the back of a mech wolf with the words ‘x2000’ beside him.

Countless light spots filled the illusionary figure.

It gradually solidified.

A minute later.

[ creation complete! ]

A notification appeared.

The illusionary figures completely solidified and gradually enlarged, projecting themselves onto the open space in front of them. One by one, the mechanical Rangers appeared out of thin air.

It was like a creation from the void.

The two thousand mechanical Rangers formed an Army. Each mech rode on a mechanical wolf and was equipped with both hot and cold weapons.

“Greetings, chief sovereign!”

The meches shouted in unison.

“roar!”

The mechanical wolf raised its head and let out a high-pitched howl.

The mechanical wolf was almost exactly the same as a real Wolf, and it was even taller and more powerful.

Its strength was extremely strong, comparable to a rank two fierce beast.

“Alright,” he said.

Jiang Li smiled and was very satisfied.

Mechanical Rangers.

This was a powerful cavalry. Generally speaking, the Mount of a mechanical Ranger was based on a mechanical wolf, equipped with a Knight’s spear, knight’s sword, Knight’s Bow, and Knight’s dagger.

and this was only the preparation of cold weapons.

there were pistols, rifles, and bazookas.

The various powerful configurations almost made the mechanical Rangers into an extremely powerful and perfect unit. They had extreme flexibility, mobility, and firepower output.

other than that.

The mechanical Rangers also had a similar setting to the cold weapon meches.

In other words, there was a certain probability that special types of elite troops would appear.

For example.

Their mounts were mechanical Tigers, mechanical mammoths, and mechanical horses.

Of course.

whether it was a cold weapon mech or a mechanical ranger, this probability couldn't be calculated.

It was possible that only 100 of them would be produced, and elite troops would appear.

However, it was also possible that 10000 of them might not even appear.

It all depended on luck.

[ troop Type: Mechanical Ranger ]

[ rank: early stage of rank two ]

[ no.: yq01 ]

skill: level two low-grade charge ”

“Equipment: stage two low-grade Knight’s cold weapon set, stage two low-grade Knight’s hot weapon set”

[ machinery: Jian Jia (omitted) ]

advancement requirement: 2000 energy points ”

.....

sub-troop type: mech Knight

[ rank: early stage of rank two ]

[ No.: Yqqb01 ]

skill: level two low-grade Knight’s killing skill ”

[ machinery: jian jia (omitted) ]

.....

sub-troop Type: Mechanical wolf soldiers

[ rank: early stage of rank two ]

[ No.: YQL01 ]

skill: level two low-grade sprint ”

[ machinery: Jian Jia (omitted) ]

.....

It was obvious.

The mechanical Ranger was made up of two sub-units, and when they were combined together, they were called mechanical Rangers. It could be said that a mechanical Ranger had three skills.

In reality.

There were five types of level two troops.

Apart from the electric and transport meches, the other three had sub-professions and many skills.

[ congratulations, my Lord. Because you created 2000 mechanical Rangers at the same time, a special probability has been triggered. You have received a Rank 2 elite soldier type, 'mechanical mammoth Ranger'. ]

Shua!

Jiang Li suddenly received a notification.

“Rank 2 elite troop class.”

huh? ” Jiang Li was stunned for a moment, then he looked up and saw a different figure among the two thousand mechanical Rangers.

It was like a crane standing among chickens.

Compared to the other mechanical Rangers, they were much taller and more powerful.

mechanical mammoth Rangers, step forward.

stop! Jiang Li shouted.

“Yes, chief sovereign.”

Yes, sir! the mechanical mammoth replied and then walked out of the group. He rode a huge mechanical mammoth, which looked exactly like a real one.

After that.

He stopped in front of Jiang Li. He was four meters tall. With the mech Knight's height, he was nearly five meters tall.

just by looking at its imposing appearance and the pressure that came from it, it was enough to show how powerful the rank 2 elite troop 'mechanical mammoth rangers' were.

“Very good,” he said.

okay. Jiang Li nodded in satisfaction.

[unit Type: Mechanical mammoth Rangers (elite)]

[rank: early stage of rank two]

[No.: Mmyq01]

skill 1: stage two inferior-grade charge ”

skill 2: level-two inferior-grade gravity trample

“Equipment: stage two low-grade cold weapon Knight set, stage two low-grade hot weapon Knight set, stage two low-grade exclusive mammoth ivory Knight spear”

[machinery: Jian Jia (omitted)]

advancement requirement: 4000 energy points ”

.....

[sub-troop Type: Mechanical mammoth Knight (elite)]

[rank: early stage of rank two]

[No.: Mmq01]

“skill 1: stage two low-grade knight’s killing skill”

“skill 2: level-two low-grade heavy strike

[machinery: jian jia (omitted)]
