Chapter 178 Crocodile Emperor

The manufacturing interface appeared.

There were nine illusionary figures on the interface, representing nine different types of soldiers. There were different numbers next to each figure, representing the number of meches to be built.

Countless light spots filled the illusionary figure.

The illusionary figure gradually solidified.

A minute later.

[creation complete!]

The upgrade appeared.

shua! Shua!

In front.

The figures of meches appeared out of thin air and occupied an empty space.

“My Lord!”

Thousands of meches in camouflage uniforms saluted Jiang Li at the same time.

“Yes.”

okay. Jiang Li nodded.

“upgrade.”

Jiang Li then used 211400 energy points to upgrade all 1010 level one meches to the perfected stage of level one and five level two meches to the perfected stage of level two.

Shua! Shua!

The light flickered.

The upgrade of the meches was completed, and they were fully equipped.

“we’ve replenished the losses, so it’s time to increase the number of troops.”

Jiang Li said.

The Dominator panel opened.

Jiang Li looked at the number of energy points and calculated in his mind. He confirmed the number of meches he needed to build this time.

the last time we sent out more than 60 million energy points, we used up nearly 50 million energy points and increased the number of troops to 100000. This time, we have more than 50 million energy points.

five types of level-one units, “Jiang Li murmured and made a decision. apart from the Intel meches, I’ll make 20000 units for each of the other four types.

He made 80000 level one meches and used up 800000 energy points.

Buzzzzzz!

The manufacturing interface immediately popped up.

Four illusionary figures appeared on the interface. Next to each illusionary figure was a word count of 'x20000', representing the number of materials needed to be manufactured.

the illusory figure was surrounded by countless light spots, which gradually solidified.

A minute later.

[creation complete!]

jiang li received a notification.

Shua! Shua! Shua!

The next moment.

80,000 meches appeared out of thin air. They were divided into four groups according to the type of soldiers. They lined up in front of Jiang Li.

“Greetings, chief sovereign!”

The 80,000 meches saluted. Their steps and movements were in sync. The sound was loud and clear.

“Alright,” he said.

jiang li smiled and looked at the soldiers in front of him, feeling satisfied.

congratulations, my Lord. Because you created 20000 cold weapon meches at the same time, a special probability has been triggered. You’ve received level one elite meches ‘Archer mech x30, spear mech x30, huge axe mech X30, hammer mech x30, whip mech x30’.

“elite troops.”

the chance of triggering it is higher this time. There are 150 elite units in total, and a new type of elite unit has appeared.

“All elite troops, step forward.”

Jiang Li said.

“Yes.”

One hundred and fifty elite soldiers walked out of the cold weapon mech group. They stood in five teams according to the different types of soldiers.

“Greetings, chief sovereign.”

They saluted.

“Yes.”

” okay. ” jiang li nodded and looked at the whip mech.

what came into view were 30 female soldiers with tall figures, delicate faces, and cold expressions.

The whip meches were all female soldiers.

...

Jiang Li looked around.

There was a pair of alloy daggers on the outside of the whip mech’s thighs, and a special iron whip made of special materials on his waist.

Shua!

unit type: whip mech (elite)

[rank: early stage of rank one]

[No.: NB01]

skill 1: level-one low-grade cold weapon Mastery ”

skill 2: level-one low-grade whip technique ”

[machinery: Jian Jia (omitted)]

advancement requirement: 40 energy points ”

Jiang Li checked the information of the whip mech.

...

Currently.

If they were only elite troops, without considering their ranks.

Jiang Li had fifty Archer meches, fifty spear meches, fifty huge axe meches, forty hammer meches, and thirty whip meches.

And the psionic mammoth Rangers.

there were a total of 221.

“There are already over 200 elite troops.”

Jiang Li thought to himself, if there's enough level-two soul Tinders in the future, I can upgrade all the elite units to level two and form a special force that's full of elite units.

I believe that when the time comes, this elite squad will be able to display extremely powerful combat strength and complete some special missions. Or on the battlefield, they'll be like a sharp knife piercing the heart of an enemy.

of course.

Jiang Li could only think about it.

He didn't have enough stage two soul Tinder now.

"upgrade to 80000 meches."

jiang li used 11200000 energy points to upgrade all 80000 meches to the perfected stage of level one.

Buzzzzzz!

The 80,000 meches glowed with white light, which was very bright in the night.

A few seconds later.

The light disappeared.

All of them had been promoted.

"Alright," he said.

Jiang Li looked at the meches that had been upgraded with satisfaction. All the meches were fully equipped and they were now sergeants.

build 2000 electric-powered meches, 2000 transport meches, 2000 artillery meches, 2000 tank meches, and 2000 mechanical Rangers.

Jiang Li used 10000000 energy points to make 10000 early-stage level two meches.

Shua!

the manufacturing interface appeared.

There were five illusionary figures on the interface. Countless light spots filled them and gradually solidified. There was a number 'X2000' next to each illusionary figure, representing the number of materials needed to be manufactured.

A minute later.

[creation complete!]

The upgrade appeared.

Five illusionary figures condensed.

Shua! Shua! Shua!

Ten thousand meches appeared out of thin air in front of Jiang Li. They took up a large area.

They were divided into five groups according to the different types of soldiers.

“Greetings, chief sovereign!”

The meches saluted and shouted in unison.

“Yes.”

hmm? ” Jiang Li looked around and saw a special figure in the group of two thousand mechanical Rangers. His eyes lit up.

Shua!

[congratulations, my Lord. Because you created 2000 mechanical Rangers at the same time, a special probability has been triggered. You have obtained the stage two elite soldier type, 'mechanical Emperor crocodile Rangers'.]

Jiang Li also received the notification.

“Rank 2 elite troop class.”

Jiang Li was overjoyed. He couldn't help but smile. I've triggered a special chance again. Compared to the level-one elite troop, the level-two elite troop is more powerful and has a very low chance of triggering it.

mechanical Emperor crocodile Rangers, step forward.

stop! Jiang Li shouted.

BOOM! boom!

A figure walked out from the group of mechanical Rangers. Every step he took caused the ground to shake slightly. His body was extremely huge.

“Chief sovereign.”

greetings, commander. the mechanical crocodile Emperor cavalry stood in front of Jiang Li and saluted him. Jiang Li felt pressured.

First of all ...

huh? “Jiang Li noticed the mechanical Emperor crocodile at first glance. It was an ancient creature with a huge body and a ferocious look.

its body was ten meters long.

its body was dark green in color, and its incomparably huge bloody mouth could easily bite a living creature to pieces. its thick limbs were like huge stone pillars, and its sharp claws were covered in armor-like scales. it was filled with explosive power.

powerful!

It was extremely powerful!

On the back of the crocodile Emperor, there were weapons and firearms.

Other than that.

There was also an extremely wide and heavy large heavy sword.

It was fully equipped.

It was hard to imagine.

If such a powerful troop type were to charge into the battlefield, the destructive power it would cause would probably make the enemy completely terrified.

One had to know.

this was only the early stage of tier 2.

shua!

Jiang Li opened the information on the mechanical crocodile cavalry and read it carefully.

Jiang Li said.

Shua!

jiang li opened the dominator panel and checked the remaining energy points. after the series of reinforcements, jiang li had used up 22326500 energy points.

He was left with 32088300 energy points.

upgrade 400 electric-powered meches, 400 transport meches, 400 artillery meches, 400 tank meches, and 400 mechanical Rangers.

Jiang Li upgraded 2000 meches from the early stage to the perfected stage of level two. It would take 14000 energy points to upgrade one mech, so it would take 28000000 energy points to upgrade 2000 meches.

2.8 million energy points were deducted.

Buzzzzzz! Buzzzzzz!

The two thousand level two meches had several lights flashing on their bodies.

A few seconds later.

All of them had been promoted.

“Very good,” he said.

Jiang Li looked at the two thousand perfected-stage meches and nodded in satisfaction. In addition to the perfected-stage level two meches, there are 900 perfected-stage level two meches in each of the five types of meches.

“A total of four thousand five hundred.”

upgrade to mechanical Emperor crocodile Ranger.

Jiang Li immediately used 28000 energy points to upgrade the mechanical crocodile emperor to the perfected stage of level two.

roar!

The crocodile King roared at the sky.

A few seconds later.

The promotion was completed.

The mechanical crocodile Emperor had been upgraded to the perfected stage of Tier 2, and the crocodile Emperor's body had grown to 13 meters. It grew by one meter with every level it advanced.

At the same time.

All of his skills had been upgraded to Tier 2 top-tier, and so had his weapons and equipment.

His rank was promoted from Sergeant to first lieutenant.

” should i upgrade the mechanical crocodile emperor cavalry to tier 3? ”

Shua!

Jiang Li opened the Dominator panel and looked at the soul Tinder column. There were only four level-three soul Tinders. If he wanted to upgrade to the mechanical crocodile Emperor, he would need to use two level-three soul Tinders.
