

## Army 177

### Chapter 177 Decisive

Wu Zong, pang kui, I have a mission for you. Go to five lakes city and Pingding city immediately and remind Zhuo linyue and Changping Wang that the three-day time limit is almost up.

it's time, " Jiang Li said. they should hand in their spiritual herbs.

"Yes."

Wu Zong and pang kui nodded.

" your highness, the sirius gang's industries have been developing rapidly. in addition, they've purchased herbs from the villagers in the surrounding villages. they've accumulated a lot of herbs and stored them in the gang's warehouse. "

Xu Ya said.

"Alright, I'll go and take a look."

Jiang Li said.

In the evening.

Jiang Li first went to the warehouse of the Sirius gang. All the herbs and spiritual herbs that the Sirius gang had collected were stored there.

It had already been counted.

There were 11000 ordinary herbs and 500 inferior-grade Tier 1 spiritual herbs.

"Convert!"

energy points. Jiang Li put his right hand on the herbs and turned them into energy points.

conversion successful. You've received 53000 energy points!

"Even though it's only 50000 points."

jiang li murmured, "but no matter what, it's still meat. little by little, it makes a lot."

Shua!

[ discovered item that can be converted into energy points. Do you want to convert it?! ]

Jiang Li put his hand on the 500 low-grade level one spiritual herbs and a notification popped up.

"Yes."

" yes. " jiang li confirmed.

He had converted all 500 low-grade first-grade spiritual herbs.

conversion successful. You've received 5000 energy points!

A notification appeared.

Soon after.

Jiang Li left the temporary camp.

All the meches were in the temporary camp, and the large military transport trucks full of spoils were also parked in the camp.

“Move all the herbs and spirit herbs out of the carriage.”

go! Jiang Li ordered.

“Yes.”

The meches nodded. Tens of thousands of meches moved and carried the boxes of herbs and elixirs out of the cars in a short time.

They piled up like a mountain.

A strong smell of medicinal herbs assailed his nose.

you guys guard the surroundings. Don't let anyone get close. If you see anyone approaching, kill them on the spot.

Jiang Li said.

“Yes.”

The meches immediately scattered.

“It's starting.”

Jiang Li took a deep breath.

This time.

jiang li didn't send someone to count the gains, nor did he send someone to classify the spiritual herbs according to their grades, because he was going to convert all the herbs and spiritual herbs.

Naturally, there was no need to waste this time.

Although he would lose a lot of money, it was convenient and fast. He could directly convert it into energy points and did not have to waste time trading with others.

Jiang Li reached out his right hand and touched the herbs.

[ discovered item that can be converted into energy points. Do you want to convert it?! ]

“Yes.”

Jiang Li confirmed.

Wuwuwuwuwu!

With a flash of white light, the ordinary herbs in the boxes in front of Jiang Li were all transformed and disappeared. They became empty boxes.

“conversion successful. you’ve received 6204700 energy points!”

A notification appeared.

six barbarian tribes and all the ordinary herbs I’ve obtained from a County city have been converted to more than six million energy points.

...

Jiang Li closed the pop-up window and murmured, ” “i think there should be more than a million ordinary herbs. otherwise, i wouldn’t have been able to convert so many energy points.”

“Continue.”

Jiang Li put his right hand on the spiritual herb next to him.

[discovered item that can be converted into energy points. Do you want to convert it?!]

“Yes.”

Jiang Li confirmed.

“Whoosh!!!”

A large white light flashed.

all the spiritual herbs in front of jiang li disappeared and were converted into energy points.

conversion successful. You’ve received 12850000 energy points!

a notification appeared.

...

Jiang Li took out all the inferior-grade, medium-grade, superior-grade, and Supreme-grade spirit herbs. The lower, middle, and upper grade spirit herbs of the second tier were all transformed.

In total, he had converted more than 12 million energy points.

A low-grade spirit herb could be converted into 10 energy points, a medium-grade spirit herb could be converted into 20 energy points, a high-grade spirit herb could be converted into 40 energy points, and a Supreme-grade spirit herb could be converted into 80 energy points.

A grade two inferior-class spirit herb could be converted into 100 energy points. A grade two medium-class spirit herb could be converted into 200 energy points. A grade two superior-class spirit herb could be converted into 400 energy points. A grade two superior-class spirit herb could be converted into 800 energy points.

In terms of price.

A second grade inferior-class spirit herb was worth 100000 taels of silver, a second grade middle-class spirit herb was worth 200000 taels of silver, and a second grade superior-class spirit herb was worth 400000 taels of silver.

However, a superior grade Tier 2 spiritual medicine was different.

This was because a Tier 2 superior-grade spirit herb was already close to a Tier 3 spirit herb. It could even be useful for a Tier 3 inborn expert. Some of the more precious Tier 2 superior-grade spirit herbs were even rarer.

so,

Superior grade second-grade spiritual herbs were traded with spiritual crystals and rarely with gold and silver.

“only these ten stalks of second grade spirit medicine are left.”

Jiang Li moved the only Jade box with spiritual herbs over and opened it. There were ten exquisite Jade boxes inside.

Each Jade box contained a second-grade spirit herb with abundant spiritual Qi.

However ...

jiang li didn't know the ten top-tier level two spiritual herbs, nor did he know their effects. he could ask xu ya and the others tomorrow. they should know.

Shua!

The Dominator panel opened.

In the energy points column.

the number of energy points increased from 27536600 to 46649300 points. the number of energy points was already close to 50 million points.

“Not bad.”

okay. Jiang Li nodded in satisfaction.

He left the temporary military camp with the ten top-grade tier two Spirit herbs and headed to the warehouse of the city Lord’s mansion. He was prepared to convert all the spirit herbs he had accumulated during this period of time.

One had to know.

Jiang Li robbed five demon cities in the red Dragon County and got a lot of spiritual herbs. He only sold a small part of them, plus the ones he got from the Black Dragon County.

Now, they were all piled up in the warehouse of the city Lord’s mansion.

Xu Ya had a special record of the exact number and recorded it in a book. Jiang Li also took a look and browsed through it.

In the warehouse of the city Lord’s mansion.

There were meches guarding the door.

Jiang Li walked forward and put his right hand on the spiritual herbs in the warehouse.

Shua!

[discovered item that can be converted into energy points. do you want to convert it?!]

“Yes.”

“sure.” jiang li confirmed without hesitation.

“Whoosh!!!”

A large white light flashed.

All the spirit herbs disappeared.

They were converted into energy points.

conversion successful. You’ve received 7420000 energy points!

A notification appeared.

more than seven million points, not even ten million.

” it’s not much different, ” jiang li murmured. ” after all, i sold a small part of the spiritual herbs and i didn’t rob anything from the red dragon county. of course, i didn’t get as much as i did in the spiritual desolate county. ”

Shua!

The Dominator panel opened.

In the energy points column.

The number of energy points increased to 54414800 points.

“it’s over 50 million.”

so rich, ” Jiang Li murmured. I’m finally a little richer.

” if i can make a deal with the half-monster alliance and sell these spiritual herbs for ordinary herbs, i’ll have more than 100 million energy points. ”

Jiang Li thought.

” but it’s fine. i’ll just have to fight for more spirit herbs when i run out. the most important thing is still energy points and the strength i can control. as long as i’m strong enough, i won’t have to worry about not being able to get spirit herbs and medicinal herbs. ”

it’s getting more and more chaotic, ” Jiang Li murmured. I have to strengthen the mech Army as soon as possible. As for the rest, I’ll think about it after this is over.

in reality.

This time, Jiang Li had already made up his mind. He was going to take the initiative and use the great Xia as a base to invade the other counties of the great Qian dynasty.

Occupy the territory of the great gan Lord dynasty.

One had to know.

It didn’t matter if the Imperial court knew about the half-monster Alliance’s plan in advance or not, Jiang Li only had one thing to do now, which was to keep strengthening himself and expanding his territory.

Just nice.

The current situation ...

The thirty-six counties of the great Qian dynasty were in the midst of war, and it was the perfect time for them to take advantage of the situation. The red-browed demon Kingdom and the black snake barbarian kingdom had the same idea.

as for how to deal with the black serpent barbarian kingdom and the red eyebrows yao kingdom’s invasion of the great xia county ...

” let’s go. ” jiang li was going to beat the black snake barbarian kingdom and the red eyebrow empire with his powerful army and decisiveness. he wanted to show them the power of the great xia.

As long as the Kings of the black snake barbarian kingdom and the red eyebrows Yao Kingdom were not stupid.

After suffering losses time and time again in the great Xia province, they should know that the great Xia province was an extremely tough bone to chew.

If they continued to fight the great Xia province, they would only suffer losses.

even though they knew that they would continue to suffer losses, they still continued to attack the great xia prefecture. in the end, they would not get anything and this was not in the interests of the kingdom.

so,

This was the only way.

only then would the black snake barbarian kingdom and the red eyebrows demon kingdom give up on attacking the great xia province and think of a way to bypass the great xia province and invade the other provinces of the great qian dynasty.

After all ...

Although the great Xia province was connected to the black snake barbarian kingdom and the red eyebrows demon Kingdom, there were other ways to enter the great Qian dynasty’s territory, such as crossing the Azure Spirit Lake or crossing the wuzu plain.

However ...

Whether it was to deter the black snake barbarian kingdom and the red eyebrows Fey Kingdom or to invade the other counties of the great Qian dynasty, they would need a large number of soldiers, a powerful Army.

100,000 soldiers weren't enough for Jiang Li to carry out these plans.

He needed more soldiers to increase the strength of the mech Army.

Late at night.

let's go. Jiang Li walked out of great Xia city with ynsh01 and a few other meches. They went to the empty land where meches were often made.

He confirmed that there was no one around.

Shua!

" make 300 combat meches, 300 cold weapon meches, 110 firearm meches, 300 biochemical meches, 70 electric meches, 10 artillery meches, 10 tank meches, 10 mechanical rangers, and 5 transportation meches. "

Jiang Li used 115100 energy points to build 1010 level one meches and 105 level two meches to make up for the losses from the invasion of the spirit desolate province.
