

## Army 155

### Chapter 155 Surrounded

In the Junwang Fu.

Jiang Li sat on a chair and xx01 stood next to him. The scene outside the government office and everything that happened were projected in front of him.

“I didn’t expect that the Imperial court of da Qian would have such a loyal official.”

Jiang Li sighed.

“Then, let’s fulfill his wish.”

Jiang Li said.

In the image.

Mo Changming’s sudden attack caught Matthew off guard. He didn’t expect mo Changming to be a late-stage rank-two martial artist and to have hidden his strength.

Matthew hurriedly met the enemy and thrust his spear.

boom!

The flaming saber slashed down with an indomitable will, carrying with it the determination to die. Its might increased by a few degrees, directly crushing Matthew’s attack. Matthew let out a blood-curdling screech as he was sent flying.

“Pfft!”

he coughed up blood.

“kill him!”

Mo Changming shouted loudly.

“kill!”

Luo Li roared.

“Charge!”

Immediately after.

Nearly half of the bailiffs were following behind mo Changming and Luo Li.

“Attack!”

Da da da da

the next moment.

thousands of firearm meches started to fire their machine guns, and countless bullets formed a storm that covered the front.

Pfft! Pfft! Pfft!

Flowers of blood bloomed, poignant to the extreme.

“Ah!”

the constables screamed in pain.

one had to know.

These constables weren't soldiers. They didn't have the ability to control military formations, and their cultivation wasn't high. Most of them weren't qualified, and a small number of them were first-stage martial artists.

Of course, it couldn't block the bullets of the perfected-stage firearm mech.

There were countless deaths and injuries.

“No!”

Mo Changming's eyes turned red when he saw the bailiffs being slaughtered. He let out a furious roar and his fire-attributed inner force burst forth as he charged forward at full speed.

Shua!

The next moment.

CQ03 rushed out with a long spear in his hand and stabbed forward.

“Prefecture master!”

Luo Li exclaimed.

bang!

cq03 was a perfected stage two elite soldier and was extremely powerful. this spear attack easily broke mo changming's flaming saber and shattered his protective dipper energy.

“Penetrating spear technique!”

CQ03 stabbed again. The body of the spear rotated, and the head of the spear was like an electric drill. With a 'PU' sound, it pierced through mo Changming's heart. Then, it was pulled out, and thick blood splashed out.

"Pfft!"

Mo Changming's eyes widened and he vomited a large mouthful of blood. He clutched his heart with his left hand and staggered backward. His eyes widened and his mouth opened wide.

"Prefecture master!"

luo li cried out in grief.

Clang!

The long saber in mo Changming's hand fell, and his body fell backward. Just like that, he lost his life.

He died.

Half an hour later.

The area outside the government office was filled with corpses. The surviving constables knelt on the ground, trembling. Luo Li and Mo Changming had both died under the gun of CQ03.

"Why bother? You must be looking for death."

...

Matthew wiped the blood from the corner of his mouth and looked at mo Changming's corpse. mo Changming, Oh mo Changming, you're so loyal to da Qian. You know that you're like a moth flying into the fire, but you still put your life on the line.

"is it not good to be alive? I really can't understand what your so-called loyalty means!"

by the order of the Jiangli Commandery Prince, from today on, there will be no 'Deputy prefect' in the great Xia County. All constables will join the great Xia Army, and the responsibility of the 'Deputy prefect' will be taken over by the Commandery Prince.

Matthew shouted.

"Yes, yes,"

"We will obey!"

"We are willing to submit and join the great Xia Army."

The constables shouted loudly.

Half an hour later.

The mansion was emptied by Jiang Li's men. The wealth in the mansion was less than half of the wealth in the regional King's mansion. There were 53 million taels of silver and five million taels of gold.

There were 21000 ordinary spiritual herbs, 4200 low-grade Tier 1 spiritual herbs, 3300 medium-grade Tier 1 spiritual herbs, 2100 high-grade Tier 1 spiritual herbs, and 1100 top-grade Tier 1 spiritual herbs.

...

50 low-grade Tier 2 Spirit herbs, 30 medium-grade Tier 2 Spirit herbs, 5 high-grade Tier 2 Spirit herbs, and none of the top-grade Tier 2 Spirit herbs.

there were no third-grade spirit herbs.

convert energy points.

Jiang Li confirmed.

Buzzzzzz!

A white light flashed.

All the ordinary herbs disappeared.

conversion successful. Received 105300 energy points!

a notification appeared.

I've gained more than 100000 energy points.

it's a pity, " Jiang Li said. there's not a single crystal in the mansion.

Soon after.

"The Army slaughtering sword case."

jiang li put the 'army-slaughtering sword box' on the table and started to study it. he injected his internal force and the patterns on the box lit up.

The next moment.

the internal force in jiang li's body was completely devoured, but the 'army-slaughtering sword box' didn't react at all.

Obviously.

The 'Army slaughtering sword box' was the core of the grade 3 killing formation 'Army slaughtering sword formation'. To set it up, at least 50 Grade 2 and 500 Grade 1 experts were needed.

Furthermore ...

in order to unleash the full power of the 'army-slaughtering sword casket', a hundred level-two, a thousand level-one, and a level-three needed to use innate true qi to host and drive the formation.

only in this way could the power of the 'army slaughtering sword formation' be fully exerted, and it could even kill an existence at the perfected stage of the third stage.

"It's a good thing, but it's useless to me."

Jiang Li shrugged and put down the 'Slaughter Sword case'. meches don't have internal force, so they can't drive the case.

as for 100 stage two and 1000 stage one experts, we can gather them by combining the strength of the entire great Xia province. However, the 'Army slaughtering sword case' is too powerful. I can't trust anyone else to take it.

"So, let's just leave this thing for now."

next, I'll study the Army formation.

Jiang Li took out three level-one formations and one level-two formation that he got from the Duke's mansion.

among them.

The three Grade 1 formations were the marching formation 'Wind Spirit army formation', the killing formation 'blood slaughter army formation', and the defensive formation 'Spirit Mountain army formation'.

The only Grade 2 formation was the 'killing Tiger formation'.

Jiang Li learned from these formations that at least 10000 soldiers were needed to set up and maintain a level-one formation. Only when there were 10000 soldiers could they gather enough military Qi to form a 'battle formation'.

Maintaining and operating the formation consumed the blood and Qi of the soldiers.

so,

If the battle formation was broken, the soldiers would also suffer a backlash.

Similarly.

The military formation was extremely powerful.

Grade 1 military formation.

Even those at the perfected stage of the first stage couldn't break it. Only those at the second stage could defeat it.

A Grade 2 formation required 100000 soldiers to set up.

of course.

if one wanted to break through a stage 2 army formation, they would need a stage 3 existence.

"These military formations can't be used."

I don't. Jiang Li murmured, "although the meches have military killing intent, they don't have the blood and internal force of human warriors, the bloodline power of monsters, or the totem power of barbarians.

"that's why we can't set up an army formation."

“However, Yingluo”

mechanical psionic energy? “Jiang Li thought for a while. is mechanical psionic energy a type of energy?” Could electricity be considered a type of energy? Can you use mechanical psionic energy or electrical energy to replace it?”

“I don’t think it’ll be that easy.”

Jiang Li thought, ‘even if I succeed, the electric meches are level two. I need at least ten thousand electric meches to set up a level one battle formation.’

“A stage two can break a stage one army formation.”

this kind of enhancement doesn’t have much effect on the level two electric meches.

as for the mechanical psionic energy ...

No. Jiang Li shook his head. to master mechanical psionic energy, one has to be at least level three in the system of the Super mechanical Army, so I’d better not.

with the meches ‘combat power, it doesn’t matter if they don’t have an army formation.

“Chief sovereign.”

As soon as Jiang Li finished studying the battle formation, xx01 walked in quickly and stood in front of Jiang Li. emergency news from unit one.

“What urgent news?”

” yes. ” jiang li got up. ” connect me immediately. ”

“Yes!”

shua!

The communication was connected.

Xx01 raised his right hand and a projection beam shot out from his wrist, projecting a very clear picture in front of Jiang Li.

Intel mech xx02 greets my Lord.

In the image.

Xx02 saluted Jiang Li.

“Rumble!”

Suddenly.

The sound of an explosion came from the screen. Jiang Li clearly saw that behind xx02, there were flames and the sound of artillery shells and tanks.

kill!!!

It was filled with the sounds of killing.

“Report the situation immediately.”

Jiang Li said.

“Yes.”

xx02 nodded. “my lord, half a minute ago, unit 1 was surrounded by the demon soldiers of the red eyebrow yao nation. we have already engaged in battle with the demon soldiers.”

“Surrounded?”

what happened? “Jiang Li frowned. what happened?”

this time, it should be the demon Army of the red eyebrow Yao Kingdom who discovered our tracks first and surrounded us. We are now surrounded by the demon Army.

Xx02 said.

“We’ve been surrounded!”

Jiang Li’s expression turned serious.

obviously.

the red eyebrow empire’s army this time was extraordinary. they had collected information about jiang li in advance and knew that red dragon county had suffered many losses under jiang li’s hands because they had been discovered in advance.

so,

therefore, the crown prince deduced that jiang li would definitely station his army in the qingshan mountains. after all, the qingshan mountains were the border of the country and a strategic location.

He first sent out a small elite team made up of perfected-stage level-two monsters to sneak into the mountains and finally found Jiang Li’s No. 1 unit.

Soon after.

The troops immediately retreated without alerting the meches. They reported the situation to the Crown Prince, and the Crown Prince immediately sent out a large number of demon soldiers to carry out the plan to surround and annihilate them.

He was going to annihilate Jiang Li’s troop in the middle of the mountains!

“immediately transmit the battlefield images.”

stop! Jiang Li shouted.

“Yes!”

Shua!

the scene changed.

What Jiang Li saw was a corner of the battlefield. The 100000 demon soldiers formed a level-two formation and surrounded the first unit. The first unit was surrounded and couldn’t break through.

It could be seen.

The grade 2 army formation was formed.

In the air.

It was a huge red python with a single horn. It was extremely powerful, like a ring of Ouroboros. It formed a circle and circled in the air, trapping the first unit.

BOOM! BOOM! BOOM!

The artillery, tank, and transport meches fired their shells, but they were blocked by the Stage 2 army formation.

Shua! shua! “Whoosh!”

The Yao Army pushed out the siege crossbows. The huge crossbow arrows pierced through the air. The siege crossbows that could even pierce through the thick city walls had great destructive power.

It could even pierce through the armor of tank meches.

“roar!”

On the other side.

the roars of the mechanical mammoth cavalry spread throughout the battlefield, and the one fighting it was ye huang, who was at the early stage of rank 3.

clang!

Ye Huang slashed out with his sword. The sword light was cold and it froze the surroundings.

Thump!

The mechanical mammoth Ranger thrust its spear forward and used its brute force skill to block Ye Huang's attack.

he's at the perfected stage of Tier 2, but he's able to burst out the strength of an early stage Tier 3.

Ye Huang's gaze was serious. you must die!
