Chapter 183 dispatch

Castellan Chang, you must manage five lakes city and Pingding city well. Don't Let Me Down.

Jiang Li said.

“Don't worry, my Lord.”

Chang pingwang said in a serious tone.

“Go on.”

Jiang Li waved his hand.

“This subordinate will take his leave.”

Chang pingwang stood up and left.

“You're staying up so late again.”

I'm fine. Jiang Li yawned. I should go to bed.

Time passed.

Three days later.

In the city Lord's mansion's courtyard.

“Whoosh!!!”

Jiang Li's inner force surged. He held the blood refining bead in his right hand and refined the inner force in the blood refining bead into his own.

boom!

The next moment.

Jiang Li's body trembled. His internal force surged and opened the third meridian. He used the Thunder Qi skill to adapt to the increased internal force and strength.

“Hu~~Hu~Hu~”

half an hour later.

phew. Jiang Li slowly stopped and let out a breath. His eyes glowed.

after cultivating for a few days and using the blood refinement bead and elixirs, I've finally broken through to the third meridian.

I'll be able to reach the mid-stage of level one. Jiang Li felt the inner force in his body. It was flowing in his meridians. I just need to open one more Meridian.

“The past three days have been very peaceful.”

Jiang Li thought to himself, neither the black snake barbarian kingdom nor the red eyebrows shifter Kingdom sent out their Army. It's as if they've forgotten about the existence of the great Xia.

“Could it be that they are planning some big conspiracy?”

“But this is good too.”

” i can't. ” jiang li murmured, ” if this continues, i'll have enough time to practice internal martial arts and improve my strength. ”

At noon.

Xx01 arrived.

He reported to Jiang Li.

The peaceful days were gone.

this was because guo yi had sent news about jinwang county.

“Whoosh!!!”

Xx01 and xx012 had received communication.

The communication screen was projected in front of Jiang Li.

In the image.

GJS01 and xx012 saluted Jiang Li and shouted in unison, ” “My Lord!”

“Yes.”

” yes. ” jiang li nodded and asked, ” what’s the situation? ”

“Reporting to you, chief sovereign.”

GJS01 said,”under the banner of trade, Guo Yi sent a group of soldiers disguised as a caravan into the territory of Jinwang County.”

they found out that a large number of rebel soldiers had appeared in Jinwang County, and a large number of vagrants had nowhere to go. Many villages were abandoned and burned to ashes.

furthermore, out of the four cities of Jinwang County, Yonghe City and Dachang city have already been captured by the rebel army. The rebel army has already formed a sufficient scale and occupied the advantageous terrain of Dachang city. They are now competing with the Army of Jinwang County.

“The rebel army in Jinwang County is developing so quickly.”

I see. Jiang Li muttered, ” it seems like the rebel leader of Jinwang County is much more capable than Xiao Helong.

In reality.

it wasn't that xiao helong was too weak, but that jiang li was too strong.

One had to know.

If Jiang Li didn't send ten complete-stage level-two mechanical Rangers to support Wang city, Xiao Helong would definitely be able to take over the city.

He could only say that Xiao Helong was unlucky to meet Jiang Li.

“How's the military strength of King Jin's Army and the rebel army?”

Jiang Li asked again.

...

according to the information we've gathered, there are nearly 200000 soldiers in the king Jin's Army. The rebel army is much smaller, only 100000 in number, but they're not weak.

GJS01 said.

“In that case, it's 300000 Yuan in total,”

let's do it. Jiang Li muttered.

“Jinwang County will be the first County we will take down.”

“Yes!”

GJS01 nodded.

That afternoon.

Jiang Li sent out all the meches outside the city. In addition to the 20 Intel meches, there were 9021 meches in total.

Among them.

there were 20000 combat meches, 20000 cold weapon meches, 20000 firearm meches, and 20000 biochemical meches.

...

Two thousand electric-powered meches, two thousand transport meches, two thousand artillery meches, two thousand tank meches, and two thousand mechanical Rangers.

Each level two mech had 400 meches at the perfected stage of level two.

Since the ‘psionic crocodile Emperor’ was the temporary commander of the mech Army, Jiang Li named it the ‘crocodile Emperor Army’.

The Thearch-crocodile Army led by the psionic Imperial crocodile Rangers and the second unit led by GJS01, Jiang Li had sent more than 100000 soldiers this time.

jiang li only had one goal-to take down jinwang county as soon as possible!

“Rumble!”

The engine roared.

Four hundred large military transport trucks carrying a large number of meches first marched to Hope City. After meeting up with the second unit, they headed to Jinwang County.

Behind the large military transport truck.

the artillery off-road vehicles and main battle tanks followed behind the transport meches, forming a large fleet and stirring up clouds of dust.

Jiang Li didn't go with the Army this time. Instead, he stayed in great Xia city and planned to command the mech Army remotely with the Intel mech.

The most important thing was ...

the psionic crocodile emperor rangers, gjs01, were of a very high level and were an elite troop type. in terms of intelligence, they had already reached the level of ordinary people.

In other words ...

Even without Jiang Li's command, they could still command the mech Army.

There was another thing.

Although an Intel mech could only capture part of the battlefield, if they sent a few more Intel meches to capture the battle from different angles, they would be able to capture the whole picture.

Jiang Li could command the battle from a distance.

City Lord's mansion.

Jiang Li sat in the main seat.

Shua!

Xx01 stood next to Jiang Li. A projection appeared in front of Jiang Li. It was the scene of the crocodile Emperor Legion marching.

Time passed.

In the evening.

The Thearch-crocodile Army had arrived at Hope City.

“.....”

On the city wall.

Guo Yi and his subordinates stood on top and looked at the mech Army in front of the city wall. There were large military transport trucks, cannon vehicles, and tanks.

His body of steel was full of power and oppression.

BOOM! BOOM!

Immediately after.

Yndeyq01 walked down from the large military transport truck that was transporting the perfected stage level two meches. Its 16-meter long body was like an ancient giant beast. Scales covered the crocodile's entire body like armor.

“Si si si ...”

“What is this?”

“An ancient beast?”

“And some demon or ghost!”

“His aura is too terrifying!”

Everyone looked at yndeyq01 in awe.

“open the city gate.”

Guo Yi recovered from his shock and shouted, ” “We welcome the Junwang’s Army into the city.”

“No need.”

The psionic Imperial crocodile Knight sat on the back of the psionic Imperial crocodile soldier and looked up at Guo Yi. we don’t need to enter the city. Under the order of the Commandery Prince, the second unit will immediately join the crocodile Emperor Legion. Castellán Guo Yi, you are relatively familiar with the terrain of Jinwang Prefecture, so we will need you to go with us.

“Yes.”

GJS01 nodded. Unit 2, move out.

“Rumble!”

The city gate opened.

The transport trucks of the second unit drove out of the city and joined the crocodile Emperor Army, forming a mech Army of 100000 soldiers.

“Governor Guo Yi, let’s go now.”

The psionic Emperor crocodile Knight shouted.

“I’m Yingying!”

Guo Yi swallowed his saliva, and his face turned a little pale.

It was obvious.

He did not want to go to Guo Yi.

he knew what jiang li wanted to do. he had sent so many soldiers to form a powerful army. clearly, he was going to attack jinwang county.

They wanted to occupy Jinwang County.

However ...

It was not an easy task to occupy and attack Jinwang County.

Let’s not talk about Prince Jin’s Army.

And those rebels.

Neither of them were to be trifled with.

Guo Yi was worried that he would never return and would stay in Jinwang County forever.

but ...

go! Jiang Li had already given the order. If he dared to disobey, he would die.

“yes.”

Guo Yi had no choice but to agree.

A few minutes later.

Guo Yi put on his armor, took his weapons, the map of Jinwang County, and various healing pills and came out of the city.

“Get in the car.”

The psionic Emperor crocodile Knight pointed at YS0111.

“How should I go up?”

Guo Yi was stunned.

“Mech driver, open the door.”

The psionic Emperor crocodile Knight said.

“Yes.”

The driver of mech YS0111 opened the door and said to Guo Yi, ” “Get on.”

“Good, good.”

guo yi swallowed his saliva. his eyes were full of curiosity and doubt. he carefully got on the transport truck and sat in the front passenger seat.

“Close the door.”

The mech driver said.

“How do I turn off this Kasaya?”

Guo Yi asked with a blank expression.

obviously.

Guo Yi had never seen a transport truck before. If it was a horse carriage, he would have known, but he had no idea what a transport truck was.

Furthermore ...

In front of him, there were all sorts of buttons on the instruments and all sorts of flashing indicators. They dazzled Guo Yi's eyes, causing him to be extremely nervous as he sat up straight.

“I don't even know how to close the door.”

The driver had no choice but to get up from his seat and close the door of the passenger seat. I don't know why the regional King asked us to bring you along.

“.....”

The corner of Guo Yi's mouth twitched. He thought that he was being looked down upon. Although he was a little unhappy, he did not dare to flare up and could only endure it silently.

“Let's go!”

The psionic crocodile Emperor gave the order.

“Rumble!”

Thousands of large military transport trucks set off, followed by mechanical artilleries and tank meches. They marched to Jinwang County at the fastest speed.

“Yingluo, you’re so fast.”

Guo Yi sat in the truck and watched the scene outside as it sped away. He gasped in shock, ” these special carriages are so fast!

In the city Lord’s mansion of the great Xia city.

“My Lord, the crocodile Emperor Army has already set off from Hope City.”

xx01 said.

“yes.”

yes. Jiang Li nodded and looked at the communication screen. according to the speed of the crocodile Emperor Legion, how long will it take for them to reach Dachang city? ”

“I’m not sure about that,”

Xx01 shook his head.

“Go and ask Guo Yi.”

He should know, “Jiang Li said.

“Yes.”

Xx01 nodded and contacted the Intel mech of the crocodile Emperor Army.

The transport mech YS0112 increased his speed and used the skill ‘walk on flat ground’ to catch up with YS0111. The two trucks moved side by side.

The window of YS0112 rolled down.

xx0100 looked at guo yi and shouted, ” “Governor Guo Yi, the regional King asked us to ask you how long it will take for our Army to reach Dachang city at the current marching speed.”
