

## Army 173

### Chapter 173 Captive

“Yes!”

“Do it!”

kill!!!

Awoo!

After receiving Jiang Li’s order, the ten mechanical wolfmen at the perfected stage of rank two activated their skill, sprint, and ran to the battlefield at full speed.

The Wolf’s howl echoed through the night sky.

A few thousand meters away.

With the mechanical Ranger’s speed, it was like a bolt of lightning, and it didn’t take long for it to charge over.

“What is it?”

“Wolf! There’s a Wolf’s howl!”

why is there a Wolf Pack here?!

“be careful!”

When the bandits of the hidden Dragon stockade heard the wolf howl, they turned to look in the direction of the sound. At first, they did not see the figure of the mechanical Ranger.

when the mechanical rangers got close, the brigands cried out in alarm.

BOOM! BOOM! BOOM!

The next moment.

The mechanical wolf soldiers opened their bloody mouths, and the barrels in their mouths extended out. They fired cannonballs one after another, bombarding the mountain bandits of the hidden Dragon stockade.

“BOOM!”

The cannonballs exploded, directly destroying the Stage 1 formation. The beasts in the formation cried out in pain and exploded, turning into light spots that filled the sky and disappearing. The bandits cried out in pain.

on the battlefield.

The flames soared into the sky and the cannonballs exploded. The ground was scorched black and deep pits were formed. The shrapnel of the explosion flew everywhere and tore the bodies of the bandits apart.

“Ah!”

Hundreds of mountain bandits had been killed or injured.

Immediately after.

The mech Knight took out the bazookas on the back of the mech wolf soldiers and placed them on his shoulder. He pulled the trigger and fired the shells.

Shua! Shua! Shua!

The ten cannonballs were extremely eye-catching in the night, and they exploded among the bandits, killing a large number of them.

“What is this?”

“Quickly Dodge!”

“No!”

The bandits screamed in fear.

“That’s Yingluo.”

When Guo Yi heard the commotion, he looked up and saw ten mechanical Rangers rushing over with special weapons.

“My King! They’re the subordinates of Prince Jiangli!”

guo yi was overjoyed as he shouted in surprise.

“But why are there only ten of them?”

Guo Yi calmed himself down. there are close to 40000 bandits here. What’s the use of only 10 people? ”

“Has Jiang Li given up on Hope City? Aren’t you going to save us?”

“Who is it?”

Xiao Helong turned around. He could hear the commotion behind him, and he could see the cannonballs exploding within his troops, killing a large number of his men.

“You’re looking for death!”

Xiao Helong was furious.

BOOM! BOOM! boom!

The 10 mechanical Rangers fired all their rockets, and the mechanical wolf soldiers also finished their bombardment, killing at least 3000 to 4000 bandits.

Of course.

Most of the 40000 bandits in the hidden Dragon stockade were not qualified.

how could they stop the bombardment of artillery?

Da da da da

Immediately after.

The mechanical Ranger took out its automatic rifle and fired from a long distance. Bullets flew everywhere, killing one Bandit after another. The bandits roared and rushed over, but they fell one after another.

“I’ll do it!”

At this moment.

liu heqing, the third-in-charge of the hidden dragon stockade, roared. he had the cultivation of an early stage rank two martial artist. a thick earth-attribute inner force emerged and covered his body.

...

He was at the forefront.

“Kill!”

Liu Heqing held his saber in his right hand and slashed.

“Charge!”

Buzzzzzz!

One of the mechanical Rangers activated its skill. A white light flashed on its body, and its speed increased rapidly. It charged forward and arrived in front of Liu Heqing in the blink of an eye.

“knight’s killing cleave!”

pfft!

The mech Knight’s right hand shook, and his spear pierced through Liu Heqing’s blade light like a dragon and pierced through his heart.

ah pfft!!!

liu heqing screamed and spat out blood. his eyes widened in disbelief.

...

One shot to death!

“The third master of the third Suan ni is dead!”

“The third head was stabbed to death!”

“Oh my God!”

“.....”

The bandits screamed in fear.

“What a good Tao Wu, so strong!”

Guo Yi’s eyes widened in shock.

Da da da da

The automatic rifles fired and killed a large number of mountain bandits.

Very quickly.

The rifle’s bullets were all used up. The mechanical Ranger took out the Knight bow and fired one arrow after another. Each arrow could take the Life of a Mountain Bandit, killing two birds with one stone.

It could be seen.

The mechanical Ranger was extremely agile. The brigands simply couldn’t keep up with its speed. Even if they were lucky enough to hit the mechanical Ranger, they wouldn’t be able to deal much damage.

And every time the mechanical Ranger attacked, it would kill a Bandit.

However ...

Although the brigand’s damage wasn’t high, the mechanical Ranger’s damage continued to rise.

“repair and replenish the ammunition.”

Shua!

Jiang Li used 20 energy points to repair the damage of ten mechanical Rangers and replenish all the ammunition they had.

BOOM! BOOM! BOOM!

Hence.

It was another round of indiscriminate bombing.

“This Suan ni, this Suan ni”

“They’re too strong!!!!”

“Ten people against forty thousand bandits?”

they were stunned!

On the city wall.

Guo Yi and the others were all stunned, and the soldiers of Hope City were also dumbfounded, almost unable to believe the reality before their eyes.

“Gulp!”

Guo Yi swallowed his saliva and muttered, “each of the 10 subordinates of Jiangli Commandery Prince is at the perfected stage of level two. They also have special weapons and are very powerful.

“I was wrong.”

it’s not that Jiangli Commandery Prince doesn’t want to send reinforcements. These ten subordinates are enough.

In reality.

If it was a perfected stage-two human martial artist, he would naturally not be able to deal as much damage as the mechanical Rangers.

This was because they didn't have the various weapons of the mechanical Rangers.

Furthermore ...

A martial artist at the perfected stage of stage two would eventually run out of inner force.

when a martial artist's internal strength was exhausted, they could only wait for death.

the mechanical rangers were different.

Jiang Li's internal force wouldn't run out, but the damage would increase. However, Jiang Li could use energy points to repair it, so he didn't have to worry.

Plus ...

Although there were many bandits, there were not many experts. The Stage 1 Army was like paper under the attack of the mechanical Rangers.

That was why he was able to achieve such a result.

"Open the city gates!"

Guo Yi waved his hand. all of you, counterattack!

kill!!!

"Rumble!"

The city gates of Hope City opened.

Immediately after.

Guo Yi jumped down from the city wall. He held his blade in his right hand and his metal attributed internal strength gushed out. He swung his blade and the blade light swept towards Xiao Helong.

“i’m going to kill you.”

Xiao Helong let out a furious roar and swung his giant axe to block Guo Yi’s attack.

Clang clang clang!

The two sides fought, and the axe and blade light clashed like two streams of light. The aftermath of the battle spread, and the ground was shaken and cracked, sending soil and stones flying.

charge!!!

“kill!”

The soldiers of Hope City charged out of the city and engaged the bandits in battle.

With the addition of the hope city’s Army.

The pressure on the mechanical Rangers instantly decreased, and their killing speed increased. The brigands of the hidden Dragon Camp were almost completely defeated by the mechanical Rangers.

Pfft! pfft!

The mechanical wolf soldiers smacked out with their claws and crushed the Bandit’s head.

“Ah!”

The second-in-command of the hidden Dragon stockade cried out in pain. The spear in his hand was slapped away by a mechanical wolf soldier. The mech Knight on the back of the mechanical wolf soldier took the opportunity to cut off the head of the second-in-command.

“The second head of the second Suan ni is also dead!”

run!!!

“Devil! These people are all demons!”

“I can’t win! We can’t win at all!”

run for your lives!!!

The morale of the remaining 20000 bandits had completely collapsed. They no longer had the courage to continue fighting. They all scattered and fled, only thinking about escaping.

The 20,000 mountain bandits fled. There were too many of them, and the 10 mechanical Rangers could not kill many of them. The soldiers of Hope City were also chasing after the mountain bandits.

It was estimated that more than ten thousand mountain bandits had escaped.

Half a minute later.

Thump!

With 10 mechanical Rangers working together, Xiao Helong could only block a few moves before his axe was sent flying by the spear. Then, Guo Yi took the opportunity to severely injure Xiao Helong.

“die!”

Guo Yi raised his blade and swung it at Xiao Helong’s head.

“Stop.”

Clang!

one of the mechanical rangers thrust out his spear and forced guo yi back.

“He can’t die yet.”

“The regional King has something to ask him,” the mechanical Ranger said.

“Yes, yes, yes.”

Guo Yi quickly nodded and said in a flattering tone, ” “I was too rash. I’ll send someone to tie him up.”

“Bastards, Who are you?”

Xiao Helong looked at the 10 mech Rangers and asked in anger.

One had to know.

Xiao Helong had been the King of the Mountain for so many years, and now that he had finally received the half-monster Alliance’s order, he could start to act according to the plan.

Xiao Helong had thought that his time had come.

but in the end.

Along the way, 10 peak-stage Tier 2 experts appeared. They were terrifyingly powerful and had powerful weapons. They completely defeated the 40000 mountain bandits that he had gathered with great difficulty.

he could not understand!

Xiao Helong couldn't understand where these experts at the great circle of type 2 realm came from. When did the Black Dragon County have such a terrifying force?

The ten mechanical Rangers completely ignored Xiao Helong's question.

"Men, come."

Guo Yi shouted.

"City Lord,"

the commanders of hope city quickly came over.

"Tie Xiao Helong up."

Guo Yi shouted.

"Yes."

The commanders nodded.

A few minutes later.

Xiao Helong was tied up.

"Bring him back to the Grand Xia city,"

Under Jiang Li's order, the ten mechanical Rangers took Xiao Helong away and immediately returned to the great Xia city. They were going to hand him over to Bai zhanbo for interrogation.

“The regional King asked me to remind you to prepare the medicinal herbs and spirit herbs as soon as possible.”

Before he left.

One of the mechanical Rangers asked Guo Yi.

of course.

This was also Jiang Li’s idea.

please rest assured. I have already made preparations. Tomorrow, I will send soldiers to deliver all the medicinal herbs and spirit herbs to the great Xia city.

Guo Yi quickly said.

“Let’s go!”

Shua!

the mechanical rangers returned to the great xia city at full speed.

“It’s a complete horizontal sweep.”

In this battle ...

ten complete-stage level-two mechanical Rangers turned the tide of the battle. Jiang Li watched the battle through xx010’s communication device.

of course, this is also because, although there are many bandits, nearly 90% of them are cultivators of the elementary level. No matter how many of them there are, they won’t be able to form a significant combat power.

in addition, I can't form a Grade 2 army formation.

other than that, the mechanical Rangers are extremely powerful. With all sorts of weapons, it doesn't matter how many substandard fighters there are in front of these powerful weapons.
