

Army 191

Chapter 191 infiltration

in addition to the rebel soldiers, there were also a large number of civilians in Dachang city. these civilians were physically weak. they hid in their houses and did not dare to come out.

However, some of the more courageous ones would secretly peek through the cracks of the door.

“Ahem.”

Guo Yi coughed and walked out of the mech Army. He found a conspicuous place and looked around.”Dear Residents of Dachang city.”

I’m Guo Yi, the castellan of the great Xia County’s Hope City. I’m also the most loyal subordinate of the great Xia County’s Prince Jiangli.

you’ve seen it with your own eyes. The 200000 Jin soldiers outside the city and the 100000 rebels in the city were all killed by the Army of the Commandery Prince Jiang Li.

that is to say, from today on, Dachang city, and even the entire Jin Wang County, will belong to the territory of the Jiangli Commandery Prince. You will also become the residents of his territory.

“.....”

In the surroundings.

There was silence.

Guo Yi had said a lot just now, but the residents were still hiding in their houses. They did not dare to come out at all. They even acted as if they had not heard him.

After all ...

During this period of time.

Dachang city changed hands one after another.

The original city Lord was killed, then taken over by the rebel army, and now it was taken over by Jiang Li's troops. Who knew if the city Lord would change hands again after a while?

“Eh?!”

Guo Yi was a little embarrassed.

After experiencing so many disasters, it would probably take a long time for Dachang city to get back on track. It also needed a wise and capable city Lord.

Unfortunately ...

Jiang Li didn't have any outstanding talents under him, so he could only do this for now. As for how to manage the city, he would think about it later.

Soon after.

the meches started to clean up the battlefield. there were too many bodies, so they piled up into a small mountain and burned them.

Thick smoke rose into the sky.

“.....”

Within the city.

The residents looked at the mountain of bodies that were burned, and their eyes were filled with fear. They had never seen such a scene before. There were nearly 300000 bodies.

Luo Yilin is not here. If Luo Yilin was here, she could have set up a blood refining array and obtained a large number of blood refining pills.

Jiang Li thought.

After cleaning up the battlefield, the meches entered the city and sent some of them to guard the city wall. Guo Yi found a resident of Dachang city and asked him to lead the way to search for wealth and resources.

of course.

the residents of dachang city naturally did not dare to disobey.

Shua!

On the Dominator interface.

jiang li opened the dominator panel while the meches were searching and clicked on the soul tinder.

After killing the 100000 rebels, Jiang Li had 3000 level-one soul Tinders, 83 level-two soul Tinders, and three level-three soul Tinders.

In other words ...

Out of the 100000 rebel soldiers, 1000 level-one soul Tinders and 30 level-two soul Tinders dropped.

“fuse.”

Buzzzzzz!

fuse. Jiang Li activated the soul Tinder fusion function. The fusion interface appeared in front of him. Ten gray level-one soul Tinders were arranged in a line and slowly fused.

merging in progress. Countdown: 10,9,8,7 ”

the countdown ended.

[fusion successful!]

.....

[fusion failed!]

.....

[fusion failed!]

.....

Three thousand level-one soul Tinders could be fused three hundred times in total. It took Jiang Li more than ten minutes to fuse all of them.

he had failed 200 times and succeeded 100 times.

He had obtained 100 stage-two soul Tinders.

The success rate was one third.

fuse the second-stage soul Tinder.

...

Buzzzzzz!

Jiang Li continued to merge, but this time, it wasn't level-one soul Fire Seeds, but level-two Soul Fire Seeds. The merging interface showed up. Ten black level-two Soul Fire Seeds were lined up and slowly moved toward the center.

merging in progress. Countdown: 10,9,8,7 ”

The countdown ended.

[fusion failed!]

.....

[fusion successful!]

.....

[fusion failed!]

.....

The notifications appeared again and again.

...

183 level-two soul tinders, a total of 18 fusions. the fusion took less than a few minutes, and he failed 15 times and succeeded three times.

In other words ...

jiang li got three level-three soul tinders.

“Six pills.”

Jiang Li looked at the number of level-three soul Tinders in the soul Tinder column. There were already six of them. He was only three away from nine.

“i’m still a third away from the target.”

Jiang Li smiled. as long as I have nine level-three soul Tinders and one hundred million energy points, I can start the level-three mechanical Army.

The night came.

The resources and wealth of Dachang city had been plundered by the meches, and most of them were gathered in the city Lord’s mansion.

It was obvious that Wang Zhuoying and the others had already plundered the city and gathered all the wealth and resources in the city Lord’s mansion.

Furthermore ...

Jiang Li not only got the resources in Dachang city, but also the resources in Yonghe City, which were all brought by Wang Zhuoying.

“gjs01, you will lead a 10000-man force to escort these resources back to the great xia city.”

go! Jiang Li ordered.

“Yes.”

GJS01 nodded.

The escort team led by GJS01 rushed through the night. The large military transport trucks activated their [treading on flat ground] skill and rushed back to the great Xia city at full speed.

At the same time.

Yndeyq01 led the Thearch-crocodile Army and left Dachang city. They headed to the county city of Jinwang County. All the meches had left Dachang city.

“They just left like that?”

“Aren’t they going to send troops to guard the place?”

“This bi an ...”

In Dachang city.

The residents walked out of their houses and looked at the mech Army that was disappearing into the night.

“Everyone,”

At this moment.

A young man with a delicate face walked out from the crowd and said to the crowd, ” “No matter what the matter and the result are, or what the future of Dachang city will be like, we still have to find a way to survive.”

“for everyone’s safety, let’s send some people to patrol the city walls at night to prevent any bandits from entering the city and robbing.”

“Yup!”

in fact, it doesn't matter to us who the city Lord of Dachang city is. After all, we are all civilians at the bottom of the hierarchy. It's enough to have a place to settle down.

“Ai, ai, ai, ai.”

Speaking of which, all these years, everything has been fine in Jinwang County. Why would there be a rebel army all of a sudden? I heard that Yonghe City has become an empty city.

“Our Dachang city can be considered to be quite good.”

and that Jiang Li is really powerful. He annihilated King Jin's Army and Dachang city with only 100000 soldiers.

hehe, I think both the rebels and Jiang Li will be finished when the great Qian dynasty is free.

“who knows?”

the crowd was in a heated discussion. some were sighing, while others were rejoicing.

The county city of King Jin County was not far from Dachang city.

In reality.

Dachang city was located in the middle of Jinwang County. The county city was not far from the border between Jinwang County and fallen Phoenix County, and there was a fallen Phoenix Mountain range in between.

Further in fallen Phoenix County was 'Green Mountain County'.

After passing through Qingshan County, he would enter the Royal Guard County. After crossing the Royal Guard County, he would arrive at the imperial capital of the great Qian dynasty, where King Qian lived.

The capital!

There were a million troops and a hundred thousand Imperial Guards.

There were also experts like King Qian, the chief commander, and the king of the Council, who had unfathomable strength.

Azure Spirit Lake.

the three hundred thousand yao army had already landed in jinwang county, and they were led by qi wangyan, who was at the perfected stage of level three.

Qi Wangyan took out a map. The map clearly showed the various terrains, cities, and villages of Jinwang County.

“Yes.”

Qi Wangyan muttered to himself for a moment before finally confirming the route. we'll set off along this route, bypass Yonghe City and Fallen Leaf city, and head straight for the capital of Jinwang County.

” as long as we take down the city of jinwang county and destroy the jinwang army, the remaining four cities will be nothing to worry about. we can take care of them slowly. ”

immediately set up the Stage 2 army formation.

qi wangyan ordered.

“Yes!”

Buzzzzzz!

The demon soldiers got into formation and formed a stage two military formation. The murderous military Qi gathered and formed a huge black Eagle with its wings spread out. The spirit Qi of heaven and earth gathered.

“Let’s go!”

Shua!

The Stage 2 army formation was activated, and the demon Army’s speed increased greatly. They were extremely fast, and when they passed by the human village, in order to avoid exposing their whereabouts, they directly activated the Army formation, and the huge black Eagles pounced and killed the entire village.

Late at night.

The great Xia city.

Jiang Li had already fallen asleep.

Even though the GJS01’s escort team was rushing back at full speed, they would only arrive tomorrow at the earliest. The yndeyq01’s Thearch-crocodile Army would probably only arrive at the prefecture capital in the early hours of the morning.

so,

Jiang Li took the time to rest and recover.

Outside the great Xia city.

An Ying, a perfected stage three assassin who had rushed over from the red eyebrows demon Kingdom, had already arrived in the great Xia city. Three of his shadow subordinates were standing behind him.

“Let’s move.”

Shadow said in a low voice.

“Yes!”

Shua! Shua! Shua!

His three subordinates ‘figures flickered and seemed to merge with the darkness. They concealed their auras and directly jumped onto the city wall, preparing to sneak into the great Xia city.

The patrolling soldiers on the city wall did not notice anything.

the three shadow followers were all 3rd rank experts, while these patrolling soldiers were not even 1st rank, so they naturally could not detect it. they would probably not even know if they were killed.

However ...

In order to avoid alerting the enemy, the three subordinates did not attack the patrolling soldiers.

“Body of lightning!”

Kachaa!

Suddenly.

It was a bolt of purple lightning that came from the distance. Its speed was extremely fast, and it crossed an extremely long distance to kill the three subordinates who had stepped on the city wall.

thunder mech number Lt01!

Obviously.

Not only did Jiang Li send meches to patrol on the city wall, but he also stationed Lt01 on the city wall to prevent powerful enemies from sneaking in.

“!!!”

The pupils of the three subordinates contracted. we’ve been discovered!

“A 3rd rank expert!”

“Be careful!”

BOOM!

the next moment.

Number Lt01’s palm fell, and lightning rumbled, forming a Thunderbolt palm print. With just one palm, one of shadow follower’s subordinates was severely injured. He spat out blood and flew back.

“ah!”

A miserable scream rang out.

“Enemy attack!”

“Hurry up!”

The soldiers on the city wall were all alarmed, and the patrolling meches rushed over.

Buzzzzzz!

At this moment.

an ying took advantage of the fact that everyone's attention was attracted by his three shadow followers. he transformed into a shadow in the dark and quietly entered the great xia city.
