Chapter 193 The arrival

One had to know.

Jiang Li had seen and experienced the power of this monster with his own eyes.

He was extremely powerful.

Fortunately, he had set up layers of protection around him.

Otherwise ...

His life was really in danger.

Furthermore ...

After burning his bloodline, he was able to fight against six people, three of whom were at the peak of the third stage. He even managed to kill the Red Dragon puppet walking corpse.

One could see how strong he was.

“Yes.”

Buzzzzzz!

Ynsh01 immediately used his biochemical poison skill. A black poisonous mist was released, covering Shadow’s entire body.

“Ah!”

An Ying screamed in pain.

The biochemical poison invaded Shadow's body and carried out an infection and transformation.

Not long after.

Shadow's scream stopped. His body turned pitch black, and so did his eyes, which were as pure as gems.

Shadow stood up shakily.

“Roar!”

He raised his head and let out a long roar.

The transformation was a success!

Jiang Li added a perfected-stage level-three walking corpse puppet.

“It's done.”

Jiang Li was relieved and looked at the shadow puppet walking corpse with satisfaction. It had retained most of its abilities, so it wasn't weak.

“Although we lost an early stage Tier 3 Scarlet Dragon puppet corpse, we've exchanged it for a perfected stage Tier 3 shadow puppet corpse. It's a good deal.”

Jiang Li said to himself.

“Young master Jiejie.”

On the other side.

Du Xiaohua had long been awakened by the battle. She came out of her bedroom and stood in the distance, her eyes filled with awe and fear. She only dared to show herself after the battle was over.

“It’s fine now. You can go and rest.”

Jiang Li said.

“Yes.”

Du Xiaohua nodded in a low voice and didn’t dare to ask anything. She went back to her bedroom obediently, but she wouldn’t be able to sleep tonight.

“Sir, are you alright?”

At this moment.

Hong Tianqi and the others arrived and shouted outside the city Lord Mansion.

“Let them in,”

Jiang Li said.

Immediately.

The meches at the gate of the city Lord Mansion let Hong Tianqi and the others in.

“Your subordinate has arrived late, I hope your Excellency can forgive me!”

Jiang Li. Hong Tianqi came to Jiang Li and looked around. He saw the traces left by the battle.

The city walls had collapsed, the ground was broken, and a body was lying on the ground.

“The enemy has been dealt with.”

I don't think so. Jiang Li waved his hand and didn't pursue the matter. besides, with your strength, even if you come, you'll just die for nothing.

“Thank you for your forgiveness, my Lord.”

Hong Tianqi and the others heaved a sigh of relief and said, ” Sir, these are the corpses of the other three assassins. They are all demons. I believe that the red eyebrows demon Kingdom was the one behind this assassination.

He said.

Hong Tianqi signaled the soldiers behind him to bring the three bodies up.

“Yes.”

I see. Jiang Li nodded and looked at the three bodies on the ground. a top-tier assassin with a fourth-rank bloodline and three assassins at the early stage of rank three.

“The red eyebrows Yao Kingdom has really invested a lot this time. They really think highly of me.”

“Burn the body.”

...

leave. Jiang Li waved his hand. you may leave.

“Yes.”

yes. Hong Tianqi nodded respectfully and asked the soldiers to carry the body away.

these demon assassins must pass through the green Mountains if they want to enter the great Xia County. I’ve set up many Intel meches in the mountains, but I didn’t receive any news in advance.

so, the four monster assassins fooled the Intel mech at the perfected-stage of level one, “Jiang Li thought. the Intel mech didn’t notice them.

upgrade to Intel mech xx01.

Jiang Li opened the Dominator panel and used a level-two soul Tinder and 100 energy points to upgrade xx01.

Buzzzzzz!

The second-stage soul Tinder and 100 energy points surged into xx01’s body, transforming and upgrading xx01. Its body flashed with several rays of light.

A few seconds later.

The promotion was completed.

...

Xx01’s appearance did not change much. The wireless device that was originally on his back like a tablet had disappeared.

They were all concentrated into a metal ball.

Furthermore ...

The metal ball could float in the air, and it looked like an eye made of metal. From the outside, it looked like a camera.

unit Type: Holographic mech

[rank: early stage of rank two]

[No.: QX01]

skill 1: level-one advanced wireless communication technology mastery ”

skill 2: level-two low-grade holographic detection ”

[equipment: stage two inferior-grade holographic device]

[machinery: Jian Jia (omitted)]

upgrade: 2000 energy points ”

After the information mech was upgraded to level two, he mastered the holographic technology and his equipment was greatly improved. The spherical holographic camera could shoot 360 degrees without any dead angles.

Of course.

There was also a limit to the number of shots one could take.

Furthermore ...

The holographic mech could control the holographic camera to move in the air, but it could not exceed a certain range. The early stage of level two could only control the camera within a one-kilometer range.

There was more.

The holographic detection skill had the ability to search for targets and enemies.

“Upgrade.”

Jiang Li used 14000 energy points to upgrade QX01 to the perfected stage of level two. His skills and equipment were all upgraded to the best of level two.

There was a major increase in his abilities.

The control range of the holographic camera had been increased from one kilometer to ten kilometers.

It was already very strong.

Soon after.

Jiang Li used the remaining two level-two soul Tinders and upgraded xx02 at the border defense line of Tianshui city into a holographic mech.

Xx03, who was in the Thearch-crocodile Army, had also been upgraded to a holographic mech, reaching the perfected stage of stage two.

Early in the morning.

The escort team led by GJS01 had yet to arrive at the great Xia city and was still close to half the journey. On the other hand, yndeyq01's Emperor's crocodile Corps had arrived at the city of Jinwang County first.

In the county city of King Jin County.

There were also about 50000 soldiers left behind.

There was no need to worry at all.

Buzzzzzz!

The holographic communication was connected.

QX01 controlled the holographic camera and projected a holographic image, which eventually formed a 3D-like three-dimensional image instead of a virtual screen.

In the holographic screen.

It was a scaled-down model of the scenes and pictures that were captured so that Jiang Li could see everything from 360 degrees without any blind spots.

It formed a remote projection.

“Attack the city.”

attack! Jiang Li ordered.

“Kill!”

Yndeyq01 led the Thearch-crocodile Army and charged right at the front. They killed their way to the city gates and then slashed down with their swords.

“Charge!”

The mech Army entered the city.

In the holographic screen.

QX03's holographic camera was floating in the air and shooting from above. It showed the battlefield perfectly. Jiang Li could see every corner of the battlefield clearly.

we surrender! We surrender!

“Stop fighting!”

“.....”

From the beginning to the end of the siege.

The whole process only took ten minutes.

The 50,000 soldiers left behind in Jinwang County had their morale completely crushed. They had lost all their will. The head of the government office, Luo Ming, who was stationed in the county city, had surrendered.

“Sir, please spare my life.”

Luo Ming knelt on the ground, his entire body trembling slightly. He could feel the terrifying killing intent exuding from yndeyq01's body, and his heart was filled with fear.

“I still have use for you, and I'm willing to serve you, my Lord.”

“Yes.”

let's go. Jiang Li thought about it and said, let him live for now.

Speaking of this.

mo Changming? “Jiang Li couldn’t help but think of mo Changming from the Black Dragon County. Mo Changming was a loyal fan of the great Qian dynasty and was willing to sacrifice his life for it.

As for the one in front of him.

It was completely different.

He betrayed the great Qian Dynasty without any hesitation.

However ...

Luo Ming was the prefecture master of Jinwang County, so he must be very familiar with it. He was indeed of some use. With Luo Ming around, the situation in the county city could be stabilized as soon as possible.

Soon after.

The mech Army entered the city and started plundering the wealth and resources of Jinwang County under Jiang Li’s order. Everything went smoothly under Luo Ming’s lead.

Jiang Li cut off the communication with QX03.

“This bedroom has been destroyed. I need to change rooms.”

Jiang Li looked at the wall that the Crown Prince and the others had knocked down and the broken bed and murmured.

Jiang Li didn’t arrange too many maids and servants in this mansion. Only his personal maid, du Xiaohua, and some other servants were there to clean up.

so,

There were many empty rooms.

Jiang Li found a room to rest and told QX01 and GJS01 to wake him up when the escort team came back.

Soon after.

let's go. Jiang Li ordered ynsh01 and five walking puppets to guard the outside of the house. The meches also spread out to guard around the castellan mansion.

After the monster assassins 'assassination, Jiang Li was even more careful about his safety.

He couldn't let the assassin have any loopholes.

The next day.

In the morning.

The escort team led by GJS01 had already returned to the great Xia city. After entering the city, they immediately returned to the temporary military camp.

Jiang Li wanted to expand the temporary camp, so he ordered the city to recruit a large number of young people to expand the camp.

Jiang Li! QX01 entered the room and woke Jiang Li up.

master, the escort team led by GJS01 has returned to the city. They are currently in the temporary camp.

QX01 said.

"Alright," he said.

Jiang Li got out of bed and changed his clothes. Before he had time to wash up, he rushed to the temporary military camp to check what he got from Dachang city.

“Young master, you haven’t tidied up yet.”

Du Xiaohua was holding the bird’s nest porridge that had just been cooked. She opened her mouth and looked at Jiang Li’s back, but she didn’t stop him.

At the temporary military camp.

“My Lord, all the resources have been safely delivered.”

GJS01 saluted Jiang Li.

“Yes.”

okay. Jiang Li nodded and looked at the large military transport truck next to him. get all the herbs and spiritual herbs out of the truck first. By the way, do you have any lower spiritual crystals? ”

“There is.”

GJS01 said.

Immediately.

The meches moved quickly. They moved the boxes of herbs and elixirs from the truck and piled them together.

ruler, these are all the lower spiritual crystals we’ve collected this time.

GJS01 opened the door of the large military transport truck in the front row, then took out a Jade box from the passenger seat and put it in front of Jiang Li.
