

Army 157

Chapter 157 Loss

thump!

The spear and the sword collided in the air, producing a huge explosion. Waves of energy storms spread out, forming a vast Gale that swept through the surroundings.

“rumble!”

The sound of an energy explosion reverberated in all directions.

Kachaa! kachaa!

Immediately after.

ice! Jiang Li clearly saw ice appear on the mechanical mammoth Knight and it was gradually frozen. The damage was increasing.

BOOM!

The mechanical mammoth Knight was sent flying.

“Roar!”

The mechanical mammoth soldier roared and swung its trunk, catching the mechanical mammoth Knight and returning to its back.

However, the mechanical mammoth Knight’s movements were affected due to the ice covering its body.

“Ice Lotus sword formation!”

Clang clang clang!

Ye Huang swung his sword, and streams of profound ice sword Qi fell, enveloping the mechanical mammoth cavalry. The mechanical mammoth cavalry used its Knight's killing skill, but it was not as agile as before and could not block all the sword Qi.

The mystic ice sword Qi slashed onto the mechanical mammoth soldier's body and caused an injury. The ice spread and affected the mechanical mammoth soldier's movement.

He was gradually at a disadvantage.

“Repair!”

Shua!

jiang li immediately used some energy points to repair the mechanical mammoth's injuries. the ice covering its body disappeared.

“Roar!”

The mechanical mammoth soldier roared with high morale.

“What's going on?”

Ye Huang's eyes widened in shock, “how did he recover so suddenly? What had happened? How was this possible? Did he take a miraculous pill?”

Obviously.

Ye Huang had never encountered an enemy like this.

He had clearly been injured, but the profound ice sword Lotus's power of ice had covered his body, affecting his movements.

As expected.

He would win without a doubt.

However ...

This sudden change caught Ye Huang by surprise. His opponent had suddenly revived with full health and all his injuries had recovered.

It was simply unreasonable.

gather all the meches and set off immediately. ”

I'll leave. Jiang Li got up and left the mansion. At the same time, he kept in touch with troops one, two, three, and four.

A few minutes later.

More than 40000 meches gathered.

“Get in the car.”

stop! Jiang Li shouted.

“Yes!”

Shua! Shua!

All the meches rushed onto the trucks.

“Junwang, what are you doing?”

Matthew saw such a big crowd, so he came to ask.

“While I’m away, guard the great Xia city well.”

Jiang Li glanced at Matthew and ordered in a deep voice, ” if anything happens to the capital of the great Xia, you can forget about living. Kill yourself.

“Yes!”

Matthew trembled and immediately shouted, ” “Unless you step over this subordinate’s corpse, no one can think of invading the city.”

“Rumble!”

The engine roared.

The transport truck ran at full speed and rushed out of the county. Behind the truck were artillery soldiers and tank meches, forming a huge fleet.

“what happened?”

Matthew stood on the city wall and looked from afar. He whispered, ” “My Lord actually took all the soldiers.”

“It can’t be a demon invasion, right?”

...

Matthew guessed.

YS01.

Jiang Li sat in the co-pilot's seat and xx01 was standing next to him. They were rushing to the middle of the mountains at full speed while keeping in touch with the four troops.

“How much longer until the second and third troops arrive?”

Jiang Li asked.

my Lord, the meches don't have the skill 'walk on flat ground', so they're slow in the forest. They can't keep up with the transport meches and tank meches.

GJS01 said.

in that case, the artilleries of the second and third units will leave the team temporarily. Transport meches and tank meches will reinforce the first unit as soon as possible.

go! Jiang Li ordered.

immediately report the losses of the 1st unit.

Jiang Li said.

...

my Lord, the first unit has lost 1000 cold weapon meches, 900 combat meches, 500 firearm meches, and 400 biochemical meches.

Xx02 quickly reported the battle situation, ” we lost 100 electric meches, 100 transport meches, 50 artillery meches, 30 tank meches, and 30 mechanical Rangers.

“damn it!”

jiang li's face darkened. ” we've lost almost a third of our men. if this continues, i'm afraid the no. 1 unit will be wiped out. ”

” use energy points to repair the damaged meches. ”

Shua!

Jiang Li used almost 7000 energy points to repair the damage of all the meches in the first unit. They were all back to their peak.

“I’ve recovered,”

“These soldiers have all recovered from their injuries.”

he’s not a real human, indeed.

“Be careful!”

The monster commanders shouted.

“It’s like this again,”

Ye Huang’s expression was dark as he looked at the fully recovered mechanical mammoth cavalry. He held the hilt of his sword tightly. He had used up a lot of his bloodline power and his face was pale.

“Ye Huang, stand down. I’ll take action personally.”

At this moment.

the crown prince rose from the back of the demon army and crossed more than half of the battlefield. he came to ye huang’s side and stared at the mechanical mammoth cavalry.

“Crown Prince, great general, I can help you.”

Ye Huang was unwilling to accept this.

“Back down!”

The Crown Prince shouted.

“Yes.”

ye huang gritted his teeth and retreated to the back.

“although i don’t know what jiang li did, he can heal the puppet soldiers in an instant. his ability is really shocking.”

The Crown Prince said slowly.

BOOM!

The next moment.

The Crown Prince suddenly moved. He reached out and pulled out the huge axe on his back. The handle of the axe was the same height as the Crown Prince, and the double-sided axe blade was wide, one meter wide and three meters long.

“Earth splitting axe!”

Thump!

The double-sided giant axe slashed down with an indomitable aura. The power of his bloodline surged, producing bursts of orange mist that was as thick as mountains.

The mechanical mammoth Ranger used its skill.

Sprint, charge, brute force, heavy strike.

The four skills were stacked.

the pure white ivory spear pierced through.

BOOM!

The next moment.

The spear and the double-sided giant axe collided with each other. Both sides possessed extremely strong brute force, and the mammoth ivory spear bent almost 90 degrees.

Roar!

The mechanical mammoth soldier raised its head and hissed.

Retreat!

He was retreating!

The mechanical mammoth Rangers were actually retreating, and their stone pillar-like elephant legs plowed two trenches in the ground.

In terms of strength.

The mechanical mammoth Rangers were actually at a disadvantage.

“Brute force Stomp!”

BOOM!

The mechanical mammoth Ranger stomped on the ground with all its might, directly cracking the ground and creating a huge pit. Cracks spread out, forming a shock wave.

“Whoosh!!!”

The crown prince’s body trembled.

An orange-yellow mist emerged, and an incomparably huge bull appeared behind him. On the bull’s back, there was a huge mountain.

Fourth-rank bloodline.

Mountain back bull!

Roar!

The mountain back bull energy construct roared and suppressed the shock wave formed by the mechanical mammoth Rangers ‘brute force trampling. It did not hurt the Crown Prince at all.

BOOM!

The next moment.

The crown prince’s body trembled, and an even more terrifying power burst out, directly sending the mechanical mammoth Ranger flying. Its nine-meter-tall body flew out and knocked down large trees.

He fell to the ground.

“Die!”

Shua!

The Crown Prince leaped up and chased after the mechanical mammoth. He descended from the sky and swung his double-sided giant axe down. He then aimed at the mechanical mammoth and hacked down with all his might.

Kachaa!

The axe hit the mechanical mammoth Ranger and sank deep into it, almost cutting open the chest and stomach of the mechanical mammoth soldier, revealing its mechanical structure.

Countless electric sparks flickered.

“what is this?”

The Crown Prince was stunned and looked at the mechanical mammoth soldier in shock.

“Repair!”

shua!

jiang li used some energy points in time to repair the mechanical mammoth wanderer. while the crown prince was still in a daze, the mechanical mammoth wanderer flashed with white light.

He recovered immediately.

“Heavy strike!”

The mechanical mammoth Knight got up and immediately shot with all its might.

Thump!

The Crown Prince raised his double-sided giant axe and blocked the attack of the mechanical mammoth Knight. He only took half a step back and could be said to be unscathed.

“hu ~~ hu ~ hu ~”

The Crown Prince took a deep breath, and the power of the bloodline in his body surged, producing an extremely powerful aura. he's able to recover in such a short time even after suffering such heavy injuries.

"It seems like I have to finish you off in one strike."

"Kill!"

the mechanical mammoth rangers stood up again and charged at the crown prince. they were not afraid of death and had no fear of death.

on the other side.

BOOM! BOOM! BOOM!

After Ye Huang was free, he took some time to recover the power of his bloodline. Then, he charged into Jiang Li's first unit with his sword.

clang!

" go! " ye huang swung his sword. the blazing profound ice sword qi cut off a tank mech's gun barrel and then he swung his sword again.

Kachaa!

The tank mech was cut in half.

It was directly scrapped.

buzzzzzz!

The scrapped tank meches turned into light spots and disappeared, being recycled as energy points.

“Die!”

Ye Huang kept attacking. He was a monster at the early stage of level three, which was much stronger than the perfected stage of level two. After he joined the battle, he caused a lot of casualties to Jiang Li’s team one.

“kill!”

Ten perfected-stage level two electric-powered meches rushed over.

The current battle situation.

The first unit was surrounded by 100000 demon soldiers and was in danger. They had lost more than one-third of their men. They could only send 10 perfected-stage electric meches to stop Ye Huang.

more words.

The 1st unit could not stop the demon soldiers ‘attacks.

He didn’t know how long the ten perfected-stage electric-powered meches could last.

Shua!

Jiang Li immediately opened the Dominator panel and took out the only level-three soul Tinder. It had just dropped and was about to be used up.

Jiang Li planned to collect another level-three soul Tinder so that he could upgrade the mechanical mammoth to level three.

This was the most cost-effective.

However, the current situation ...

The 1st unit was surrounded by the red eyebrows demon Kingdom's demon soldiers and suffered heavy losses. If this continued, they would definitely be defeated if they did not upgrade a level 3 soldier in time.

The 1st unit would probably not be able to wait for the 2nd and 3rd units 'reinforcements.

upgrade to electric-powered mech No. DN0100.

Jiang Li took a deep breath. Without hesitation, he used a level-three soul Tinder and 10000 energy points to upgrade DN0100 to the perfected stage of level two.

“Whoosh!!!”

The next moment.

The level-three soul Tinder disappeared and was injected into the body of DN0100. 10000 energy points were integrated into it, upgrading the electric-powered mech No. DN0100.
