

Army 148

Chapter 148 Attending the banquet

Soon after.

jiang li returned to the great xia city with more than 70000 meches.

The 70,000 meches formed a huge Army. The formation was huge, and the neat formation gave off a powerful aura.

The sound of their footsteps was even, and it entered the ears of the city guards.

On the city wall.

what's going on? "the city guards all looked down at the Army led by Jiang Li. They felt like they were being crushed by a mountain. They couldn't help but gasp.

Compared to Jiang Li's subordinates, they were far too weak.

More than 70000 meches passed through the streets of great Xia city, attracting the attention of countless people. They looked at the numerous soldiers with passion and respect.

"these are the city lord's soldiers!"

"So many people."

"It's simply too powerful."

"Yes, yes."

“Now that the city Lord has so many power soldiers, I’d like to see who would dare to invade the great Xia city in the future. Unless they don’t want to live anymore, the city Lord will teach them a lesson.”

“From now on, I’m a citizen of the great Xia city. I won’t leave no matter who tries to drive me away.”

The people were all discussing.

Within the city.

At the temporary military camp.

More than 70000 meches were arranged in the temporary camp.

However, there were too many meches, and the artillery, tank, and transport meches took up too much space. They couldn’t live in the camp anymore, so they had to expand the camp.

“City Lord,”

As soon as han Liqi heard that Jiang Li was back, he immediately rushed to the military camp from the county government.

“What is it?”

Jiang Li turned around and asked.

you have to attend the third Prince’s banquet in the county capital of Black Dragon County this afternoon. If you don’t leave now, you might not make it.

Han Liqi said.

“No rush.”

let's finish the business first, " Jiang Li said.

"Yes."

Han Liqi opened his mouth but did not dare to say anything more.

Jiang Li went back to the governor's mansion first and put the map of the Black Dragon County on the table. He looked at the marks on the map and thought about the layout of the Army.

"The Green Mountain Range."

I'll be stationed in these three places. Jiang Li muttered.

Finally.

jiang li made a decision.

He would send three troops to guard the middle, head, and tail of the Green Mountain Range. The head was connected to wuzu plain, and the tail was connected to Qingling Lake.

Among them.

Each troop had 10000 soldiers, which was equivalent to a division. Each troop had 8005 perfected-stage level 1 meches and 2000 Level 2 meches.

Two thousand combat meches, two thousand cold weapon meches, two thousand firearm meches, two thousand biochemical meches, and five Intel meches.

400 transport meches, 400 electric meches, 400 artillery meches, 400 tank meches, and 400 mechanical Rangers.

There were ten meches at the perfected stage of level two in each of the level two units.

The three troops were all equipped in the same way.

The '1st unit' that was stationed in the middle of the Green Mountain Range was temporarily commanded by the mechanical mammoth Ranger, mmyq01.

The mechanical mammoth Rangers were a Rank 2 elite troop class. They were powerful and had higher intelligence than ordinary troops.

He could make a temporary judgment.

the 'no. 2 unit' that was stationed at the head of the green mountain range was temporarily led by the archer-mech gjs01. although gsj01 was upgraded from a rank 1 elite troop and was weaker than mmyq01, it was still strong enough to be the temporary commander.

Finally.

It was the 'unit three' that was stationed at the end of the Green Mountain Range, and the temporary commander was the spear-wielding mech with the number CQ01.

"As for the black snake barbarian kingdom ..."

it's better to send a division to investigate, "Jiang Li said. that is to say, we should send 'unit four'. The unit four is the same as the three troops guarding the Qingshan mountains. The temporary commander will be spear mech CQ02.

40,000 troops were dispatched.

Jiang Li still had more than 60000 soldiers left.

"Next up is the troops stationed in the great Xia city. 20000 troops will be enough. The number of troops allocated to the 'stationed troops' is twice that of the 'four troops'."

the temporary commander will be hammer mech JC01, " Jiang Li thought.

...

“In addition, you can also leave behind 10000 walking corpse puppets.”

” i can take the remaining 40000 meches with me. that is to say, i will take 40000 meches and 13000 walking corpses to the black dragon county. ”

let’s go. Jiang Li finally made a plan and immediately carried it out.

“Prepare the entire Army.”

let’s go. Jiang Li got up, put away the map, and left the castellan mansion. He started to assign meches to the temporary military camp in front of him.

“Unit one, move out.”

stop! Jiang Li shouted.

“Yes!”

“Rumble!”

The engine roared.

with mmyq01 in the lead, he walked in front of the first unit and temporarily commanded it. behind him were four hundred transport meches. all the meches got on the meches one by one.

...

After that.

It was a fleet of 400 artillery soldiers and 400 tank meches.

“.....”

Jiang Li watched mmyq01’s first unit leave the military camp and head to the middle of the mountains.

“Unit two, move out.”

Jiang Li said.

“Yes!”

“Rumble!”

The roar of the car engine sounded.

The second unit, led by GJS01, set off from the military camp and followed closely behind the first unit as they left the great Xia city. They split up halfway and headed toward the headquarters of the Green Mountain Range.

unit three, set off.

Jiang Li said.

“Yes!”

Immediately.

With CQ01 in the lead, the third unit set off from the temporary military camp and quickly left the great Xia city. They advanced at full speed towards the end of the Green Mountain Range.

Finally.

It was the fourth unit.

Under the temporary command of CQ02, they were the last to leave. Their destination was not the Green Mountain Range, but the celestial water city near the black snake barbarian kingdom.

Half an hour later.

“my lord, the communication has been established.”

At this moment.

Xx01 walked over and said to Jiang Li.

Shua! Shua! Shua! Shua!

Xx01 raised his wrist and projected four images in front of Jiang Li. Each image had a corresponding number on the upper left corner.

They were No. 1, No. 2, No. 3 and No. 4.

It corresponded to four troops.

In the first image.

“the 1st unit’s current speed is good. they are advancing steadily without any special circumstances. they are expected to reach the middle of the green mountain range in the afternoon. report over.”

xx02 said.

Immediately after.

The Intel meches of unit two, three, and four all reported their current situation to Jiang Li. Nothing happened and everything was stable.

“Alright,” he said.

okay. Jiang Li nodded and said, “if anything happens, contact xx01 immediately.

“Yes.”

yes! the Intel meches replied in unison.

The communication was shut down.

The scene disappeared.

soon after.

let’s go. Jiang Li arranged the remaining troops and asked the meches to patrol the city wall with the city guards to protect the city.

The Walking corpse puppet was aimlessly wandering outside the city wall.

“I should also set off.”

Jiang Li sat in the passenger seat of YS01. All 40000 meches got on the truck. 1600 large military transport trucks, 1600 mechanical artilleries, and 1600 tank meches formed a huge fleet and drove out.

BOOM! BOOM!

The roar of the engine was extremely loud.

as the car drove on the road, it stirred up clouds of dust that drifted into the air. looking at it, it was like an extremely huge python circling in the air.

“City Lord,”

Hong Tianqi, Xu Ya, Hu Dong, Wang Pingyuan, Han Liqi, and the others all stood on the city wall and looked at the huge convoy that was gradually disappearing.

“The city lord is only going to attend a banquet this time, there won’t be any problems.”

Hu Dong said.

“How can this banquet be so simple?”

Wang Pingyuan said.

“I hope nothing bad will happen.”

Han Liqi muttered softly.

The city Lord has specially brought so many powerful soldiers with him this time. He also has a stage with three experts protecting him. Even if the new Commandery Prince wants to harm the city Lord, he will definitely not be able to hurt the city Lord.

Pang Kui said.

“Let’s stop the discussion.”

Hong Tianqi shouted, “We can’t help the castellan by thinking about these things. The only thing we can do is to defend the great Xia city for the castellan.”

“That’s right.”

Xu Ya nodded. “Be alert, in case an unknown enemy takes advantage of the city lord’s departure to attack the great Xia city and catch us off guard.”

“Yes!”

Everyone responded in unison.

on the other side.

Red Dragon County.

The Crown Prince led 100000 demon Kingdom soldiers and Ye Huang led 50000 demon soldiers of yehuang County. They had left red Dragon County city that morning and were marching over at the fastest speed.

The Army marched on.

The green scale city was a must pass in order to reach the Green Mountain Range.

“Green scale city’s Suan ni”

Ye Huang and the rest saw the green scale city that had been reduced to ruins. There was still a foul smell in the air and there were carrion vultures circling in the air.

He took a closer look.

He could also see the rotting corpses in the ruins.

As a large number of corpses were buried under the rubble and ruins, the scene was not as horrifying as they had imagined. However, the smell of rotting corpses that lingered for a long time made the demon soldiers ‘faces turn gloomy.

“Full speed!”

The Crown Prince withdrew his gaze and shouted in a deep voice.

On the surface.

The crown prince's expression did not change, but his fists were clenched tightly. The coldness in his eyes seemed to be able to freeze the blood of others.

The killing intent in his chest surged.

He just didn't show it.

“Yes!”

The demon soldiers responded in unison.

buzzzzzz!

The marching formation was activated, and the spiritual Qi of heaven and earth gathered, increasing the speed of the Army.

“.....”

Ye Huang was silent.

To tell the truth.

He had not been the county Prince of yehuang County for long. In addition, yehuang County was not a border County, so he had never encountered a massacre of the entire city's demon people.

Today.

He had seen it with his own eyes.

One had to know.

more than 100000 ordinary demon citizens were killed, even though they were not citizens of yehuang county.

However, they were both demons.

At this very moment.

Ye Huang's killing intent towards Jiang Li grew stronger. It even covered up the resentment of being forced to come here by the Crown Prince.

Jiang Li does deserve to die.

Ye Huang thought to himself as his right hand slowly clenched the hilt of the sword at his waist.
