

## Army 188

### Chapter 188 Attack

Jiang Li watched everything on the screen. Because of Wang Zhuoying's words, the 200000 soldiers of King Jin didn't make a move.

The two sides faced off in the air.

It was as if he could kill the other party with his gaze.

Jiang Li looked at Wang Zhuoying on the screen and sneered, "you're just delaying the war.

Obviously.

In fact, Prince Jin was very scared. He was scared of Jiang Li's Army. He was worried that Jiang Li would really team up with Wang Zhuoying and set a trap to attack him.

so,

He was being cautious.

Prince Jin didn't attack Dachang city immediately.

At this moment.

On the peak of Dachang mountain.

"I knew it."

When Guo Yi saw this, he said, "Wang Zhuoying is really full of tricks. He's actually talking nonsense. When did we work with him?"

“Most importantly, Prince Jin actually believed in such nonsense and didn’t make a move.”

“So, why don’t we retreat first?”

Guo Yi turned around and said to yndeyq01.

Yndeyq01 merely cast a cold glance at Guo Yi and did not say anything. However, it made Guo Yi gulp and feel a chill in his heart. He shut his mouth and did not dare to spout any more nonsense.

“Hahahahaha!”

Wang Zhuoying stood on the city wall and laughed, as if he was very confident. Prince Jin, what’s wrong? Why don’t you dare to make a move? Are you starting to be afraid? where’s your morale? Aren’t you very arrogant?”

“Hahahahaha!”

After that.

The rebel soldiers ‘collective wild laughter rang out.

“Wang Zhuoying!”

Jin He’s face was gloomy.

“There’s no need to rush.”

Monarch Jin had already calmed down and said slowly, ” it doesn’t matter if Jiang Li is working with Wang Zhuoying or not. Wang Zhuoying is in Dachang city right now. The rebels can’t go anywhere. No one can run away.

Let’s find Jiang Li’s Army first.

“Yes.”

Jin He nodded and immediately issued an order. He divided into more than a dozen small teams and scattered to search the surrounding area. Several of the small teams were heading in the direction of great Chang city.

Wang Zhuoying looked at the actions of King Jin’s Army and frowned.

Obviously.

His words wouldn’t drag on for long.

However ...

Wang Zhuoying felt that since Jiang Li and the great Qian dynasty were like fire and water, if his Army was found by the Jin dynasty’s Army, he might really be able to find a way to team up with Jiang Li and fight against the Jin dynasty’s Army.

After all ...

Jiang Li’s Army was also a ‘rebel army’ for the dynasty.

“There’s no need to wait,”

Jiang Li looked at the screen and said in a deep voice, ” “Let’s do it,”

“Yes!”

Yndeyq01 and GJS01 both nodded.

“Mechanical artilleries ready!”

attack!!!

BOOM! BOOM! BOOM!

In the Dachang mountain.

The 2,400 mech artilleries formed an artillery formation, including 410 mech artilleries that were at the perfected stage of type 2.

In an instant.

The cannonballs were fired, and the bombs flew into the air at a very fast speed. Then, they directly fell on the position of the king's army and exploded.

“Rumble!”

A deafening explosion was heard.

The explosion of the Cannonball was extremely dazzling and contained a terrifying amount of energy. The shrapnel exploded and tore apart the bodies and armors of the human soldiers.

Pfft! Pfft! Pfft!

“Ah!”

A shrill scream rang out.

...

Just one round of cannon fire had caused the death of at least ten thousand soldiers!

Such destructive power was too terrifying.

“It’s an enemy attack!”

Jin He’s pupils shrank and he shouted.

“Hurry up! Set up the formation!”

over there! The enemy’s attack is coming from that mountain!

Buzzzzzz! Buzzzzzz!

“Roar!”

The murderous military Qi gathered, and a level two military formation was formed. A military formation beast was formed, and a huge black Bull with a single horn appeared in the sky above the Army.

The vicious beast kui!

Grade 2 kui cow army formation!

...

BOOM!

The kui bull roared and soared into the sky. Its hooves stepped in the air, knocking away the artillery shells that were coming at it. The artillery shells exploded in the air.

When Wang Zhuoying saw this, he muttered, Jiang Li’s Army is hiding in Dachang mountain. Just like the half-monster Alliance’s intelligence, Jiang Li has a powerful weapon of war.

“Now that I’ve seen it with my own eyes, the power of this weapon of war is truly terrifying. It actually killed over 10000 soldiers in an instant. It’s simply unbelievable.”

“My Lord,”

He dinglin whispered into Wang Zhuoying’s ear, ” “Should we find an opportunity to attack?”

“No need,”

since Jiang Li chose to fight with King Jin’s Army, “Wang Zhuoying said,” let them fight first. We’ll just watch from the side.

Lou Yun smiled. this Jiang Li is really impulsive. He launched an attack on King Jin’s Army without hesitation. But it’s good. When King Jin’s Army and Jiang Li’s Army are finished and both sides are injured, we’ll leave the city to clean up the mess.

“That’s right.”

Yue Shanhe nodded. Jiang Li is a ‘good person’!

“Hahahahaha!”

Wang Zhuoying and the others burst out laughing.

Obviously.

Wang Zhuoying and the others thought that they had seen through everything, that they were already in control of the situation.

“Kill!”

“All troops, charge!”

“Rumble!”

The ground was shaking.

At this moment.

Yndeyq01 charged at the front. He led close to 100000 meches. There were 80000 perfected-stage level one meches, more than 10000 early-stage level two meches, and thousands of perfected-stage level two meches.

They formed an Army that was like a torrent.

They launched a frontal assault on King Jin's Army.

“Kill!”

“Archers, get ready!”

“Prepare the siege crossbows!”

fire!!!

Whoosh! Whoosh! “Whoosh!”

At the back of King Jin's Army, tens of thousands of archers drew their bows and shot tens of thousands of sharp arrows at Jiang Li's mech Army.

Da da da da

The firearm mech fired crazily, and countless bullets formed a rain that poured down, but they were blocked by the rank 2 kui army formation.

BOOM! BOOM!

The tank meches' machine guns and shells were also blocked by the Army.

“Roar!”

The kui bull roared, its might monstrous.

“Ah!”

Screams rang out.

The formation had absorbed the blood and internal force of many soldiers. Although it had blocked a large number of cannonballs and bullets, it had also caused many soldiers to die from the backlash.

Clang clang clang clang

The meches used their skills and blocked the arrows. Some of them were not blocked, but they were only slightly injured.

Thump! Thump!

Kachaa!

However ...

The siege crossbows were too powerful. Although the meches could knock away the arrows, they couldn't block the arrows.

Of course.

Just one arrow wasn't enough to make a perfected-stage level one mech useless. At most, it would be damaged more. It would take at least three arrows to make it useless.

“What?”

Jin He and the others looked at the battlefield with a puzzled expression. They muttered, "Why didn't Jiang Li's Army set up a battle formation? Or do they not know how to use military formations?"

"Also, why don't I feel any qi and blood or internal force from these soldiers? However, their speed, strength, etc., far exceed that of ordinary people."

"It's really strange,"

so, it's true that Jiang Li has mastered the 'ancient puppet technique'. These soldiers might be puppets created by Jiang Li? "

although these puppet soldiers are very strong, they do not have the protection of an army formation, so they can not block long-range attacks.

on the contrary, although Jiang Li's war weapons are powerful, they're blocked by our rank-two kui cow formation. They can't cause a lot of casualties.

also, Jiang Li only has 100000 soldiers, but we have 200000.

"We have the advantage."

The commanders of King Jin's Army discussed and analyzed the situation.

However ...

The next moment.

They quickly changed their minds.

"Sprint, charge!"

Wuwuwuwuwu!

Yndeyq01 activated his skill and the light of the skill flashed across his body. His huge body was like a Hill as he charged forward.

Although it was sixteen meters long and looked like a giant beast, it was extremely fast and agile. It crossed thousands of meters in the blink of an eye.

“Kill!”

The psionic Imperial crocodile Knight leaped from the back of the psionic Imperial crocodile soldier. He held a huge psionic heavy sword in his hand and jumped into the sky.

Immediately after.

The psionic energy gathered and attached itself to the psionic Imperial crocodile heavy sword. It spat out a Dark Sword light as it raised its hand and slashed forward, drawing a bright sword light.

“Roar!”

“BOOM!”

As the heavy sword slashed down, it was as if it was cutting through a piece of tofu. It easily shattered the kui cows formed by the grade 2 kui cow army formation.

The kui let out a sorrowful cry and exploded.

A single sword had shattered the Army formation!

“Ah!”

The soldiers cried out miserably as the formation shattered. The mist that enveloped the entire Army gradually dissipated, and at least several thousand soldiers died from the backlash of their formation being broken.

“It’s rank three!”

Wang Zhuoying shouted in shock.

“There’s a 3rd rank expert!”

“This bi an ...”

The commanders of King Jin’s Army were also shocked.

“Kill!”

“Shake!”

“Cold weapon Mastery!

“Electric energy control!”

“Dada Dada Dada Dada!”

With the destruction of the Stage 2 battle formation, nearly 80000 meches at the perfected stage of stage one charged into King Jin’s Army. The two sides fought in close quarters.

Pfft! Pfft! Pfft!

At this moment.

The meches at the perfected stage of level one displayed their powerful strength and started a one-sided massacre. Every time they attacked, they would take away a soldier.

BOOM! BOOM! BOOM!

At the same time.

The cannonballs came and exploded in the crowd of King Jin's Army.

“Ah!”

Continuous screams sounded.

BOOM! BOOM!

The electric-powered meches and mechanical Rangers, the early stage of stage two troops, entered the battlefield like tigers entering a flock of sheep, forming a destructive offensive.

The tank mech drove into the battlefield. Shells were fired and machine guns were fired. Thousands of bullets per minute formed a meat grinder on the battlefield.

It could be seen.

The muzzles of the tank's machine guns seemed to be shooting out fire.

The enemies were all beaten into sieves.

“The great circle of rank one! These soldiers are all at the perfected stage of stage one!”

“Rank two! Nearly 10,000 Rank 2 experts!”

“There's still the great circle of rank two! Thousands of people at the great circle of Tier 2!”

“Heavens!”

“What a terrifying Army!”

how can he win?!

Fear!

Trembling!

Horrifying!

At this moment.

Jiang Li's mech Army showed its powerful combat power and formed a crushing battle. The 200000 soldiers of King Jin's Army couldn't fight back at all.
