

Army 164

Chapter 164

“Fuse.”

Jiang Li continued to operate the fusion interface and fused the ten level-two soul Tinders into level-three soul Tinders.

The ten stage-two soul Tinders in the interface gathered and fused.

merging in progress. Countdown: 10,9,8,7 ”

The countdown ended.

[fusion failed!]

.....

[fusion failed!]

.....

[fusion successful!]

.....

In less than half a minute.

The nine fusions were over.

Soul Tinder.

There were only four level-two soul Tinders left, and three level-three soul Tinders.

In other words ...

Out of the nine times, Jiang Li succeeded twice and failed seven times, but he got two level-three soul Tinders.

The success rate was much higher than Jiang Li had expected.

He was quite lucky.

In total, they had killed 150000 demon soldiers.

In the end, he only got three level-three soul Tinders.

“It’s really difficult.”

soul Tinder? “Jiang Li murmured,” the higher level the soul Tinder is, the harder it is to get. I’m only at level three, but it’s already showing signs.

I now have three tier 3 soul Tinders, enough for me to upgrade the mechanical mammoth Ranger. I still have one left.

I’ll try to gather the nine tier-three soul Tinders as soon as possible.

“upgrade to mechanical mammoth ranger!”

jiang li didn’t hesitate for long. he operated the dominator panel and used two level-three soul tinders and 20000 energy points to upgrade the mechanical mammoth wanderer.

Buzzzzzz!

Immediately.

two tier 3 soul tinders and 20000 energy points were integrated into the mechanical mammoth ranger's body, and it began to transform and upgrade the mechanical mammoth.

shua! shua!

The nine-meter-tall mechanical mammoth Ranger glowed with a white light.

make 3300 cold weapon meches, 2900 combat meches, 1200 firearm meches, and 1703 biochemical meches.

jiang li started to make up for the losses and started to build meches.

He had built 9103 level one meches and used 91030 energy points.

It wasn't a lot.

produce 400 electric-powered meches, 100 artillery soldiers, 150 tank meches, 190 transport meches, and 260 mechanical Rangers.

Jiang Li replenished 1100 level two meches, which cost him 1100000 energy points.

Shua!

The mech-making interface appeared in front of Jiang Li.

There were a total of nine illusionary figures in the interface, and there was a corresponding number beside each figure, representing the number to be created.

“Whoosh!!!”

countless light spots filled in the surroundings, and the illusionary figure gradually solidified.

“Roar!”

At this moment.

jiang li heard a roar. the mechanical mammoth had finished upgrading.

“My Lord!”

In front.

Thank you, sir. the mechanical mammoth saluted Jiang Li. It was still nine meters tall, like a Hill on the ground. It was tall and strong, giving off an unshakeable aura.

Promoted to 3rd rank.

The biggest change in the mechanical mammoth Ranger was the faint mechanical psionic energy light that appeared all over its body. The dark psionic light covered its entire body, as if it was invisible.

Other than that.

There was also the equipment of the mechanical mammoth Rangers.

...

All the weapons and equipment.

This included the Knight’s cold weapon set, the Knight’s hot weapon set, and the exclusive weapon ‘mammoth ivory Knight spear’. All of them had been modified.

It turned into a mechanical psionic weapon.

In other words ...

The Knight's spear, sword, bow, and dagger could all be enhanced with mechanical psionic energy, thus increasing their power.

The bullets of handguns, rifles, and rocket launchers were all replaced by psionic bullets.

The bazooka could fire psionic shells.

The power increased greatly.

Shua!

.....

Jiang Li opened the detailed information of the level three psionic mammoth Rangers and read it carefully.

The main troop class and the two sub-troop classes had a total of nine skills!

A total of nine!

It was heaven-defying.

“Alright, alright, alright.”

great! Jiang Li laughed and cheered, “the two level-three soul Tinders are worth it. A level-three troop with nine skills is definitely very powerful.

“as expected of a rank 2 elite soldier.”

“Continue to level up.”

Jiang Li used 2800000 energy points to upgrade the psionic mammoth cavalry three times in a row and upgraded it to the perfected level of level three.

buzzzzzz! Buzzzzzz!

The psionic mammoth Ranger's body kept flashing with white light, and after a few seconds, the upgrade was completed.

he had reached the perfected stage of tier 3.

His military rank was promoted to Colonel.

at the same time.

The appearance of the psionic mammoth Rangers did not change much, but the light of psionic energy around their bodies became denser, as if they were shrouded in a layer of black mist.

very quickly.

The light of psionic energy was hidden.

shua!

hmm? "Jiang Li looked at the information of the psionic mammoth cavalry that had reached the perfected stage of level three.

The main changes were the new skills and weapons he had obtained after reaching Tier 3.

Both his new skills and weapons had been upgraded to top-tier Tier 3.

Similarly.

Because they were elite troops.

Therefore, if he wanted to upgrade to rank-4, he would need two rank-4 soul Tinders and 2000000 energy points, which was twice the amount of ordinary troops.

"Very good," he said.

Jiang Li was very satisfied.

[creation complete!]

A pop-up window popped up in front of Jiang Li. The 9103 level one meches and 1100 level two meches were all built.

Shua! Shua! Shua!

Right in front.

On the battlefield.

Tens of thousands of meches appeared out of thin air and occupied a large area. They were arranged in neat rows and formed several groups according to the type of soldiers.

Shua!

” congratulations, my lord. because you created 3300 cold weapon meches at the same time, a special probability has been triggered. you’ve obtained a stage one elite soldier type, ’giant hammer mech x9’. ”

A notification appeared.

“Rank 1 elite troop class.”

Jiang Li looked up. There were indeed nine different meches among the cold weapon meches. They carried huge iron hammers and were tall and strong.

nine giant hammer meches, not bad.

okay. Jiang Li nodded.

however ...

The 260 mechanical Rangers didn't trigger the special probability. Otherwise, Jiang Li would have gotten a rank two elite troop.

Even if their combat power was not as strong as the mechanical mammoth Rangers, they would still be much stronger than the average troop class.

9103 Level 1 meches have been upgraded.

Jiang Li used 1274420 energy points to upgrade all the level-one meches to the perfected stage.

this way ...

Jiang Li's level-one troops were all replenished. The number of level-one troops in all four types was back to 20000.

Shua! Shua!

the mech's body glowed with white light. in a few seconds, he had reached the perfected stage of level one. he was fully equipped.

"Upgrade 100 level two meches."

Jiang Li used 1400000 energy points to upgrade a hundred level two meches. He made up for all the losses.

The total number of troops had been restored to 100108.

Shua!

The Dominator panel opened.

In the energy points column.

Jiang Li used a total of 6685450 points to upgrade the mechanical mammoth Ranger and replenish his losses. The energy points decreased from 18490000 points to 11804550 points.

” my lord, the battlefield has been cleaned up. all the spoils of war have been moved to the transport trucks. they have filled up a hundred trucks. ”

Ynsh01 came over and reported to Jiang Li.

“Alright,” he said.

okay. Jiang Li nodded and said, ” the 100 transport meches with the loot will transport the loot back to the great Xia city first.

According to Jiang Li’s order, 100 transport meches from the 2000 transport meches transported the loot back to the great Xia city.

Of course.

Jiang Li sent an Intel mech to follow him.

One had to know.

In order to make it easier to communicate, Jiang Li created a hundred Intel meches.

“let’s go and reinforce tianshui city.”

stop! Jiang Li shouted.

“Yes.”

“Rumble!”

The mech Army marched forward. Other than the artillery and tank meches, the rest of the meches got on the mech, including 20000 walking corpse puppets and the psionic mammoth Rangers.

Although the psionic mammoth Rangers were huge and nine meters tall, the large military transport truck of the perfected stage two transport mech was loaded with the simple ‘space folding technology’, which was enough for the psionic mammoth Rangers to ride on.

During the March.

Jiang Li kept in touch with xx07, the Intel mech of unit four. He kept asking about the situation of Tianshui city and the strength of the Barbarian Army.

“Reporting to you, chief sovereign.”

Xx07 replied, ” the Barbarian Army has lost about 20000 barbarians. There are about 60000 inferior barbarians, 10000 level-one barbarians, 500 level-two barbarians, and 15 perfected level-two barbarians.

“i’m not sure about the third-level barbarians.”

“The other party has an extremely powerful rank two totem army formation.”

“Yes.”

I see. Jiang Li nodded and murmured, “if that’s the case, there’s nothing to worry about.

however, without the support of the fourth unit, it’s impossible to stop this barbarian Army with just the strength of Tianshui city and Luo Tianshui alone.

Half an hour later.

Jiang Li arrived outside Tianshui city with his mech Army. He was a thousand meters away from Tianshui city and three thousand meters away from the border defense line of the Qian dynasty and the black snake barbarian kingdom.
