

Army 194

Chapter 194 The Army

GJS01 bent down and opened the jade box.

“Please take a look, chief sovereign.”

GJS01 stood up and said.

“Yes.”

Jiang Li lowered his head and saw three hundred diamond-shaped lower spiritual crystals. They were arranged neatly.

Jiang Li reached out his right hand and touched the lower spiritual crystal. It was cold.

[discovered item that can be converted into energy points. Do you want to convert it?!]

“Yes.”

Jiang Li confirmed.

Buzzzzzz!

A white light flashed.

The 300 lower spiritual crystals disappeared.

conversion successful. You’ve received 3000000 energy points!

A notification appeared.

next, it's time to convert these medicinal herbs and spirit herbs.

Jiang Li murmured.

Jiang Li planned to convert all of them, so he didn't waste time sorting out his gains. He didn't know the exact number of ordinary herbs and spirit herbs.

However ...

Ordinary herbs and graded spirit herbs were still placed separately.

“Convert.”

I'll try. Jiang Li put his hand on the ordinary herbs and started the conversion.

“Whoosh!!!”

A white light flashed.

All the ordinary herbs had disappeared.

They were converted into energy points.

Shua!

conversion successful. You've received 1100700 energy points!

all the ordinary herbs in Dachang city and Yonghe City have only been converted into slightly more than one million energy points. It's neither too much nor too little.

Jiang Li murmured.

“Continue.”

After Jiang Li closed the interface, he touched the spiritual herb and started the conversion function.

“Whoosh!!!”

Another large white light flashed before his eyes.

All the graded spiritual herbs had disappeared and were converted into energy points.

conversion successful. You’ve received 2301000 energy points!

A notification appeared.

“Yes.”

okay. Jiang Li closed the prompt interface. send the rest of the gold, silver, pills, materials, weapons and equipment to the warehouse.

“I’ll think of a way to find buyers to sell them in the future.”

“Yes.”

GJS01 nodded and mobilized the meches to start moving the supplies on the truck.

Jiang Li left the temporary camp and returned to the city Lord’s mansion.

After washing up, he drank a bowl of bird's nest porridge cooked by du Xiaohua to fill his stomach. Then, he practiced his internal energy martial arts in the courtyard for a while.

The assassination last night caused many places and walls of the city Lord's mansion to collapse, so Jiang Li called some craftsmen and stonemasons to repair it.

“QX01, contact the Thearch-crocodile Army.”

go! Jiang Li ordered.

“Yes.”

QX01 nodded.

Buzzzzzz!

The holographic camera flew out and projected a holographic image.

The communication was connected.

“Chief sovereign.”

In the holographic screen.

...

QX03 and yndeyq01 appeared on the screen and saluted Jiang Li.

“Yes.”

okay. Jiang Li nodded and asked, “how's the situation?”

my Lord, with Luo Ming's help, the search process is very smooth. More than 90% of the resources in Jinwang County have been gathered. I'm asking for your instructions.

Yndeyq01 replied.

"Alright," he said.

great! Jiang Li was overjoyed. the crocodile Emperor Legion will stay in the city of Jinwang County. I'll send the escort team led by GJS01 to transport the resources back to the great Xia city.

"Your mission is to gather all the resources from the other two cities in Jinwang Prefecture before the arrival of the escort team GJS01. After that, the escort team will transport all the resources back at once."

"Yes."

Yndeyq01 nodded.

"How are the losses of the Thearch-crocodile Army?"

...

Jiang Li asked.

my Lord, the crocodile Emperor Army has lost 10020 meches.

Yndeyq01 reported, " we lost 9000 perfected-level one meches, 800 early-stage level two meches, and 210 perfected-level two meches.

110 perfected-level one meches self-destructed, 50 early-stage level two meches self-destructed, and 10 perfected-level two meches self-destructed.

“Yes.”

okay. Jiang Li nodded. I know.

The crocodile Emperor Army had lost more than 10000 soldiers. In addition to the 10000 mechs that GJS01 had taken away, the crocodile Emperor Army still had about 80000 soldiers.

“Chief sovereign.”

At this moment.

“I have something important to report to you,” QX03 suddenly said.

“Speak,” he said.

Jiang Li said.

“Yes.”

yes. QX03 nodded. just now, the Intel mech on the city wall sent a message. The traces of the demon Army were found ten kilometers away.

“The demon race.”

yes, “Jiang Li said immediately. broadcast the scene immediately.

“Yes.”

QX03 nodded.

Shua!

The scene changed.

Since the Intel meches couldn't use holographic communication, the image that was broadcasted wasn't a holographic image but a flat screen image.

In the image.

Because it was ten kilometers away, the image wasn't very clear, but Jiang Li still saw a large number of demon soldiers marching towards the county city at a fast speed.

They would arrive soon.

They were densely packed like ants.

The Army's momentum was like a rainbow.

It was clearly a powerful demon Army.

"It's the monster army."

Jiang Li frowned and murmured, "It seems that the demon Army went around the Qingshan mountains, crossed the Qingling Lake, and entered the territory of Jinwang County."

"They are planning to invade from Jinwang County."

"I just happened to bump into it."

"Thearch-crocodile Army, get ready for battle."

stop! Jiang Li shouted.

“Yes.”

Yndeyq01 nodded.

The current situation ...

It was too late for Jiang Li to send reinforcements from the great Xia city, so he could only rely on the crocodile Emperor Legion. There were many monsters in the monster army, and there must be level-three monsters.

if necessary, I can only use the level-three soul Tinder to upgrade to a level-three troop class.

Jiang Li thought.

Shua!

The Dominator panel opened.

In the energy points column.

Jiang Li's energy points had increased from 1267300 to 10003100 points. He now had more than ten million points.

Among them.

2542500 energy points were recovered from the scrap of the meches, 4301700 energy points were obtained from converting the resources of Dachang city and Yonghe City, and 208400 energy points were used for the war and upgrading a few meches.

10 million energy points are more than enough for now, although it's not enough to use for an Army.

Jiang Li thought to himself.

In the county city of King Jin County.

The artillery positions of the mechanical artilleries had only just been set up.

The 300,000-strong demon Army led by Qi Wangyan had already arrived at the city of Jinwang County. The Army's formation was arranged, and the beasts in the formation were roaring.

Roar! Roar! Roar!

It could be seen.

The 300,000-strong demon Army formed three Grade 2 battle formations. Speed army formation, defense army formation, and attack army formation.

Among them.

[speed army formation] could increase the attack speed and frequency of the demon soldiers. The Army formation beast formed by the Army formation was a Giant Eagle with a completely black body.

It was called the rank two black wind Eagle army formation.

The defensive formation.

As the name suggested.

It could strengthen the defense of the demon soldiers and block powerful attacks. The light curtain of the Army formation covered the entire Army and could block long-range attacks.

The beast that formed the battle formation was a giant alligator snapping turtle with the head of an alligator.

It was called the type 2 snapping turtle army formation.

Finally.

Attack the Army formation.

A ferocious beast condensed from military killing intent. It has a huge body and its entire body is burning with black flames. It has the body of a Lion and the head of a flood Dragon.

The flood Dragon Flame Lion.

It could increase the attack power of demon soldiers.

It was called the grade 2 blazing flood Dragon and Lion army formation.

Under the enhancement of the three stage 2 military formations, the abilities of the demon Army had a qualitative leap. They could be raised by at least a small realm.

Other than that.

Qi Wangyan was a perfected-stage Tier 3 demon expert. He also had two mid-stage Tier 3 Deputy generals and three early-stage Tier 3 army commanders under him.

There were a total of six rank three experts.

Further down.

That would be a perfected stage two demon soldier commander.

this Army is so fast. The mechanical artilleries didn't even have time to use their long-range artillery advantage before they arrived.

“This battle won't be easy to win.”

Jiang Li looked at the holographic image and clearly saw the 300000 demon soldiers outside the city. They were in high spirits and gave Jiang Li a lot of pressure.

“Why did so many demons suddenly appear in Xuanji?”

On the city wall.

Luo Ming looked at the demon Army outside the city in fear. His face was pale and his legs were trembling. Not only Luo Ming, but the soldiers of Jinwang County around him were also terrified.

One had to know.

There were only about 30000 soldiers left out of the 50000 soldiers who stayed in the city. They had surrendered to Jiang Li and were killed by his mech Army.

now.

The 300,000-strong demon Army was approaching the city.

They had not even started fighting, and their morale was already completely gone.

“It's over, it's over, it's all over.”

“Three hundred thousand! This was an Army of 300000 demon soldiers! Even if King Jin's entire Army is here, they might not be able to defend the county!”

“We're dead! We're dead!”

“.....”

The soldiers and commanders were also in despair.

“.....”

Jiang Li frowned. He saw the reactions of the soldiers and commanders through the holographic communication. the soldiers of Jinwang County are unreliable.

“Compared to the soldiers of celestial water city, they are not just a little bit weaker.”

In the demon Army.

“Commander-in-Chief, everything is ready,”

Said Qing Luo, the military advisor of the demon soldiers.

“Let’s test it out with the archers first.”

Qi Wangyan waved his hand.

“Yes!”

“Archers, get ready!”

“Fire!”

Whoosh! Whoosh! “Whoosh!”

At the rear of the demon Army.

The Archer Corps.

The longbow was pulled into a full moon.

In that instant.

It was an overwhelming number of sharp arrows that covered the sky and fell towards the city of Jinwang County, killing the soldiers on the city wall.

“Electric energy control!”

“Dada Dada Dada Dada!”

Kachaa! Kachaa!

The numerous electric meches waved their hands and used their skills. Countless electric lights flashed and interweaved into an electric net that covered the sky.

The sharp arrows were torn apart by the electric net after they fell.

At the same time.

The firearm meches raised their machine guns and aimed at the sky. The bullets formed a rain of bullets, knocking away a large number of sharp arrows.

Pfft! Pfft!

“Ah!”

but ...

There were still arrows that broke through the blockade and killed many soldiers from Jinwang County. Some meches were also shot by the sharp arrows and their damage increased.

“What?”

“That’s lightning?”

“What’s with those weapons?”

In the demon Army.

Qi Wangyan and the other demon soldier commanders saw the counterattack in the city of Jinwang County, the intertwining electric net in the sky, and the weapons.

He was instantly bewildered.

“When did Jinwang County develop such a weapon?”

Qi Wangyan frowned. if I’m not wrong, only Jiang Li’s Army has those special weapons.

“Why would it appear in the city of Jinwang County?”
