

Army 143

Chapter 143 The new regional King

“sub-troop type: mechanical mammoth soldier”

[rank: early stage of rank two]

[no.: mm01]

skill 1: level two low-grade sprint ”

skill 2: level two low-grade brute force ”

[machinery: Jian Jia (omitted)]

.....

Jiang Li Read through all the information about the mechanical mammoth Rangers in detail. He was so happy that he almost laughed.

rank 2 elite troop class.

The main branch and two sub-branches had a total of six skills. In terms of weapons and equipment, they were even equipped with the ‘mammoth ivory spear’.

jiang li looked over.

The mammoth ivory spear was placed on the right side of the mechanical mammoth soldier, and the mechanical mammoth Knight could easily grab it with a raise of its hand. It was a full three meters long.

Its entire body was white and extremely sharp.

It could be said that ...

even a tank could be pierced through by the mechanical mammoth rangers.

upgraded to mechanical mammoth Ranger.

Jiang Li calmed down and immediately used 28000 energy points to upgrade the mechanical mammoth Ranger to the perfected stage of level two.

Buzzzzzz!

Several rays of light flashed on the mechanical mammoth Ranger's body. In just a few seconds, it had completed its upgrade, reaching the perfected stage of Tier 2.

Roar!

The mechanical mammoth soldier raised its elephant trunk and let out a deafening roar. It formed a solid sound wave and spread out.

Jiang Li covered his ears.

The mechanical mammoth Ranger's appearance had changed a lot. Its height had increased by four meters, reaching nine meters. Basically, it would increase by more than a meter with every increase in rank.

His aura became even stronger.

Furthermore ...

The weapons they were equipped with had also become stronger, all of them upgraded to top-tier Tier 2.

All of his skills had also been upgraded to Tier 2 top-tier.

His strength had greatly increased.

Even ...

Jiang Li felt that the mechanical mammoth Rangers might be able to fight against a rank-three soldier. After all, they were a rank-two elite troop with six skills.

Currently.

Jiang Li had 23220 meches in total.

he had 13214 level one meches, 10005 level two meches, and one level three mech.

there were 3300 combat meches, 3300 cold weapon meches, 3300 biochemical meches, 3300 firearm meches, and 14 information meches.

There were 2000 electric-powered meches, 2000 transport meches, 2000 artillery soldiers, 2000 tank meches, and 2000 mechanical Rangers.

Sniper mech JJ01, combat mech Wang Gang, hammer mech JC01, Archer mech GJS01, and spear mech CQ01.

psionic bio-soldier ynsh01.

Other than that.

There were also 23000 walking corpse puppets and two early third rank walking corpse puppets.

these were all the forces jiang li had at the moment.

I'm still 76780 meches away from 100000 soldiers. As long as I can gather 100000 soldiers, I'll be able to activate 'mech Air Force service' and 'mech Navy service'.

Jiang Li murmured in his heart.

As for which one to activate ...

He would have to make a decision based on the situation.

Of course.

If Jiang Li wanted to, he could build all the early-stage level one meches. The cost of 76780 early-stage level one meches was 767800 energy points.

It was not even a million.

but ...

If he did that, it might greatly affect the balance of Jiang Li's mech Army. There were too many low-level meches, which would make the mech Army weak.

It would be detrimental to his future development.

"No, Yingluo."

Jiang Li thought for a moment and murmured, "if you think about it carefully, most of the 100000 demon soldiers in Red Dragon County are unranked.

the combat power of an early-stage level one mech is comparable to an early-stage level one martial artist.

...

in other words, even if I create all the level one meches and gather a hundred thousand soldiers, they aren't weak.

“A 100000 Stage 1 Army is already a strong Army.”

moreover, it's not like I can't afford to spend less than a million energy points.

” in addition, we will have 2000 electric-powered meches, 2000 artillery soldiers, 2000 rangers, 2000 tank meches, and 2000 transport meches. ”

” and ynsh01, a perfected tier 3. ”

“The Army's high-end combat power is also ready.”

haha. Jiang Li suddenly laughed and said, ” I didn't know I've mastered such a powerful force.

whether it's the great Qian dynasty or the red eyebrows Yao Kingdom, I'm not afraid of anyone with my current strength, unless there's an Army of a million soldiers.

Jiang Li said to himself.

“However, the third stage power I have is still too little. I only have ynsh01 and two early stage third stage undead puppets.”

” although ynsh01 is at the perfected stage of tier 3, the great gan dynasty and the red eyebrows yao kingdom will definitely have experts at the perfected stage of tier 3. ”

...

Jiang Li thought, if the Qian dynasty and the red eyebrow Empire send more than two digits of level-three experts, I'm afraid I can't stop them.

“As far as I know,”

there are 36 inspectors in the great gan dynasty, and each of them is a warrior above the third rank.

“Other than what I currently know, there are also things I don’t know.”

with my current strength, it’s still too much to fight against a Kingdom.

Jiang Li took a deep breath.

“Let’s go back to the city.”

let’s go. Jiang Li waved and led the meches back to the great Xia city.

“Rumble!”

the tank mech drove into the city and attracted the attention of the city guards and the people. they looked up and discussed.

let’s go. Jiang Li didn’t stay for long. He arranged for the meches to enter the temporary camp.

On the other side.

Late at night.

No matter how bad the intelligence Agency of the red eyebrows Yao Kingdom was, they had already received the news that Red Dragon had been killed and the 100000 demon soldiers of Red Dragon County had been wiped out. The news had been sent to the palace of the red eyebrows Yao Kingdom.

not only that.

Five demon cities in Red Dragon County were destroyed, and hundreds of thousands of demon citizens were slaughtered.

“My Dear Ministers, you can speak of your opinions and ideas regarding what has happened in Red Dragon County.”

In the main hall of the Royal Palace.

On the throne.

What entered his eyes was a woman with a slightly lazy posture. She was leaning sideways on the throne, her figure beautiful and attractive, exuding an unparalleled charm.

She was wearing a light red shirt that was as thin as a cicada's wings. Her pair of slender and round legs were close together, tightly pressed against each other, without a single gap.

His line of sight moved up.

It stood tall and had snow-white skin that was as warm as suet Jade.

She had a perfect and exquisite oval-shaped face, a small cherry-like mouth that was as red as blood, and her facial features were well-defined and flawless. However, there was a snake scale that was as red as fire between her eyebrows.

She was the king of the red eyebrows Yao Kingdom!

Red eyebrows!

it was obvious that he had shed his beast body and was almost no different from a human. he was at least a tier 3 powerhouse because the demon race could only shed their beast bodies after reaching tier 3.

Of course.

there were also many demons who did not like the appearance of humans. even if their cultivation had reached the third rank and their bloodline had been awakened, they would not shed their beast form.

They believed that the body of a demon was the most perfect.

Your Majesty, I'm willing to lead 100000 soldiers to the Black Dragon County and destroy the great Xia city. I'll take Jiang Li's head and present it to you, " the Prince said.

Within the palace.

The Crown Prince knelt on one knee. He had a rough face, a burly figure, and was wearing armor. At his waist was a long, pitch-black sword. He was actually able to bring a weapon into the hall.

It could be seen that the crown prince's status was extremely high.

He had special privileges.

"Alright," he said.

Chi Mei chuckled and said, "Crown Prince, I'll leave this matter to you. Don't Let Me Down.

"Your subject will return in triumph!"

The Crown Prince shouted.

"Hehe."

Shua!

With a flash of red light, Chi Mei had left the hall. The graceful and charming figure on the throne had disappeared, and only a soft laughter could be heard.

"Gulu, Gulu, Gulu."

The Crown Prince swallowed his saliva, his eyes burning.

Celestial water city.

At the border.

In the temporary camp.

“City Lord,”

In the commander’s tent.

A soldier in black was kneeling on the ground.

“Speak,” he said.

Luo Tianshui’s entire body was covered in silver armor, and only her eyes were exposed. She sat in the commander’s position.

things are just as you have expected. The black snake barbarian kingdom has already gathered one hundred thousand totem barbarian soldiers. They are all in the barren city and will probably launch a large-scale attack.

The soldier said.

“Let’s go down and continue our investigation.”

luo tianshui waved.

“Yes.”

the soldier nodded and left quietly without a sound.

obviously.

This soldier was not an ordinary soldier, but the commander of Tianshui city's reconnaissance Army. His strength was extremely high, reaching level two, and he was skilled in concealment and assassination.

In reality.

In the entire Black Dragon County.

Tianshui city was the strongest. Whether it was in terms of military strength or high-end combat strength, it was far superior to the other four cities. Even the capital of the Black Dragon County might not be able to compare to Tianshui city.

Furthermore ...

luo tianshui's strength was unfathomable, and it was very likely that he had reached level three.

It was also because of this.

That was why Luo Tianshui had all kinds of impressive military achievements and resisted the black snake barbarian Kingdom's invasion several times. Together with the intimidation of the Qian dynasty, the Black Dragon County was safe and sound.

After all ...

If the Black Dragon Commandery could not defend against the invasion of the red eyebrows Yao Kingdom or the black snake barbarian kingdom, the great Qian dynasty would not sit by and let their territory be occupied by other countries.

so,

Generally speaking.

Unless the red eyebrows Yao Kingdom and the black snake barbarian kingdom wanted to start a country war with the great gan Lord dynasty, they would not occupy the territory of the great gan Lord dynasty.

At most, they would plunder villages or leave immediately after taking down a city.

Of course.

things were different now.

too many things had happened in the black dragon county. the black dragon of the christian church had been killed, which caused the situation in the county to be in turmoil. jiang li had killed the admiral of the qian dynasty and made enemies with the red eyebrow empire.

The half-monster Alliance was watching in the dark.

With all these things tangled together, the Black Dragon County had become a place of trouble.

“Report!”

Outside the tent.

A soldier’s horse quickly rushed over and stopped outside the tent. city Lord, there’s important news.

“Come in.”

Luo Tianshui said.

“Yes.”

The soldier walked in with an unopened envelope in his hand and respectfully handed it to Luo Tianshui. Luo Tianshui quickly took it, opened it, and carefully read it.

“this bi an ...”

After reading the letter, Luo Tianshui said, “the Imperial court has sent a new Commandery Prince at this time, and it’s the third Prince, Qian Shixi.

the day after tomorrow, the new Commandery Prince will take office. He’ll hold a banquet and invite the castellans of the five cities of the Black Dragon Commandery.

“So, Jiang Li is also invited. What does Qian Shixi want to do? what is the attitude of the imperial court of da qian?”

what if the black snake barbarian kingdom takes the opportunity to attack us by holding a banquet at this time? ”

“Are you going or not?”

“Big sister Tianshui, why don’t you let me go?”

Luo Yilin stood up, ” you need to stay here, but you can’t miss the banquet. Let me go in your place, it should be fine.
